PRESS RELEASE

Maiden Holdings, Ltd. Announces Initial Assessment of Impact from Third Quarter 2017 Hurricanes and Third Quarter 2017 Common Share Repurchases

HAMILTON, Bermuda, September 28, 2017 -- Maiden Holdings, Ltd. ("Maiden" or "the Company") (NASDAQ:MHL) today announced its initial estimate of net loss exposure to the impact of all third quarter 2017 catastrophe activity to be in the range of \$8 million to \$31 million.

The expected ranges of net impact by storm on Maiden's third quarter of 2017 results are estimated as follows:

Named Storm Low Estimate High Estimate

Harvey \$6 million \$18 million

Irma \$2 million \$13 million

Maiden expects no third quarter earthquake losses and no impact from Hurricane Maria.

Commenting on the recent catastrophe activity, Art Raschbaum, President and Chief Executive Officer of Maiden said, "Our thoughts and prayers go out to the many people impacted by these devastating events. It is important to note that Maiden is not a participant in the catastrophe reinsurance market and consistent with Maiden's strategy of focusing on non-catastrophe business, the Company expects a modest level of losses from the significant storms occurring during the third quarter of 2017. Across Maiden's entire portfolio, internal catastrophe modeling and specific account-by-account analyses suggests, at this time, that hurricane related losses will have a modest impact on Maiden's 2017 combined ratio. As the expected results from these hurricanes suggest, aggregation of all property exposures are carefully managed to mitigate the impacts of catastrophes on the Company's earnings and balance sheet."

Maiden also announced that during the current quarter, the Company has repurchased 2,015,700 common shares at an average price of \$7.11 per common share including commission. As of September 28, 2017, the Company had \$85.7 million remaining under its authorized share repurchase program.
