Item 1.01 Entry into a Material Definitive Agreement

On January 26, 2010, we entered into a Securities Purchase Agreement that closed on February 1, 2010, pursuant to which we issued a secured convertible debenture (the "Debenture") with a one-year term. The principal amount of the Debenture is \$500,000 and carries a per annum interest rate of 10%. The net proceeds of the offering will be used to fund the continuing research and development of our technological process to convert waste tires and plastic to liquified fuels with the remainder for general corporate purposes. An additional 10% premium is to be paid to the holder on the maturity date. Starting on April 21, 2010, the Debenture holder may convert all or, on one or more occasions, part of the Debenture into shares of our common stock at the lower of approximately \$0.27 or a fifteen percent discount to the lowest daily closing volume-weighted average price of the common stock during the five trading days prior to a conversion. The holder may not convert more than \$50,000 of the principal amount plus accrued interest per week unless our shares of common stock are trading above \$0.2465 per share. We may waive this restriction at any time.

In connection with the Debenture, we issued 6,085,193 shares of our common stock to the holder of the Debenture. If the volume-weighted average price of our common stock as quoted on the Overt-the-Counter Bulletin Board falls below \$0.2465, we have agreed to issue additional shares of our common stock to the Debenture holder so that the total number of shares issued will equal \$1,500,000 divided by that volume-weighted average price which is below \$0.2465. We have the right to repurchase all such shares of common stock described above for \$1,000,000.

To secure the Debenture, we and our subsidiary, WTL Renewable Energies Inc., entered into Security Agreements with the Debenture holder pursuant to which we granted them an unsubordinated lien in our assets and the right to use such assets as payment of the Debenture in the event of a default.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

The information provided in Item 1.01 of this Form 8-K is incorporated by reference in this Item 2.03.

Item 3.02 Unregistered Sale of Equity Securities

On February 1, 2010, we issued a \$500,000 debenture that is convertible into up to a minimum of 1,851,851 shares of our common stock. As consideration for the debenture, we issued 6,085,193 shares of our common stock, an amount that may be increased if the volume weighted average of our common stock falls below \$0.2465. The debenture and the common stock were issued pursuant to the exemption from the registration requirements of the Securities Act of 1933 provided by Regulation D and/or Section 4(2) of the Securities Act.
