Xicheng District,
Beijing, 100031 PRC

This Form 6-K consists of:

An announcement on power generation for the first half of 2010 of Huaneng Power International, Inc. (the “Registrant”), made by the Registrant on July 15, 2010.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

POWER GENERATION INCREASES 38.01%
FOR THE FIRST HALF YEAR OF 2010

This announcement is made pursuant to Rules 13.09(1) and (2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announced its power generation for the first half of 2010.

According to the Company's preliminary statistics, as of 30 June 2010, the Company's total domestic power generation within China on consolidated basis amounted to 118.836 billion kWh, representing an increase of 38.01% over the same period last year. Accumulated on-grid electricity sold amounted to 112.014 billion kWh. The increase in power generation of the Company was mainly attributable to the following reasons:

1. the Company has increased its sales efforts, thereby grasping the growth trend of the national economy in 2010 and the favourable conditions for substantial increase in the national electricity demand, expanding various marketing channels and increasing power generation;
 2. under the impact of the global financial crisis, the national electricity demand for the first half year of 2009 was depressed. The base number of the power generation was relatively lower, resulting in a relatively higher growth in 2010 as compared to the same period of last year; and
 3. the electricity generation contributable by the newly operating generating units and the
-

newly acquired power plants during the second half year of 2009.

The power generation/on-grid electricity sold by each of the Company's domestic power plants in the first half of 2010 are listed below (in billion kWh):

Domestic Power Plant	Power generation for the first half year of 2010	Power generation for the first half year of 2009	Change	On-grid electricity sold for the first half year of 2010
