## Item 8.01. Other Events.

H.B. Fuller Company (“H.B. Fuller” or the “Company”) is filing this Current Report on Form 8-K to provide restated unaudited historical financial information for each quarter of the fiscal year and for the fiscal year ended December 1, 2018 to reflect accounting changes implemented in the first quarter ended March 2, 2019. The financial information is provided on a retrospective basis as if the changes had taken place at the beginning of the fiscal year ended December 1, 2018. The changes include the adoption of an Accounting Standards Update related to accounting for pension plans and a customer realignment between certain operating segments. Other than the reclassification of certain elements of net pension cost within the income statement, these changes have no impact on the Company’s consolidated statements of income, consolidated balance sheets, consolidated statements of total equity and consolidated statements of cash flows previously reported on the basis of generally accepted accounting principles (“GAAP”).

The Company is also providing supplemental unaudited historical revised adjusted measures for each quarter of the fiscal year and for the fiscal year ended December 1, 2018 that do not conform to generally accepted accounting principles (“non-GAAP measures”), including adjusted net income attributable to H.B. Fuller, adjusted EBITDA and adjusted EBITDA margin, adjusted gross profit and adjusted gross profit margin, and adjusted selling, general and administrative expenses. The non-GAAP measures reflect the adoption of the new pension accounting standard and the customer realignment. Management has included the non-GAAP information to assist investors in understanding the operating performance of the Company and its operating segments as well as the comparability of results. The non-GAAP measures should not be construed as an alternative to the reported results determined in accordance with GAAP, and the non-GAAP measures may not be consistent with the methodologies used by other companies. The non-GAAP measures have been reconciled to the nearest applicable GAAP measures in the tables below. There was no change to the Company’s non-GAAP measures on a consolidated basis for adjusted net income attributable to H.B. Fuller or adjusted EBITDA as a result of the new pension standard or customer realignment among operating segments.

### *Pension Accounting Change*

In the first quarter ended March 2, 2019, the Company adopted Accounting Standards Update No. 2017-07, Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires companies to include only the service cost component of net periodic pension cost and net periodic postretirement benefit cost in operating expenses. The other components of net benefit cost, including interest cost, expected return on assets, amortization of prior service cost/credit, actuarial gain/loss and settlement and curtailment effects, are to be included in nonoperating expenses. Prior to adopting the accounting change for pension plans, all pension items were recorded in operating expenses. The classification requirements of this standard are applied on a retrospective basis.

### *Customer Realignment*

Also, effective in the first quarter ended March 2, 2019, the Company realigned certain customers within its existing operating segments in an effort to improve the alignment of its sales organization and market strategies. The primary change involves moving the Company's bus, truck and rail customers from the Americas Adhesives and EIMEA Adhesives operating segments to the Engineering Adhesives operating segment, in addition to lesser impacts in the Asia Pacific and Construction Adhesives operating segments.

**Item 9.01. Financial Statements and Exhibits.**

(d) Exhibits.

99.1 H.B. Fuller Segment Financial Information (Restated for Pension Adjustment and Customer Realignment)
