(I.R.S.
Employer
Identification
Number)

Edgar Filing: WORKIVA INC - Form 10-Q

Ames, IA 50010

(888) 275-3125

(Address of principal executive offices and zip code)

(888) 275-3125

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes No

As of April 29, 2019, there were approximately 35,733,931 shares of the registrant's Class A common stock and 9,425,596 shares of the registrant's Class B common stock outstanding.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q are “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created thereby. All statements contained in this Quarterly Report on Form 10-Q other than statements of historical facts, including statements regarding our future results of operations and financial position, our business strategy and plans and our objectives for future operations, are forward-looking statements. The words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect” and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2018, in “Item 1A. Risk Factors” in Part II of this Quarterly Report on Form 10-Q and in any subsequent filing we make with the SEC, as well as in any documents incorporated by reference that describe risks and factors that could cause results to differ materially from those projected in these forward-looking statements.

Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this Quarterly Report on Form 10-Q may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, achievements or events and circumstances reflected in the forward-looking statements will occur. We are under no duty to update any of these forward-looking statements after completion of this Quarterly Report on Form 10-Q to conform these statements to actual results or revised expectations.

WORKIVA INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Significant Accounting Policies

Organization

Workiva Inc., a Delaware corporation, and its wholly-owned subsidiaries (the “Company” or “we” or “us”) is a leading provider of cloud-based solutions for connected data, reporting and compliance. Our platform, Wdesk, is used by thousands of public and private companies, government agencies and higher-education institutions. Wdesk offers controlled collaboration, data linking, data integrations, granular permissions, process management and a full audit trail. We sell to customers in the areas of: finance and accounting; risk and controls; regulatory reporting; financial close, management and performance reporting; and statutory and corporate tax reporting. Our operational headquarters are located in Ames, Iowa, with additional offices located in the United States, Europe, the Asia-Pacific region and Canada.

We updated our accounting policies on the use of estimates, impairment of long-lived assets and leases as a result of our adopting Financial Accounting Standards Board (FASB) guidance issued in accounting standards codification (ASC) 842, *Leases*, under the Accounting Standards Update (ASU) 2016-02 (collectively the new lease standard). Otherwise, there have been no changes to our significant accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2018, filed with the SEC on February 20, 2019, that have had a material impact on our condensed consolidated financial statements and related notes.

Basis of Presentation and Principles of Consolidation

The financial information presented in the accompanying unaudited condensed consolidated financial statements has been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and in accordance with rules and regulations of the U.S. Securities and Exchange Commission (“SEC”) regarding interim financial reporting. Accordingly, the financial statements do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The condensed consolidated balance sheet data as of December 31, 2018 was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting primarily of normal recurring accruals, necessary for a fair presentation of our financial position and results of operations. The operating results for the three months ended March 31, 2019 are not necessarily indicative of the results expected for the full year ending December 31, 2019.

Seasonality has affected our revenue, expenses and cash flows from operations. Revenue from professional services has been higher in the first quarter as many of our customers file their Form 10-K in the first calendar quarter. Sales and marketing expense has been higher in the third quarter due to our annual user conference in September. In addition, the timing of the payments of cash bonuses to employees during the first and fourth calendar quarters may result in some seasonality in operating cash flow. The condensed consolidated financial information should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” contained in this report and the consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2018 filed with the SEC on February 20, 2019.

The unaudited condensed consolidated financial statements include the accounts of Workiva Inc. and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. Additionally, certain prior period amounts have been reclassified for consistency with the current year presentation. The reclassification of the prior period amounts were not material to the previously reported consolidated financial statements.

Table of Contents

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We base our estimates on historical experience and various other assumptions believed to be reasonable. These estimates include, but are not limited to, the allowance for doubtful accounts, the determination of the relative selling prices of our services, the measurement of material rights, health insurance claims incurred but not yet reported, valuation of available-for-sale marketable securities, useful lives of deferred contract costs, intangible assets and property and equipment, income taxes, discount rates used in the valuation of right-of-use assets and lease liabilities, and certain assumptions used in the valuation of equity awards. While these estimates are based on our best knowledge of current events and actions that may affect us in the future, actual results may differ materially from these estimates.

Impairment of Long-Lived Assets

Long-lived assets, such as property, equipment, right-of-use assets and software and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. If circumstances require that a long-lived asset or asset group be tested for possible impairment, we first compare the undiscounted cash flows expected to be generated by that long-lived asset or asset group to its carrying amount. If the carrying amount of the long-lived asset or asset group is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value.

Leases

We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") assets, other current liabilities, and operating lease liabilities on our condensed consolidated balance sheets. We currently have no finance leases.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and operating lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date. Our variable lease payments consist of non-lease services related to the lease. Variable lease payments are excluded from the ROU assets and lease liabilities and are recognized in the period in which the obligation for those payments is incurred. As our leases do not provide an implicit rate, we use our incremental borrowing rate based on the information available at the commencement date in determining the present value of lease payments. The operating lease ROU asset also includes any lease payments made and excludes lease incentives incurred. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term.

We have lease agreements with lease and non-lease components. We have elected to account for these lease and non-lease components as a single lease component. We are also electing not to apply the recognition requirements to short-term leases of 12 months or less and instead will recognize lease payments as expense on a straight-line basis over the lease term.

Table of Contents

In February 2016, the Financial Accounting Standards Board ("FASB") issued guidance codified in ASC 842, *Leases*, which supersedes the guidance in former ASC 840, *Leases*, to increase transparency and comparability among organizations by requiring recognition of right-of-use assets and lease liabilities on the balance sheet and disclosure of key information about leasing arrangements (with the exception of short-term leases).

In July 2018, the FASB issued an update (ASU 2018-11) to the existing transition guidance that allows entities to recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption.

Effective January 1, 2019, we adopted ASC 842 using this new transition guidance. The comparative information has not been restated and continues to be reported under the accounting standard in effect for those periods.

We have elected to use the package of practical expedients, which allows us to not (1) reassess whether any expired or existing contracts are considered or contain leases; (2) reassess the lease classification for any expired or existing leases; and (3) reassess the initial direct costs for any existing leases. We did not elect the hindsight practical expedient, which permits entities to use hindsight in determining the lease term and assessing impairment.

Adoption of the new standard had a material impact on our condensed consolidated balance sheets. The most significant impacts related to the recognition of right-of-use assets and lease liabilities for operating leases. The adoption of ASC 842 had no impact on our condensed consolidated statements of operations or total cash flows from operations.

The cumulative effect of the changes made to our consolidated January 1, 2019 balance sheet for the adoption of ASC 842 were as follows (in thousands):

	As of December 31, 2018	Adjustments due to ASC 842 adoption	As of January 1, 2019
Assets			
Operating right-of-use asset	\$ —	\$ 15,694	\$ 15,694
Liabilities			
Accrued expenses and other current liabilities	36,353	2,319	38,672
Other long-term liabilities	6,891	(6,007)	884
Operating lease liabilities, non-current	—	19,382	19,382

New Accounting Pronouncements Not Yet Adopted

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which amends the current accounting guidance and requires the measurement of all expected losses based on historical experience, current conditions and reasonable and supportable forecasts. For trade receivables, loans, and other financial instruments, we will be required to use a forward-looking expected loss model that reflects probable losses rather than the incurred loss model for recognizing credit losses. The standard will become effective for interim and annual periods beginning after December 15, 2019, with early adoption permitted. Application of the amendments is through a cumulative-effect adjustment to retained earnings as of the effective date. We plan to adopt this standard on the effective date and are currently evaluating the impact of this new standard on our consolidated financial statements.

Table of Contents

In August 2018, the FASB issued ASU 2018-15, *Intangibles - Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*, which clarifies the accounting for implementation costs in cloud computing arrangements. The update will become effective for interim and annual periods beginning after December 15, 2019 and may be adopted either retrospectively or prospectively. Early adoption is permitted. We plan to adopt this standard prospectively. We are currently evaluating the impact that adoption of this ASU will have on our consolidated financial statements and whether or not to early adopt.

2. Supplemental Consolidated Balance Sheet and Statement of Operations Information***Accrued Expenses and Other Current Liabilities***

Accrued expenses and other current liabilities consisted of (in thousands):

	March 31, 2019	December 31, 2018

Commercial paper	7,483	—	—	7,483
U.S. treasury debt securities	3,917	1	—	3,918
U.S. corporate debt securities	24,278	19	(30)	24,267
	\$ 90,895	\$ 20	\$ (30)	\$ 90,885
Included in cash and cash equivalents	\$ 55,217	\$ —	\$ —	\$ 55,217
Included in marketable securities	\$ 35,678	\$ 20	\$ (30)	\$ 35,668

At December 31, 2018, marketable securities consisted of the following (in thousands):

	Amortized Cost	Unrealized Gains	Unrealized Losses	Aggregate Fair Value
Money market funds	\$ 52,068	\$ —	\$ —	\$ 52,068
Commercial paper	7,448	—	—	7,448
U.S. treasury debt securities	2,494	—	(1)	2,493
U.S. corporate debt securities	10,890	—	(67)	10,823
	\$ 72,900	\$ —	\$ (68)	\$ 72,832
Included in cash and cash equivalents	\$ 52,068	\$ —	\$ —	\$ 52,068
Included in marketable securities	\$ 20,832	\$ —	\$ (68)	\$ 20,764

The following table presents gross unrealized losses and fair values for those marketable securities that were in an unrealized loss position as of March 31, 2019, aggregated by investment category and the length of time that individual securities have been in a continuous loss position (in thousands):

As of March 31, 2019

	Less than 12 months		12 months or greater	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. treasury debt securities	\$ —	\$ —	\$ —	\$ —
U.S. corporate debt securities	4,980	(1)	5,479	(29)
Total	\$ 4,980	\$ (1)	\$ 5,479	\$ (29)

We do not believe any of the unrealized losses represented an other-than-temporary impairment based on our evaluation of available evidence, which includes our intent as of March 31, 2019 to hold these investments until the cost basis is recovered.

12

Table of Contents**4. Fair Value Measurements**

We determine the fair values of our financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value assumes that the transaction to sell the asset or transfer the liability occurs in the principal or most advantageous market for the asset or liability and establishes that the fair value of an asset or liability shall be determined based on the assumptions that market participants would use in pricing the asset or liability. The classification of a financial asset or liability within the hierarchy is based upon the lowest level input that is significant to the fair value measurement. The fair value hierarchy prioritizes the inputs into three levels that may be used to measure fair value:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument.

Level 3 - Inputs are unobservable inputs based on our assumptions.

Financial Assets

Cash equivalents primarily consist of AAA-rated money market funds with overnight liquidity and no stated maturities. We classified cash equivalents as Level 1 due to the short-term nature of these instruments and measured the fair value based on quoted prices in active markets for identical assets.

When available, our marketable securities are valued using quoted prices for identical instruments in active markets. If we are unable to value our marketable securities using quoted prices for identical instruments in active markets, we value our investments using broker reports that utilize quoted market prices for comparable instruments. We validate, on a sample basis, the derived prices provided by the brokers by comparing their assessment of the fair values of our investments against the fair values of the portfolio balances of another third-party professional pricing service. As of March 31, 2019, all of our marketable securities were valued using quoted prices for comparable instruments in active markets and are classified as Level 2.

Based on our valuation of our money market funds and marketable securities, we concluded that they are classified in either Level 1 or Level 2 and we have no financial assets measured using Level 3 inputs. The following table presents information about our assets that are measured at fair value on a recurring basis using the above input categories (in thousands):

Description	Fair Value Measurements as of March 31, 2019			Total	Fair Value Measurements as of December 31, 2018		
	Total	Level 1	Level 2		Level 1	Level 2	Level 3
Money market funds	\$ 55,217	\$ 55,217	\$ —	\$ 52,068	\$ 52,068	\$ —	\$ —

Included in cash and cash equivalents	\$ 55,217	\$ 52,068
Included in marketable securities	\$ 35,668	\$ 20,764

Table of Contents**5. Leases*****Operating Leases***

We lease certain office and residential space under non-cancelable operating leases with various lease terms through June 2043. Leases with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expense for these leases on a straight-line basis over the lease term. Certain office leases include one or more options to renew, with renewal terms that can extend the lease term from 3 to 5 years. The exercise of lease renewal options is at our sole discretion and is generally excluded from the lease term at lease inception. Our leases generally require us to pay a proportionate share of real estate taxes, insurance, common area maintenance, and other operating costs in addition to a base or fixed rent.

The components of lease expense were as follows (in thousands):

	Three months ended March 31, 2019
Operating lease cost	\$ 925
Short-term lease cost	239
Variable lease cost	203
	\$ 1,367

Other supplemental information related to leases was as follows (dollar amounts in thousands):

	Three months ended March 31, 2019
Cash paid for amounts included in the measurement of lease liabilities:	
Operating cash flows from operating leases	\$ 960
Right-of-use assets obtained in exchange for lease obligations:	
Operating leases	\$ 2,033
Weighted Average Remaining Lease Term (in	

years)

Operating leases 8.2

Weighted Average Discount Rate

Operating leases 5.7 %

As of March 31, 2019, future estimated minimum lease payments under non-cancelable operating leases were as follows (in thousands):

Operating Leases

Remainder of 2019	\$	3,011
2020		4,193
2021		4,233
2022		3,867
2023		3,536
Thereafter		11,255
Total minimum lease payments		30,095
Less: Amount representing interest		(6,509)
Total	\$	23,586

14

Table of Contents

As of March 31, 2019, we did not have additional operating or financing leases that had not yet commenced.

6. Commitments and Contingencies***Litigation***

From time to time we may become involved in legal proceedings or be subject to claims arising in the ordinary course of our business. We evaluate the development of legal matters on a regular basis and accrue a liability when we believe a loss is probable and the amount can be reasonably estimated. Although the results of litigation and claims cannot be predicted with certainty, we currently believe that the final outcome of any currently pending legal proceedings to which we are a party will not have a material adverse effect on our business, operating results, financial condition or cash flows. Regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

7. Stock-Based Compensation

We grant stock-based incentive awards to attract, motivate and retain qualified employees, non-employee directors and consultants, and to align their financial interests with those of our stockholders. We utilize stock-based compensation in the form of restricted stock awards, restricted stock units, options to purchase Class A common stock and Employee Stock Purchase Plan (“ESPP”) purchase rights.

As of March 31, 2019, awards outstanding under the 2009 Plan consisted of stock options, and awards outstanding under the 2014 Plan consisted of stock options and restricted stock units.

As of March 31, 2019, 2,521,272 shares of Class A common stock were available for grant under the 2014 Plan. Our ESPP became effective on June 13, 2017. Under the ESPP, eligible employees are granted options to purchase shares of Class A common stock at the lower of 85% of the fair market value of the stock at the time of grant or 85% of the fair market value at the time of exercise. Options to purchase shares are granted twice yearly on or about January 15 and July 15 and are exercisable on or about the succeeding July 14 and January 14, respectively, of each year. As of March 31, 2019, 4,719,674 shares of Class A common stock were available for issuance under the ESPP. No participant may purchase more than \$12,500 worth of common stock in a six-month offering period.

Stock-Based Compensation Expense

Stock-based compensation expense was recorded in the following cost and expense categories consistent with the respective employee or service provider’s related cash compensation (in thousands):

	Three months ended March 31,	
	2019	2018
Cost of revenue		
Subscription and support	\$ 357	\$ 171
Professional services	409	150
Operating expenses		
Research and development	1,900	1,021
Sales and marketing	1,964	1,113
General and administrative	3,563	3,450
Total	\$ 8,193	\$ 5,905

Table of Contents**Stock Options**

The following table summarizes the option activity under the Plans for the three months ended March 31, 2019:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
				(in thousands)
Outstanding at December 31, 2018	6,400,175	\$ 13.65	6.1	\$ 142,340
Granted	—	—		
Forfeited	(9,153)	16.65		
Exercised	(960,802)	11.51		
Outstanding at March 31, 2019	5,430,220	\$ 14.02	6.1	\$ 199,157
Exercisable at March 31, 2019	4,330,467	\$ 13.34	5.7	\$ 161,785

Options to purchase Class A common stock generally vest over a three- or four-year period and are generally granted for a term of ten years. The total intrinsic value of options exercised during the three months ended March 31, 2019 and 2018 was \$34.3 million and \$3.6 million, respectively.

No options were granted during the three months ended March 31, 2019 and 2018. The total fair value of options vested during the three months ended March 31, 2019 and 2018 was approximately \$2.7 million and \$4.6 million, respectively. Total unrecognized compensation expense of \$6.9 million related to options will be recognized over a weighted-average period of 1.8 years.

Restricted Stock Units

Restricted stock units granted to employees generally vest over a three- or four-year period in equal, annual installments or with three-year cliff vesting. Restricted stock units granted to non-employee members of our Board of Directors generally have one-year cliff vesting from the date of grant. The recipient of a restricted stock unit award under the Plan will have no rights as a stockholder until share certificates are issued by us, but, at the discretion of our Compensation Committee, has the right to receive a dividend equivalent payment in the form of additional restricted stock units. Additionally, until the shares are issued, they have no voting rights and may not be bought or sold. The fair value for restricted stock units is calculated based on the stock price on the date of grant. The total fair value of restricted stock units vested during the three months ended March 31, 2019 and 2018 was approximately \$4.3 million and \$3.0 million, respectively.

Table of Contents

The following table summarizes the restricted stock unit activity under the Plan for the three months ended March 31, 2019:

	Number of Shares	Weighted- Average Grant Date Fair Value
Unvested at December 31, 2018	2,359,261	\$ 23.95
Granted	613,889	39.24
Forfeited	(25,238)	26.43
Vested ⁽¹⁾	(247,419)	17.50
Unvested at March 31, 2019	2,700,493	\$ 27.99

(1) As of March 31, 2019, recipients of 222,614 shares had elected to defer settlement of the vested restricted stock units in accordance with our Nonqualified Deferred Compensation Plan resulting in total deferred units of 777,235 as of March 31, 2019.

Compensation expense associated with unvested restricted stock units is recognized on a straight-line basis over the vesting period. At March 31, 2019, there was approximately \$58.7 million of total unrecognized compensation expense related to restricted stock units, which is expected to be recognized over a weighted-average period of 2.5 years.

Employee Stock Purchase Plan

The fair value of each share issued under the ESPP is estimated on the date of grant using the Black-Scholes option-pricing model. Expected volatility is based on the historical volatility of our common stock. The expected term represents the period of time the ESPP purchase rights are expected to be outstanding. The expected term for the ESPP purchase rights approximates the offering period. The risk-free interest rate is based on yields on U.S. Treasury STRIPS (Separate Trading of Registered Interest and Principal of Securities) with a maturity similar to the estimated expected term of the ESPP purchase rights.

The fair value of our ESPP purchase rights was estimated assuming no expected dividends and the following weighted-average assumptions:

	Three months ended March 31, 2019 2018	
Expected term (in years)	0.5	0.5
Risk-free interest rate	2.6%	1.8%
Expected volatility	48.6%	22.2%

During the three months ended March 31, 2019, 100,949 shares of common stock were purchased under the ESPP at a weighted-average price of \$21.29 per share, resulting in cash proceeds of \$2.1 million.

Compensation expense associated with ESPP purchase rights is recognized on a straight-line basis over the vesting period. At March 31, 2019, there was approximately \$580,000 of total unrecognized compensation expense related to the ESPP, which is expected to be recognized over a weighted-average period of 0.3 years.

Table of Contents**8. Revenue Recognition*****Disaggregation of Revenue***

The following table presents our revenues disaggregated by industry (in thousands). Certain prior year amounts have been reclassified to conform with current period presentation. These reclassifications have no impact on total revenue.

	Three months ended March 31,	
	2019	2018
Information technology	\$ 9,162	\$ 7,359
Consumer discretionary	7,979	6,851
Industrials	7,792	6,872
Diversified financials	7,438	6,898
Banks	6,678	5,843
Healthcare	6,584	5,344
Energy	5,644	4,852
Other	18,686	15,887
Total revenues	\$ 69,963	\$ 59,906

The following table presents our revenues disaggregated by type of good or service (in thousands):

	Three months ended March 31,	
	2019	2018
Subscription and support	\$ 56,123	\$ 46,470
XBRL professional services	11,410	9,852
Other services	2,430	3,584
Total revenues	\$ 69,963	\$ 59,906

Deferred Revenue

During the three months ended March 31, 2019, we recognized \$51.3 million of revenue that was included in the deferred revenue balance at the beginning of the period.

Transaction Price Allocated to the Remaining Performance Obligations

As of March 31, 2019, revenue of approximately \$180.7 million is expected to be recognized from remaining performance obligations for subscription contracts. We expect to recognize approximately \$151.3 million of these remaining performance obligations over the next 12 months, with the balance recognized thereafter.

Table of Contents**9. Net Loss Per Share**

Basic net loss per share is computed by dividing the net loss by the weighted-average number of shares of common stock outstanding during the period. Diluted net loss per share is computed by giving effect to all potential shares of common stock, including our outstanding stock options, stock related to unvested restricted stock units, and common stock issuable pursuant to the ESPP to the extent dilutive. Basic and diluted net loss per share was the same for each period presented, as the inclusion of all potential common shares outstanding would have been anti-dilutive.

The net loss per share is allocated based on the participation rights of the Class A and Class B common shares as if the loss for the year has been distributed. As the liquidation and dividend rights are identical, the net loss is allocated on a proportionate basis.

A reconciliation of the denominator used in the calculation of basic and diluted loss per share is as follows (in thousands, except share and per share data):

	Three months ended		March 31, 2018	
	March 31, 2019		March 31, 2018	
	Class A	Class B	Class A	Class B
<i>Numerator</i>				
Net loss	\$ (5,898)	\$ (1,565)	\$ (7,330)	\$ (2,288)
<i>Denominator</i>				
Weighted-average common shares outstanding - basic and diluted	35,746,572	9,482,707	32,662,318	10,196,438
Basic and diluted net loss per share	\$ (0.17)	\$ (0.17)	\$ (0.22)	\$ (0.22)

The anti-dilutive securities excluded from the weighted-average shares used to calculate the diluted net loss per common share were as follows:

	As of	
	March 31, 2019	March 31, 2018
Shares subject to outstanding common stock options	5,430,220	7,807,606
Shares subject to unvested restricted stock units	2,700,493	1,917,048
Shares issuable pursuant to the ESPP	92,664	107,764

Table of Contents

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of our operations should be read in conjunction with the condensed consolidated financial statements and related notes included elsewhere in this report and in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 20, 2019. In addition to historical consolidated financial information, this discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those discussed below. Factors that could cause or contribute to these differences include, but are not limited to, those identified below, and those discussed in “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2018, in “Item 1A. Risk Factors” in Part II of this Quarterly Report on Form 10-Q and in any subsequent filing we make with the SEC.

Overview

Workiva is a leading provider of cloud-based solutions for connected data, reporting and compliance. Our platform, Wdesk, is used by thousands of public and private companies, government agencies and higher-education institutions. Wdesk offers controlled collaboration, data linking, data integrations, granular permissions, process management and a full audit trail. Wdesk users are able to combine narrative with their data, which greatly improves insight in their financial, regulatory and management reporting processes. As of March 31, 2019, 3,366 organizations, including more than 75% of Fortune 500[®] companies, subscribed to our Wdesk platform.⁽¹⁾

(1) Claim not confirmed by FORTUNE or Fortune Media IP Limited. FORTUNE[®] and FORTUNE 500[®] are registered trademarks of Fortune Media IP Limited and are used under license. FORTUNE and Fortune Media IP Limited are not affiliated with, and do not endorse products or services of, Workiva Inc.

Our customers can connect Wdesk with data in more than 100 cloud and on-premise applications. In June 2018, we expanded our Wdesk platform with Wdata, which combines new data preparation capabilities with existing connectors and Application Programming Interfaces (APIs) to help our customers more easily capture, enrich and connect large datasets to Wdesk. Integrating enterprise business systems with our platform removes manual steps in the reporting and analysis process after the data leaves our customers' Enterprise Resource Planning (ERP) and other data systems and enables data assurance throughout the entire reporting process with an immutable audit trail. Wdata also enables a broader set of business users to explore complex data at scale and better manage data transformations in the office of the CFO.

Although our customers employ Workiva solutions for hundreds of different use cases, we currently focus our sales and marketing resources in five areas: finance and accounting; risk and controls; regulatory reporting; financial close, management and performance reporting; and statutory and corporate tax reporting.

We operate our business on a Software-as-a-Service (SaaS) model. Customers enter into quarterly, annual and multi-year subscription contracts to gain access to Wdesk. Our subscription fee includes the use of our software and technical support. Prior to the third quarter of 2018, our subscription pricing was based primarily on the number of corporate entities, number of users, level of customer support and length of contract. Thereafter, we began converting existing customer orders to, and signing new orders primarily based on, a solution-based licensing model. Under this new model, operating metrics related to a customer's expected use of each solution determine the price. We expect a substantial majority of our subscription revenue will be priced on solution-based licensing by mid-2020. We charge customers additional fees primarily for document setup and XBRL tagging services.

Table of Contents

We generate sales primarily through our direct sales force and, to a lesser extent, our customer success and professional services teams. In addition, we augment our direct sales channel with partnerships. Our advisory and service partners offer a wider range of domain and functional expertise that broadens the capabilities of Wdesk, bringing scale and support to customers and prospects. Our technology partners enable more data and process integrations to help customers connect critical transactional systems directly to Wdesk, which becomes a central repository of trusted data, with powerful linking, auditability and control features.

Our integrated platform, subscription-based model and exceptional customer support have contributed to a low rate of customer turnover while achieving strong revenue growth. Our subscription and support revenue retention rate was 95.7% (excluding add-on seats) for the twelve months ended March 31, 2019.

We continue to invest in the development of our solutions, infrastructure and sales and marketing to drive long-term growth. Our full-time employee headcount expanded to 1,357 at March 31, 2019 from 1,313 at March 31, 2018, an increase of 3.4%.

We have achieved significant revenue growth in recent periods. Our revenue grew to \$70.0 million during the three months ended March 31, 2019 from \$59.9 million during the three months ended March 31, 2018, an increase of 16.8%. We incurred net losses of \$7.5 million and \$9.6 million during the three months ended March 31, 2019 and March 31, 2018, respectively.

Key Factors Affecting Our Performance

Generate Growth From Existing Customers. Wdesk can exhibit a powerful network effect within an enterprise, meaning that the usefulness of our platform attracts additional users and more data. Since solution-based licensing offers our customers an unlimited number of seats for each solution purchased, we expect customers to add more seats in Wdesk over time. As more employees in an enterprise use Wdesk, additional opportunities for collaboration and automation drive demand among their colleagues for additional solutions. Furthermore, converting customer contracts to solution-based licensing typically generates a one-time increase in contract value for each solution.

Pursue New Customers. Our first software solution enabled customers to streamline and automate their SEC regulatory filing process. In 2013, we began expanding into additional markets that were faced with managing large, complex processes with many contributors and disparate sets of business data. We currently sell to new customers in the areas of finance and accounting; risk and controls; regulatory reporting; financial close, management and performance reporting; and statutory and corporate tax reporting. We intend to continue to build our sales and marketing organization and leverage our brand equity to attract new customers.

Offer More Solutions. We intend to introduce new solutions to continue to meet growing demand for our Wdesk platform. Our close and trusted relationships with our customers are a source for new use cases, features and solutions. We have a disciplined process for tracking, developing and releasing new solutions that are designed to have immediate, broad applicability; a strong value proposition; and a high return on investment for both Workiva and our customers. Our advance planning team assesses customer needs, conducts industry-based research and defines new markets. This vetting process involves our sales, product marketing, customer success, professional services, research and development, finance and senior management teams.

Table of Contents

Expand Across Enterprises. Our success in delivering multiple solutions has created demand from customers for a broader-based, enterprise-wide Wdesk platform. In response, we have been improving our technology and realigning sales and marketing to capitalize on our growing enterprise-wide opportunities. We believe this expansion will add seats and revenue and continue to support our high revenue retention rates. However, we expect that enterprise-wide deals will be larger and more complex, which tend to lengthen the sales cycle.

Add Partners. We continue to add partners. Our consulting and accounting partners offer a broader range of services that leverage the capabilities of Wdesk. Our technology partners enable data connections and process integrations to further streamline critical business functions as we capitalize on growing demand for Wdesk to address broader-based, enterprise-wide opportunities.

Investment in growth. We plan to continue to invest in the development of our Wdesk platform to enhance our current offerings and build new features. In addition, we expect to continue to invest in our sales, marketing, professional services and customer success organizations to drive additional revenue and support the needs of our growing customer base and to take advantage of opportunities that we have identified in EMEA, statutory reporting, audit management and other use cases.

Seasonality. Our revenue from professional services has some degree of seasonality. Many of our customers employ our professional services just before they file their Form 10-K, often in the first calendar quarter. Our sales and marketing expense also has some degree of seasonality. Sales and marketing expense is generally higher in the third quarter since we hold our annual user conference in September. In addition, the timing of the payments of cash bonuses to employees during the first and fourth calendar quarters may result in some seasonality in operating cash flow.

Key Performance Indicators

**Three months ended
March 31,
2019 2018
(dollars in thousands)**

*Financial
metrics*

Total revenue	\$ 69,963	\$ 59,906

Number of customers with annual contract value \$150k+	207	151

22

Table of Contents

Total customers. We believe total number of customers is a key indicator of our financial success and future revenue potential. We define a customer as an entity with an active subscription contract as of the measurement date. Our customer is typically a parent company or, in a few cases, a significant subsidiary that works with us directly. Companies with publicly listed securities account for a substantial majority of our customers.

Subscription and support revenue retention rate. We calculate our subscription and support revenue retention rate based on all customers that were active at the end of the same calendar quarter of the prior year (“base customers”). We begin by annualizing the subscription and support revenue recorded in the same calendar quarter of the prior year for those base customers who are still active at the end of the current quarter. We divide the result by the annualized subscription and support revenue in the same quarter of the prior year for all base customers.

Our subscription and support revenue retention rate was 95.7% as of March 31, 2019, unchanged compared to the rate as of March 31, 2018. We believe that our success in maintaining a high rate of revenue retention is attributable primarily to our robust technology platform and strong customer service.

Subscription and support revenue retention rate including add-ons. Add-on revenue includes the change in both solutions and seats purchased and pricing for existing customers. We calculate our subscription and support revenue retention rate including add-ons by annualizing the subscription and support revenue recorded in the current quarter for our base customers that were active at the end of the current quarter. We divide the result by the annualized subscription and support revenue in the same quarter of the prior year for all base customers.

Our subscription and support revenue retention rate including add-ons was 110.7% as of the quarter ended March 31, 2019, up from 105.3% as of March 31, 2018.

In the first quarter of 2019, we began calculating revenue retention rates using quarterly ASC 606 revenue instead of our prior method using monthly ASC 605 revenue. We expect quarterly measurements will be less variable than the single month measurements we previously reported.

Annual contract value. Our annual contract value (“ACV”) for each customer is calculated by annualizing the subscription and support revenue recognized during each quarter. We believe the increase in the number of larger contracts shows our progress in expanding our customers' adoption of Wdesk.

Components of Results of Operations

Revenue

We generate revenue through the sale of subscriptions to our cloud-based software and the delivery of professional services. We serve a wide range of customers in many industries, and our revenue is not concentrated with any single customer or small group of customers. For the three months ended March 31, 2019 and 2018, no single customer represented more than 1% of our revenue, and our largest 10 customers accounted for less than 5% of our revenue in the aggregate.

We generate sales directly through our sales force and partners. We also identify some sales opportunities with existing customers through our customer success and professional services teams.

Our customer contracts typically range in length from three to 36 months. We typically invoice our customers for subscription fees in advance, with payment due at the start of the subscription term. From time to time, we offer limited incentives for customers to enter into contract terms of more than one year, typically for terms of two or three years. Our arrangements do not contain general rights of return.

Table of Contents

Subscription and Support Revenue. We recognize subscription and support revenue on a ratable basis over the contract term beginning on the date that our service is made available to the customer. Amounts that are invoiced are initially recorded as deferred revenue.

Professional Services Revenue. We believe our professional services facilitate the sale of our subscription service to certain customers. To date, most of our professional services have consisted of document set up, XBRL tagging, and consulting with our customers on business processes and best practices for using Wdesk. Our professional services are not required for customers to utilize our solution. We recognize revenue for document set ups when the service is complete and control has transferred to the customer. Revenues from XBRL tagging and consulting services are recognized as the services are performed.

Cost of Revenue

Cost of revenue consists primarily of personnel and related costs directly associated with our professional services, customer success teams and training personnel, including salaries, benefits, bonuses, and stock-based compensation; the costs of contracted third-party vendors; the costs of server usage by our customers; information technology costs; and facility costs. Costs of server usage are comprised primarily of fees paid to Google Cloud Platform and Amazon Web Services.

Sales and Marketing Expenses

Sales and marketing expenses consist primarily of personnel and related costs, including salaries, benefits, bonuses, commissions, travel, and stock-based compensation. Other costs included in this expense are marketing and promotional events, our annual user conference, online marketing, product marketing, information technology costs, and facility costs. Sales commissions paid where the amortization period is one year or less are expensed as incurred. All other sales commissions are considered incremental costs of obtaining a contract with a customer and are deferred and amortized on a straight-line basis over a period of benefit that we have determined to be three years.

Research and Development Expenses

Research and development expenses consist primarily of personnel and related costs, including salaries, benefits, bonuses, and stock-based compensation; costs of server usage by our developers; information technology costs; and facility costs.

General and Administrative Expenses

General and administrative expenses consist primarily of personnel and related costs for our executive, finance and accounting, legal, human resources, and administrative personnel, including salaries, benefits, bonuses, and stock-based compensation; legal, accounting, and other professional service fees; other corporate expenses; information technology costs; and facility costs.

	2019	2018	% Change
--	-------------	-------------	---------------------

(dollars in thousands)

Revenue

Subscription and support	\$ 56,123	\$ 46,470	20.8%
Professional services	\$ 13,840	\$ 13,436	3.0%
Total revenue	\$ 69,963	\$ 59,906	16.8%

Total revenue increased \$10.1 million for the three months ended March 31, 2019 compared to the same quarter a year ago due primarily to a \$9.7 million increase in subscription and support revenue. Growth in subscription and support revenue in the first quarter was attributable mainly to strong demand and better pricing for a broad range of use cases, including SEC reporting, risk and controls, financial and managerial reporting, and capital markets. The total number of our customers expanded 7.9% from March 31, 2018 to March 31, 2019.

Professional services revenue increased \$0.4 million for three months ended March 31, 2019 compared to the same quarter a year ago, as growth in revenue from XBRL professional services over came a decrease in revenue from other services, which includes consulting. We expect the revenue growth rate from subscription and support to continue to outpace revenue growth from professionals services on an annual basis.

Table of Contents**Cost of Revenue**

	Three months ended March 31,		
	2019	2018	% Change
	(dollars in thousands)		
Cost of revenue			
Subscription and support	\$ 9,809	\$ 8,802	11.4%
Professional services	9,727	7,709	26.2%
Total cost of revenue	\$ 19,536	\$ 16,511	18.3%

Cost of revenue increased \$3.0 million during the three months ended March 31, 2019 compared to the same quarter a year ago due primarily to \$1.6 million in higher cash-based compensation, benefits and travel costs, \$0.4 million of additional stock-based compensation, and a \$0.5 million rise in the cost of cloud infrastructure services to support our expanding customer base. We are continuing to invest in professional services, including to support our new platform and solutions.

	Three months ended March 31,		
	2019	2018	% Change
	(dollars in thousands)		
Operating expenses			
Research and development	\$ 22,011	\$ 20,127	9.4%
Sales and marketing	25,365	21,006	20.8%
General and administrative	10,383	11,768	(11.8)%
Total operating expenses	\$ 57,759	\$ 52,901	9.2%

Research and Development

Research and development expenses increased \$1.9 million in the three months ended March 31, 2019 compared to the same quarter a year ago due primarily to \$0.6 million in higher cash-based compensation, benefits and travel costs, \$0.9 million in additional stock-based compensation and a \$0.6 million increase in cloud infrastructure services. Transitioning certain projects to internal teams allowed us to reduce consulting fees. We continue to dedicate resources to developing the next generation of Wdesk, which has resulted in an increased investment in research and development.

Sales and Marketing

Sales and marketing expenses increased \$4.4 million during the three months ended March 31, 2019 compared to the three months ended March 31, 2018 due primarily to \$3.2 million in higher cash-based compensation, benefits, and travel costs and additional stock-based compensation of \$0.9 million. Headcount in sales and marketing increased

9.1% in the quarter ended March 31, 2019 compared to the same quarter a year ago. We expect to continue to invest in sales and marketing employees for future revenue growth.

General and Administrative

General and administrative expenses decreased \$1.4 million in the three months ended March 31, 2019 compared to the same quarter a year ago due primarily to lower cash-based compensation, benefits, and travel costs of \$1.0 million. General and administrative expense as a percentage of revenue improved to 14.8% in the latest quarter from 19.6% the same quarter last year due primarily to a reduction of expenses for executive compensation.

Interest Expense and Other Income, Net

Interest expense and Other income, net remained relatively flat during the three months ended March 31, 2019 compared to the same period a year ago.

Liquidity and Capital Resources

	Three months ended March 31,	
	2019	2018
	(in thousands)	
Cash flow provided by operating activities	\$ 5,119	\$ 1,783
Cash flow (used in) provided by investing activities	(16,592)	427
Cash flow provided by financing activities	12,520	2,805
Net increase in cash and cash equivalents, net of impact of exchange rates	\$ 1,152	\$ 4,923

As of March 31, 2019, our cash, cash equivalents and marketable securities totaled \$114.4 million. To date, we have financed our operations primarily through the proceeds of our initial public offering, private placements of equity, debt that was settled in equity and cash from operating activities. We have generated significant operating losses and negative cash flows from operating activities as reflected in our accumulated deficit and consolidated statements of cash flows. We expect to continue to incur operating losses in the future. As a result, we may require additional capital resources to continue to grow our business. We believe that current cash and cash equivalents, cash flows from operating activities, availability under our existing credit facility and the ability to offer and sell securities pursuant to our shelf registration statement will be sufficient to fund our operations for at least the next twelve months.

In August 2014, we entered into a \$15.0 million credit facility with Silicon Valley Bank. Borrowing capacity is equal to the most recent month's subscription and support revenue multiplied by a percentage that adjusts based on the prior quarter's customer retention rate. The credit facility can be used to fund working capital and general business requirements. The credit facility is secured by all of our assets and has first priority over our other debt obligations and requires us to maintain certain financial covenants, including the maintenance of at least \$5.0 million of cash on hand or unused borrowing capacity. The credit facility contains certain restrictive covenants that limit our ability to transfer or dispose of assets, merge with other companies or consummate certain changes of control, acquire other companies, pay dividends, incur additional indebtedness and liens, effect changes in management and enter into new businesses. The credit facility has a variable interest rate equal to the bank's prime lending rate with interest payable monthly and the principal balance due at maturity. The credit facility matures in August 2020.

28

Table of Contents

Pursuant to the credit facility, a letter of credit totaling \$500,000 was outstanding at March 31, 2019. This letter of credit, which reduces the availability under the credit facility, was issued as a maintenance deposit for an office lease. The letter of credit expires every year but has a feature that automatically renews the term for an additional year with an ultimate expiration date of February 28, 2030.

We filed a universal shelf registration statement on Form S-3 with the SEC, which became effective August 10, 2017. Under the shelf registration statement, we may offer and sell, from time to time in the future in one or more public offerings, our Class A common stock, preferred stock, debt securities, warrants, rights and units. The aggregate initial offering price of all securities sold by us under the shelf registration statement will not exceed \$250.0 million.

Operating Activities

For the three months ended March 31, 2019, cash provided by operating activities was \$5.1 million. The primary factors affecting our operating cash flows during the period were our net loss of \$7.5 million, adjusted for non-cash charges of \$0.9 million for depreciation and amortization of our property and equipment and intangible assets, \$8.2 million of stock-based compensation expense, and a \$3.8 million net change in operating assets and liabilities. The primary drivers of the changes in operating assets and liabilities were a \$14.8 million decrease in accounts receivable, and a \$2.0 million increase in deferred revenue offset partially by a \$2.0 million increase in deferred commissions, a \$3.2 million increase in prepaid expenses and other, a \$1.5 million increase in other assets, a \$4.5 million decrease in accrued expenses and other liabilities and a \$1.6 million decrease in accounts payable. Customer growth accounted for most of the increase in deferred revenue. We offer limited incentives for customers to enter into contract terms for more than one year. Deferred commissions increased due primarily to additional payments made to our sales force related to the direct and incremental costs of obtaining a customer contract. The decreases in accounts receivable, accounts payable and accrued expenses and other liabilities were attributable primarily to the timing of our billings, cash collections, and cash payments. The increases in prepaid expenses and other assets were due primarily to timing of payments relating to cloud infrastructure services and our annual user conference.

For the three months ended March 31, 2018, cash provided by operating activities was \$1.8 million. The primary factors affecting our operating cash flows during the period were our net loss of \$9.6 million, adjusted for non-cash charges of \$0.9 million for depreciation and amortization of our property and equipment and intangible assets and \$5.9 million of stock-based compensation and a \$4.7 million net change in operating assets and liabilities. The primary drivers of the changes in operating assets and liabilities were a \$2.3 million decrease in deferred revenue, a \$0.8 million decrease in accrued expenses and other liabilities, and a \$1.6 million increase in deferred commissions, offset partially by a \$6.5 million decrease in accounts receivable and a \$2.7 million increase in accounts payable. Deferred commissions increased due primarily to additional payments made to our sales force related to the direct and incremental costs of obtaining a customer contract. The decrease in deferred revenue was caused by the timing of contract renewals with terms greater than one year. The decreases in accounts receivable and accrued expenses and other liabilities and increase in accounts payable were attributable primarily to the timing of our billings, cash collections, and cash payments.

Table of Contents

Investing Activities

Cash used in investing activities of \$16.6 million for the three months ended March 31, 2019 was due primarily to \$22.2 million in purchases of marketable securities and \$1.7 million of capital expenditures partially offset by \$7.4 million from the maturities of marketable securities. Our capital expenditures were associated primarily with furniture and fixtures in support of expanding our infrastructure and workforce.

Cash provided by investing activities of \$0.4 million for the three months ended March 31, 2018 was due primarily to proceeds of \$0.5 million from the maturities of marketable securities.

Financing Activities

Cash provided by financing activities of \$12.5 million for the three months ended March 31, 2019 was due primarily to \$11.1 million in proceeds from option exercises and \$2.1 million in proceeds from shares issued in connection with our employee stock purchase plan partially offset by \$0.4 million in taxes paid related to net share settlements of stock-based compensation awards.

Cash provided by financing activities of \$2.8 million for the three months ended March 31, 2018 was due primarily to \$3.1 million in proceeds from option exercises and \$1.4 million in proceeds from shares issued in connection with our employee stock purchase plan partially offset by \$1.3 million in taxes paid related to the net share settlements of stock-based compensation awards.

Contractual Obligations and Commitments

There were no material changes in our contractual obligations and commitments from those disclosed in the Annual Report on Form 10-K for the year ended December 31, 2018 filed with the SEC on February 20, 2019.

Off-Balance Sheet Arrangements

During all periods presented, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As a result, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in those types of relationships.

Critical Accounting Policies and Estimates

Our condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. U.S. GAAP. The preparation of these condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs and expenses, income taxes and related disclosures. On an ongoing basis, we evaluate our estimates and assumptions. Our actual results may differ from these estimates under different assumptions or conditions.

During the three months ended March 31, 2019, there were no significant changes to our critical accounting policies and estimates as described in the financial statements contained in the Annual Report on Form 10-K for the year ended December 31, 2018 filed with the SEC on February 20, 2019.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

For quantitative and qualitative disclosures about market risk, see “Item 7A., Quantitative and Qualitative Disclosures About Market Risk” of our Annual Report on Form 10-K for the year ended December 31, 2018. Our exposures to market risk have not changed materially since December 31, 2018.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our principal executive officer and principal financial officer, our management conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. Our disclosure controls and procedures are intended to provide assurance at a reasonable level that the information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

In designing and evaluating our disclosure controls and procedures, management recognizes that any disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on management’s evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are designed to, and are effective to, provide assurance at a reasonable level that the information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

During the quarter ended March 31, 2019, we finalized enhancements and modifications to existing internal controls and procedures to ensure compliance with new leasing guidance in accordance with ASC 842. These changes to our control environment were completed in the first quarter of 2019.

Other than the item noted above, there was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the three months ended March 31, 2019 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part II. Other Information

Item 1. Legal Proceedings

From time to time we may become involved in legal proceedings or be subject to claims arising in the ordinary course of our business. We are not presently a party to any legal proceedings that in the opinion of our management, if determined adversely to us, would have a material adverse effect on our business, financial condition, operating results or cash flows. Regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in our 2018 Annual Report on Form 10-K, which could materially affect our business, financial condition or future results. Other than the item noted below, there have been no material changes during fiscal 2019 to the risk factors that were included in the Form 10-K.

Risks Related to Our Business and Industry

Our reported financial results may be adversely affected by changes in accounting principles generally accepted in the United States, including those related to leases.

Generally accepted accounting principles in the United States are subject to interpretation by the Financial Accounting Standards Board (FASB), the SEC, and various bodies formed to promulgate and interpret appropriate accounting principles. A change in these principles or interpretations could have a significant effect on our reported financial results and could affect the reporting of transactions completed before the announcement of a change.

In February 2016, the FASB issued guidance codified in ASC 842, *Leases (ASU 2016-02)*, which amends the guidance in former ASC 840, *Leases*. We adopted this new standard on the effective date of January 1, 2019. The application of this guidance resulted in the addition of right-of-use assets and lease liabilities on the consolidated balance sheet. We have implemented changes to our accounting processes, internal controls and disclosures to support the new standard. See Note 1 to our accompanying condensed consolidated financial statements for information about ASU 2016-02.

Any difficulties in implementing new or revised accounting principles could cause us to fail to meet our financial reporting obligations, which could result in regulatory discipline, harm investors’ confidence in us, and adversely affect our stock price.

Table of Contents**Item 2. Unregistered Sales of Securities and Use of Proceeds****Sales of Unregistered Securities**

Not applicable.

Use of Proceeds from Public Offerings of Common Stock

There has been no material change in the planned use of proceeds from our initial public offering as described in our final prospectus filed with the SEC pursuant to Rule 424(b) under the Securities Act on December 12, 2014.

Issuer Purchases of Equity Securities

The following table provides information about purchases of shares of our Class A Common Stock during the three months ended March 31, 2019 related to shares withheld upon vesting of restricted stock awards and units for tax withholding obligations:

Date	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under Program
January 2019	6,704	\$ 38.22	—	—
