JA Solar Reports Third Quarter 2008 Results

Third Quarter 2008 Highlights

- \* Revenue increased 149 percent to RMB 2.12 billion or \$312.3 million, compared with RMB 850.0 million or \$125.2 million in Q3 2007
- \* Total gross profit increased 130 percent to RMB 458.1 million or \$67.5 million, compared with RMB 199.3 million or \$29.4 million in Q3 2007
- \* Gross margin of 21.6 percent, compared with 23.45 percent in Q3 2007 and 23.3 percent in Q2 2008
- \* Income from operations increased 154 percent to RMB 433.3 million or \$63.8 million, compared with RMB 170.4 million or \$25.1 million in Q3 2007
- \* GAAP net loss of RMB 0.92 or a loss of \$0.13 per basic ADS and fully diluted ADS of RMB 2.47 or \$0.36, compared with basic ADS net income of RMB 1.20 or \$0.18 and fully diluted ADS of RMB 1.18 or \$0.17 in Q3 2007
- \* Non-GAAP net income of RMB 1.75 or \$0.26 per basic ADS and fully diluted ADS of RMB 1.61 or \$0.24, adjusted for stock-based compensation, change in fair value of certain non-cash derivative gain and loss and impairment loss on available-for-sale securities (Please refer to reconciliation on page 9)
- \* Shipped 99.1 MW of solar cells during the quarter, compared with 43.8 MW in Q3 2007
- \* Cash and cash equivalents were RMB 1.69 billion or \$248.8 million.

Hebei, China, Nov. 12, 2008 -- JA Solar Holdings Co., Ltd., (Nasdaq:JASO) a fast-growing manufacturer of high-performance solar cells, today reported financial results for its third quarter ended Sept. 30, 2008.

“We are pleased with our third quarter results, in which revenue, gross profit and income from operations increased sequentially. We shipped 99.1 MW of solar cells, more than twice the amount we shipped in the same quarter a year ago,” said Samuel Yang, chief executive officer of JA Solar.

"JA Solar will remain a strong industry player, but we realize we are not immune from the worldwide financial situation. We will be conservative as we ramp production, but we will be aggressive in securing strategic partnerships and in enhancing our customer and supplier relationships to extend our industry leadership.

“Looking ahead, we expect that our tolling business, which carries with it a lower ASP, will represent an increasing portion of our revenue in the coming quarters. Our fourth quarter 2008 and full year 2009 guidance reflect the assumption of the increased tolling revenue.

"We are carefully managing the company for continued profitability in 2009. With our low cost basis, strong support from our suppliers, and ongoing success in broadening and diversifying our customer base, we believe we can achieve gross margins of at least 16 percent for the full year of 2009, with upside likely as we solidify and strengthen our operations during these uncertain times. JA Solar will continue to prosper, even if the current market conditions remain for an extended period. We will be able to capitalize on opportunities that weaker companies leave behind, and extend our market share and profitability even further," he said.

### Third Quarter 2008 Results

Summary of megawatts produced and shipped (includes cell processing service)

Megawatts	September 30, 2007	Three months ended	
		June 30, 2008	September 30, 2008
Produced	44.6 MW	66.1 MW	102.9 MW
Shipped	43.8 MW	65.7 MW	99.1 MW
Cost per watt excluding wafer cost	US\$ 0.224/Wp	US\$ 0.205/Wp	US\$ 0.234/Wp

Total revenue in the third quarter of 2008 was RMB 2.12 billion or \$312.3 million, an increase of 149.5 percent from third quarter of 2007 revenue of RMB 850.0 million or \$125.2 million, and an increase of 71.5 percent from the second quarter of 2008 revenue of RMB 1.24 billion or \$182.1 million.

Total gross profit in the third quarter of 2008 was RMB 458.1 million or \$67.5 million, compared with RMB 199.3 million or \$29.4 million in the third quarter 2007, and RMB 288.4 million or \$42.5 million in the second quarter 2008. Gross margin was 21.6 percent in the third quarter 2008, compared with 23.45 percent in the third quarter 2007, and 23.3 percent in the second quarter 2008.

Interest expense in the third quarter of 2008 was RMB 63.5 million or \$9.4 million, compared with RMB 1.3 million or \$0.19 million in the third quarter of 2007. This compares with RMB 32.9 million or \$4.9 million in the second quarter of 2008.

Net loss available to ordinary shareholders in the third quarter 2008 was RMB 142.8 million or \$21.0 million, compared with net profit of RMB 165.9 million or \$24.4 million in the third quarter 2007, and RMB 318.6 million or \$46.9 million in the second quarter 2008.

Basic and diluted loss per ADS was RMB 0.92 or \$0.13 and RMB 2.47 or \$0.36, respectively. This compares with basic and diluted net income per ADS of RMB 1.20 or \$ 0.18 and RMB 1.18

or \$ 0.17, respectively, in the same period of 2007; and RMB 2.06 or \$0.30 and RMB -0.04 or \$-0.01, respectively, in the second quarter 2008.

The bankruptcy of Lehman Brothers and its affiliates had a material impact on our third quarter net income and EPS. Firstly, the company recorded a \$100 million other than temporary impairment adjustment against short term investments purchased from Lehman Brothers Treasury Co. B.V. ("Lehman Treasury") due to its bankruptcy and related default on repayment of this investment at maturity of 9th October 2008. Further in connection with the senior convertible notes offering, JA Solar entered into a 6.56 million share lending agreement with Lehman Brothers International (Europe) ("Lehman Europe"). Under the share lending agreement with Lehman Europe, the shares must be returned to the Company no later than May 15, 2013, the maturity date of the senior notes. Until that time, the shares are considered to be issued and outstanding for corporate law purposes. Under current accounting rules, since there was an obligation of Lehman Europe to return the borrowed shares, such shares would have been excluded from the company's per share calculation. However, due to the recent bankruptcy filing by Lehman Europe, the Company will now include these shares in its per share calculation on a weighted average basis. Approximately 1.1 million shares were included in the per share computation for the third quarter related to the Lehman Europe share lending arrangement. Also in connection with the senior note offering, JA Solar entered into a capped call transaction with Lehman Brothers OTC Derivatives Inc. ("Lehman OTC") and the company recorded a \$7.35 million loss in Q3 given Lehman OTC bankruptcy.

The third quarter 2008 included share-based compensation expense of RMB -18.1 million or -\$2.7 million, including a reversal of RMB 52.6 million in previously recognized stock-based compensation for the resignation of COO Dr. Sun and other employees in the third quarter of 2008.

In the third quarter 2008, on a non-GAAP basis, adjusted to exclude stock-based compensation, changes in fair value of the embedded derivatives underlying the senior convertible notes and capped call options, and impairment loss on available-for-sale securities, non-GAAP basic and diluted net income per ADS were RMB 1.75 or \$0.26 and RMB 1.61 or \$0.24, respectively. This compares with non-GAAP basic and diluted net income per ADS of RMB 1.31 or \$0.19 and RMB 1.29 or \$0.19, respectively, in the same period of 2007; and RMB 1.04 or \$0.15 and RMB 0.99 or \$0.15, respectively, in the second quarter 2008. Please refer to Note 3 set forth at the end of this release.

#### Third Quarter 2008 Balance Sheet

At Sept. 30, 2008, JA Solar had cash and cash equivalents of RMB 1.69 billion or \$248.8 million, compared with RMB 794.1 million or \$117.0 million at the end of the third quarter 2007, and RMB 3.57 billion or \$525.1 million at the end of the second quarter 2008.

Capital expenditures were RMB 142.5 million or \$21.0 million in the third quarter 2008, compared with RMB 144.3 million or \$21.2 million in the third quarter 2007, and RMB 264.1 million or \$38.9 million in the second quarter 2008. Depreciation and amortization expenses in the third quarter 2008 were RMB 23.7 million or \$3.5 million, as compared with RMB 10.7 million or \$1.6 million in the third quarter 2007, and RMB 16.4 million or \$2.4 million in the second quarter 2008.

“In the third quarter, operating profit more than doubled both sequentially and year over year, demonstrating our ongoing strong financial performance and controls,” said Daniel Lui, chief financial officer of JA Solar.

“We ended the quarter with a strong cash position of RMB 1.69 billion or \$248.8 million. We believe that the combination of cash on hand with an average operating cash flow of at least 10 percent as a percentage of revenue, will be more than enough to finance our production ramp, including the pre-payments to suppliers, throughout 2009,” he said. “We will be cautious as we build out new production lines, but we will continue to invest in process improvements to enable future cost reductions. In the fourth quarter and in 2009, we continue to expect to generate net cash inflows from operations.

"Liquidity of the company is and will stay strong in the foreseeable future. Not only do we receive strong credit support from local banks, future minimum prepayment obligations are expected to be substantially less than the contractual \$260 million as the silicon material/wafer supplies become abundant as a result of the global market downturn. Further, to achieve 1GW nameplate capacity by the end of 2009, an additional investment of only RMB 850 million or \$125 million would be necessary. We expect to invest approximately RMB 210 million or \$30.9 million in R&D throughout next year. But as Samuel said, we will be cautious in our production ramps and capacity expansion, as we wait to see how orders are flowing before we commit new capital," he said.

The conversion of Renminbi into U.S. dollars in this release, made solely for the convenience of the reader, is based on the noon buying rate in The City of New York for cable transfers of Renminbi as certified for customs purposes by the Federal Reserve Bank of New York as of Sept. 30, 2008, which was RMB 6.7899 to \$1.0000. No representation is intended to imply that the Renminbi amounts could have been, or could be, converted, realized or settled into U.S. dollars at that rate on Sept. 30, 2008, or at any other date. The percentages stated in this press release are calculated based on Renminbi.

#### 2008 Outlook

Based on current market conditions, the devaluation of the Euro and other global financial uncertainties, the company expects revenue for the fourth quarter to be approximately RMB 1.3 billion or \$191.5 million to RMB 1.5 billion or \$220.9 million. The gross margin in the fourth quarter is expected to be between 5 and 7 percent; non-GAAP earnings per basic and diluted ADS are expected to be approximately break-even.

JA Solar's target for total production output has been updated to 310 MW for 2008, with the nameplate annual production expected to be 600 MW by the end of this year.

#### 2009 Outlook

The company updated 2009 guidance based on market forecasts and the financial environment. For the full year 2009, revenue is expected to be in the range of RMB 10.0 billion or \$1.5 billion to RMB 11.6 billion or \$1.7 billion. Full-year gross margins are expected to be at least 16 percent. Non-GAAP earnings per basic ADS are expected to be at least 1.00 and diluted ADS are expected to be \$0.90.

Total production output is expected to be approximately 800MW with total production capacity projected to exceed 1GW by the end of 2009.

#### Investor Conference Call / Webcast Details

A conference call has been scheduled for today, Wednesday, Nov. 12, 2008 at 8:00 am Eastern time. The call may be accessed by dialing 1.888.989.3484 or 1.517.308.9407 (international). The passcode is JA Solar. A live webcast of the conference call will be available on the company's website at [www.jasolar.com](http://www.jasolar.com). A replay of the call will be available beginning two hours after the live call and will be accessible by dialing 1.800.944.1558 or 1.203.369.3871 (international). The passcode for the replay is 5276 (JASO).

#### About JA Solar Holdings Co., Ltd.

Based in Hebei, JA Solar Holdings Co., Ltd. is a fast-growing manufacturer of high-performance solar cells. The company sells its products to solar module manufacturers who assemble and integrate its solar cells into modules and systems that convert sunlight into electricity. For more information, please visit <http://www.jasolar.com>.

#### Forward-looking Statement

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by words such as "will," "may," "expect," "anticipate," "aim," "intend," "plan," "believe," "estimate," "potential," "continue," and other similar statements. Statements other than statements of historical facts in this announcement are forward-looking statements, including but not limited to, our expectations regarding the expansion of our manufacturing capacities, our future business development, and our beliefs regarding our production output and production outlook. These forward-looking statements involve known and unknown risks and uncertainties and are based on current expectations, assumptions, estimates and projections about the Company and the industry. Further information regarding these and other risks is included in our registration statement on Form F-1 and other documents filed with the Securities and Exchange Commission. The Company undertakes no obligation to update forward-looking statements, except as may be required by law. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, it cannot assure you that its expectations will turn out to be correct, and investors are cautioned that actual results may differ materially from the anticipated results.

#### About Non-GAAP Financial Measures

To supplement its consolidated financial results presented in accordance with GAAP, JA Solar uses the following non-GAAP measures which are adjusted from the most directly comparable GAAP results to exclude items related to share-based compensation, change in fair value of the embedded derivatives underlying the senior convertible notes and capped call options and impairment loss on available-for-sale securities which arose from the company's stock price movement. JA Solar believes that non-GAAP information is useful for analysts and investors to evaluate JA Solar's future on-going performance because they enable a more meaningful comparison of JA Solar's projected cash earnings and performance with its peers and historical results from prior periods. This information is not intended to

represent funds available for JA Solar's discretionary use and not intended to represent or to be used as a substitute for gross

5

---

profit/margin, operating expenses, operating income or net income as measured under GAAP. This non-GAAP measure is not in accordance with or an alternative for GAAP financial data, the non-GAAP results should be reviewed together with the GAAP results and are not intended to serve as a substitute for results under GAAP, and may be different from non-GAAP measures used by other companies. For more information on this non-GAAP financial measure, please see the tables captioned "Note 3. Reconciliation of non-GAAP results of operations measure to the nearest comparable GAAP measures" set forth at the end of this release and which shall be read together with the preceding financial statements prepared under GAAP.
