ROCKY MOUNTAIN CHOCOLATE FACTORY, INC. AND SUBSIDIARY

NOTES TO INTERIM (UNAUDITED) CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of Operations

The accompanying consolidated financial statements include the accounts of Rocky Mountain Chocolate Factory, Inc., its wholly-owned subsidiary, Aspen Leaf Yogurt, LLC and its majority-owned subsidiary, U-Swirl, Inc. (collectively, the “Company”). All intercompany balances and transactions have been eliminated in consolidation.

Rocky Mountain Chocolate Factory, Inc. (“RMCF”) is an international franchisor, confectionery manufacturer and retail operator in the United States, Canada, Japan, South Korea and the United Arab Emirates. RMCF manufactures an extensive line of premium chocolate candies and other confectionery products.

Aspen Leaf Yogurt, LLC (“ALY”) was incorporated in the state of Colorado as Aspen Leaf Yogurt, Inc. on September 30, 2010 and organized through conversion as Aspen Leaf Yogurt, LLC on October 14, 2010. ALY was a franchisor and retail operator of self-serve frozen yogurt retail locations until the sale of substantially all of its assets in January 2013. ALY has ceased to operate any Company-owned Aspen Leaf Yogurt locations, or sell and support franchise locations.

On January 14, 2013, Ulysses Asset Acquisition, LLC (“Newco”), a wholly-owned subsidiary of the Company formed in the State of Colorado on January 2, 2013, entered into an agreement to acquire substantially all of the franchise rights of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, on January 14, 2013, the Company entered into two agreements to sell all of its membership interests in Newco and substantially all of its assets in ALY to U-Swirl, Inc., a publicly traded company (OTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl, Inc. U-Swirl, Inc. is in the business of offering consumers frozen desserts such as yogurt and sorbet. U-Swirl, Inc. launched a national chain of self-serve frozen yogurt cafés called U-Swirl Frozen Yogurt and is franchising this concept. U-Swirl, Inc. has built and operates cafés owned and operated by U-Swirl, Inc. (“Company-owned”) and franchises to others the right to own and operate U-Swirl, Inc. cafés. It also franchises and operates self-serve frozen yogurt cafes under the names “Yogurtini,” “Aspen Leaf Yogurt,” and “Josie’s Frozen Yogurt.”

Edgar Filing: ROCKY MOUNTAIN CHOCOLATE FACTORY INC - Form 10-Q

In October 2013, we acquired the franchise rights to nine self-serve frozen yogurt cafés, and license agreements to two self-serve frozen yogurt cafés from Josie’s Frozen Yogurt, LLC (“Josie’s”).

The Company’s revenues are currently derived from three principal sources: sales to franchisees and others of chocolates and other confectionery products manufactured by the Company; the collection of initial franchise fees and royalties from franchisees’ sales; and sales at Company-owned stores of chocolates, frozen yogurt and other confectionery products. The following table summarizes the number of stores operating under RMCF and U-Swirl, Inc. at November 30, 2013:

These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2013.

Subsequent Events

On January 17, 2014 U-Swirl, Inc., our majority-owned subsidiary, acquired the franchise rights and certain operating assets of CherryBerry Enterprises, LLC, including affiliates, and Yogli Mogli, LLC, including affiliates. CherryBerry Enterprises, LLC franchises and operates 156 self-serve frozen yogurt cafés in 25 states, Canada, Pakistan, and Turkey. CherryBerry Enterprises, LLC and certain affiliates, including one Company-owned café, were acquired for approximately \$4.25 million in cash and 4 million shares of U-Swirl common stock. Yogli Mogli, LLC, franchises 22 self-serve frozen yogurt cafés and operates four company-owned cafés. Yogli Mogli, LLC and certain affiliates, including four Company-owned cafés were acquired for \$2.15 million in cash and \$200,000 in U-Swirl common stock. The acquisitions by U-Swirl, Inc. were funded through a \$7.75 million convertible note with Rocky Mountain Chocolate Factory, Inc. As of January 21, 2014 U-Swirl, Inc. has 267 café locations, including 13 Company-owned cafés, 251 domestic franchise cafés and three international cafés.

Compensation costs related to stock-based compensation are generally amortized over the vesting period.

NOTE 2 - EARNINGS PER SHARE

Basic earnings per share is calculated using the weighted average number of common shares outstanding. All inter-segment sales prices are market based. Each segment is managed separately because of the differences in required infrastructure and the difference in products and services:

NOTE 9 – RELATED PARTY TRANSACTIONS

The Company has entered into Franchise Agreements and a Development Agreement with a member of the Company's Board of Directors. The Director operates two ALY locations under the Franchise Agreements and the Development Agreement. As of November 30, 2013, the Company had receivables of approximately \$700 due from the Director associated with the director's ownership and operation of the two current ALY locations.

U-Swirl, Inc. was owed \$10,629 and \$8,597 as of November 30, 2013 and February 28, 2013, respectively, from a U-Swirl franchise that is owned and operated by the grandchildren of the Company's Chief Marketing Officer. The corporate secretary and treasurer of the franchise is also the Company's corporate secretary.

As of November 30, 2013 and February 28, 2013, U-Swirl, Inc. had deferred revenue of \$30,000 and \$30,000, respectively, from an area developer in which the Company's Chief Executive Officer and Chief Operating Officer have a minority interest.

NOTE 10 – IMPAIRMENT OF LONG-LIVED ASSETS

During the three months ended November 30, 2012, the Company began an initiative to sell substantially all long lived assets associated with continued operation of Aspen Leaf Yogurt Company-owned locations. This initiative caused the Company to perform an evaluation of the assets' fair value. An impairment loss for ALY operations was recognized in the amount of \$1,978,216 for certain long-lived assets related to all ALY Company-owned locations. The Company reviewed the machinery and equipment, furniture and fixtures, and leasehold improvements associated with each Company-owned ALY location, as well as ALY long-lived assets not allocated to a specific location. Current and historical operating and cash flow losses indicate that recorded asset values for these stores are not fully recoverable. Assets with net book value of \$2,893,549 were reduced to their estimated fair value based on prices of similar assets or estimated present value of future net cash flows expected to be generated from the assets.

The impairment of long-lived assets was recorded to the following segments:

Retail segment	\$1,929,453
Other segment	48,763
Total impairment provision	\$1,978,216

NOTE 11 – COMPANY OWNED STORE CLOSURES

In November 2013 the Company closed four under performing Company-owned Aspen Leaf Yogurt Cafés. The operation of these locations was transferred to U-Swirl, Inc. in January 2013 as a part of the transaction to acquire a controlling interest in U-Swirl, Inc. These assets were transferred in exchange for \$400,000 in non-recourse promissory notes.

During the three months ended November 30, 2012 the Company recorded an impairment charge for certain long-lived assets associated with the continued operation of Aspen Leaf Yogurt locations; see Note 10 to these financial statements. The impairment loss recorded in the three months ended November 30, 2012 considered the value of assets associated with these closures and during that period the assets were reduced to their estimated fair value at that time.

The Company has performed a subsequent review of the fair value of these assets and has determined that no further impairment is necessary. These assets will be utilized in Company-owned U-Swirl, Inc. locations, or sold to prospective U-Swirl, Inc. franchisees. The Company will continue to evaluate the fair value of these assets.

Overview

We are a product-based international franchisor, confectionery manufacturer and retail operator. Our revenues and profitability are derived principally from our franchised system of retail stores that feature chocolate, frozen yogurt, and other confectionery products. We also sell our candy in selected locations outside our system of retail stores to build brand awareness. We own and operate fifteen retail units as a laboratory to test marketing, design and operational initiatives.

The most important factors in continued growth in our earnings are ongoing unit growth, increased same-store sales and increased same-store pounds purchased from the factory. Historically, unit growth has more than offset decreases in same-store sales and same-store pounds purchased.

Our ability to successfully achieve expansion of our franchise systems depends on many factors not within our control, including the availability of suitable sites for new store establishment, the availability of adequate financing options and the availability of qualified franchisees to support such expansion.

Efforts to reverse the decline in same-store pounds purchased from the factory by franchised stores and to increase total factory sales depend on many factors, including new store openings, same-store sales, and the receptivity of our franchise system to our product introductions and promotional programs.

In January 2013, Ulysses Asset Acquisition, LLC (“Newco”), a wholly-owned subsidiary of the Company formed in the State of Colorado on January 2, 2013, entered into an agreement to acquire substantially all of the assets of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, we entered into two agreements to sell all of our membership interests in Newco and substantially all of our assets in Aspen Leaf Yogurt, LLC to U-Swirl, Inc., a publicly traded company (QTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl, Inc. Upon completion of these transactions, we ceased to operate any Company-owned Aspen Leaf Yogurt locations or sell and support franchise locations. We believe that the acquisition of 60% controlling interest in U-Swirl, Inc. will provide us with the ability to reverse operating losses incurred in prior fiscal years by the development and operation of Aspen Leaf Yogurt, LLC and provide an opportunity to continue to expand our presence in the self-serve frozen yogurt industry. Our ability to execute on this strategy is dependant upon continued expansion of the franchise network of U-Swirl, Inc. and the success of their franchisees. We have included U-Swirl Inc.’s performance into Management’s Discussion and Analysis of Financial Condition and Results of Operations.

In March 2013, we entered into a License Agreement covering the Kingdom of Saudi Arabia. Under the terms of the agreement, the licensee agreed to open and begin operating four (4) Rocky Mountain Chocolate Factory stores within 30 months following the execution of the agreement. The licensee has also been granted a 30-month option to convert its initial License Agreement into a Master License Agreement covering the entire country of Saudi Arabia. If the licensee chooses to exercise the option prior to its expiration date, the licensee (or through third-party franchisees) will acquire the right to develop an additional six (6) Rocky Mountain Chocolate Factory stores in the Kingdom of Saudi Arabia. No locations were opened under the License Agreement as of December 31, 2013.

In March 2013, we entered into a License Agreement covering South Korea. Under the terms of the agreement, the licensee agreed to open five (5) Rocky Mountain Chocolate Factory stores within 30 months following the execution of the agreement. The first Rocky Mountain Chocolate Factory store was opened in Seoul, South Korea in May 2013. The licensee has also been granted a 30-month option to convert its initial License Agreement into a Master License

Agreement covering the entire country of South Korea. If the licensee chooses to exercise the option prior to its expiration date, the licensee (or through third-party franchisees) will acquire the right to develop not less than 30 Rocky Mountain Chocolate Factory stores, inclusive of the five (5) stores developed under the terms of the initial License Agreement. As of December 31, 2013, five locations were operating under the License Agreement.

Results of Operations

Three Months Ended November 30, 2013 Compared to the Three Months Ended November 30, 2012

Basic earnings per share improved from a loss of \$.08 per share in the three months ended November 30, 2012 to earnings of \$.11 per share in the three months ended November 30, 2013. Revenues increased 7.5% from \$8.6 million in the three months ended November 30, 2012 to \$9.3 million in the three months ended November 30, 2013. Operating income improved from a loss of \$833,000 in the three months ended November 30, 2012 to operating income of \$1,004,000 in the three months ended November 30, 2013. Net income improved from a net loss of \$509,000 in the three months ended November 30, 2012 to a net income of \$699,000 in the three months ended November 30, 2013. The improvement in operating income and net income for the three months ended November 30, 2013 compared to November 30, 2012 was due primarily to an impairment loss for ALY operations being recognized in the amount of \$1.98 million for long-lived assets related to eight underperforming Company-owned stores during the three months ended November 30, 2012.

During the three months ended November 30, 2012, the Company began an initiative to sell substantially all long lived assets associated with continued operation of Aspen Leaf Yogurt Company-owned locations. This initiative caused the Company to perform an evaluation of the assets' fair value. An impairment loss for ALY operations was recognized in the amount of \$1,978,216 for certain long-lived assets related to all ALY Company-owned locations.

Factory Sales

The increase in factory sales during the three months ended November 30, 2013 compared to the three months ended November 30, 2012 was primarily due to a 31.8% increase in shipments to customers outside our system of franchised retail locations and an increase in sales to international and co-branded locations. These increases were partially offset by a 4.9% decrease in same-store pounds purchased by our network of franchised stores. We believe the decline in same store pounds purchased was largely the result of the lower number of retail shopping days following the Thanksgiving holiday in the three months ended November 30, 2013 compared to the three months ended November 30, 2012 and the resulting shift of certain orders into the subsequent quarter.

Retail Sales

The increase in retail sales for the three months ended November 30, 2013 compared with the three months ended November 30, 2012 was primarily due to changes in units in operation, resulting from the acquisition of a majority ownership in U-Swirl, Inc. in January 2013. The increase was partially offset by a 7.6% decrease in same store sales at Company-owned stores in the three months ended November 30, 2013 compared to the three months ended November 30, 2012.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the three months ended November 30, 2012 to the three months ended November 30, 2013 resulted from a 23.7% increase in domestic franchise stores in operation from the three months ended November 30, 2012 to the three months ended November 30, 2013, primarily as a result of our acquisition of a majority ownership position in U-Swirl, Inc. and accordingly, the U-Swirl franchise system. This increase was partially offset by a 5.1% decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 235 in the three months ended November 30, 2012 to 223 during the three months ended November 30, 2013. This decrease is the result of domestic store closures exceeding domestic store openings. Franchise fee revenues decreased as a result of a decrease in the number of domestic franchise store openings from five in the three months ended November 30, 2012 to two openings in the three months ended November 30, 2013.

U-Swirl, Inc. Café Sales, Royalties, Marketing Fees and Franchise Fees

During the three months ended November 30, 2013, U-Swirl, Inc. revenue totaled \$1,039,500 compared with no amount of U-Swirl, Inc. revenue consolidated within our results for the three months ended November 30, 2012. We began consolidation of U-Swirl, Inc. results when we acquired a majority ownership interest in January 2013.

Adjusted gross margin, a non-GAAP measure, is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin and other performance measures calculated in conformity with accounting principles generally accepted in the United States ("GAAP"). We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as an analytical tool because they exclude the impact of depreciation and amortization expense and you should not consider them in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate

income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin. The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

(\$'s in thousands)	Three Months Ended November 30,	
	2013	2012
Factory adjusted gross margin	\$2,040.0	\$1,974.5
Less: Depreciation and Amortization	73.8	72.1
Factory GAAP gross margin	\$1,966.2	\$1,902.4

Cost of Sales and Gross Margin

Factory adjusted gross margins decreased 40 basis points in the three months ended November 30, 2013 compared to the three months ended November 30, 2012 due to an increase in the average selling price of products to domestic franchise units being more than offset by increases in the costs of certain materials. The increase in Company-owned store margin is due primarily to an increase in U-Swirl stores in operation and the associated higher margins.

Franchise Costs

Franchise costs increased 11.5% from the three months ended November 30, 2012 compared to the three months ended November 30, 2013. This increase was primarily due to increased franchise costs from the consolidation of U-Swirl, Inc. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 34.5% in the three months ended November 30, 2013 from 35.0% in the three months ended November 30, 2012. This decrease as a percentage of royalty, marketing and franchise fees is primarily a result of a 13.0% increase in total royalty and marketing fees and franchise fee revenue.

Sales and Marketing

The increase in sales and marketing costs for the three months ended November 30, 2013 compared to the three months ended November 30, 2012 is primarily due to an increase in marketing costs associated with U-Swirl, Inc. franchise locations and increased marketing-related compensation costs.

General and Administrative

The increase in general and administrative costs for the three months ended November 30, 2013 compared to the three months ended November 30, 2012 is due primarily to the consolidation of U-Swirl, Inc.'s general and administrative costs and an increase in compensation related expenses. For the three months ended November 30, 2013, approximately \$316,000 of U-Swirl, Inc. general and administrative costs were consolidated within our results, compared with no amount in the three months ended November 30, 2012. As a percentage of total revenues, general and administrative expenses increased to 12.4% in the three months ended November 30, 2013 compared to 9.8% in the three months ended November 30, 2012.

Retail Operating Expenses

The increase in retail operating expense was primarily due to an increase in the average number of Company-owned stores in operation. The average number of Company-owned stores in operation increased from 15 during the three months ended November 30, 2012 to 18 units in the same period of the current year. Retail operating expenses, as a percentage of retail sales, decreased from 74.1% in the three months ended November 30, 2012 to 68.1% in the same period of the current year. This decrease is primarily the result of a change in units in operation and the resulting increase in retail sales, resulting from the acquisition of a majority interest in U-Swirl, Inc.

Depreciation and Amortization

Depreciation and amortization of \$198,000 in the three months ended November 30, 2013 decreased 11.6% from \$224,000 incurred in the three months ended November 30, 2012 due to the closure of four Company-owned locations and the associated impact on depreciation.

Interest Income

Interest income of \$16,700 realized in the three months ended November 30, 2013 represents an increase of \$6,300 from the \$10,400 realized in the three months ended November 30, 2012 due to an increase in notes receivable.

Income Tax Expense

Our effective income tax rate for the three months ended November 30, 2013 was 39.8%, compared to 38.0% for the three months ended November 30, 2012. The increase of 1.8% was primarily the result of the consolidation of the U-Swirl, Inc. net operating income. U-Swirl, Inc. has significant net operating loss carryovers. In accordance with section 382 of the Internal Revenue Code, deductibility of U-Swirl, Inc.'s U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl, Inc. when we acquired our 60% ownership interest in U-Swirl, Inc. in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl, Inc.

Nine Months Ended November 30, 2013 Compared to the Nine Months Ended November 30, 2012

Basic earnings per share increased 108.7% from \$.23 for the nine months ended November 30, 2012 to \$.48 for the nine months ended November 30, 2013. Revenues increased 8.1% to \$28.1 million for the nine months ended November 30, 2013 compared to \$26.0 million in the nine months ended November 30, 2012. Operating income increased 113.3% from \$2.1 million in the nine months ended November 30, 2012 to \$4.4 million in the nine months ended November 30, 2013. Net income increased 110.4% from \$1.4 million in the nine months ended November 30, 2012 to \$2.9 million in the nine months ended November 30, 2013. The increase in operating income and net income for the nine months ended November 30, 2013 compared to the same period in the prior year was due primarily to an impairment loss for ALY operations being recognized during the nine months ended November 30, 2012 in the amount of \$1.98 million for long-lived assets related to eight underperforming Company-owned stores.

During the nine months ended November 30, 2012, the Company began an initiative to sell substantially all long lived assets associated with continued operation of Aspen Leaf Yogurt Company-owned locations. This initiative caused the Company to perform an evaluation of the assets' fair value. An impairment loss for ALY operations was recognized in the amount of \$1,978,216 for certain long-lived assets related to all ALY Company-owned locations.

Factory Sales

The increase in factory sales for the nine months ended November 30, 2013 versus the nine months ended November 30, 2012 was primarily due to an increase in sales to international licensed stores and a 2.7% increase in shipments of product to customers outside our network of franchised retail stores. These increases were partially offset by a 0.1% decrease in same-store pounds purchased by franchise locations in the nine months ended November 30, 2013 compared with the same period in the prior year. The increases were also partially offset by a 5.1% decrease in the average number of domestic Rocky Mountain Chocolate Factory franchised stores in operation.

Retail Sales

The increase in retail sales was primarily due to changes in units in operation, resulting from the acquisition of a majority ownership in U-Swirl, Inc. Additionally, same store sales at Company-owned stores decreased 1.4% in the nine months ended November 30, 2013 compared to the nine months ended November 30, 2012.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the nine months ended November 30, 2012 to the nine months ended November 30, 2013 resulted from a 19.4% increase in domestic franchise stores in operation from the nine months ended November 30, 2012 to the nine months ended November 30, 2013, primarily as a result of our acquisition of a majority ownership position in U-Swirl, Inc. and accordingly, the U-Swirl franchise system. This increase was partially offset by a 5.1% decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 237 in the nine months ended November 30, 2012 to 225 during the nine months ended November 30, 2013. This decrease is the result of domestic store closures exceeding domestic store openings. Franchise fee revenues increased primarily as a result of the license fees associated with the license agreements for the development and franchising of Rocky Mountain Chocolate Factory stores in South Korea and the Kingdom of Saudi Arabia. Same store sales at domestic Rocky Mountain Chocolate Factory locations increased 1.8% in the nine months ended November 30, 2013, compared with the nine months ended November 30, 2012.

U-Swirl, Inc. Café Sales, Royalties, Marketing Fees and Franchise Fees

During the nine months ended November 30, 2013, U-Swirl, Inc. revenue totaled \$4,449,400 compared with no amount of U-Swirl, Inc. revenue consolidated within our results for the nine months ended November 30, 2012. We began consolidation of U-Swirl, Inc. results when we acquired a majority ownership interest in January 2013.

Adjusted gross margin, a non-GAAP measure, is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin and other performance measures calculated in conformity with accounting principles generally accepted in the United States ("GAAP"). We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as an analytical tool because they exclude the impact of depreciation and amortization expense and you should not consider them in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin.

The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

(\$'s in thousands)	Nine Months Ended November 30,	
	2013	2012
Factory adjusted gross margin	\$5,666.9	\$5,635.5
Less: Depreciation and Amortization	218.2	214.4
Factory GAAP gross margin	\$5,448.7	\$5,421.1

Cost of Sales and Gross Margin

Factory adjusted gross margin decreased 20 basis points during the nine months ended November 30, 2013 compared to the same period in the prior year due to an increase in the average selling price of products to domestic franchise units being more than offset by increases in the costs of certain materials. The increase in Company-owned store margin is due primarily to an increase in U-Swirl stores in operation and associated higher margins.

Franchise Costs

The decrease in franchise costs for the nine months ended November 30, 2013 compared to the nine months ended November 30, 2012 is due primarily to a decrease in franchise development costs associated with Aspen Leaf Yogurt due to the sale of the Aspen Leaf Yogurt concept to U-Swirl in January 2013, partially offset by increased franchise costs from the consolidation of U-Swirl, Inc. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 27.7% in the nine months ended November 30, 2013 from 35.7% in the nine months ended November 30, 2012. This decrease as a percentage of royalty, marketing and franchise fees is primarily a result of a 24.7% increase in royalty, marketing and franchise fee revenue as a result of an increase in system-wide franchise stores in the nine months ended November 30, 2013 compared to the nine months ended November 30, 2012.

Sales and Marketing

The increase in sales and marketing expense for the nine months ended November 30, 2013 compared to the same period in the prior year is due primarily to increased marketing-related compensation costs and an increase in marketing costs associated with U-Swirl, Inc. franchise locations.

General and Administrative

The increase in general and administrative costs for the nine months ended November 30, 2013 compared to the nine months ended November 30, 2012 is due primarily to the consolidation of U-Swirl, Inc.'s general and administrative costs and an increase in compensation related expenses. For the nine months ended November 30, 2013, approximately \$1,031,000 of U-Swirl, Inc. general and administrative costs were consolidated within our results, compared with no amount in the nine months ended November 30, 2012. As a percentage of total revenues, general and administrative expenses increased to 12.9% in the nine months ended November 30, 2013 compared to 9.2% in the nine months ended November 30, 2012.

Retail Operating Expenses

The increase in retail operating expense was primarily due to a change in the mix of Company-owned stores in operation, resulting from the acquisition of a majority interest in U-Swirl, Inc. in January 2013 and the associated operating expenses during the nine months ended November 30, 2013 compared with the nine months ended November 30, 2012. The average number of Company-owned stores in operation increased from 17 during the nine

months ended November 30, 2012 to 18 units in the nine months ended November 30, 2013. Retail operating expenses, as a percentage of retail sales, decreased from 61.7% in the nine months ended November 30, 2012 to 52.2% in the nine months ended November 30, 2013. This decrease is primarily the result of a change in units in operation and the resulting increase in retail sales, resulting from the acquisition of a majority interest in U-Swirl, Inc.

Depreciation and Amortization

Depreciation and amortization of \$670,000 in the nine months ended November 30, 2013 decreased 3.2% from \$692,000 incurred in the nine months ended November 30, 2012 due to the closure of four Company-owned locations in November 2013.

Interest Income

Interest income of \$44,000 realized in the nine months ended November 30, 2013 represents an increase of \$11,000 from the \$33,000 realized in the same period of the prior year due to higher balances of notes receivable.

Income Tax Expense

Our effective income tax rate for the nine months ended November 30, 2013 was 33.7%, compared to 33.9% for the nine months ended November 30, 2012. The decrease of 0.2% was primarily the result of the consolidation of the U-Swirl, Inc. net operating income. U-Swirl, Inc. has significant net operating loss carryovers. In accordance with section 382 of the Internal Revenue Code, deductibility of U-Swirl, Inc.'s U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl, Inc. when we acquired our 60% ownership in U-Swirl, Inc. interest in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl, Inc.

Liquidity and Capital Resources

As of November 30, 2013, working capital was \$10.0 million, compared with \$9.0 million as of February 28, 2013, an increase of \$1.0 million. The change in working capital was due primarily to operating results less the payment of dividends, an increase in notes receivable and the purchase of equipment.

Cash and cash equivalents decreased from \$5.3 million as of February 28, 2013 to \$3.4 million as of November 30, 2013 as a result of cash flows provided by operating activities being less than cash flows used by investing and financing activities. Our current ratio was 3.31 to 1 at November 30, 2013 compared to a current ratio of 2.61 to 1 at February 28, 2013. We monitor current and anticipated future levels of cash and cash equivalents in relation to anticipated operating, financing and investing requirements.

We have a \$5.0 million (no amount was outstanding as of November 30, 2013) working capital line of credit collateralized by substantially all of our assets with the exception of our retail store assets. Additionally, the line of credit is subject to various financial ratio and leverage covenants. As of November 30, 2013, we were in compliance with all such covenants. The line is subject to renewal on July 31, 2014.

In January 2014, we executed a promissory note for \$7.0 million in order to establish a credit facility to fund potential acquisitions. The note is guaranteed by us and is collateralized by substantially all of our assets. The note bears interest at a fixed rate of 3.750% and requires equal monthly payments of interest and principal until the note matures on January 15, 2020. Additionally, the note is subject to various financial ratio and leverage covenants. As of November 30, 2013 no amount was outstanding. As of January 21, 2014 we had drawn \$6,400,000 on the note to fund the subsequent acquisition events as described herein.

We believe cash flows generated by operating activities and available financing will be sufficient to fund our operations at least through the end of fiscal 2014.

Impact of Inflation

Inflationary factors such as increases in the costs of ingredients and labor directly affect our operations. Most of our leases provide for cost-of-living adjustments and require us to pay taxes, insurance and maintenance expenses, all of which are subject to inflation. Additionally our future lease costs for new facilities may include potentially escalating costs of real estate and construction. There is no assurance that we will be able to pass on increased costs to our customers.

We frequently enter into purchase contracts of between six to eighteen months for chocolate and certain nuts. These contracts permit us to purchase the specified commodity at a fixed price on an as-needed basis during the term of the contract, which could help insulate us from inflation in the prices of those products during the terms of such contracts

Depreciation expense is based on the historical cost of our fixed assets, and is therefore potentially less than it would be if it were based on current replacement cost. While property and equipment acquired in prior years will ultimately have to be replaced at higher prices, it is expected that replacement will be a gradual process over many years.

Seasonality

We are subject to seasonal fluctuations in sales, which cause fluctuations in quarterly results of operations. Historically, the strongest sales of our confectionary products have occurred during the Christmas holiday through Mother's Day. We believe the strongest sales of frozen yogurt products will occur during the summer months. In addition, quarterly results have been, and in the future are likely to be, affected by the timing of new store openings and sales of franchises. Because of the seasonality of our business and the impact of new store openings and sales of franchises, results for any quarter are not necessarily indicative of results that may be achieved in other quarters or for a full fiscal year.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not engage in commodity futures trading or hedging activities and do not enter into derivative financial instrument transactions for trading or other speculative purposes. We also do not engage in transactions in foreign currencies or in interest rate swap transactions that could expose us to market risk. However, we are exposed to some commodity price and interest rate risks.

We frequently enter into purchase contracts of between six to eighteen months for chocolate and certain nuts. These contracts permit us to purchase the specified commodity at a fixed price on an as-needed basis during the term of the contract. Because prices for these products may fluctuate, we may benefit if prices rise during the terms of these contracts, but we may be required to pay above-market prices if prices fall and we are unable to renegotiate the terms of the contracts. As of November 30, 2013, based on future contractual obligations for chocolate products, we estimate that a 10.0% change in the price of cocoa would result in an \$40,000 favorable or unfavorable price benefit resulting from our contracts.

We have a \$5.0 million bank line of credit that bears interest at a variable rate. As of November 30, 2013, no amount was outstanding under the line of credit. We do not believe that we are exposed to any material interest rate risk related to this credit facility.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that material information relating to us is made known to the officers who certify as to our financial reports and to other members of senior management and the Board of Directors. These disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports that are filed or submitted under the Exchange Act, are recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management, with the participation of our CEO and CFO, has evaluated the effectiveness, as of November 30, 2013, of our disclosure controls and procedures. We acquired a 60% controlling interest in U-Swirl, Inc. in January 2013 and U-Swirl's operations are consolidated into our unaudited financial statements included in this report. As such, the scope of our assessment of the effectiveness of our disclosure controls and procedures did not include the internal controls over financial reporting at U-Swirl. This exclusion is consistent with the SEC's guidance that an assessment of a recently acquired business may be omitted from the scope of our assessment of the effectiveness of disclosure controls and procedures that are also part of internal control over financial reporting in the year of acquisition. Based on that evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were effective as of November 30, 2013.

Changes in Internal Control over Financial Reporting

As a result of the acquisition of U-Swirl, Inc. in January 2013, the Company is evaluating and implementing changes to processes, policies and other components of its internal control over financial reporting with respect to the consolidation of U-Swirl's operations into the Company's financial statements. Management continues to be engaged in substantial efforts to evaluate the effectiveness of our internal control procedures and the design of those control procedures relating to U-Swirl. Except for the activities described above, there were no changes in the Company's internal control over financial reporting that occurred during the quarter ended November 30, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
