NOTE 1 - ORGANIZATIONAL MATTERS

ADM Tronics Unlimited, Inc. ("we", "us", the "Company" or "ADM"), was incorporated under the laws of the state of Delaware on November 24, 1969. We are authorized under our Certificate of Incorporation to issue 150,000,000 common shares, with \$.0005 par value, and 5,000,000 preferred shares with \$.01 par value.

The accompanying condensed consolidated financial statements as of June 30, 2012 (unaudited) and March 31, 2012 and for the three month periods ended June 30, 2012 and 2011 (unaudited) have been prepared by ADM pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") including Form 10-Q and Regulation S-X. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These financial statements and the information included under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the audited financial statements and explanatory notes for the year ended March 31, 2012 as disclosed in our annual report on Form 10-K for that year as filed with the SEC, as it may be amended. The results of the three months ended June 30, 2012 (unaudited) are not necessarily indicative of the results to be expected for the pending full year ending March 31, 2013.

NATURE OF BUSINESS

We are a manufacturing and engineering concern whose principal lines of business are the production and sale of chemical products and the manufacture and sale of electronics. On July 17, 2009, we purchased the assets of Antistatic Industries of Delaware Inc., ("Antistatic") a company involved in the research, development and manufacture of water-based and proprietary electrically conductive paints, coatings and other products and accessories which can be used by electronics, computer, pharmaceutical and chemical companies to prevent, reduce or eliminate static electricity.

Our chemical product line is principally comprised of water-based chemical products used in the food packaging and converting industries, and anti-static conductive paints, coatings and other products. These products are sold to customers located in the United States, Australia, Asia and Europe. Electronics equipment is manufactured in accordance with customer specifications on a contract basis. Our electronic device product line consists principally of proprietary devices used in diagnostics and therapeutics of humans and animals and, through our Action Industries, Unlimited, LLC subsidiary, electronic controllers for spas and hot tubs. These products are sold to customers located principally in the United States. We are registered with the FDA as a contract manufacturing facility and we manufacture medical devices for customers in accordance with their designs and specifications. We also provide research, development and engineering services to customers. Our Sonotron Medical Systems, Inc. subsidiary is involved in medical electronic therapeutic technology and our Pegasus Laboratories, Inc. is involved in topical dermatological products.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

CONSOLIDATION

The unaudited condensed consolidated financial statements include the accounts of ADM Tronics Unlimited, Inc. and its wholly owned subsidiaries, (Action Industries Unlimited LLC, Sonotron and Pegasus Labaoratories). All significant intercompany balances and transactions have been eliminated in consolidation.

#### USE OF ESTIMATES

These unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States and, accordingly, require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. Significant estimates made by management include expected economic life and value of our medical devices, reserves, deferred tax assets, valuation allowance, impairment of long lived assets, fair value of equity instruments issued to consultants for services and fair value of equity instruments issued to others, option and warrant expenses related to compensation to employees and directors, consultants and investment banks, allowance for doubtful accounts, and warranty reserves. Actual results could differ from those estimates.

## FAIR VALUE OF FINANCIAL INSTRUMENTS

For certain of our financial instruments, including accounts receivable, inventories, accounts payable, accrued expenses and notes payable - other, the carrying amounts approximate fair value due to their relatively short maturities.

## CASH AND EQUIVALENTS

Cash equivalents are comprised of certain highly liquid investments with maturities of three months or less when purchased. We maintain our cash in bank deposit accounts, which at times, may exceed federally insured limits. We have not experienced any losses to date as a result of this policy.

## REVENUE RECOGNITION

### CHEMICAL PRODUCTS:

Revenues are recognized when products are shipped to end users. Shipments to distributors are recognized as sales where no right of return exists.

### ELECTRONICS:

We recognize revenue from the sale of our electronic products when they are shipped to the purchaser. Shipping and handling charges and costs have been de minimis. We offer a limited 90 day warranty on our electronics products and a limited 5 year warranty on our electronic controllers for spas and hot tubs. Historically, the amount of warranty revenue included in the sales of our electronic products has been de minimis. We have no other post shipment obligations and sales returns have been de minimis. Based on prior experience, no amounts have been accrued for potential warranty costs and such costs were less than \$500, for the three months ended June 30, 2012 and 2011.

### ENGINEERING SERVICES:

Pursuant to a Master Services Agreement with Ivivi Health Sciences, LLC (IHS) ADM provides engineering services, including quality control and quality assurance services along with regulatory compliance services, warehouse fulfillment services and network administration services including hardware and software services. Under the terms of the Agreement, the Company agrees to serve as the exclusive manufacturer of all current and future medical and non-medical electronic devices or products sold or rented by IHS.

## RESEARCH AND DEVELOPMENT COSTS

Research and development costs consist of expenditures for the research and development of patents and technology which are not capitalizable. Our research and development costs consist mainly of labor costs in developing new products.

## WARRANTY LIABILITIES

The Company's provision for estimated future warranty costs is based upon historical relationship of warranty claims to sales. Based upon historical experience, the Company has concluded that no warranty liability is required as of the balance sheet dates. However, the Company periodically reviews the adequacy of its product warranties and will record an accrued warranty reserve if necessary.

## RESTRICTED CASH

Restricted cash represents funds on deposit with a financial institution that secure the bank note payable.

## NET LOSS PER SHARE

The Company computes basic loss per share by dividing the Company's net loss for the period by the weighted-average number of shares of common stock outstanding during the period. Diluted net loss per share excludes potential common shares if the effect is anti-dilutive. Diluted loss per share is determined in the same manner as basic loss per share except that the number of shares is increased assuming exercise of dilutive stock options and warrants using the treasury stock method. As the Company had a net loss for all periods presented, the impact of the assumed exercise of the stock options is anti-dilutive and as such, these amounts have been excluded from the calculation of diluted loss per share. For the three month periods ended June 30, 2012 and 2011, -0- and 2,750,000 common stock and common stock equivalent shares were excluded from the computation of diluted net loss per share, respectively.

## RECENT ACCOUNTING PRONOUNCEMENTS

Management does not believe that any other recently issued, but not yet effective accounting pronouncement, if adopted, would have a material effect on the accompanying unaudited condensed consolidated financial statements.

## USE OF ESTIMATES:

Our discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the US. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to reserves, deferred tax assets and valuation allowance, impairment of long-lived assets, fair value of equity instruments issued to consultants for services and fair value of equity instruments issued to others. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions; however, we believe that our estimates, including those for the above described items, are reasonable.

## BUSINESS OVERVIEW

ADM is a corporation that was organized under the laws of the State of Delaware on November 24, 1969. During the years ended March 31, 2012 and 2011, our operations were conducted through ADM itself and its subsidiaries, Pegasus Laboratories, Inc. (PLI) and Sonotron Medical Systems, Inc and Action Industries Unlimited LLC (“AIU”). In addition, the Company owns a minority interest in Montvale Technologies Inc, (formerly known as Ivivi Technologies Inc.) (“ITI”), which until October 18, 2006 was operated as a subsidiary of the Company. ITI was deconsolidated as of October 18, 2006 upon the consummation of ITI’s initial public offering. Our investment in ITI from October 18, 2006 through March 31, 2008 was reported under the equity method of accounting. Since April 1, 2008 we reported our investment in ITI at fair value. As reported by ITI, on February 12, 2010 all of ITI’s assets were acquired by IHS, an unaffiliated entity controlled by ITI’s former Chairman of the Board. Concurrent with such asset sale, the Company entered into agreements with IHS for services related to engineering and regulatory matters, and the previous manufacturing agreement with ITI was assigned to IHS.

In 2009, we invested in Wellington Scientific, LLC (“Wellington”) which has rights to an electronic uroflowmetry diagnostic medical device technology. During the year ended March 31, 2012, we completed development of a new version of the device (Flo-Med device) for compliance with FDA and international standards and created the required documentation for distribution of this product in the US. In July, an order was received from a distributor for approximately \$740,000 including a 25% cash deposit for the purchase of the Flo-Med device and related disposables. Production of the Flo-Med device and disposables continued during the period and the complete order was fulfilled during the quarter ended June 30, 2012.

We are a technology-based developer and manufacturer of diversified lines of products in the following four areas: (1) environmentally safe chemical products for industrial use, (2) electronic products for numerous industries, including therapeutic non-invasive electronic medical devices and electronic controllers for spas and hot tubs, (3) cosmetic and topical dermatological products and (4) Antistatic paint and coatings products. We have historically derived most of our revenues from the development, manufacture and sale of chemical products, and, to a lesser extent, from our electronics and topical dermatological products. Our Electronics segment includes our Action and SMS subsidiaries, and our Chemical segment includes our PLI subsidiary.

This note bears an interest rate of 2% above the rate of the savings account. The interest rate at June 30, 2012 was 2.30% and is payable upon demand.

### Future Sources of Liquidity:

We expect our primary source of cash during fiscal 2012 to be net cash provided by operating activities. We expect that growth in profitable revenues and continued focus on new customers will enable us to continue to generate cash flows from operating activities.

If we do not generate sufficient cash from operations, face unanticipated cash needs or do not otherwise have sufficient cash, we may need to consider the sale of certain intellectual property which does not support the Company's operations. In addition, we have the ability to reduce certain expenses depending on the level of business operation.

Based on current expectations, we believe that our existing cash of \$284,689 as of June 30, 2012 and our net cash provided by operating activities and other potential sources of cash will be sufficient to meet our cash requirements. Our ability to meet these requirements will depend on our ability to generate cash in the future, which is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.
