PRESS RELEASE

Eni: Strategic Agreement for the Management of Galp Reached

Lisbon, December 29, 2005 - REN, Eni and Amorim Energia signed today in Lisbon a shareholders' agreement for the management of Galp until 2010. The agreement allows for Caixa Geral De Depositos to enter the agreement with at least 1% of Galp's capital.

The agreement is subject to EU antitrust approval which is expected in the first quarter of 2006.

The key terms of the agreement are:

Agreement on long term strategic plan for Galp aimed at creating a Portuguese champion in Iberia in the areas of (i) Natural gas, (ii) oil refining and distribution, (iii) increasing Galp's upstream exploration and production of oil, and (iv) enter the power sector in Portugal in accordance with the energy bill passed by the Portuguese Government.

The Portuguese State has confirmed its intention to execute an IPO of Galp during 2006. To this effect it has already notified Galp to initiate the process of listing the shares, also with the support of its shareholders.

Agreement to sell to REN the regulated Natural gas assets of Galp within a maximum term of 18 months from the date of entering into force of the agreement.

Amorim Energia has entered into a put/call mechanism to acquire REN's stake in Galp upon the sale to REN of the regulated assets.

Following the Amorim Energia acquisition of REN's stake and the entry of Caixa Geral De Depositos, Eni, Amorim Energia and Caixa Geral De Depositos will hold together more than two thirds of the capital of Galp.

The Minister of Economy Mr. Manuel Pinho said: "Finally we created the conditions for Galp to have a stable shareholding structure for next years in order to successfully achieve an IPO in 2006.

We have solved a problem we had inherited and that many thought had no solution. We solved it correctly.

There is a time to make our own points and defend the State's interests, now is the time of uniting all the Galp shareholders and jointly invest with no reservations whatsoever in the setting of a better climate for the company to succeed."

Table of Contents

Mr. Scaroni, CEO of Eni said: "I am very satisfied with the agreement reached with the Portuguese State, REN and with Amorim Energia for the future management of Galp. Galp is a strategic investment for Eni and today we have ensured that the Company has a stable shareholding structure for the long term. The new agreement that we have reached this evening after a complex negotiation is in line with our stated objectives: (i) to privatize Galp through an IPO, (ii) for Eni to be the international industrial partner of Galp through its 33.34% ownership, (iii) to co-manage the company to implement a growth strategy in refining and marketing, in gas and in upstream."

Mister Amorim, Chairman of Amorim Energia said: "This agreement leads the way for Galp to enter into a new phase of its development. The business expansion, namely in the Iberian peninsula and in Portuguese speaking countries, in particular Angola and Brazil, will become a reality in the short term. In order to achieve such goal, Amorim Energia relies on the unconditional support of its shareholders, Sonangol and Caixa Galicia, as well as on a common strategic view for Galp Energia that has been agreed with Eni and the other shareholders."

PRESS RELEASE

Eni announces an ADR ratio change

San Donato Milanese (Milan), December 22, 2005 - Eni SpA ("Eni" - NYSE: E), the Italian oil & gas company, announced that it will be changing its current American Depositary Receipt (ADR) ratio, effective January 10, 2006.

The ratio will change from the current 1 American Depositary Share (ADS) per 5 ordinary shares to 1 ADS per 2 ordinary shares. To effect this change, ADR holders will receive 1.5 additional ADSs for every one ADS held as of December 30, 2005, the record date. Cash proceeds will be paid by the depositary in lieu of fractional entitlements where appropriate. Existing ADRs will continue to be valid and will not have to be exchanged for new ADRs.

Commenting on the ADR ratio change, Paolo Scaroni, Eni's Chief Executive Officer, said: "Eni's ADR price has increased more than 2 times since the last ADR ratio change in May 2001. By adopting this new ADR ratio, Eni aims to appeal to a wider investor audience and increase the liquidity of its ADRs on the New York Stock Exchange."
