Item 2.02. Results of Operations and Financial Condition.

Management of Worthington Industries, Inc. (the “Registrant”) conducted a conference call on December 18, 2018, beginning at approximately 2:30 p.m., Eastern Time, to discuss the Registrant’s unaudited financial results for the second quarter of fiscal 2019 (the fiscal quarter ended November 30, 2018). Additionally, the Registrant’s management addressed certain issues related to the outlook for the Registrant and its subsidiaries and their respective markets for the coming months. A copy of the transcript of the conference call is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The information contained in this Item 2.02 and in Exhibit 99.1 furnished with this Current Report on Form 8-K, is being furnished pursuant to Item 2.02 and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that Section, unless the Registrant specifically states that the information is to be considered “filed” under the Exchange Act or incorporates the information by reference into a filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act.

In the conference call, management referred to quarterly earnings per share, excluding restructuring charges and quarterly earnings per share, excluding restructuring and impairment charges. Each of these represents a non-GAAP financial measure and is used by management as a measure of operating performance. Earnings per share, excluding restructuring charges and earnings per share, excluding restructuring and impairment charges, are calculated by adding impairment of goodwill and long-lived assets (if applicable) and restructuring and other expense (income), net (each after-tax) to net earnings attributable to controlling interest, and dividing the result by the average diluted common shares for the period. The difference between the GAAP-based financial measure of diluted earnings per share attributable to controlling interest and the non-GAAP financial measures of diluted earnings per share, excluding restructuring charges, and diluted earnings per share, excluding restructuring and impairment charges for the fiscal quarters ended November 30, 2018 and 2017, as mentioned in the conference call, is outlined below:

	Three Months Ended November 30, 2018

In the conference call, management referred to operating income/operating loss excluding restructuring charges for the Registrant’s Steel Processing, Pressure Cylinders and Engineered Cabs operating segments. Each represents a non-GAAP financial measure and is used by management as a measure of operating performance. Operating income/operating loss excluding restructuring charges is calculated by adding impairment of goodwill and long-lived assets (if applicable) and restructuring and other expense (income), net to operating income/operating loss. The difference between the GAAP-based measure of operating income/operating loss and the non-GAAP financial measure of operating income/operating loss excluding restructuring charges for the fiscal quarters ended November 30, 2018 and 2017, as mentioned in the conference call, is outlined below for the Registrant’s Steel Processing, Pressure Cylinders and Engineered Cabs operating segments:

In the conference call, management referred to earnings before interest, taxes, depreciation and amortization (“EBITDA”) and trailing twelve months adjusted EBITDA. These represent non-GAAP financial measures and are used by management as measures of operating performance. EBITDA is calculated by adding or subtracting, as appropriate, interest expense, income tax expense (benefit) and depreciation and amortization to net earnings attributable to controlling interest and adjusted EBITDA is calculated by adding impairment of goodwill and long-lived assets, restructuring and other expense (income), net and other non-recurring income, net (each pre-tax) to EBITDA. The difference between the GAAP-based measure of net earnings attributable to controlling interest and the non-GAAP financial measure of adjusted EBITDA for the trailing twelve months ended November 30, 2018 as mentioned in the conference call, is outlined below.
