Sincerely,

/s/ Kenneth Bosket
President

This Information Statement is to inform you of the actions taken by the Board of Directors of the Company and approved by the majority shareholders of the Company, on June 11, 2014 and to discuss the purposes and reasons for such actions.

PURPOSES OF AMENDMENT OF CERTIFICATE OF INCORPORATION

Crown Equity Holdings Inc. (the “Company”) was incorporated on August 31, 1995 as “Visioneering Corporation” under the laws of the State of Nevada. The Company provides various consulting services to companies and individuals dealing with corporate structure and operations globally. The Company also provides public relations and news dissemination for publicly and privately held companies.

In 2009, the Company re-focused its primary vision to using its network of websites to provide advertising and marketing services, as a worldwide online media advertising publisher, dedicated to the distribution of quality branding information. The Company offers Internet media-driven advertising services, which cover and connect a wide range of marketing specialties, as well as search engine optimization for clients interested in online media awareness. This allows the Company to disseminate news and press releases for its customers as well as general news and financial information on a much bigger scale than it did previously. The Company markets its services to companies seeking market awareness of them and the services or goods that they offer. The Company then publishes information concerning these companies on its many websites. The Company is paid in cash and/or stock of the customer companies. The Company provides various management services to its clients. The Company has no compensatory plan or arrangements, including payments to be received from the Company, with respect to any executive officer or director, where such plan or arrangement would result in any compensation or remuneration being paid resulting from the resignation, retirement or any other termination of such executive officer's employment or from a change-in-control of the Company or a change in such executive officer's responsibilities following a change-in-control and the amount, including all periodic payments or installments where the value of such compensation or remuneration exceeds \$100,000 per executive officer. AMENDMENT OF ARTICLES OF INCORPORATION

The following are the changes to the Articles of Incorporation which were recommended by the Company's Board of Directors and approved by the shareholder having a majority in interest of the voting power, together with the reasons for such changes:

Change in Authorized Shares of Stock:

The authorized capital structure is being changed. At present, the Company is authorized to issue 4,900,000 shares of common stock having a par value of \$.001 per share and 100,000,000 shares of preferred stock with a par value of \$.001 per share. The Company is implementing a reverse stock split of 2000-to-1 which would reduce its authorized shares to 2,450,000 shares of common stock and 50,000 shares of preferred stock. These numbers are not sufficient for the Company's future plans. Thus, the Company proposes to increase the number of authorized shares post-split to 500,000,000 shares, comprised of 490,000,000 shares of common stock, par value \$.001 and 10,000,000 shares of preferred stock, par value \$.001. The Company is increasing its authorized capitalization in connection with its proposed reverse stock split of 2,000-to-one.

POTENTIAL ANTI-TAKEOVER EFFECT

Although the increased proportion of authorized but unissued shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that could dilute the stock ownership of a person seeking to effect a change in the composition of the Board of Directors or contemplating a tender offer or other transaction for the combination of the Company with another company), the increase in our authorized capital through the increase of the capital stock of the Company is not being undertaken in response to any effort of which the Board of Directors is aware to accumulate shares of the Common Stock or obtain control of the Company. The Board of Directors does not currently contemplate the adoption of any other amendments to the Articles of Incorporation that could be construed to affect the ability of third parties to take over or change the control of the Company.

Authorized but unissued shares of common stock and preferred stock would be available for future issuance without our shareholders' approval. These additional shares may be utilized for a variety of corporate purposes including, but not limited to, future public or direct offerings to raise additional capital, corporate acquisitions and employee incentive plans. The issuance of such shares may also be used to deter a potential takeover of the Company that may otherwise be beneficial to shareholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with the Company's Board of Directors' desires at that time. A takeover may be beneficial to shareholders because, among other reasons, a potential suitor may offer shareholders a premium for their shares of stock compared to the then-existing market price. Management may also use additional shares of the Company's stock, either common or preferred, to resist or frustrate a third party transaction which may offer an above-market premium which would be favored by a majority of independent stockholders.

Purpose of Increasing the Company's Authorized Shares of Common Stock

General Corporate Purposes

The Company's directors believe that it is desirable to have additional authorized shares of common stock available for other possible future financings, possible future acquisitions, stock dividends, stock splits and other general corporate purposes. The Company's directors believe that having such additional authorized shares of common stock available for issuance in the future should give the Company greater flexibility and may allow such shares to be issued without the expense and delay of a special shareholders' meeting. Although such issuance of additional shares with respect to future financings and acquisitions would dilute existing shareholders, management believes that such transactions would increase the value of the Company to its shareholders.

At the present time, the Company has no plans, proposals or arrangements to enter into a merger, consolidation, acquisition or similar business transaction.

Reverse Stock Split

The Company's Board of Directors has approved a 2,000-for-one reverse stock split. On May 1, 2014, new rules were implemented that require the Company's common stock to have a minimum bid price of \$0.01 in order to remain on the OTC Bulletin Board. The Company believes that implementing the reverse stock split will result in the market price of its common stock being above \$0.01 with the result that the Company's common stock will resume trading on the OTC Bulletin Board.

No fractional shares will be issued. The Company will round up any fractional shares resulting from the reverse split to the nearest whole share.

Advantages and Disadvantages of Increasing Authorized Shares

There are certain advantages and disadvantages of voting for an increase in the Company's authorized common stock.

The advantages include:

The ability to raise capital by issuing capital stock under the transaction described above, or other financing transactions.

To have shares of common stock available to pursue business expansion opportunities, if any.

The disadvantages include:

Dilution to the existing shareholders, including a decrease in our net income per share in future periods. This could cause the market price of our stock to decline.

The issuance of authorized but unissued stock could be used to deter a potential takeover of the Company that may otherwise be beneficial to shareholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with the desires of the Company's Board of Directors, at that time. A takeover may be beneficial to independent shareholders because, among other reasons, a potential suitor may offer such shareholders a premium for their shares of stock compared to the then-existing market price. The Company does not have any plans or proposals to adopt provisions or enter into agreements that may have material anti-takeover consequences.
