PROSPECTIVE INFORMATION	

A number of the matters and subject areas discussed in this Form 10-Q contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be identified by the use of forward-looking words or phrases such as "anticipate," "believe," "would," "expect," "intend," "may," "planned," "potential," "will," and "could," or the negative of these terms or words of similar meaning. These statements include expected future financial results, product offerings, global expansion, liquidity needs, financing ability, planned capital expenditures, management's or the Company's expectations and beliefs, and similar matters discussed in this Form 10-Q. The discussions of such matters and subject areas are qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from the Company's actual future experience.

The Company's business, operations and financial performance are subject to certain risks and uncertainties, which could result in material differences in actual results from the Company's current expectations. These risks and uncertainties include, but are not limited to, general economic conditions, in particular relating to the automotive industry, consumer demand for the Company's and its customers' products, competitive and technological developments, customer purchasing actions, changes in warranty provisions and customers' product recall policies, foreign currency fluctuations, costs of operations, the volume and scope of product returns and warranty claims and other matters described in the section titled "Risk Factors" in the Company's Form 10-K report filed on September 4, 2015 with the Securities and Exchange Commission for the year ended June 28, 2015.

Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The

forward-looking statements made herein are only made as of the date of this Form 10-Q and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances occurring after the date of this Form 10-Q.

STRATTEC SECURITY CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

Basis of Financial Statements

STRATTEC SECURITY CORPORATION designs, develops, manufactures and markets automotive access control products including mechanical locks and keys, electronically enhanced locks and keys, steering column and instrument panel ignition lock housings, latches, power sliding door systems, power lift gate systems, power deck lid systems, door handles and related products for primarily North American automotive customers. We also supply global automotive manufacturers through a unique strategic relationship with WITTE Automotive (“WITTE”) of Velbert, Germany, and ADAC Automotive (“ADAC”) of Grand Rapids, Michigan. Under this relationship, STRATTEC, WITTE and ADAC market the products of each company to global customers under the “VAST” brand name. STRATTEC products are shipped to customer locations in the United States, Canada, Mexico, Europe, South America, Korea, China and India, and we provide full service and aftermarket support for our products. We also maintain a 51 percent interest in a joint venture, STRATTEC Advanced Logic LLC, which exists to introduce a new generation of biometric security products based on the designs of Actuator Systems, our partner and the owner of the remaining ownership interest.

The accompanying condensed consolidated financial statements reflect the consolidated results of STRATTEC SECURITY CORPORATION, its wholly owned Mexican subsidiary, STRATTEC de Mexico, and its majority owned subsidiaries, ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC. STRATTEC SECURITY CORPORATION is located in Milwaukee, Wisconsin. STRATTEC de Mexico is located in Juarez, Mexico. ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC have operations in El Paso, Texas and Juarez, Mexico. Equity investments in Vehicle Access Systems Technology LLC (“VAST LLC”) and STRATTEC Advanced Logic, LLC (“SAL LLC”) for which we exercise significant influence but do not control and are not the primary beneficiary, are accounted for using the equity method. VAST LLC consists primarily of three wholly owned subsidiaries in China, one wholly owned subsidiary in Brazil and one joint venture entity in India. SAL LLC is located in El Paso, Texas. We have only one reporting segment.

In the opinion of management, the accompanying condensed consolidated balance sheets as of March 27, 2016 and June 28, 2015, which has been derived from our audited financial statements, and the related unaudited interim condensed consolidated financial statements included herein contain all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and in accordance with Rule 10-01 of Regulation S-X. All significant intercompany transactions have been eliminated.

Interim financial results are not necessarily indicative of operating results for an entire year. The information included in this Form 10-Q should be read in conjunction with Management’s Discussion and Analysis and the financial statements and notes thereto included in the STRATTEC SECURITY CORPORATION 2015 Annual Report, which was filed with the Securities and Exchange Commission as an exhibit to our Form 10-K on September 4, 2015.

New Accounting Standards

In May 2014, the FASB issued an update to the accounting guidance for the recognition of revenue arising from contracts with customers. The update supersedes most current revenue recognition guidance and outlines a single comprehensive model for revenue recognition based on the principle that an entity should recognize revenue in an amount that reflects the expected consideration to be received in the exchange of goods and services. The guidance update also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The guidance update is effective for annual reporting periods beginning after December 15, 2017 and becomes effective for us at the beginning of our 2019 fiscal year. We are currently assessing the impact that this guidance will have on our condensed consolidated financial statements.

In August 2014, the FASB issued an update to the accounting guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new guidance requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. This accounting update is effective for annual and interim periods beginning on or after December 15, 2016, with early adoption permitted. We do not expect that the adoption of this pronouncement will have a material impact on our condensed consolidated financial statements.

In February 2015, the FASB issued an update to the accounting guidance that amends current consolidation guidance by modifying the evaluation of whether limited partnerships and similar legal entities are variable interest entities or voting interest entities, eliminating the presumption that a general partner should consolidate a limited partnership, and affects the consolidation analysis of reporting entities that are involved with variable interest entities. The update is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of this pronouncement has not had a material impact on our condensed consolidated financial statements.

In July 2015, the FASB issued an accounting standard to simplify the measurement of inventory by changing the subsequent measurement guidance from the lower of cost or market to the lower of cost and net realizable value for inventory. The standard update is effective for fiscal years beginning after December 15, 2016 and interim periods within those years, and early adoption is permitted. The standard is to be applied prospectively. We do not expect that the adoption of this pronouncement will have a material impact on our condensed consolidated financial statements.

In November 2015, the FASB issued an update to an accounting standard to simplify the presentation of deferred income taxes by requiring that deferred tax assets and liabilities be classified as non-current in a classified statement of financial position, which would be a change from our historical presentation whereby certain of our deferred tax assets and liabilities were classified as current and the remainder were classified as non-current. The standard update is effective for fiscal years beginning after December 15, 2016 and interim periods within those years, and early adoption is permitted. The standard is to be applied either prospectively to all deferred tax assets and liabilities or retrospectively to all periods presented. We do not expect that the adoption of this pronouncement will have a material impact on our condensed consolidated financial statements.

In February 2016, the FASB issued an update to an accounting guidance for leases. The update increases the transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and to disclose key information about leasing arrangements. The guidance is effective for fiscal years beginning after December 15, 2018 and interim periods within those years. We are currently assessing the impact that this guidance will have on our condensed consolidated financial statements.

In March 2016, the FASB issued an update to an accounting guidance for share-based payments. The update simplifies several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification of such items in the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2016 and interim periods within those years. We are currently assessing the impact that this guidance will have on our condensed consolidated financial statements.

Subsequent Event

Effective April 27, 2016, the ADAC STRATTEC Credit Facility, as discussed under Credit Facilities and Guarantees herein, was amended to increase available borrowings under the facility from \$10 million to \$20 million. The amended credit facility expires August 1, 2019. Under the terms of the amended credit agreement, a capital contribution to ADAC-STRATTEC LLC of \$6 million collectively from STRATTEC and ADAC is required to be completed by September 30, 2016. STRATTEC's portion of the required capital contribution will be \$3.06 million.

Derivative Instruments

We own and operate manufacturing operations in Mexico. As a result, a portion of our manufacturing costs are incurred in Mexican pesos, which causes our earnings and cash flows to fluctuate due to changes in the U.S. dollar/Mexican peso exchange rate. As of March 27, 2016, we have executed contracts with Bank of Montreal that provide for bi-weekly and monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs. The current peso currency forward contracts include settlement dates that began on October 16, 2015 and end on June 15, 2017. No forward contracts were in place during fiscal 2015 or outstanding as of June 28, 2015. Our objective in entering into these currency forward contracts is to minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Mexican peso forward contracts are not used for speculative purposes and are not designated as hedges. As a result, all currency forward contracts are recognized in our accompanying condensed consolidated financial statements at fair value and changes in the fair value are reported in current earnings as part of Other Income, net.

Edgar Filing: STRATTEC SECURITY CORP - Form 10-Q

The following table quantifies the outstanding Mexican peso forward contracts as of March 27, 2016 (thousands of dollars, except average forward contractual exchange rates):

	Effective Dates	Notional Amount	Average Forward Contractual Exchange Rate	Fair Value
Buy MXP/Sell USD	January 5, 2016 - June 21, 2016	\$4,500	16.00	\$(436)
Buy MXP/Sell USD	July 15, 2016 - June 15, 2017	\$24,000	17.95	\$(164)

The fair market value of all outstanding Mexican peso forward contracts in the accompanying Condensed Consolidated Balance Sheets was as follows (thousands of dollars):

	March 27, 2016	June 28, 2015
Not Designated as Hedging Instruments:		
Other Current Liabilities:		
Mexican Peso Forward Contracts	\$ 600	\$ —

The pre-tax effects of the Mexican peso forward contracts are included in Other Income, net on the accompanying Condensed Consolidated Statements of Operations and Comprehensive Income and consisted of the following (thousands of dollars):

Fair Value of Financial Instruments

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and borrowings under our credit facility approximated book value as of March 27, 2016 and June 28, 2015. Fair value is defined as the exchange

price that would be received for an asset or paid for a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of March 27, 2016 (in thousands):

The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan and are included in Other Long-term Assets in the accompanying Condensed Consolidated Balance Sheets. Refer to discussion of Mexican peso forward contracts under Derivative Instruments above. The fair value of the Mexican peso forward contracts considers the remaining term, current exchange rate, and interest rate differentials between the two currencies. There were no transfers between Level 1 and Level 2 assets during the nine month period ended March 27, 2016.

Equity (Loss) Earnings of Joint Ventures

We hold a one-third interest in a joint venture company, VAST LLC, with WITTE and ADAC. VAST LLC exists to seek opportunities to manufacture and sell all three companies' products in areas of the world outside of North America and Europe. Our investment in VAST LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, is accounted for using the equity method.

The following are summarized statements of operations for VAST LLC (in thousands):

During 2013, we acquired a 51% ownership interest in a newly formed joint venture company, SAL LLC, which was formed to introduce a new generation of biometric security products based upon the designs of Actuator Systems LLC, our partner and the owner of the remaining ownership interest. SAL LLC had a \$1.5 million revolving credit facility (the "SAL Credit Facility") with BMO Harris Bank N.A., which was fully guaranteed by STRATTEC. The SAL Credit Facility had a maturity date of February 16, 2016. Outstanding borrowings under the SAL Credit Facility as of February 16, 2016 and June 28, 2015 totaled \$1.5 million and \$995,000, respectively. SAL LLC did not have cash available to pay the outstanding debt balance as of the maturity date. Therefore, STRATTEC made a payment of \$1.5

million on its guarantee on February 16, 2016. SAL LLC is considered a variable interest entity based on the STRATTEC guarantee. STRATTEC is not the primary beneficiary and does not control the entity. Accordingly, our investment in SAL LLC is accounted for using the equity method. Prior to making the guarantee payment, STRATTEC had a recorded liability related to the guarantee of \$1.5 million and \$995,000 at February 16, 2016 and June 28, 2015, respectively, which amounts were equal to the estimated fair value of the guarantee as of these dates. As of June 28, 2015, the guarantee liability was included in Other Current Liabilities in the accompanying Condensed Consolidated Balance Sheets. STRATTEC's proportionate share of the guarantee based on our ownership percentage in SAL LLC totaled \$765,000 and \$507,000, respectively, as of February 16, 2016 and June 28, 2015, and accordingly, our investment in SAL LLC included these amounts as of these dates. Our joint venture partner did not guarantee their proportionate share of the SAL Credit Facility. As a result, we recorded a loss equal to our partner's proportionate share of the fair value of the STRATTEC guarantee based upon our partner's ownership interest in the joint venture of \$488,000 during fiscal 2015 and \$247,000 during the nine months ended March 27, 2016.

SAL LLC maintains a license agreement with Westinghouse allowing SAL LLC to do business as Westinghouse Security. Payments due Westinghouse under the license agreement were guaranteed by STRATTEC. As of March 27, 2016 and June 28, 2015, STRATTEC has a recorded liability equal to the estimated fair value of the future payments due under this guarantee of \$250,000. The liability is included in Other Long-term Liabilities in the accompanying Condensed Consolidated Balance Sheets. STRATTEC's proportionate share of the guarantee of these payments based on our ownership percentage in SAL LLC totals \$127,000, and accordingly, our investment in SAL LLC as of March 27, 2016 and June 28, 2015 included this amount. Our joint venture partner did not guarantee their proportionate share of the payments required under the license agreement. As a result, we recorded a loss of \$123,000 during the fourth quarter of fiscal 2015 which was equal to our partner's proportionate share, based upon their ownership interest in the joint venture, of the fair value of the STRATTEC guarantee.

During fiscal 2015 and during the nine months ended March 27, 2016, loans were made from STRATTEC to SAL LLC in support of operating expenses and working capital needs. The outstanding loan amounts totaled \$250,000 and \$100,000 as of March 27, 2016 and June 28, 2015, respectively. A valuation reserve of \$250,000 and \$100,000 was recorded on STRATTEC's financial statements as of March 27, 2016 and June 28, 2015, respectively, in connection with these loans. The corresponding loss related to this valuation reserve was included in Equity (Loss) Earnings of Joint Ventures in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income in each respective period.

Notwithstanding the existence of the SAL Credit Facility described herein, as a result of STRATTEC's guarantee of such credit facility and as a result of borrowing limitations imposed by the bank under such credit facility, effective with our fiscal 2015 fourth quarter, 100 percent of the funding for SAL LLC was being made by STRATTEC through loans and guarantees. Therefore, effective with our fiscal 2015 fourth quarter, STRATTEC began recognizing 100 percent of the losses of SAL LLC through Equity (Loss) Earnings of Joint Ventures in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income.

Warranty

We have a warranty liability recorded related to our known and potential exposure to warranty claims in the event our products fail to perform as expected, and in the event we may be required to participate in the repair costs incurred by our customers for such products. During the nine month period ended March 27, 2016, the warranty liability was reduced by approximately \$2.05 million as a result of the settlement of a previously accrued customer warranty issue.

Credit Facilities and Guarantees

STRATTEC has a \$30 million secured revolving credit facility (the “STRATTEC Credit Facility”) with BMO Harris Bank N.A. As of March 27, 2016, ADAC-STRATTEC LLC had a \$10 million secured revolving credit facility (the “ADAC-STRATTEC Credit Facility”) with BMO Harris Bank N.A. Effective April 27, 2016, the ADAC-STRATTEC Credit Facility was amended to increase the available borrowings under the credit facility from \$10 million to \$20 million. The ADAC-STRATTEC Credit Facility is guaranteed by STRATTEC. Refer to discussion under Subsequent Events included herein. The STRATTEC credit facility expires August 1, 2018. The amended ADAC-STRATTEC Credit Facility expires August 1, 2019. Borrowings under either credit facility are secured by our cash balances, accounts receivable, inventory and fixed assets located in the U.S. Interest on borrowings under both credit facilities is at varying rates based, at our option, on the London Interbank Offering Rate (“LIBOR”) plus 1.0 percent or the bank’s prime rate. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. As of March 27, 2016, we were in compliance with all financial covenants.

Outstanding borrowings under the credit facilities were as follows (in thousands):

	March 27, 2016	June 28, 2015
STRATTEC Credit Facility	\$14,500	\$7,000
ADAC-STRATTEC Credit Facility	\$3,500	\$3,000

Average outstanding borrowings and the weighted average interest rate under each credit facility referenced above were as follows for each period presented (in thousands):

	Nine Months Ended		Average Outstanding Borrowings		Average Interest Rate	
	March 27, 2016	March 29, 2015	March 27, 2016	March 29, 2015	March 27, 2016	March 29, 2015
STRATTEC Credit Facility	\$ 9,670	\$ 718	1.7	%	1.2	%
ADAC-STRATTEC Credit Facility	\$ 3,104	\$ 3,700	1.4	%	1.2	%

SAL LLC had a \$1.5 million revolving credit facility (the “SAL Credit Facility”) with BMO Harris Bank N.A., which was fully guaranteed by STRATTEC. Interest on borrowings under the SAL Credit Facility was at varying rates based, at SAL LLC’s option, on LIBOR plus 1.0 percent or the bank’s prime rate. The SAL Credit Facility had a maturity date of February 16, 2016. Outstanding borrowings under the SAL Credit Facility as of the maturity date totaled \$1.5 million. SAL LLC did not have cash available to pay the outstanding debt balance as of the maturity date. Therefore, STRATTEC made a payment of \$1.5 million on the guarantee on February 16, 2016.

SAL LLC maintains a license agreement with Westinghouse allowing SAL LLC to do business as Westinghouse Security. STRATTEC guaranteed all payments due Westinghouse under this license agreement. As of March 27, 2016, STRATTEC has a recorded liability related to this guarantee of \$250,000, which amount is equal to the amount of future payments required under the license agreement and the estimated fair value of the guarantee as of March 27, 2016. See further discussion under Equity (Loss) Earnings of Joint Ventures included herein.

Commitments and Contingencies

We are from time to time subject to various legal actions and claims incidental to our business, including those arising out of alleged defects, alleged breaches of contracts, product warranties, intellectual property matters and employment related matters. It is our opinion that the outcome of such matters will not have a material adverse impact our consolidated financial position, results of operations or cash flows. With respect to warranty matters, although we cannot ensure that future costs of warranty claims by customers will not be material, we believe our established reserves are adequate to cover potential warranty settlements.

On March 17, 2016, ADAC STRATTEC de Mexico (ASdM), a wholly owned subsidiary of ADAC-STRATTEC LLC, which is a joint venture between STRATTEC SECURITY CORPORATION and ADAC Automotive, purchased land in Leon, Mexico. ASdM intends to construct a new manufacturing facility on this land in the mid-Mexico area. This facility is expected to be used primarily to paint and assemble door handle products. Currently, the ADAC-STRATTEC LLC joint venture has net sales of approximately \$60 million. With newly awarded customer business, we anticipate net sales will increase to approximately \$120 million within the next two years. Total capital expenditures required for the land, facility, paint system, and assembly equipment is expected to total approximately \$22 million. We anticipate financing the required capital expenditures through a combination of partner capital contributions, bank loans, and current operating cash flow.

In 1995, we recorded a provision of \$3 million for estimated costs to remediate an environmental contamination site at our Milwaukee facility. The facility was contaminated by a solvent spill, which occurred in 1985, from a former above ground solvent storage tank located on the east side of the facility. The reserve was originally established based on third party estimates to adequately cover the cost for active remediation of the contamination. Due to changing technology and related costs associated with active remediation of the contamination, an updated analysis and estimate was obtained during fiscal 2010. As a result of this analysis, the reserve was reduced by approximately \$1.1 million, to \$1.5 million in 2010, to reflect the revised monitoring and remediation cost estimate. From 1995 through March 27, 2016, costs of approximately \$507,000 have been incurred related to the installation of monitoring wells on the property and ongoing monitoring costs. We continue to monitor and evaluate the site with the use of these groundwater monitoring wells. An environmental consultant samples these wells one or two times a year to determine the status of the contamination and the potential for remediation of the contamination by natural attenuation, the dissipation of the contamination over time to concentrations below applicable standards. If such sampling evidences a sufficient degree of and trend toward natural attenuation of the contamination at the site, we may be able to obtain a closure letter from the regulatory authorities resolving the issue without the need for active remediation. If a sufficient degree and trend toward natural attenuation is not evidenced by sampling, a more active form of remediation beyond natural attenuation may be required. The sampling has not yet satisfied all of the requirements for closure by natural attenuation. As a result, sampling continues and the reserve remains at an amount to reflect the estimated cost of active remediation. The reserve is not measured on a discounted basis. We believe, based on findings-to-date and known environmental regulations, that the remaining environmental reserve of \$1.4 million at March 27, 2016 is adequate.

Other Income, net

Net other income included in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income primarily included foreign currency transaction gains and losses, realized and unrealized losses on peso forward contracts and Rabbi Trust gains and losses. Foreign currency transaction gains and losses resulted from activity associated with foreign denominated assets held by our Mexican subsidiaries. We entered into the Mexican Peso currency forward contracts to minimize earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in this Trust are considered trading securities.

The impact of these items for each of the periods presented was as follows (in thousands):

Income Taxes

The income tax provisions for the three and nine month periods ended March 27, 2016 were impacted by a larger portion of our pre-tax income being attributed to the non-controlling interest during each period as compared to the corresponding prior year periods as well as an increase in income subject to tax in foreign taxing jurisdictions, which have lower statutory rates than in the U.S. The non-controlling interest impacts the effective tax rate as the ADAC-STRATTEC LLC and STRATTEC POWER ACCESS LLC entities are taxed as partnerships for U.S. tax purposes. Our income tax provision for the three and nine month periods ended March 29, 2015, included a reduction in our liability for unrecognized tax benefits and related interest of approximately \$936,000. The nine month period ended March 27, 2016 did not include an adjustment to our liability for unrecognized tax benefits.

Earnings Per Share (EPS)

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the applicable period. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the potential dilutive common shares outstanding during the applicable period using the treasury stock method. Potential dilutive common shares include outstanding stock options and unvested restricted stock awards.

A reconciliation of the components of the basic and diluted per-share computations follows (in thousands, except per share amounts):

	Three Months Ended March		Nine Months Ended March	
	27, 2016	29, 2015	27, 2016	29, 2015
Net Income Attributable to STRATTEC SECURITY

Less: Income Attributable to Participating Securities	12	53	54	244
Net Income Attributable to Common Shareholders	\$1,877	\$4,323	\$8,511	\$19,210
Basic Weighted Average Shares of Common Stock				
Outstanding	3,565	3,520	3,557	3,511
Incremental Shares – Stock based Compensation	54	83	63	92
Diluted Weighted Average Shares of Common Stock				
Outstanding	3,619	3,603	3,620	3,603
Basic Earnings Per Share	\$0.53	\$1.23	\$2.39	\$5.47
Diluted Earnings Per Share	\$0.52	\$1.20	\$2.35	\$5.33

We consider unvested restricted stock that provides the holder with a non-forfeitable right to receive dividends to be a participating security.

As of March 27, 2016 and as of March 29, 2015, options to purchase 9,010 shares of common stock were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.

Stock-based Compensation

We maintain an omnibus stock incentive plan. This plan provides for the granting of stock options, shares of restricted stock and stock appreciation rights. As of March 27, 2016, the Board of Directors had designated 1,850,000 shares of common stock available for the grant of awards under the plan. Remaining shares available to be granted under the plan as of March 27, 2016 were 229,489. Awards that expire or are canceled without delivery of shares become available for re-issuance under the plan. We issue new shares of common stock to satisfy stock option exercises.

Nonqualified and incentive stock options and shares of restricted stock have been granted to our officers, outside directors and specified employees under our stock incentive plan. Stock options granted under the plan may not be issued with an exercise price less than the fair market value of the common stock on the date the option is granted. Stock options become exercisable as determined at the date of grant by the Compensation Committee of the Board of Directors. The options expire 10 years after the grant date unless an earlier expiration date is set at the time of grant. The options generally vest 1 to 4 years after the date of grant. Shares of restricted stock granted under the plan are subject to vesting criteria determined by the Compensation Committee of the Board of Directors at the time the shares are granted and have a minimum vesting period of three years from the date of grant. Restricted shares granted have voting rights, regardless if the shares are vested or unvested. Restricted shares granted prior to August 2014 have dividend rights, regardless if the shares are vested or unvested. Commencing in August 2014 and thereafter, shares of restricted stock awarded to participants are not entitled to receive any cash dividends if they are unvested as of the record date. The restricted stock grants issued to date vest 3 to 5 years after the date of grant.

The fair value of each stock option grant was estimated as of the date of grant using the Black-Scholes pricing model. The resulting compensation cost for fixed awards with graded vesting schedules is amortized on a straight line basis over the vesting period for the entire award. The fair value of each restricted stock grant was based on the market price of the underlying common stock as of the date of grant. The resulting compensation cost is amortized on a straight line basis over the vesting period.

A summary of stock option activity under our stock incentive plan for the nine months ended March 27, 2016 was as follows:

			Weighted

No options were granted during the nine month period ended March 27, 2016. The grant date fair value and assumptions used to determine compensation expense for the options granted during the nine month period ended March 29, 2015 were as follows:

Weighted Average Grant Date Fair Value:	
Options Issued at Grant Date Market Value	n/a
Options Issued Above Grant Date Market Value	\$34.93
Assumptions:	
Risk Free Interest Rate	1.90 %
Expected Volatility	57.83 %

Forfeited	(2,250)	\$ 60.85
Nonvested Balance, March 27, 2016	72,550	\$ 60.02

As of March 27, 2016, there was \$221,971 of total unrecognized compensation cost related to outstanding stock options granted under our omnibus stock incentive plan. This cost is expected to be recognized over a remaining weighted average period of 0.6 years. As of March 27, 2016, there was approximately \$2.1 million of total unrecognized compensation cost related to unvested restricted stock grants outstanding under the plan. This cost is expected to be recognized over a remaining weighted average period of 1.2 years. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures of awards granted under our omnibus stock incentive plan.

Pension and Postretirement Benefits

We have a qualified, noncontributory defined benefit pension plan (“Qualified Pension Plan”) covering substantially all U.S. associates. Benefits are based on years of service and final average compensation. Our policy is to fund at least the minimum actuarially computed annual contribution required under the Employee Retirement Income Security Act of 1974 (ERISA). Plan assets consist primarily of listed equity and fixed income securities. Effective December 31, 2009, an amendment to the Qualified Pension Plan discontinued the benefit accruals for salary increases and credited service rendered after that date. On April 2, 2014, our Board of Directors approved a resolution to terminate the Qualified Pension Plan. The termination of the Qualified Pension Plan is subject to the Internal Revenue Service’s (“IRS”) determination that the Qualified Pension Plan is qualified on termination. We believe it will take 18 to 24 months to finalize the complete termination of the Qualified Pension Plan after obtaining IRS approval. We have not yet received IRS approval that the qualified plan is qualified on termination. Additionally, we have amended the Qualified Pension Plan to provide that participants are 100 percent vested in their accrued benefits as of the effective date of the plan termination, to adopt a new standard for disability benefits that will apply when the plan’s assets are distributed due to the termination, to add a lump sum distribution for employees and terminated vested participants who are not in payment status when Qualified Pension Plan assets are distributed due to the termination and to make certain other conforming amendments to the Qualified Pension Plan to comply with applicable laws that may be required by the IRS or may be deemed necessary or advisable to improve the administration of the Qualified Pension

Plan or facilitate its termination and liquidation. We also intend to make contributions to the Trust Fund for the Qualified Pension Plan to ensure that there are sufficient assets to provide all Qualified Pension Plan benefits as of the anticipated distribution date. The financial impact of the plan termination will be recognized as a settlement of the Qualified Pension Plan liabilities. The settlement date and related financial impact have not yet been determined.

We have historically had in place a noncontributory supplemental executive retirement plan (“SERP”), which prior to January 1, 2014 was a nonqualified defined benefit plan that essentially mirrored the Qualified Pension Plan, but provided benefits in excess of certain limits placed on our Qualified Pension Plan by the Internal Revenue Code. We froze our Qualified Pension Plan effective as of December 31, 2009 and the SERP provided benefits to participants as if the Qualified Pension Plan had not been frozen. Because the Qualified Pension Plan was frozen and because new employees were not eligible to participate in the Qualified Pension Plan, our Board of Directors adopted amendments to the SERP on October 8, 2013 that were effective as of December 31, 2013 to simplify the SERP calculation. The SERP is funded through a Rabbi Trust with BMO Harris Bank N.A. Under the amended SERP, participants received an accrued lump-sum benefit as of December 31, 2013 which was credited to each participant’s account. Subsequent to December 31, 2013, each eligible participant receives a supplemental retirement benefit equal to the foregoing lump sum benefit, plus an annual benefit accrual equal to 8 percent of the participant’s base salary and cash bonus, plus annual credited interest on the participant’s account balance. All then current participants as of December 31, 2013 are fully vested in their account balances with any new individuals participating in the SERP effective on or after January 1, 2014 being subject to a five year vesting period. The SERP, which is considered a defined benefit plan under applicable rules and regulations of the Internal Revenue Code, will continue to be funded through use of a Rabbi Trust to hold investment assets to be used in part to fund any future required lump sum benefit payments to participants. The foregoing amendments to the SERP did not have a material effect on our financial statements. The Rabbi Trust assets had a value of \$2.2 million at March 27, 2016 and \$2.3 million at June 28, 2015, respectively, and are included in Other Long-Term Assets in the accompanying Condensed Consolidated Balance Sheets.

We also sponsor a postretirement health care plan for all U.S. associates hired prior to June 1, 2001. The expected cost of retiree health care benefits is recognized during the years the associates who are covered under the plan render service. Effective January 1, 2010, an amendment to the postretirement health care plan limited the benefit for future eligible retirees to \$4,000 per plan year and is subject to a maximum five year coverage period based on the associate's retirement date and age. The postretirement health care plan is unfunded.

Net periodic benefit costs under these plans are allocated between Cost of Goods Sold and Engineering, Selling and Administrative Expenses in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income.

The following tables summarize the net periodic benefit cost recognized for each of the periods indicated under these plans (in thousands):
