Notes to Condensed Consolidated Financial Statements

Note 1: Summary of Significant Accounting Policies

Description of Business. A. H. Belo Corporation (“A. H. Belo” or the “Company”), headquartered in Dallas, Texas, is a distinguished newspaper publishing and local news and information company that owns and operates four daily newspapers and related websites. A. H. Belo publishes The Dallas Morning News (www.dallasnews.com), Texas’ leading newspaper and winner of nine Pulitzer Prizes; The Providence Journal (www.providencejournal.com), the oldest continuously-published daily newspaper in the United States and winner of four Pulitzer Prizes; The Press Enterprise (www.pe.com), serving the Inland Southern California region and winner of one Pulitzer Prize; and the Denton Record-Chronicle (www.dentonrc.com), a daily newspaper operating in Denton, Texas, approximately 40 miles north of Dallas. The Company’s newspapers also publish various niche publications targeting specific audiences and own and operate commercial printing, distribution and direct mail service businesses. A. H. Belo offers digital marketing solutions through 508 Digital and Your Speakeasy, LLC and also owns investments in Classified Ventures, LLC, owner of Cars.com, and Wonderful Media, LLC, owner of Find&Save®.

Basis of Presentation. These Condensed Consolidated Financial Statements include the accounts of A. H. Belo and its subsidiaries and were prepared in accordance with United States Generally Accepted Accounting Principles (“GAAP”) for interim financial information and in accordance with the Securities and Exchange Commission’s (“SEC”) instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for a fair presentation were included. Transactions between the consolidated companies were eliminated and noncontrolling interests in less than wholly-owned subsidiaries were reflected in the consolidated financial statements. These Condensed Consolidated Financial Statements should be read in conjunction with the audited financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. Operating results for the three months ended March 31, 2013 may not be necessarily indicative of the results that may be expected for the year ending December 31, 2013. All dollar amounts are presented in thousands, except per share amounts, unless the context requires otherwise.

New Accounting Standards. In 2012, the Accounting Standards Update 2013-02 – Comprehensive Income (Topic 220) Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income was issued, requiring an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component and to present significant amounts reclassified out of accumulated other comprehensive income by respective line items of net income if the amount reclassified is required to be reclassified to net income in its entirety. The Company adopted this modification in 2012, and the notes to the consolidated financial statements now reference the account and amounts reclassified from accumulated other comprehensive loss to net income by component.

Note 4: Long-term Incentive Plans

A. H. Belo sponsors a long-term incentive plan under which 8,000,000 common shares are authorized for equity based awards. Awards under the plan may be granted to A. H. Belo employees and outside directors in the form of non-qualified stock options, incentive stock options, restricted shares, restricted stock units (“RSUs”), performance shares, performance units or stock appreciation rights. In addition, stock options may be accompanied by stock appreciation rights and limited stock appreciation rights. Rights and limited rights may also be issued without accompanying stock options.

Restricted Stock Units. Under A. H. Belo’s long-term incentive plan, the Company’s Board of Directors periodically awards RSUs. The RSUs have service and/or performance conditions and vest over a period of one to three years. Upon vesting, the RSUs are redeemed 60 percent in A. H. Belo Series A common stock and 40 percent in cash. As of March 31, 2013, the liability for the portion of the award to be redeemed in cash was \$1,339. The table below sets forth a summary of RSU activity under the A. H. Belo long-term incentive plan for the three months ended March 31, 2013:

Table of Contents

Note 5: Long-term Debt

On January 4, 2013, the Company voluntarily terminated its credit agreement (the “Credit Agreement”), with a maturity date of September 30, 2014, that provided a \$25,000 working capital facility subject to a borrowing base. The termination of the Credit Agreement is intended to provide the Company greater financial and operating flexibility and to eliminate direct and indirect costs related to the Credit Agreement. All liens and security interests under the Credit Agreement were released and no early termination penalties were incurred by the Company as a result of the termination. Unamortized debt issuance costs of \$401 were recorded to interest expense during the three months ended March 31, 2013 as a result of the termination.

Note 6: Income Taxes

Income taxes are recorded using the asset and liability method. The provision for taxes reflects the Company’s estimate of the effective rate expected to be applicable for the full fiscal year, adjusted by any discrete events, which are reported in the period in which they occur. The estimated effective tax rate is re-evaluated each quarter based on the Company’s estimated tax expense for the year.

The Company recognized income tax expense of \$419 and \$402 for the three months ended March 31, 2013 and 2012, respectively. Tax expense represents effective income tax rates of (5.5) percent and (11.5) percent, for the three months ended March 31, 2013 and 2012, respectively. Tax expense for 2013 and 2012 was primarily attributable to state income tax expense and changes in the valuation allowance on deferred taxes.

The Company evaluates uncertain tax positions and recognizes a liability for the tax benefit associated with an uncertain position only if it more likely than not the position will not be sustained on examination by taxing authorities, based on the technical merits of the position. As of March 31, 2013 and December 31, 2012, the Company recorded reserves of \$321 and \$324, respectively, for uncertain tax positions, and reserves of \$101 and \$93, respectively, for related interest and penalties.

The Company currently projects taxable losses for the year ending December 31, 2013 for federal income tax purposes and in certain state income tax jurisdictions. Net operating losses can be carried forward to offset future taxable income. The Company’s net operating loss carryforwards begin to expire in 2016 if not utilized.

Note 7: Pension and Other Retirement Plans

Defined Benefit Plans. The Company sponsors two defined benefit pension plans, A. H. Belo Pension Plans I and II (collectively the “A. H. Belo Pension Plans”). A. H. Belo Pension Plan I provides benefits to certain employees primarily employed with The Dallas Morning News or the A. H. Belo corporate offices. A. H. Belo Pension Plan II provides benefits to certain employees at The Providence Journal.

During the three months ended March 31, 2013 and 2012, the Company made required contributions of \$396 and \$5,435, respectively, to the A. H. Belo Pension Plans. The Company will fund the A. H. Belo Pension Plans to meet or exceed statutory requirements and anticipates contributions for the remainder of 2013 will approximate \$7,000 to \$20,600.

In 2013, the Company adjusted its targeted allocation of the plans’ assets invested in equity securities and fixed income securities to approximate 55 percent and 45 percent, respectively. The assumed rate of return on these investments of 6.5 percent continues to be appropriate.

Net Periodic Pension Benefit

The Company estimates net periodic pension expense or benefit based on the expected return on plan assets, the interest on projected pension obligations and the amortization of actuarial gains and losses in accumulated other comprehensive loss. The table below sets forth components of net periodic pension benefit:

	Three Months Ended March 31,

A number of legal proceedings are pending against A. H. Belo. In the opinion of management, liabilities, if any, arising from these legal proceedings would not have a material adverse effect on A. H. Belo’s results of operations, liquidity or financial condition.

In the first quarter of 2013, the Company entered into a non-binding letter of intent with the County of Riverside, California to sell the administrative offices used by The Press-Enterprise. The letter of intent contemplates the transaction to close during the third quarter of 2013. Overview of First Quarter 2013 Significant Transactions

The Company's total revenue declined 5.3 percent when compared to the first quarter of 2012 due to a decline in all categories. Advertising and marketing services revenue decreased by 3.9 percent, the lowest year-over-year quarterly decline since the Company's spin-off from its former parent company in 2008. The improvement of this performance measurement was primarily due marketing services recorded by The Dallas Morning News for 508 Digital and Speakeasy, which commenced operations in the second and third quarters of 2012, respectively, and due to continued growth in the newspaper's internet classified advertising.

The Company's circulation revenue decreased by 7.2 percent due to a continued volume decline in home delivery and single copy sales at all newspapers. Printing and distribution revenue was also down by 7.0 percent primarily due to The Press Enterprise no longer printing certain commercial products that were unprofitable. Printing and distribution revenue at The Dallas Morning News and at The Providence Journal continued to reflect strong growth primarily due to the expansion of printing and delivery services for large regional newspapers.

The Company continues to monitor and control its operating costs according to changes in revenue. After adjusting for costs associated with the Company's marketing services initiatives, labor related costs declined by 4.9 percent and non-labor related operating costs declined by 3.0 percent.

The following significant transactions and events affected A. H. Belo's results of operations and financial position during the first quarter of 2013:

• Required contributions of \$396 were made to the A. H. Belo Pension Plans in the first quarter of 2013, reflecting a significant decline from the \$5,435,000 of required contributions made in the first quarter of 2012.

• Contributions of \$4,147 related to 2012 were paid in the first quarter of 2013, and a contribution of \$1,090 related to the final obligation recognized in the first quarter of 2013 was paid in the second quarter of 2013.

Display – Revenue decreased in 2013 due to lower retail advertising for department stores, apparel and medical.

Additionally, general advertising declined in all categories, except for telecommunications and automotive which had improvements in both rates and volume.

Classified – Revenue decreased in 2013 due to lower classified rates in all categories, partially offset by higher volumes in automotive, real estate and obituaries.

Preprint – Revenue increased in 2013 due to higher home delivery mail advertisements, offset by a decline in preprint newspaper advertising inserts.

Digital – Revenue increased in 2013 due to higher automotive and other classified advertising and due to marketing services revenue associated with 508 Digital and Speakeasy, which began operations in the second and third quarter of 2012, respectively.

The Dallas Morning News continues to extend the reach of its niche publications, including Briefing and Al Dia, in order to expand its advertising platform to nonsubscribers of The Dallas Morning News' core newspaper. This revenue is a component of total display, classified, preprint and digital revenue of The Dallas Morning News discussed above.

In 2013 and 2012, advertising revenue for The Dallas Morning News' niche publications was \$5,119 and \$5,138, respectively. The relatively flat revenue was due to growth in classified and digital advertising, offset by a decline in retail and general display advertising.

Circulation – Revenue decreased in 2013 due a decline in home delivery and single copy paid print circulation volumes of 5.8 percent and 12.5 percent, respectively.

Printing and distribution – Revenue increased in 2013 due to higher delivery volumes of third-party newspapers.

Digital – Revenue decreased in 2013 due to lower volumes in banner and online advertising and lower classified advertising in all categories, except other.

Circulation – Revenue decreased in 2013 due to a decline in home delivery and single copy paid print circulation volumes of 7.9 percent and 14.7 percent, respectively. Volume declines were partially offset by higher effective home delivery and single copy rates of 2.1 percent and 3.1 percent, respectively.

Printing and distribution – Revenue increased in 2013 due to five commercial contracts, which started in the second and third quarters of 2012, for print and home delivery of third-party newspapers.

Operating Costs and Expense

The table below sets forth the components of the Company's operating expense:

	Three Months Ended March 31,		
	2013	Percentage Change	2012
Operating Costs and Expense			
Salaries, wages and employee benefits	\$45,037	(2.1)%	\$46,005
Other production, distribution and operating costs	41,081	0.9 %	40,696
Newsprint, ink and other supplies	13,914	(0.4)%	13,972
Depreciation	5,722	(19.6)%	7,113
Amortization	1,340	2.3 %	1,310
Total operating costs and expense	\$107,094	(1.8)%	\$109,096

Salaries, wages and employee benefits – Salaries decreased in 2013 due to lower headcount resulting from the Company's on-going cost reduction initiatives. Pension expense declined due to the lower discount rates being applied to its pension obligations and due to higher earnings on a larger balance of plan assets. These savings were partially offset by higher sales compensation associated with the Company's marketing services initiatives, 508 Digital and Speakeasy, which commenced operations in the second and third quarters of 2012, respectively. The cost savings were also offset by higher costs in 2013 under the Company's incentive compensation plan.

Other production, distribution and operating costs – Expense slightly increased in 2013 due to higher non-labor related expense associated with 508 Digital and Speakeasy and due to higher third-party services supporting the growth in internet classified advertising. These expenses were offset by general cost reduction measures.

Newsprint, ink and other supplies – Ink costs increased in 2013 due to the Company printing higher volumes of third party publications. Such customers generally supply the related newsprint. These costs were offset by reduced newsprint costs primarily associated with lower circulation volumes of the Company's newspapers and due to lower newsprint prices. Newsprint consumption for first quarter 2013 and 2012 was approximately 14,200 and 15,041 metric tons, respectively, and the average cost per metric ton of newsprint was \$623 and \$634, respectively.

Depreciation – Expense decreased in 2013 due to a lower depreciable asset base and more assets being fully depreciated.

Amortization – Expense was flat year-over-year.

Other – Other income and expense decreased in 2013 due to lower gains related to fixed asset sales.

Interest expense – Interest expense increased in 2013 due to the Company's voluntarily termination of the Credit Agreement and recording \$401 of interest expense for the remaining unamortized debt issuance costs.

Tax expense – Tax expense for 2013 and 2012 is primarily due to state income tax expense and changes in the valuation allowance. See the Condensed Consolidated Financial Statements, Note 6 – Income Taxes.

Adjusted Earnings before Interest, Taxes, Depreciation and Amortization

In addition to the Company's analysis of net loss attributable to A. H. Belo Corporation, the Company also evaluates earnings after adjusting for depreciation, amortization, interest and taxes ("EBITDA") and after adding back pension expense, non-cash impairment expense and net investment-related losses ("Adjusted EBITDA").

	Three Months Ended March 31,

Neither EBITDA nor Adjusted EBITDA is a measure of financial performance under generally accepted accounting principles ("GAAP"). Management uses EBITDA, Adjusted EBITDA and similar measures in internal analyses as supplemental measures of the Company's financial performance, performance comparisons against its peer group of companies, as well as for capital spending and other investing decisions. Neither EBITDA nor Adjusted EBITDA should be considered in isolation or as a substitute for cash flows provided by operating activities or other income or cash flow data prepared in accordance with GAAP, and these non-GAAP measures may not be comparable to similarly-titled measures of other companies.

Liquidity and Capital Resources

On January 4, 2013, the Company voluntarily terminated its Credit Agreement, with a maturity date of September 30, 2014, that provided a \$25,000 working capital facility subject to a borrowing base. The termination of the Credit Agreement is intended to provide the Company greater financial and operating flexibility and to eliminate direct and indirect costs related to the Credit Agreement. All liens and security interests under the Credit Agreement were released and no early termination penalties were incurred by the Company as a result of the termination. Unamortized debt issuance costs of \$401 were recorded to interest expense in the first quarter of 2013 as a result of the termination. The Company believes it has sufficient cash flows from operations and existing liquid assets to meet its foreseeable operating requirements. The table below sets forth the Company's sources of liquidity:

Sources of Liquidity	March 31, 2013
Cash and cash equivalents	\$ 31,862
Accounts receivable, net of allowance	40,079
	\$ 71,941

Operating Cash Flows

Net cash flows provided by operations were \$933 and \$754 in 2013 and 2012, respectively. The increase in 2013 cash flows from operations is due to a \$5,039 savings from reduced pension contributions and a \$2,961 savings related to a 2012 tax settlement payment. These savings were offset by lower operating cash flows in 2013 due to declining revenue and due to additional costs to support the development of the Company's marketing services initiatives. The decline in first quarter pension contributions reflects an achieved benefit the Company realized from reaching higher statutory funding levels due to the Company's 2011 and 2012 voluntary pension contributions totaling \$40,000 and improved returns on plan assets. Additionally, lower contributions are in-part due to reduced statutory funding requirements from the Moving Ahead for Progress in the 21st Century Act (the "MAP-21 Act") that was passed into law in July 2012, and includes funding relief for employer-provided defined benefit pension plans. Future pension funding requirements are subject to change based on factors such as discount rates, the return on plan assets and statutory changes.

Investing Cash Flows

Net cash flows used for investing activities were \$1,201 and \$1,240 in 2013 and 2012, respectively. The decrease in cash used for investing activities includes lower capital spending in 2013, offset by lower proceeds from the sale of fixed assets.

Financing Cash Flows

Net cash flows used for financing activities were \$1,964 and \$1,253 in 2013 and 2012, respectively. Significant changes in financing cash flows include purchases in 2013 of 112,049 shares of the Company's Series A common stock for \$597 made under the share purchase program authorized in 2012. Dividend payments of \$1,367 and \$1,357 were made in 2013 and 2012, respectively.

Contractual Obligations

The A. H. Belo Pension Transition Supplement Plan, a defined contribution plan, covers certain employees affected by the curtailment of The G. B. Dealey Retirement Pension Plan (a plan sponsored by the Company's former parent company). The Company was obligated to make contributions to this plan based on the earnings of actively employed participants for a period of five years, which concluded on March 31, 2013. Contributions of \$4,147 and related expense of \$1,090 were recorded in the first quarter of 2013. The final contribution of \$1,090 was paid in the second quarter of 2013.

On March 7, 2013, the Company announced a \$0.06 per share dividend to shareholders of record and holders of RSUs as of the close of business on May 17, 2013, payable on June 7, 2013.

During January 2013, the Company made a required contribution of \$396 to the A. H. Belo Pension Plans. The Company will fund the A. H. Belo Pension Plans to meet or exceed statutory requirements and anticipates contributions for the remainder of 2013 will approximate \$7,000 to \$20,600.

Additional information related to the Company's contractual obligations is available in Company's Annual Report on Form 10 K for the year ended December 31, 2012, filed on March 7, 2013, with the SEC.
