ROCKY MOUNTAIN CHOCOLATE FACTORY, INC. AND SUBSIDIARIES

NOTES TO INTERIM (UNAUDITED) CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of Operations

The accompanying consolidated financial statements include the accounts of Rocky Mountain Chocolate Factory, Inc., its wholly-owned subsidiary, Aspen Leaf Yogurt, LLC and its majority-owned subsidiary, U-Swirl, Inc. (collectively, the “Company”). All intercompany balances and transactions have been eliminated in consolidation.

Rocky Mountain Chocolate Factory, Inc. (“RMCF”) is an international franchisor, confectionery manufacturer and retail operator in the United States, Japan, South Korea, Canada and the United Arab Emirates. RMCF manufactures an extensive line of premium chocolate candies and other confectionery products.

Aspen Leaf Yogurt, LLC (“ALY”) was incorporated in the state of Colorado as Aspen Leaf Yogurt, Inc. on September 30, 2010 and organized through conversion as Aspen Leaf Yogurt, LLC on October 14, 2010. ALY was a franchisor and retail operator of self-serve frozen yogurt retail locations until the sale of substantially all of its assets in January 2013. ALY has ceased to operate any Company-owned Aspen Leaf Yogurt locations, or sell and support franchise locations.

On January 14, 2013, Ulysses Asset Acquisition, LLC (“Newco”), a wholly-owned subsidiary of the Company formed in the State of Colorado on January 2, 2013, entered into an agreement to acquire substantially all of the franchise rights of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, on January 14, 2013, the Company entered into two agreements to sell all of its membership interests in Newco and substantially all of its assets in ALY to U-Swirl, Inc., a publicly traded company (OTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl, Inc. U-Swirl, Inc. is in the business of offering consumers frozen desserts such as yogurt and sorbet. U-Swirl launched a national chain of self-serve frozen yogurt cafés called U-Swirl Frozen Yogurt and are franchising this concept. U-Swirl has built and operates cafés owned and operated by U-Swirl, Inc. (“Company-owned”) and franchises to others the right to own and operate U-Swirl cafés. It also franchises and operates self-serve frozen yogurt cafes under the name “Yogurtini” and “Aspen Leaf Yogurt.”

The Company's revenues are currently derived from three principal sources: sales to franchisees and others of chocolates and other confectionery products manufactured by the Company; the collection of initial franchise fees and royalties from franchisees' sales; and sales at Company-owned stores of chocolates and frozen yogurt and other confectionery products. The following table summarizes the number of stores operating under RMCF and its subsidiaries at May 31, 2013:

Basis of Presentation

The accompanying consolidated financial statements have been prepared by the Company, without audit, and reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial reporting and Securities and Exchange Commission regulations. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the consolidated financial statements reflect all adjustments (of a normal and recurring nature) which are necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods presented. The results of operations for the three months ended May 31, 2013 are not necessarily indicative of the results to be expected for the entire fiscal year.

These consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2013.

Stock-Based Compensation

In connection with these non-employee director stock issuances, the Company recognized \$48,400 and \$37,200 of stock-based compensation expense during the three-month period ended May 31, 2013 and 2012, respectively.

The restricted stock unit grants vest between 17% and 20% annually over a period of five to six years. There were no stock options awarded during the three months ended May 31, 2013 or 2012.

The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model utilizing the following weighted average assumptions:

NOTE 2 - EARNINGS PER SHARE

Basic earnings per share is calculated using the weighted-average number of common shares outstanding. Diluted earnings per share reflects the potential dilution that could occur from common shares issuable through stock options and restricted stock units. For the three months ended May 31, 2013 and 2012, 101,661 and 105,236 stock options were excluded, respectively, from the computation of earnings per share because their effect would have been anti-dilutive.

Amortization expense related to intangible assets totaled \$159 and \$2,494 during the three months ended May 31, 2013 and 2012, respectively. The decrease in amortization expense is primarily the result of some assets becoming fully amortized and Aspen Leaf Yogurt assets being sold. As of May 31, 2013 \$476 net intangible assets subject to amortization remained to be amortized through FY 14.

Overview

We are a product-based international franchisor, confectionery manufacturer and retail operator. Our revenues and profitability are derived principally from our franchised system of retail stores that feature chocolate, frozen yogurt, and other confectionery products. We also sell our candy in selected locations outside our system of retail stores to build brand awareness. We own and operate sixteen retail units as a laboratory to test marketing, design and operational initiatives.

The most important factors in continued growth in our earnings are ongoing unit growth, increased same-store sales and increased same-store pounds purchased from the factory. Historically, unit growth has more than offset decreases

in same-store sales and same-store pounds purchased.

Our ability to successfully achieve expansion of our Rocky Mountain Chocolate Factory franchise system depends on many factors not within our control, including the availability of suitable sites for new store establishment, the availability of adequate financing options and the availability of qualified franchisees to support such expansion.

Efforts to reverse the decline in same-store pounds purchased from the factory by franchised stores and to increase total factory sales depend on many factors, including new store openings, same-store sales, and the receptivity of our franchise system to our product introductions and promotional programs.

In January 2013, Ulysses Asset Acquisition, LLC (“Newco”), a wholly-owned subsidiary formed in the State of Colorado on January 2, 2013, entered into an agreement to acquire substantially all of the assets of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, we entered into two agreements to sell all of our membership interests in Newco and substantially all of our assets in Aspen Leaf Yogurt, LLC to U-Swirl, Inc., a publicly traded company (QTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl, Inc. Upon completion of these transactions, we ceased to operate any Company-owned Aspen Leaf Yogurt locations or sell and support franchise locations. We believe that the acquisition of 60% controlling interest in U-Swirl, Inc. will provide us with the ability to reverse operating losses incurred by the development and operation of Aspen Leaf Yogurt, LLC and provide an opportunity to continue to expand our presence in the self-serve frozen yogurt industry. Our ability to execute on this strategy is dependant upon continued expansion of the franchise network of U-Swirl, Inc. and the success of their franchisees.

In March 2013, we entered into a License Agreement covering the Kingdom of Saudi Arabia. Under the terms of the agreement, the licensee agreed to open and begin operating four (4) Rocky Mountain Chocolate Factory stores within 30 months following the execution of the agreement. The licensee has also been granted a 30-month option to convert its initial License Agreement into a Master License Agreement covering the entire country of Saudi Arabia. If the licensee chooses to exercise the option prior to its expiration date, the licensee will acquire the right to itself and/or through third-party franchisees to develop an additional six (6) Rocky Mountain Chocolate Factory stores in the Kingdom of Saudi Arabia.

In March 2013, we entered into a License Agreement covering South Korea. Under the terms of the agreement, the licensee agreed to open five (5) Rocky Mountain Chocolate Factory stores within 30 months following the execution of the agreement. The first Rocky Mountain Chocolate Factory store was opened in Seoul, South Korea in May 2013. The licensee has also been granted a 30-month option to convert its initial License Agreement into a Master License Agreement covering the entire country of South Korea. If the licensee chooses to exercise the option prior to its expiration date, the licensee will acquire the right to itself and/or through third-party franchisees to develop not less than 30 Rocky Mountain Chocolate Factory stores, inclusive of the five (5) stores developed under the terms of the initial License Agreement.

Results of Operations

Three Months Ended May 31, 2013 Compared to the Three Months Ended May 31, 2012

Basic earnings per share increased 11.8% from \$.17 during the three months ended May 31, 2012 to \$.19 during the three months ended May 31, 2013. Revenues increased by \$519,700 in the three months ended May 31, 2013 compared to the three months ended May 31, 2012. This increase in revenues was due primarily to an increase in franchise related revenue, partially offset by a decline in factory sales resulting from a decrease in shipments of

product to customers outside our network of franchised retail stores. Operating income increased 12.1% from \$1.62 million for the three months ended May 31, 2012 to \$1.82 million for the three months ended May 31, 2013. Net income increased 11.0% from \$1.06 million in the three months ended May 31, 2012 to \$1.18 million in the three months ended May 31, 2013. The increase in net income was due primarily to an income from operations related to frozen yogurt, compared with an operating loss in the same period of the prior year.

Factory Sales

The decrease in factory sales for the three months ended May 31, 2013 versus the three months ended May 31, 2012 was primarily due to a 9.6% decrease in shipments of product to customers outside our network of franchised retail stores and a 5.4% decrease in the average number of domestic Rocky Mountain Chocolate Factory franchised stores in operation. These decreases were partially offset by a 2.6% increase in same-store pounds purchased by our network of franchised stores.

Retail Sales

The increase in retail sales was primarily due to changes in units in operation, resulting from the acquisition of a majority ownership in U-Swirl, Inc. Same store sales at Company-owned stores increased 6.0% in the three months ended May 31, 2013 compared to the three months ended May 31, 2012.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the three months ended May 31, 2012 to the three months ended May 31, 2013 resulted from a 16.9% increase in domestic franchise stores in operation from the three months ended May 31, 2012 to the three months ended May 31, 2013, primarily as a result of our acquisition of a majority ownership position in the U-Swirl franchise system. This increase was partially offset by a decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 239 in the three months ended May 31, 2012 to 226 during the three months ended May 31, 2013. Franchise fee revenues increased as a result of the license fees associated with the license agreements for the development and franchising of Rocky Mountain Chocolate Factory stores in South Korea and the Kingdom of Saudi Arabia. This increase was partially offset by a decrease in the number of domestic franchise store openings from two in the three months ended May 31, 2012 to one opening in the three months ended May 31, 2013.

Adjusted gross margin and factory adjusted gross margin are non-GAAP measures. Adjusted gross margin is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin, factory gross margin and other performance measures calculated in conformity with GAAP. We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as analytical tools because they exclude the impact of depreciation and amortization expense and you should not consider it in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin. The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

	Three Months Ended May 31,	
(\$'s in thousands)	2013	2012
Factory adjusted gross margin	\$1,908.2	\$2,056.4
Less: depreciation and amortization	71.9	70.4
Factory GAAP gross margin	\$1,836.3	\$1,986.0

Cost of Sales

Factory margins decreased 130 basis points in the three months ended May 31, 2013 compared to the three months ended May 31, 2012 due primarily to a decline in manufacturing efficiencies associated with 6.0% lower production volume in the three months ended May 31, 2013 compared to the three months ended May 31, 2012. The increase in Company-owned store margin is due primarily to an increase in U-Swirl units in operation and associated higher margins.

Franchise Costs

The decrease in franchise costs in the three months ended May 31, 2013 versus the three months ended May 31, 2012 is due primarily to a decrease in franchise development costs associated with Aspen Leaf Yogurt. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 23.9% in the three months ended May 31, 2013 from 34.7% in the three months ended May 31, 2012. This decrease as a percentage of royalty,

marketing and franchise fees is primarily a result of lower franchise costs and higher franchise and royalty revenues.

Sales and Marketing

The increase in sales and marketing costs for the three months ended May 31, 2013 compared to the three months ended May 31, 2012 is primarily due to increased marketing-related compensation costs and an increase in marketing costs associated with U-Swirl, Inc. franchise locations.

General and Administrative

The increase in general and administrative costs for the three months ended May 31, 2013 compared to the three months ended May 31, 2012 is due primarily to the consolidation of U-Swirl, Inc. general and administrative costs and an increase in compensation related expenses. For the three months ended May 31, 2013, approximately \$406,000 of U-Swirl, Inc. general and administrative costs were consolidated within our results, compared with no amount in the three months ended May 31, 2012. As a percentage of total revenues, general and administrative expenses increased to 12.5% in the three months ended May 31, 2013 compared to 8.7% in the three months ended May 31, 2012.

Retail Operating Expenses

The increase in retail operating expenses for the three months ended May 31, 2013 compared to the three months ended May 31, 2012 was due primarily to changes in units in operation, resulting from the acquisition of a majority ownership in U-Swirl, Inc. Retail operating expenses, as a percentage of retail sales, decreased from 58.1% in the three months ended May 31, 2012 to 44.4% in the three months ended May 31, 2013.

Depreciation and Amortization

Depreciation and amortization of \$236,000 in the three months ended May 31, 2013 declined \$1,000 from \$237,000 incurred in the three months ended May 31, 2012, due to certain intangible assets becoming fully amortized.

Interest Income

Interest income of \$11,700 realized in the three months ended May 31, 2013 represents an increase of \$400 from the \$11,300 realized in the three months ended May 31, 2012.

Income Tax Expense

Our effective income tax rate for the three months ended May 31, 2013 was 31.9%, compared to 35.0% for the three months ended May 31, 2012. The decrease of 3.1% was primarily the result of the consolidation of the U-Swirl, Inc. net operating income. There was no income tax expense recognized on U-Swirl, Inc. income before income taxes for the three months ended May 31, 2013. U-Swirl, Inc. has significant net operating loss carryovers. In accordance with section 382 of the Internal Revenue Code, deductibility of U-Swirl, Inc.'s U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl, Inc. when the Company acquired its 60% ownership interest in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl, Inc.

Liquidity and Capital Resources

As of May 31, 2013, working capital was \$9.8 million, compared with \$9.0 million as of February 28, 2013, an increase of \$800,000. The increase in working capital was primarily due to positive operating results.

Cash and cash equivalent balances increased \$50,000 from \$5.32 million as of February 28, 2013 to \$5.37 million as of May 31, 2013 as a result of cash flow generated by operating activities being mostly offset by cash flows used by financing and investing activities. Our current ratio was 3.2 to 1 at May 31, 2013 in comparison with 2.6 to 1 at February 28, 2013. We monitor current and anticipated future levels of cash and cash equivalents in relation to anticipated operating, financing and investing requirements.

We have a \$5.0 million (\$5.0 million available as of May 31, 2013) working capital line of credit collateralized by substantially all of our assets with the exception of our retail store assets. Additionally, the line of credit is subject to various financial ratio and leverage covenants. As of May 31, 2013, we were in compliance with all such covenants. The line is subject to renewal on July 31, 2013. As of May 31, 2013, no amount was outstanding under this line of credit.

We believe cash flows generated by operating activities and available financing will be sufficient to fund our operations at least through the end of fiscal 2014.

Off-Balance Sheet Arrangements

As of May 31, 2013 we had no off-balance sheet arrangements or obligations.

Impact of Inflation

Inflationary factors such as increases in the costs of ingredients and labor directly affect our operations. Most of our leases provide for cost-of-living adjustments and require us to pay taxes, insurance and maintenance expenses, all of which are subject to inflation. Additionally, our future lease costs for new facilities may include potentially escalating costs of real estate and construction. There is no assurance that we will be able to pass on increased costs to our customers.

Depreciation expense is based on the historical cost to us of fixed assets, and is therefore potentially less than it would be if it were based on current replacement cost. While property and equipment acquired in prior years will ultimately have to be replaced at higher prices, it is expected that replacement will be a gradual process over many years.

Seasonality

We are subject to seasonal fluctuations in sales, which cause fluctuations in quarterly results of operations. Historically, the strongest sales of our confectionary products have occurred during the Christmas holiday through Mother's Day. We believe the strongest sales of frozen yogurt products will occur during the summer months. In addition, quarterly results have been, and in the future are likely to be, affected by the timing of new store openings and sales of franchises. Because of the seasonality of our business and the impact of new store openings and sales of franchises, results for any quarter are not necessarily indicative of results that may be achieved in other quarters or for a full fiscal year.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We do not engage in commodity futures trading or hedging activities and do not enter into derivative financial instrument transactions for trading or other speculative purposes. We also do not engage in transactions in foreign currencies or in interest rate swap transactions that could expose us to market risk. However, we are exposed to some commodity price and interest rate risks.

We frequently enter into purchase contracts of between six to eighteen months for chocolate and certain nuts. These contracts permit us to purchase the specified commodity at a fixed price on an as-needed basis during the term of the contract. Because prices for these products may fluctuate, we may benefit if prices rise during the terms of these contracts, but we may be required to pay above-market prices if prices fall and we are unable to renegotiate the terms of the contract. As of May 31, 2013, based on future contractual obligations for chocolate products, we estimate that a 10.0% change in the prices of cocoa would result in an \$170,000 favorable or unfavorable price benefit resulting from our contracts.

We have a \$5.0 million bank line of credit that bears interest at a variable rate. As of May 31, 2013, no amount was outstanding under the line of credit. We do not believe that we are exposed to any material interest rate risk related to this credit facility.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) that are designed to ensure that material information relating to us is made known to the officers who certify as to our financial reports and to other members of senior management and the Board of Directors. These disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports that are filed or submitted under the Exchange Act, are recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management, with the participation of our CEO and CFO, has evaluated the effectiveness, as of May 31, 2013, of our disclosure controls and procedures. We acquired a 60% controlling interest in U-Swirl, Inc. in January 2013 and U-Swirl's operations are consolidated into our unaudited financial statements included in this report. As such, the scope of our assessment of the effectiveness of our disclosure controls and procedures did not include the internal controls over financial reporting at U-Swirl. This exclusion is consistent with the SEC's guidance that an assessment of a recently acquired business may be omitted from the scope of our assessment of the effectiveness of disclosure controls and procedures that are also part of internal control over financial reporting in the year of acquisition. Based on that evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were effective as of May 31, 2013.

Changes in Internal Control over Financial Reporting

As a result of the acquisition of U-Swirl, Inc. in January 2013, the Company is evaluating and implementing changes to processes, policies and other components of its internal control over financial reporting with respect to the consolidation of U-Swirl's operations into the Company's financial statements. Management continues to be engaged in substantial efforts to evaluate the effectiveness of our internal control procedures and the design of those control procedures relating to U-Swirl. Except for the activities described above, there were no changes in the Company's internal control over financial reporting that occurred during the quarter ended May 31, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
