NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2015

NOTE 1 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Business Overview

Omega Healthcare Investors, Inc. (“Omega” or the “Company”) has one reportable segment consisting of investments in healthcare-related real estate properties. Our core business is to provide financing and capital to the long-term healthcare industry with a particular focus on skilled nursing facilities (“SNFs”) located in the United States. Our core portfolio consists of long-term leases and mortgage agreements. All of our leases are “triple-net” leases, which require the tenants to pay all property-related expenses. Our mortgage revenue derives from fixed-rate mortgage loans, which are secured by first mortgage liens on the underlying real estate and personal property of the mortgagor.

Basis of Presentation

The accompanying unaudited consolidated financial statements for Omega have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) regarding interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. generally accepted accounting principles (“GAAP”) for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations for the interim periods reported herein are not necessarily indicative of results to be expected for the full year. We have evaluated all subsequent events through the date of the filing of this Form 10-Q. These unaudited consolidated financial statements should be read in conjunction with the financial statements and the footnotes thereto included in our latest Annual Report on Form 10-K.

Our consolidated financial statements include the accounts of (i) Omega and (ii) all direct and indirect wholly owned subsidiaries of Omega. All inter-company accounts and transactions have been eliminated in consolidation of the financial statements.

On April 1, 2015, Aviv REIT Inc., a Maryland corporation (“Aviv”), merged (the “Merger”) with and into a wholly owned subsidiary of Omega, pursuant to the terms of that certain Agreement and Plan of Merger, dated as of October 30, 2014 (the “Merger Agreement”), by and among the Company, Aviv, OHI Healthcare Properties Holdco, Inc., a Delaware corporation and a direct wholly-owned subsidiary of Omega (“Merger Sub”), OHI Healthcare Properties Limited Partnership, a Delaware limited partnership (“Omega OP” or the “Operating Partnership”), and Aviv Healthcare Properties Limited Partnership, a Delaware limited partnership (the “Aviv OP”).

Prior to April 1, 2015 and in accordance with the Merger Agreement, Omega restructured the manner in which it holds its assets by converting to an umbrella partnership real estate investment trust structure (the “UPREIT Conversion”). As a result of UPREIT conversion, substantially all of the Company’s assets are held by an Operating Partnership which is a subsidiary of the Company. See Note 15 – Subsequent Events for more details.

Recent Accounting Pronouncements

Amendments to the Consolidation Analysis

In February 2015, the Financial Accounting Standards Board (“FASB”) issued updated guidance that makes targeted amendments to the current consolidation accounting guidance. The update is in response to accounting complexity concerns, particularly from the asset management industry. The guidance simplifies consolidation accounting by reducing the number of approaches to consolidation, provides a scope exception to registered money market funds and similar unregistered money market funds and ends the indefinite deferral granted to investment companies from applying the variable interest entity guidance.

The updated guidance is effective for annual and interim periods beginning after December 15, 2015. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs. This standard amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of as a deferred charge. It is effective for annual reporting periods beginning after December 15, 2015, but early adoption is permitted. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Revenue Recognition

In May 2014, the FASB issued a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The effective date is for periods beginning after December 15, 2016. We are currently evaluating the impact, if any, the adoption of this standard will have on our consolidated financial statements.

Accounts Receivable

Accounts receivable includes: contractual receivables, effective yield interest receivables, straight-line rent receivables and lease inducements, net of an estimated provision for losses related to uncollectible and disputed accounts. Contractual receivables relate to the amounts currently owed to us under the terms of our lease and loan agreements. Effective yield interest receivables relate to the difference between the interest income recognized on an effective yield basis over the term of the loan agreement and the interest currently due to us according to the contractual agreement. Straight-line receivables relate to the difference between the rental revenue recognized on a straight-line basis and the amounts currently due to us according to the contractual agreement. Lease inducements result from value provided by us to the lessee, at the inception or renewal of the lease, are amortized as a reduction of rental revenue over the non-cancellable lease term.

On a quarterly basis, we review our accounts receivable to determine their collectability. The determination of collectability of these assets requires significant judgment and is affected by several factors relating to the credit quality of our operators that we regularly monitor, including (i) payment history, (ii) the age of the contractual receivables, (iii) the current economic conditions and reimbursement environment, (iv) the ability of the tenant to perform under the terms of their lease and/or contractual loan agreements and (v) the value of the underlying collateral of the agreement. If we determine collectability of any of our contractual receivables is at risk, we estimate the potential uncollectible amounts and provide an allowance. In the case of a lease recognized on a straight-line basis or existence of lease inducements, we generally provide an allowance for straight-line accounts receivable and/or the lease inducements when certain conditions or indicators of adverse collectability are present.

A summary of our net receivables by type is as follows:

	March 31, 2015	December 31, 2014
	(in thousands)	
Contractual receivables	\$ 4,969	\$ 4,799
Effective yield interest receivables	7,352	6,232
Straight-line receivables	148,927	143,652
Lease inducements	15,681	13,571
Allowance	(52)	(78)
Accounts receivable – net	\$ 176,877	\$ 168,176

We continuously evaluate the payment history and financial strength of our operators and have historically established allowance reserves for straight-line rent adjustments for operators that do not meet our requirements. We consider factors such as payment history and the operator’s financial condition as well as current and future anticipated operating trends when evaluating whether to establish allowance reserves.

NOTE 2 – PROPERTIES AND INVESTMENTS

In the ordinary course of our business activities, we periodically evaluate investment opportunities and extend credit to customers. We also regularly engage in lease and/or loan extensions and modifications. Additionally, we actively monitor and manage our investment portfolio with the objectives of improving credit quality and increasing investment returns. In connection with our portfolio management, we may engage in various collection and foreclosure activities.

Leased Property

Our leased real estate properties, represented by 421 SNFs, 22 assisted living facilities (“ALFs”) and 11 specialty facilities at March 31, 2015, are leased under provisions of single or master leases with initial terms typically ranging from 5 to 15 years, plus renewal options. Substantially all of our leases contain provisions for specified annual increases over the rents of the prior year and are generally computed in one of three methods depending on specific provisions of each lease as follows: (i) a specific annual percentage increase over the prior year’s rent, generally 2.5%; (ii) an increase based on the change in pre-determined formulas from year to year (i.e., such as increases in the Consumer Price Index (“CPI”)); or (iii) specific dollar increases over prior years. Under the terms of the leases, the lessee is responsible for all maintenance, repairs, taxes and insurance on the leased properties.

\$6.8 Million New Investment in Q1 2015

On January 28, 2015, we purchased one SNF from an unrelated third party for approximately \$6.3 million in cash and leased it to an existing operator. The purchase and sale agreement includes a provision that requires us to make an additional payment of \$0.5 million to the seller if certain financial metrics of the facility are achieved. As a result, we recorded the potential \$0.5 million payment as part of the purchase price. The 93 bed SNF, located in Texas, was added to the operator’s existing master lease with an initial annual cash yield of 9.5%.

Pro Forma Acquisition Results

The facilities acquired in 2015 and 2014 are included in our results of operations from the date of acquisition. The following unaudited pro forma results of operations reflect the impact of first quarter 2015 and 2014 transactions as if they occurred on January 1, 2014. For a list of the 2014 transactions, refer to Note 3 – Properties in our 2014 Form 10-K. In the opinion of management, all significant necessary adjustments to reflect the effect of the acquisitions have been made. The following pro forma information does not reflect acquisition of Aviv and is not indicative of future operations.

Asset Sales, Impairments and Other

During the three-month period ended March 31, 2015, we initiated plans to construct a new single facility with an existing operator that would consolidate and replace three existing facilities. As a result, we recorded a total of \$6.0 million in impairment charges related to three Florida SNFs to reduce their net book values to their estimated sales price.

During the three-month period ended March 31, 2015, we reclassified one SNF in Alabama with a carrying value of approximately \$4.1 million to assets held for sale.

Mortgage Notes Receivables

Our mortgage notes receivables relate to 14 fixed-rate mortgages on 53 SNFs and two ALFs. The mortgage notes are secured by first mortgage liens on the borrowers' underlying real estate and personal property. The mortgage notes receivable relate to facilities located in five states, which are operated by five independent healthcare operating companies. We monitor compliance with mortgages and when necessary have initiated collection, foreclosure and other proceedings with respect to certain outstanding loans. As of March 31, 2015, none of our mortgages were in default or in foreclosure proceedings. Where appropriate, the mortgaged properties are generally cross-collateralized with the master lease agreement with the same operator.

Mortgage interest income is recognized as earned over the terms of the related mortgage notes, using the effective yield method. Allowances are provided against earned revenues from mortgage interest when collection of amounts due becomes questionable or when negotiations for restructurings of troubled operators lead to lower expectations regarding ultimate collection. When collection is uncertain, mortgage interest income on impaired mortgage loans is

recognized as received after taking into account application of security deposits.

As mentioned above in Note 2 – Properties and Investments, in the first quarter of 2015, we reclassified one SNF in Alabama with a carrying value of approximately \$4.1 million to assets held for sale.

NOTE 4 – DIRECT FINANCING LEASES

The components of investment in direct financing leases consist of the following:

	March 31, 2015	December 31, 2014
	(in thousands)	
Minimum lease payments receivable	\$4,232,317	\$4,244,067

Investment in direct financing leases	\$541,846	\$539,232
Properties subject to direct financing leases	56	56

On November 27, 2013, we closed on an aggregate \$529 million purchase/leaseback transaction in connection with the acquisition of Ark Holding Company, Inc. (“Ark Holding”) by 4 West Holdings Inc. At closing, we acquired 55 SNFs and 1 ALF operated by Ark Holding and leased the facilities back to Ark Holding, now known as New Ark Investment Inc. (“New Ark”), pursuant to four 50-year master leases, with rental payments yielding 10.6% per annum over the term of the leases. The purchase/leaseback transaction is being accounted for as a direct financing lease.

The lease agreements allow the tenant the right to purchase the facilities for a bargain purchase price plus closing costs at the end of the lease term. In addition, commencing in the 41st year of each lease, the tenant will have the right to prepay the remainder of its obligations thereunder for an amount equal to the sum of the unamortized portion of the original aggregate \$529 million investment plus the net present value of the remaining payments under the lease and closing costs. In the event the tenant exercises either of these options, we have the right to purchase the properties for fair market value at the time.

The 56 facilities represent 5,623 licensed beds located in 12 states, predominantly in the southeastern United States. The 56 facilities are separated by region and divided amongst four cross-defaulted master leases. The four regions include the Southeast (39 facilities), the Northwest (7 facilities), Texas (9 facilities) and Indiana (1 facility). As of March 31, 2015, the following minimum rents are due under our direct financing leases for the next five years (in thousands):

Year 1	Year 2	Year 3	Year 4	Year 5
\$47,000	\$47,128	\$47,778	\$48,972	\$50,197

NOTE 5 – OTHER INVESTMENTS

(1) The majority of these notes bear interest at approximately 10% annually.

\$2.5 Million Other Investment note due 2014 Payoff

In May 2013, we entered into a \$2.5 million working capital note at 6% interest rate with an existing operator. The loan was paid off in March 2015.

NOTE 6 – CONCENTRATION OF RISK

As of March 31, 2015, our portfolio of real estate investments consisted of 569 healthcare facilities, located in 38 states and operated by 50 third-party operators. Our gross investment in these facilities, net of impairments and before reserve for uncollectible loans, totaled approximately \$4.4 billion at March 31, 2015, with approximately 99% of our real estate investments related to long-term care facilities. Our portfolio is made up of 474 SNFs, 23 ALFs, 11 specialty facilities, fixed rate mortgages on 53 SNFs and two ALFs, and six SNFs that are closed/held-for-sale. At March 31, 2015, we also held miscellaneous investments of approximately \$48.3 million, consisting primarily of secured loans to third-party operators of our facilities.

At March 31, 2015, we had investments with one operator and/or manager that exceeded 10% of our total investments: New Ark (13%). The three states in which we had our highest concentration of investments were Florida

(14%), Michigan (10%) and Ohio (9%) at March 31, 2015.

For the three-month period ended March 31, 2015, our revenues from operations totaled \$133.4 million, of which approximately \$15.3 million were from New Ark (11%) and \$13.8 million were from Genesis HealthCare (“Genesis”) (10%). No other operator generated more than 10% of our revenues from operations for the three-month period ended March 31, 2015.

NOTE 7 – DIVIDENDS AND STOCKHOLDERS' EQUITY

On April 15, 2015, our Board of Directors declared a prorated dividend of \$0.18 per share of Omega's common stock in view of the completed acquisition of Aviv, pursuant to the Merger. The per share dividend amount payable by Omega represents dividends for April 2015, at a quarterly dividend rate of \$0.54 per share of common stock, representing an increase of \$0.01 per share over the quarterly dividend rate for the immediately preceding quarterly period. The \$0.18 dividend will be payable in cash on May 15, 2015 to stockholders of record as of the close of business on April 30, 2015.

On March 5, 2015, the Board of Directors declared a prorated dividend of \$0.36 per share of Omega's common stock in view of the pending acquisition of Aviv, pursuant to the Merger. The per share dividend amount represented dividends for February and March 2015, at a quarterly dividend rate of \$0.54 per share of common stock, representing an increase of \$0.01 per share over the quarterly dividend rate for the immediately preceding quarterly period. The dividend was paid in cash on April 7, 2015 to stockholders of record as of the close of business on March 31, 2015.

On January 14, 2015, the Board of Directors declared a common stock dividend of \$0.53 per share, increasing the quarterly common dividend by \$0.01 per share over the prior quarter, which was paid February 16, 2015 to common stockholders of record on February 2, 2015.

Increase of Authorized Omega Common Stock

On March 27, 2015, Omega amended its charter to increase the number of authorized shares of Omega capital stock from 220 million to 370 million and the number of authorized shares of Omega common stock from 200 million to 350 million.

10.925 Million Common Stock Offering

On February 9, 2015, we completed an underwritten public offering of 10.925 million shares of our common stock at \$42.00 per share before underwriting and other offering expenses. The Company's total net proceeds from the offering were approximately \$440 million, after deducting underwriting discounts and commissions and other estimated offering expenses.

Dividend Reinvestment and Common Stock Purchase Plan

For the three-month period ended March 31, 2015, approximately 0.1 million shares of our common stock at an average price of \$40.13 per share were issued through our Dividend Reinvestment and Common Stock Purchase Program for gross proceeds of approximately \$5.4 million.

NOTE 8 – TAXES

So long as we qualify as a real estate investment trust ("REIT") under the Internal Revenue Code (the "Code"), we generally will not be subject to federal income taxes on the REIT taxable income that we distribute to stockholders, subject to certain exceptions. On a quarterly and annual basis, we test our compliance within the REIT taxation rules to ensure that we are in compliance with the REIT rules.

Subject to the limitation under the REIT asset test rules, we are permitted to own up to 100% of the stock of one or more taxable REIT subsidiaries ("TRSs"). Currently, we have one TRS that is taxable as a corporation and pays federal,

state and local income tax on its net income at the applicable corporate rates. As of March 31, 2015, the TRS had a net operating loss carry-forward of approximately \$1.0 million. The loss carry-forward is fully reserved with a valuation allowance as of March 31, 2015.

NOTE 9 – STOCK-BASED COMPENSATION

The following is a summary of our stock-based compensation expense for the three- month periods ended March 31, 2015 and 2014, respectively:

	Three Months Ended March 31,	
	2015	2014
	(in thousands)	
Stock-based compensation expense	\$1,610	\$2,263

Restricted Stock and Restricted Stock Units

Restricted stock and restricted stock units (“RSUs”) are subject to forfeiture if the holder’s service to us terminates prior to vesting, subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company. Prior to vesting, ownership of the shares/units cannot be transferred. The restricted stock has the same dividend and voting rights as our common stock. RSUs accrue dividend equivalents but have no voting rights. Restricted stock and RSUs are valued at the price of our common stock on the date of grant. We expense the cost of these awards ratably over their vesting period.

On December 31, 2013, we granted 213,741 RSUs to employees. The RSUs vest ratably over the three year period ending December 31, 2016, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company. In December 2014, 71,247 shares of restricted stock vested and were distributed to employees.

On January 1, 2014, we granted 122,137 RSUs to employees. The RSUs vest on December 31, 2016, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

On March 31, 2015, we granted 123,693 RSUs to employees. The RSUs vest on December 31, 2017, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

Performance Restricted Stock Units

Performance restricted stock units (“PRSUs”) are subject to forfeiture if the performance requirements are not achieved or if the holder’s service to us terminates prior to vesting, subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company. The PRSUs awarded in January 2011, January 2013, December 2013 and January 2014 have varying degrees of performance requirements to achieve vesting, and each PRSU award represents the right to a variable number of shares of common stock based on performance and related dividend equivalents based on dividends paid to stockholders during the applicable performance period. The vesting requirements are based on either the (i) total shareholders return (“TSR”) of Omega or (ii) Omega’s TSR relative to other real estate investment trusts in the MSCI U.S. REIT Index. We expense the cost of these awards ratably over their service period.

Prior to vesting and distribution of shares, ownership of the PRSUs cannot be transferred. The dividends on the PRSUs accumulate and if vested are paid when the shares are distributed to the employee.

2011 PRSU Grant (for Performance Periods 2011 through 2013)

In January 2011, we awarded PRSUs to employees, including: (i) 279,552 multi-year absolute TSR PRSUs and (ii) 93,183 multi-year relative TSR PRSUs. On January 1, 2013, we awarded to employees 124,244 annual TSR PRSUs for the year ended December 31, 2013 (“2013 Annual TSR PRSUs”).

2013 Annual TSR PRSUs

The TSR goal for the 2013 Annual TSR PRSUs was achieved at the high level and 124,244 shares vested and were distributed to the employees in January 2014.

Multi-year TSR PRSUs (for the 2011- 2013 Performance Period)

The number of shares earned under the multi-year TSR PRSUs depended generally on the level of achievement of TSR for the three years ended December 31, 2013. In January 2014, our Board of Directors reviewed the performance and determined the performance targets were met at the high level. The multi-year TSR PRSUs vested 25% on the last day of each calendar quarter in 2014, and were distributed in 2014.

Multi-year Relative TSR PRSUs (for the 2011- 2013 Performance Period)

The number of shares earned under the multi-year relative TSR PRSUs depended generally on the level of achievement of TSR relative to other real estate investment trusts in the MSCI U.S. REIT Index for the three-years ended December 31, 2013. In January 2014, our Board of Directors reviewed the performance and determined the performance targets were met at the high level. The multi-year relative TSR PRSUs vested 25% on the last day of each calendar quarter in 2014 and were distributed in 2014.

December 31, 2013 PRSU Grant (for 2013- 2016 Performance Periods)

In December 2013, we awarded six types of PRSUs to employees: (i) 77,371 PRSUs that vest based on TSR for the one year period starting December 31, 2013 and ending December 31, 2014 (“2014 Transition TSR PRSUs”), (ii) 77,369 PRSUs that vest based on the TSR for the two year period starting December 31, 2013 and ending December 31, 2015 (“2015 Transition TSR PRSUs”), (iii) 115,785 PRSUs that vest based on TSR for the three year period starting December 31, 2013 and ending December 31, 2016 (“2016 Transition TSR PRSUs”), (iv) 77,371 PRSUs that vest based on relative TSR for the one year period starting December 31, 2013 and ending December 31, 2014 (“2014 Transition Relative TSR PRSUs”), (v) 77,368 Transition PRSUs that vest based on relative TSR for the two year period starting December 31, 2013 and ending December 31, 2015 (“2015 Transition Relative TSR PRSUs”), and (vi) 115,781 PRSUs that vest based on relative TSR for the three year period starting December 31, 2013 and ending December 31, 2016 (“2016 Transition Relative TSR PRSUs”).

2014 Transition TSR PRSUs

The number of shares earned under the 2014 Transition TSR PRSUs depended generally on the level of achievement of Omega’s TSR for the period beginning December 31, 2013 and ending December 31, 2014. The 2014 Transition TSR PRSUs vested on December 31, 2014. In January 2015, our Board of Directors reviewed the performance and determined the performance targets were met at the “high” level and the shares were distributed in January 2015.

2015 Transition TSR PRSUs

The number of shares earned under the 2015 Transition TSR PRSUs depends generally on the level of achievement of Omega's TSR for the period beginning December 31, 2013 and ending December 31, 2015. The 2015 Transition TSR PRSUs vest on December 31, 2015, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

2016 Transition TSR PRSUs

The number of shares earned under the 2016 Transition TSR PRSUs depends generally on the level of achievement of Omega's TSR for the period beginning December 31, 2013 and ending December 31, 2016. The 2016 Transition TSR PRSUs vest on December 31, 2016, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

2014 Transition Relative TSR PRSUs

The number of shares earned under the 2014 Transition Relative TSR PRSUs depended generally on the level of achievement of TSR relative to the MSCI U.S. REIT Index for the period beginning December 31, 2013 and ended December 31, 2014. The 2014 Transition Relative TSR PRSUs vested on December 31, 2014. In January 2015, our Board of Directors reviewed the performance and determined that 61,769 shares were earned. The shares were distributed in January 2015.

2015 Transition Relative TSR PRSUs

The number of shares earned under the 2015 Transition Relative TSR PRSUs depends generally on the level of achievement of TSR relative to MSCI U.S. REIT Index for the period beginning December 31, 2013 and ending December 31, 2015. The 2015 Transition Relative TSR PRSUs vest on December 31, 2015, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

2016 Transition Relative TSR PRSUs

The number of shares earned under the 2016 Transition Relative TSR PRSUs depends generally on the level of achievement of TSR relative to MSCI U.S. REIT Index for the period beginning December 31, 2013 and ending December 31, 2016. The 2016 Transition Relative TSR PRSUs vest on December 31, 2016, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

January 2014 PRSU Grant (for 2014- 2016 Performance Periods)

In January 2014, we awarded two types of PRSUs to employees: (i) 154,584 PRSUs that vest based on TSR for the three year period starting January 1, 2014 and ending December 31, 2016 ("2016 TSR PRSUs"), and (ii) 154,584 PRSUs that vest based on relative TSR for the three year period starting January 1, 2014 and ending December 31, 2016 ("2016 Relative TSR PRSUs").

2016 TSR PRSUs

The number of shares earned under the 2016 TSR PRSUs depends generally on the level of achievement of Omega's TSR for the period beginning January 1, 2014 and ending December 31, 2016. The 2016 TSR PRSUs vest quarterly in 2017 in equal increments, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

2016 Relative TSR PRSUs

The number of shares earned under the 2016 Relative TSR PRSUs depends generally on the level of achievement of Omega's TSR relative to MSCI U.S. REIT Index for the period beginning January 1, 2014 and ending December 31, 2016. The 2016 Relative TSR PRSUs vest quarterly in 2017 in equal increments, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

(1) Reflects the weighted average annual contractual interest rate on the mortgages at March 31, 2015; however, excludes a 0.5% third-party administration fee.

Certain of our other secured and unsecured borrowings are subject to customary affirmative and negative covenants, including financial covenants. As of March 31, 2015 and December 31, 2014, we were in compliance with all affirmative and negative covenants, including financial covenants, for our secured and unsecured borrowings.

Bank Credit Facilities

On June 27, 2014, we entered into a \$1.2 billion unsecured credit facility, comprised of a \$1 billion senior unsecured revolving credit facility (the “Revolving Credit Facility”) and a \$200 million senior unsecured term loan facility (the “Term Loan Facility” and, collectively, the “2014 Credit Facilities”).

17

The Revolving Credit Facility is priced at LIBOR plus an applicable percentage (beginning at 130 basis points, with a range of 92.5 to 170 basis points) based on our ratings from Standard & Poor's, Moody's and/or Fitch Ratings, plus a facility fee based on the same ratings (initially 25 basis points, with a range of 12.5 to 30 basis points). The Revolving Credit Facility is used for acquisitions and general corporate purposes. At March 31, 2015, we had no borrowings outstanding under the Revolving Credit Facility. The Revolving Credit Facility matures on June 27, 2018, subject to a one-time option by us to extend such maturity date by one year.

The Term Loan Facility is also priced at LIBOR plus an applicable percentage (beginning at 150 basis points, with a range of 100 to 195 basis points) based on our ratings from Standard & Poor's, Moody's and/or Fitch Ratings. At March 31, 2015, we had \$200 million in borrowings outstanding under the Term Loan Facility. The Term Loan Facility matures on June 27, 2019.

In January 2015, we entered into an engagement letter with respect to various proposed amendments to our existing 2014 Credit Facilities. The amendments to our senior unsecured credit facility were completed on April 1, 2015. See Note 15 – Subsequent Events for more details.

HUD Mortgage Loans Payoff

On March 31, 2015, we paid approximately \$154.3 million to retire 21 mortgage loans guaranteed by U.S. Department of Housing and Urban Development (“HUD”), totaling approximately 146.9 million. 18 loans had an all-in blended interest rate of 5.35% per annum with maturities between January 2040 and January 2045 and three loans had an all-in blended interest rate of 5.23% per annum with maturities between February 2040 and February 2045. The payoff resulted in a \$2.3 million gain on the extinguishment of the debt due to the write-off of the \$9.7 million unamortized debt premium recorded at the time of acquisition offset by a prepayment fee of approximately \$7.4 million.

Issuance of \$700 Million of Senior Notes

On March 18, 2015, we sold \$700 million aggregate principal amount of our 4.50% Senior Notes due 2027 (the “2027 Notes”). The 2027 Notes were sold at an issue price of 98.546% of their face value before the initial purchasers' discount. The Company's total net proceeds from the offering, after deducting initial purchasers' discounts and other offering expenses, were approximately \$683 million. The net proceeds of the offering have or will be used for general corporate purposes, including the repayment of Aviv indebtedness on April 1, 2015 in connection with Omega's acquisition of Aviv by merger, and repayment of future maturities on Omega's outstanding debt.

The 2027 Notes mature on April 1, 2027. The 2027 Notes bear an interest rate of 4.50% per annum, and are fully and unconditionally guaranteed, jointly and severally, by our existing and future subsidiaries that guarantee indebtedness for money borrowed by Omega in a principal amount at least equal to \$50 million (including as of the date hereof our existing senior notes and the facilities under our credit agreement). The 2027 Notes are Omega's unsecured senior obligations and rank equally in right of payment with all of Omega's existing and future senior debt and is senior in right of payment to all of Omega's existing and future subordinated debt. Omega may redeem some or all of the 2027 Notes prior to January 1, 2027 at a price equal to 100% of the principal amount thereof plus a “make-whole” premium calculated by reference to U.S. treasuries with a maturity comparable to the remaining term of the 2027 Notes, and accrued and unpaid interest, if any, to, but not including, the applicable redemption date. The 2027 Notes will be redeemable at any time on or after January 1, 2027 at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest, if any, to, but not including, the applicable redemption date.

\$200 Million 7.5% Senior Notes due 2020 Redemption

On March 13, 2015, Omega redeemed all of its outstanding 7.5% Senior Notes due 2020 (the “2020 Notes”) at a redemption price of approximately \$208.7 million, consisting of 103.750% of the principal amount, plus accrued and unpaid interest on such notes to, but not including, the date of redemption.

18

In connection with the redemption, during the first quarter of 2015, we recorded approximately \$11.7 million redemption related costs and write-offs, including \$7.5 million in prepayment fees for early redemption and \$4.2 million of write-offs associated with unamortized deferred financing and discount costs. The consideration for the redemption of the 2020 Notes was funded from the net proceeds of the 10.925 million share common stock offering. See Note 7 Dividends and Stockholders' Equity for additional details.

Fair value estimates are subjective in nature and are dependent on a number of important assumptions, including estimates of future cash flows, risks, discount rates and relevant comparable market information associated with each financial instrument (see Note 2 – Summary of Significant Accounting Policies in our Annual Report on Form 10-K for the year ended December 31, 2014). The use of different market assumptions and estimation methodologies may have a material effect on the reported estimated fair value amounts.

The following methods and assumptions were used in estimating fair value disclosures for financial instruments.

Cash and cash equivalents and restricted cash: The carrying amount of cash and cash equivalents and restricted cash reported in the consolidated balance sheet approximates fair value because of the short maturity of these instruments (i.e., less than 90 days) (Level 1).

Mortgage notes receivable: The fair value of the mortgage notes receivables are estimated using a discounted cash flow analysis, using interest rates being offered for similar loans to borrowers with similar credit ratings (Level 3).

Direct financing leases: The fair value of the direct financing receivables are estimated using a discounted cash flow analysis, using interest rates being offered for similar leases to borrowers with similar credit ratings (Level 3).

Other investments: Other investments are primarily comprised of notes receivable. The fair values of notes receivable are estimated using a discounted cash flow analysis, using interest rates being offered for similar loans to borrowers with similar credit ratings (Level 3).

Revolving line of credit and term loan: The fair value of our borrowings under variable rate agreements are estimated using an expected present value technique based on expected cash flows discounted using the current market rates (Level 3).

Senior notes and subordinated debt: The fair value of our borrowings under fixed rate agreements are estimated based on open market trading activity provided by a third party (Level 2).

HUD debt: The fair value of our borrowings under HUD debt agreements are estimated based on quotes obtained by HUD debt brokers (Level 2).

NOTE 12 – LITIGATION

We are subject to various legal proceedings, claims and other actions arising out of the normal course of business. While any legal proceeding or claim has an element of uncertainty, management believes that the outcome of each lawsuit, claim or legal proceeding that is pending or threatened, or all of them combined, will not have a material adverse effect on our consolidated financial position or results of operations.

As previously reported, four putative class actions were filed by purported stockholders of Aviv against Aviv, its directors, the Company and Merger Sub challenging the Merger. The lawsuits sought injunctive relief preventing the parties from consummating the Merger, rescission of the transactions contemplated by the Merger Agreement, imposition of a constructive trust in favor of the class upon any benefits improperly received by the defendants, compensatory damages, and litigation costs including attorneys' fees. The four cases were transferred to the Business and Technology Case Management Program of the Circuit Court, Baltimore City, Maryland. The plaintiffs in each case amended their complaints to add allegations that the disclosures in the Form S-4 filed with the Securities and Exchange Commission on January 5, 2015 in connection with the Merger, were inadequate to allow Aviv shareholders to make an informed decision whether to approve the Merger. On January 28, 2015, the court entered a stipulated consolidation order consolidating the four lawsuits into a single proceeding styled *In re Aviv REIT Inc. Stockholder Litigation*, Case No. 24-C-14-006352. On February 6, 2015, (1) Aviv, the Aviv Partnership and the Aviv directors filed a motion to dismiss the consolidated complaint and (2) the Company, Merger Sub and the Omega Operating Partnership separately moved to dismiss the consolidated complaint as to them. The plaintiffs have moved to expedite the discovery period. On March 20, 2015, the court granted the defendants' motions to dismiss the consolidated complaint.

In addition to these lawsuits, Omega is aware of a derivative demand letter that was delivered to the Aviv board of directors by Gary Danley ("Danley"), who subsequently filed one of the aforementioned lawsuits. The allegations in the demand letter are substantially similar to the allegations in Danley's complaint.

Omega believes that these actions have no merit and intends to defend vigorously against any further attempts to prosecute these claims. The time period for taking an appeal of the grant of the motions to dismiss has now expired and, as a result, we believe these matters are now concluded.

NOTE 13 – EARNINGS PER SHARE

The computation of basic earnings per share (“EPS”) is computed by dividing net income available to common stockholders by the weighted-average number of shares of common stock outstanding during the relevant period. Diluted EPS is computed using the treasury stock method, which is net income available to common stockholders divided by the total weighted-average number of common outstanding shares plus the effect of dilutive common equivalent shares during the respective period. Dilutive common shares reflect the assumed issuance of additional common shares pursuant to certain of our share-based compensation plans, including stock options, restricted stock and performance restricted stock units.

The following tables set forth the computation of basic and diluted earnings per share:

NOTE 14 – CONSOLIDATING FINANCIAL STATEMENTS

As of March 31, 2015, we had outstanding: (i) \$575 million 6.75% Senior Notes due 2022, (ii) \$400 million 5.875% Senior Notes due 2024, (iii) \$400 million 4.95% Senior Notes due 2024, (iv) \$250 million 4.5% Senior Notes due 2025 and (v) \$700 million 4.5% Senior Notes due 2027, which we collectively refer to as the Senior Notes. The Senior Notes are fully and unconditionally guaranteed, jointly and severally, by each of our subsidiaries that guarantee other indebtedness of Omega or any of the subsidiary guarantors. All of our subsidiaries that guarantee the Senior Notes also guarantee the 2014 Credit Facilities. Any subsidiary that we properly designate as an “unrestricted subsidiary” under the indentures governing the Senior Notes will not provide guarantees of the Senior Notes or the 2014 Credit Facilities.

For the three months ended March 31, 2015 and 2014, we had 47 and 52 “unrestricted subsidiaries” respectively. During the third quarter of 2014, four subsidiaries were re-designated as “restricted subsidiaries and Subsidiary Guarantors” due to the retirement of the HUD related debt on four facilities in September 2014. In October 2014, we retired HUD debt on one facility and one subsidiary was re-designated as a restricted subsidiary.

On March 31, 2015, the Company paid off HUD debt related to 21 facilities and 32 subsidiaries will be re-designated as “restricted subsidiaries and Subsidiary Guarantors”.

21

For the three months ended March 31, 2015 and 2014, the operating cash flow of the non-guarantor subsidiaries approximated net income of the non-guarantor subsidiaries, adjusted for depreciation and amortization expense and rent recorded on a straight-line basis. On September 30, 2014, we retired four HUD mortgages, \$34.3 million related to the outstanding principal of the four HUD mortgages, \$3.3 million related to the noncash write off of unamortized premium recorded at the time of acquisition offset by a prepayment fee of approximately \$1.7 million. On October 31, 2014, we retired one HUD mortgage, \$3.4 million related to the outstanding principal of the mortgage, \$0.2 million related to noncash of unamortized premium offset by a prepayment fee of approximately \$0.2 million.

On March 31, 2015, we retired 21 HUD mortgages, \$146.9 million related to the outstanding principal of the 21 HUD mortgages, \$9.7 million related to the noncash write off of unamortized premium recorded at the time of acquisition offset by a prepayment fee of approximately \$7.4 million.

For the three months ended March 31, 2015, and 2014, the non-guarantor subsidiaries did not engage in investing or financing activities other than the principal payment of \$1.0 and \$1.1 million, respectively for the HUD mortgages on the facilities owned by the non-guarantor subsidiaries. As of March 31, 2015, all of the Subsidiary Guarantors of our outstanding Senior Notes and 2014 Credit Facilities, and all of our non-guarantor subsidiaries, are 100% owned by Omega. See Note 15 – Subsequent Events.

The following summarized condensed consolidating financial information segregates the financial information of the non-guarantor subsidiaries from the financial information of Omega Healthcare Investors, Inc. and the subsidiary guarantors under the Senior Notes. The results and financial position of acquired entities are included from the dates of their respective acquisitions.

NOTE 15 – SUBSEQUENT EVENTS

UPREIT Structure

On April 1, 2015, the Company acquired Aviv as a result of the completion of the Merger pursuant to the Merger Agreement. See Note 1 – Basis of Presentation And Significant Accounting Policies.

Prior to April 1, 2015 and in accordance with the Merger Agreement, Omega completed the UPREIT Conversion, pursuant to which Omega restructured the manner in which it holds its assets by converting to an umbrella partnership real estate investment trust structure. As a result of the UPREIT Conversion, substantially all of the Company's assets are held by an Operating Partnership.

In order to more fully reflect the UPREIT Conversion and related transaction, Omega, Merger Sub and Aviv OP entered into that certain Second Amended and Restated Agreement of Limited Partnership of OHI Healthcare Properties Limited Partnership, dated as of April 1, 2015 (the "Partnership Agreement"). Pursuant to the Partnership Agreement, the Company and Merger Sub are the general partners of Omega OP. As a result of the Merger, Merger Sub also is the successor general partner of Aviv OP under the terms of its partnership agreement. As of April 1, 2015, the Company is the owner of approximately 138.9 million limited partnership interests in Omega OP ("Omega OP Units") and Aviv OP is the owner of approximately 52.9 million Omega OP Units. Each of the Omega OP Units is redeemable at the election of the Omega OP Unit holder for cash equal to the then fair market value of one share of Omega common stock, par value \$0.10 per share ("Omega Common Stock"), subject to the Company's election to exchange the Omega OP Units tendered for redemption for unregistered shares of Omega Common Stock on a one-for-one basis, and further subject to adjustment as set forth in the Partnership Agreement. The Company (through Merger Sub, in its capacity as the general partner of Aviv OP) plans to cause Aviv OP to make a distribution of all the Omega OP Units held by Aviv OP (or equivalent value) to all the holders of partnership interests of Aviv OP (the "Aviv OP Distribution") in connection with the liquidation of Aviv OP. On a pro forma basis as if the Aviv OP Distribution had been completed and the Omega OP Units held by the Aviv OP distributed to the holders of Aviv OP partnership interests, Omega would directly and indirectly own approximately 182.6 million or approximately 95% of the outstanding Omega OP Units and the other holders of Aviv OP partnership units would own approximately 9.2 million or approximately 5% of the outstanding Omega OP Units as of April 1, 2015. Until the completion of the Aviv OP Distribution, distributions by Omega OP in respect of the outstanding Omega OP Units will be passed through to the limited partners of Aviv OP in respect of their limited partner interests in Aviv OP adjusted for the 0.9 exchange ratio in the merger.

The Partnership Agreement also provides for limited partnership units structured as profits interests ("LTIP Units"), which are to be used for incentive compensation awards. When earned and vested, LTIP Units are intended to be convertible into Omega OP Units, at the election of the holder, on a one-to-one basis, subject to conditions on minimum allocation to the capital accounts of the holders of LTIP Units for federal income tax purposes.

Amendment to Omega Credit Facilities

On April 1, 2015, Omega entered into a First Amendment to Credit Agreement (the "First Amendment to Omega Credit Agreement") among Omega, as borrower, certain of Omega's subsidiaries identified in the Omega Credit Agreement (as defined below), as guarantors, a syndicate of financial institutions, as lenders (together with other lenders from time to time becoming signatory to the Omega Credit Agreement, as lenders, the "Omega Lenders"), and Bank of America, N.A., as administrative agent, which amended and restated its existing Credit Agreement, dated as of June 27, 2014 (as amended and restated pursuant to the First Amendment to Omega Credit Agreement, the "Omega

Credit Agreement”). Among other things, the First Amendment to Omega Credit Agreement (i) increases the aggregate revolving commitment amount under the Revolving Credit Facility (as defined below) from \$1 billion to \$1.25 billion and (ii) provides for the Acquisition Term Loan Facility (as defined below).

As a result of the First Amendment to Omega Credit Agreement, the Omega Credit Agreement now provides for a \$1.25 billion senior unsecured revolving credit facility, a \$200 million senior unsecured term loan facility (the “Closing Date Term Loan Facility”) and a \$200 million senior unsecured incremental term loan facility (the “Acquisition Term Loan Facility” and, together with the Revolving Credit Facility and the Closing Date Term Loan Facility, collectively, the “Omega Credit Facilities”). The Revolving Credit Facility matures on June 27, 2018, subject to a one-time option for Omega to extend such maturity date for one year. Exercise of such extension option is subject to compliance with a notice requirement and other customary conditions. The Closing Date Term Loan Facility matures on June 27, 2019. The Acquisition Term Loan Facility matures on June 27, 2017, subject to Omega’s option to extend the maturity date of the Acquisition Term Loan Facility twice, the first extension until June 27, 2018 and the second extension until June 27, 2019 (such option, the “Omega Acquisition Facility Extension Option”). The Closing Date Term Loan Facility and the Acquisition Term Loan Facility may be referred to collectively herein as the “Omega Term Loan Facilities”.

Omega OP Term Loan Facility

On April 1, 2015, Omega OP entered into a \$100 million senior unsecured term loan facility (the “Omega OP Term Loan Facility”). The Omega OP Term Loan Facility matures on June 27, 2017, subject to Omega OP’s option to extend such maturity date twice, the first extension until June 27, 2018 and the second extension until June 27, 2019 (such option, the “Omega OP Extension Option”), corresponding to the maturity date for the Acquisition Term Loan Facility and the Omega Acquisition Facility Extension Option, respectively.

HUD Mortgage Loan Payoff

On April 30, 2015, we paid approximately \$8.6 million to retire one HUD-guaranteed mortgage loan of one of our unrestricted subsidiaries. The loan had an all-in annual interest rate of 4.85%. That unrestricted subsidiary, as well as other unrestricted subsidiary obligors on the HUD-guaranteed mortgage loans retired on March 31, 2015, are being redesignated as restricted subsidiaries and will become guarantors of the Omega Credit Facilities, the Omega OP Term Loan Facility and our outstanding senior notes. We will re-designate the subsidiary as a restricted subsidiary during the second quarter of 2015.

Acquisition of \$179 Million of Care Homes in United Kingdom

On May 1, 2015, we closed a \$179 million purchase/leaseback transaction for 23 Care Homes located in the United Kingdom and operated by Healthcare Homes Holding Limited (“Healthcare Homes”). As part of the transaction, we acquired title to the 23 Care Homes with 1,018 registered beds and leased them back to Healthcare Homes pursuant to a 12-year master lease agreement with an initial annual cash yield of 7%, and annual escalators of 2.5%. The Care Homes, comparable to US ALFs, are located throughout the East Anglia region (north of London) of the United Kingdom. Healthcare Homes is headquartered in Colchester (Essex County), England.

April 1, 2015 RSU, PRSU and LTIP Grant (for 2015- 2017 Performance Periods)

On April 1, 2015, we granted 39,914 RSUs to employees. The RSUs vest on December 31, 2017, subject to continued employment on the vesting date and subject to certain exceptions for certain qualifying terminations of employment or a change in control of the Company.

On April 1, 2015, we awarded two types of awards to employees: (i) 54,151 profit interest partnership units that vest based on TSR of Omega for the three year period starting January 1, 2015 and ending December 31, 2017, and (ii) 54,151 PRSUs that vest based on relative TSR for the three year period starting January 1, 2015 and ending December

31, 2017.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements, Reimbursement Issues and Other Factors Affecting Future Results

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this document, including statements regarding potential future changes in reimbursement. This document contains forward-looking statements within the meaning of the federal securities laws. These statements relate to our expectations, beliefs, intentions, plans, objectives, goals, strategies, future events, performance and underlying assumptions and other statements other than statements of historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology including, but not limited to, terms such as “may,” “will,” “anticipates,” “expects,” “believes,” “intends,” “should” or comparable terms or the negative thereof. These statements are based on information available on the date of this filing and only speak as to the date hereof and no obligation to update such forward-looking statements should be assumed. Our actual results may differ materially from those reflected in the forward-looking statements contained herein as a result of a variety of factors, including, among other things:

- (i) those items discussed under “Risk Factors” in Item 1A to our annual report on Form 10-K for the year ended December 31, 2014, and in Part II, Item 1A of this report;
- (ii) uncertainties relating to the business operations of the operators of our assets, including those relating to reimbursement by third-party payors, regulatory matters and occupancy levels;
- (iii) the ability of any operators in bankruptcy to reject unexpired lease obligations, modify the terms of our mortgages and impede our ability to collect unpaid rent or interest during the process of a bankruptcy proceeding and retain security deposits for the debtors’ obligations;
- (iv) our ability to sell closed or foreclosed assets on a timely basis and on terms that allow us to realize the carrying value of these assets;
 - (v) our ability to negotiate appropriate modifications to the terms of our credit facilities;
 - (vi) our ability to manage, re-lease or sell any owned and operated facilities;
 - (vii) the availability and cost of capital;
 - (viii) changes in our credit ratings and the ratings of our debt securities;
 - (ix) competition in the financing of healthcare facilities;
 - (x) regulatory and other changes in the healthcare sector;
- (xi) the effect of economic and market conditions generally and, particularly, in the healthcare industry;
 - (xii) changes in the financial position of our operators;
 - (xiii) changes in interest rates;
 - (xiv) the amount and yield of any additional investments;
 - (xv) changes in tax laws and regulations affecting real estate investment trusts;
- (xvi) the possibility that we will not realize estimated synergies or growth as a result of our merger with Aviv, or that such benefits may take longer to realize than expected; and
 - (xvii) our ability to maintain our status as a real estate investment trust.

Overview

We have one reportable segment consisting of investments in healthcare related real estate properties. Our core business is to provide financing and capital to the long-term healthcare industry with a particular focus on skilled nursing facilities (“SNFs”) located in the United States. Our core portfolio consists of long-term leases and mortgage agreements. All of our leases are “triple-net” leases, which require the tenants to pay all property-related expenses. Our mortgage revenue derives from fixed-rate mortgage loans, which are secured by first mortgage liens on the underlying

real estate and personal property of the mortgagor.

Our portfolio of investments at March 31, 2015, consisted of 569 healthcare facilities (including six facilities that are closed/held for sale), located in 38 states and operated by 50 third-party operators. Our gross investment in these facilities totaled approximately \$4.4 billion at March 31, 2015, with 99% of our real estate investments related to long-term healthcare facilities. Our portfolio is made up of: (i) 474 SNFs, (ii) 23 assisted living facilities (“ALFs”), (iii) 11 specialty facilities, (iv) fixed rate mortgages on 53 SNFs and two ALFs and (v) six SNFs that are closed/held for sale. At March 31, 2015, we also held other investments of approximately \$48.3 million, consisting primarily of secured loans to third-party operators of our facilities.

Our consolidated financial statements include the accounts of (i) Omega Healthcare Investors, Inc. (“Omega” or the “Company”) and (ii) all direct and indirect wholly owned subsidiaries of Omega. All inter-company accounts and transactions have been eliminated in consolidation of the financial statements.

On April 1, 2015, Aviv REIT Inc., a Maryland corporation (“Aviv”), merged (the “Merger”) with and into a wholly owned subsidiary of Omega, pursuant to the terms of that certain Agreement and Plan of Merger, dated as of October 30, 2014 (the “Merger Agreement”), by and among the Company, Aviv, OHI Healthcare Properties Holdco, Inc., a Delaware corporation and a direct wholly-owned subsidiary of Omega (“Merger Sub”), OHI Healthcare Properties Limited Partnership, a Delaware limited partnership (“Omega OP” or the “Operating Partnership”), and Aviv Healthcare Properties Limited Partnership, a Delaware limited partnership (the “Aviv OP”).

Prior to April 1, 2015 and in accordance with the Merger Agreement, Omega restructured the manner in which it holds its assets by converting to an umbrella partnership real estate investment trust structure (the “UPREIT Conversion”). As a result of the UPREIT Conversion, substantially all of the Company’s assets are held by an Operating Partnership which is subsidiary of the Company. See Note 15 – Subsequent Events above for more details.

Taxation

We have elected to be taxed as a Real Estate Investment Trust (“REIT”), under Sections 856 through 860 of the Internal Revenue Code (the “Code”), beginning with our taxable year ended December 31, 1992. We believe that we have been organized and operated in such a manner as to qualify for taxation as a REIT. We intend to continue to operate in a manner that will maintain our qualification as a REIT, but no assurance can be given that we have operated or will be able to continue to operate in a manner so as to qualify or remain qualified as a REIT. Under the Code, we generally are not subject to federal income tax on taxable income distributed to stockholders if certain distribution, income, asset and stockholder tests are met, including a requirement that we must generally distribute at least 90% of our annual taxable income, excluding any net capital gain, to stockholders. If we fail to qualify as a REIT in any taxable year, we may be subject to federal income taxes on our taxable income for that year and for the four years following the year during which qualification is lost, unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially adversely affect our net income and net cash available for distribution to our stockholders. For further information, see “Taxation” in Item 1 of our annual report on Form 10-K for the year ended December 31, 2014.

Government Regulation and Reimbursement

The health care industry is heavily regulated. Our operators are subject to extensive and complex federal, state and local healthcare laws and regulations. These laws and regulations are subject to frequent and substantial changes resulting from the adoption of new legislation, rules and regulations, and administrative and judicial interpretations of existing law. The ultimate timing or effect of these changes, which may be applied retroactively, cannot be predicted. Changes in laws and regulations impacting our operators, in addition to regulatory non-compliance by our operators, can have a significant effect on the operations and financial condition of our operators, which in turn may adversely impact us. See “Item 1A – Risk Factors.” to our annual report on Form 10-K for the year ended December 31, 2014. The following is a discussion of certain laws and regulations generally applicable to our operators, and in certain cases, to us.

Healthcare Reform. A substantial amount of rules and regulations have been issued under the Patient Protection and Affordable Care Act, as amended by the Health Care and Education and Reconciliation Act of 2010 (collectively referred to as the “Healthcare Reform Law”). We expect additional rules, regulations and interpretations under the Healthcare Reform Law that may materially affect our operators’ financial condition and operations. For example, although the U.S. Supreme Court has upheld the Healthcare Reform Law (other than the requirement that states expand Medicaid beginning in 2014), the Healthcare Reform Law and the implementation thereof continue to receive challenge and scrutiny from Congress, state attorneys general and legislators, and private individuals and organizations. In addition, certain measures recently taken under the authority of, or in connection with, the Healthcare Reform Law may lead to additional modification and/or clarification in the future, including the following:

On January 3, 2013, a new federal Commission on Long-Term Care was established and tasked with developing a plan for the establishment, implementation and financing of a high-quality system to provide long-term care services. In September 2013, the Commission released a report with 38 proposals for legislative and administrative actions to promote the establishment and financing of a long-term care services system that will ensure the availability of such services to those who need them. The Commission recommended creating a national advisory committee and convening a 2015 White House Conference on aging which is now holding regional forums and publishing policy briefs.

The Healthcare Reform Law requires private health insurers that sell policies to individuals and small businesses to provide, starting in 2014, a set of “essential health benefits” in ten categories, including prescription drugs, rehabilitative and habilitative services, and chronic disease management. As required under the law, each state has defined the essential health benefits required in that state.

The Healthcare Reform Law requires SNFs to implement a compliance and ethics program that is effective in preventing and detecting criminal, civil and administrative violations and in promoting quality of care. The Department of Health and Human Services (“HHS”) has not yet issued the proposed regulations to implement this law that were due in March 2012.

Given the complexity of the Healthcare Reform Law and the substantial requirements for regulation thereunder, the impact of the Healthcare Reform Law on our operators or their ability to meet their obligations to us cannot be predicted. The Healthcare Reform Law could result in decreases in payments to our operators or otherwise adversely affect the financial condition of our operators, thereby negatively impacting our financial condition. Our operators may not be successful in modifying their operations to lessen the impact of any increased costs or other adverse effects resulting from changes in governmental programs, private insurance and/or employee welfare benefit plans. The impact of the Healthcare Reform Law on each of our operators will vary depending on payor mix, resident conditions and a variety of other factors. In addition to the provisions relating to reimbursement, other provisions of the Healthcare Reform Law may impact our operators as employers (e.g., requirements related to providing health insurance for employees). We anticipate that many of the provisions in the Healthcare Reform Law may be subject to further clarification and modification during the rule making process.

Reimbursement Generally. A significant portion of our operators’ revenue is derived from governmentally-funded reimbursement programs, consisting primarily of Medicare and Medicaid. In recent years, the federal government and many state governments have focused on reducing expenditures under the Medicare and Medicaid programs, resulting in significant cost-cutting at both the federal and state levels. These cost-cutting measures, together with the implementation of changes in reimbursement rates such as those described below, could result in a significant reduction of reimbursement rates to our operators under both the Medicare and Medicaid programs.

On April 1, 2014, President Obama signed the “Protecting Access to Medicare Act of 2014” which calls for HHS to develop a value based purchasing program for SNFs aimed at lowering readmission rates. Beginning in 2018, 2% of SNFs’ Medicare payments could be withheld and about 70% of those dollars would be distributed to SNFs with reduced hospital readmissions.

We currently believe that our operator coverage ratios are adequate and that our operators can absorb moderate reimbursement rate reductions and still meet their obligations to us. However, significant limits on the scopes of services reimbursed and/or reductions of reimbursement rates could have a material adverse effect on our operators’ results of operations and financial condition, which could adversely affect our operators’ ability to meet their obligations to us.

Medicaid. State budgetary concerns, coupled with the implementation of rules under the Healthcare Reform Law, may result in significant changes in healthcare spending at the state level. Many states are currently focusing on the reduction of expenditures under their state Medicaid programs, which may result in a reduction in reimbursement rates for our operators. The need to control Medicaid expenditures may be exacerbated by the potential for increased enrollment in Medicaid due to unemployment and declines in family incomes. Since our operators' profit margins on Medicaid patients are generally relatively low, more than modest reductions in Medicaid reimbursement or an increase in the number of Medicaid patients could adversely affect our operators' results of operations and financial condition, which in turn could negatively impact us.

The Healthcare Reform Law provided for Medicaid coverage to be expanded to all individuals under age 65 with incomes up to 133% of the federal poverty level, beginning January 1, 2014. The federal government will pay the entire cost for Medicaid coverage for newly eligible beneficiaries for 3 years (2014 through 2016). In 2017, the federal share declines to 95%; in 2018, to 94%; in 2019, to 93%; and in 2020 and subsequent years, to 90%. Pursuant to the law, states may delay Medicaid expansion after 2014, but the federal payment rates will be less.

However, on June 28, 2012, the Supreme Court ruled that states could not be required to expand Medicaid or risk losing federal funding of their existing Medicaid programs. Over half of the states have expanded or are expanding Medicaid coverage as contemplated by the Healthcare Reform Law, with many of the remaining states involved in a variety of legislative proposals or discussions. HHS has stated that it will consider a limited number of premium assistance demonstration programs from states that want to privatize Medicaid expansion. States must provide a choice between at least two qualified health plans that offer very similar benefits as those required by the health insurance exchanges. Arkansas became the first state to obtain federal approval to use Medicaid funding to purchase private insurance for low-income residents. Indiana, Iowa, Michigan, New Hampshire, and Pennsylvania have also secured waivers.

Medicare. The Center for Medicaid and Medicare Services ("CMS") estimates that aggregate Medicare payments to SNFs will increase by \$750 million, or 2.0%, for the federal fiscal year that begins October 1, 2014 relative to payments in the prior federal fiscal year. This estimated increase is attributable to a 2.5% market based increase, reduced by a 0.5% multifactor productivity adjustment required by law.

Provisions contained in the American Taxpayer Relief Act ("ATRA") of 2012, known colloquially as the fiscal cliff deal, are designed to reduce Medicare payments to SNFs by an estimated \$600 million during 2012 to 2022. It also reduces payments for multiple procedures or therapies provided on the same day, which will result in approximately \$1.8 billion savings to Medicare over the next 10 years, which will impact SNFs as well. Under ATRA, sequestration cuts impacting domestic and defense spending became effective March 1, 2013. Although Medicaid is exempted from the sequestration cuts, they included a 2% cut in payments to Medicare providers and suppliers, which amounted to an estimated \$11.3 billion in cuts in federal fiscal year 2013. The Bipartisan Budget Act of 2013 provides for \$63 billion in sequestration relief in federal fiscal years 2014 and 2015 which will be split evenly between defense and nondefense programs. It is unknown how Medicare will be impacted.

The "Medicare Access and CHIP Reauthorization Act of 2015" extended the Medicare therapy cap exceptions process through December 31, 2017. The statutory Medicare Part B outpatient cap for occupational therapy is \$1,940 for 2015, and the combined cap for physical therapy and speech therapy is also \$1,940 for 2015. These caps do not apply to therapy services covered under Medicare Part A for SNFs, although the caps apply in most other instances involving patients in SNFs or long-term care facilities who receive therapy services covered under Medicare Part B. The exception process permits medically necessary therapy services beyond the cap limits. Expiration of the therapy cap exceptions process in the future could have a material adverse effect on our operators' financial condition and

operations, which could adversely impact their ability to meet their obligations to us.

32

Quality of Care Initiatives. The CMS has implemented a number of initiatives focused on the quality of care provided by nursing homes that could affect our operators. For instance, in December 2008, the CMS released quality ratings for all of the nursing homes that participate in Medicare or Medicaid under its “Five Star Quality Rating System.” Facility rankings, ranging from five stars (“much above average”) to one star (“much below average”) are updated on a monthly basis. SNFs are required to provide information for the CMS Nursing Home Compare website regarding staffing and quality measures. Based on this data and the results of state health inspections, SNFs are then rated based on the five-star rating system. Beginning in 2015, CMS is making changes to the rating system including: (1) revising scoring methodology by which quality measure ratings are calculated for SNFs; (2) increasing the number and type of quality measures that are not solely based on self-reported data and (3) adding critical measures to staffing such as turnover and retention. It is possible that this or any other ranking system could lead to future reimbursement policies that reward or penalize facilities on the basis of the reported quality of care parameters.

CMS has incorporated hospital readmissions review into the Quality Indicators Survey. Under Medicare’s Inpatient Prospective Payment System, CMS began adjusting payments to hospitals for excessive readmissions of patients for heart attacks, heart failure and pneumonia during fiscal years beginning on and after October 1, 2012. Long term care facilities will be under increased scrutiny to prevent residents from being readmitted to hospitals for these conditions in particular, and have an opportunity to demonstrate their quality of care by reducing their hospital readmission rates. It is anticipated that hospital readmissions will be a consideration in the future in the CMS five-star rating system.

Office of the Inspector General Activities. The Office of Inspector General’s (the “OIG”) Work Plan for government fiscal year 2015, which describes projects that the OIG plans to address during the fiscal year, includes a number of projects related to nursing homes. Reviews of Medicare Part A and Part B payments and services for SNFs will focus on the following: (1) (new) monitor Part B billings for abuse during non-Part A stays; (2) billing patterns for Part B services; (3) state agency verification of deficiency corrections; (4) background checks for employees; and (5) hospitalization of residents for manageable and preventable conditions. The OIG will also continue its efforts in addressing fraud and abuse. While we cannot predict the results of the OIG’s activities, the projects could result in further scrutiny and/or oversight of nursing homes.

The OIG has identified one of its top management and performance challenges as using enforcement actions against SNFs that render substandard care. State Medicaid Fraud Units, which receive oversight and funding from the OIG are devoting substantial resources to investigating and prosecuting abuse and neglect in Medicaid-funded SNFs. To date, the OIG has placed almost 40 nursing home companies (greater than 750 SNFs) under corporate integrity agreements that include quality-monitoring provisions.

Fraud and Abuse. There are various federal and state civil and criminal laws and regulations governing a wide array of healthcare provider referrals, relationships and arrangements, including laws and regulations prohibiting fraud by healthcare providers. Many of these complex laws raise issues that have not been clearly interpreted by the relevant governmental authorities and courts. In addition, federal and state governments are devoting increasing attention and resources to anti-fraud initiatives against healthcare providers.

The federal anti-kickback statute is a criminal statute that prohibits the knowing and willful offer, payment, solicitation or receipt of any remuneration in return for, to induce or to arrange for the referral of individuals for any item or service payable by a federal or state healthcare program. There is also a civil analogue. States also have enacted similar statutes covering Medicaid payments, and some states have broader statutes. Some enforcement efforts have targeted relationships between SNFs and ancillary providers, relationships between SNFs and referral sources for SNFs and relationships between SNFs and facilities for which the SNFs serve as referral sources. The federal self-referral law, commonly known as the “Stark Law,” is a civil statute that prohibits a physician from making

referrals to an entity for “designated health services” if the physician has a financial relationship with the entity. Some of the services provided in SNFs are classified as designated health services. There are also criminal provisions that prohibit filing false claims or making false statements to receive payment or certification under Medicare and Medicaid, as well as failing to refund overpayments or improper payments. Violation of the anti-kickback statute or Stark Law may form the basis for a federal False Claims Act (“FCA”) violation. With increased frequency, the federal government is relying on a “worthless services” theory of liability in FCA cases. The allegations are that the SNF charged the government for something of value that it knowingly didn’t provide.

In addition, the federal False Claims Act allows a private individual with knowledge of fraud to bring a claim on behalf of the federal government and earn a percentage of the federal government's recovery. Because of these incentives, these so-called "whistleblower" suits have become more frequent. The violation of any of these laws or regulations by an operator may result in the imposition of fines or other penalties, including exclusion from Medicare, Medicaid and all other federal and state healthcare programs.

Privacy. Our operators are subject to various federal, state and local laws and regulations designed to protect the confidentiality and security of patient health information, including the federal Health Insurance Portability and Accountability Act of 1996, as amended, the Health Information Technology for Economic and Clinical Health Act, and the corresponding regulations promulgated thereunder ("HIPAA"). On January 25, 2013, the Office for Civil Rights issued a final rule modifying HIPAA to increase the requirements on our operators. Some of the new requirements include, among other things: making business associates subject to the HIPAA Privacy and Security Rules which will require new business associate agreements; changes in determining whether a breach of unsecured protected health information occurred; new requirements for the Notice of Privacy Practices; and decreasing the time to disclose protected health information and requiring disclosures to be electronic under certain conditions. HHS has been conducting audits of covered entities to evaluate compliance with HIPAA, and it will continue its audit program in 2015 which will also include business associates and will focus on security risk assessments.

Various states have similar laws and regulations that govern the maintenance and safeguarding of patient records, charts and other information generated in connection with the provision of professional medical services. These laws and regulations require our operators to expend the requisite resources to secure protected health information, including the funding of costs associated with technology upgrades. Operators found in violation of HIPAA or any other privacy law or regulation may face large penalties. In addition, compliance with an operator's notification requirements in the event of a breach of unsecured protected health information could cause reputational harm to an operator's business.

Licensing and Certification. Our operators and facilities are subject to various federal, state and local licensing and certification laws and regulations, including laws and regulations under Medicare and Medicaid requiring operators of SNFs and ALFs to comply with extensive standards governing operations. Governmental agencies administering these laws and regulations regularly inspect our operators' facilities and investigate complaints. Our operators and their managers receive notices of observed violations and deficiencies from time to time, and sanctions have been imposed from time to time on facilities operated by them.

Other Laws and Regulations. Additional federal, state and local laws and regulations affect how our operators conduct their operations, including laws and regulations protecting consumers against deceptive practices and otherwise generally affecting our operators' management of their property and equipment and the conduct of their operations (including laws and regulations involving fire, health and safety; quality of services, including care and food service; residents' rights, including abuse and neglect laws; and the health standards set by the federal Occupational Safety and Health Administration).

General and Professional Liability. Although arbitration agreements have been effective in limiting general and professional liabilities for long term care providers, there have been national efforts to outlaw the use of pre-dispute arbitration agreements in long term care settings. At least one state is allowing residents to sue a SNF for failing to comply with staffing quality measures. All of these factors have a potential impact on liability costs of our operators, which could adversely affect our operators' ability to meet their obligations to us.

Critical Accounting Policies and Estimates

Our financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”), and a summary of our significant accounting policies is included in Note 2 – Summary of Significant Accounting Policies to our Annual Report on Form 10-K for the year ended December 31, 2014. Our preparation of the financial statements requires us to make estimates and assumptions about future events that affect the amounts reported in our financial statements and accompanying footnotes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such difference may be material to the consolidated financial statements. We have described our most critical accounting policies in our 2014 Annual Report on Form 10-K in Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Recent Accounting Pronouncements

Amendments to the Consolidation Analysis

In February 2015, the FASB issued updated guidance that makes targeted amendments to the current consolidation accounting guidance. The update is in response to accounting complexity concerns, particularly from the asset management industry. The guidance simplifies consolidation accounting by reducing the number of approaches to consolidation, provides a scope exception to registered money market funds and similar unregistered money market funds and ends the indefinite deferral granted to investment companies from applying the variable interest entity guidance.

The updated guidance is effective for annual and interim periods beginning after December 15, 2015. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs. This standard amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of a deferred charge. It is effective for annual reporting periods beginning after December 15, 2015, but early adoption is permitted. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Revenue Recognition

In May 2014, the FASB issued a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The effective date is for periods beginning after December 15, 2016. We are currently evaluating the impact, if any, the adoption of this standard will have on our consolidated financial statements.

Results of Operations

The following is our discussion of the consolidated results of operations, financial position and liquidity and capital resources, which should be read in conjunction with our unaudited consolidated financial statements and accompanying notes. The Company's results of operations for the three-month period ended March 31, 2015 do not reflect the operations of Aviv, and accordingly are not indicative of the Company's results of future periods.

Three Months Ended March 31, 2015 and 2014

Operating Revenues

Our operating revenues for the three months ended March 31, 2015, totaled \$133.4 million, an increase of \$12.4 million over the same period in 2014. The \$12.4 million increase was primarily the result of: (i) additional \$5.0 million rental income associated with acquisitions and lease amendments/extensions made throughout 2014 and in the first quarter of 2015 and (ii) \$7.3 million increase in mortgage interest income primarily due to (a) the \$415 million

new multiple facility mortgage we entered into with an existing operator in the second quarter of 2014 and (b) the \$112.5 million mortgage we entered into with an existing operator in the first quarter of 2014.

35

Operating Expenses

Operating expenses for the three months ended March 31, 2015, totaled \$47.5 million, an increase of approximately \$9.5 million over the same period in 2014. The increase was primarily due to: (i) a \$6.0 million increase in provision for impairments on real estate properties, (ii) a \$4.8 million increase in acquisition costs due to the Aviv merger and (iii) a \$0.2 million increase in general and administrative expense, offset by (i) \$0.7 million decrease in stock based compensation expense related to the timing of grants awarded and (ii) a decrease of \$0.8 million in depreciation expense as a result of shorter lived assets acquired over the past few years becoming fully depreciated. Going forward, we expect increased general and administrative expense and stock-based compensation expense, largely reflecting the Aviv Merger and other acquisitions.

Other Income (Expense)

For the three months ended March 31, 2015, total other expenses were \$42.9 million, an increase of approximately \$12.9 million over the same period in 2014. The increase was primarily the result of an increase of \$5.3 million in interest expense due to an increase in borrowings outstanding to fund new investments since January 2014 and an increase of approximately \$7.3 million in interest refinancing costs. In the first quarter of 2015, we recorded \$9.4 million of net interest refinancing related costs including: (i) \$11.7 million in costs related to the early redemption of the 2020 Notes which consisted of: (a) prepayment penalties of approximately \$7.5 million, (b) the write-off of deferred financing costs of \$2.5 million and (c) the write-off of discount of \$1.7 million, and a (ii) \$2.3 million gain on the extinguishment of the debt due to the write-off of the \$9.7 million fair market value adjustment recorded at the time of acquisition offset by a prepayment fee of approximately \$7.4 million. In the first quarter of 2014, we wrote off approximately \$2.0 million in deferred financing costs associated with the termination of the 2013 term loan facility.

Funds From Operations

Our funds from operations available to common stockholders (“FFO”), for the three months ended March 31, 2015, was \$79.6 million, compared to \$84.4 million, for the same period in 2014.

We calculate and report FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts (“NAREIT”), and, consequently, FFO is defined as net income available to common stockholders, adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairment on real estate assets. We believe that FFO is an important supplemental measure of our operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term FFO was designed by the real estate industry to address this issue. FFO herein is not necessarily comparable to FFO of other REITs that do not use the same definition or implementation guidelines or interpret the standards differently from us.

FFO is a non-GAAP financial measure. We use FFO as one of several criteria to measure operating performance of our business. We further believe that by excluding the effect of depreciation, amortization, impairment on real estate assets and gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and between other REITs. We offer this measure to assist the users of our financial statements in evaluating our financial performance under GAAP, and FFO should not be considered a measure of liquidity, an alternative to net income or an indicator of any other performance measure determined in accordance with GAAP.

Investors and potential investors in our securities should not rely on this measure as a substitute for any GAAP measure, including net income.

The following table presents our FFO results for the three- months periods ended March 31, 2015 and 2014:

	Three Months Ended March 31,	
	2014	2013
	(in thousands)	
Net income available to common stockholders	\$43,052	\$55,829
Deduct gain from real estate dispositions	—	(2,883)
Sub-total	43,052	52,946
Elimination of non-cash items included in net income:		
Depreciation and amortization	30,610	31,444
Add back impairments on real estate properties	5,982	—
Funds from operations available to common stockholders	\$79,644	\$84,390

Portfolio and Recent Developments

Acquisition of Aviv by Merger

On April 1, 2015, we completed the Merger. As a result, the Company acquired 348 properties in 30 states, operated by 37 third-party operators. Omega issued approximately 43.7 million shares of common stock in the Merger.

\$6.8 Million New Investment in Q1 2015

On January 28, 2015, we purchased one SNF from an unrelated third party for approximately \$6.3 million in cash and leased it to an existing operator. The purchase and sale agreement includes a provision that requires us to make an additional payment of \$0.5 million to the seller if certain financial metrics of the facility are achieved. As a result, we recorded the potential \$0.5 million payment as part of the purchase price. The 93 bed SNF, located in Texas, was added to the operator's existing master lease with an initial annual cash yield of 9.5%.

Acquisition of \$179 Million of Care Homes in United Kingdom

On May 1, 2015, we closed a \$179 million purchase/leaseback transaction for 23 Care Homes located in the United Kingdom and operated by Healthcare Homes Holding Limited ("Healthcare Homes"). As part of the transaction, we acquired title to the 23 Care Homes with 1,018 registered beds and leased them back to Healthcare Homes pursuant to a 12-year master lease agreement with an initial annual cash yield of 7%, and annual escalators of 2.5%. The Care Homes, comparable to US ALFs, are located throughout the East Anglia region (north of London) of the United Kingdom. Healthcare Homes is headquartered in Colchester (Essex County), England.

Assets Sales and Impairments

For the three-month period ended March 31, 2015, we initiated plans to construct a new single facility with an existing operator that would consolidate and replace three existing facilities. As a result, we recorded a total of \$6.0 million in impairment charges related to three Florida SNFs to reduce their net book values to their estimated sales price.

Assets Held for Sale

In the first quarter of March 31, 2015, we reclassified one SNF in Alabama with a carrying value of approximately \$4.1 million to assets held-for-sale. At March 31, 2015, we had four SNFs and one parcel of land classified as held-for-sale with an aggregate net book value of approximately \$16.9 million.

Liquidity and Capital Resources

At March 31, 2015, we had total assets of \$4.6 billion, stockholders' equity of \$1.8 billion and debt of \$2.6 billion, representing approximately 59.7% of total capitalization.

Financing Activities and Borrowing Arrangements

Certain of our other secured and unsecured borrowings are subject to customary affirmative and negative covenants, including financial covenants. As of March 31, 2015 and December 31, 2014, we were in compliance with all affirmative and negative covenants, including financial covenants, for our secured and unsecured borrowings.

Bank Credit Facilities

On June 27, 2014, we entered into a \$1.2 billion unsecured credit facility, comprised of a \$1 billion senior unsecured revolving credit facility (the "Revolving Credit Facility") and a \$200 million senior unsecured term loan facility (the "Term Loan Facility" and, collectively, the "2014 Credit Facilities").

The Revolving Credit Facility is priced at LIBOR plus an applicable percentage (beginning at 130 basis points, with a range of 92.5 to 170 basis points) based on our ratings from Standard & Poor's, Moody's and/or Fitch Ratings, plus a facility fee based on the same ratings (initially 25 basis points, with a range of 12.5 to 30 basis points). The Revolving Credit Facility is used for acquisitions and general corporate purposes. At March 31, 2015, we had no borrowings outstanding under the Revolving Credit Facility. The Revolving Credit Facility matures on June 27, 2018, subject to a one-time option by us to extend such maturity date by one year.

The Term Loan Facility is also priced at LIBOR plus an applicable percentage (beginning at 150 basis points, with a range of 100 to 195 basis points) based on our ratings from Standard & Poor's, Moody's and/or Fitch Ratings. At March 31, 2015, we had \$200 million in borrowings outstanding under the Term Loan Facility. The Term Loan Facility matures on June 27, 2019.

In January 2015, we entered into an engagement letter with respect to various proposed amendments to our existing 2014 Credit Facilities. The amendments to our senior unsecured credit facility were completed on April 1, 2015. See Note 15 – Subsequent Events for more details.

HUD Mortgage Loans Payoff

On March 31, 2015, we paid approximately \$154.3 million to retire 21 mortgage loans guaranteed by U.S. Department of Housing and Urban Development ("HUD"), totaling approximately \$146.9 million. 18 loans had an all-in blended interest rate of 5.35% per annum with maturities between January 2040 and January 2045 and three loans had an all-in blended interest rate of 5.23% per annum with maturities between February 2040 and February 2045. The payoff resulted in a \$2.3 million gain on the extinguishment of the debt due to the write-off of the \$9.7 million unamortized debt premium recorded at the time of acquisition offset by a prepayment fee of approximately \$7.4

million.

Issuance of \$700 Million of Senior Notes

On March 18, 2015, we sold \$700 million aggregate principal amount of our 4.50% Senior Notes due 2027 (the “2027 Notes”). The 2027 Notes were sold at an issue price of 98.546% of their face value before the initial purchasers’ discount. The Company’s total net proceeds from the offering, after deducting initial purchasers’ discounts and other offerings expenses, were approximately \$683 million. We used the net proceeds of the offering for general corporate purposes, which included the repayment of Aviv indebtedness on April 1, 2015 in connection with Omega’s acquisition of Aviv by merger, and repayment of future maturities on Omega’s outstanding debt.

38

The 2027 Notes mature on April 1, 2027. The 2027 Notes bear an interest rate of 4.50% per annum, and are fully and unconditionally guaranteed, jointly and severally, by our existing and future subsidiaries that guarantee indebtedness for money borrowed by Omega in a principal amount at least equal to \$50 million (including as of the date hereof our existing senior notes and the facilities under our credit agreement). The 2027 Notes are Omega's unsecured senior obligations and rank equally in right of payment with all of Omega's existing and future senior debt and is senior in right of payment to all of Omega's existing and future subordinated debt. Omega may redeem some or all of the notes prior to January 1, 2027 at a price equal to 100% of the principal amount thereof plus a "make-whole" premium calculated by reference to U.S. treasuries with a maturity comparable to the remaining term of the 2027 Notes, and accrued and unpaid interest, if any, to, but not including, the applicable redemption date. The 2027 Notes will be redeemable at any time on or after January 1, 2027 at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest, if any, to, but not including, the applicable redemption date.

\$200 Million 7.5% Senior Notes due 2020 Redemption

On March 13, 2015, Omega redeemed all of its outstanding 7.5% Senior Notes, due 2020, or the 2020 Notes, pursuant to the terms of the indenture governing the 2020 Notes at a redemption price of approximately \$208.7 million, consisting of 103.750% of the principal amount, plus accrued and unpaid interest on such notes to, but not including, the date of redemption.

In connection with the redemption, during the first quarter of 2015, we recorded approximately \$11.7 million redemption related costs and write-offs, including \$7.5 million in prepayment fee for early redemption and \$4.2 million of write-offs associated with unamortized deferred financing costs and discount. The consideration for the redemption of the 2020 Notes was funded from the net proceeds of the 10.925 million share common stock offering (described below).

Increase of Authorized Omega Common Stock

At the Special Meeting held on March 27, 2015, Omega stockholders voted upon and approved a proposal to amend Omega's charter to increase the number of authorized shares of Omega capital stock from 220 million to 370 million and the number of authorized shares of Omega common stock from 200 million to 350 million.

10.925 Million Common Stock Offering

On February 9, 2015, we completed an underwritten public offering of 10.925 million shares of our common stock at \$42.00 per share before underwriting and other offering expenses. The Company's total net proceeds from the offering were approximately \$440 million, after deducting underwriting discounts and commissions and other estimated offering expenses.

Dividend Reinvestment and Common Stock Purchase Plan

For the three-month period ended March 31, 2015, approximately 0.1 million shares of our common stock at an average price of \$40.13 per share were issued through our Dividend Reinvestment and Common Stock Purchase Program for gross proceeds of approximately \$5.4 million.

Dividends

In order to qualify as a REIT, we are required to distribute dividends (other than capital gain dividends) to our stockholders in an amount at least equal to (A) the sum of (i) 90% of our “REIT taxable income” (computed without regard to the dividends paid deduction and our net capital gain), and (ii) 90% of the net income (after tax), if any, from foreclosure property, minus (B) the sum of certain items of non-cash income. In addition, if we dispose of any built-in gain asset during a recognition period, we will be required to distribute at least 90% of the built-in gain (after tax), if any, recognized on the disposition of such asset. Such distributions must be paid in the taxable year to which they relate, or in the following taxable year if declared before we timely file our tax return for such year and paid on or before the first regular dividend payment after such declaration. In addition, such distributions are required to be made pro rata, with no preference to any share of stock as compared with other shares of the same class, and with no preference to one class of stock as compared with another class except to the extent that such class is entitled to such a preference. To the extent that we do not distribute all of our net capital gain or do distribute at least 90%, but less than 100% of our “REIT taxable income” as adjusted, we will be subject to tax thereon at regular ordinary and capital gain corporate tax rates.

For the three-months ended March 31, 2015, we declared total dividends of \$118.6 million and paid \$68.3 million to our common stockholders.

On April 15, 2015, our Board of Directors declared a prorated dividend of \$0.18 per share of Omega’s common stock in view of the completed acquisition of Aviv pursuant to the Merger. The per share dividend amount payable by Omega represents dividends for April 2015, at a quarterly dividend rate of \$0.54 per share of common stock, representing an increase of \$0.01 per share over the quarterly dividend rate for the immediately preceding quarterly period. The \$0.18 dividend will be payable in cash on May 15, 2015 to stockholders of record as of the close of business on April 30, 2015.

On March 5, 2015, our Board of Directors declared a prorated dividend of \$0.36 per share of Omega’s common stock in view of the pending acquisition of Aviv pursuant to the Merger. The per share dividend amount represented dividends for February and March 2015, at the quarterly rate of \$0.54 per share of common stock, representing an increase of \$0.01 per share over the quarterly dividend rate for the immediately preceding quarterly period. The dividend was paid in cash on April 7, 2015 to stockholders of record as of the close of business on March 31, 2015.

Liquidity

We believe our liquidity and various sources of available capital, including cash from operations, our existing availability under our 2014 Credit Facilities and expected proceeds from mortgage payoffs are adequate to finance operations, meet recurring debt service requirements and fund future investments through the next twelve months.

We regularly review our liquidity needs, the adequacy of cash flow from operations, and other expected liquidity sources to meet these needs. We believe our principal short-term liquidity needs are to fund:

- normal recurring expenses;
- debt service payments;
- common stock dividends; and
- growth through acquisitions of additional properties.

The primary source of liquidity is our cash flows from operations. Operating cash flows have historically been determined by: (i) the number of facilities we lease or have mortgages on; (ii) rental and mortgage rates; (iii) our debt

service obligations; and (iv) general and administrative expenses. The timing, source and amount of cash flows provided by financing activities and used in investing activities are sensitive to the capital markets environment, especially to changes in interest rates. Changes in the capital markets environment may impact the availability of cost-effective capital and affect our plans for acquisition and disposition activity.

Cash and cash equivalents totaled \$700.1 million as of March 31, 2015, an increase of \$695.7 million as compared to the balance at December 31, 2014. The following is a discussion of changes in cash and cash equivalents during the quarter ended March 31, 2015 due to operating, investing and financing activities, which are presented in our Consolidated Statements of Cash Flows.

See Note 15 – Subsequent Events above for information regarding changes to our credit facilities since March 31, 2015. As of May 1, 2015, the Company had \$428 million of outstanding borrowings under its revolving credit facility and \$500 million of outstanding term loan borrowings under its various term loan facilities on a consolidated basis, including the Operating Partnership Term Loan Facility.

Operating Activities – Operating activities generated \$103.3 million of net cash flow for the three months ended March 31, 2015, as compared to \$78.1 million for the same period in 2014, an increase of \$25.2 million. The increase was primarily due to additional cash flow generated from new investments, including the facilities acquired and leased throughout 2014 and during first quarter of 2015.

Investing Activities – Net cash flow from investing activities was an outflow of \$18.5 million for the three months ended March 31, 2015, as compared to an outflow of \$120.4 million for the same period in 2014. The \$101.9 million decrease in cash outflow from investing activities relates primarily to (i) \$2.0 million of mortgage investment made in the first quarter of 2015 compared to \$113.1 million during the same period in 2014 and (ii) net cash inflow of \$0.7 million from other investments – net compared to a net cash outflow of \$3.0 million for the same period of 2014, offset by (i) an increase of \$5.9 million investment in construction in progress in the first quarter of 2015 compared to the same period of 2014, (ii) an increase of \$2.3 million in our capital renovation program investment compared to the same period of 2014 and (iii) a decrease of \$3.4 million in proceeds from the sale of real estate in the first quarter of 2015 compared to the same period in 2014.

Financing Activities – Net cash flow from financing activities was an inflow of \$610.9 million for the three months ended March 31, 2015 as compared to an inflow of \$60.1 million for the same period in 2014. The \$550.8 million increase in cash inflow from financing activities was primarily a result of: (i) net proceeds of \$440 million from issuance of 10.925 million of common stock in the first quarter of 2015 as compared to \$27.8 million for the same period in 2014, (ii) an increase in proceeds of \$95.5 million in long term borrowings compared to the same period in 2014 and (iii) a decrease in net payments of \$241 million on the credit facility compared to the same period in 2014. Offsetting these increases were: (i) an increase of \$146.6 million in payments of long term borrowings primarily due to (a) early extinguishment of \$200 million Senior Notes due 2020 in the first quarter of 2015 and (b) \$147.9 million HUD mortgage loans payoff including routine HUD debt principal in the first quarter of 2015 as compared to (c) the \$200 million 2013 Term Loan Facility paid off in March 2014 and (d) \$1.2 million routine HUD debt principal for the same period in 2014, (ii) dividend payments increased by \$6.6 million due to an increase in number of shares outstanding and an increase of \$0.04 per share in the common dividends and (iii) a decrease in net proceeds of \$26.1 million from our dividend reinvestment plan compared to the same period in 2014.

Item 3 – Quantitative and Qualitative Disclosures about Market Risk

During the quarter ended March 31, 2015, there were no material changes in our primary market risk exposures or how those exposures are managed from the information disclosed under Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4 – Controls and Procedures

Disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) are controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that

information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In connection with the preparation of this Form 10-Q, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2015. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of March 31, 2015.

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period covered by this report identified in connection with the evaluation of our disclosure controls and procedures described above that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1 – Legal Proceedings

See Note 12 – Litigation to the Consolidated Financial Statements in Part I, Item 1 hereto, which is hereby incorporated by reference in response to this item.

Item 1A – Risk Factors

We filed our Annual Report on Form 10-K for the year ended December 31, 2014, with the Securities and Exchange Commission on February 27, 2015, which sets forth certain risk factors in Item 1A therein. In addition to the risk factors described therein, investors should consider the following risk factors arising from the change in the organizational structure of our business.

Our primary assets are the units of partnership interest in the Partnership and, as a result, we will depend on distributions from the Partnership to pay dividends and expenses.

The Company is a holding company and has no material assets other than units of partnership interest in the Partnership. We intend to cause the Partnership to make distributions to partners, including the Company, in an amount sufficient to allow us to qualify as a REIT for U.S. federal income tax purposes and to pay all of our expenses. To the extent we need funds and the Partnership is restricted from making distributions under applicable law or otherwise, or if the Partnership is otherwise unable to provide such funds, the failure to make such distributions could materially adversely affect our liquidity and financial condition.

Members of our management and Board of Directors are holders of units of partnership interest in the Partnership, and their interests may differ from those of our public stockholders.

Effective April 1, 2015, some members of our management and Board of Directors are holders of units of partnership interest in the Partnership. Those unitholders may have conflicting interests with holders of the Company's common stock. For example, such unitholders of OP units may have different tax positions from the Company or holders of the Company's common stock, which could influence their decisions in their capacities as members of management regarding whether and when to dispose of assets, whether and when to incur new or refinance existing indebtedness and how to structure future transactions.

Ownership of property outside the U.S. may subject us to different or greater risks than those associated with our U.S. investments.

As a result of the closing of the closing of our \$179 million sale/leaseback transaction for 23 Care Homes on May 1, 2015, we now have investments in the United Kingdom. From time to time may seek to acquire other properties in the United Kingdom or otherwise outside the U.S. Although we currently have investments in the United Kingdom, we have limited experience investing in healthcare properties or other real estate-related assets located outside the United States. International development, investment, ownership and operating activities involve risks that are different from those we face with respect to our U.S. properties and operations. These risks include, but are not limited to, any international currency gain recognized with respect to changes in exchange rates may not qualify under the 75.0% gross income test or the 95.0% gross income test that we must satisfy annually in order to qualify and maintain our status as a REIT; challenges with respect to the repatriation of foreign earnings and cash; changes in foreign political, regulatory, and economic conditions, including regionally, nationally, and locally; challenges in managing

international operations; challenges of complying with a wide variety of foreign laws and regulations, including those relating to real estate, corporate governance, operations, taxes, employment and legal proceedings; foreign ownership restrictions with respect to operations in countries; diminished ability to legally enforce our contractual rights in foreign countries; differences in lending practices and the willingness of domestic or foreign lenders to provide financing; regional or country-specific business cycles and economic instability; and changes in applicable laws and regulations in the U.S. that affect foreign operations. In addition, we have limited investing experience in international markets. If we are unable to successfully manage the risks associated with international expansion and operations, our results of operations and financial condition may be adversely affected.

We may be adversely affected by fluctuations in currency exchange rates.

Our ownership of properties in the United Kingdom currently subjects us to fluctuations in the exchange rates between U.S. dollars and the British pound, which may, from time to time, impact our financial condition and results of operations. If we continue to expand our international presence through investments in, or acquisitions or development of SNF, ALF or other healthcare assets outside the United States or the United Kingdom, we may transact business in other foreign currencies. Although we may pursue hedging alternatives, including borrowing in local currencies, to protect against foreign currency fluctuations, we cannot assure you that such fluctuations will not have a material adverse effect on our results of operations or financial condition.

Item 5—Other Information

On May 5, 2015, we announced that our 2015 Annual Meeting of Stockholders will be held on Friday, July 17, 2015, at 10:00 a.m. local time, at our primary corporate office located at 200 International Circle, Suite 3500, Hunt Valley, Maryland 21030. Stockholders of record as of the close of business on May 15, 2015 will be entitled to receive notice of and to participate at the 2015 Annual Meeting of Stockholders. Pursuant to the our Amended and Restated Bylaws, the deadline for a stockholder to give written notice of an intent to present a proposal at the 2015 Annual Meeting of Stockholders or to nominate one or more directors for election at the 2015 Annual Meeting was March 14, 2015.
