Information Concerning Forward-Looking Statements

Certain statements regarding the expectations of Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”), including, but not limited to, statements regarding capital investment, depreciation and amortization, interest expense, debt reduction, pension plan contributions and postretirement health care benefit payments, in this report constitute “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties that could cause actual results to differ materially from the Company’s historical experience and its present expectations. These risks and uncertainties include, but are not limited to, inflation of and volatility in raw material and energy costs, continuing pressure for lower cost products, the Company’s ability to implement its business strategies, including productivity initiatives and cost reduction plans, the Company’s debt level, currency movements and other risks of conducting business internationally, and the impact of regulatory and litigation matters, including those that could impact the Company’s ability to utilize its net operating losses to offset taxable income and those that impact the Company’s ability to protect and use its intellectual property. Undue reliance should not be placed on such forward-looking statements, as such statements speak only as of the date on which they are made and the Company undertakes no obligation to update such statements. Additional information regarding these and other risks is contained in Part I, “Item 1A., Risk Factors” of the Company’s 2013 Annual Report on Form 10-K, and in other filings with the Securities and Exchange Commission.

GRAPHIC PACKAGING HOLDING COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 — GENERAL INFORMATION

Nature of Business and Basis of Presentation

Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”) is a leading provider of packaging solutions for a wide variety of products to food, beverage and other consumer products companies. The Company is the largest U.S. producer of folding cartons and holds a leading market position in coated unbleached kraft paperboard, coated-recycled boxboard and multi-wall bags. The Company’s customers include many of the most widely recognized companies and brands with prominent market positions in beverage, food, and other consumer products. The Company strives to provide its customers with packaging solutions designed to deliver marketing and performance benefits at a competitive cost by capitalizing on its low-cost paperboard mills and converting plants, its proprietary carton and packaging designs, and its commitment to quality and service.

GPHC and Graphic Packaging Corporation (“GPC”) conduct no significant business and have no independent assets or operations other than GPHC’s ownership of all of GPC’s outstanding common stock, and GPC’s ownership of all of the outstanding common stock of Graphic Packaging International, Inc. (“GPII”).

The Company’s Condensed Consolidated Financial Statements include all subsidiaries in which the Company has the ability to exercise direct or indirect control over operating and financial policies. Intercompany transactions and balances are eliminated in consolidation.

In the Company’s opinion, the accompanying Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary to present fairly the financial position, results of operations and cash flows for the interim periods. The Company’s year end Condensed Consolidated Balance Sheet data was derived from audited financial statements. The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all the information required by accounting principles generally accepted in the United States of America (“U.S. GAAP”) for complete financial statements. Therefore, these Condensed Consolidated Financial Statements should be read in conjunction with GPHC’s Form 10-K for the year ended December 31, 2013. In addition, the preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates and changes in these estimates are recorded when known.

For a summary of the Company’s significant accounting policies, please refer to GPHC’s Form 10-K for the year ended December 31, 2013.

Accounts Receivable and Allowances

The Company has entered into various factoring and supply chain financing arrangements, principally at the request of customers, which qualify for sale accounting in accordance with the Transfers and Servicing topic of the Financial

Accounting Standards Board ("FASB") Accounting Standards Codification ("the Codification"). For the periods ended June 30, 2014 and December 31, 2013, the Company sold receivables of approximately \$125 million and \$97 million, respectively, from the factoring arrangements. Amounts transferred subject to continuing involvement at June 30, 2014 and December 31, 2013 were approximately \$48 million and \$20 million, respectively.

Equity Secondary Offerings

During the second quarter of 2014, certain shareholders of the Company sold 43.7 million shares of common stock in a secondary public offering at \$10.45 per share. The shares were sold by certain affiliates of TPG Capital, L.P. (the "TPG Entities") and certain Coors family trusts and the Adolph Coors Foundation. Following this sale, these shareholders no longer hold shares of the Company's common stock.

During the first quarter of 2014, certain shareholders of the Company sold 30 million shares of common stock in a secondary public offering at \$9.85 per share. The shares were sold by TPG Entities, Clayton, Dubilier & Rice Fund V Limited Partnership (the "CD&R Fund") and Old Town, S.A. ("Old Town"). As a result of these actions, the CD&R Fund and Old Town no longer hold shares of the Company. The TPG Entities and certain Coors family trusts and the Adolph Coors Foundation held approximately 13% of shares outstanding.

Table of Contents

Restructuring and Other Special Charges

The following table summarizes the transactions recorded in Restructuring and Other Special Charges in the Consolidated Statements of Operations:

In millions	Three Months Ended		Six Months Ended	
	June 30, 2014	2013	June 30, 2014	2013
Loss on Sale of Assets	\$164.5	\$—	\$170.4	\$—
Charges Associated with Business Combinations	4.3	6.7	5.9	7.5
Other Special Charges	2.3	1.6	2.6	2.2
Total	\$171.1	\$8.3	\$178.9	\$9.7

In connection with the Company's strategy to focus on core assets, on June 30, 2014, the Company completed the sale of its multi-wall bag business. The financial impact of this transaction is reflected in loss on Sale of Assets in the above table. Approximately \$263 million of assets were disposed of, consisting of net working capital of \$75 million, fixed assets of \$104 million, goodwill of \$8 million and intangible assets of \$76 million. In 2013, the multi-wall bag business net sales were approximately \$440 million or approximately 10% of Consolidated Net Sales and are reported in the flexible packaging segment. Assets of approximately \$27 million related to the facility that was previously part of the flexible packaging segment were retained by the Company.

On May 23, 2014, the Company completed its acquisition of U.K.-based Benson Group ("Benson"). Charges associated with the acquisition are reflected in Charges Associated with Business Combinations in the above table. For more information regarding the acquisition of Benson, see "Note 3-Acquisitions".

On February 3, 2014, the Company completed the sale of its labels business. The financial impact of this transaction is reflected in Loss on Sale of Assets in the above table. Approximately \$47 million of goodwill and \$17 million of intangible assets were written off relating to the sale. The labels business was part of the Paperboard Packaging segment and accounted for approximately 1% of Consolidated Net Sales.

Adoption of New Accounting Standards

Effective January 1, 2014, the Company adopted revised guidance on the Income Taxes topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("the FASB Codification") which requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to the deferred tax asset for a net operating loss carryforward, or similar tax loss, or a tax credit carryforward. The adoption did not have any impact on the Company's financial position, results of operations or cash flows.

Effective January 1, 2014, the Company adopted Accounting Standards Update (ASU) No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in the ASU change the criteria for reporting discontinued operations and requires new disclosures for discontinued operations and for significant disposals of components of an entity that do not qualify for discontinued operations reporting. The adoption impacted the presentation of the consolidated financial statements related to disposals in 2014.

New Accounting Pronouncements

On May 28, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. Adoption of ASU No. 2014-09 requires that an entity recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in this ASU are effective for the annual reporting period beginning after December 15, 2016 and early adoption is not permitted. The Company is currently evaluating the impact of adoption on the Company's financial position, results of operations and cash flows.

Table of Contents

NOTE 2 — INVENTORIES, NET

Inventories, Net by major class:

In millions	June 30, 2014	December 31, 2013
Finished Goods	\$257.7	\$288.3
Work in Progress	53.0	49.2
Raw Materials	144.1	149.7
Supplies	67.9	69.9
Total	\$522.7	\$557.1

NOTE 3 — ACQUISITION

On May 23, 2014, the Company acquired Benson, a leading food, retail and health care packaging company in the United Kingdom. Under the terms of the transaction, the Company paid \$190.7 million in an all cash transaction funded with existing cash and borrowings under the Company's revolving line of credit. Benson operated four folding carton facilities that converted approximately 80,000 tons of paperboard annually into folding cartons for the food, beverage and healthcare products industries. The acquisition and associated goodwill are included in the paperboard packaging segment. This transaction is herein referred to as the "Benson Acquisition".

The purchase price of the Benson Acquisition has been preliminarily allocated to the assets acquired and liabilities assumed based on the estimated fair values as of the purchase date and is subject to adjustments in subsequent periods once the third party valuation is completed. Management believes that the purchase price attributable to goodwill represents the benefits expected as a result of the acquisition as the Benson Acquisition was made to continue to grow the European food and beverage business, to expand the Company's presence in store brand packaging and to further optimize the Company's supply chain footprint. The Company incurred and expensed transaction costs of \$4.2 million related to the Benson Acquisition.

The Company does not expect the goodwill recorded to be deductible for tax purposes. The preliminary purchase price allocation is as follows:

In millions	
Purchase Price	\$ 190.7
In millions	
Cash and Cash Equivalents	\$ 16.9
Receivables, Net	44.7
Inventories	16.3
Other Current Assets	7.3
Property, Plant and Equipment, Net	25.5
Total Assets Acquired	110.7
Current Liabilities, Excluding Current Portion of Long-Term Debt	36.3
Deferred Tax Liabilities	1.5

Total Liabilities Assumed	37.8
Net Assets Acquired	72.9
Goodwill	117.8
Total Estimated Fair Value of Net Assets Acquired	\$190.7

Table of ContentsGRAPHIC PACKAGING HOLDING COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 4 — DEBT

On June 16, 2014, GPII entered into Amendment No. 3 to the Amended and Restated Credit Agreement with a syndicate of lenders consisting primarily of commercial banks (the "Credit Agreement"). This Amendment No. 3 increased the revolving credit facilities under which borrowings may be made in Sterling or Euro by €63.0 million (approximately \$86 million). The fees of \$0.2 million were deferred and will be amortized over the term of the credit facilities.

For more information regarding the Company's debt, see "Note 5 — Debt" of the Notes to Consolidated Financial Statements of the Company's 2013 Form 10-K.

Long-Term Debt is composed of the following:

In millions	June 30, 2014	December 31, 2013
Senior Notes with interest payable semi-annually at 7.875%, payable in 2018 (\$250.0 million face amount)	\$247.5	\$247.3
Senior Notes with interest payable semi-annually at 4.75%, payable in 2021	425.0	425.0
Senior Secured Term Loan Facility with interest payable at various dates at floating rates (1.90% at June 30, 2014) payable through 2018	1,183.9	1,214.6
Senior Secured Revolving Facilities with interest payable at floating rates (2.00% at June 30, 2014) payable in 2018	445.6	344.3
Capital Lease Obligations	4.2	5.6
Other	12.1	16.8
Total Debt	2,318.3	2,253.6
Less: Short-Term Debt and Current Portion of Long-Term Debt	73.0	77.4
Total Long-Term Debt	\$2,245.3	\$2,176.2

At June 30, 2014, the Company and its U.S. and international subsidiaries had the following commitments, amounts outstanding and amounts available under revolving credit facilities:

In millions	Total Commitments	Total Outstanding	Total Available
Domestic Revolving Credit Facility ^(a)	\$ 1,000.0	\$300.0	\$673.9
International Facilities	248.6	157.6	91.0
Total	\$ 1,248.6	\$457.6	\$764.9

In accordance with its debt agreements, the Company's availability under its revolving credit facilities has been reduced by the amount of standby letters of credit issued of \$26.1 million as of June 30, 2014. These letters of credit are used primarily as security against its self-insurance obligations and workers' compensation obligations. These letters of credit expire at various dates through mid-2015 unless extended.

The Credit Agreement and the indenture governing the 7.875% Senior Notes due 2018 and the 4.75% Senior Notes due 2021 (the "Indenture") limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Credit Agreement and the Indenture, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, make dividend and other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the Indenture, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Credit Agreement, the Company must comply with a maximum consolidated total leverage ratio and a minimum consolidated interest coverage ratio. The Company's obligations under the Credit Agreement are secured by substantially all of the Company's domestic assets.

As of June 30, 2014, the Company was in compliance with the covenants in the Credit Agreement and the Indenture.

NOTE 5 — STOCK INCENTIVE PLANS

Table of Contents

As of May 21, 2014, the Company has one active equity compensation plan from which new grants may be made, the Graphic Packaging Holding Company 2014 Omnibus Stock and Incentive Compensation Plan (the "2014 Plan"). Prior to the approval of the 2014 Plan and the expiration of the Graphic Packaging Holding Company Amended and Restated 2004 Stock and Incentive Compensation Plan (the "2004 Plan"), the Company made all new grants under the 2004 Plan. Awards previously granted under the 2004 Plan generally vest and expire in accordance with terms established at the time of grant. Shares issued pursuant to awards under the 2004 Plan are from the Company's authorized but unissued shares. Compensation costs are recognized on a straight-line basis over the requisite service period of the award.

Stock Awards, Restricted Stock and Restricted Stock Units

The Company's 2014 and 2004 Plans permit the grant of stock awards, restricted stock and restricted stock units ("RSUs"). Generally, all RSUs vest and become payable in three years from date of grant. RSUs granted to employees generally contain performance conditions based on various financial targets and service requirements that must be met for the shares to vest. Upon vesting, RSUs are payable in shares of common stock. Stock awards granted to non-employee directors as part of their compensation for service on the Board are unrestricted on the grant date.

Data concerning RSUs granted in the first six months of 2014 is as follows:

	Shares	Weighted Average Grant Date Fair Value Per Share
RSUs — Employees	2,095,482	\$ 10.27
Stock Awards — Board of Directors	77,139	10.50

During the six months ended June 30, 2014 and 2013, \$7.9 million and \$11.3 million, respectively, were charged to compensation expense for stock incentive plans.

During the six months ended June 30, 2014 and 2013, approximately 2.3 million and 3.5 million shares were issued, respectively. The shares issued were primarily related to RSUs granted during 2011 and 2010, respectively.

NOTE 6 — PENSIONS AND OTHER POSTRETIREMENT BENEFITS

The Company maintains both defined benefit pension plans and postretirement health care plans that provide medical and life insurance coverage to eligible salaried and hourly retired employees in North America and their dependents. The Company maintains international defined benefit pension plans which are either noncontributory or contributory and are funded in accordance with applicable local laws. Pension or termination benefits are based primarily on years of service and the employees' compensation.

Pension and Postretirement Expense

The pension and postretirement expenses related to the Company's plans consisted of the following:

Pension Benefits	Postretirement Health Care Benefits
------------------	--

Employer Contributions

Table of Contents

GRAPHIC PACKAGING HOLDING COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company made contributions of \$11.9 million and \$13.2 million to its pension plans during the first six months of 2014 and 2013, respectively. The Company expects to make contributions of \$40 to \$60 million for the full year 2014. During 2013, the Company made \$51.5 million of contributions to its pension plans.

The Company made postretirement health care benefit payments of \$1.3 million and \$1.0 million during the first six months of 2014 and 2013, respectively. The Company estimates its postretirement health care benefit payments for the full year 2014 to be approximately \$3 million. During 2013, the Company made postretirement health care benefit payments of \$1.8 million.

NOTE 7 — FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Company enters into derivative instruments for risk management purposes only, including derivatives designated as hedging instruments under the Derivatives and Hedging topic of the FASB Codification and those not designated as hedging instruments under this guidance. The Company uses interest rate swaps, natural gas swap contracts, and forward exchange contracts. These derivative instruments are designated as cash flow hedges and, to the extent they are effective in offsetting the variability of the hedged cash flows, changes in the derivatives' fair value are not included in current earnings but are included in Accumulated Other Comprehensive Income. These changes in fair value will subsequently be reclassified to earnings.

For more information regarding the Company's financial instruments and fair value measurement, see "Note 9 — Financial Instruments, Derivatives and Hedging Activities" and "Note 10 — Fair Value Measurement" of the Notes to Consolidated Financial Statements of the Company's 2013 Form 10-K.

Interest Rate Risk

The Company uses interest rate swaps to manage interest rate risks on future interest payments caused by interest rate changes on its variable rate term loan facility. The differential to be paid or received under these agreements is recognized as an adjustment to Interest Expense related to debt. At June 30, 2014 and December 31, 2013, the Company had interest rate swap agreements outstanding with a notional amount of \$560.0 million. The swap agreements, under which the Company will pay fixed rates of 0.45% to 0.82% and receive one-month LIBOR rates, expire in April 2016.

Changes in fair value will subsequently be reclassified into earnings as a component of Interest Expense, Net as interest is incurred on amounts outstanding under the term loan facility. Ineffectiveness measured in the hedging relationship is recorded in earnings in the period it occurs.

During the first six months of 2014 and 2013, there were minimal amounts of ineffectiveness related to changes in the fair value of interest rate swap agreements. Additionally, there were no amounts excluded from the measure of effectiveness.

Commodity Risk

To manage risks associated with future variability in cash flows and price risk attributable to certain commodity purchases, the Company enters into natural gas swap contracts to hedge prices for a designated percentage of its

expected natural gas usage. Such contracts are designated as cash flow hedges. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss, and the resulting gain or loss is reclassified into Cost of Sales concurrently with the recognition of the commodity consumed. The ineffective portion of the swap contracts' change in fair value would be recognized immediately in earnings. The Company has hedged 67% and 63% of its expected natural gas usage for 2014 and 2015, respectively.

During the first six months of 2014 and 2013, there were minimal amounts of ineffectiveness related to changes in the fair value of natural gas swap contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

Foreign Currency Risk

The Company enters into forward exchange contracts to manage risks associated with future variability in cash flows resulting from anticipated foreign currency transactions that may be adversely affected by changes in exchange rates. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss and gains/losses related to these contracts are recognized in Other Expense (Income), Net when the anticipated transaction affects income.

At June 30, 2014, multiple forward exchange contracts existed that expire on various dates through 2014. Those purchased forward exchange contracts outstanding at June 30, 2014 and December 31, 2013, when aggregated and measured in U.S. dollars at contractual rates at June 30, 2014 and December 31, 2013 had notional amounts totaling \$30.1 million and \$65.3 million, respectively.

No amounts were reclassified to earnings during the first six months of 2014 or during 2013 in connection with forecasted transactions that were no longer considered probable of occurring, and there was no amount of ineffectiveness related to changes in the fair value of foreign currency forward contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

Derivatives not Designated as Hedges

The Company enters into forward exchange contracts to effectively hedge substantially all of its accounts receivable resulting from sales transactions denominated in foreign currencies in order to manage risks associated with foreign currency transactions adversely affected by changes in exchange rates. At June 30, 2014 and December 31, 2013, multiple foreign currency forward exchange contracts existed,

Table of Contents

GRAPHIC PACKAGING HOLDING COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

with maturities ranging up to three months. Those foreign currency exchange contracts outstanding at June 30, 2014 and December 31, 2013, when aggregated and measured in U.S. dollars at exchange rates at June 30, 2014 and December 31, 2013, had net notional amounts totaling \$47.4 million and \$32.5 million, respectively. Unrealized gains and losses resulting from these contracts are recognized in Other Expense (Income), Net and approximately offset corresponding recognized but unrealized gains and losses on these accounts receivable.

Fair Value of Financial Instruments

The Company's derivative instruments are carried at fair value. The Company has determined that the inputs to the valuation of these derivative instruments are level 2 in the fair value hierarchy. Level 2 inputs are defined as quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. The Company uses valuation techniques based on discounted cash flow analyses, which reflect the terms of the derivatives and use observable market-based inputs, including forward rates and use market price quotations obtained from independent derivatives brokers, corroborated with information obtained from independent pricing service providers.

As of June 30, 2014, the Company had a gross derivative liability of \$5.5 million and a gross derivative asset of \$1.2 million, respectively, primarily related to interest rate, foreign currency and commodity contracts.

As of June 30, 2014, there has not been any significant impact to the fair value of the Company's derivative liabilities due to its own credit risk. Similarly, there has not been any significant adverse impact to the Company's derivative assets based on evaluation of the Company's counterparties' credit risks.

The fair values of the Company's other financial assets and liabilities at June 30, 2014 and December 31, 2013 approximately equal the carrying values reported on the Consolidated Balance Sheets except for Total Debt. The fair value of the Company's Total Debt (excluding capital leases) was \$2,338.4 million and \$2,267.6 million as compared to the carrying amounts of \$2,314.1 million and \$2,248.0 million as of June 30, 2014 and December 31, 2013, respectively. The fair value of the Company's Total Debt, including the Senior Notes, are based on quoted market prices (Level 2 inputs).

The fair value of the Company's assets held for sale at June 30, 2014 and December 31, 2013 was \$10.2 million and \$6.6 million, respectively. The value is recorded at the lower of book value or fair value, less costs to sell. Fair value was determined using the market approach based on the value of similar assets (Level 3 inputs).

The following is a rollforward of pre-tax Accumulated Other Comprehensive (Loss) Income.

In millions

Balance at December 31, 2013	\$(1.3)
Reclassification to Earnings	(1.4)
Current Period Change in Fair Value	(0.7)
Balance at June 30, 2014	\$(3.4)

At June 30, 2014, the Company expects to reclassify approximately \$2.4 million of loss in the next twelve months from Accumulated Other Comprehensive Loss to earnings, contemporaneously with and offsetting changes in the related hedged exposure. The actual amount that will be reclassified to future earnings may vary from this amount as a

result of changes in market conditions.

 (Unaudited)

NOTE 8 — REDEEMABLE NONCONTROLLING INTERESTS

On December 8, 2011, the Company combined its multi-wall bag and specialty plastics packaging businesses with the kraft paper and multi-wall bag businesses of Delta Natural Kraft, LLC and Mid-America Packaging, LLC (collectively "DNK"), both wholly owned subsidiaries of Capital Five Investments, LLC ("CVI"). Under the terms of the transaction, the Company formed a new limited liability company, Graphic Flexible Packaging, LLC ("GFP") and contributed its ownership interests in multi-wall bag and specialty plastics packaging subsidiaries to it. CVI concurrently contributed its ownership interests in DNK to GFP. Neither party received cash consideration as part of the transaction. The Company owned 87% of GFP and consolidated its results of operations with the remaining 13% of GFP owned by CVI.

On May 30, 2014, the Company acquired the remaining 13% of GFP from CVI. Prior to May 30, 2014, CVI's noncontrolling interest in GFP was recorded as Redeemable Noncontrolling Interests in the Company's financial statements.

At June 30, 2014, the book value of the redeemable noncontrolling interests was determined as follows:

In millions	
Balance at December 31, 2013	\$ 11.3
Net Loss Attributable to Redeemable Noncontrolling Interests	(0.7)
Other Comprehensive Income, Net of Tax	0.3
Redemption of Noncontrolling Interest	(10.9)
Balance at June 30, 2014	\$—

Prior to May 30, 2014, the calculation of fair value (a Level 3 measurement) of the redeemable noncontrolling interest was determined by using a discounted cash flow analysis based on the Company's forecasts discounted using a weighed average cost of capital and market indicators of terminal year cash flows based upon a multiple of earnings before interest, taxes, depreciation and amortization ("EBITDA").

(Unaudited)

NOTE 9 — INCOME TAXES

During the three and six months ended June 30, 2014, the Company recognized an Income Tax Benefit of \$33.2 million and \$8.4 million, respectively, on Loss before Income Taxes and Equity Income of Unconsolidated Entities of \$74.1 million and \$14.8 million. The effective tax rate for the three and six months ended June 30, 2014 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings including losses in jurisdictions with full valuation allowances, as well as the impact of the writeoff of nondeductible goodwill in connection with the sale of the labels and multi-wall bag businesses and other discrete items of \$4.3 million and \$4.9 million, respectively. During the three and six months ended June 30, 2013, the Company recognized Income Tax Expense of \$11.4 million and \$35.1 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$32.1 million and \$90.1 million, respectively. The effective tax rate for the six months ended June 30, 2013 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings, including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. The Company has approximately \$917 million of Net Operating Losses for U.S. federal income tax purposes, which are currently being used and may be used to offset future taxable income.

NOTE 10 — ENVIRONMENTAL AND LEGAL MATTERS

Environmental Matters

The Company is subject to a broad range of foreign, federal, state and local environmental, health and safety laws and regulations, including those governing discharges to air, soil and water, the management, treatment and disposal of hazardous substances, solid waste and hazardous wastes, the investigation and remediation of contamination resulting from historical site operations and releases of hazardous substances, and the health and safety of employees. Compliance initiatives could result in significant costs, which could negatively impact the Company's consolidated financial position, results of operations or cash flows. Any failure to comply with environmental or health and safety laws and regulations or any permits and authorizations required thereunder could subject the Company to fines, corrective action or other sanctions.

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, potential future closures or sales of facilities may necessitate further investigation and may result in future remediation at those facilities.

The Company has established reserves for those facilities or issues where a liability is probable and the costs are reasonably estimable. The Company believes that the amounts accrued for all of its loss contingencies, and the reasonably possible loss beyond the amounts accrued, are not material to the Company's consolidated financial position, results of operations or cash flows. Currently, the Company expects to spend less than \$10 million, in aggregate, during 2014 and 2015 to achieve compliance with the National Emission Standards for Hazardous Air Pollutants for units at major sources (known as "Boiler MACT"). The Company cannot estimate with certainty other future corrective compliance, investigation or remediation costs. Costs relating to historical usage that the Company

considers to be reasonably possible of resulting in liability are not quantifiable at this time. The Company will continue to monitor environmental issues at each of its facilities, as well as regulatory developments, and will revise its accruals, estimates and disclosures relating to past, present and future operations, as additional information is obtained.

Legal Matters

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

NOTE 11 — SEGMENT INFORMATION

Through June 30, 2014, the Company reported its results in two reportable segments: paperboard packaging and flexible packaging. These segments are evaluated by the chief operating decision maker based primarily on Income from Operations as adjusted for depreciation and amortization. The Company's reportable segments are based upon strategic business units that offer different products. The accounting policies of the reportable segments are the same as those described in GPHC's Form 10-K for the year ended December 31, 2013.

The paperboard packaging segment is highly integrated and includes a system of mills and plants that produce a broad range of paperboard grades convertible into folding cartons. Folding cartons are used primarily to protect products, such as food, detergents, paper products, beverages, and health and beauty aids, while providing point of purchase advertising. The paperboard packaging reportable segment includes the design, manufacture and installation of packaging machinery related to the assembly of cartons, the production and sale of corrugated medium and kraft paper from paperboard mills in the U.S. As previously disclosed, the Company sold its labels business as of February 3, 2014 which was part of the paperboard packaging segment.

The flexible packaging segment produces kraft paper and converts kraft and specialty paper into products which include multi-wall bags, such as pasted valve, pinched bottom, sewn open mouth and woven polypropylene and coated paper. Coated paper products include institutional french fry packaging, barrier punch rollstock and freezer paper. Key end-markets include food and agriculture, building and

Table of Contents

GRAPHIC PACKAGING HOLDING COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

industrial materials, chemicals, minerals and pet food. Flexible packaging paper is used in a wide range of consumer applications. As previously disclosed, on June 30, 2014, the Company sold its multi-wall bag business which is reported in the Flexible Packaging segment. As a result of the sale, the Company is reevaluating its business segment disclosures.

Segment information is as follows:

In millions	Three Months Ended		Six Months Ended	
	June 30, 2014	2013	June 30, 2014	2013
NET SALES:				
Paperboard Packaging	\$987.3	\$972.1	\$1,929.1	\$1,908.2
Flexible Packaging	129.4	167.6	260.3	332.0
Total	\$1,116.7	\$1,139.7	\$2,189.4	\$2,240.2

NOTE 15 — GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

This disclosure is required because certain subsidiaries are guarantors of GPII's debt securities. These consolidating financial statements reflect GPHC and GPC (collectively the "Parent"); GPII, the Subsidiary Issuer; and the Subsidiary Guarantors, which consist of all material 100% owned subsidiaries of GPII other than its foreign subsidiaries; and the nonguarantor subsidiaries (herein referred to as "Nonguarantor Subsidiaries"). The Nonguarantor Subsidiaries include all of GPII's foreign subsidiaries and the subsidiaries of GFP. Separate complete financial statements of the Subsidiary Guarantors are not presented because the guarantors are jointly and severally, fully and unconditionally liable under the guarantees. As of June 30, 2014, the assets retained from the sale of the multi-wall bag business that was

previously part of the flexible packaging segment were transferred from Combined Nonguarantor Subsidiaries to Subsidiary Issuer, see "Note 1- General Information".

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

This management’s discussion and analysis of financial conditions and results of operations is intended to provide investors with an understanding of the Company's past performance, financial condition and prospects. The following will be discussed and analyzed:

Ø Overview of Business

Ø Overview of 2014 Results

Ø Results of Operations

Ø Financial Condition, Liquidity and Capital Resources

Ø Critical Accounting Policies

Ø New Accounting Standards

Ø Business Outlook

OVERVIEW OF BUSINESS

The Company’s objective is to strengthen its position as a leading provider of packaging solutions. To achieve this objective, the Company offers customers its paperboard, cartons and packaging machines, either as an integrated solution or separately. Cartons and carriers are designed to protect and contain products. Product offerings include a variety of laminated, coated and printed packaging structures that are produced from the Company’s coated unbleached kraft (“CUK”) and coated-recycled board (“CRB”), as well as other grades of paperboard that are purchased from third party suppliers. Innovative designs and combinations of paperboard, films, foils, metallization, holographics and embossing are customized to the individual needs of the customers.

Until the sale of its multi-wall bag business on June 30, 2014, the Company has been a leading supplier of flexible packaging in North America. Products include multi-wall bags, such as pasted valve, pinched bottom, sewn open mouth and woven polypropylene, and coated paper. Coated paper products include institutional french fry packaging, barrier pouch rollstock and freezer paper. Key end-markets include food and agriculture, building and industrial materials, chemicals, minerals, and pet foods.

The Company is implementing strategies (i) to expand market share in its current markets and to identify and penetrate new markets; (ii) to capitalize on the Company’s customer relationships, business competencies, and mills and converting assets; (iii) to develop and market innovative, sustainable products and applications; and (iv) to continue to reduce costs by focusing on operational improvements. The Company’s ability to fully implement its strategies and achieve its objectives may be influenced by a variety of factors, many of which are beyond its control, such as inflation of raw material and other costs, which the Company cannot always pass through to its customers, and the effect of overcapacity in the worldwide paperboard packaging industry.

Significant Factors That Impact The Company's Business

Impact of Inflation. The Company's cost of sales consists primarily of energy (including natural gas, fuel oil and electricity), pine pulpwood, chemicals, secondary fibers, purchased paperboard, paper, aluminum foil, ink, plastic films and resins, depreciation expense and labor. Inflation increased costs in the first six months of 2014 by \$41.8 million, compared to the first six months of 2013. The higher costs in 2014 are primarily related to labor and related benefits (\$21.4 million), energy costs (\$10.1 million) primarily due to the price of natural gas, externally purchased board (\$6.0 million) and inks and coatings (\$3.1 million) and other costs (\$1.2 million).

The Company has entered into contracts designed to manage risks associated with future variability in cash flows caused by changes in the price of natural gas. The Company has entered into natural gas swap contracts to hedge prices for a portion of its expected usage for 2014 and 2015. Since negotiated sales contracts and the market largely determine the pricing for its products, the Company is at times limited in its ability to raise prices and pass through to its customers any inflationary or other cost increases that the Company may incur.

Commitment to Cost Reduction. In light of increasing margin pressure throughout the packaging industry, the Company has programs in place that are designed to reduce costs, improve productivity and increase profitability. The Company utilizes a global continuous improvement initiative that uses statistical process control to help design and manage many types of activities, including production and maintenance. This includes a Six Sigma process focused on reducing variable and fixed manufacturing and administrative costs. The Company expanded the continuous improvement initiative to include the deployment of Lean Sigma principles into manufacturing and supply chain services. As the Company strengthens the systems approach to continuous improvement, Lean Sigma supports the efforts to build a high performing culture. During the first six months of 2014, the Company achieved approximately \$32 million in incremental cost savings as compared to the first six months of 2013, through its continuous improvement programs and manufacturing initiatives.

The Company's ability to continue to successfully implement its business strategies and to realize anticipated savings and operating efficiencies is subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. If the Company cannot successfully implement the strategic cost reductions or other cost savings plans it may not be able to continue to compete successfully against other manufacturers. In addition, any failure to generate the anticipated efficiencies and savings could adversely affect the Company's financial results.

Table of Contents

Competition and Market Factors. As some products can be packaged in different types of materials, the Company's sales are affected by competition from other manufacturers' CUK board and other substrates such as solid bleached sulfate and recycled clay-coated news. Substitute products also include plastic, shrink film and corrugated containers. In addition, while the Company has long-term relationships with many of its customers, the underlying contracts may be re-bid or renegotiated from time to time, and the Company may not be successful in renewing on favorable terms or at all. The Company works to maintain market share through efficiency, product innovation and strategic sourcing to its customers; however, pricing and other competitive pressures may occasionally result in the loss of a customer relationship.

In addition, the Company's sales historically are driven by consumer buying habits in the markets its customers serve. Increases in the costs of living, the condition of the residential real estate market, unemployment rates, access to credit markets, as well as other macroeconomic factors, may significantly negatively affect consumer spending behavior, which could have a material adverse effect on demand for the Company's products. New product introductions and promotional activity by the Company's customers and the Company's introduction of new packaging products also impact its sales. The Company's containerboard business is subject to conditions in the cyclical worldwide commodity paperboard markets, which have a significant impact on containerboard sales.

Material Disruptions at our Facilities. Although we take appropriate measures to minimize the risk and effect of material disruptions to the business conducted at our operating facilities, natural disasters such as hurricanes, tornadoes, floods and fires, as well as other unexpected disruptions such as the unavailability of critical raw materials, power outages and equipment failures can reduce production and increase our manufacturing costs. These types of disruptions could materially adversely affect our earnings, depending upon the duration of the disruption and our ability to shift business to other facilities or find other sources of materials or energy. In the first quarter of 2014, severe winter storms and related power outages caused the shutdown of the Company's mills in West Monroe, Louisiana and Macon, Georgia, resulting in approximately \$14.5 million of lost production and higher manufacturing and freight costs.

Debt Obligations. The Company had \$2,318.3 million of outstanding debt obligations as of June 30, 2014. This debt can have consequences for the Company, as it requires a portion of cash flow from operations to be used for the payment of principal and interest, exposes the Company to the risk of increased interest rates and restricts the Company's ability to obtain additional financing. Covenants in the Credit Agreement and the Indenture also prohibit or restrict, among other things, the disposal of assets, the incurrence of additional indebtedness (including guarantees), payment of dividends, loans or advances, and certain other types of transactions. These restrictions could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The Credit Agreement also requires compliance with a maximum Consolidated Total Leverage Ratio and a minimum Consolidated Interest Coverage Ratio. The Company's ability to comply in future periods with these financial covenants will depend on its ongoing financial and operating performance, which in turn will be subject to many other factors, many of which are beyond the Company's control. See "Financial Condition, Liquidity and Capital Resources — Liquidity and Capital Resources" for additional information regarding the Company's debt obligations.

The debt and the restrictions under the Credit Agreement and the Indenture could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The outstanding debt obligations and the restrictions may also leave the Company more vulnerable to a downturn in general economic conditions or its business, or unable to carry out capital expenditures that are necessary or important to its growth strategy and productivity improvement programs.

OVERVIEW OF 2014 RESULTS

This management's discussion and analysis contains an analysis of Net Sales, Income from Operations and other information relevant to an understanding of results of operations.

Net Sales for the three months ended June 30, 2014 decreased by \$23.0 million, or 2.0%, to \$1,116.7 million from \$1,139.7 million for the three months ended June 30, 2013 primarily due to lower volume of \$53.4 million due to the sale of the flexible plastics, uncoated recycle board ("URB") mill and the labels businesses. This decrease was partially offset by higher pricing, the acquisition of the Benson Group ("Benson"), new consumer and beverage products and favorable exchange rates primarily in Europe.

Loss from Operations for the three months ended June 30, 2014 increased to \$52.9 million compared to Income from Operations of \$87.7 million for the three months ended June 30, 2013. The decrease was driven by the loss on the sale of the multi-wall bag business of \$164.5 million and higher inflation, partially offset by the higher pricing and performance improvements.

On May 23, 2014, the Company acquired Benson, a leading food and health care packaging company in the United Kingdom. Under the terms of the transaction, the Company paid \$190.7 million in an all cash transaction funded with existing cash and borrowings under the Company's revolving line of credit. Benson operated four folding carton facilities that converted approximately 80,000 tons of paperboard annually into folding cartons for the food, beverage and healthcare industries.

In connection with the Company's strategy to focus on core assets, on June 30, 2014, the Company completed the sale of its multi-wall bag business. The financial impact of this transaction is reflected in loss on Sale of Assets in the above table. Approximately \$263 million of assets were disposed of consisting of net working capital of \$75 million, fixed assets of \$104 million, goodwill of \$8 million and intangible assets of \$76 million. In 2013, the multi-wall bag business net sales were approximately \$440 million or approximately 10% of Consolidated Net Sales and are reported in the flexible packaging segment. Assets of approximately \$27 million related to the facility that was previously part of the flexible packaging segment were retained by the Company.

Table of Contents

During the second quarter of 2014, certain shareholders of the Company sold 43.7 million shares of common stock in a secondary public offering at \$10.45 per share. The shares were sold by certain affiliates of TPG Capital, L.P. (the "TPG Entities") and certain Coors family trusts and the Adolph Coors Foundation. Following this sale, these shareholders no longer hold shares of the Company's common stock.

RESULTS OF OPERATIONS

Segment Information

The Company reports its results in two reportable segments: paperboard packaging and flexible packaging.

In millions	Three Months Ended		Six Months Ended		
	June 30, 2014	2013	June 30, 2014	2013

-------	-----------	--------	-------	---------	--------	---------	-------------

Paperboard Packaging

The Company's Net Sales from paperboard packaging for the three months ended June 30, 2014 increased by \$15.2 million, or 1.6%, to \$987.3 million from \$972.1 million for the same period in 2013. The increase was the result of higher pricing due to inflationary cost pass throughs, the Benson acquisition of \$18 million and favorable exchange rates primarily in Europe. This was partially offset by lower volumes due to the sale of the labels and the URB mill. Volume in the global beverage and open markets and open market sales were down and general market softness continued in dry foods and cereals. The volume decline was partially offset by new consumer and beverage products.

Flexible Packaging

32

Table of Contents

The Company's Net Sales from flexible packaging for the three months ended June 30, 2014 decreased by \$38.2 million or 22.8%, to \$129.4 million from \$167.6 million for the same period in 2013 primarily due to lower volume of \$32.4 million related to the sale of the flexible plastics business.

Paperboard Packaging

The Company's Income from Operations from paperboard packaging for the three months ended June 30, 2014 increased by \$27.1 million, or 26.0%, to \$131.5 million from \$104.4 million for the same period in 2013. This increase was the result of the higher pricing, cost savings through continuous improvement programs and the acquisition of Benson. These increases were offset by inflation. The inflation was primarily related to higher labor and benefits (\$8.5 million), energy (\$3.9 million), externally purchased board (\$2.4 million), wood (\$2.1 million), freight related costs (\$1.5 million), inks and coatings (\$0.8 million), and other (\$0.9 million).

Flexible Packaging

The Company's Loss from Operations from flexible packaging for the three months ended June 30, 2014 was \$169.5 million compared to Loss from Operations of \$1.4 million for the same period in 2013. This increase is the result of the loss on the sale of the multi-wall bag business, lower volumes related to the sale of flexible plastics and higher inflation and severance costs related to right sizing the business. This decrease was partially offset by the improved pricing and cost savings. The inflation was primarily related to labor and benefits (\$1.7 million), externally purchased board (\$0.3 million) and other costs (\$0.9 million).

Corporate

Edgar Filing: GRAPHIC PACKAGING HOLDING CO - Form 10-Q

The Company's Loss from Operations from corporate for the three months ended June 30, 2014 was \$14.9 million compared to \$15.3 million for the same period in 2013.

FIRST SIX MONTHS 2014 COMPARED WITH FIRST SIX MONTHS 2013

Net Sales

(a) Includes the Company's cost reduction initiatives, loss on sale of assets, expenses related to integration and acquisition activities and shutdown costs.

Paperboard Packaging

The Company's Income from Operations from paperboard packaging for the six months ended June 30, 2014 increased by \$24.6 million, or 11.9%, to \$231.7 million from \$207.1 million for the same period in 2013 as a result of the higher pricing, synergies in Europe and cost savings through continuous improvement programs and other strategic initiatives. This increase was partially offset by inflation, the impact of severe weather and related power outages resulting in lost production, higher manufacturing and freight costs, the loss on the sale of business and unfavorable exchange rates, primarily in Japan. The inflation was primarily related to higher labor and benefits (\$16.8 million), energy (\$9.7 million), externally purchased board (\$5.0 million) and inks and coatings (\$2.2 million) and other costs (1.2 million), partially offset by lower chemical-based inputs (\$0.9 million).

Flexible Packaging

The Company's Loss from Operations from flexible packaging for the six months ended June 30, 2014 was \$174.0 million compared to Loss from Operations of \$5.2 million for the same period in 2013. This increase is the result of the loss on sale of the multi-wall bag business and higher inflation and severance costs related to right sizing the business. This decrease was partially offset by the improved pricing and cost savings. The inflation was primarily related to labor and benefits (\$3.6 million), externally purchased board (\$0.9 million) and other costs (\$2.3 million).

Corporate

The Company's Loss from Operations from corporate for the six months ended June 30, 2014 was \$30.9 million compared to \$29.0 million for the same period in 2013. The increase was primarily related to outside consulting services.

INTEREST EXPENSE, NET AND INCOME TAX EXPENSE

Interest Expense, Net

Interest Expense, Net was \$41.6 million and \$56.9 million for the first six months of 2014 and 2013, respectively. Interest Expense, Net decreased due to lower average interest rates on the Company's debt and lower average debt balances. As of June 30, 2014, approximately 46.3% of the Company's total debt was subject to floating interest rates.

Income Tax Expense

During the six months months ended June 30, 2014, the Company recognized an Income Tax Benefit of \$8.4 million on Loss before Income Taxes and Equity Income of Unconsolidated Entities of \$14.8 million. The effective tax rate for the three and six months ended

Table of Contents

June 30, 2014 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings including losses in jurisdictions with full valuation allowances, as well as the impact of the writeoff of nondeductible goodwill in connection with the sale of the labels and multi-wall Bag businesses and other discrete items of \$4.3 million and \$4.9 million, respectively. During the six months ended June 30, 2013, the Company recognized Income Tax Expense of \$35.1 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$90.1 million. The effective tax rate for the six months ended June 30, 2013 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings, including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. The Company has approximately \$917 million of Net Operating Losses ("NOLs") for U.S. federal income tax purposes, which are currently being used and may be used to offset future taxable income.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The Company broadly defines liquidity as its ability to generate sufficient funds from both internal and external sources to meet its obligations and commitments. In addition, liquidity includes the ability to obtain appropriate debt and equity financing and to convert into cash those assets that are no longer required to meet existing strategic and financial objectives. Therefore, liquidity cannot be considered separately from capital resources that consist of current or potentially available funds for use in achieving long-range business objectives and meeting debt service commitments.

Cash Flows

In millions	Six Months Ended	
	June 30,	
	2014	2013
Net Cash Provided by Operating Activities	\$ 153.6	\$ 109.9
Net Cash Used in Investing Activities	(90.0) (86.5
Net Cash Provided by (Used in) Financing Activities	40.1	(39.0

Net cash provided by operating activities for the first six months of 2014 totaled \$153.6 million, compared to net cash provided by operating activities of \$109.9 million for the same period in 2013. The increase was due primarily to improved business operations, excluding non-cash charges, as compared to 2013, partially offset by lower interest payments due to the lower average interest rates on the Company's debt. Pension contributions for the first six months of 2014 and 2013 were \$11.9 million and \$13.2 million, respectively.

Net cash used in investing activities for the first six months of 2014 totaled \$90.0 million, compared to net cash used in investing activities of \$86.5 million for the same period in 2013. The year over year change was primarily due to the acquisition of Benson and an increase in capital spending, primarily for improving process capabilities, offset by proceeds from the sale of the Company's labels and multi-wall bag businesses of \$167.4 million and \$26.9 million received from a government grant related to specified renewable energy property.

Net cash provided by financing activities for the first six months of 2014 totaled \$40.1 million, compared to net cash used in financing activities of \$39.0 million for the same period in 2013. Current year activities include net borrowings under revolving credit facilities of \$95.1 million and payments on debt of \$30.8 million. The Company withheld \$15.8 million of restricted stock units to satisfy tax withholding requirements related to the payout of restricted stock units. In the prior year, the Company had net borrowings under revolving credit facilities of \$21.1 million and payments on debt of \$29.7 million and redemption and debt issuance costs of \$27.4 million. Additionally,

in the prior year the Company withheld \$11.0 million of restricted stock units to satisfy tax withholding requirements related to the payout of restricted stock units.

Liquidity and Capital Resources

The Company's liquidity needs arise primarily from debt service on its indebtedness and from the funding of its capital expenditures, ongoing operating costs and working capital. Principal and interest payments under the term loan facility and the revolving credit facility, together with principal and interest payments on the Company's 7.875% Senior Notes due 2018 and the 4.75% Senior Notes due 2021 (the "Notes"), represent liquidity requirements for the Company. Based upon current levels of operations, anticipated cost savings and expectations as to future growth, the Company believes that cash generated from operations, together with amounts available under its revolving credit facility and other available financing sources, will be adequate to permit the Company to meet its debt service obligations, necessary capital expenditure program requirements and ongoing operating costs and working capital needs, although no assurance can be given in this regard. The Company's future financial and operating performance, ability to service or refinance its debt and ability to comply with the covenants and restrictions contained in its debt agreements (see "Covenant Restrictions") will be subject to future economic conditions, including conditions in the credit markets, and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices and demand for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business and profitability strategies.

The Company has entered into various factoring and supply chain financing arrangements, principally at the request of customers, which qualify for sale accounting in accordance with the Transfers and Servicing topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("the Codification"). For the periods ended June 30, 2014 and December 31, 2013, the Company sold receivables of approximately \$125.0 million and \$97.0 million, respectively, from the factoring arrangements. Amounts transferred subject to continuing involvement at June 30, 2014 and December 31, 2013 were approximately \$48.0 million and \$20.0 million, respectively.

Covenant Restrictions

Table of Contents

The Credit Agreement and the Indenture limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Credit Agreement and the Indenture, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, make dividends and other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the indenture under which the Notes are issued, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with the disruptions in the credit markets, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Credit Agreement, the Company must comply with a maximum Consolidated Total Leverage Ratio covenant and a minimum Consolidated Interest Expense Ratio covenant. The Amended and Restated Credit Agreement which contains the definitions of these covenants, was filed as an exhibit to the Company's Form 8-K filed on March 22, 2012. The Company must maintain a maximum Consolidated Total Leverage Ratio of less than the following:

Fiscal Quarter	Consolidated Total Leverage Ratio
March 31, 2013 - December 31, 2013	4.50 to 1.00
March 31, 2014 and thereafter	4.25 to 1.00

The Company must also comply with a minimum consolidated interest expense ratio of the following:
Minimum Consolidated Interest Expense Ratio: 3.00 to 1.00

The Company's management believes that presentation of the Consolidated Total Leverage Ratio, Consolidated Interest Expense Ratio and Credit Agreement EBITDA herein provides useful information to investors because borrowings under the Credit Agreement are a key source of the Company's liquidity, and the Company's ability to borrow under the Credit Agreement is dependent on, among other things, its compliance with the financial ratio covenants. Any failure by the Company to comply with these financial covenants could result in an event of default, absent a waiver or amendment from the lenders under such agreement, in which case the lenders may be entitled to declare all amounts owed to be due and payable immediately.

Credit Agreement EBITDA is a financial measure not calculated in accordance with U.S. GAAP, and is not a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Credit Agreement EBITDA should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for, or superior to, U.S. GAAP results. In addition, Credit Agreement EBITDA may not be comparable to EBITDA or similarly titled measures utilized by other companies because other companies may not calculate Credit Agreement EBITDA in the same manner as the Company does.

The calculations of the components of the Consolidated Total Leverage Ratio and Consolidated Interest Expense Ratio for, and as of, the period ended June 30, 2014 are listed below:

	Twelve Months Ended June 30, 2014
In millions	
Net Income	\$85.5
Income Tax Expense	23.9

Edgar Filing: GRAPHIC PACKAGING HOLDING CO - Form 10-Q

Interest Expense, Net	81.3	
Depreciation and Amortization including Debt Issuance Costs	285.4	
Equity Income of Unconsolidated Entities, Net of Dividends	(0.3)
Other Non-Cash Charges	39.7	
Other Non-Recurring / Extraordinary / Unusual Items	199.6	
Credit Agreement EBITDA	\$715.1	

	As of
In millions	June 30, 2014
Short-Term Debt	\$73.0
Long-Term Debt	2,245.3
Total Debt	\$2,318.3
Less: Cash and Cash Equivalents ^(a)	125.0
Consolidated Indebtedness	\$2,193.3

^(a) Limited to \$125 million under the terms of the Credit Agreement.

Table of Contents

In millions	Twelve Months Ended June 30, 2014
Interest Expense, Net	\$ 86.6
Less: Amortization of Financing Costs	5.3
Consolidated Interest Expense	\$ 81.3

At June 30, 2014, the Company was in compliance with the Consolidated Total Leverage Ratio covenant in the Credit Agreement and the ratio was as follows:

Consolidated Total Leverage Ratio: 3.07 to 1.00

At June 30, 2014, the Company was in compliance with the minimum Consolidated Interest Expense Ratio covenant in the Credit Agreement and the ratio was as follows:

Consolidated Interest Expense Ratio: 8.80 to 1.00

As of June 30, 2014, the Company's credit rating was BB+ by Standard & Poor's with a positive outlook and Ba2 by Moody's Investor Services with a stable outlook.

If inflationary pressures on key inputs continue, or depressed selling prices, lower sales volumes, increased operating costs or other factors have a negative impact on the Company's profitability, the Company may not be able to maintain its compliance with the financial covenants in its Credit Agreement. The Company's ability to comply in future periods with the financial covenants in the Credit Agreement will depend on its ongoing financial and operating performance, which in turn will be subject to economic conditions and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business strategies, and meet its profitability objective. If a violation of the financial covenants or any of the other covenants occurred, the Company would attempt to obtain a waiver or an amendment from its lenders, although no assurance can be given that the Company would be successful in this regard. The Credit Agreement and the Indenture governing the Notes have certain cross-default or cross-acceleration provisions; failure to comply with these covenants in any agreement could result in a violation of such agreement which could, in turn, lead to violations of other agreements pursuant to such cross-default or cross-acceleration provisions. If an event of default occurs, the lenders are entitled to declare all amounts owed to be due and payable immediately. The Credit Agreement is collateralized by substantially all of the Company's domestic assets.

Capital Investment

The Company's capital investment in the first six months of 2014 was \$108.9 million compared to \$84.6 million in the first six months of 2013. The increase was primarily due to investments made as part of the European integration along with several planned asset upgrades at our U.S.- based mills.

Environmental Matters

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, potential future closures or sales of facilities may necessitate further investigation and may result in future remediation at those facilities. The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable.

For further discussion of the Company's environmental matters, see Note 10 in Part I, Item 1, Notes to Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Actual results could differ from these estimates, and changes in these estimates are recorded when known. The critical accounting policies used by management in the preparation of the Company's condensed consolidated financial statements are those that are important both to the presentation of the Company's financial condition and results of operations and require significant judgments by management with regard to estimates used.

The Company's most critical accounting policies which require significant judgment or involve complex estimations are described in GPHC's Form 10-K for the year ended December 31, 2013.

NEW ACCOUNTING STANDARDS

Table of Contents

For a discussion of recent accounting pronouncements impacting the Company, see Note 1 in Part I, Item 1, Notes to Condensed Consolidated Financial Statements.

BUSINESS OUTLOOK

Total capital investment for 2014 is expected to be between \$185 million and \$205 million and is expected to relate principally to the Company's process capability improvements (approximately \$165 million), acquiring capital spares (approximately \$20 million), and producing packaging machinery (approximately \$10 million).

The Company also expects the following in 2014:

• Depreciation and amortization between \$265 million and \$275 million.

• Interest expense of \$80 million to \$90 million, including approximately \$5 million to \$10 million of non-cash interest expense associated with amortization of debt issuance costs.

• Net Debt reduction of approximately \$350 million, excluding acquisition and divestiture activity.

• Pension plan contributions of \$40 million to \$60 million.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

For a discussion of certain market risks related to the Company, see Part II, “Item 7A, Quantitative and Qualitative Disclosure about Market Risk”, in GPHC’s Form 10-K for the year ended December 31, 2013. There have been no significant developments with respect to derivatives or exposure to market risk during the first six months of 2014. For a discussion of the Company’s Financial Instruments, Derivatives and Hedging Activities, see GPHC’s Form 10-K for the year ended December 31, 2013 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition, Liquidity and Capital Resources.”

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company’s management has carried out an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon such evaluation, management has concluded that the Company’s disclosure controls and procedures were effective as of June 30, 2014.

Changes in Internal Control over Financial Reporting

There was no change in the Company’s internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2014 that has materially affected, or is likely to materially affect, the Company’s internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. For more information see "Note 10 - Environmental and Legal Matters" in the Notes to Condensed Consolidated Financial Statements.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in GPHC's Form 10-K for the year ended December 31, 2013.

ITEM 4. MINE SAFETY DISCLOSURES

None.

ITEM 6. EXHIBITS
