CHESAPEAKE LODGING TRUST
(Exact name of registrant as specified in its charter)

MARYLAND	27-0372343
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
1997 Annapolis Exchange Parkway, Suite 410 Annapolis, Maryland	21401
(Address of principal executive offices)	(Zip Code)
(410) 972-4140	
(Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of October 31, 2014, there were 54,878,586 shares of the registrant's common shares issued and outstanding.

CHESAPEAKE LODGING TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Organization and Description of Business

Chesapeake Lodging Trust (the “Trust”) is a self-advised real estate investment trust (“REIT”) that was organized in the state of Maryland in June 2009. The Trust is focused on investments primarily in upper-upscale hotels in major business and convention markets and, on a selective basis, premium select-service hotels in urban settings or unique locations in the United States of America (“U.S.”). The Trust completed its initial public offering (“IPO”) in January 2010. As of September 30, 2014, the Trust owned 19 hotels with an aggregate of 5,779 rooms in eight states and the District of Columbia.

Substantially all of the Trust’s assets are held by, and all of its operations are conducted through, Chesapeake Lodging, L.P., a Delaware limited partnership, which is wholly owned by the Trust (the “Operating Partnership”). For the Trust to qualify as a REIT, it cannot operate hotels. Therefore, the Operating Partnership leases its hotels to CHSP TRS LLC (“CHSP TRS”), which is a wholly owned subsidiary of the Operating Partnership. CHSP TRS then engages hotel management companies to operate the hotels pursuant to management agreements. CHSP TRS is treated as a taxable REIT subsidiary for federal income tax purposes.

2. Summary of Significant Accounting Policies

Basis of Presentation—The interim consolidated financial statements presented herein include all of the accounts of Chesapeake Lodging Trust and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

The interim consolidated statement of operations for the three months ended September 30, 2014 includes the operating activity of 19 hotels for the full period and one hotel for part of the period, whereas the interim consolidated statement of operations for the three months ended September 30, 2013 includes the operating activity of 20 hotels for the full period. The interim consolidated statement of operations for the nine months ended September 30, 2014 includes the operating activity of 19 hotels for the full period and one hotel for part of the period, whereas the interim consolidated statement of operations for the nine months ended September 30, 2013 includes the operating activity of 15 hotels for the full period and five hotels for part of the period.

The information in these interim consolidated financial statements is unaudited but, in the opinion of management, reflects all adjustments necessary for a fair presentation of the results for the periods covered. All such adjustments are of a normal, recurring nature unless disclosed otherwise. These interim consolidated financial statements, including notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission (“SEC”) and do not include all of the information and disclosures required by U.S. generally accepted accounting principles (“GAAP”) for complete financial statements. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Trust’s Form 10-K for the year ended December 31, 2013.

Cash and Cash Equivalents—The Trust considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted Cash—Restricted cash includes reserves held in escrow for normal replacements of furniture, fixtures and equipment (“FF&E”), property improvement plans (each, a “PIP”), real estate taxes, and insurance pursuant to certain requirements in the Trust’s hotel management, franchise, and loan agreements.

Investments in Hotels—The Trust allocates the purchase prices of hotels acquired based on the fair value of the property, FF&E, and identifiable intangible assets acquired and the fair value of the liabilities assumed. In making estimates of fair value for purposes of allocating the purchase price, the Trust utilizes a number of sources of information that are obtained in connection with the acquisition of a hotel, including valuations performed by independent third parties and cost segregation studies. The Trust also considers information obtained about each hotel as a result of its pre-acquisition due diligence in estimating the fair value of the tangible and intangible assets acquired and liabilities

assumed. Hotel acquisition costs, such as transfer taxes, title insurance, environmental and property condition reviews, and legal and accounting fees, are expensed in the period incurred.

Property and equipment are depreciated using the straight-line method over the estimated useful lives of the assets, generally 15 to 40 years for buildings and building improvements and three to ten years for FF&E. Leasehold improvements are amortized over the shorter of the lease term or the useful lives of the related assets. Replacements and improvements at the hotels are capitalized, while repairs and maintenance are expensed as incurred. Upon the sale or retirement of property and equipment, the cost and related accumulated depreciation are removed from the Trust's accounts and any resulting gain or loss is recognized in the consolidated statements of operations.

Table of Contents

Intangible assets and liabilities are recorded on non-market contracts, including air rights, lease, management, and franchise agreements, assumed as part of the acquisition of certain hotels. Above-market and below-market contract values are based on the present value of the difference between contractual amounts to be paid pursuant to the contracts assumed and the Trust's estimate of the fair market contract rates for corresponding contracts measured over a period equal to the remaining non-cancelable term of the contracts assumed. No value is allocated to market contracts. Intangible assets and liabilities are amortized using the straight-line method over the remaining non-cancelable term of the related contracts.

The Trust reviews its hotels for impairment whenever events or changes in circumstances indicate that the carrying values of the hotels may not be recoverable. Events or circumstances that may cause a review include, but are not limited to, adverse changes in the demand for lodging at the hotels due to declining national or local economic conditions and/or new hotel construction in markets where the hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of a hotel exceed its carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying amount to the related hotel's estimated fair market value is recorded and an impairment loss is recognized. No impairment losses have been recognized related to any hotels for the three and nine months ended September 30, 2014 and 2013.

The Trust classifies a hotel as held for sale in the period in which it has made the decision to dispose of the hotel, a binding agreement to purchase the hotel has been signed under which the buyer has committed a significant amount of nonrefundable cash, and no significant financing contingencies exist which could cause the transaction not to be completed in a timely manner. If these criteria are met, depreciation and amortization of the hotel will cease and an impairment loss will be recognized if the fair value of the hotel, less the costs to sell, is lower than the carrying amount of the hotel. If the sale represents a strategic shift that has (or will have) a major effect on the Trust's operations and financial results, the Trust will classify the loss, together with the related operating results, as discontinued operations in the consolidated statements of operations and will classify the related assets and liabilities as held for sale in the consolidated balance sheets. As of September 30, 2014, the Trust had no assets held for sale or liabilities related to assets held for sale.

Revenue Recognition—Revenues from operations of the hotels are recognized when the services are provided. Revenues consist of room sales, food and beverage sales, and other hotel department revenues, such as parking, marina, telephone, and gift shop sales.

Prepaid Expenses and Other Assets—Prepaid expenses and other assets consist of prepaid real estate taxes, prepaid insurance, deposits on hotel acquisitions and loan applications, deferred franchise costs, inventories, and other assets.

Deferred Financing Costs—Deferred financing costs are recorded at cost and consist of loan fees and other costs incurred in issuing debt. Amortization of deferred financing costs is computed using a method that approximates the effective interest method over the term of the related debt and is included in interest expense in the consolidated statements of operations.

Derivative Instruments—From time to time, the Trust is a party to interest rate swaps, which are considered derivative instruments, in order to manage its interest rate exposure. The Trust's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows. The Trust records derivative instruments at fair value as either assets or liabilities and designates them as cash flow hedging instruments at inception. The Trust evaluates the hedge effectiveness of the designated cash flow hedging instruments on a quarterly basis and records the effective portion of the change in the fair value of the cash flow hedging instruments as other comprehensive income (loss). Amounts reported in accumulated other comprehensive income (loss) related to cash flow hedging instruments are reclassified to interest expense as interest payments are made on the variable-rate debt being hedged. The Trust does not enter into derivative instruments for trading or speculative purposes and monitors the financial stability and credit standing of its counterparties. As of September 30, 2014, the Trust had no derivative instruments.

Fair Value Measurements—The Trust accounts for certain assets and liabilities at fair value. In evaluating the fair value of both financial and non-financial assets and liabilities, GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and the reporting entity's own assumptions about market data (unobservable inputs). The three levels of the fair value

hierarchy are as follows:

Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date. An active market is defined as a market in which transactions occur with sufficient frequency and volume to provide pricing on an ongoing basis.

Level 2 – Inputs include quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active (markets with few transactions), inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates, yield curves), and inputs that are derived principally from or corroborated by observable market data correlation or other means.

Table of Contents

Level 3 – Unobservable inputs reflect the reporting entity’s own assumptions about the pricing of an asset or liability when observable inputs are not available or when there is minimal, if any, market activity for an identical or similar asset or liability at the measurement date.

Income Taxes—The Trust has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code. As a REIT, the Trust generally will not be subject to federal income tax on that portion of its net income that does not relate to CHSP TRS, the Trust’s wholly owned taxable REIT subsidiary, and that is currently distributed to its shareholders. CHSP TRS, which leases the Trust’s hotels from the Operating Partnership, is subject to federal and state income taxes.

The Trust accounts for income taxes using the asset and liability method under which deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Valuation allowances are provided if based upon the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

Share-Based Compensation—From time to time, the Trust grants restricted share awards to employees and trustees. To date, the Trust has granted two types of restricted share awards: (1) awards that vest solely on continued employment or service (time-based awards) and (2) awards that vest based on the Trust achieving specified levels of relative total shareholder return and continued employment (performance-based awards). The Trust measures share-based compensation expense for the restricted share awards based on the fair value of the awards on the date of grant. The fair value of time-based awards is determined based on the closing price of the Trust’s common shares on the measurement date, which is generally the date of grant. The fair value of performance-based awards is determined using a Monte Carlo simulation performed by an independent third party. For time-based awards, share-based compensation expense is recognized on a straight-line basis over the life of the entire award. For performance-based awards, share-based compensation expense is recognized over the requisite service period for each award. No share-based compensation expense is recognized for awards for which employees or trustees do not render the requisite service.

Earnings Per Share—Basic earnings per share is computed by dividing net income available to common shareholders, adjusted for dividends declared on and undistributed earnings allocated to unvested time-based awards, by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net income available to common shareholders, adjusted for dividends declared on and undistributed earnings allocated to unvested time-based awards, by the weighted-average number of common shares outstanding, plus potentially dilutive securities, such as unvested performance-based awards, during the period. The Trust’s unvested time-based awards are entitled to receive non-forfeitable dividends, if declared. Therefore, unvested time-based awards qualify as participating securities, requiring the allocation of dividends and undistributed earnings under the two-class method to calculate basic earnings per share. The percentage of undistributed earnings allocated to the unvested time-based awards is based on the proportion of the weighted-average unvested time-based awards outstanding during the period to the total of the weighted-average common shares and unvested time-based awards outstanding during the period. No adjustment is made for shares that are anti-dilutive during the period.

Segment Information—The Trust has determined that its business is conducted in one reportable segment, hotel ownership.

Use of Estimates—The preparation of the interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements—In April 2014, the Financial Accounting Standards Board (the “FASB”) issued updated accounting guidance for reporting discontinued operations and disposals of components of an entity. Under the new accounting guidance only components of an entity disposed of or classified as held for sale representing a strategic shift that have (or will have) a major effect on an entity’s operations and financial results should be reported as discontinued operations. The update also expands the disclosure requirements for discontinued operations and adds

new disclosures for individually significant dispositions that do not meet the definition of discontinued operations. The new accounting guidance is to be applied prospectively and is effective for interim and annual periods beginning on or after December 15, 2014 (early adoption is permitted only for disposals that have not been previously reported). The Trust has early adopted the new accounting guidance effective July 1, 2014.

In May 2014, the FASB issued updated accounting guidance for recognition of revenue from contracts with customers. The comprehensive new accounting guidance will supersede existing revenue recognition guidance and require revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. The new accounting guidance is to be applied prospectively and is effective for interim and annual periods beginning on or after December 15, 2016. The Trust will adopt the new accounting guidance on January 1, 2017. The Trust is currently evaluating the impact, if any, that the adoption of this new accounting guidance will have on its consolidated financial statements.

Table of Contents

3. Disposition

On September 30, 2014, the Trust sold the 153-room Courtyard Anaheim at Disneyland Resort located in Anaheim, California for \$32.5 million, including sold working capital. Net proceeds from the sale were \$31.9 million, which resulted in the recognition of a gain on sale of \$7.0 million. This sale does not represent a strategic shift that has (or will have) a major effect on the Trust's operations and financial results, and therefore, does not qualify to be reported as discontinued operations.

4. Property and Equipment

Property and equipment as of September 30, 2014 and December 31, 2013 consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Land and land improvements	\$254,962	\$262,322
Buildings and leasehold improvements	1,150,660	1,136,808
Furniture, fixtures and equipment	118,708	103,291
Construction-in-progress	34,771	16,593
	1,559,101	1,519,014
Less: accumulated depreciation and amortization	(131,428) (96,575
Property and equipment, net	\$ 1,427,673	\$ 1,422,439

5. Intangible Assets and Liability

Intangible assets and liability as of September 30, 2014 and December 31, 2013 consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Intangible assets:		
Air rights contract ⁽¹⁾	\$36,105	\$36,105
Favorable ground leases ⁽²⁾	3,568	4,828
	39,673	40,933
Less: accumulated amortization	(2,536) (2,152
Intangible assets, net	\$37,137	\$38,781
Intangible liability:		
Unfavorable contract liability ⁽²⁾	\$ 14,236	\$ 14,236
Less: accumulated amortization	(1,177) (883
Intangible liability, net (included within other liabilities)	\$13,059	\$ 13,353

In conjunction with the acquisition of the Hyatt Regency Boston on March 18, 2010, the Trust acquired an air rights contract which expires in September 2079 and that requires no payments through maturity. The Trust recorded the fair value of the air rights contract of \$36.1 million as an intangible asset and is amortizing the value over the term of the contract.

(1) In conjunction with the acquisition of the Denver Marriott City Center on October 3, 2011, the Trust assumed three lease agreements for land parcels underlying a portion of the hotel with initial terms ending July 2068, February 2072 and April 2072. The Trust concluded that the terms of two of the three ground leases were below market terms and recorded an aggregate of \$4.8 million of favorable ground lease assets, which the Trust is amortizing over the life of the respective leases and including within indirect hotel operating expenses in the interim consolidated statements of operations. On July 29, 2014, the Trust terminated one of the two ground leases with below market terms in connection with acquiring the associated land parcel and recognized a \$1.2 million loss on impairment of intangible asset, which is included within indirect hotel operating expenses in the interim consolidated statements of operations. Also

in conjunction with the acquisition of the Denver Marriott City Center, the Trust assumed a management contract with a non-cancelable term ending December 2047. The Trust concluded that the management agreement terms were above market terms and recorded a \$14.2 million unfavorable contract liability, which the Trust is amortizing over the remaining non-cancelable term and including within indirect hotel operating expenses in the interim consolidated statements of operations.

						588,847	531,173
Unamortized premium ⁽³⁾						440	598
Long-term debt						\$589,287	\$531,771

The Trust may exercise an option to extend the maturity by one year, subject to certain customary conditions. As of (1) September 30, 2014, the interest rate in effect was 1.91%. See below for additional information related to the revolving credit facility.

(2) At origination, \$25.0 million was advanced by the lender and was secured by the Hyatt Herald Square New York (formerly the Holiday Inn New York City Midtown – 31st Street). On March 14, 2013, \$35.0 million was advanced by the lender in connection with the acquisition of the Hyatt Place New York Midtown South. Following the subsequent advance, the entire \$60.0 million principal amount of the loan was secured by both hotels. The loan bore interest equal to LIBOR plus 3.25%. Contemporaneous with the origination of the term loan, the Trust entered into an interest rate swap to effectively fix the interest rate on the initial \$25.0 million advance for the original two-year term at 3.75% per annum. Under the terms of this interest rate swap, the Trust paid fixed interest of 0.50% per annum on a notional amount of \$25.0 million and received floating rate interest equal to the one-month LIBOR. The effective date of this interest rate swap was July 3, 2012 and it matured on July 3, 2014. Contemporaneous with the subsequent advance, the Trust entered into an interest rate swap to effectively fix the interest rate on the \$35.0 million subsequent advance for the remaining initial term of the loan at 3.65% per annum. Under the terms of this interest rate swap, the Trust paid fixed interest of 0.40% per annum on a notional amount of \$35.0 million and received floating rate interest equal to the one-month LIBOR. The effective date of this interest

rate swap was March 14, 2013 and it matured on July 3, 2014. The Trust repaid the term loan at maturity on July 3, 2014.

(3) On June 30, 2011, in connection with the acquisition of the Courtyard Washington Capitol Hill/Navy Yard, the Trust assumed an existing loan agreement with an outstanding principal balance of \$37.5 million. Based on interest rates on similar types of debt instruments at the time of assumption, the Trust recorded the loan at its estimated fair value of \$38.6 million, which included a premium on mortgage loan of \$1.1 million. Amortization of premium on mortgage loan is computed using a method that approximates the effective interest method over the term of the loan agreement and is included in interest expense in the interim consolidated statements of operations.

(4) The loan has a term of 30 years, but is callable by the lender after 10 years, and the Trust expects the lender to call the loan at that time. The indicated maturity is based on the date the loan is callable by the lender.

(5) The loan requires interest-only payments for the first two years and principal and interest payments thereafter.

Revolving credit facility

On October 25, 2012, the Trust entered into an amended credit agreement to (1) increase the maximum size of the revolving credit facility from \$200.0 million to \$250.0 million, (2) lower the interest rate to LIBOR plus 1.75% - 2.75% (the spread over LIBOR continues to be based on the Trust's consolidated leverage ratio), and (3) extend the maturity date to April 2016. The amended credit agreement provides for the possibility of further future increases, up to a maximum of \$375.0 million, in accordance with the terms of the amended credit agreement. The amended credit agreement also provides for an extension of the maturity date by one year, subject to satisfaction of certain customary conditions.

Table of Contents

The amount that the Trust can borrow under the revolving credit facility is based on the value of the Trust's hotels included in the borrowing base, as defined in the amended credit agreement. As of September 30, 2014, the revolving credit facility was secured by eight hotels providing borrowing availability of \$250.0 million, of which \$215.0 million remained available. The amended credit agreement contains standard financial covenants, including certain leverage ratios, coverage ratios, and a minimum tangible net worth requirement.

Other

Certain of the Trust's mortgage loan agreements contain standard financial covenants relating to coverage ratios and standard provisions that require loan servicers to maintain escrow accounts for certain items, including real estate taxes, insurance premiums, the completion of PIPs, and normal replacements of FF&E.

As of September 30, 2014, the Trust was in compliance with all financial covenants under its borrowing arrangements. As of September 30, 2014, the Trust's weighted-average interest rate on its long-term debt was 4.23%.

Future scheduled principal payments of debt obligations (assuming no exercise of extension options) as of September 30, 2014 are as follows (in thousands):

Year	Amounts
2014	\$2,511
2015	10,271
2016	166,909
2017	10,074
2018	10,493
Thereafter	388,589
	\$588,847

7. Earnings Per Share

The following is a reconciliation of the amounts used in calculating basic and diluted earnings per share (in thousands, except share and per share data):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Numerator:				
Net income available to common shareholders	\$26,266	\$16,821	\$44,849	\$26,524
Less: Dividends declared on unvested time-based awards	(128)	(98)	(385)	(276)
Less: Undistributed earnings allocated to unvested time-based awards	(84)	(33)	—	—
Net income available to common shareholders, excluding amounts attributable to unvested time-based awards	\$26,054	\$16,690	\$44,464	\$26,248
Denominator:				
Weighted-average number of common shares outstanding—basic	50,141,513	47,885,696	49,364,637	46,759,598
Effect of dilutive unvested performance-based awards	426,336	—	393,407	—
Weighted-average number of common shares outstanding—diluted	50,567,849	47,885,696	49,758,044	46,759,598
Net income available per common share:				
Basic	\$0.52	\$0.35	\$0.90	\$0.56
Diluted	\$0.52	\$0.35	\$0.89	\$0.56

For the three and nine months ended September 30, 2014, 61,616 unvested performance-based awards, and for the three and nine months ended September 30, 2013, 344,900 unvested performance-based awards, were excluded from diluted weighted-average common shares outstanding, as the awards had not achieved the specific levels of relative total shareholder return required for vesting at each period or their effect would have been anti-dilutive.

Table of Contents

8. Shareholders' Equity

Common Shares—The Trust is authorized to issue up to 400,000,000 common shares, \$.01 par value per share. Each outstanding common share entitles the holder to one vote on all matters submitted to a vote of shareholders. Holders of the Trust's common shares are entitled to receive distributions when authorized by the Trust's board of trustees out of assets legally available for the payment of distributions.

On February 6, 2013, the Trust completed an underwritten public offering of 8,337,500 common shares at a price of \$20.75 per share, including 1,087,500 shares sold pursuant to the underwriters' exercise of their option to purchase additional shares. After deducting underwriting fees and offering costs, the Trust generated net proceeds of \$165.9 million.

On September 6, 2013, the Trust entered into sales agreements with two sales agents, pursuant to which the Trust may issue and sell up to \$100.0 million in the aggregate of its common shares through a continuous at-the-market offering or other methods (the "ATM program"). For the period from September 6, 2013 through December 31, 2013, the Trust sold 1,012,058 common shares at an average price of \$23.73 per share under the ATM program and generated net proceeds of \$23.5 million after deducting sales commissions and offering costs. The Trust did not sell any common shares under the ATM program during the nine months ended September 30, 2014. As of September 30, 2014, \$76.0 million of common shares remained available for issuance under the ATM program.

On September 9, 2014, the Trust completed an underwritten public offering of 4,830,000 common shares at a price of \$29.88 per share, including 630,000 shares sold pursuant to the underwriter's exercise of their option to purchase additional shares. After deducting offering costs, the Trust generated net proceeds of \$143.9 million.

For the nine months ended September 30, 2014, the Trust issued 2,125 unrestricted common shares and 491,564 restricted common shares to its trustees and employees. For the nine months ended September 30, 2014, the Trust repurchased 18,358 common shares from employees to satisfy the minimum statutory tax withholding requirements related to the vesting of their previously granted restricted common shares. As of September 30, 2014, the Trust had 54,878,586 common shares outstanding.

For the nine months ended September 30, 2014, the Trust paid or its board of trustees declared the following dividends per common share:

	Record Date	Payment Date	Dividend Per Common Share
Fourth Quarter 2013	December 31, 2013	January 15, 2014	\$0.26
First Quarter 2014	March 31, 2014	April 15, 2014	\$0.30
Second Quarter 2014	June 30, 2014	July 15, 2014	\$0.30
Third Quarter 2014	September 30, 2014	October 15, 2014	\$0.30

Preferred Shares—The Trust is authorized to issue up to 100,000,000 preferred shares, \$.01 par value per share. The Trust's board of trustees is required to set for each class or series of preferred shares the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption. As of September 30, 2014, the Trust had 5,000,000 shares of its 7.75% Series A Cumulative Redeemable Preferred Shares outstanding.

Holders of Series A Cumulative Redeemable Preferred Shares are entitled to receive, when and as authorized by the Trust's board of trustees, out of funds legally available for the payment of dividends, cumulative cash dividends at the rate of 7.75% per annum of the \$25.00 per share liquidation preference, equivalent to \$1.9375 per annum per share. Dividends on the Series A Cumulative Redeemable Preferred Shares are cumulative from the date of original issuance and are payable quarterly in arrears on or about the 15th day of each of January, April, July and October. The Series A Cumulative Redeemable Preferred Shares rank senior to the Trust's common shares with respect to the payment of dividends; the Trust will not declare or pay any dividends, or set aside any funds for the payment of dividends, on its common shares unless the Trust also has declared and either paid or set aside for payment the full cumulative dividends on the Series A Cumulative Redeemable Preferred Shares.

For the nine months ended September 30, 2014, the Trust paid or its board of trustees declared the following dividends per preferred share:

Record Date	Payment Date
-------------	--------------

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

			Dividend Per Series A Cumulative Redeemable Preferred Share
Fourth Quarter 2013	December 31, 2013	January 15, 2014	\$0.484375
First Quarter 2014	March 31, 2014	April 15, 2014	\$0.484375
Second Quarter 2014	June 30, 2014	July 15, 2014	\$0.484375
Third Quarter 2014	September 30, 2014	October 15, 2014	\$0.484375

14

Table of Contents

The Trust cannot redeem the Series A Cumulative Redeemable Preferred Shares prior to July 17, 2017, except as described below and in certain limited circumstances related to the ownership limitation necessary to preserve the Trust's qualification as a REIT. On and after July 17, 2017, the Trust, at its option, can redeem the Series A Cumulative Redeemable Preferred Shares, in whole or from time to time in part, at a redemption price of \$25.00 per share, plus any accrued and unpaid dividends. The holders of Series A Cumulative Redeemable Preferred Shares have no voting rights, except in certain limited circumstances.

Upon the occurrence of a change of control, as defined in the articles supplementary designating the Series A Cumulative Redeemable Preferred Shares, as a result of which the Trust's common shares and the common securities of the acquiring or surviving entity are not listed or quoted on the New York Stock Exchange, the NYSE Amex Equities or the NASDAQ Stock Market, or any successor exchanges, the Trust may, at its option, redeem the Series A Cumulative Redeemable Preferred Shares in whole or in part within 120 days following the change of control by paying \$25.00 per share, plus any accrued and unpaid dividends through the date of redemption. If the Trust does not exercise its right to redeem the Series A Cumulative Redeemable Preferred Shares upon a change of control, the holders of the Series A Cumulative Redeemable Preferred Shares have the right to convert some or all of their shares into a number of the Trust's common shares based on a defined formula subject to a share cap. The share cap on each Series A Cumulative Redeemable Preferred Share is 2.9189 common shares.

9. Equity Plan

In January 2010, the Trust established the Chesapeake Lodging Trust Equity Plan (the "Plan"), which provides for the issuance of equity-based awards, including restricted shares, unrestricted shares, share options, share appreciation rights, and other awards based on the Trust's common shares. Employees and trustees of the Trust and other persons that provide services to the Trust are eligible to participate in the Plan. The compensation committee of the board of trustees administers the Plan and determines the number of awards to be granted, the vesting period, and the exercise price, if any.

The Trust initially reserved 454,657 common shares for issuance under the Plan at its establishment. In May 2012, the Trust's common shareholders approved an amendment to the Plan such that the number of shares available for issuance under the Plan was increased by 2,750,000. Shares that are issued under the Plan to any person pursuant to an award are counted against this limit as one share for every one share granted. If any shares covered by an award are not purchased or are forfeited, if an award is settled in cash, or if an award otherwise terminates without delivery of any shares, then the number of common shares counted against the aggregate number of shares available under the Plan with respect to the award will, to the extent of any such forfeiture or termination, again be available for making awards under the Plan. As of September 30, 2014, subject to increases that may result in the case of any future forfeiture or termination of currently outstanding awards, 1,558,760 common shares were reserved and available for future issuances under the Plan.

The Trust will make appropriate adjustments to outstanding awards and the number of shares available for issuance under the Plan, including the individual limitations on awards, to reflect share dividends, share splits, spin-offs and other similar events. While the compensation committee can terminate or amend the Plan at any time, no amendment can adversely impair the rights of grantees with respect to outstanding awards. In addition, an amendment will be contingent on approval of the Trust's common shareholders to the extent required by law or if the amendment would materially increase the benefits accruing to participants under the Plan, materially increase the aggregate number of shares that can be issued under the Plan, or materially modify the requirements as to eligibility for participation in the Plan. Unless terminated earlier, the Plan will terminate in January 2020, but will continue to govern unexpired awards. For the nine months ended September 30, 2014, the Trust granted 491,564 restricted common shares to certain employees and trustees, of which 158,941 shares were time-based awards and 332,623 shares were performance-based awards (the "2014 Performance-Based Awards"). The time-based awards are generally eligible to vest at the annual rate of one-third of the number of restricted shares granted commencing on the first anniversary of their issuance. The 2014 Performance-Based Awards are eligible to vest at December 31, 2016. Dividends on the 2014 Performance-Based Awards accrue, but are not paid unless the related shares vest. The fair value of the 2014 Performance-Based Awards was \$8.98 per share and was determined using a Monte Carlo simulation with the

following assumptions: volatility of 29.34%; an expected term equal to the requisite service period for the awards; and a risk-free interest rate of 0.72%.

The actual number of shares under the 2014 Performance-Based Awards that vest will be based on the Trust's total shareholder return ("TSR"), as defined in the restricted share agreements, measured over a three-year performance period ending December 31, 2016, against the total return generated by the SNL US Hotel REIT Index prepared by SNL Financial LC (the "Index"). The payout schedule for the 2014 Performance-Based Awards is as follows, with linear interpolation for performance between 67% and 100%, and between 100% and 133% of the Index:

Table of Contents

Trust TSR as % of Index Total Return	Payout (% of Maximum)
<67%	0%
67%	25%
100%	50%
≥133%	100%

If the Trust's TSR is negative for the performance period, no shares under the 2014 Performance-Based Awards will vest. If the Trust's TSR is positive for the performance period and the total return of the Index is negative, 100% of the shares subject to vesting under the 2014 Performance-Based Awards will vest.

As of September 30, 2014, there was approximately \$11.4 million of unrecognized share-based compensation expense related to restricted common shares. The unrecognized share-based compensation expense is expected to be recognized over a weighted-average period of 2.2 years.

The following is a summary of the Trust's restricted common share activity for the nine months ended September 30, 2014:

	Number of Shares	Weighted-Average Grant-Date Fair Value
Restricted common shares as of December 31, 2013	629,855	\$ 18.35
Granted	491,564	\$ 13.83
Vested	(59,625) \$ 22.54
Forfeited	(750) \$ 23.58
Restricted common shares as of September 30, 2014	1,061,044	\$ 16.02

10. Fair Value Measurements

The Trust's financial instruments include cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses, and long-term debt. The carrying values reported in the consolidated balance sheets for cash and cash equivalents, restricted cash, accounts receivable, and accounts payable and accrued expenses approximate fair value. The Trust estimates the fair value of its fixed rate debt by discounting the future cash flows of each instrument using estimated market rates of debt instruments with similar maturities and credit profiles. These inputs are classified as Level 3 within the fair value hierarchy. As of September 30, 2014, the carrying value reported in the consolidated balance sheet for the Trust's long-term debt approximated its fair value.

11. Commitments and Contingencies

Management Agreements—The Trust's hotels operate pursuant to management agreements with various third-party management companies. Each management company receives a base management fee generally between 2% and 4% of hotel revenues. The management companies are also eligible to receive an incentive management fee if hotel operating income, as defined in the management agreements, exceeds certain performance thresholds. The incentive management fee is generally calculated as a percentage of hotel operating income after the Trust has received a priority return on its investment in the hotel.

Franchise Agreements—As of September 30, 2014, 11 of the Trust's hotels operated pursuant to franchise agreements with hotel brand companies and eight hotels operated pursuant to management agreements with hotel brand companies that allowed them to operate under their respective brands. Under the 11 franchise agreements, the Trust generally pays a royalty fee ranging from 3% to 6% of room revenues and up to 3% of food and beverage revenues, plus additional fees for marketing, central reservation systems, and other franchisor costs that amount to between 1% and 5% of room revenues.

Ground Lease Agreement—The Trust leases the land underlying the Hyatt Regency Mission Bay Spa and Marina pursuant to a lease agreement, which has an initial term ending January 2056. Rent due under the lease agreement is the greater of base rent or percentage rent. Base rent is currently \$2.2 million per year. Base rent resets every three years over the remaining term of the lease equal to 75% of the average of the actual rent paid over the two years

preceding the base rent reset year. The next base rent reset year is 2016. Annual percentage rent is calculated based on various percentages of the hotel's various sources of revenue, including room, food and beverage, and marina rentals, earned during the period.

Table of Contents

FF&E Reserves—Pursuant to its management, franchise and loan agreements, the Trust is required to establish a FF&E reserve for each hotel to cover the cost of replacing FF&E. Contributions to the FF&E reserve are based on a percentage of gross revenues at each hotel. The Trust is generally required to contribute between 3% and 5% of gross revenues over the term of the agreements.

Litigation—The Trust is not involved in any material litigation nor, to its knowledge, is any material litigation threatened against the Trust.

12. Subsequent Event

On October 1, 2014, the Trust acquired the 337-room JW Marriott San Francisco Union Square located in San Francisco, California for approximately \$154.2 million, including an acquired FF&E reserve and working capital. The Trust assumed the existing management agreement with Marriott International, Inc., as well as the existing ground lease covering the property, which expires in January 2083.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as such may involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identified by our use of words, such as "intend," "plan," "may," "should," "will," "project," "estimate," "anticipate," "believe," "expect," "continue," "potential," "opportunity," and similar expressions, whether negative or affirmative. We cannot guarantee that we actually will achieve these plans, intentions or expectations. All statements regarding our expected financial position, business and financing plans are forward-looking statements. Factors which could have a material adverse effect on our operations and future prospects include, but are not limited to:

- U.S. economic conditions generally and the real estate market and the lodging industry specifically;
- management and performance of our hotels;
- our plans for renovation of our hotels;
- our financing plans and the terms on which capital is available to us;
- supply and demand for hotel rooms in our current and proposed market areas;
- our ability to acquire additional hotels and the risk that potential acquisitions may not be completed or perform in accordance with expectations;
- legislative/regulatory changes, including changes to laws governing taxation of real estate investment trusts; and
- our competition.

These risks and uncertainties, together with the information contained in our Form 10-K for the year ended December 31, 2013 under the caption "Risk Factors," should be considered in evaluating any forward-looking statement contained in this report or incorporated by reference herein. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are qualified by the cautionary statements in this section. We undertake no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report, except as required by law.

Table of Contents

Overview

The Trust was organized as a self-advised REIT in the state of Maryland in June 2009, with a focus on investments primarily in upper-upscale hotels in major business and convention markets and, on a selective basis, premium select-service hotels in urban settings or unique locations in the U.S. We completed our IPO in January 2010 and own the following 20 hotels as of the date of this filing:

Hotel	Location	Rooms	Acquisition Date
1 Hyatt Regency Boston	Boston, MA	502	March 18, 2010
2 Hilton Checkers Los Angeles	Los Angeles, CA	193	June 1, 2010
3 Boston Marriott Newton	Newton, MA	430	July 30, 2010
4 Le Meridien San Francisco	San Francisco, CA	360	December 15, 2010
5 Homewood Suites Seattle Convention Center	Seattle, WA	195	May 2, 2011
6 W Chicago – City Center	Chicago, IL	403	May 10, 2011
7 Hotel Indigo San Diego Gaslamp Quarter	San Diego, CA	210	June 17, 2011
8 Courtyard Washington Capitol Hill/Navy Yard	Washington, DC	204	June 30, 2011
9 Hotel Adagio San Francisco, Autograph Collection	San Francisco, CA	171	July 8, 2011
10 Denver Marriott City Center	Denver, CO	613	October 3, 2011

Hotel Operating Metrics

We believe that the results of operations of our hotels are best explained by five key performance indicators: occupancy, average daily rate ("ADR"), room revenue per available room ("RevPAR"), Adjusted Hotel EBITDA, and Adjusted Hotel EBITDA Margin. See the "Non-GAAP Financial Measures" section for additional information on Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin.

Occupancy is a major driver of room revenue, as well as other revenue categories, such as food and beverage and parking. ADR helps to drive room revenue as well; however, it does not have a direct effect on other revenue categories. Fluctuations in occupancy are accompanied by fluctuations in most categories of variable hotel operating expenses, such as utility costs and certain labor costs, such as housekeeping. Fluctuations in ADR are accompanied by fluctuations in limited categories of hotel operating expenses, such as management fees and franchise fees, since variable hotel operating expenses generally do not increase or decrease correspondingly. Thus, increases in RevPAR attributable to increases in occupancy typically result in varying levels of increases in Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin, while increases in RevPAR attributable to increases in ADR typically result in greater levels of increases in Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin.

Executive Summary

Our 19-hotel portfolio performed well during the third quarter of 2014 with RevPAR growth of 7.3% as compared to the third quarter of 2013, driven by an increase in ADR of 9.2% offset by a decline in occupancy of 1.4 percentage

points. We generated growth in Adjusted Hotel EBITDA of 10.4% and growth in Adjusted Hotel EBITDA Margin of 110 basis points. Excluding our three hotels that have undergone or are undergoing comprehensive renovations during 2014, our 16-hotel portfolio performed even stronger with RevPAR growth of 11.4% as compared to the third quarter of 2013, driven by an increase in occupancy of 1.6 percentage points and an increase in ADR of 9.3%. For the 16-hotel portfolio, we generated growth in Adjusted Hotel EBITDA of 15.1% and growth in Adjusted Hotel EBITDA Margin of 160 basis points.

Table of Contents

We continued to see strong demand at our hotels during the third quarter of 2014 as a result of our concentration in the strongest performing markets during the quarter, particularly San Francisco, Boston, Seattle, Los Angeles, Denver, Minneapolis, and Washington, DC. With our high levels of occupancy, our hotel managers were able to exercise pricing power and increase ADR which led to increased profitability. In addition, we saw significant improvements in Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin at the hotels acquired in 2013 as a result of operational changes instituted as part of our asset management initiatives.

We have improved the quality of our hotel portfolio by selling the Courtyard Anaheim at Disneyland Resort for \$32.5 million during the quarter. In addition, subsequent to quarter end, we completed the comprehensive renovation to reposition the former Holiday Inn New York City Midtown – 31st Street as the Hyatt Herald Square New York and acquired our fourth hotel located in San Francisco, the JW Marriott San Francisco Union Square, for a purchase price of \$147.2 million. We were able to fund the acquisition, along with net proceeds from the above mentioned sale, by raising \$143.9 million of net proceeds from a common share offering during the quarter. We also strengthened our balance sheet during the quarter by originating a new \$90.0 million secured financing, taking advantage of the attractive interest rate environment and extending debt maturities.

We continue to expect positive operating trends for our hotel portfolio through the remainder of 2014 and the foreseeable future as a result of favorable hotel supply and demand fundamentals in our geographic markets, our asset management initiatives, and the completion of our major repositioning projects at the W Chicago – Lakeshore, the Hyatt Herald Square New York, and, after this project is completed in the fourth quarter of 2014, the Le Meridien New Orleans. We also continue to identify and pursue acquisition opportunities to prudently and selectively grow our hotel portfolio.

Results of Operations

Comparison of three months ended September 30, 2014 and 2013

Results of operations for the three months ended September 30, 2014 include the operating activity of 19 hotels for the full period and one hotel for part of the period, whereas the results of operations for the three months ended September 30, 2013 include the operating activity of 20 hotels for the full period. We use the term “comparable hotel portfolio” to refer to those hotels owned for the entirety of the two periods being compared and the term “non-comparable hotel portfolio” to refer to those hotels acquired in either of the two periods being compared. The comparable hotel portfolio for the three months ended September 30, 2014 and 2013 includes the 19 hotels owned as of September 30, 2014.

Revenues—Total revenue for the three months ended September 30, 2014 was \$130.8 million, of which \$129.0 million was contributed by the comparable hotel portfolio and \$1.8 million was contributed by the non-comparable hotel portfolio. Total revenue for the three months ended September 30, 2013 was \$122.4 million, of which \$120.7 million was contributed by the comparable hotel portfolio and \$1.7 million was contributed by the non-comparable hotel portfolio. The increase in total revenue for the comparable hotel portfolio of \$8.3 million was primarily a result of increased demand for rooms from corporate and leisure transient customers, particularly at our hotels located in San Francisco, Boston, Seattle, Los Angeles, and Washington, DC, and from group customers at the our hotels located in Boston, San Francisco, and Denver, which increase in group demand was driven by favorable convention calendars for their respective markets during the three months ended September 30, 2014 as compared to the three months ended September 30, 2013. The aforementioned increases in total revenue were offset partially by a decrease in total revenue from the Hotel New Orleans Downtown (formerly the W New Orleans) as a result of the comprehensive renovation that was ongoing and its temporary re-branding during the three months ended September 30, 2014, which negatively impacted customer demand at the hotel, and the closure of the former Holiday Inn New York City Midtown – 31st Street during August and September of 2014 to reposition the hotel as the Hyatt Herald Square New York.

Hotel operating expenses—Total hotel operating expenses for the three months ended September 30, 2014 was \$84.7 million, of which \$83.7 million was incurred in connection with the comparable hotel portfolio and \$1.0 million was incurred in connection with the non-comparable hotel portfolio. Total hotel operating expenses for the three months ended September 30, 2013 was \$79.5 million, of which \$78.5 million was incurred in connection with the comparable hotel portfolio and \$1.0 million was incurred in connection with the non-comparable hotel portfolio. The increase in total hotel operating expenses for the comparable hotel portfolio of \$5.2 million was primarily a result of increases in

corresponding total revenue for the comparable hotel portfolio, offset partially by a decrease in total hotel operating expenses at the Hotel New Orleans Downtown (formerly the W New Orleans) and the Hyatt Herald Square New York (formerly the Holiday Inn New York City Midtown – 31st Street) commensurate with the decreases in total revenue due to their ongoing comprehensive renovations. The increase in total hotel operating expenses associated with the increase in corresponding total revenue for the comparable hotel portfolio, however, was limited as a result of the increase in total revenue being primarily driven by an increase in ADR, which has a lesser corresponding increase in variable hotel operating expenses than an increase in occupancy. Furthermore, our hotel managers were able to reduce or limit increases in total hotel operating expenses as a result of our asset management initiatives.

Depreciation and amortization—Depreciation and amortization expense for the three months ended September 30, 2014 and 2013 was \$12.5 million and \$12.3 million, respectively. The increase in depreciation and amortization expense was

Table of Contents

primarily attributable to the completion of the comprehensive renovation at the W Chicago – Lakeshore in the second quarter of 2014.

Air rights contract amortization—Air rights contract amortization expense associated with the Hyatt Regency Boston for each of the three months ended September 30, 2014 and 2013 was \$0.1 million.

Corporate general and administrative—Corporate general and administrative expense for the three months ended September 30, 2014 and 2013 was \$3.7 million and \$2.9 million, respectively. Included in corporate general and administrative expense for the three months ended September 30, 2014 and 2013 was \$1.5 million and \$1.2 million, respectively, of non-cash share-based compensation expense. The increase in corporate general and administrative expense is primarily related to an increase in employee compensation expense, including non-cash share-based compensation expense.

Interest expense—Interest expense for the three months ended September 30, 2014 and 2013 was \$7.0 million and \$7.2 million, respectively. The decrease in interest expense is primarily related to the termination of an interest rate cap and resulting reclassification of \$0.3 million from accumulated other comprehensive loss to interest expense during the three months ended September 30, 2013.

Gain on sale of hotel—Gain on sale of hotel for the three months ended September 30, 2014 was \$7.0 million related to the sale of the Courtyard Anaheim at Disneyland Resort on September 30, 2014.

Loss on early extinguishment of debt—Loss on early extinguishment of debt for the three months ended September 30, 2013 was \$0.4 million. The loss on early extinguishment of debt related to the write-off of unamortized deferred financing costs associated with the prepayment of a \$130.0 million term loan secured by the Le Meridien San Francisco and the W Chicago – City Center during the period.

Income tax expense—Income tax expense for the three months ended September 30, 2014 and 2013 was \$1.1 million and \$0.6 million, respectively. Income tax expense is directly related to taxable income generated by our TRS during the periods.

Comparison of nine months ended September 30, 2014 and 2013

Results of operations for the nine months ended September 30, 2014 include the operating activity of 19 hotels for the full period and one hotel for part of the period, whereas the results of operations for the nine months ended September 30, 2013 include the operating activity of 15 hotels for the full period and five hotels for part of the period. The comparable hotel portfolio for the nine months ended September 30, 2014 and 2013 includes 14 of our 19 hotels owned as of September 30, 2014.

Revenues—Total revenue for the nine months ended September 30, 2014 was \$354.5 million, of which \$276.5 million was contributed by the comparable hotel portfolio and \$78.0 million was contributed by the non-comparable hotel portfolio. Total revenue for the nine months ended September 30, 2013 was \$308.6 million, of which \$263.9 million was contributed by the comparable hotel portfolio and \$44.7 million was contributed by the non-comparable hotel portfolio. The increase in total revenue for the comparable hotel portfolio of \$12.6 million was primarily a result of increased demand for rooms from corporate and leisure transient customers, particularly at our hotels located in San Francisco, Boston, Seattle, and San Diego, and from group customers at our hotels located in Boston, San Francisco, and Denver, which increase in group demand was driven by favorable convention calendars for their respective markets during the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013. Aside from the strong market dynamics of San Francisco, total revenue at the Hotel Adagio San Francisco, Autograph Collection increased also as a result of its re-branding and inclusion in Marriott’s Autograph Collection (previously an independent hotel), which occurred late in the first quarter of 2013. The aforementioned increases in total revenue were offset partially by a decrease in total revenue from the W Chicago – Lakeshore and the Hotel New Orleans Downtown (formerly the W New Orleans) as a result of the comprehensive renovations that were ongoing during the nine months ended September 30, 2014, which negatively impacted customer demand at the hotels, and the closure of the former Holiday Inn New York City Midtown – 31st Street during August and September of 2014 to reposition the hotel as the Hyatt Herald Square New York.

Hotel operating expenses—Total hotel operating expenses for the nine months ended September 30, 2014 was \$239.2 million, of which \$185.7 million was incurred in connection with the comparable hotel portfolio and \$53.5 million was incurred in connection with the non-comparable hotel portfolio. Total hotel operating expenses for the nine

months ended September 30, 2013 was \$207.9 million, of which \$178.2 million was incurred in connection with the comparable hotel portfolio and \$29.7 million was incurred in connection with the non-comparable hotel portfolio. The increase in total hotel operating expenses for the comparable hotel portfolio of \$7.5 million was primarily a result of increases in corresponding total revenue for the comparable hotel portfolio, offset partially by a decrease in total hotel operating expenses at the W Chicago – Lakeshore, the Hotel New Orleans Downtown (formerly the W New Orleans) and the Hyatt Herald Square New York (formerly the Holiday Inn New York City Midtown – 31st Street) commensurate with the decreases in total revenue due to their respective comprehensive renovations occurring during the nine months ended September 30, 2014. The increase in total hotel operating expenses associated with the increase in corresponding total revenue for the comparable hotel portfolio, however, was limited

Table of Contents

as a result of the increase in total revenue being primarily driven by an increase in ADR, which has a lesser corresponding increase in variable hotel operating expenses than an increase in occupancy. Furthermore, our hotel managers were able to reduce or limit increases in total hotel operating expenses as a result of our asset management initiatives.

Depreciation and amortization—Depreciation and amortization expense for the nine months ended September 30, 2014 and 2013 was \$37.5 million and \$32.0 million, respectively. The increase in depreciation and amortization expense was primarily attributable to the five hotels acquired in 2013 and the completion of the comprehensive renovation at the W Chicago – Lakeshore in the second quarter of 2014.

Air rights contract amortization—Air rights contract amortization expense associated with the Hyatt Regency Boston for each of the nine months ended September 30, 2014 and 2013 was \$0.4 million.

Corporate general and administrative—Corporate general and administrative expense for the nine months ended September 30, 2014 and 2013 was \$11.5 million and \$9.9 million, respectively. Included in corporate general and administrative expense for the nine months ended September 30, 2014 and 2013 was \$4.3 million and \$3.5 million, respectively, of non-cash share-based compensation expense. The increase in corporate general and administrative expense is primarily related to an increase in employee compensation expense, including non-cash share-based compensation expense, and professional services fees.

Hotel acquisition costs—Hotel acquisition costs for the nine months ended September 30, 2014 and 2013 was \$0.1 million and \$4.2 million, respectively. The decrease in hotel acquisition costs is a result of no hotel acquisitions occurring during the nine months ended September 30, 2014, as compared to five hotel acquisitions occurring during the nine months ended September 30, 2013.

Interest expense—Interest expense for the nine months ended September 30, 2014 and 2013 was \$20.5 million and \$19.0 million, respectively. The increase in interest expense is directly related to the increase in long-term debt outstanding, reflecting the use of debt to partially fund the five hotel acquisitions during 2013.

Gain on sale of hotel—Gain on sale of hotel for the nine months ended September 30, 2014 was \$7.0 million related to the sale of the Courtyard Anaheim at Disneyland Resort on September 30, 2014.

Loss on early extinguishment of debt—Loss on early extinguishment of debt for the nine months ended September 30, 2013 was \$0.4 million. The loss on early extinguishment of debt related to the write-off of unamortized deferred financing costs associated with the prepayment of a \$130.0 million term loan secured by the Le Meridien San Francisco and the W Chicago – City Center during the period.

Income tax expense—Income tax expense for the nine months ended September 30, 2014 and 2013 was \$0.3 million and \$1.3 million, respectively. Income tax expense is directly related to taxable income generated by our TRS during the period.

Hotel operating results

We assess the operating performance of our hotels irrespective of the hotel owner during the periods compared. We use the term "pro forma" to refer to metrics that include, or comparisons of metrics that are based on, the operating results of hotels under previous ownership for either a portion of or the entire period. Since five of our 19 hotels owned as of September 30, 2014 were acquired at various times during 2013, the key operating metrics reflect the pro forma operating results of five of those hotels for the nine months ended September 30, 2013. In addition to assessing the operating performance of our 19-hotel portfolio for the three and nine months ended September 30, 2014, we also assess the operating performance of a 16-hotel portfolio, which excludes the W Chicago – Lakeshore, the Hotel New Orleans Downtown (formerly the W New Orleans), and the Hyatt Herald Square New York (formerly the Holiday Inn New York City Midtown – 31st Street), as these hotels have undergone or are undergoing comprehensive renovations during 2014. Included in the following table are comparisons of occupancy, ADR, RevPAR, Adjusted Hotel EBITDA, and Adjusted Hotel EBITDA Margin for the 16-hotel portfolio and the 19-hotel portfolio for the three and nine months ended September 30, 2014 and 2013 (in thousands, except for ADR and RevPAR):

Table of Contents

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2014	2013	Change	2014	2013 ⁽¹⁾	Change
16-Hotel Portfolio⁽²⁾						
Occupancy	88.8	% 87.2	% 160 bps	85.1	% 82.7	% 240 bps
ADR	\$230.18	\$210.51	9.3%	\$210.65	\$197.27	6.8%
RevPAR	\$204.51	\$183.58	11.4%	\$179.27	\$163.21	9.8%
Adjusted Hotel EBITDA	\$42,406	\$36,845	15.1%	\$103,510	\$88,297	17.2%
Adjusted Hotel EBITDA Margin	37.7	% 36.1	% 160 bps	34.1	% 31.8	% 230 bps
19-Hotel Portfolio						
Occupancy	83.8	% 85.2	% (140) bps	81.0	% 81.2	% (20) bps
ADR	\$226.65	\$207.65	9.2%	\$208.93	\$197.29	5.9%
RevPAR	\$189.94	\$176.99	7.3%	\$169.31	\$160.20	5.7%
Adjusted Hotel EBITDA	\$46,490	\$42,097	10.4%	\$114,190	\$103,179	10.7%
Adjusted Hotel EBITDA Margin	36.0	% 34.9	% 110 bps	32.7	% 31.1	% 160 bps

(1) Includes results of operations for certain hotels prior to our acquisition.

Excludes the W Chicago – Lakeshore, the Hotel New Orleans Downtown (formerly the W New Orleans), and the (2) Hyatt Herald Square New York (formerly the Holiday Inn New York City Midtown – 31st Street), as these hotels have undergone or are undergoing comprehensive renovations during 2014.

The increase in RevPAR of 11.4% for the 16-hotel portfolio for the three months ended September 30, 2014 as compared to the three months ended September 30, 2013 was primarily a result of our concentration in the strongest performing markets during the quarter. ADR increased by 9.3% primarily as a result of high levels of occupancy, which increased by 1.6 percentage points, at many of our hotels which allowed our hotel managers to exercise pricing power. The increases in occupancy and ADR were primarily a result of increased demand for rooms from corporate and leisure transient customers at our hotels located in San Francisco, Boston, Seattle, Los Angeles, and Washington, DC, and from group customers at our hotels located in Boston, San Francisco, and Denver, as a result of favorable convention calendars for these three markets during the period.

The increase in Adjusted Hotel EBITDA of 15.1% and the increase in Adjusted Hotel EBITDA Margin of 160 basis points for the 16-hotel portfolio for the three months ended September 30, 2014 as compared to the three months ended September 30, 2013 were primarily a result of the increase in RevPAR of 11.4%. Given the increase in RevPAR was more significantly driven by an increase in ADR, our hotels were able to increase total revenue at a greater percentage than the corresponding percentage increase in total hotel operating expenses. Furthermore, we were able to reduce or limit increases in total hotel operating expenses at several of the hotels acquired in 2013 as a result of operational changes we instituted subsequent to our acquisition of the hotels. The increases in Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin during the three months ended September 30, 2014 were negatively impacted, however, by increases in property taxes primarily as a result of increases in the assessed values at several of our hotels acquired in 2013.

The pro forma increase in RevPAR of 9.8% for the 16-hotel portfolio for the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013 was primarily a result of our concentration in the strongest performing markets during the period. ADR increased on a pro forma basis by 6.8% primarily as a result of high levels of occupancy, which increased by 2.4 percentage points on a pro forma basis, at many of our hotels which allowed our hotel managers to exercise pricing power. The pro forma increases in occupancy and ADR were primarily a result of increased demand for rooms from corporate and leisure transient customers at our hotels located in San Francisco, Boston, Seattle, San Diego, and Santa Barbara, and from group customers at our hotels located in Boston, San Francisco, and Denver, as a result of favorable convention calendars for these three markets during the period. Aside from the strong market dynamics of San Francisco and Santa Barbara during the period, RevPAR at the Hotel

Adagio San Francisco, Autograph Collection increased also as a result of its re-branding and inclusion in Marriott's Autograph Collection (previously an independent hotel), which occurred late in the first quarter of 2013, and RevPAR at the Hyatt Fisherman's Wharf and the Hyatt Santa Barbara increased on a pro forma basis also as a result of asset management initiatives we instituted subsequent to our acquisition of the hotels in May 2013 and June 2013, respectively.

The pro forma increase in Adjusted Hotel EBITDA of 17.2% and the pro forma increase in Adjusted Hotel EBITDA Margin of 230 basis points for the 16-hotel portfolio for the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013 were primarily a result of the pro forma increase in RevPAR of 9.8%. Given the increase in RevPAR was more significantly driven by an increase in ADR, our hotels were able to increase total revenue at a greater percentage than the corresponding percentage increase in total hotel operating expenses. Furthermore, we were able to reduce or limit increases in total hotel operating expenses at several of the hotels acquired in 2013 as a result of operational changes we

Table of Contents

instituted subsequent to our acquisition of the hotels. The increases in Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin during the nine months ended September 30, 2014 were negatively impacted, however, by increases in property taxes primarily as a result of increases in the assessed values at several of our hotels acquired in 2013.

Non-GAAP Financial Measures

Non-GAAP financial measures are measures of our historical financial performance that are different from measures calculated and presented in accordance with U.S. generally accepted accounting principles. We report the following eight non-GAAP financial measures that we believe are useful to investors as key measures of our operating performance: (1) Hotel EBITDA, (2) Adjusted Hotel EBITDA, (3) Adjusted Hotel EBITDA Margin, (4) Corporate EBITDA, (5) Adjusted Corporate EBITDA, (6) Funds from operations (FFO), (7) FFO available to common shareholders, and (8) Adjusted FFO (AFFO) available to common shareholders.

Hotel EBITDA—Hotel EBITDA is defined as total revenues less total hotel operating expenses. We believe that Hotel EBITDA provides investors a useful financial measure to evaluate our hotel operating performance.

Adjusted Hotel EBITDA—We further adjust Hotel EBITDA for certain additional recurring and non-recurring items. Specifically, we adjust for non-cash amortization of intangible assets and liabilities, including ground lease assets and unfavorable contract liabilities, deferred franchise costs, and deferred key money, all of which are recurring items. We believe that Adjusted Hotel EBITDA provides investors with another useful financial measure to evaluate our hotel operating performance.

Adjusted Hotel EBITDA Margin—Adjusted Hotel EBITDA Margin is defined as Adjusted Hotel EBITDA as a percentage of total revenues. We believe that Adjusted Hotel EBITDA Margin provides investors another useful measure to evaluate our hotel operating performance.

The following table calculates for the 16-hotel portfolio and the 19-hotel portfolio Hotel EBITDA, Adjusted Hotel EBITDA, and Adjusted Hotel EBITDA Margin for the three and nine months ended September 30, 2014 and 2013 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,		
	2014	2013	2014	2013 ⁽¹⁾	
16-Hotel Portfolio⁽²⁾					
Total revenue	\$ 112,624	\$ 102,185	\$ 303,399	\$ 277,645	
Less: Total hotel operating expenses	71,336	65,265	200,855	189,122	
Hotel EBITDA	41,288	36,920	102,544	88,523	
Add: Non-cash amortization ⁽³⁾	1,118	(75)	966	(226)	
Adjusted Hotel EBITDA	\$ 42,406	\$ 36,845	\$ 103,510	\$ 88,297	
Adjusted Hotel EBITDA Margin	37.7	% 36.1	% 34.1	% 31.8	%
19-Hotel Portfolio					
Total revenue	\$ 129,038	\$ 120,705	\$ 349,313	\$ 331,758	
Less: Total hotel operating expenses	83,666	78,533	236,089	228,353	
Hotel EBITDA	45,372	42,172	113,224	103,405	
Add: Non-cash amortization ⁽³⁾	1,118	(75)	966	(226)	
Adjusted Hotel EBITDA	\$ 46,490	\$ 42,097	\$ 114,190	\$ 103,179	
Adjusted Hotel EBITDA Margin	36.0	% 34.9	% 32.7	% 31.1	%

(1) Includes results of operations for certain hotels prior to our acquisition.

Excludes the W Chicago – Lakeshore, the Hotel New Orleans Downtown (formerly the W New Orleans), and the (2) Hyatt Herald Square New York (formerly the Holiday Inn New York City Midtown – 31st Street), as these hotels have undergone or are undergoing comprehensive renovations during 2014.

(3) Includes non-cash amortization of ground lease asset, deferred franchise costs, deferred key money, and unfavorable contract liability.

Table of Contents

Corporate EBITDA—Corporate EBITDA is defined as net income before interest, income taxes, and depreciation and amortization. We believe that Corporate EBITDA provides investors a useful financial measure to evaluate our operating performance, excluding the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization).

Adjusted Corporate EBITDA—We further adjust Corporate EBITDA for certain additional recurring and non-recurring items. Specifically, we adjust for hotel acquisition costs and non-cash amortization of intangible assets and liabilities, including air rights contracts, ground lease assets and unfavorable contract liabilities, deferred franchise costs, and deferred key money, all of which are recurring items, and gains (losses) from sales of real estate, which is a non-recurring item. We believe that Adjusted Corporate EBITDA provides investors with another financial measure of our operating performance that provides for greater comparability of our core operating results between periods. The following table reconciles net income to Corporate EBITDA and Adjusted Corporate EBITDA for the three and nine months ended September 30, 2014 and 2013 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Net income	\$28,688	\$19,243	\$52,115	\$33,790
Add: Depreciation and amortization	12,466	12,335	37,488	32,012
Interest expense	6,963	7,199	20,477	18,986
Loss on early extinguishment of debt	—	372	—	372
Income tax expense	1,133	641	292	1,331
Less: Interest income	(8) (4) (8) (247
Corporate EBITDA	49,242	39,786	110,364	86,244
Add: Hotel acquisition costs	60	59	60	4,195
Non-cash amortization ⁽¹⁾	1,248	55	1,359	167
Less: Gain on sale of hotel	(7,006) —	(7,006) —
Adjusted Corporate EBITDA	\$43,544	\$39,900	\$104,777	\$90,606

(1) Includes non-cash amortization of ground lease asset, deferred franchise costs, deferred key money, unfavorable contract liability, and air rights contract.

FFO—We calculate FFO in accordance with standards established by the National Association of Real Estate Investment Trusts ("NAREIT"), which defines FFO as net income (calculated in accordance with GAAP), excluding depreciation and amortization, impairment charges of depreciable real estate, gains (losses) from sales of real estate, the cumulative effect of changes in accounting principles, and adjustments for unconsolidated partnerships and joint ventures. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most industry investors consider presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. By excluding the effect of depreciation and amortization and gains (losses) from sales of real estate, both of which are based on historical cost accounting and which may be of lesser significance in evaluating current performance, we believe that FFO provides investors a useful financial measure to evaluate our operating performance.

FFO available to common shareholders—We reduce FFO for preferred share dividends and dividends declared on and earnings allocated to unvested time-based awards (consistent with adjustments required by GAAP in reporting net income available to common shareholders and related per share amounts). FFO available to common shareholders provides investors another financial measure to evaluate our operating performance after taking into account the interests of holders of our preferred shares and unvested time-based awards.

AFFO available to common shareholders—We further adjust FFO available to common shareholders for certain additional recurring and non-recurring items that are not in NAREIT's definition of FFO. Specifically, we adjust for hotel acquisition costs and non-cash amortization of intangible assets and liabilities, including air rights contracts,

ground lease assets and unfavorable contract liabilities, deferred franchise costs, and deferred key money, all of which are recurring items. We believe that AFFO available to common shareholders provides investors with another financial measure of our operating performance that provides for greater comparability of our core operating results between periods.

25

Table of Contents

The following table reconciles net income to FFO, FFO available to common shareholders, and AFFO available to common shareholders for the three and nine months ended September 30, 2014 and 2013 (in thousands, except per share amounts):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Net income	\$ 28,688	\$ 19,243	\$ 52,115	\$ 33,790
Add: Depreciation and amortization	12,466	12,335	37,488	32,012
Less: Gain on sale of hotel	(7,006)) —	(7,006)) —
FFO	34,148	31,578	82,597	65,802
Less: Preferred share dividends	(2,422)) (2,422)) (7,266)) (7,266)
Dividends declared on unvested time-based awards	(128)) (98)) (385)) (276)
Undistributed earnings allocated to unvested time- based awards	(84)) (33)) —) —
FFO available to common shareholders	31,514	29,025	74,946	58,260
Add: Hotel acquisition costs	60	59	60	4,195
Non-cash amortization ⁽¹⁾	1,248	55	1,359	167
AFFO available to common shareholders	\$ 32,822	\$ 29,139	\$ 76,365	\$ 62,622
FFO available per common share:				
Basic	\$ 0.63	\$ 0.61	\$ 1.52	\$ 1.25
Diluted	\$ 0.62	\$ 0.61	\$ 1.51	\$ 1.25
AFFO available per common share:				
Basic	\$ 0.65	\$ 0.61	\$ 1.55	\$ 1.34
Diluted	\$ 0.65	\$ 0.61	\$ 1.53	\$ 1.34

(1) Includes non-cash amortization of ground lease asset, deferred franchise costs, deferred key money, unfavorable contract liability, and air rights contract.

None of Hotel EBITDA, Adjusted Hotel EBITDA, Corporate EBITDA, Adjusted Corporate EBITDA, FFO, FFO available to common shareholders, or AFFO available to common shareholders represent cash generated from operating activities as determined by GAAP, nor shall any of these measures be considered as an alternative to GAAP net income (loss), as an indication of our financial performance, or to GAAP cash flow from operating activities, as a measure of liquidity. In addition, Hotel EBITDA, Adjusted Hotel EBITDA, Corporate EBITDA, Adjusted Corporate EBITDA, FFO, FFO available to common shareholders, and AFFO available to common shareholders are not indicative of funds available to fund cash needs, including the ability to make cash distributions.

Sources and Uses of Cash

For the nine months ended September 30, 2014, net cash flows from operating activities were \$85.7 million; net cash flows used in investing activities were \$83.4 million, including \$42.1 million for deposit on the acquisition of the JW Marriott San Francisco Union Square and \$67.5 million for improvements and additions to our hotels, offset by proceeds of \$31.9 million from the sale of the Courtyard Anaheim at Disneyland Resort; and net cash flows provided by financing activities were \$149.5 million, including net proceeds of \$143.9 million from the sale of common shares, proceeds of \$90.0 million from the issuance of mortgage debt, and net borrowings of \$35.0 million under our revolving credit facility, offset by \$67.3 million in scheduled principal payments on mortgage debt and \$49.7 million in dividend payments to common and preferred shareholders. As of September 30, 2014, we had cash and cash equivalents of \$180.5 million.

Liquidity and Capital Resources

We expect our primary source of cash to meet operating requirements, including payment of dividends in accordance with the REIT requirements of the U.S. federal income tax laws, payment of interest on any borrowings and funding of any capital expenditures, will be from our hotels' results of operations and existing cash and cash equivalent balances. We currently expect that our operating cash flows will be sufficient to fund our continuing operations. We intend to incur indebtedness to

Table of Contents

supplement our investment capital and to maintain flexibility to respond to industry conditions and opportunities. We are targeting an overall debt level not to exceed 40% of the aggregate value of all of our hotels as calculated in accordance with our revolving credit facility; as of September 30, 2014, our overall debt level was 33.3% under this calculation.

We expect to meet long-term liquidity requirements, such as new hotel acquisitions and scheduled debt maturities, through additional secured and unsecured borrowings and the issuance of equity securities. Our ability to raise funds through the issuance of equity securities depends on, among other things, general market conditions for hotel companies and REITs and market perceptions about us. We will continue to analyze alternate sources of capital in an effort to minimize our capital costs and maximize our financial flexibility.

We expect to continue declaring distributions to shareholders, as required to maintain our REIT status, although no assurances can be made that we will continue to generate sufficient income to distribute similar aggregate amounts in the future. The per share amounts of future distributions will depend on the number of our common and preferred shares outstanding from time to time and will be determined by our board of trustees following its periodic review of our financial performance and capital requirements, and the terms of our existing borrowing arrangements.

On October 1, 2014, we acquired the 337-room JW Marriott San Francisco Union Square located in San Francisco, California for approximately \$154.2 million, including an acquired FF&E reserve and working capital. The acquisition was funded with the net proceeds from the sale of the Courtyard Anaheim at Disneyland Resort on September 30, 2014 and from available cash as a result of the common share offering completed on September 9, 2014.

As of the date of this filing, we have approximately \$35.0 million of cash and cash equivalents, total borrowing availability of \$250.0 million under our revolving credit facility, of which we have \$15.0 million currently outstanding, and three unencumbered hotels. See Note 6, "Long-Term Debt," to our interim consolidated financial statements for additional information relating to our revolving credit facility and other long-term debt.

Capital Expenditures

We maintain each hotel in good repair and condition and in conformity with applicable laws and regulations and in accordance with the franchisor's standards and the agreed-upon requirements in our management and loan agreements. The cost of all such routine improvements and alterations will be paid out of property improvement reserves, which will be funded by a portion of each hotel's gross revenues. Routine capital expenditures will be administered by the management companies. However, we will have approval rights over the capital expenditures as part of the annual budget process.

From time to time, certain of our hotels may be undergoing renovations as a result of our decision to upgrade portions of the hotels, such as guestrooms, meeting space, and/or restaurants, in order to better compete with other hotels in our markets. In addition, often after we acquire a hotel, we are required to complete a PIP in order to bring the hotel up to the franchisor's standards. If permitted by the terms of the management agreement, funding for a renovation will first come from the FF&E reserve. To the extent that the FF&E reserve is not adequate to cover the cost of the renovation, we will fund the remaining portion of the renovation with cash and cash equivalents or through borrowings under our revolving credit facility.

We have undergone or are undergoing the following significant renovation or repositioning projects in 2014:

W Chicago – Lakeshore—A comprehensive renovation encompassing guestrooms, public spaces, restaurant, bars, and meeting space, which commenced in the third quarter of 2013, was completed in the second quarter of 2014. The current estimated renovation cost is approximately \$38.0 million. As of September 30, 2014, \$34.5 million had been spent and approximately \$3.5 million remained to be spent on final contractor and vendor payments.

Former W New Orleans—A comprehensive renovation encompassing guestrooms, public spaces, restaurant, bars, and meeting space to reposition the hotel commenced in the second quarter of 2014. In July 2014, we and our hotel manager, Starwood Hotels & Resorts Worldwide, Inc., agreed to remove the W brand from the hotel for the duration of the renovation and rename it the Hotel New Orleans Downtown. Our hotel manager has agreed to guarantee certain levels of gross operating profit, as defined in the agreement, for the expected renovation period. The renovation is expected to be completed in the fourth quarter of 2014, at which time the hotel will be re-branded as the Le Meridien

New Orleans. The current estimated renovation cost, subject to adjustments based on continued evaluation, is approximately \$29.0 million, of which \$12.8 million had been spent as of September 30, 2014.

Former Holiday Inn New York City Midtown – 31st Street—A comprehensive renovation encompassing guestrooms, public spaces, restaurant, and bar to reposition the hotel as the Hyatt Herald Square New York, which commenced in the third quarter of 2014, was completed early in the fourth quarter of 2014. The current estimated renovation cost is approximately \$6.5 million. As of September 30, 2014, \$6.0 million had been spent and approximately \$0.5 million remained to be spent on final contractor and vendor payments.

Table of Contents

Contractual Obligations

The following table sets forth our contractual obligations as of September 30, 2014, and the effect such obligations are expected to have on our liquidity and cash flow in future periods (in thousands). There were no other material off-balance sheet arrangements at September 30, 2014, except for the pending acquisition of the JW Marriott San Francisco Union Square for a purchase price of \$147.2 million, which was completed on October 1, 2014.

Contractual Obligations	Payments Due by Period				
	Total	Less Than One Year	One to Three Years	Three to Five Years	More Than Five Years
Revolving credit facility, including interest ⁽¹⁾	\$36,120	\$678	\$35,442	\$—	\$—
Mortgage loans, including interest	696,918	34,464	182,477	53,834	426,143
Corporate office lease	695	225	470	—	—
Ground leases ⁽²⁾	96,900	2,249	4,499	4,499	85,653
	\$830,633	\$37,616	\$222,888	\$58,333	\$511,796

Assumes no additional borrowings and interest payments are based on the interest rate in effect at

- (1) September 30, 2014. Also assumes that no extension options are exercised. See the notes to our interim consolidated financial statements for additional information relating to our revolving credit facility.

- (2) The ground lease for the Hyatt Regency Mission Bay Spa and Marina provides for the greater of base or percentage rent, both subject to potential increases over the term of the lease. Amounts assume only base rent for all periods presented and do not assume any adjustments for potential increases.

Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

Seasonality

Demand in the lodging industry is affected by recurring seasonal patterns. For non-resort properties, demand is generally lower in the winter months due to decreased travel and higher in the spring and summer months during the peak travel season. For resort properties, demand is generally higher in the winter months. We expect that our operations will generally reflect non-resort seasonality patterns. Accordingly, we expect that we will have lower revenue, operating income and cash flow in the first and fourth quarters and higher revenue, operating income and cash flow in the second and third quarters. These general trends are, however, expected to be greatly influenced by overall economic cycles.

Critical Accounting Policies

Our interim consolidated financial statements have been prepared in conformity with GAAP, which requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our critical accounting policies are disclosed in our Form 10-K for the year ended December 31, 2013.

Recent Accounting Pronouncements

See Note 2, "Summary of Significant Accounting Policies," to our interim consolidated financial statements for additional information relating to recent accounting pronouncements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We earn interest income primarily from cash and cash equivalent balances. Based on our cash and cash equivalents as of September 30, 2014, if interest rates increase or decrease by 1.00%, our interest income will increase or decrease by approximately \$1.8 million annually.

Amounts borrowed under our revolving credit facility currently bear interest at variable rates based on LIBOR plus 1.75% - 2.75% (the spread over LIBOR based on our consolidated leverage ratio). If prevailing LIBOR on any outstanding borrowings under our revolving credit facility were to increase or decrease by 1.00%, the increase or decrease in interest expense on our debt would increase or decrease future earnings and cash flows by approximately \$0.4 million annually, assuming that the amount outstanding under our revolving credit facility was to remain at \$35.0 million, the balance at September 30, 2014.

Item 4. Controls and Procedures

The Chief Executive Officer and Chief Financial Officer of the Trust have evaluated the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as required by paragraph (b) of Rules 13a-15 and 15d-15 under the Exchange Act, and have concluded that as of the end of the period covered by this report, the Trust's disclosure controls and procedures were effective at a reasonable assurance level.

There was no change in the Trust's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act during the Trust's most recent fiscal quarter that materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

PART II

Item 1. Legal Proceedings

We are not involved in any material litigation nor, to our knowledge, is any material litigation threatened against us.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed under the caption “Risk Factors” in the Trust's Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchase of Equity Securities

The following table provides information about our purchases of our common shares during the three months ended September 30, 2014:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans of Programs
July 1, 2014–July 31, 2014	—	\$—	n/a	n/a
August 1, 2014–August 31, 2014	—	\$—	n/a	n/a
September 1, 2014–September 30, 2014	254	\$29.69	n/a	n/a
	254	\$29.69	n/a	n/a

We do not currently have a repurchase plan or program in place. However, we do provide employees who have been granted restricted common shares the option of selling shares to us to satisfy the minimum statutory tax withholding requirements on the date their shares vest. The common shares repurchased during the three months ended September 30, 2014 related to such repurchases.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
