EXPLANATORY NOTE

This Amendment No. 1 on Form 10-Q/A (this “Amendment No. 1”) amends the Quarterly Report on Form 10-Q of Altra Industrial Motion Corp. for the three and nine months ended September 30, 2018, as filed by the registrant on November 7, 2018 (the “Original Filing”). The sole purpose of this Amendment No. 1 is to correct Item 6 that inadvertently omitted certain exhibit descriptions as part of the Edgarization process. No other changes have been made to the Form 10-Q. This Amendment No. 1 to the Form 10-Q speaks as of the original filing date of the Form 10-Q, does not reflect events that may have occurred subsequent to the original filing date, and does not modify or update in any way disclosures made in the original Form 10-Q.

ALTRA INDUSTRIAL MOTION CORP.

Notes to Unaudited Condensed Consolidated Interim Financial Statements

Amounts in thousands, unless otherwise noted

1. Organization and Nature of Operations

Headquartered in Braintree, Massachusetts, Altra Industrial Motion Corp. (the “Company”, “Altra”, “we”, or “our”) is a premier industrial manufacturer of highly engineered power transmission, motion control and engine braking systems and components. Altra’s portfolio consists of 27 well-respected brands including Bauer Gear Motor, Boston Gear, Jacobs Vehicle Systems, Kollmorgen, Portescap, Stromag, Svendborg Brakes, TB Wood’s, Thomson, and Warner Electric. Altra has approximately 9,300 employees and over 50 production facilities in sixteen countries around the world.

2. Basis of Presentation

The Company’s unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting principles in the United States, or GAAP. These statements should be read in conjunction with the financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017, filed with the U.S. Securities and Exchange Commission (the “SEC”) on February 23, 2018. In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary to present fairly the Company’s financial position for the interim periods presented, and cash flows for the interim periods presented. The results are not necessarily indicative of future results. The Company considers events or transactions that occur after the balance sheet date but before the financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure.

3. Recent Accounting Standards

Recent Accounting Pronouncements

On December 22, 2017, Staff Accounting Bulletin No. 118 (“SAB 118”) was issued to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Cuts and Jobs Act (the “2017 U.S. Tax Act”). The ultimate impact of the U.S. Tax Act may differ from this estimate, possibly

materially, due to changes in interpretations and assumptions, and guidance that may be issued and actions we may take in response to the 2017 U.S. Tax Act. The 2017 U.S. Tax Act is highly complex and we will continue to assess the impact that various provisions will have on our business. Any subsequent adjustment to these amounts will be recorded to current tax expense in the period when the analysis is complete.

As of September 30, 2018, the Company has not completed the accounting for the tax effects of enactment of the 2017 U.S. Tax Act; however, the Company has made a reasonable estimate of the effects on its existing deferred tax balances, the one-time transition tax and provisional state taxes on future repatriations. For the items for which the Company was able to determine a reasonable estimate, the Company recognized a provisional amount of \$7.4 million under SAB 118 as a component of income tax expense in the year ended December 31, 2017.

In August 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities (“ASU 2017-12”). This ASU provides new guidance about income statement classification and eliminates the requirement to separately measure and report hedge ineffectiveness. The entire change in fair value for qualifying hedge instruments included in assessment of hedge effectiveness will be recorded in other comprehensive income and amounts deferred in other comprehensive income will be reclassified to earnings in the same income statement line item in which the earnings effect of the hedged item is reported. The guidance will be effective for interim and annual periods for the Company on January 1, 2019, with early adoption permitted. The Company does not expect the adoption of ASU 2017-12 to have a material impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) (“ASU 2016-02”), which will require, among other items, lessees to recognize a right-of-use asset and lease liability for most leases. The standard also requires lessees and lessors to disclose the amount, timing and uncertainty of cash flows arising from leases. ASU 2016-02 is effective for periods beginning after January 1, 2019, (with early adoption permitted), and it also provides for certain practical expedients that we plan to elect. In July 2018, the FASB issued ASU 2018-11, Leases (Topic 842), Targeted Improvements, which provides an additional transition method that allows the initial application of the lease standard at the adoption date using a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The Company will adopt this standard as of January 1, 2019 utilizing the new transition

ALTRA INDUSTRIAL MOTION CORP.

method. We are in the process of assessing the impact of the standard and designing related internal control procedures. Based on our efforts to date, we expect to recognize a significant lease obligation upon adoption.

Recently Adopted Accounting Standards

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders' equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders' equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. This final rule is effective on November 5, 2018. The Company is in the process of evaluating the impact of the final rule on its consolidated financial statements.

On January 1, 2018, the Company adopted ASU 2014-09, Revenue from Contracts with Customers ("Topic 606") ("ASU 2014-09") and all the related amendments using the modified retrospective approach. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods, which has been discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

The Company recognizes revenue under the core principle of depicting the transfer of control to the Company's customers in an amount reflecting the consideration to which the Company expects to be entitled. In order to achieve that core principle, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when a performance obligation is satisfied.

Our sales revenue for product sales is recognized based on a point in time model, at the point control transfers to our customers, which is generally when products are shipped from our manufacturing facilities or when products are delivered to the customer's named location. When the Company performs shipping and handling activities after the transfer of control to the customer (e.g., when control transfers prior to delivery), such activities are considered as fulfillment activities and, accordingly, the costs are accrued for when the related revenue is recognized. Taxes collected from customers relating to product sales and remitted to governmental authorities are excluded from revenues. See Note 4 Revenue Recognition for further disclosures and detail regarding revenue.

The adoption of ASU 2014-09 was not material to the Company and, as such, there was no cumulative effect upon the January 1, 2018 adoption date. As the impact of the new revenue standard is not material to the Company, there is no impact disclosure presented as of and for the quarter ended September 30, 2018.

In March 2017, the FASB issued ASU 2017-07, Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost (“ASU 2017-07”). ASU 2017-07 changes the income statement presentation of defined benefit and post-retirement benefit plan expense by requiring separation between operating expense (service cost component of net periodic benefit expense) and non-operating expense (all other components of net periodic benefit expense, including but not limited to interest cost, amortization of prior service cost, curtailments and settlements, etc.). ASU 2017-07 became effective for interim and annual periods for the Company on January 1, 2018. The operating expense component is reported with similar compensation costs while the non-operating components are reported outside of operating income. The Company adopted ASU 2017-07 in the first quarter of 2018 using a retrospective transition method. The impact of the adoption was immaterial for the three and nine months ended September 30, 2017. The financial statements for the nine months ended September 30, 2018 include the impact of the adoption.

4. Revenue Recognition

The following disclosure represents the Company’s effort to enable users to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers in accordance with ASU 2014-09. The Company operates through three business segments that are aligned with key product types and end markets served:

◆ **Couplings, Clutches & Brakes.** Couplings are the interface between two shafts, which enable power to be transmitted from one shaft to the other. Clutches in this segment are devices that use mechanical, hydraulic, pneumatic, or friction type connections to facilitate engaging or disengaging two rotating members. Brakes are combinations of interacting parts

that work to slow or stop machinery. Products in this segment are generally used in heavy industrial applications and energy markets.

Electromagnetic Clutches & Brakes. Products in this segment include brakes and clutches that are used to electronically slow, stop, engage or disengage equipment utilizing electromagnetic friction type connections. Products in this segment are used in industrial and commercial markets including agricultural machinery, material handling, motion control, and turf & garden.

Gearing. Gears are utilized to reduce the speed and increase the torque of an electric motor or engine to the level required to drive a particular piece of equipment. Gears produced by the Company are primarily utilized in industrial applications.

We distribute our products through three primary distribution channels: Industrial distributors, original equipment manufacturers (OEMs), and direct to end users. Each of these segments sells similar products, which are balanced across end-user industries including, without limitation, energy, food processing, general industrial, material handling, mining, transportation, and turf & garden.

The following table disaggregates our revenue for each reportable segment. The Company believes that disaggregating revenue into these categories achieves the disclosure objective to depict how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors.

The Company considers customer purchase orders, which in some cases are governed by master sales agreements, to be the contracts with a customer. The Company's contracts with customers are generally for product only, and do not include other performance obligations such as professional services, extended warranties, or other material rights. In situations where sales are to a distributor, the Company has concluded that its contracts are with the distributor as the Company holds a contract bearing enforceable rights and obligations only with the distributor. As part of its consideration of the contract, the Company evaluates certain factors including the customer's ability to pay (or credit risk). For each contract, the Company considers the promises to transfer products, each of which is distinct, to be the identified performance obligations. In determining the transaction price the Company evaluates whether the price is subject to refund or adjustment to determine the net consideration to which the Company expects to be entitled. As the Company's standard payment terms are less than one year, the Company has elected the practical expedient under ASC 606-10-32-18 to not assess whether a contract has a significant financing component. Revenue is recognized when control of the product is transferred to the customer (i.e., when the Company's performance obligation is satisfied), which typically occurs at shipment from the Company's manufacturing site or delivery to the customer's named location. In determining whether control has transferred, the Company considers if there is a present right to payment and legal title, along with risks and rewards of ownership having transferred

Amounts in thousands, unless otherwise noted

to the customer. In certain circumstances, the Company manufactures customized product without alternative use for its customers, which would generally result in the transfer of control over time. The Company has evaluated the amount of revenue subject to recognition over time and concluded that it is immaterial.

At times, the Company receives orders for products to be delivered over multiple dates that may extend across reporting periods. The Company invoices for each delivery upon shipment and recognizes revenues for each distinct product delivered, assuming transfer of control has occurred. As scheduled delivery dates are within one year, under the optional exemption provided by ASC 606-10-50-14 revenues allocated to future shipments of partially completed contracts are not disclosed.

The Company generally provides an assurance warranty that its products will be free from defects in material and workmanship for twelve months from the date of shipment. The Company's liability typically is limited to either the repair or replacement of the defective part. Returns under warranty have historically been immaterial. The Company does not consider activities related to such warranty, if any, to be a separate performance obligation. For certain of its products, the Company will separately offer extended warranty and service policies to its customers. These policies typically are for periods ranging from one to five years. Payments received are deferred and recognized over the policy period. For all periods presented, the revenue recognized and the revenue deferred under these policies are not material to the unaudited condensed consolidated financial statements.

The payment terms and conditions in our customer contracts vary. In some cases, customers will partially prepay for their goods; in other cases, after appropriate credit evaluations, payment will be due in arrears. In addition, there are constraints that cause variability in the ultimate consideration to be recognized. These constraints typically include early payment discounts, volume rebates, rights of return, surcharges, and other customer consolidation. When the timing of the Company's recognition of revenue is different from the timing of payments made by the customer, the Company recognizes either a contract asset (performance precedes contractual due date) or a contract liability (customer payment precedes performance or is in excess of estimates of what the Company expects to be entitled to). Contracts with payment in arrears are recognized as receivables. The opening and closing balances of the Company's contract asset, contract liability, and receivables are as follows:

	Deferred Revenue (Current)	Accounts Receivable
Beginning - January 1, 2018	\$ 2,189	\$ 135,499
Closing - September 30, 2018	4,167	139,863
Increase/(Decrease)	\$ 1,978	\$ 4,364

The amount of revenue recognized in the year to date period ended September 30, 2018 that were included in deferred revenue was \$4.2 million. This revenue consists primarily of revenue recognized for prepaid shipments of product.

The Company has concluded that none of the costs it has incurred to obtain and fulfill its contracts meet the capitalization criteria, and as such, there are no costs deferred and recognized as assets on the unaudited condensed consolidated balance sheets.

5. Fair Value of Financial Instruments

Fair value is determined based upon the exit price that would be received to sell an asset or paid to transfer a liability, in each case in an orderly transaction between market participants, as determined by either the principal market or the most advantageous market. Inputs used in the valuation techniques to derive fair values are classified based on a three-level hierarchy, as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets with insufficient volume or infrequent transactions (markets that are not active); or other inputs that are observable or can be corroborated by observable market data.

Level 3: Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

The Company considers all highly liquid investments purchased with a remaining maturity of three months or less to be cash equivalents.

ALTRA INDUSTRIAL MOTION CORP.

Notes to Unaudited Condensed Consolidated Interim Financial Statements

Amounts in thousands, unless otherwise noted

The carrying values of financial instruments, including accounts receivable, cash equivalents, accounts payable, and other accrued liabilities approximate fair value. Debt under the 2015 Credit Agreement (and defined below in Note 11 Debt) approximates the fair value due to the variable rate and the fact that (i) the 2015 Credit Agreement was renegotiated in December 2016 and (ii) there have been no significant changes in our credit rating.

The Company determines the fair value of financial instruments using quoted market prices whenever available. When quoted market prices are not available for various types of financial instruments (such as forwards, options and swaps), the Company uses standard models with market-based inputs, that take into account the present value of estimated future cash flows and the ability of the Company or the financial counterparty to perform. For interest rate and cross currency swaps, the significant inputs to these models are interest rate curves for discounting future cash flows, which are adjusted for credit risk. For forward foreign currency contracts, the significant inputs are interest rate curves for discounting future cash flows, and exchange rate curves of the foreign currency for translating future cash flows. See additional discussion of the Company's use of financial instruments including cross-currency swaps included in Note 15 Derivative Financial Instruments.

7. Net Income per Share

Basic earnings per share is based on the weighted average number of shares of common stock outstanding, and diluted earnings per share is based on the weighted average number of shares of common stock outstanding and all potentially dilutive common stock equivalents outstanding. Common stock equivalents are included in the per share calculations when the effect of their inclusion is dilutive.

The Company recorded \$2.4 million and \$2.4 million of amortization expense in the quarters ended September 30, 2018 and 2017, respectively, and recorded \$7.3 million and \$7.1 million of amortization expense in the year to date periods ended September 30, 2018 and 2017, respectively.

The estimated amortization expense for intangible assets is approximately \$2.4 million for the remainder of 2018, \$9.6 million in each of the next four years and then \$54.0 million thereafter.

10. Warranty Costs

The contractual warranty period of the Company's products generally ranges from three months to two years with certain warranties extending for longer periods. Estimated expenses related to product warranties are accrued at the time products are sold to customers and are recorded in accruals and other current liabilities on the unaudited condensed consolidated balance sheets. Estimates are established using historical information as to the nature, frequency and average costs of warranty claims. Changes in the carrying amount of accrued product warranty costs for each of the quarters ended September 30, 2018 and 2017 are as follows:

	September 30, 2018	September 30, 2017

2015 Credit Agreement

On October 22, 2015, the Company entered into a Second Amended and Restated Credit Agreement (as amended, the “2015 Credit Agreement”). Under the 2015 Credit Agreement, the amount of the Company’s prior revolving credit facility was increased to \$350 million (as amended, the “2015 Revolving Credit Facility”). The amounts available under the 2015 Revolving Credit Facility can be used for general corporate purposes, including acquisitions, and to repay existing indebtedness. The stated maturity of the 2015 Revolving Credit Facility is October 22, 2020.

The amounts available under the 2015 Revolving Credit Facility may be drawn upon in accordance with the terms of the 2015 Credit Agreement. All amounts outstanding under the 2015 Revolving Credit Facility are due on the stated maturity or such earlier time, if any, required under the 2015 Credit Agreement. The amounts owed under the 2015 Revolving Credit Facility may be prepaid at any time, subject to usual notification and breakage payment provisions. Interest on the amounts outstanding under the 2015 Revolving Credit Facility is calculated using either an ABR Rate or Eurodollar Rate, plus the applicable margin. The applicable margins for Eurodollar Loans are between 1.25% to 2.00%, and for ABR Loans are between 0.25% and 1.00%. The amounts of the margins are calculated based on either a consolidated total net leverage ratio (as defined in the 2015 Credit Agreement), or the then applicable rating(s) of the Company’s debt and then to the extent as provided in the 2015 Credit Agreement. The rate at September 30, 2018 was 1.5%. A portion of the 2015 Revolving Credit Facility may also be used for the issuance of letters of credit, and a portion of the amount of the 2015 Revolving Credit Facility is available for borrowings in certain agreed upon foreign currencies. The 2015

Credit Agreement contains various affirmative and negative covenants and restrictions, which among other things, will require the Borrowers (as defined in the 2015 Credit Agreement) to provide certain financial reports to the Lenders (as defined in the 2015 Credit Agreement), require the Company to maintain certain financial covenants relating to consolidated leverage and interest coverage, limit maximum annual capital expenditures, and limit the ability of the Company and its subsidiaries to incur or guarantee additional indebtedness, pay dividends or make other equity distributions, purchase or redeem capital stock or debt, make certain investments, sell assets, engage in certain transactions, and effect a consolidation or merger. The 2015 Credit Agreement also contains customary events of default.

On October 21, 2016, the Company entered into an agreement to amend the 2015 Credit Agreement (the “October 2016 Amendment”). The October 2016 Amendment, which became effective upon the closing of the Stromag Acquisition on December 30, 2016, increased the 2015 Revolving Credit Facility by \$75 million to \$425 million. The Company used additional borrowings under the increased 2015 Revolving Credit Facility to finance the Stromag Acquisition. In addition, the October 2016 Amendment increased the multicurrency sublimit to \$250 million and adjusted certain financial covenants. The pricing terms and maturity date under the 2015 Credit Agreement remained unchanged as a result of the October 2016 Amendment. The Company paid \$0.6 million in fees in connection with the October 2016 Amendment, which is recorded in other non-current assets.

As of September 30, 2018, we had \$244.9 million outstanding on our 2015 Revolving Credit Facility-at an interest rate of 3.58%. During the quarter, the Company paid down the remaining principal of €10.5 million, or \$12.2 million outstanding on our Euro tranche. As of September 30, 2018, and December 31, 2017, we had \$4.2 million and 3.5 million in letters of credit outstanding, respectively. We had \$175.9 million available to borrow under the 2015 Revolving Credit Facility at September 30, 2018.

On October 1, 2018, The 2015 Credit Agreement, was terminated and all outstanding indebtedness for borrowed money thereunder was repaid in full, as discussed in Note 17, Subsequent Events.

2018 Credit Agreement and Newco Notes

On October 1, 2018, the Company and Fortive consummated the Fortive Transaction. In connection with consummating the Fortive Transaction, the Company entered into a new credit facility and refinanced the amounts due under the 2015 Credit Agreement as contemplated by the Commitment Letter and guaranteed, on a senior unsecured basis, promissory notes issued by Newco, each as described in Note 17 Subsequent Events.

Convertible Senior Notes

In March 2011, the Company issued convertible senior notes (the “Convertible Notes”) due March 1, 2031. The Convertible Notes were guaranteed by the Company’s U.S. domestic subsidiaries. Interest on the Convertible Notes was payable semi-annually in arrears, on March 1 and September 1 of each year, commencing on September 1, 2011

at an annual rate of 2.75%. Proceeds from the Convertible Notes offering were \$81.3 million, net of fees and expenses that were capitalized.

On December 12, 2016 the Company gave notice to The Bank of New York Mellon Trust Company, N.A., the Trustee under the Indenture governing the Convertible Notes of its intention to redeem all of the Convertible Notes outstanding on January 12, 2017 (the "Redemption Date"), pursuant to the optional redemption provisions in the Indenture. The redemption price for the Convertible Notes was 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the Redemption Date plus a Make-Whole Premium equal to the present values of the remaining scheduled payments of interest on any Convertible Notes through March 1, 2018 (excluding interest accrued to, but excluding, the Redemption Date). In lieu of receiving the redemption price, holders of the Convertible Notes could surrender their Convertible Notes for conversion at any time before January 9, 2017. The conversion rate of the Convertible Notes was 39.0809 shares of the Company's common stock, for each \$1,000 of outstanding principal of the Convertible Notes. As of December 31, 2016, Convertible Notes with an outstanding principal amount of approximately \$39.3 million were surrendered for conversion, resulting in the issuance of 1.5 million shares of the Company's common stock. As a result of the conversion, the Company incurred a loss on extinguishment of debt of approximately \$1.9 million and the carrying value of the remaining Convertible Notes was \$42.9 million net of unamortized discount as of December 31, 2016. In January 2017, additional Convertible Notes with an outstanding principal amount of approximately \$44.7 million were converted resulting in the issuance of 1.7 million shares of the Company's common stock, and \$0.9 million of Convertible Notes were redeemed for cash. The Company incurred an additional loss on extinguishment of debt of approximately \$1.8 million during the quarter ended March 31, 2017. All Convertible Notes were converted or redeemed as of January 12, 2017.

Mortgages

Heidelberg Germany

During 2015, a foreign subsidiary of the Company entered into a mortgage with a bank for €1.5 million, or \$1.7 million, secured by its facility in Heidelberg, Germany to replace its previously existing mortgage. The mortgage has an interest rate of 1.79%, which is payable in monthly installments through August 2023. The mortgage had a remaining principal balance of €0.9 million, or \$1.0 million, at September 30, 2018.

Esslingen Germany

During 2015, a foreign subsidiary of the Company entered into a mortgage with a bank for €6.0 million, or \$6.7 million, secured by its facility in Esslingen, Germany. The mortgage has an interest rate of 2.5% per year, which is payable in annual interest payments of €0.1 million, or \$0.1 million, to be paid in monthly installments. The mortgage had a remaining principal balance of €6.0 million, or \$7.0 million, at September 30, 2018. The principal portion of the mortgage will be due in a lump-sum payment in May 2019.

Zlate Moravce Slovakia

During the quarter ended March 31, 2016, a foreign subsidiary of the Company entered into a loan with a bank to equip its facility in Zlate Moravce, Slovakia. As of September 30, 2018, the total principal outstanding was €1.5 million, or \$1.7 million, and is guaranteed by land security at its parent company facility in Esslingen, Germany. The loan is due in installments from 2016 through 2020, with an interest rate of 1.95%.

Angers France

During 2015, a foreign subsidiary of the Company entered into a mortgage with a bank for €2.1 million, or \$2.3 million, secured by its facility in Angers, France. The mortgage has an interest rate of 1.85% per year which is payable in monthly installments until May 2025. The mortgage had a balance of €1.5 million, or \$1.7 million, at September 30, 2018.

Capital Leases

The Company leases certain equipment under capital lease arrangements, whose obligations are included in both short-term and long-term debt. Capital lease obligations amounted to approximately \$0.1 million at September 30, 2018 and approximately \$0.2 million at December 31, 2017. Assets subject to capital leases are included in property, plant and equipment with the related amortization recorded as depreciation expense.

Overdraft Agreements

Certain of our foreign subsidiaries maintain overdraft agreements with financial institutions. There were no borrowings as of September 30, 2018 or December 31, 2017 under any of the overdraft agreements.

12. Stockholders' Equity

Stock-Based Compensation

The Company's 2004 Equity Incentive Plan (the "2004 Plan") permitted the grant of various forms of stock based compensation to our officers and senior level employees. The 2004 Plan expired in 2014 and, upon expiration, there were 750,576 shares subject to outstanding awards under the 2004 Plan. The 2014 Omnibus Incentive Plan (the "2014 Plan") was approved by the Company's stockholders at the Company's 2014 Annual Meeting of Stockholders. The 2014 Plan provides for various forms of stock based compensation to our directors, executive personnel and other key employees and consultants. Under the 2014 Plan, the total number of shares of common stock available for delivery pursuant to the grant of awards ("Awards") was originally 750,000. At the Company's 2017 Annual Meeting of Stockholders, its stockholders approved amendments to the 2014 Plan which, among other things, made an additional 750,000 shares of common stock available for delivery pursuant to the grant of Awards under the 2014 Plan. At the Company's 2018 Special Meeting of Stockholders held on September 4, 2018, the Company's stockholders approved amendments to the 2014 Plan, which, upon the closing of the Fortive Transaction (as defined in Note 17, Subsequent Events), increased the number of shares of common stock authorized for issuance under the 2014 Plan by 2,200,000 shares, for a total of 3,700,000 authorized shares of common stock. Shares of our common stock subject to Awards previously granted under the 2004 Plan and outstanding as of the effective date of the 2014 Plan (except for substitute awards) that terminate without being exercised, expire, are forfeited or canceled, are exchanged for Awards that did not involve shares of common stock, are not issued on the stock settlement of a stock appreciation right, are withheld by the Company or tendered by a participant (either actually or by attestation) to pay an option exercise price or to pay the withholding tax on any Award, or are settled in cash in lieu of shares will again be available for Awards under the 2014 Plan.

The restricted stock issued pursuant to the 2014 Plan generally vests ratably over a period ranging from immediately to five years from the date of grant, provided, that the vesting of the restricted stock may accelerate upon the occurrence of certain events. Common stock awarded under the 2014 Plan is generally subject to restrictions on transfer, repurchase rights, and other limitations and rights as set forth in the applicable award agreements. The fair value of the repurchased shares of common stock is measured based on the stock price on the date of grant.

The 2014 Plan permits the Company to grant, among other things, restricted stock, restricted stock units, and performance share awards to key employees and other persons who make significant contributions to the success of the Company. The restrictions and vesting schedules for restricted stock granted under the 2014 Plan are determined by the Personnel and Compensation Committee of the Company's Board of Directors.

Edgar Filing: Altra Industrial Motion Corp. - Form 10-Q/A

Stock-based compensation expense recorded during the quarters ended September 30, 2018 and 2017, was \$3.8 million and \$4.5 million, respectively. The Company recognizes stock-based compensation expense on a straight-line basis for the shares vesting ratably under the 2014 Plan and uses the graded-vesting method of recognizing stock-based compensation expense for the performance share awards based on the probability of the specific performance metrics being achieved over the requisite service period.

The following table sets forth the activity of the Company's outstanding restricted stock grants, including shares of restricted stock awarded as a result of the achievement of performance objectives under outstanding performance shares awards, in the quarter ended September 30, 2018:

	Shares	Weighted-average grant date fair value
Shares unvested January 1, 2018	221,313	\$ 31.42
Shares granted	151,143	45.61
Shares for which restrictions lapsed	(177,526)	42.52
Shares unvested September 30, 2018	194,930	\$ 41.30

Total remaining unrecognized compensation cost was \$6.0 million as of September 30, 2018, which will be recognized over a weighted average remaining period of 3 years. The fair market value of the restricted stock for which the restrictions have lapsed during the quarter ended September 30, 2018 was approximately \$7.5 million. Awards of restricted stock are valued based on the fair market value of the Company's common stock underlying the Awards on the date of grant.

2016 Share Repurchase Program

On October 19, 2016, our Board of Directors approved a share repurchase program authorizing the buyback of up to \$30.0 million of the Company's common stock through December 31, 2019 (the "2016 Repurchase Program"). The 2016 Repurchase Program replaced the previous share repurchase program, which was terminated. The Company is authorized to purchase shares on the open market, through block trades, in privately negotiated transactions, in compliance with SEC Rule 10b-18 (including through Rule 10b5-1 plans), or in any other appropriate manner. The timing of any shares repurchased will be at the discretion of management and will depend on a number of factors, including price, market conditions and regulatory requirements. Shares acquired through the 2016 Repurchase Program will be retired. The Company retains the right to limit, terminate or extend the 2016 Repurchase Program at any time without prior notice. The Company expects to fund any further repurchases of its common stock through a combination of cash on hand and cash generated by operations. During the quarter ended September 30, 2018, the Company did not repurchase any of its common stock under the 2016 Repurchase Program.

Dividends

The Company declared a dividend of \$0.17 per share of common stock related to the quarter ended September 30, 2018 which was accrued in the balance sheet at September 30, 2018.

Future declarations of quarterly cash dividends are subject to approval by the Board of Directors and to the Board of Director's continuing determination that the declaration of dividends are in the best interest of the Company's stockholders and are in compliance with all laws and agreements of the Company applicable to the declaration and payment of cash dividends.

13. Restructuring, Asset Impairment, and Transition Expenses

From time to time, the Company has initiated various restructuring programs and incurred severance and other restructuring costs.

During 2015, the Company commenced a restructuring plan (the "2015 Altra Plan") as a result of weak demand in Europe and to make certain adjustments to improve business effectiveness, reduce the number of facilities and streamline the Company's cost structure. The actions taken pursuant to the 2015 Altra Plan included headcount reductions, facility consolidations and related asset impairments, and discretionary spending limitations to improve

profitability.

The following table details restructuring charges incurred by segment for the periods presented under the 2015 Altra Plan.

	Quarter Ended		Year to Date Ended

Total	\$ —	\$ 49	\$ —	\$ 3,145

There were no costs incurred under the 2015 Altra Plan for the quarter ended September 30, 2018.

During the quarter ended September 30, 2017, the Company commenced a new restructuring plan (the “2017 Altra Plan”) as a result of the Stromag Acquisition and to rationalize its global renewable energy business. The actions taken pursuant to the 2017 Altra Plan included reducing headcount, facility consolidations and the elimination of certain costs.

The following table details restructuring charges incurred by segment for the periods presented under the 2017 Altra Plan.

The total accrued restructuring reserve as of September 30, 2018 relates to severance costs to be paid to former Company employees. These severance costs are expected to be paid during 2018 and 2019 are recorded in accruals and other current liabilities on the accompanying unaudited condensed consolidated balance sheet. The Company does not expect to incur any additional material restructuring expenses related to the 2015 Altra Plan. The Company expects to incur an additional amount of approximately \$1.0 to \$3.0 million in expense under the 2017 Altra Plan through 2019.

14. Segments, Concentrations and Geographic Information

Segments

The Company currently operates through three business segments that are aligned with key product types and end markets served:

◆ Couplings, Clutches & Brakes.

Couplings are the interface between two shafts, which enable power to be transmitted from one shaft to the other. Clutches in this segment are devices that use mechanical, hydraulic, pneumatic, or friction type connections to facilitate engaging or disengaging two rotating members. Brakes are combinations of interacting parts that work to slow or stop machinery. Products in this segment are generally used in heavy industrial applications and energy markets.

◆ Electromagnetic Clutches & Brakes.

Products in this segment include brakes and clutches that are used to electronically slow, stop, engage or disengage equipment utilizing electromagnetic friction type connections. Products in this segment are used in industrial and commercial markets including agricultural machinery, material handling, motion control, and turf & garden.

◆ Gearing.

Gears are utilized to reduce the speed and increase the torque of an electric motor or engine to the level required to drive a particular piece of equipment. Gears produced by the Company are primarily utilized in industrial applications.

Concentrations

Financial instruments, which are potentially subject to counter party performance and concentrations of credit risk, consist primarily of trade accounts receivable. The Company manages these risks by conducting credit evaluations of customers prior to delivery or commencement of services. When the Company enters into a sales contract, collateral is normally not required from the customer. Payments are typically due within 30 days of billing. An allowance for potential credit losses is maintained, and losses have historically been within management's expectations. Although the Company did not have any customers that represented total sales greater than 10% in either of the quarters ended September 30, 2018 and 2017, the Gearing business had one customer that approximated 10% of total sales for that segment during the quarter ended September 30, 2018.

The Company is also subject to counter party performance risk of loss in the event of non-performance by counterparties to financial instruments, such as cash and investments. Cash and cash equivalents are held by well-established financial institutions. The Company is also exposed to swap counterparty credit risk with well-established financial institutions.

15. Derivative Financial Instruments

The Company enters into contractual derivative arrangements to manage changes in market conditions related to interest on debt obligations, and foreign currency exposures. Derivative instruments utilized during the period include interest rate swap agreements and foreign currency contracts. All derivative instruments are recognized as either assets or liabilities on the balance sheet at fair value at the end of each period. The counterparties to the Company's contractual derivative agreements are all major international financial institutions. The Company is exposed to credit loss in the event of nonperformance by these counterparties. The Company continually monitors its positions and the credit ratings of its counterparties, and does not anticipate nonperformance by the counterparties. For designated hedging relationships, the Company formally documents the hedging relationship and its risk management objective and strategy for undertaking the hedge, the hedging instrument, the hedged item, the nature of the risk being hedged, how the hedging instrument's effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting cash flows of hedged items.

Cross Currency Interest Rate Swaps

The Company is exposed to foreign currency and interest rate cash flow exposure related to non-functional currency long-term debt of the Company's wholly owned Dutch subsidiary. The currency adjustments related to this loan are recorded in Other non-operating (income) expense, net. The offsetting gains and losses on the related derivative contracts are also recorded in Other non-operating (income) expense, net. To manage this foreign currency and interest rate cash flow exposure, the Company entered into a cross-currency interest rate swap that converts \$100.0 million of U.S. dollar denominated floating interest payments to functional currency (euro) fixed interest payments during the life of the hedging instrument. In addition, the Company entered into two cross-currency interest rate swaps that convert an additional \$70.0 million of the U.S. dollar denominated floating interest payments to functional currency (euro) floating interest payments during the life of the hedging instruments. The effective period of one of the

ALTRA INDUSTRIAL MOTION CORP.

cross-currency interest rate swaps, in the amount of \$30 million, expired as of December 31, 2017. The effective period of the second of these two cross-currency interest rate swaps, in the original amount of \$40 million, now currently \$30 million, expires on December 31, 2018. As changes in foreign exchange and interest rates impact the future cash flow of interest payments, the hedges are intended to offset changes in cash flows attributable to interest rate and foreign exchange movements.

The Company designated the \$100.0 million swap as a cash flow hedge, with the effective portion of the gain or loss on the derivative reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction impacts earnings. There were no amounts recorded for ineffectiveness for the periods reported herein related to the cross-currency interest rate swaps.

Changes in the fair value of a derivative that is designated as and meets all the required criteria for a cash flow hedge are recorded in accumulated other comprehensive income and reclassified into earnings as the underlying hedged item affects earnings. As of September 30, 2018, and 2017, approximately \$0.9 million and \$0.3 million of net unrealized gains related to the cross-currency interest rate swaps were included in accumulated other comprehensive income (loss), respectively.

Interest Rate Swap

In January 2017, the Company entered into an interest rate swap agreement designed to fix the variable interest rate payable on a portion of its outstanding borrowings under the 2015 Credit Agreement, for a notional value of \$50.0 million, at 1.625%. The effective date was January 31, 2017 and the maturity date is January 31, 2020.

The interest rate swap agreement was designed to manage exposure to interest rates on the Company's variable rate indebtedness. The Company recognizes all derivatives on its balance sheet at fair value. The Company has designated this interest rate swap agreement as a cash flow hedge. Changes in the fair value of the swap will be recognized in other comprehensive income until the hedged items are recognized in earnings. Hedge ineffectiveness, if any, associated with the swap will be reported by the Company in interest expense.

The following table summarizes outstanding swaps that the Company has recorded at September 30, 2018.

On October 1, 2018, the Company and Fortive consummated the Fortive Transaction. In connection with consummating the Fortive Transaction, the Company entered into a new credit facility and refinanced the amounts due under the 2015 Credit Agreement as contemplated by the Commitment Letter.

On October 2, 2018, the Company terminated both the \$100 million, and the \$40 million cross-currency interest rate swap agreements. As a result, The Company reclassified the associated liabilities for each of the cross- currency swap agreements, totaling approximately \$14.8 million, to short term on the balance sheet for the quarter ended September 30, 2018. In addition, The Company paid approximately \$14.0 million in termination fees to the Counterparty on that date. Refer to Note 17, Subsequent Events for more information concerning the termination of these financial instruments.

16. Commitments and Contingencies

General Litigation

The Company is involved in various pending legal proceedings arising out of the ordinary course of business. These proceedings primarily involve commercial claims, product liability claims, personal injury claims, and workers' compensation claims. None of these legal proceedings are expected to have a material adverse effect on the results of operations, cash flows, or financial condition of the Company. With respect to these proceedings, management believes that the Company will prevail, has adequate insurance coverage or has established appropriate reserves to cover potential liabilities. Any costs that management estimates may be paid related to these proceedings or claims are accrued when the liability is considered probable and the amount can be reasonably estimated. There can be no assurance, however, as to the ultimate outcome of any of these matters, and if all or substantially all of these legal

proceedings were to be determined adversely to the Company, there could be a material adverse effect on the results of operations, cash flows, or financial condition of the Company. We have established loss provisions for matters in which losses are probable and can be reasonably estimated. There were no material amounts accrued in the accompanying unaudited condensed consolidated balance sheet for potential litigation as of September 30, 2018 or December 31, 2017. For matters where a reserve has not been established and for which we believe a loss is reasonably possible, as well as for matters where a reserve has been recorded but for which an exposure to loss in excess of the amount accrued is reasonably possible, we believe that such losses, individually and in the aggregate, will not have a material effect on our unaudited condensed consolidated financial statements.

The Company also risks exposure to product liability claims in connection with products it has sold and those sold by businesses that the Company acquired. In some cases, third parties have retained responsibility for product liability claims relating to products manufactured or sold prior to the acquisition of the relevant business, and in other cases, the persons from whom the Company has acquired a business may be required to indemnify the Company for certain product liability claims subject to certain caps or limitations on indemnification. However, the Company cannot assure that those third parties will in fact satisfy their obligations with respect to liabilities retained by them or their indemnification obligations. If those third parties become unable to or otherwise do not comply with their respective obligations including indemnity obligations, or if certain product liability claims for which the Company is obligated were not retained by third parties or are not subject to these indemnities, the Company could become subject to significant liabilities or other adverse consequences. Moreover, even in cases where third parties retain responsibility for product liability claims or are required to indemnify the Company, significant claims arising from products that have been acquired could have a material adverse effect on the Company's ability to realize the benefits from an acquisition, could result in the reduction of the value of goodwill that the Company recorded in connection with an acquisition, or could otherwise have a material adverse effect on the Company's business, financial condition, or operations.

Termination of Defined Benefit Plan

ALTRA INDUSTRIAL MOTION CORP.

Notes to Unaudited Condensed Consolidated Interim Financial Statements

Amounts in thousands, unless otherwise noted

The Company commenced its plan to terminate the Altra Industrial Motion, Inc. Retirement Plan (the “Plan”), its frozen U.S. defined benefit pension plan in June 2017 and distributed a portion of the Plan assets during the fourth quarter of 2017 as a partial plan settlement. See Note 8, Pension and Other Employee Benefits, to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017. During the first quarter of 2018, the Company completed the Plan termination and made a final contribution of \$1.1 million to fully fund the benefit obligation prior to settlement. The Company settled the remaining benefit obligation of approximately \$18.7 million by transferring the remaining Plan assets and liability obligations to a third party. The Company recorded an additional settlement loss of \$5.1 million related to the Plan in the quarter ended March 31, 2018.

17. Subsequent Events

Dividend

On October 16, 2018, the Company declared a dividend of \$0.17 per share for the quarter ended December 31, 2018, payable on January 3, 2019, to stockholders of record as of December 17, 2018.

Fortive Acquisition

On October 1, 2018 (the “A&S Closing Date”), Altra and Fortive Corporation (“Fortive”) consummated the previously announced combination of Altra with four operating companies from Fortive’s Automation & Specialty platform excluding Fortive’s Hengstler and Dynapar businesses) (the “A&S Business”). In accordance with the terms and conditions of an Agreement and Plan of Merger and Reorganization (the “Merger Agreement”), dated March 7, 2018, among Altra, Fortive, McHale Acquisition Corp. (“Merger Sub”) and Stevens Holding Company, Inc. (“Newco”), and a Separation and Distribution Agreement, dated March 7, 2018, among Altra, Fortive and Newco (the “Distribution Agreement”), (1) Fortive transferred certain assets, liabilities and entities constituting a portion of the A&S Business to Newco, (2) Fortive distributed to its stockholders all of the issued and outstanding shares of Newco common stock held by Fortive by way of an exchange offer (the “Distribution”) and (3) Merger Sub merged with and into Newco and Newco became a wholly-owned subsidiary of Altra, and the issued and outstanding shares of Newco common stock converted into shares of Altra common stock (the “Merger”). In addition, pursuant to the Merger Agreement, prior to the effective time of the Merger, Fortive transferred certain non-U.S. assets, liabilities and entities constituting the remaining portion of the A&S Business to certain subsidiaries of Altra, and the Altra subsidiaries assumed substantially all of the liabilities associated with the transferred assets (the “Direct Sales”) (all of the foregoing, collectively, the “Fortive Transaction”). Upon consummation of the Fortive Transaction, the shares of Newco common

stock then outstanding were automatically converted into the right to receive 35.0 million shares of Altra common stock, which were issued by Altra on the Closing Date, and represented approximately 54% of the outstanding shares of Altra common stock, together with cash in lieu of fractional shares. Altra's pre-Merger shareholders continued to hold the remaining approximately 46% of the outstanding shares of Altra common stock.

The aggregate purchase price for the A&S Business of approximately \$2,855.7 million, subject to certain post-closing adjustments, consisted of \$1,400.0 million of cash and debt instruments transferred to Fortive and shares of Altra common stock received by Fortive shareholders valued at approximately \$1,455.7 million. The value of the common stock was based on the closing stock price on the last trade date prior to the A&S Closing Date of \$41.59. The initial accounting for the Fortive Transaction (including the allocation of the purchase price to acquired assets and liabilities) is not complete. The Fortive Transaction was consummated after September 30, 2018 and, accordingly, our operating results for the three and nine months ended September 30, 2018 and 2017 do not include the results of operations of the A&S Business.

In connection with the Fortive Transaction, certain additional agreements have been entered into, including, among others, an Employee Matters Agreement, dated March 7, 2018, among Altra, Fortive and Newco (the "Employee Matters Agreement"), a Tax Matters Agreement (the "Tax Matters Agreement"), a Transition Services Agreement (the "Transition Services Agreement"), in each case, dated October 1, 2018, among Altra, Fortive, and Newco, and an Intellectual Property Cross-License Agreement, dated October 1, 2018, between Altra and Fortive. In addition, effective October 1, 2018, we filed a Certificate of Amendment to our Articles of Incorporation to increase the number of authorized shares of Altra common stock from 90.0 million shares to 120.0 million shares.

Financing Agreements

On September 26, 2018, Newco announced the pricing of \$400 million aggregate principal amount of Newco's 6.125% senior notes due 2026 (the "Notes") in a private debt offering pursuant to Rule 144A and Regulation S under the Securities Act of 1933 (the "Private Placement"). On October 1, 2018, the Private Placement closed, and Newco sold \$150.0 million aggregate principal amount of the Notes (the "Primary Notes") and an unaffiliated selling securityholder sold \$250 million aggregate principal amount of the

ALTRA INDUSTRIAL MOTION CORP.

Notes (the “Selling Securityholder Notes”). The Notes will mature on October 1, 2026. Interest on the Notes accrues from October 1, 2018, and the first interest payment date on the Notes will be April 1, 2019. The Notes may be redeemed at the option of Newco on or after October 1, 2023, in the manner and at the redemption prices specified in the indenture governing the Notes, plus accrued and unpaid interest thereon, if any, to, but excluding, the date of redemption. The Notes are guaranteed on a senior unsecured basis by certain domestic subsidiaries of Newco and, in connection with consummation of the Fortive Transaction, by Altra and certain of its domestic subsidiaries.

The unaffiliated selling securityholder received the Selling Securityholder Notes from Fortive prior to the closing of the Private Placement in exchange for certain outstanding Fortive debt held or acquired by the unaffiliated selling securityholder. Newco used the net proceeds of the Primary Notes to fund a dividend payment to Fortive prior to the consummation of the Merger, and Newco did not receive any proceeds from the sale of the Selling Securityholder Notes.

On the A&S Closing Date, Altra entered into a new Credit Agreement (the “Altra Credit Agreement”) with certain subsidiaries of Altra, JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, and a syndicate of lenders. The Altra Credit Agreement provides for a seven-year senior secured term loan to Altra in an aggregate principal amount of \$1,340.0 million (the “Altra Term Loan Facility”) and a five-year senior secured revolving credit facility provided to Altra and certain of its subsidiaries in an aggregate committed principal amount of \$300.0 million (the “Altra Revolving Credit Facility” and together with the Altra Term Loan Facility, the “Altra Credit Facilities”). The proceeds of the Altra Term Loan Facility were used to (i) consummate the Direct Sales, (ii) repay in full and extinguish all outstanding indebtedness for borrowed money under the 2015 Credit Agreement and (iii) pay certain fees, costs and expenses in connection with the consummation of the Fortive Transaction. Any proceeds of the Altra Term Loan Facility not so used may be used for general corporate purposes. The proceeds of the Altra Revolving Credit Facility will be used for working capital and general corporate purposes.

The Altra Credit Facilities are guaranteed on a senior secured basis by Altra and by each direct or indirect wholly owned domestic subsidiary of Altra, including, following the Merger, Newco and each of its direct or indirect wholly owned domestic subsidiaries, subject to certain customary exceptions.

At Altra’s option, borrowings under the Altra Term Loan Facility will bear interest at a per annum rate equal to a “Eurocurrency Rate” plus 2.00%, in the case of Eurocurrency Rate borrowings, or equal to a “Base Rate” plus 1.00%, in the case of Base Rate borrowings. At the applicable borrower’s option, borrowings under the Altra Revolving Credit Facility will initially bear interest at a per annum rate equal to a Eurocurrency Rate plus 2.00%, in the case of Eurocurrency Rate borrowings, or equal to a Base Rate plus 1.00%, in the case of Base Rate borrowings, and thereafter will bear interest at a per annum rate equal to a Eurocurrency Rate or Base Rate, as applicable, plus an

interest rate spread determined by reference to a pricing grid based on Altra's senior secured net leverage ratio. In addition, Altra will be required to pay fees that will fluctuate between 0.250% per annum to 0.375% per annum on the unused amount of the Altra Revolving Credit Facility, based upon Altra's senior secured net leverage ratio.

Revolving borrowings and issuances of letters of credit under the Altra Revolving Credit Facility are subject to the satisfaction of customary conditions, including the accuracy of representations and warranties and the absence of defaults.

The Altra Credit Agreement contains usual and customary representations and warranties, and usual and customary affirmative and negative covenants, including limitations on liens, investments, restricted payments, additional indebtedness and asset sales and mergers. In addition, the Altra Credit Agreement requires that Altra maintain a specified maximum senior secured leverage ratio and a specified minimum interest coverage ratio. The obligations of the borrowers of the Altra Credit Facilities under the Altra Credit Agreement may be accelerated upon customary events of default, including non-payment of principal, interest, fees and other amounts, inaccuracy of representations and warranties, violation of covenants, cross default and cross acceleration, voluntary and involuntary bankruptcy or insolvency proceedings, inability to pay debts as they become due, material judgments, ERISA events, actual or asserted invalidity of security documents or guarantees and change in control.

During 2018, we expect to incur one-time costs in connection with the Fortive Transaction, including approximately \$85 to \$95 million in transaction-related costs (of which \$45 to \$50 million will be capitalized) and approximately \$24 million in non-recurring implementation costs during the first three years from the A&S Closing Date that Altra management believes are necessary to realize the anticipated synergies from the Fortive Transaction. For the three and nine months ended September 30, 2018, acquisition-related costs included \$4.6 million and \$11.8 million, respectively, associated with advisory, legal, accounting, integration and other professional fees.

ALTRA INDUSTRIAL MOTION CORP.

Notes to Unaudited Condensed Consolidated Interim Financial Statements

Amounts in thousands, unless otherwise noted

In connection with the Transactions and effective October 1, 2018, we filed a Certificate of Amendment to our Articles of Incorporation to increase the number of authorized shares of Altra common stock from 90.0 million shares to 120.0 million shares.

Appointment of New Director

With effect from the Closing Date, Altra elected one new member to the Board of Directors. Patrick K. Murphy was elected to the Board of Directors of Altra with effect from the Closing Date. Mr. Murphy currently serves as Fortive's Senior Vice President. Mr. Murphy was selected by Fortive Corporation for election to the Board of Directors of Altra upon consummation of the Merger. Pursuant to the Merger Agreement, Altra also agreed, subject to the fiduciary duties of Altra's Board of Directors, to include Mr. Murphy as a nominee for the Board of Director's at Altra's 2019 annual meeting of shareholders.

Mr. Murphy will be compensated for board services in the same manner as other members of the Board of Directors of Altra as described in Altra's annual proxy statement filed March 23, 2018.

Termination of Cross Currency Interest Rate Swaps

On October 2, 2018, the Company terminated both the \$100 million, and the \$40 million cross-currency interest rate swap agreements. As a result, The Company reclassified the associated liabilities for each of the cross- currency swap agreements, totaling approximately \$14.8 million, to short term on the balance sheet for the quarter ended September 30, 2018. In addition, The Company paid approximately \$14.0 million in termination fees to the Counterparty on that date.

Replacement of Forfeited Fortive Equity Awards

Under the Employee Matters Agreement, any Fortive stock options (“Fortive Options”) and Fortive restricted stock units (“Fortive RSUs”) that were held by an employee of the A&S Business who became an employee of Newco and were not vested immediately before the effective time of the Merger were generally cancelled by Fortive immediately before the effective time of the Merger and were subsequently replaced by Altra with grants of Altra’s restricted stock or restricted stock units, in each case, with comparable value and comparable remaining vesting schedules.

General

We are a leading global designer, producer and marketer of a wide range of electromechanical power transmission and motion control products with a presence in over 70 countries. Our global sales and marketing network includes over 1,000 direct OEM customers and over 3,000 distributor outlets. Our product portfolio includes industrial clutches and brakes, enclosed gear drives, open gearing, couplings, engineered bearing assemblies, linear components, gear motors, and other related products. Our products serve a wide variety of end markets including energy, general industrial, material handling, mining, transportation and turf & garden. We primarily sell our products to a wide range of OEMs and through long-standing relationships with industrial distributors such as Motion Industries, Applied Industrial Technologies, Kaman Industrial Technologies and W.W. Grainger.

Business Segments

The Company currently operates through three business segments that are aligned with key product types and end markets served:

◆ Couplings, Clutches & Brakes.

Couplings are the interface between two shafts, which enable power to be transmitted from one shaft to the other. Clutches in this segment are devices that use mechanical, hydraulic, pneumatic, or friction type connections to facilitate engaging or disengaging two rotating members. Brakes are combinations of interacting parts that work to slow or stop machinery. Products in this segment are generally used in heavy industrial applications and energy markets.

◆ Electromagnetic Clutches & Brakes.

Products in this segment include brakes and clutches that are used to electronically slow, stop, engage or disengage equipment utilizing electromagnetic friction type connections. Products in this segment are used in industrial and commercial markets including agricultural machinery, material handling, motion control, and turf & garden.

◆ Gearing.

Gears are utilized to reduce the speed and increase the torque of an electric motor or engine to the level required to drive a particular piece of equipment. Gears produced by the Company are primarily utilized in industrial applications.

The following tables show the percentage of net sales and operating income generated by each of our three segments for the quarters and year to date periods ended September 30, 2018 and 2017:

	Net Sales		Year to Date Ended	
	Quarter Ended September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017

Business Outlook

Business Update – September 30, 2018

During the quarter ended September 30, 2018, we saw robust demand across most of our end markets. In addition, our bottom-line performance demonstrates our ability to execute against the Altra Business System to drive growth and leverage operational improvements.

At the beginning of Q4 we completed the transformative combination with the A&S Businesses and have positioned Altra to be a premier global industrial company with an expanded portfolio of technologies and increased exposure to end markets with attractive secular trends including medical, factory automation and robotics. We believe that our significantly expanded position across the technology continuum uniquely positions the Company to drive innovation, better serve our customers across all markets and deliver long-term value for our shareholders.

Fortive Transaction

On October 1, 2018, we consummated the Fortive Transaction. The aggregate purchase price for the A&S Business was approximately \$2,855.7 million, subject to certain post-closing adjustments, and consisted of \$1,400.0 million of cash and debt instruments transferred to Fortive and shares of Altra common stock received by Fortive shareholders valued at approximately \$1,455.7 million. The value of the common stock was based of the closing stock price on the last trade date prior to the A&S Closing Date of \$41.59. The initial accounting for the Fortive Transaction (including the allocation of the purchase price to acquired assets and liabilities) is not complete. The Fortive Transaction was consummated after September 30, 2018 and, accordingly, our operating results for the three and nine months ended September 30, 2018 and 2017 do not include the results of operations of the A&S Business. We financed the cash and debt instruments portion of the Fortive Transaction with the Notes and the Altra Credit Facilities.

During 2018, we expect to incur one-time costs in connection with the Merger and related transactions, including approximately \$85 to \$95 million in transaction-related costs (of which \$45 to \$50 million will be capitalized) and approximately \$24 million in non-recurring implementation costs during the first three years from the A&S Closing Date that Altra management believes are necessary to realize the anticipated synergies from the Fortive Transaction. For the three and nine months ended September 30, 2018, acquisition-related costs included \$4.6 million and \$11.8 million, respectfully, associated with advisory, legal, accounting, integration and other professional fees.

In connection with the Fortive Transaction and effective October 1, 2018, we filed a Certificate of Amendment to our Articles of Incorporation to increase the number of authorized shares of Altra common stock from 90.0 million shares to 120.0 million shares.

Critical Accounting Policies

The preparation of our unaudited condensed consolidated financial statements and related disclosures in conformity with generally accepted accounting principles in the United States (“GAAP”) requires management to make judgments, assumptions and estimates that affect our reported amounts of assets, revenues and expenses, as well as related disclosures of contingent assets and liabilities. We base our estimates on past experiences and other assumptions we believe to be appropriate, and we evaluate these estimates on an on-going basis. See the discussion of critical accounting policies in our Annual Report on Form 10-K for the year ended December 31, 2017. There have been no changes in the identification or application of the Company’s critical accounting policies during the quarter ended September 30, 2018.

	September 30, 2018	September 30, 2017		
Net sales	\$228,483	\$ 214,623	\$13,860	6.5 %

The increase in sales during the quarter ended September 30, 2018 was partially due to price increases of approximately \$3.6 million. The remainder of the increase related to a recovery in sales levels in various end markets in the Couplings, Clutches, and Brakes and Gearing business segments partially offset by the unfavorable effect of changes in foreign exchange rates of \$2.1 million.

	September 30, 2018	September 30, 2017		
Gross profit	\$71,940	\$ 69,013	\$2,927	4.2 %

The increase in SG&A is primarily due to an increase in acquisition related expenses of \$4.6 million partially offset by the impact of price increases and improving end markets. During 2018, we expect to incur one-time costs in connection with the Fortive Transaction, including approximately \$85 to \$95 million in transaction-related costs (of which \$45 to \$50 million will be capitalized).

	September 2018	September 2017		
Research and development expenses (“R&D”)	\$5,733	\$ 6,051	\$ (318)	(5.3)%

	September 2018	September 2017		
Restructuring costs	\$610	\$ 680	\$ (70)	(10.3)%

During 2015 the Company adopted a restructuring plan (“2015 Altra Plan”) in response to weak demand in Europe and to make certain adjustments to improve business effectiveness, reduce the number of facilities and streamline the Company’s cost structure. The actions taken pursuant to the 2015 Altra Plan included reducing headcount, facility consolidations and related asset impairments and limiting discretionary spending to improve profitability. The Company does not expect to incur any additional material costs as a result of the 2015 Altra Plan. The restructuring actions under the 2015 Altra Plan realized approximate savings of \$0.8 million for the quarter ended September 30, 2017. The cost savings for the quarter ended September 30, 2017 were recognized as improvements in Cost of Sale of approximately \$0.3 million and \$0.5 million of SG&A. The total 2015 Altra Plan savings were in line with the Company’s expectations.

During the quarter ended September 30, 2017, the Company commenced the 2017 Altra Plan as a result of the Stromag acquisition and to rationalize its global renewable energy business. The actions taken pursuant to the 2017 Altra Plan include reducing headcount, facility consolidations and the elimination of certain costs. Approximately \$0.6 million of the expense in the current quarter is related to activity in the Couplings, Clutches and Brakes segment under the 2017 Altra Plan. The Company expects to incur approximately \$1.0 to \$3.0 million in additional expense through 2019 related to the 2017 Altra Plan.

Amounts in thousands, except percentage data	Quarter Ended		Change	%
	September 2018	September 2017		
Interest expense, net	\$1,958	\$ 1,811	\$ 147	8.1%

Interest expense increased slightly due to the higher interest rate of the Company's variable rate borrowing under the 2015 Revolving Credit Facility.

	September 30, 2018	September 30, 2017		
Other non-operating income, net	\$644	\$ 696	\$ (52)	7.5%

Other non-operating income in each period in the chart above primarily relates to transaction gains and losses arising from the changes in foreign currency exchange rates related primarily to the Euro, British Pound, and Chinese Renminbi.

Amounts in thousands, except percentage data	Quarter Ended		Change	%
	September 30, 2018	September 30, 2017		
Provision for income taxes	\$5,822	\$ 5,489	\$ 333	6.1%
Provision for income taxes as a percent of income before				
income taxes	32.1 %	29.2 %		

The provision for income tax, as a percentage of income before income taxes, was unchanged for the quarter ended September 30, 2018 as compared to the quarter ended September 30, 2017. The 2018 rate increased as the result of the U.S. tax on non-deductible acquisition expenses related to the Fortive Transaction. The increase is offset by the benefit of the lower U.S. tax rate as part of the 2017 Tax Act.

The actions taken pursuant to the 2015 Altra Plan included reducing headcount, facility consolidations and related asset impairments and limiting discretionary spending to improve profitability. The Company does not expect to incur any additional material costs as a result of the 2015 Altra Plan. The Company took restructuring actions under the 2015 Altra Plan that realized approximate annual savings of \$3.0 million and \$3.7 million in 2017 and 2016, respectively. The Company estimates future annual savings for the remainder of 2018 and 2019, to be approximately \$0.7 million. The cost savings through 2018 were recognized as improvements in SG&A and Cost of Sales of approximately \$2.0 million and \$5.4 million, respectively. The estimated future savings through 2019 are expected to improve SG&A and Cost of Sales by \$0.2 million and \$0.5 million, respectively. The total 2015 Plan savings are in line with the Company's expectations.

During the quarter ended September 30, 2017, the Company commenced a new restructuring plan ("2017 Altra Plan") as a result of the Stromag acquisition and to rationalize its global renewable energy business. The actions taken pursuant to the 2017 Altra Plan include reducing headcount, facility consolidations and the elimination of certain costs. The company expects to incur approximately \$1.0 to \$3.0 million in additional expense through 2019 related to the 2017 Altra Plan. The Company has achieved annual savings of \$1.4 million year to date in 2018 under the 2017 Altra Plan and estimates additional future savings through 2019 to be approximately \$2.3 million. The cost savings through 2018 were recognized as improvements in SG&A and Cost of Sales of

approximately \$0.4 million and \$0.7 million, respectively. The estimated future savings through 2019 are expected to improve SG&A and Cost of Sales by \$0.6 million and \$1.7 million, respectively. The total 2017 Altra Plan savings are in line with the Company's expectations.

The provision for income taxes, as a percentage of income before taxes, increased for the year to date period ended September 30, 2018 compared to the year to date period ended September 30, 2017. The increased income tax is a result of the non-deductible acquisition expenses partially offset by the benefit of the reduced U.S. tax rate as part of the 2017 U.S. Tax Act.

Couplings, Clutches & Brakes

Net sales in the Couplings, Clutches & Brakes segment were \$118.7 million in the quarter ended September 30, 2018, an increase of approximately \$8.6 million or 7.8%, from the quarter ended September 30, 2017. The increase is due to the positive impact of foreign exchange rates and continued recovery in certain of our more profitable end markets. Segment operating income increased approximately \$3.0 million compared to the prior year quarter, primarily as a result of the increased sales and plant consolidations.

Electromagnetic Clutches & Brakes

Net sales in the Electromagnetic Clutches & Brakes segment were \$57.9 million in the quarter ended September 30, 2018, a decrease of approximately \$(0.4) million, or (0.7)%, from the quarter ended September 30, 2017. The decrease is due to the decrease in sales related to the agriculture end market. Segment operating income decrease \$0.4 million compared to the prior year quarter, primarily as a result of the agriculture end market.

Gearing

Net sales in the Gearing segment were \$54.2 million in the quarter ended September 30, 2018, an increase of \$5.8 million or 12.1% from the quarter ended September 30, 2017. The increase is due to the positive impact of changes in foreign exchange rates and the improvement of the North American distribution market. Segment operating income decreased \$0.2 million compared to the prior year quarter.

Liquidity and Capital Resources

Overview

We finance our capital and working capital requirements through a combination of cash flows from operating activities and borrowings under the 2015 Revolving Credit Facility (for periods prior to October 1, 2018) and under the Altra Revolving Credit Facility (for the period beginning October 1, 2018). At October 29, 2018, we have the ability under the Altra Revolving Credit Facility to borrow an additional \$300 million subject to satisfying customary conditions. We expect that our primary ongoing requirements for cash will be for working capital, debt service, capital expenditures, acquisitions, pensions, dividends and share repurchases.

On October 1, 2018 we consummated the Fortive Transaction. The aggregate purchase price for the A&S Business was approximately \$2,855.7 million, subject to certain post-closing adjustments, and consisted of (i) \$1,400.0 million of cash and debt instruments transferred to Fortive and (ii) shares of Altra common stock received by Fortive shareholders valued at approximately \$1,455.7 million. The value of the common stock was based on the closing stock price on the last trade date prior to the A&S Closing Date of \$41.59. We financed the cash and debt instruments portion of the Fortive Transaction with the Notes and the Altra Credit Facilities.

We believe, based on current and projected levels of cash flows from operating activities, together with our ability to borrow under the Altra Revolving Credit Facility, we have sufficient liquidity to meet our short-term and long-term needs to make required payments of interest on our debt, make amortization payments under the Altra Credit facilities, fund our operating needs, fund working capital and capital expenditure requirements and comply with the financial ratios in our debt agreements. In the event additional funds are needed for operations, we could attempt to obtain new debt and/or refinance existing debt, or attempt to raise capital in the equity markets. There can be no assurance however that additional debt or equity financing will be available on commercially acceptable terms, if at all.

Notes

On September 26, 2018, Newco announced the pricing of the Notes in a Private Placement. On October 1, 2018, the Private Placement closed, and Newco sold the Primary Notes and an unaffiliated selling securityholder sold the Selling Securityholder Notes. The Notes will mature on October 1, 2026. Interest on the Notes accrues from October 1, 2018, and the first interest payment date on the Notes will be April 1, 2019. The Notes may be redeemed at the option of Newco on or after October 1, 2023, in the manner and at the redemption prices specified in the indenture governing the Notes, plus accrued and unpaid interest thereon, if any, to, but excluding, the date of redemption. The notes are guaranteed on a senior unsecured basis by certain domestic subsidiaries of Newco and, in connection with consummation of the Fortive Transaction, by Altra and certain of its domestic subsidiaries.

The Unaffiliated selling securityholder received the Selling Securityholder Notes from Fortive prior to the closing of the Private Placement in exchange for certain outstanding Fortive debt held or acquired by the unaffiliated selling securityholder. Newco used the

net proceeds of the Primary Notes to fund a dividend payment to Fortive prior to the consummation of the Merger, and Newco did not receive any proceeds from the sale of the Selling Securityholder Notes.

Altra Credit Agreement

On the A&S Closing Date, Altra entered into the Altra Credit Agreement with certain subsidiaries of Altra, JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, and a syndicate of lenders. The Altra Credit Agreement provides for the Altra Term Loan Facility and the Altra Revolving Credit Facility. The proceeds of the Altra Term Loan Facility were used to (i) consummate the Direct Sales, (ii) repay in full and extinguish all outstanding indebtedness for borrowed money under the 2015 Credit Agreement and (iii) pay certain fees, costs, and expenses in connection with the consummation of the Fortive Transaction. Any proceeds of the Altra Term Loan Facility not so used may be used for general corporate purposes. The proceeds of the Altra Revolving Credit Facility will be used for working capital and general corporate purposes.

The Altra Credit Facilities are guaranteed on a senior secured basis by Altra and by each direct or indirect wholly owned domestic subsidiary of Altra, including following the Merger, Newco and each of its direct or indirect wholly owned domestic subsidiaries, subject to certain customary exceptions.

At Altra's option, borrowings under the Altra Term Loan Facility will bear interest at a per annum rate equal to a "Eurocurrency Rate" plus 2.00%, in the case of Eurocurrency Rate borrowings, or equal to a "Base Rate" plus 1.00%, in the case of Base Rate borrowings. At the applicable borrower's option, borrowings under the Altra Revolving Credit Facility will initially bear interest at a per annum rate equal to a Eurocurrency Rate plus 2.00%, in the case of Eurocurrency Rate borrowings, or equal to a Base Rate plus 1.00%, in the case of Base Rate borrowings, and thereafter will bear interest at a per annum rate equal to a Eurocurrency Rate or Base Rate, as applicable, plus an interest rate spread determined by reference to a pricing grid based on Altra's senior secured net leverage ratio. In addition, Altra will be required to pay fees that will fluctuate between 0.250% per annum to 0.375% per annum on the unused amount of the Altra Revolving Credit Facility, based upon Altra's senior secured net leverage ratio.

Revolving borrowings and issuances of letters of credit under the Altra Revolving Credit Facility are subject to the satisfaction of customary conditions, including the accuracy of representations and warranties and the absence of defaults.

The Altra Credit Agreement contains usual and customary representations and warranties, and usual and customary affirmative and negative covenants, including limitations on liens, investments, restricted payments, additional indebtedness and asset sales and mergers. In addition, the Altra Credit Agreement requires that Altra maintain a specified maximum senior secured leverage ratio and a specified minimum interest coverage ratio. The obligations of the borrowers of the Altra Credit Facilities under the Altra Credit Agreement may be accelerated upon customary

events of default, including non-payment of principal, interest, fees and other amounts, inaccuracy of representation and warranties, violation of covenants, cross default and cross acceleration, voluntary and involuntary bankruptcy or insolvency proceedings, inability to pay debts as they become due, material judgments, ERISA events, actual or asserted invalidity of security documents or guarantees and change in control.

2015 Credit Agreement

On October 22, 2015, the Company entered into a Second Amended and Restated Credit Agreement by and among the Company, Altra Industrial Motion Netherlands, B.V. (“Altra Netherlands”), one of the Company’s foreign subsidiaries (collectively with the Company, the “Borrowers”), the lenders party to the Second Amended and Restated Credit Agreement from time to time (collectively, the “Lenders”), J.P. Morgan Securities LLC, Wells Fargo Securities, LLC, and KeyBanc Capital Markets, Inc., as joint lead arrangers and joint bookrunners, and JPMorgan Chase Bank, N.A., as administrative agent (the “Administrative Agent”), to be guaranteed and secured by certain domestic subsidiaries of the Company, and which may be amended from time to time (the “2015 Credit Agreement”).

On October 1, 2018, in connection with the Fortive Transaction and the entering into the Altra Credit Agreement, the 2015 Credit Agreement was terminated and all outstanding indebtedness for borrowed money thereunder was repaid in full.

Under the 2015 Credit Agreement, the amount of the Company’s prior revolving credit facility was increased to \$350 million (the “2015 Revolving Credit Facility”). The amounts available under the 2015 Revolving Credit Facility can be used for general corporate purposes, including acquisitions, and to repay existing indebtedness. The stated maturity of the 2015 Revolving Credit Facility is October 22, 2020.

The amounts available under the 2015 Revolving Credit Facility may be drawn upon in accordance with the terms of the 2015 Credit Agreement. All amounts outstanding under the 2015 Revolving Credit Facility are due on the stated maturity or such earlier time, if any, required under the 2015 Credit Agreement. The amounts owed under the 2015 Revolving Credit Facility may be prepaid at any time, subject to usual notification and breakage payment provisions. Interest on the amounts outstanding under the 2015

Revolving Credit Facility is calculated using either an ABR Rate or Eurodollar Rate, plus the applicable margin. The applicable margins for Eurodollar Loans are between 1.25% and 2.00%, and for ABR Loans are between 0.25% and 1.00%. The amounts of the margins are calculated based on either a consolidated total net leverage ratio (as defined in the 2015 Credit Agreement), or the then applicable rating(s) of the Company's debt if and then to the extent as provided in the 2015 Credit Agreement. A portion of the 2015 Revolving Credit Facility may also be used for the issuance of letters of credit, and a portion of the amount of the 2015 Revolving Credit Facility is available for borrowings in certain agreed upon foreign currencies. The 2015 Credit Agreement contains various affirmative and negative covenants and restrictions, which among other things, will require the Borrowers to provide certain financial reports to the Lenders, require the Company to maintain certain financial covenants relating to consolidated leverage and interest coverage, limit maximum annual capital expenditures, and limit the ability of the Company and its subsidiaries to incur or guarantee additional indebtedness, pay dividends or make other equity distributions, purchase or redeem capital stock or debt, make certain investments, sell assets, engage in certain transactions, and effect a consolidation or merger. The 2015 Credit Agreement also contains customary events of default.

On October 21, 2016, the Company entered into an agreement to amend the 2015 Credit Agreement (the "October 2016 Amendment"). The October 2016 Amendment, which became effective upon the December 30, 2016 closing of Altra's purchase of Stromag (the "Stromag Acquisition"), increased the 2015 Revolving Credit Facility by \$75 million to \$425 million. The Company borrowed additional funds under the increased 2015 Revolving Credit Facility to finance the Stromag Acquisition. The October 2016 Amendment also reset the possible expansion of up to \$150 million of additional future loan commitments. In addition, the October 2016 Amendment increased the multicurrency sublimit to \$250 million and adjusted certain financial covenants

As of September 30, 2018 and December 31, 2017, we had \$244.9 million and \$262.9 million outstanding under the 2015 Revolving Credit Facility, respectively. As of September 30, 2018 and December 31, 2017, we had \$4.2 million and \$3.5 million in letters of credit outstanding, respectively. We were in compliance in all material respects with all covenants in the 2015 Credit Agreement at September 30, 2018.

Convertible Senior Notes

In March 2011, the Company issued convertible senior notes (the "Convertible Notes") due March 1, 2031. The Convertible Notes were guaranteed by the Company's U.S. domestic subsidiaries. Interest on the Convertible Notes was payable semi-annually in arrears, on March 1 and September 1 of each year, commencing on September 1, 2011 at an annual rate of 2.75%. Proceeds from the Convertible Notes offering were \$81.3 million, net of fees and expenses that were capitalized.

On December 12, 2016, the Company gave notice to The Bank of New York Mellon Trust Company, N.A., the Trustee under the Indenture governing the Convertible Notes of its intention to redeem all of the Convertible Notes outstanding on January 12, 2017 (the "Redemption Date"), pursuant to the optional redemption provisions in the Indenture. The redemption price for the Convertible Notes was 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the Redemption Date plus a Make-Whole Premium equal to the present values of the remaining scheduled payments of interest on any Convertible Notes through March 1, 2018 (excluding interest accrued to, but excluding, the Redemption Date). In lieu of receiving the redemption price, holders of the Notes could surrender their Convertible Notes for conversion at any time before January 9, 2017. The conversion rate of the Convertible Notes was 39.0809 shares of the Company's common stock for each \$1,000 of outstanding principal of the Convertible Notes. As of December 31, 2016, Convertible Notes with an outstanding principal amount of approximately \$39.3 million were surrendered for conversion resulting in the issuance of approximately 1.5 million shares of the Company's common stock. As a result of the conversion, the Company

incurred a loss on extinguishment of debt of approximately \$1.9 million and the carrying value of the remaining Convertible Notes was \$42.9 million net of unamortized discount as of December 31, 2016. In January 2017, additional Convertible Notes with an outstanding principal amount of approximately \$44.7 million were converted resulting in the issuance of 1.7 million shares of the Company's common stock, and \$0.9 million of Convertible Notes were redeemed for cash. All Convertible Notes were converted or redeemed as of January 12, 2017.

Borrowings

The following is a summary of our borrowings as of September 30, 2018 and December 31, 2017, respectively:

	Amounts in millions	
	September 30, 2018	December 31, 2017
Debt:		
2015 Revolving Credit Facility	\$244.9	\$ 262.9
Mortgages	11.4	12.8
Capital leases	0.1	0.2
Total debt	\$256.5	\$ 275.9

Cash and Cash Equivalents

The following is a summary of our cash balances and cash flows (in thousands) as of and for the year to date periods ended September 30, 2018 and September 30, 2017, respectively:

	September 30, 2018	September 30, 2017	Change
Cash and cash equivalents at the beginning of the year	\$ 51,994	\$ 69,118	\$(17,124)
Cash flows provided from operating activities	58,979	43,289	15,690
Cash flows used in investing activities	(23,792)	(17,157)	(6,635)
Cash flows used in financing activities	(36,617)	(49,248)	12,631
Effect of exchange rate changes on cash and cash equivalents	(467)	7,149	(7,616)
Cash and cash equivalents at the end of the period	\$ 50,097	\$ 53,151	\$(3,054)

Cash Flows for 2018

Net cash provided from operating activities was approximately \$59.0 million for the year to date period ended September 30, 2018. This was generated by net income of \$40.3 million and the net impact of the add-back of certain items including non-cash depreciation, amortization of intangible assets, stock-based compensation, amortization of deferred financing costs, loss on settlement of pension plan, loss on disposal of fixed assets, and non-cash loss on foreign currency which totaled approximately \$37.9 million. This was mostly offset by a net decrease in assets and liabilities of approximately \$19.2 million.

Net cash used in investing activities for the year to date period ended September 30, 2018 increased approximately \$6.6 million compared to the year to date period ended September 30, 2017. The decrease is attributable to the purchase of Aluminum Die Casting S.r.L. and the working capital settlement received under the Stromag Sale and

Purchase Agreement in the year to date period ended September 30, 2017.

Net cash used in financing activities in the year to date period ended September 30, 2018 as compared to the year to date period ended September 30, 2017 decreased by \$12.6 million. This increase relates primarily to lower net debt payments on the 2015 Revolving Credit Facility in the year to date period ended September 30, 2018, offset by an increase in dividend payments of \$1.7 million and higher impact of shares surrendered.

We intend to use our remaining cash and cash equivalents and cash flow from operations to provide for our working capital needs, to fund potential future acquisitions, to service our debt, including principal payments, for capital expenditures, for pension funding, for share repurchases, and to pay dividends to our stockholders. As of September 30, 2018 we have approximately \$39.5 million of cash and cash equivalents held by foreign subsidiaries that are generally subject to U.S. income taxation on repatriation to the U.S. We believe, based on current and projected levels of cash flows from operating activities, together with our ability to borrow under the Altra Revolving Credit Facility, we have sufficient liquidity to meet our short-term and long-term needs to make required payments of interest on our debt, make amortization payments under the Altra Credit Facilities, fund our operating needs, fund working capital and capital expenditure requirements and comply with the financial ratios in our debt agreements.

Contractual Obligations

There were no material changes in our contractual obligations during the year to date period ended September 30, 2018.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various market risk factors such as fluctuating interest rates, changes in foreign currency rates, and changes in commodity prices. During the reporting period, there have been no material changes to the quantitative and qualitative disclosures regarding our market risk set forth in our Annual Report on Form 10-K for the year ended December 31, 2017.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of September 30, 2018, our management, under the supervision and with the participation of our chief executive officer and chief financial officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Exchange Act, such as this Quarterly Report on Form 10-Q, is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosures. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of September 30, 2018, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during our fiscal quarter ended September 30, 2018, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are, from time to time, party to various legal proceedings arising out of our business. During the reporting period, except there have been no material changes to the description of legal proceedings set forth in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 23, 2018.

On August 8, 2018, a purported class action was filed against Altra and each of the members of its Board of Directors and Fortive in the Superior Court of Norfolk County, Massachusetts, by Brian Levy, an individual who purports to be a stockholder of Altra. In connection with the complaint, the plaintiff, among other things, filed a motion to preliminarily enjoin the stockholders' vote on matters related to the Merger at the Special Meeting of Stockholders of Altra. On August 31, 2018, the Superior Court of Norfolk County, Massachusetts denied plaintiff's motion to preliminarily enjoin the Special Meeting of Stockholders. On September 4, 2018, Altra held the Special Meeting of Stockholders and its stockholders approved the issuance of shares of Altra common stock required to complete the Merger. On September 13, 2018, the plaintiff and all defendants named in the complaint, by and through their respective counsel, agreed to dismiss the class action without prejudice.

Item 1A. Risk Factors

The reader should carefully consider the Risk Factors described in our Quarterly Report on Form 10-Q the period ended June 30, 2018 and our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission. Those risk factors described elsewhere in this report on Form 10-Q, our Quarterly Report on Form 10-Q for the period ended June 30, 2018 and in our Annual Report on Form 10-K for the year ended December 31, 2017 are not the only ones we face, but are considered to be the most material. These risk factors could cause our actual results to differ materially from those stated in forward looking statements contained in this Form 10-Q and elsewhere. All risk factors stated in our Quarterly Report on form 10-Q for the period ended June 30, 2018 and our Annual Report on Form 10-K for the year ended December 31, 2017 are incorporated herein by reference.

On October 1, 2018, Altra and Fortive consummated the Fortive Transaction to effect the transfer of the A&S Business to the Company. See Part 1, Item 2 of this report. For additional information regarding the Fortive Transaction, please see our Current Report on Form 8-K filed on October 1, 2018 and our Registration Statement on Form S-4 filed with, and deemed effective by, the SEC on August 27, 2018 (the "Registration Statement"). In addition to the risks we described in our Annual Report on Form 10-K for the year ended December 31, 2017, we have identified the following risks related to the Fortive Transaction:

The Fortive Transaction may not be successful or achieve its anticipated benefits.

We may not be able to successfully realize anticipated growth opportunities or integrate our business and operations with the A&S Business's business and operations. We will have significantly more revenue, expenses, assets and

employees than we did prior to the Fortive Transaction. In the Fortive Transaction, we assumed certain liabilities of the A&S Business and other obligations (including collective bargaining agreements and certain non-U.S. pension obligations with respect to transferred employees). We may not successfully or cost-effectively integrate the A&S Business's business and operations into our existing business and operations. Even if we are able to integrate the combined businesses and operations successfully, this integration may not result in the realization of the full benefits of the growth and other opportunities that we currently expect from the Fortive Transaction within the anticipated time frame, or at all.

The failure to successfully integrate the A&S Business and any future acquisitions into our business within the expected timetable could adversely affect our future results and the market price of Altra's common stock.

The success of the Fortive Transaction depends, in large part, on our ability to realize the anticipated benefits of the Fortive Transaction and our sales and profitability. To realize these anticipated benefits, we must successfully integrate the A&S Business in our businesses. This integration will be complex and time-consuming. The failure to successfully integrate and manage the challenges presented by the integration process may result in the failure to achieve some or all of the anticipated benefits of the Fortive Transaction.

Potential difficulties that may be encountered in the integration process include, among others:

- the failure to implement our business plan;

- lost sales and customers as a result of customers of Altra or the A&S Business deciding not to do business with us;

- risks associated with managing a larger and more complex business;

- integrating personnel of Altra and the A&S Business while maintaining focus on providing consistent, high-quality products and service to customers;

- the loss of key employees;

- unanticipated issues in integrating manufacturing, logistics, information, communications and other systems;

- possible inconsistencies in standards, controls, procedures, policies and compensation structures;

- the impact on our internal controls and compliance with the regulatory requirements under the Sarbanes-Oxley Act of 2002; and

- potential unknown liabilities and unforeseen expenses associated with the Fortive Transaction.

If any of these events were to occur, our ability to maintain relationships with customers, suppliers and employees or our ability to achieve the anticipated benefits of the Fortive Transaction could be adversely affected, or could reduce our sales or earnings or otherwise adversely affect our business and financial results and, as a result, adversely affect the market price of our common stock.

Apart from the Fortive Transaction, as part of our growth strategy, we have made and expect to continue to make, acquisitions. Our continued growth may depend on our ability to identify and acquire companies that complement or enhance our business on acceptable terms. We may not be able to identify or complete future acquisitions. We may not be able to integrate successfully our recent acquisitions, or any future acquisitions, operate the acquired companies profitably or realize the potential benefits from these acquisitions.

The significant costs related to the Fortive Transaction could have a material adverse effect on our liquidity, cash flows and operating results.

During 2018, we expect to incur one-time costs in connection with the Fortive Transaction, including approximately \$85 to \$95 million in transaction-related costs (of which \$45 to \$50 million will be capitalized) and approximately \$24 million in non-recurring implementation costs during the first three years from the A&S Closing Date that Altra management believes are necessary to realize the anticipated synergies from the Fortive Transaction. For the three and nine months ended September 30, 2018, acquisition-related costs included \$4.6 million and \$11.8 million, respectively, associated with advisory, legal, accounting, integration and other professional fees. The incurrence of

these costs may have a material adverse effect on our liquidity, cash flows and operating results in the periods in which they are incurred.

The substantial amount of indebtedness that we incurred to consummate the Fortive Transaction could materially adversely affect our financial conditions.

Our level of indebtedness increased in connection with the Fortive Transaction, as discussed in Note 17, Subsequent Events. Our increased level of indebtedness could have important consequences, including but not limited to:

- limiting our ability to fund working capital, capital expenditures and other general corporate purposes;

• limiting our ability to accommodate growth by reducing funds otherwise available for other corporate purposes and to compete, which in turn could prevent us from fulfilling our obligations under our indebtedness;

• limiting our operational flexibility due to the covenants contained in our debt agreements;

• requiring us to dispose of significant assets in order to satisfy our debt service and other obligations if we are not able to satisfy these obligations from cash from operations or other sources;

• to the extent that our debt is subject to floating interest rates, increasing our vulnerability to fluctuations in market interest rates;

• limiting our ability to buy back our common stock or pay cash dividends;

limiting our flexibility in planning for, or reacting to, changes in our business or industry or economic conditions, thereby limiting our ability to compete with companies that are not as highly leveraged; and

- increasing our vulnerability to economic downturns.

Our ability to generate sufficient cash flow from operations to make scheduled payments on our debt will depend on a range of economic, competitive and business factors, many of which are outside our control. There can be no assurance that our business will generate sufficient cash flow from operations to make these payments. If we are unable to meet our expenses and debt obligations, we may need to refinance all or a portion of our indebtedness before maturity, sell assets or issue additional equity. We may not be able to refinance any of our indebtedness, sell assets or issue additional equity on commercially reasonable terms or at all, which could cause us to default on our obligations and impair our liquidity. Our inability to generate sufficient cash flow to satisfy our debt obligations, or to refinance our debt obligations on commercially reasonable terms, would have a material adverse effect on our business, financial condition and results of operations, as well as on our ability to satisfy our debt obligations.

Our ability to comply with the financial maintenance covenants in the Altra Revolving Credit Facility cannot be assured.

The Altra Revolving Credit Facility contains certain financial maintenance covenants requiring Altra to not exceed a maximum consolidated senior secured net leverage ratio and to maintain a minimum consolidated cash interest coverage ratio. There can be no assurance that we will be able to remain in compliance with these ratios. If we fail to comply with either of these covenants in a future period and are not able to obtain waivers from the lenders thereunder, we would need to refinance the Altra revolving Credit Facility. However, there can be no assurance that such refinancing would be available on terms that would be acceptable to us or at all.

We are required to abide by potentially significant restrictions under the Tax Matters Agreement which could limit our ability to undertake certain corporate actions (such as the issuance of Altra common stock or the undertaking of a merger or consolidation) that otherwise could be advantageous.

To preserve the tax-free treatment to Fortive and/or its stockholders of the Distribution and certain related transactions, under the Tax Matters Agreement, we are restricted from taking certain actions that could prevent such transactions from being tax-free. These restrictions may limit our ability to pursue certain strategic transactions or engage in other transactions, including using Altra common stock to make acquisitions and in connection with equity capital market transactions that might increase the value of our business.

Our estimates and judgements related to the acquisition accounting models used to record the purchase price allocation may be inaccurate.

We made significant accounting judgements and estimates for the application of acquisition accounting under GAAP, and the underlying valuation models. Our business, operating results and financial condition could be materially and adversely impacted in future period if our accounting judgements and estimates related to these models prove to be inaccurate.

We may be required to recognize impairment charges for goodwill and other intangible assets.

The Fortive Transaction will add approximately \$3.1 billion of goodwill and other intangible assets to our consolidated balance sheet. In accordance with GAAP, management periodically assesses these assets to determine if they are impaired. Significant negative industry or economic trends, disruptions to our business, inability to effectively integrate acquired businesses, unexpected significant changes or planned changes in use of the assets, divestitures and market capitalization declines may impair goodwill and other intangible assets. Any charges relating to such impairments would adversely affect results of operations in the periods recognized.

Our business, financial condition and results of operations may be adversely affected if we cannot negotiate terms that are as favorable as those that Fortive had received prior to the closing of the Fortive Transaction.

Prior to consummation of the Fortive Transaction, certain functions (such as treasury, cash management, tax compliance, benefits, corporate development, internal audit, purchasing and information systems) for the A&S Business were generally performed or supported under centralized systems that were not transferred to us and, in some cases, under contracts that are also used for Fortive's other businesses and which were not assigned to us with the A&S Business. In addition, some other contracts that Fortive or its subsidiaries are a party to on behalf of the A&S Business require consents of their parties to assign them to Newco. While Fortive, under the Transition Services Agreement, has agreed to provide us with certain limited services, there can be no assurance that we will be able to obtain those consents or negotiate terms that are as favorable as those Fortive had received when and if we replace these services with our own agreements for similar services. Although we believe that we will be able to obtain any such consents or enter

into new agreements for similar services, it is possible that the failure to obtain consents for or replace a significant number of these agreements for any of these services or to replace them on terms that are as favorable as those Fortive had received could have a material adverse impact on our business, financial condition and results of operations.

Our success also depends on relationships with third parties and pre-existing customers of Altra and the A&S Business, which relationships may be affected by customer or third-party preferences or public attitudes about the Fortive Transaction. Any adverse changes in these relationships could adversely affect our business, financial condition or results of operation.

Our success will depend in part on our ability to maintain and renew relationships with pre-existing customers, suppliers and other third parties of both Altra and the A&S Business, and our ability to establish new relationships. There can be no assurance that we will be able to maintain and renew pre-existing contracts and other business relationships, or enter into or maintain new contracts and other business relationships, on acceptable terms, if at all. The failure to maintain important business relationships could have a material adverse effect on our business, financial condition or results of operations.

We operate in the highly competitive power transmission and motion control industries and if we are not able to compete successfully our business may be significantly harmed.

We operate in highly fragmented and very competitive markets in the power transmission and motion control industries. Some of our competitors have achieved substantially more market penetration in certain of the markets in which we operate, and some of our competitors are larger than us and have greater financial and other resources. With respect to certain of our products, we compete with divisions of our original equipment manufacturer customers. Competition in our business lines is based on a number of considerations, including quality, reliability, pricing, availability, and design and application engineering support. Our customers increasingly demand a broad product range and we must continue to develop our expertise in order to manufacture and market these products successfully. To remain competitive, regular investment in manufacturing, customer service and support, marketing, sales, research and development and intellectual property protection is required. In the future, we may not have sufficient resources to continue to make such investments and may not be able to maintain a competitive position within each of the markets we serve. We may have to adjust the prices of some of our products to stay competitive.

Additionally, some of our larger, more sophisticated customers are attempting to reduce the number of vendors from which they purchase in order to increase their efficiency. If we are not selected to become one of these preferred providers, we may lose market share in some of the markets in which we compete.

There is substantial and continuing pressure on major original equipment manufacturers and larger distributors to reduce costs, including the cost of products purchased from outside suppliers. As a result of cost pressures from customers, our ability to compete depends in part on their ability to generate production cost savings and, in turn, to find reliable, cost effective outside suppliers to source components or manufacture their products. If we are unable to generate sufficient cost savings in the future to offset price reductions, then our gross margin could be materially adversely affected.

Our growth could suffer if the markets in which we sell our products and services experience cyclical.

Our growth will depend in part on the growth of the markets which we serve and on the U.S. and global economies in general. Some of the markets Altra serves are highly cyclical, such as the metals, mining and energy markets, including oil, gas and renewable energy. The A&S Business serves certain industries that have historically been cyclical and have experienced periodic downturns that have had a material adverse impact on demand for the products that the A&S Business offers. In such an environment, expected cyclical activity or sales may not occur or may be delayed and may result in significant quarter-to-quarter variability in our performance. Any of these factors could adversely affect the business, financial condition and results of our operations in any given period.

Defects, quality issues, inadequate disclosure or misuse with respect to our products and capabilities could adversely affect our business, reputation and financial statements.

Defects in, quality issues with respect to, or inadequate disclosure of risks relating to our products or the misuse of our products, could lead to lost profits and other economic damage, property damage, personal injury or other liability resulting in third-party claims, criminal liability, significant costs, damage to our reputation and loss of business. Any of these factors could adversely affect our business, financial condition and results of operation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Recent Sales of Unregistered Equity Securities

(1) On October 19, 2016, our Board of Directors approved a new share repurchase program authorizing the buyback of up to \$30.0 million of the Company's common stock through December 31, 2019 (the "2016 Repurchase Program"). The 2016 Repurchase Program was announced on October 21, 2016, replaces the previous share repurchase

program which was terminated. The Company is authorized to purchase shares on the open market, through block trades, in privately negotiated transactions, in compliance with SEC Rule 10b-18 (including through Rule 10b5-1 plans), or in any other appropriate manner. The timing of the shares repurchased will be at the discretion of management and will depend on a number of factors, including price, market conditions and regulatory requirements. Shares acquired through the 2016 Repurchase Program will be retired. The Company retains the right to limit, terminate, or extend the 2016 Repurchase Program at any time without prior notice. The Company expects to fund any further repurchases of its common stock through a combination of cash on hand and cash generated by operations.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

Disclosure of Activities Under Section 13(r) of the Securities Exchange Act of 1934

Under Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012, which added Section 13(r) to the Securities Exchange Act of 1934, as amended, we are required to disclose whether Altra or any of its affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or certain designated individuals or entities. Disclosure is required even when the activities were conducted outside the United States by non-U.S. entities and even when such activities were conducted in compliance with applicable law. The following information is disclosed pursuant to Section 13(r). None of the following activities involved U.S. affiliates of Altra.

During the reporting period, Bibby Transmissions Limited, a subsidiary of Altra organized and existing under the laws of England (“Bibby”), sold couplings to a customer in the United Kingdom, for ultimate re-sale to an Iranian end user for use in a gas treating plant. Gross revenues received by Bibby in connection with this transaction were approximately GBP 60.6 thousand and net profits were approximately GBP 12.9 thousand.
