HILTON WORLDWIDE HOLDINGS INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1: Organization and Basis of Presentation

Organization

Hilton Worldwide Holdings Inc. (the "Parent," or together with its subsidiaries, "Hilton," "we," "us," "our" or the "Company"), a Delaware corporation, is one of the largest hospitality companies in the world based upon the number of hotel rooms and timeshare units under our 12 distinct brands. We are engaged in owning, leasing, managing, developing and franchising hotels, resorts and timeshare properties. As of September 30, 2015, we owned, leased, managed or franchised 4,480 hotel and resort properties, totaling 737,922 rooms in 97 countries and territories, as well as 45 timeshare properties comprising 7,152 units.

As of September 30, 2015, affiliates of The Blackstone Group L.P. ("Blackstone" or "our Sponsor") beneficially owned approximately 45.9 percent of our common stock.

Basis of Presentation and Use of Estimates

The accompanying condensed consolidated financial statements for the three and nine months ended September 30, 2015 and 2014 have been prepared in accordance with United States of America ("U.S.") generally accepted accounting principles ("GAAP") and are unaudited. We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. GAAP. Although we believe the disclosures made are adequate to prevent the information presented from being misleading, these financial statements should be read in conjunction with the consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported and, accordingly, ultimate results could differ from those estimates. Interim results are not necessarily indicative of full year performance.

In our opinion, the accompanying condensed consolidated financial statements reflect all adjustments, including normal recurring items, considered necessary for a fair presentation of the interim periods. All material intercompany transactions have been eliminated in consolidation.

Note 2: Recently Issued Accounting Pronouncements

Accounting Standards Not Yet Adopted

In September 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-16 ("ASU 2015-16"), Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. This ASU requires adjustments to provisional amounts that are identified during the measurement period of a business combination to be recognized in the reporting period in which the adjustment amounts are determined. Acquirers are no longer required to revise comparative information for prior periods as if the accounting for the business combination had been completed as of the acquisition date. The provisions of ASU 2015-16 are effective for reporting periods beginning after December 15, 2015. We have elected, as permitted by the standard, to early adopt ASU 2015-16 on a prospective basis as of October 1, 2015. The adoption is not expected to have a material effect on our consolidated financial position or results of operations.

In May 2015, the FASB issued ASU No. 2015-07 ("ASU 2015-07"), Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). This ASU removes the requirement to categorize the investments for which fair value is measured using net asset value per share within the fair value hierarchy. The provisions of ASU 2015-07 are effective for reporting periods beginning after December 15, 2015 and are to be applied retrospectively; early adoption is permitted. We are currently evaluating the effect that this ASU will have on our consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-05 ("ASU 2015-05"), Intangibles - Goodwill and Other - Internal Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. This ASU provides a

7

basis for evaluating whether a cloud computing arrangement includes a software license, whereby if an arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses, and if it does not, the customer should account for the arrangement as a service contract. The provisions of ASU 2015-05 are effective for reporting periods beginning after December 15, 2015; early adoption is permitted. The adoption is not expected to have a material effect on our consolidated financial position or results of operations.

In April 2015, the FASB issued ASU No. 2015-03 ("ASU 2015-03"), Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This ASU requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the debt liability rather than as an asset, which is consistent with the presentation of debt discounts and premiums. In August 2015, the FASB issued ASU No. 2015-15, Interest - Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements, which clarifies that absent authoritative guidance in ASU 2015-03 for debt issuance costs related to line-of-credit arrangements, the staff of the Securities and Exchange Commission would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The provisions of ASU 2015-03 are effective for reporting periods beginning after December 15, 2015 and are to be applied retrospectively; early adoption is permitted. The adoption of this ASU is not expected to have a material effect on our consolidated financial position or results of operations.

In February 2015, the FASB issued ASU No. 2015-02 ("ASU 2015-02"), Consolidation (Topic 810) - Amendments to the Consolidation Analysis. This ASU modifies existing consolidation guidance for reporting organizations that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. The provisions of ASU 2015-02 are effective for reporting periods beginning after December 15, 2015; early adoption is permitted. We are currently evaluating the effect that this ASU will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers (Topic 606). This ASU supersedes the revenue recognition requirements in "Revenue Recognition (Topic 605)," and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14 ("ASU 2015-14"), Revenue from Contracts with Customers (Topic 606) - Deferral of the Effective Date, which deferred the effective date of ASU 2014-09 for reporting periods beginning after December 15, 2016 to reporting periods beginning after December 15, 2017. The provisions of this ASU are to be applied retrospectively; early adoption is not permitted. We are currently evaluating the effect that this ASU will have on our consolidated financial statements.

Note 3: Acquisitions

Tax Deferred Exchange

In February 2015, we used proceeds from the sale of the Waldorf Astoria New York (see Note 4: "Disposals") to acquire, as part of a tax deferred exchange of real property, the following properties from sellers affiliated with Blackstone for a total purchase price of \$1.76 billion:

- the resort complex consisting of the Waldorf Astoria Orlando and the Hilton Orlando Bonnet Creek in Orlando, Florida (the "Bonnet Creek Resort");
- the Casa Marina Resort in Key West, Florida;

the Reach Resort in Key West, Florida; and
the Parc 55 in San Francisco, California.

In June 2015, we acquired the Juniper Hotel Cupertino in Cupertino, California to complete the tax deferred exchange of real property, discussed above, for a total purchase price of \$112 million.

We incurred transaction costs of \$26 million recognized in other gain (loss), net in our condensed consolidated statement of operations for the nine months ended September 30, 2015.

As of the acquisition dates, the fair values of the assets acquired and liabilities assumed were as follows:

	(in millions)
Cash and cash equivalents	\$ 16
Restricted cash and cash equivalents	8
Inventories	1
Prepaid expenses	3
Other current assets	1
Property and equipment	1,868
Other intangible assets	4
Accounts payable, accrued expenses and other	(25)
Long-term debt	(450)
Net assets acquired	\$ 1,426

These fair values are subject to adjustments as additional information relative to the fair values at the acquisition date becomes available through the measurement period, which can extend for up to one year after the acquisition date. See Note 11: "Fair Value Measurements" for additional details on the fair value techniques and inputs used for the measurement of the assets and liabilities.

The results of operations from these properties included in the condensed consolidated statements of operations were as follows:

	Three Months Ended September 30, 2015 (in millions)	Nine Months Ended September 30, 2015
Total revenues	\$ 84	\$ 228
Income before income taxes	10	44

Equity Investments Exchange

In July 2014, we entered into an agreement to exchange our ownership interest in six hotels for the remaining interest in five other hotels that were part of an equity investment portfolio we owned with one other partner. As a result of this exchange, we have a 100 percent ownership interest in five hotels and no longer have any ownership interest in the remaining six hotels. This transaction was accounted for as a business combination achieved in stages, resulting in a remeasurement gain based upon the fair values of the equity investments. The carrying values of these equity investments immediately before the exchange totaled \$59 million and the fair values of these equity investments immediately before the exchange totaled \$83 million, resulting in a pre-tax gain of \$23 million, net of transaction costs, recognized in other gain (loss), net in our condensed consolidated statements of operations for the three and nine months ended September 30, 2014.

Note 4: Disposals

Hilton Sydney

In July 2015, we completed the sale of the Hilton Sydney for a purchase price of 442 million Australian Dollars ("AUD") (equivalent to \$340 million as of the closing date). As a result of the sale, we recognized a pre-tax gain of \$163 million included in gain on sales of assets, net in our condensed consolidated statements of operations for the three and nine months ended September 30, 2015. The pre-tax gain was net of transaction costs, a goodwill reduction of \$36 million and reclassification of a currency translation adjustment of \$25 million from accumulated other comprehensive loss into earnings concurrent with the disposition. The goodwill reduction was due to our

consideration of the Hilton Sydney property as a business within our ownership segment; therefore, we reduced the carrying amount of our goodwill by the amount representing the fair value of the business disposed relative to the fair value of the portion of our ownership reporting unit goodwill that was retained.

Waldorf Astoria New York

In February 2015, we completed the sale of the Waldorf Astoria New York for a purchase price of \$1.95 billion and we repaid in full the existing mortgage loan secured by our Waldorf Astoria New York property (the "Waldorf Astoria Loan") of approximately \$525 million. As a result of the sale, we recognized a gain of \$143 million included in gain on sales of assets, net in our condensed consolidated statement of operations for the nine months ended September 30, 2015. The gain was net of transaction costs and a goodwill reduction of \$185 million. The goodwill reduction was due to our consideration of the Waldorf Astoria New York property as a business within our ownership segment; therefore, we reduced the carrying amount of our goodwill by the amount representing the fair value of the business disposed relative to the fair value of the portion of our ownership reporting unit goodwill that was retained. Additionally, we recognized a loss of \$6 million in other gain (loss), net in our condensed consolidated statement of operations for the nine months ended September 30, 2015 related to the reduction of the Waldorf Astoria Loan's remaining carrying amount of debt issuance costs.

Sale of Other Property and Equipment

During the nine months ended September 30, 2014, we completed the sales of two hotels and a vacant parcel of land for approximately \$15 million. As a result of these sales, we recognized a pre-tax gain of \$13 million, including the reclassification of a currency translation adjustment of \$3 million, from accumulated other comprehensive loss concurrent with the disposition. The gain was included in other gain (loss), net in our condensed consolidated statement of operations for the nine months ended September 30, 2014. Additionally, during the nine months ended September 30, 2014, we completed the sale of certain land and easement rights to an affiliate of Blackstone in connection with a timeshare project. As a result, the affiliate of Blackstone acquired the rights to the name, plans, designs, contracts and other documents related to the timeshare project. The total consideration received for this transaction was approximately \$37 million. We recognized \$13 million, net of tax, as a capital contribution within additional paid-in capital, representing the excess of the fair value of the consideration received over the carrying value of the assets sold.

Note 5: Property and Equipment

Property and equipment were as follows:

	September 30, 2015	December 31, 2014
	(in millions)	
Land	\$3,484	\$3,009
Buildings and leasehold improvements	6,349	5,150

	11,193	9,352
Accumulated depreciation and amortization	(2,061) (1,869
	\$9,132	\$7,483

Depreciation and amortization expense on property and equipment, including amortization of assets recorded under capital leases, was \$88 million and \$79 million during the three months ended September 30, 2015 and 2014, respectively, and \$260 million and \$235 million during the nine months ended September 30, 2015 and 2014, respectively.

As of September 30, 2015 and December 31, 2014, property and equipment included approximately \$143 million and \$149 million, respectively, of capital lease assets primarily consisting of buildings and leasehold improvements, net of

\$69 million and \$64 million, respectively, of accumulated depreciation and amortization.

Note 6: Financing Receivables

Financing receivables were as follows:

	September 30, 2015			
	Securitized Timeshare (in millions)	Unsecuritized Timeshare ⁽¹⁾	Other	Total
Financing receivables	\$337	\$582	\$36	\$955

Total financing receivables	\$468	\$460	\$22	\$950

Included in this balance, we had \$164 million of gross timeshare financing receivables secured under our ⁽¹⁾ revolving non-recourse timeshare financing receivables credit facility (the "Timeshare Facility"), as of September 30, 2015 and December 31, 2014, respectively.

Timeshare Financing Receivables

As of September 30, 2015, we had 52,840 timeshare financing receivables with interest rates ranging from zero percent to 20.50 percent, a weighted average interest rate of 11.92 percent, a weighted average remaining term of 7.6 years and maturities through 2026.

Our timeshare financing receivables as of September 30, 2015 mature as follows:

Year	Securitized Timeshare (in millions)	Unsecuritized Timeshare
2015 (remaining)	\$15	\$29
2016	60	62

As of September 30, 2015 and December 31, 2014, we had ceased accruing interest on timeshare financing receivables with an aggregate principal balance of \$30 million and \$31 million, respectively. The following table details an aged analysis of our gross timeshare financing receivables balance:

	September 30, 2015 (in millions)	December 31, 2014
Current	\$1,011	\$980
30 - 89 days past due	12	13
90 - 119 days past due	3	2
120 days and greater past due	27	29
	\$1,053	\$1,024

The changes in our allowance for uncollectible timeshare financing receivables were as follows:

	Nine Months Ended September 30, 2015		2014
	(in millions)		
Beginning balance	\$96		\$92
Write-offs	(23)	(24
Provision for uncollectibles on sales	29		25
Ending balance	\$102		\$93

Note 7: Investments in Affiliates

Investments in affiliates were as follows:

	September 30, 2015 (in millions)	December 31, 2014
Equity investments	\$145	\$153
Other investments	9	17
	\$154	\$170

We maintain investments in affiliates accounted for under the equity method, which are primarily investments in entities that owned or leased 16 hotels as of September 30, 2015 and December 31, 2014. These entities had total debt of approximately \$949 million and \$929 million as of September 30, 2015 and December 31, 2014, respectively. Substantially all of the debt is secured solely by the affiliates' assets or is guaranteed by other partners without recourse to us.

Note 8: Consolidated Variable Interest Entities

As of September 30, 2015 and December 31, 2014, we consolidated five variable interest entities ("VIEs"); two lease hotels from unconsolidated affiliates in Japan, two are associated with our timeshare financing receivables securitization transactions that both issued debt (collectively, "Securitized Timeshare Debt") and one owns a hotel in the U.S. We are the primary beneficiaries of these VIEs as we have the power to direct the activities that most significantly affect their economic performance. Additionally, we have the obligation to absorb their losses and the right to receive benefits that could be significant to them. The assets of our VIEs are only available to settle the obligations of these entities. Our condensed consolidated balance sheets included the assets and liabilities of these entities, which primarily comprised the following:

	September 30, 2015	December 31, 2014
	(in millions)	
Cash and cash equivalents	\$38	\$27
Restricted cash and cash equivalents	17	22
Property and equipment, net	73	77
Securitized financing receivables, net	377	468
Other non-current assets	53	56
Non-recourse debt	605	729

During the nine months ended September 30, 2015 and 2014, we did not provide any financial or other support to any VIEs that we were not previously contractually required to provide, nor do we intend to provide such support in the future.

In June 2015, one of our consolidated VIEs in Japan modified the terms of its capital lease, resulting in a reduction in non-recourse debt of \$24 million. This amount was recognized as a gain in other gain (loss), net in our condensed consolidated statement of operations during the nine months ended September 30, 2015, as the leased asset had previously been fully impaired.

In September 2014, we acquired an additional ownership interest in one of our consolidated VIEs in Japan. The effect of this acquisition was recognized during the nine months ended September 30, 2014, resulting in a decrease in additional paid-in capital of \$6 million, a decrease in accumulated other comprehensive loss of \$1 million and an increase in noncontrolling interests of \$5 million.

Note 9: Debt

Long-term Debt

Long-term debt balances, including obligations for capital leases, and associated interest rates as of September 30, 2015 were as follows:

	September 30, 2015	December 31, 2014
	(in millions)	
Senior secured term loan facility with a rate of 3.50%, due 2020	\$4,325	\$5,000

Less: unamortized discount on senior secured term loan facility	(19) (21
	\$9,945	\$10,803

(1) The initial maturity date of the variable-rate component of this borrowing is November 1, 2015. We assumed all extensions, which are solely at our option, were exercised.

(2) For mortgage loans with maturity date extensions that are solely at our option, we assumed they were exercised.

During the nine months ended September 30, 2015, we made prepayments of \$675 million on our senior secured term loan facility (the "Term Loans"), including a contractually required prepayment using the net proceeds from the sale of the Hilton Sydney. See Note 4: "Disposals" for further information on the transaction.

As of September 30, 2015, we had \$45 million of letters of credit outstanding under our \$1.0 billion senior secured revolving credit facility (the "Revolving Credit Facility"), and a borrowing capacity of \$955 million.

In February 2015, we repaid the \$525 million Waldorf Astoria Loan concurrent with the sale of the Waldorf Astoria New York. See Note 4: "Disposals" for further information on the transaction.

In February 2015, we assumed a \$450 million mortgage loan secured by the Bonnet Creek Resort (the "Bonnet Creek Loan") as a result of an acquisition. See Note 3: "Acquisitions" for further information on the transaction. Principal payments, commencing in April 2016, are payable monthly over a 25-year amortization period with the unamortized portion due in full upon maturity. The Bonnet Creek Loan, maturing on April 29, 2018, with an option to extend for one year, bears interest at a variable rate based on one-month LIBOR plus 350 basis points, which is payable monthly.

Our commercial mortgage-backed securities loan secured by 23 of our U.S. owned real estate assets (the "CMBS Loan") and the Bonnet Creek Loan require us to deposit with the lenders certain cash reserves for restricted uses. As of September 30, 2015 and December 31, 2014, our condensed consolidated balance sheets included \$91 million and \$19 million, respectively, of restricted cash and cash equivalents related to these loans.

Non-recourse Debt

Non-recourse debt, including obligations for capital leases, and associated interest rates as of September 30, 2015 were as follows:

	September 30, 2015	December 31, 2014
	(in millions)	
Capital lease obligations of consolidated VIEs with a rate of 6.34%, due 2018 to 2026	\$189	\$216

Timeshare Facility with a rate of 1.20%, due 2017	150	150
Securitized Timeshare Debt with an average rate of 1.97%, due 2026	384	481
	755	879
Less: current maturities of non-recourse debt	(132)	(127)
	\$623	\$752

⁽¹⁾ Excludes the non-recourse debt of our VIEs that issued the Securitized Timeshare Debt, as it is presented separately.

We are required to deposit payments received from customers on the pledged timeshare financing receivables and securitized timeshare financing receivables related to the Timeshare Facility and Securitized Timeshare Debt, respectively, into a depository account maintained by a third party. On a monthly basis, the depository account will be utilized to make any required principal, interest and other payments due with respect to the Timeshare Facility and Securitized Timeshare Debt. The balance in the depository account, totaling \$19 million and \$25 million as of September 30, 2015 and December 31, 2014, respectively, was included in restricted cash and cash equivalents in our condensed consolidated balance sheets.

Debt Maturities

The contractual maturities of our long-term debt and non-recourse debt as of September 30, 2015 were as follows:

Year	(in millions)
2015 (remaining)	\$48
2016	229
2017	348
2018 ⁽¹⁾	3,562
2019 ⁽¹⁾	481
Thereafter	6,167
	\$10,835

⁽¹⁾ We assumed all extensions that are solely at our option for purposes of calculating maturity dates.

Note 10: Derivative Instruments and Hedging Activities

During the nine months ended September 30, 2015 and 2014, derivatives were used to hedge the interest rate risk associated with variable-rate debt. Certain of our loan agreements require us to hedge interest rate risk using derivative instruments.

During the nine months ended September 30, 2015, derivatives were also used to hedge foreign exchange risk associated with certain foreign currency denominated cash balances.

Cash Flow Hedges

As of September 30, 2015, we held four interest rate swaps with an aggregate notional amount of \$1.45 billion, which swap three-month LIBOR on the Term Loans to a fixed rate of 1.87 percent and expire in October 2018. We elected to designate these interest rate swaps as cash flow hedges for accounting purposes.

Non-designated Hedges

As of September 30, 2015, we held 29 short-term foreign exchange forward contracts with an aggregate notional amount of \$92 million to offset exposure to fluctuations in our foreign currency denominated cash balances. We elected not to designate these foreign exchange forward contracts as hedging instruments.

As of September 30, 2015, we also held the following interest rate caps:

- one interest rate cap in the notional amount of \$875 million, for the variable-rate component of the CMBS Loan, that expires in November 2015 and caps one-month LIBOR at 6.0 percent;
- one interest rate cap in the notional amount of \$525 million that expires in November 2015 and caps one-month LIBOR at 4.0 percent; and
- one interest rate cap in the notional amount of \$338 million that expires in May 2016 and caps one-month LIBOR at 3.0 percent on the Bonnet Creek Loan.

We did not elect to designate any of these interest rate caps as hedging instruments.

Fair Value of Derivative Instruments

⁽²⁾ The fair values of our forward contracts were less than \$1 million as of December 31, 2014.

Earnings Effect of Derivative Instruments

The effects of our derivative instruments on our condensed consolidated statements of operations and condensed consolidated statements of comprehensive income (loss), before any effect for income taxes, were as follows:

	Classification of Gain (Loss) Recognized	Three Months Ended September 30,		Nine Months Ended September 30,

⁽¹⁾ There were no amounts recognized in earnings related to hedge ineffectiveness or amounts excluded from hedge effectiveness testing during the three and nine months ended September 30, 2015 and 2014.

Note 11: Fair Value Measurements

The carrying amounts and estimated fair values of our financial assets and liabilities, which included related current portions, were as follows:

⁽¹⁾ Excludes capital lease obligations with a carrying value of \$66 million and \$72 million as of September 30, 2015 and December 31, 2014, respectively.

⁽²⁾ Excludes capital lease obligations of consolidated VIEs with a carrying value of \$189 million and \$216 million as of September 30, 2015 and December 31, 2014, respectively, and non-recourse debt of consolidated VIEs with a carrying value of \$32 million as of September 30, 2015 and December 31, 2014.

We believe the carrying amounts of our other financial assets and liabilities approximated fair value as of September 30, 2015 and December 31, 2014. Our estimates of the fair values were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop the estimated fair values.

Cash equivalents and restricted cash equivalents primarily consisted of short-term interest-bearing money market funds with maturities of less than 90 days, time deposits and commercial paper. The estimated fair values were based on available market pricing information of similar financial instruments.

The estimated fair values of our timeshare financing receivables were based on the expected future cash flows discounted at weighted-average interest rates of the current portfolio, which reflect the risk of the underlying notes,

primarily determined by the credit worthiness of the borrowers.

The estimated fair values of our Level 1 long-term debt were based on prices in active debt markets. The estimated fair values of our Level 3 long-term debt were based on indicative quotes received for similar issuances, the expected future cash flows discounted at risk-adjusted rates or the carrying value as the interest rates under the loan agreements approximated current market rates.

The estimated fair values of our Level 3 non-recourse debt approximated carrying values as the interest rates under the loan agreements either approximated current market rates or there were not significant fluctuations in current market rates to change the fair values of the underlying instruments.

We measure our interest rate swaps at fair value, which were estimated using an income approach. The primary inputs into our fair value estimate include interest rates and yield curves based on observable market inputs of similar instruments.

As a result of our acquisition of certain properties during the nine months ended September 30, 2015, we measured financial and nonfinancial assets and liabilities at fair value on a nonrecurring basis (see Note 3: "Acquisitions") as follows:

	(in millions)
Property and equipment	\$ 1,868
Long-term debt	450

We estimated the fair values of these financial and nonfinancial assets and liabilities using discounted cash flow analyses with the following significant unobservable inputs (Level 3):

Property and equipment:

Estimated stabilized growth rate	3 to 4 percent
Term	10 to 11 years
Terminal capitalization rate ⁽¹⁾	7 to 8 percent
Discount rate ⁽¹⁾	9 to 10 percent

Long-term debt:

Risk adjusted rate	One-month LIBOR plus 275 basis points
--------------------	---

⁽¹⁾ Reflects the risk profile of the individual markets where the assets are located and are not necessarily indicative of our hotel portfolio as a whole.

Note 12: Income Taxes

At the end of each quarter we estimate the effective tax rate expected to be applied for the full year. The effective income tax rate is determined by the level and composition of pre-tax income or loss, which is subject to federal, foreign, state and local income taxes. The annual effective tax rate expected to be applied for the full year is higher than our statutory tax rate primarily because no tax benefit was recognized for compensation costs incurred for the executive compensation plan that certain members of our senior management team participated in prior to December 2013 (the "Promote Plan") or for the reduction of goodwill in connection with the sales of the Waldorf Astoria New York and the Hilton Sydney (see Note 4: "Disposals" for further information). The higher effective tax rate, as compared to our statutory tax rate, for the three and nine months ended September 30, 2015, was largely attributable to the reduction of goodwill in connection with the sales of the Waldorf Astoria New York and the Hilton Sydney as well as compensation costs under the Promote Plan for which no tax benefits were recognized. In addition, a foreign jurisdiction where we had deferred tax assets reduced its statutory tax rate, resulting in a reduction to the deferred tax asset and a corresponding recognition of income tax expense of \$6 million during the nine months ended September 30, 2015.

Our total unrecognized tax benefits as of September 30, 2015 and December 31, 2014 were \$407 million and \$401 million, respectively. We had accrued approximately \$26 million and \$22 million for the payment of interest and penalties as of September 30, 2015 and December 31, 2014, respectively. We recognize interest and penalties accrued related to unrecognized tax benefits in income tax expense.

As a result of the expected resolution of examination issues with federal, state and foreign tax authorities, we believe it is reasonably possible that during the next 12 months the amount of unrecognized tax benefits will decrease up to \$21 million. Included in the balance of unrecognized tax benefits as of September 30, 2015 and December 31, 2014 were \$377 million and \$367 million, respectively, associated with positions that, if favorably resolved, would provide a benefit to our effective tax rate.

We file income tax returns, including returns for our subsidiaries, with federal, state and foreign jurisdictions. We are under regular and recurring audit by the Internal Revenue Service ("IRS") and other taxing authorities on open tax positions. The timing of the resolution of tax audits is highly uncertain, as are the amounts, if any, that may ultimately be paid upon such resolution. Changes may result from the conclusion of ongoing audits, appeals or litigation in state, local, federal and foreign

tax jurisdictions or from the resolution of various proceedings between the U.S. and foreign tax authorities. We are no longer subject to U.S. federal income tax examination for years through 2004. As of September 30, 2015, we remain subject to federal examinations from 2005-2014, state examinations from 1999-2014 and foreign examinations of our income tax returns for the years 1996 through 2014.

In April 2014, we received 30-day Letters from the IRS and the Revenue Agents Report ("RAR") for the 2006 and October 2007 tax years. We disagreed with several of the proposed adjustments in the RAR, filed a formal appeals protest with the IRS and did not make any tax payments related to this audit. The issues being protested in appeals relate to assertions by the IRS that: (1) certain foreign currency-denominated, intercompany loans from our foreign subsidiaries to certain U.S. subsidiaries should be recharacterized as equity for U.S. federal income tax purposes and constitute deemed dividends from such foreign subsidiaries to our U.S. subsidiaries; (2) in calculating the amount of U.S. taxable income resulting from our Hilton HHonors guest loyalty program, we should not reduce gross income by the estimated costs of future redemptions, but rather such costs would be deductible at the time the points are redeemed; and (3) certain foreign-currency denominated loans issued by one of our Luxembourg subsidiaries whose functional currency is U.S. Dollar ("USD"), should instead be treated as issued by one of our Belgian subsidiaries whose functional currency is the Euro, and thus foreign currency gains and losses with respect to such loans should have been measured in Euros, instead of USD. In total, the proposed adjustments sought by the IRS would result in additional U.S. federal tax owed of approximately \$696 million, excluding interest and penalties and potential state income taxes. The portion of this amount related to our Hilton HHonors guest loyalty program would result in a decrease to our future tax liability when the points are redeemed. We disagree with the IRS's position on each of these assertions and intend to vigorously contest them. We plan to pursue all available administrative remedies, and if we are not able to resolve these matters administratively, we plan to pursue judicial remedies. Accordingly, as of September 30, 2015, no accrual has been made for these amounts.

State income tax returns are generally subject to examination for a period of three to five years after filing the respective return; however, the state effect of any federal tax return changes remains subject to examination by various states for a period generally of up to one year after formal notification to the states. The statute of limitations for the foreign jurisdictions generally ranges from three to ten years after filing the respective tax return.

Note 13: Employee Benefit Plans

We sponsor multiple domestic and international employee benefit plans. Benefits are based upon years of service and compensation.

We have a noncontributory retirement plan in the U.S. (the "Domestic Plan"), which covers certain employees not earning union benefits. This plan was frozen for participant benefit accruals in 1996. We also have multiple employee benefit plans that cover many of our international employees. These include a plan that covers workers in the United Kingdom (the "U.K. Plan"), which was frozen to further accruals in November 2013, and a number of smaller plans that cover workers in various other countries around the world (the "International Plans").

The components of net periodic pension cost (credit) for the Domestic Plan, U.K. Plan and International Plans were as follows:

Note 14: Share-Based Compensation

Stock Plan

Under the Hilton Worldwide Holdings Inc. 2013 Omnibus Incentive Plan (the "Stock Plan"), we issue time-vesting restricted stock units ("RSUs"), nonqualified stock options ("options"), performance-vesting restricted stock units and restricted stock (collectively, "performance shares") and deferred share units ("DSUs").

We recognized share-based compensation expense for awards granted under the Stock Plan of \$22 million and \$25 million during the three months ended September 30, 2015 and 2014, respectively, and \$77 million and \$60 million during the nine months ended September 30, 2015 and 2014, respectively, which included amounts reimbursed by hotel owners. As of September 30, 2015, unrecognized compensation costs for unvested awards was approximately \$119 million, which is expected to be recognized over a weighted-average period of 1.8 years on a straight-line basis.

As of September 30, 2015, there were 68,524,469 shares of common stock available for future issuance under the Stock Plan.

Restricted Stock Units

During the nine months ended September 30, 2015, we issued 2,052,145 RSUs with a weighted average grant date fair value of \$27.47, which generally vest in annual installments over two or three years from the date of grant. Vested RSUs generally are settled for our common stock, with the exception of certain awards that are settled in cash.

Stock Options

During the nine months ended September 30, 2015, we issued 928,585 options with an exercise price of \$27.46, which vest over three years from the date of grant, and terminate 10 years from the date of grant or earlier if the individual's service terminates.

The grant date fair value of these options was \$8.39, which was determined using the Black-Scholes-Merton option-pricing model with the following assumptions:

Expected volatility ⁽¹⁾	28.00	%
Dividend yield ⁽²⁾	—	%
Risk-free rate ⁽³⁾	1.67	%
Expected term (in years) ⁽⁴⁾	6.0	

- Due to limited trading history of our common stock, we did not have sufficient information available on which to base a reasonable and supportable estimate of the expected volatility of our share price. As a result, we used an
- (1) average historical volatility of our peer group over a time period consistent with our expected term assumption in addition to our historical volatility. Our peer group was determined based upon companies in our industry with similar business models and is consistent with those used to benchmark our executive compensation.
 - (2) At the date of grant we had no plans to pay dividends during the expected term of these options.
 - (3) Based on the yields of U.S. Department of Treasury instruments with similar expected lives.
 - (4) Estimated using the average of the vesting periods and the contractual term of the options.

As of September 30, 2015, 299,615 options were exercisable.

Performance Shares

During the nine months ended September 30, 2015, we issued 1,227,140 performance shares. The performance shares are settled at the end of the three-year performance period with 50 percent of the shares subject to achievement based on a measure of the Company's total shareholder return relative to the total shareholder returns of members of a peer company group ("relative shareholder return") and the other 50 percent of the shares subject to achievement based on the Company's earnings before interest expense, taxes and depreciation and amortization ("EBITDA") compound annual growth rate ("EBITDA CAGR").

The grant date fair value of these performance shares based on relative shareholder return was \$32.98, which was determined using a Monte Carlo simulation valuation model with the following assumptions:

Expected volatility ⁽¹⁾	24.00	%
Dividend yield ⁽²⁾	—	%
Risk-free rate ⁽³⁾	1.04	%
Expected term (in years) ⁽⁴⁾	2.8	

Due to limited trading history of our common stock, we did not have sufficient information available on which to base a reasonable and supportable estimate of the expected volatility of our share price. As a result, we used an

- (1) average historical volatility of our peer group over a time period consistent with our expected term assumption in addition to our historical volatility. Our peer group was determined based upon companies in our industry with similar business models and is consistent with those used to benchmark our executive compensation.
- (2) At the date of grant we had no plans to pay dividends during the expected term of these performance shares.
- (3) Based on the yields of U.S. Department of Treasury instruments with similar expected lives.
- (4) Midpoint of the 30-calendar day period preceding the end of the performance period.

The grant date fair value of these performance shares based on our EBITDA CAGR was \$27.46. For performance shares based on our EBITDA CAGR, we determined that the performance condition is probable of achievement and as of September 30, 2015, we recognized compensation expense based on the anticipated achievement percentage as follows:

	Achievement Percentage
Performance shares granted in 2014	150%
Performance shares granted in 2015	125%

Deferred Share Units

During the nine months ended September 30, 2015, we issued to our independent directors 18,538 DSUs with a weighted average grant date fair value of \$28.32, which are fully vested and non-forfeitable on the grant date. DSUs are settled for shares of our common stock and deliverable upon the earlier of termination of the individual's service on our Board of Directors or a change in control.

Promote Plan

Equity awards under the Promote Plan were exchanged for restricted shares of common stock in connection with our initial public offering and 80 percent vested as of December 11, 2014. In May 2015, our Sponsor ceased to own 50 percent or more of the shares of the Company, at which point the remaining 20 percent of restricted shares of common stock vested, resulting in the recognition of compensation expense of \$64 million upon occurrence of that event.

Total compensation expense recognized for the Promote Plan was \$6 million during the three months ended September 30, 2014, and was \$66 million and \$25 million during the nine months ended September 30, 2015 and 2014, respectively.

Note 15: Earnings Per Share

The following table presents the calculation of basic and diluted earnings per share ("EPS"):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(in millions, except per share amounts)			
Basic EPS:				
Numerator:				
Net income attributable to Hilton stockholders	\$279	\$183	\$590	\$515
Denominator:				
Weighted average shares outstanding	987	985	986	985
Basic EPS	\$0.28	\$0.19	\$0.60	\$0.52
Diluted EPS:				
Numerator:				
Net income attributable to Hilton stockholders	\$279	\$183	\$590	\$515
Denominator:				
Weighted average shares outstanding	989	987	989	986
Diluted EPS	\$0.28	\$0.19	\$0.60	\$0.52

Approximately 1 million share-based compensation awards were excluded from the computation of diluted EPS for the three and nine months ended September 30, 2015 and 2014 because their effect would have been anti-dilutive under the treasury stock method.

Note 17: Business Segments

We are a diversified hospitality company with operations organized in three distinct operating segments: ownership, management and franchise and timeshare. Each segment is managed separately because of its distinct economic characteristics.

The ownership segment included 147 properties totaling 59,962 rooms, comprising 124 hotels that we wholly owned or leased, three consolidated non-wholly owned entities, three consolidated VIEs and unconsolidated investments in affiliates that owned or operated 17 hotels, as of September 30, 2015. While we do not include equity in earnings (losses) from unconsolidated affiliates in our measures of segment revenues, we manage these investments in our ownership segment.

The management and franchise segment includes all of the hotels we manage for third-party owners, as well as all franchised hotels operated or managed by someone other than us under one of our proprietary brand names in our brand portfolio. As of September 30, 2015, this segment included 522 managed hotels and 3,811 franchised hotels totaling 4,333 hotels consisting of 677,960 rooms. This segment also earns fees for managing properties in our ownership and timeshare segments.

The timeshare segment includes the development of vacation ownership clubs and resorts, marketing and selling of timeshare intervals, providing timeshare customer financing and resort operations. This segment also provides assistance to third-party developers in selling their timeshare inventory. As of September 30, 2015, this segment included 45 timeshare properties totaling 7,152 units.

Corporate and other represents revenues and related operating expenses generated by the incidental support of hotel operations for owned, leased, managed and franchised hotels and other rental income, as well as corporate assets and related expenditures.

The performance of our operating segments is evaluated primarily based on Adjusted EBITDA. We define Adjusted EBITDA as EBITDA, further adjusted to exclude certain items, including, but not limited to, gains, losses and expenses in connection with: (i) asset dispositions for both consolidated and unconsolidated investments; (ii) foreign currency transactions; (iii) debt restructurings/retirements; (iv) non-cash impairment losses; (v) furniture, fixtures and equipment ("FF&E") replacement reserves required under certain lease agreements; (vi) reorganization costs; (vii) share-based and certain other compensation expenses; (viii) severance, relocation and other expenses; and (ix) other items. To align with management's view of allocating resources and assessing the performance of our segments and to facilitate comparisons with our competitors, beginning in the first quarter of 2015, Adjusted EBITDA excluded all share-based compensation expense, not just share-based compensation recognized in connection with equity issued prior to and in connection with our initial public offering. We have applied this change in the definition to 2014 historical results presented to allow for comparability.

Includes charges to timeshare operations for rental fees and fees for other amenities, which were eliminated in our condensed consolidated financial statements. These charges totaled \$6 million and \$7 million for the three months ended September 30, 2015 and 2014, respectively, and \$17 million and \$21 million for the nine months ended September 30, 2015 and 2014, respectively. While the net effect is zero, our measures of segment revenues and Adjusted EBITDA include these fees as a benefit to the ownership segment and an expense to timeshare Adjusted EBITDA.

Includes other intercompany charges of \$1 million for the three months ended September 30, 2015 and 2014, and \$3 million for the nine months ended September 30, 2015 and 2014, which were eliminated in our condensed consolidated financial statements.

Includes management, royalty and intellectual property fees of \$33 million and \$30 million for the three months ended September 30, 2015 and 2014, respectively, and \$99 million and \$86 million for the nine months ended September 30, 2015 and 2014, respectively. These fees are charged to consolidated owned and leased properties and were eliminated in our condensed consolidated financial statements. Also includes a licensing fee of \$11 million for the three months ended September 30, 2015 and 2014, and \$31 million and \$33 million for the nine months ended September 30, 2015 and 2014, respectively, which is charged to our timeshare segment by our management and franchise segment and was eliminated in our condensed consolidated financial statements. While the net effect is zero, our measures of segment revenues and Adjusted EBITDA include these fees as a benefit to the management and franchise segment and an expense to ownership Adjusted EBITDA and timeshare Adjusted EBITDA.

Includes charges to consolidated owned and leased properties for services provided by our wholly owned laundry business of \$3 million and \$2 million for the three months ended September 30, 2015 and 2014, respectively, and \$6 million for the nine months ended September 30, 2015 and 2014. These charges were eliminated in our condensed consolidated financial statements.

Includes unconsolidated affiliate Adjusted EBITDA.

Note 18: Commitments and Contingencies

As of September 30, 2015, we had outstanding guarantees of \$25 million, with remaining terms ranging from five years to eight years, for debt and other obligations of third parties. We have one letter of credit for \$25 million that has been pledged as collateral for one of these guarantees. Although we believe it is unlikely that material payments will be required under these guarantees or letters of credit, there can be no assurance that this will be the case.

We have also provided performance guarantees to certain owners of hotels that we operate under management contracts. Most of these guarantees allow us to terminate the contract, rather than fund shortfalls, if specified performance levels are not

achieved. However, in limited cases, we are obligated to fund performance shortfalls. As of September 30, 2015, we had six contracts containing performance guarantees, with expirations ranging from 2019 to 2030, and possible cash outlays totaling approximately \$102 million. Our obligations under these guarantees in future periods are dependent on the operating performance levels of these hotels over the remaining terms of the performance guarantees. We do not have any letters of credit pledged as collateral against these guarantees. As of September 30, 2015 and December 31, 2014, we recorded current liabilities of approximately \$8 million and non-current liabilities of approximately \$28 million and \$37 million, respectively, in our condensed consolidated balance sheets for obligations under our outstanding performance guarantees that are related to certain VIEs for which we are not the primary beneficiary.

As of September 30, 2015, we had outstanding commitments under third-party contracts of approximately \$88 million for capital expenditures at certain owned and leased properties. Our contracts contain clauses that allow us to cancel all or some portion of the work. If cancellation of a contract occurred, our commitment would be any costs incurred up to the cancellation date, in addition to any costs associated with the discharge of the contract.

We have entered into an agreement with an affiliate of the owner of a hotel whereby we have agreed to provide a \$60 million junior mezzanine loan to finance the construction of a new hotel. The junior mezzanine loan will be subordinated to a senior mortgage loan and senior mezzanine loan provided by third parties unaffiliated with us and will be funded on a pro rata basis with these loans as the construction costs are incurred. During the nine months ended September 30, 2015, we funded \$11 million of this commitment, and we currently expect to fund the remainder of our commitment as follows: \$6 million in the remainder of 2015, \$39 million in 2016 and \$4 million in 2017.

We have entered into an agreement with a developer in Las Vegas, Nevada, whereby we have agreed to purchase residential units from the developer that we will convert to timeshare units to be marketed and sold under our Hilton Grand Vacations brand. Subject to certain conditions, we are required to purchase approximately \$92 million of inventory ratably over a maximum period of four years. During the nine months ended September 30, 2015 and 2014, we purchased \$17 million and \$23 million, respectively, of inventory under this agreement. As of September 30, 2015, our remaining contractual obligations pursuant to this agreement were \$11 million, all of which we expect to incur in 2016.

During 2010, an affiliate of our Sponsor settled a \$75 million liability on our behalf in conjunction with a lawsuit settlement by entering into service contracts with the plaintiff. We recorded the portion settled by this affiliate as a capital contribution. Additionally, as part of the settlement, we entered into a guarantee with the plaintiff to pay any shortfall that this affiliate does not fund related to those service contracts up to the value of the settlement amount made by the affiliate. The remaining potential exposure under this guarantee as of September 30, 2015 was approximately \$25 million. We have not accrued a liability for this guarantee as we believe the likelihood of any material funding to be remote.

We are involved in other litigation arising from the normal course of business, some of which includes claims for substantial sums. While the ultimate results of claims and litigation cannot be predicted with certainty, we expect that the ultimate resolution of all pending or threatened claims and litigation as of September 30, 2015 will not have a material effect on our condensed consolidated results of operations, financial position or cash flows.

Note 19: Condensed Consolidating Guarantor Financial Information

In October 2013, Hilton Worldwide Finance LLC and Hilton Worldwide Finance Corp. (the "Subsidiary Issuers"), entities formed in August 2013 which are 100 percent owned by the Parent, issued \$1.5 billion of 5.625% senior notes due in 2021 (the "Senior Notes"). The obligations of the Subsidiary Issuers are guaranteed jointly and severally on a senior unsecured basis by the Parent and certain of the Parent's 100 percent owned domestic restricted subsidiaries

(the "Guarantors"). The indenture that governs the Senior Notes provides that any subsidiary of the Company that provides a guarantee of a senior secured credit facility consisting of the Revolving Credit Facility and the Term Loans (the "Senior Secured Credit Facility") will guarantee the Senior Notes. None of our foreign subsidiaries or U.S. subsidiaries owned by foreign subsidiaries or conducting foreign operations; our non-wholly owned subsidiaries; our subsidiaries that secure the CMBS Loan and \$544 million in mortgage loans; or certain of our special purpose subsidiaries formed in connection with our Timeshare Facility and Securitized Timeshare Debt guarantee the Senior Notes (collectively, the "Non-Guarantors").

The guarantees are full and unconditional, subject to certain customary release provisions. The indenture that governs the Senior Notes provides that any Guarantor may be released from its guarantee so long as: (a) the subsidiary is sold or sells all of its assets; (b) the subsidiary is released from its guaranty under the Senior Secured Credit Facility; (c) the subsidiary is declared "unrestricted" for covenant purposes; or (d) the requirements for legal defeasance or covenant defeasance or to discharge the indenture have been satisfied.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and with our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that reflect our current views with respect to, among other things, our operations and financial performance. Forward-looking statements include all statements that are not historical facts. In some cases, you can identify these forward-looking statements by the use of words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "could," "seeks," "approximately," "projects," "predicts," "intends," "plans," "estimates," "anticipates" or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties including, among others, risks inherent to the hospitality industry, macroeconomic factors beyond our control, competition for hotel guests, management and franchise agreements and timeshare sales, risks related to doing business with third-party hotel owners, our significant investments in owned and leased real estate, performance of our information technology systems, growth of reservation channels outside of our system, risks of doing business outside of the United States and our indebtedness. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include but are not limited to those described under "Part I—Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this Quarterly Report on Form 10-Q. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Overview

Our Business

Hilton is one of the largest and fastest growing hospitality companies in the world, with 4,525 hotels, resorts and timeshare properties comprising 745,074 rooms in 97 countries and territories as of September 30, 2015. Our premier brand portfolio includes our luxury and lifestyle hotel brands, Waldorf Astoria Hotels & Resorts, Conrad Hotels & Resorts and Canopy by Hilton, our full-service hotel brands, Hilton Hotels & Resorts, Curio - A Collection by Hilton, DoubleTree by Hilton and Embassy Suites by Hilton, our focused-service hotel brands, Hilton Garden Inn, Hampton by Hilton, Homewood Suites by Hilton and Home2 Suites by Hilton, and our timeshare brand, Hilton Grand Vacations. We have approximately 49 million members in our award-winning customer loyalty program, Hilton HHonors.

Segments and Regions

Management analyzes our operations and business by both operating segments and geographic regions. Our operations consist of three reportable segments that are based on similar products or services: management and franchise; ownership; and timeshare. The management and franchise segment provides services, which include hotel management and licensing of our brands to franchisees, as well as property management at timeshare properties. This segment generates its revenue from management and franchise fees charged to hotel owners, including our owned and leased hotels, and to homeowners' associations at timeshare properties. As a manager of hotels and timeshare resorts, we typically are responsible for supervising or operating the property in exchange for management fees. As a

franchisor of hotels, we charge franchise fees in exchange for the use of one of our brand names and related commercial services, such as our reservation system, marketing and information technology services. The ownership segment derives earnings from providing hotel room rentals, food and beverage sales and other services at our owned and leased hotels. The timeshare segment consists of multi-unit vacation ownership properties and generates revenue by marketing and selling timeshare interests owned by Hilton and third parties, resort operations and providing consumer financing for the timeshare interests.

Geographically, management conducts business through three distinct geographic regions: the Americas; Europe, Middle East and Africa ("EMEA"); and Asia Pacific. The Americas region includes North America, South America and Central America, including all Caribbean nations. Although the U.S. is included in the Americas, it is often analyzed separately and apart from the Americas geographic region and, as such, it is presented separately within the analysis herein. The EMEA region includes Europe, which represents the western-most peninsula of Eurasia stretching from Ireland in the west to Russia in the east, and the Middle East and Africa ("MEA"), which represents the Middle East region and all African nations, including the

Indian Ocean island nations. Europe and MEA are often analyzed separately by management. The Asia Pacific region includes the eastern and southeastern nations of Asia, as well as India, Australia, New Zealand and the Pacific island nations.

As of September 30, 2015, approximately 75 percent of our system-wide hotel rooms were located in the U.S. We expect that the percentage of our hotel rooms outside the U.S. will continue to increase in future years as hotels in our pipeline open.

System Growth and Pipeline

To support our business and growth strategy, we continue to expand our global footprint, fee-based business and the capital efficiency of our timeshare business. As we enter into new management and franchise contracts we expand our business with minimal or no capital investment by us as the manager or franchisor, as the capital required to build and maintain hotels is typically provided by the third-party owner of the respective hotel. Additionally, prior to approving the addition of new hotels to our management and franchise development pipeline, we evaluate the economic viability of the hotel based on the geographic location, the credit quality of the third-party owner and other factors. As a result, by increasing the number of management and franchise agreements with third-party owners, we expect to achieve a higher overall return on invested capital.

As of September 30, 2015, we had a total of 1,555 hotels in our development pipeline, representing approximately 260,000 rooms under construction or approved for development throughout 85 countries and territories, including 33 countries and territories where we do not currently have any open hotels. All of the rooms in the pipeline are within our management and franchise segment. Of the rooms in the pipeline, approximately 136,000 rooms, or more than half of the pipeline, were located outside the U.S. As of September 30, 2015, approximately 130,000 rooms, representing over half of our development pipeline, were under construction. We do not consider any individual development project to be material to us.

Additionally, we enter into agreements to sell timeshare units developed by third parties. Our supply of third-party developed timeshare intervals was approximately 109,000, or 83 percent of our total supply, as of September 30, 2015.

Key Business and Financial Metrics Used by Management

Comparable Hotels

We define our comparable hotels as those: (i) that were active and operating in our system for at least one full calendar year as of the end of the current period, and open January 1st of the previous year; (ii) that have not undergone a change in brand or ownership during the current or comparable periods reported; (iii) that have not sustained substantial property damage, business interruption, undergone large-scale capital projects; and (iv) for which comparable results are available. Of the 4,480 hotels in our system as of September 30, 2015, 3,653 were classified as comparable hotels. Our 827 non-comparable hotels included 123 properties, or approximately three percent of the total hotels in our system, that were removed from the comparable group during the last twelve months because they sustained substantial property damage or business interruption, underwent large-scale capital projects or comparable results were not available.

Occupancy

Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels. Occupancy measures the utilization of our hotels' available capacity. Management uses

occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help us determine achievable Average Daily Rate ("ADR") levels as demand for hotel rooms increases or decreases.

ADR

ADR represents hotel room revenue divided by total number of room nights sold in a given period. ADR measures average room price attained by a hotel and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in the industry, and we use ADR to assess pricing levels that we are able to generate by type of customer, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described above.

RevPAR

We calculate Revenue per Available Room ("RevPAR") by dividing hotel room revenue by room nights available to guests for a given period. We consider RevPAR to be a meaningful indicator of our performance as it provides a metric correlated to two primary and key drivers of operations at our hotels: occupancy and ADR. RevPAR is also a useful indicator in measuring performance over comparable periods for comparable hotels.

References to RevPAR, ADR and occupancy are presented on a comparable basis and references to RevPAR and ADR are presented on a currency neutral basis (all periods use the same exchange rates), unless otherwise noted.

EBITDA and Adjusted EBITDA

For a discussion of our definition of EBITDA and Adjusted EBITDA, see Note 17: "Business Segments" in our unaudited condensed consolidated financial statements.

EBITDA and Adjusted EBITDA are not recognized terms under U.S. GAAP and should not be considered as alternatives to net income (loss) or other measures of financial performance or liquidity derived in accordance with U.S. GAAP. In addition, our definitions of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

We believe that EBITDA and Adjusted EBITDA provide useful information to investors about us and our financial condition and results of operations for the following reasons: (i) EBITDA and Adjusted EBITDA are among the measures used by our management team to evaluate our operating performance and make day-to-day operating decisions; and (ii) EBITDA and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties as a common performance measure to compare results or estimate valuations across companies in our industry.

EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered either in isolation or as a substitute for net income (loss), cash flow or other methods of analyzing our results as reported under U.S. GAAP. Some of these limitations are:

• EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs;

• EBITDA and Adjusted EBITDA do not reflect our interest expense, or the cash requirements necessary to service interest or principal payments, on our indebtedness;

• EBITDA and Adjusted EBITDA do not reflect our tax expense or the cash requirements to pay our taxes;

• EBITDA and Adjusted EBITDA do not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments;

• EBITDA and Adjusted EBITDA do not reflect the effect on earnings or changes resulting from matters that we consider not to be indicative of our future operations;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements; and

Other companies in our industry may calculate EBITDA and Adjusted EBITDA differently, limiting their usefulness as comparative measures.

Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as discretionary cash available to us to reinvest in the growth of our business or as measures of cash that will be available to us to meet our obligations.

Revenues

Owned and leased hotels

	Three Months Ended		Percent Change 2015 vs. 2014	Nine Months Ended		Percent Change 2015 vs. 2014
	September 30, 2015	2014		September 30, 2015	2014	
	(in millions)			(in millions)		
U.S. owned and leased hotels	\$611	\$560	9.1	\$1,807	\$1,636	10.5
International owned and leased hotels	471	519	(9.2)	1,367	1,505	(9.2)
	\$1,082	\$1,079	0.3	\$3,174	\$3,141	1.1

As of September 30, 2015, we had 45 consolidated owned and leased hotels located in the U.S., comprising 27,075 rooms. The addition of new hotels to our U.S. owned and leased system contributed to the growth in revenue. From January 1, 2014 to September 30, 2015, we added ten hotels on a net basis to our U.S. owned and leased portfolio, which resulted in additional revenues of \$24 million and \$84 million during the three and nine months ended September 30, 2015, respectively. U.S. owned and leased hotel revenues also increased as a result of an increase in RevPAR of 3.5 percent and 4.7 percent during the three and nine months ended September 30, 2015, respectively, at our U.S. comparable owned and leased hotels, which was primarily a result of increases in both transient and group business.

As of September 30, 2015, we had 85 consolidated owned and leased hotels located outside of the U.S., comprising 24,483 rooms. The decreases in revenues from our international (non-U.S.) owned and leased hotels included unfavorable movements in foreign currency rates of \$61 million and \$175 million during the three and nine months ended September 30, 2015, respectively. These unfavorable movements were a result of the strengthening of the USD compared to that of currencies primarily in the Europe and Asia Pacific regions, where the majority of our owned and leased hotels outside of the U.S. are located. From January 1, 2014 to September 30, 2015, four hotels were removed from our international owned and leased portfolio on a net basis, which accounted for \$31 million and \$46 million of the decreases in revenues, on a currency neutral basis, during the three and nine months ended September 30, 2015, respectively. Excluding the property removals, revenues increased \$45 million and \$85 million, on a currency neutral basis, during the three and nine months ended September 30, 2015, respectively. The increases in currency neutral revenues resulted from increases in RevPAR at our international comparable owned and leased hotels of 8.2 percent and 4.6 percent, respectively, which was primarily a result of increases in transient guest business. Additionally, there were increases in revenues at our non-comparable international owned and leased hotels of \$17 million and \$41 million during the three and nine months ended September 30, 2015, respectively, primarily as a result of the completion of large renovation projects at certain hotels, which had previously limited the availability of those properties to guests.

Management and franchise fees and other

Other	22	22	—	61	64	(4.7)
	\$416	\$364	14.3	\$1,194	\$1,030	15.9

The increases in our management and franchise fees were a result of increases in RevPAR of 7.4 percent and 5.3 percent at our comparable managed and franchised properties, respectively, during the three months ended September 30, 2015, and 7.2 percent and 5.6 percent during the nine months ended September 30, 2015, respectively. The increases in RevPAR for managed and franchised hotels were a result of increases in both occupancy and ADR. Franchise fees also increased during the three and nine months ended September 30, 2015 as a result of increases in licensing and other fees of \$21 million and \$82 million, respectively, as well as the addition of new managed and franchised properties to our portfolio.

From September 30, 2014 to September 30, 2015, we added 257 managed and franchised properties on a net basis, including new development and ownership type transfers, providing an additional 38,888 rooms to our system. As new hotels

are established in our system, we expect the fees received from such hotels to increase as they are part of our system for full periods.

Timeshare

	Three Months Ended		Percent Change 2015 vs. 2014	Nine Months Ended		Percent Change 2015 vs. 2014

Financing and other	37	36	2.8	106	100	6.0
	\$334	\$295	13.2	\$974	\$850	14.6

Timeshare sales revenue increased during the three and nine months ended September 30, 2015 as a result of increases in commissions recognized from the sale of third-party developed intervals of \$42 million and \$138 million, respectively, offset by decreases of \$11 million and \$31 million, respectively, in revenues related to the sale of timeshare intervals owned by us. During the three and nine months ended September 30, 2015, we had higher sales volume on third-party developed timeshare intervals.

Operating Expenses

Owned and leased hotels

	Three Months Ended		Percent Change 2015 vs. 2014	Nine Months Ended		Percent Change 2015 vs. 2014
	September 30, 2015	2014		September 30, 2015	2014	
	(in millions)			(in millions)		
U.S. owned and leased hotels	\$403	\$372	8.3	\$1,191	\$1,098	8.5
International owned and leased hotels	395	444	(11.0)	1,192	1,322	(9.8)
	\$798	\$816	(2.2)	\$2,383	\$2,420	(1.5)

Fluctuations in operating expenses at our owned and leased hotels can relate to various factors, including changes in occupancy levels, labor costs, utilities, taxes and insurance costs. The change in the number of occupied room nights directly affects certain variable expenses, which include payroll, supplies and other operating expenses.

The increases in operating expenses at our U.S. comparable owned and leased hotels were primarily as a result of increases in variable operating costs resulting from increased occupancy. Additionally, we added ten U.S. owned and leased hotels on a net basis, from January 1, 2014 to September 30, 2015, which resulted in increased operating expenses of \$5 million and \$22 million during the three and nine months ended September 30, 2015, respectively.

The decreases in international owned and leased hotels operating expenses included favorable movements in foreign currency rates of \$52 million and \$153 million during the three and nine months ended September 30, 2015, respectively. These favorable movements were a result of the strengthening of the USD compared to that of currencies primarily in the Europe and Asia Pacific regions, where the majority of our owned and leased hotels outside of the U.S. are located. Additionally, from January 1, 2014 to September 30, 2015, four hotels were removed from our international owned and leased portfolio, which contributed \$23 million and \$38 million to the decreases in operating expenses, on a currency neutral basis, during the three and nine months ended September 30, 2015, respectively.

Excluding the property removals, operating expenses increased \$24 million and \$60 million, on a currency neutral basis, during the three and nine months ended September 30, 2015, respectively, primarily as a result of increases in variable operating costs resulting from increased occupancy and higher contingent rent consistent with improved operations at certain leased hotels. Additionally, there were increases in operating expenses at our non-comparable international owned and leased hotels of \$5 million and \$19 million during the three and nine months ended September 30, 2015, respectively, as a result of the completion of large renovation projects at certain hotels, which is consistent with the increase in revenues for these hotels.

Financing and other	16	16	—	47	42	11.9
	\$219	\$199	10.1	\$673	\$564	19.3

Timeshare sales expense increased during the three and nine months ended September 30, 2015 primarily as a result of increases of \$9 million and \$59 million, respectively, in the cost of sales of our inventory mainly related to the increase in costs to reacquire inventory developed by us resulting from upgrades into a third-party developed property for which we earn commissions. Additionally, there were higher sales and marketing expenses as a result of the increases in sales volume, which was primarily attributable to the sale of third-party developed timeshare intervals.

Amortization	83	80	3.8	259	235	10.2
	\$171	\$159	7.5	\$519	\$470	10.4

The increases in depreciation expense resulted from assets acquired or placed into service from our owned and leased hotels, net of the effect of asset disposals. The increase in amortization expense during the nine months ended September 30, 2015 was primarily as a result of \$13 million in accelerated amortization of a management contract intangible asset related to properties that were managed by us prior to our acquisition of them. The increases during the three and nine months ended September 30, 2015 were also a result of capitalized software costs placed into service during and after the same periods in 2014.

Other	14	18	(22.2)	45	55	(18.2)
	\$145	\$119	21.8	\$493	\$349	41.3

General and administrative expenses consist of our corporate operations, compensation and related expenses, including share-based compensation, and other operating costs. The increases in general and administrative expenses for the three and nine months ended September 30, 2015 was primarily a result of increased severance costs of approximately \$35 million and \$89 million, respectively. The increase for the nine months ended September 30, 2015 was also a result of the increase in share-based compensation expense under our Promote Plan of \$41 million, primarily due to the recognition of \$64 million of expense when all remaining awards under the Promote Plan vested in May 2015. Additionally, the increase for the nine months ended September 30, 2015 was a result of the reversal of accruals in the first quarter of 2014 related to the termination of a cash-based, long-term incentive plan that was replaced with the Stock Plan, resulting in an \$18 million reduction in general and administrative expense during the

nine months ended September 30, 2014.

During the nine months ended September 30, 2015, we completed the sales of two properties, including the sale of the Hilton Sydney during the three months ended September 30, 2015. See Note 4: "Disposals" in our unaudited condensed consolidated financial statements for additional discussion.

Interest expense decreased \$18 million and \$36 million for the three and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily as a result of a decrease in our indebtedness due to the debt prepayments of \$975 million on the Term Loans between September 30, 2014 and September 30, 2015.

⁽¹⁾ Fluctuation in terms of percentage change is not meaningful.

The increases in equity in earnings from unconsolidated affiliates were primarily due to improved performance at these unconsolidated hotels, partially offset by \$3 million in equity in earnings that were included in the nine months ended September 30, 2014 from unconsolidated affiliates that were involved in an equity investments exchange or sold during that year; see Note 3: "Acquisitions" in our unaudited condensed consolidated financial statements for additional discussion.

The net loss on foreign currency transactions for the three months ended September 30, 2015 primarily related to changes in foreign currency rates on our short-term cross-currency intercompany notes, predominantly those denominated in British Pound Sterling. The net loss on foreign currency transactions for the nine months ended September 30, 2015 primarily related to changes in foreign currency rates on our short-term cross-currency intercompany loans, predominantly those denominated in AUD and Brazilian Real.

The net loss on foreign currency transactions for the three months ended September 30, 2014 primarily related to changes in foreign currency rates on our short-term cross-currency intercompany notes, predominantly those denominated in AUD. The net gain on foreign currency transactions for the nine months ended September 30, 2014 was primarily a result of changes in foreign currency rates on our short-term cross-currency intercompany loans, predominantly those denominated in British Pound Sterling and AUD.

⁽¹⁾ Fluctuation in terms of percentage change is not meaningful.

The net loss for the nine months ended September 30, 2015 was primarily related to transaction costs from the acquisition of properties in connection with the tax deferred exchange, partially offset by the gain from the capital lease liability reduction from one of our consolidated VIEs. Additionally, as a result of the repayment of the Waldorf Astoria Loan, we recognized a loss of \$6 million from the derecognition of the unamortized debt issuance costs during the nine months ended September 30, 2015.

The other gain, net for the three months ended September 30, 2014 was primarily related to a pre-tax gain of \$23 million resulting from an equity investments exchange; see Note 3: "Acquisitions" in our unaudited condensed consolidated financial statements. The other gain, net for the nine months ended September 30, 2014 was primarily related to the equity investments exchange and pre-tax gains of \$13 million resulting from the sale of two hotels and a vacant parcel of land.

Income tax expense	\$247	\$127	94.5	\$555	\$331	67.7

The increase in income tax expense was due in part to a \$216 million and \$301 million increase in our income before income taxes for the three and nine months ended September 30, 2015, respectively, compared to the same periods in

2014. Further, income tax expense increased as a result of a higher annual effective tax rate expected to be applied for the full year. Our annual effective tax rate was higher as a result of the reduction in goodwill in connection with the sales of the Waldorf Astoria New York and the Hilton Sydney as well as the compensation costs incurred for the Promote Plan for which no tax benefits were recognized. In addition, a foreign jurisdiction where we had deferred tax assets reduced its statutory tax rate, resulting in a reduction to the deferred tax asset and corresponding recognition of income tax expense of \$6 million during the nine months ended September 30, 2015. For further discussion of our effective tax rate, see Note 12: "Income Taxes" in our unaudited condensed consolidated financial statements.

Segment Results

We evaluate our business segment operating performance using segment Adjusted EBITDA, as described in Note 17: "Business Segments" in our unaudited condensed consolidated financial statements. Refer to those financial statements for a reconciliation of Adjusted EBITDA to net income attributable to Hilton stockholders. For a discussion of how management uses EBITDA and Adjusted EBITDA to manage our business and material limitations on its usefulness, refer to "—Key Business and Financial Metrics Used by Management."

Ownership

Ownership segment revenues increased \$2 million and \$29 million for the three and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily as a result of increases in owned and leased hotel revenues. Ownership Adjusted EBITDA increased \$19 million and \$60 million, respectively, primarily as a result of increases in ownership segment revenues, as well as decreases in owned and leased operating expenses of \$18 million and \$37 million, respectively. Refer to "—Revenues—Owned and leased hotels" and "—Operating Expenses—Owned and leased hotels" for further discussion of the changes in revenues and operating expenses at our owned and leased hotels.

Management and franchise

Management and franchise segment revenues increased \$55 million and \$178 million for the three and nine months ended September 30, 2015, respectively, compared to the same period in 2014, primarily as a result of increases in RevPAR at our comparable managed and franchised properties of 5.8 percent and 6.0 percent, respectively, an

increase in licensing and other fees, as well as the net addition of hotels to our managed and franchised system. Refer to "—Revenues—Management and franchise and other" for further discussion on the increases in revenues from our managed and franchised properties. Management and franchise Adjusted EBITDA increased as a result of the increases in management and franchise segment revenues.

Timeshare

Timeshare Adjusted EBITDA increased \$19 million and \$26 million for the three and nine months ended September 30, 2015, respectively, compared to the same period in 2014, primarily as a result of the increases in timeshare revenues of \$39 million and \$124 million, respectively, offset by the increases in timeshare operating expenses of \$20 million and \$109 million, respectively. Refer to "—Revenues—Timeshare" and "—Operating Expenses—Timeshare" for a discussion of the changes in revenues and operating expenses from our timeshare segment.

Supplemental Financial Data for Unrestricted U.S. Real Estate Subsidiaries

As of September 30, 2015, we owned a majority or controlling financial interest in 56 hotels, representing 29,376 rooms. Of these owned hotels, 35 hotels, representing an aggregate of 23,542 rooms as of September 30, 2015, were owned by subsidiaries that we collectively refer to as our "Unrestricted U.S. Real Estate Subsidiaries." The properties held by our Unrestricted U.S. Real Estate Subsidiaries secure either our \$3,487 million CMBS Loan or one of our \$544 million in mortgage loans and are not included in the collateral securing the Senior Secured Credit Facility. In addition, the Unrestricted U.S. Real Estate Subsidiaries are not subject to any of the restrictive covenants in the indenture that governs our Senior Notes, which are unsecured.

In February 2015, we completed the sale of the Waldorf Astoria New York and repaid the Waldorf Astoria Loan in full. In addition, in February 2015, we acquired five properties that are Unrestricted U.S. Real Estate Subsidiaries and assumed a \$450 million mortgage loan on two of these properties. In June 2015, we acquired an additional property that is an Unrestricted U.S. Real Estate Subsidiary. For further discussion see Note 3: "Acquisitions" and Note 4: "Disposals" in our condensed consolidated financial statements.

We have included this supplemental financial data to comply with certain financial information requirements regarding our Unrestricted U.S. Real Estate Subsidiaries set forth in the indenture that governs our Senior Notes. For the nine months ended September 30, 2015, the Unrestricted U.S. Real Estate Subsidiaries represented 19.7 percent of our total revenues, 35.8 percent of net income attributable to Hilton stockholders and 24.2 percent of our Adjusted EBITDA, and as of September 30, 2015, represented 34.4 percent of our total assets and 32.3 percent of our total liabilities.

The following tables present supplemental unaudited financial data, as required by the indenture that governs our Senior Notes, for our Unrestricted U.S. Real Estate Subsidiaries:

Liquidity and Capital Resources

Overview

As of September 30, 2015, we had total cash and cash equivalents of \$904 million, including \$276 million of restricted cash and cash equivalents. The majority of our restricted cash and cash equivalents balance related to cash collateral on our self-insurance programs, escrowed cash from our timeshare operations and cash restricted under our

long-term debt agreements.

Our known short-term liquidity requirements primarily consist of funds necessary to pay for operating expenses and other expenditures, including corporate expenses, payroll and related benefits, legal costs, operating costs associated with the management of hotels, interest and scheduled principal payments on our outstanding indebtedness, contract acquisition costs and capital expenditures for renovations and maintenance at our owned and leased hotels. Our long-term liquidity requirements primarily consist of funds necessary to pay for scheduled debt maturities, capital improvements at our owned and leased hotels, purchase commitments, dividends as declared, costs associated with potential acquisitions and corporate capital expenditures.

During the nine months ended September 30, 2015, we made prepayments of \$675 million on our Term Loans, including a contractually required prepayment using the net proceeds from the sale of the Hilton Sydney. In February 2015, we completed the sale of the Waldorf Astoria New York hotel and repaid in full the \$525 million Waldorf Astoria Loan and upon acquisition of the Bonnet Creek Resort, assumed the Bonnet Creek Loan of \$450 million, resulting in a net reduction of \$75 million in mortgage debt.

We finance our business activities primarily with existing cash and cash generated from our operations. We believe that this cash will be adequate to meet anticipated requirements for operating expenses and other expenditures, including corporate expenses, payroll and related benefits, legal costs and purchase commitments for the foreseeable future. The objectives of our cash management policy are to maintain the availability of liquidity and minimize operational costs. Further, we have an investment policy that is focused on the preservation of capital and maximizing the return on new and existing investments across all three of our business segments and returning available capital to stockholders.

In September 2015, we paid a cash dividend of \$0.07 per share on shares of our common stock, for a total of \$69 million.

Sources and Uses Of Our Cash and Cash Equivalents

The following table summarizes our net cash flows and key metrics related to our liquidity:

	As of and for the Nine Months Ended September 30,		Percent Change
	2015	2014	2015 vs. 2014
	(in millions)		
Net cash provided by operating activities	\$991	\$899	10.2
Net cash provided by (used in) investing activities	515	(200)) NM ⁽¹⁾
Net cash used in financing activities	(1,427)	(743)) 92.1
Working capital surplus ⁽²⁾	88	274	(67.9)

(1) Fluctuation in terms of percentage change is not meaningful.

(2) Total current assets less total current liabilities.

Our ratio of current assets to current liabilities was 1.03 and 1.11 as of September 30, 2015 and December 31, 2014, respectively.

Operating Activities

Cash flow from operating activities is primarily generated from management and franchise fee revenue, operating income from our owned and leased properties and sales of timeshare units.

The \$92 million increase in net cash provided by operating activities was primarily as a result of improved operating income, as well as a decrease in cash paid for interest of \$24 million, offset by an increase in net cash paid for income taxes of \$75 million.

Investing Activities

The \$715 million increase in net cash provided by investing activities was primarily attributable to net proceeds from the sales of the Waldorf Astoria New York and Hilton Sydney of \$1,866 million and \$331 million, respectively, offset by the proceeds used of \$1,410 million in the acquisitions of the properties in the tax deferred exchange.

Financing Activities

The \$684 million increase in net cash used in financing activities was primarily attributable to a decrease in borrowings of \$315 million, an increase of repayments of debt of \$267 million and the payment of a cash dividend totaling \$69 million in September 2015. The changes in borrowings and repayments of debt were primarily due to the repayment of the Waldorf Astoria Loan of \$525 million in connection with the sale of the Waldorf Astoria New York, as well as \$675 million of prepayments on our Term Loans, including a \$350 million prepayment using the net proceeds from the sale of the Hilton Sydney, during the nine months ended September 30, 2015. Comparatively, during the nine months ended September 30, 2014, we issued \$350 million of Securitized Timeshare Debt, of which \$300 million of proceeds was used to reduce our outstanding balance on the Timeshare Facility, combined with prepayments on our Term Loans of \$700 million.

Capital Expenditures

Our capital expenditures for property and equipment of \$214 million and \$184 million during the nine months ended September 30, 2015 and 2014, respectively, primarily consisted of expenditures related to the renovation of existing owned and leased properties and our corporate facilities. Our software capitalization costs of \$38 million and \$45 million during the nine months ended September 30, 2015 and 2014, respectively, related to various systems initiatives for the benefit of our hotel owners and our overall corporate operations. As of September 30, 2015, we had outstanding commitments under construction contracts of approximately \$88 million for capital expenditures at certain owned and leased properties. Our contracts contain clauses that allow us to cancel all or some portion of the work. If cancellation of a contract occurred, our commitment would be any costs incurred up to the cancellation date, in addition to any costs associated with the discharge of the contract.

Senior Secured Credit Facility

Our Revolving Credit Facility provides for \$1.0 billion in borrowings, including the ability to draw up to \$150 million in the form of letters of credit. As of September 30, 2015, we had \$45 million of letters of credit outstanding under our Revolving Credit Facility, and a borrowing capacity of \$955 million. We are currently required to pay a commitment fee of 0.125 percent per annum under the Revolving Credit Facility in respect of the unused commitments thereunder.

Debt

As of September 30, 2015, our total indebtedness, excluding \$219 million of our share of debt of our investments in affiliates, was approximately \$10.8 billion, including \$755 million of non-recourse debt. For further information on our total indebtedness and debt repayments, refer to Note 9: "Debt" in our unaudited condensed consolidated financial statements.

The obligations of the Senior Secured Credit Facility are unconditionally and irrevocably guaranteed by us and all of our direct or indirect wholly owned material domestic subsidiaries, excluding our subsidiaries that are prohibited from providing guarantees as a result of the agreements governing our Timeshare Facility and/or our Securitized Timeshare Debt and our subsidiaries that secure our CMBS Loan and other mortgage loans. Additionally, none of our foreign subsidiaries or our non-wholly owned domestic subsidiaries guarantee the Senior Secured Credit Facility.

If we are unable to generate sufficient cash flow from operations in the future to service our debt, we may be required to reduce capital expenditures, issue additional equity securities or draw on our Revolving Credit Facility. Our ability to make scheduled principal payments and to pay interest on our debt depends on our future operating performance, which is subject to general conditions in or affecting the hotel and timeshare industries that are beyond our control.

Off-Balance Sheet Arrangements

See Note 18: "Commitments and Contingencies" in our unaudited condensed consolidated financial statements for discussion of our off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our unaudited condensed consolidated financial statements in accordance with U.S. GAAP requires us to make estimates and assumptions that affect reported amounts and related disclosures. We have discussed those policies and estimates that we believe are critical and require the use of complex judgment in their application in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. Since the date of our Annual Report on

Form 10-K, there have been no material changes to our critical accounting policies or the methods or assumptions we apply under them.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk primarily from changes in interest rates and foreign currency exchange rates, which may affect future income, cash flows and the fair value of the Company, depending on changes to interest rates and/or foreign exchange rates. In certain situations, we may seek to reduce cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements intended to provide a hedge against a portion of the risks associated with such volatility. We continue to have exposure to such risks to the extent they are not hedged. We enter into derivative financial arrangements to the extent they meet the objective described above, and we do not use derivatives for trading or speculative purposes. See Note 10: "Derivative Instruments and Hedging Activities" in our unaudited condensed consolidated financial statements for additional discussion. Our exposure to market risk has not materially changed from what we previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission ("SEC") rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. The design of any disclosure controls and procedures is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Quarterly Report on Form 10-Q, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various claims and lawsuits arising in the normal course of business, some of which include claims for substantial sums, including proceedings involving tort and other general liability claims, employee claims, consumer protection claims and claims related to our management of certain hotel properties. The ultimate results of claims and litigation cannot be predicted with certainty. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position, results of operations or liquidity. However, depending on the amount and timing, an unfavorable resolution of some or all of these matters could materially affect our future results of operations in a particular period.

Item 1A. Risk Factors

As of September 30, 2015, there have been no material changes from the risk factors previously disclosed in response to "Part I—Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.
