## HARMONY GOLD MINING COMPANY LIMITED SELECTED FOR 2019 BLOOMBERG GENDER-EQUALITY INDEX, RECOGNIZING COMMITMENT TO ADVANCING WOMEN IN THE WORKPLACE

The 2019 Gender-Equality Index highlights 230 firms that are trailblazers in their commitment to transparency in workplace gender reporting

Johannesburg, Thursday, 17 January 2019 – Harmony Gold Mining Company Limited ("Harmony" or "the company") today announced that it is one of 230 companies selected for the 2019 Bloomberg Gender-Equality Index (GEI) which distinguishes companies committed to transparency in gender reporting and advancing women's equality. The index doubled in size from 2018 and includes firms from 10 sectors headquartered across 36 countries and regions. Collectively, these firms have a combined market capitalization of USD9 trillion and employ more than 15 million people, of which 7 million are women, around the world. Thirteen markets are represented for the first time this year and include Argentina, China, Israel and South Africa.

"We are committed to building and maintaining a representative workforce and continuously promote a working environment which provides equal opportunities to all our employees without prejudice of any kind, especially gender based," said Peter Steenkamp, CEO of Harmony.

Bloomberg's standardized reporting framework offers public companies the opportunity to disclose information on how they promote gender equality across four separate areas – company statistics, policies, community engagement and products and services. Reporting companies that score above a globally-established threshold, based on the extent of disclosures and the achievement of best-in-class statistics and policies, are included in the GEI. Demand for products and services using ESG data has seen a significant increase over the last years, as a growing number of investors are looking to incorporate environmental, social and governance data into their investment decisions. Still, currently only 10% of eligible companies are disclosing their workplace gender policies and practices.

"We applaud Harmony and the other 229 firms tracked by the index for their action to measure gender equality through the Bloomberg GEI framework," said Peter T. Grauer, Chairman of Bloomberg and Founding Chairman of the U.S. 30% Club. "Harmony's GEI inclusion is a strong indicator to its employees, investors and industry peers alike that it is leading by example to advance ongoing efforts for a truly inclusive workplace."

Disclosures from firms included in the 2019 GEI provide a wide-ranging and comprehensive look at how companies around the world are investing in women.

The Bloomberg gender reporting framework is voluntary and has no associated costs. The GEI is a reference index. For more information on the GEI:
