"Our third quarter results showed steady improvement with progress across most businesses, particularly those supporting the housing, automotive and agricultural industries," said Charles O. Holliday, Jr., DuPont chairman and chief executive officer. "While overall volume growth has been strong, the pricing environment remains difficult. We remain focused on executing well in the present while driving our long-term sustainable growth objectives."

**Global Sales and Income**

For the quarter, consolidated sales totaled \$5.5 billion compared to \$5.6 billion in 2001. Segment sales, including transfers and a pro rata share of sales by equity affiliates, were \$6.2 billion, down 2 percent from \$6.4 billion in 2001. On a comparable business basis (excluding the impact on sales attributable to acquisitions and divestitures) sales increased 4 percent reflecting 6 percent higher volume, partly offset by 2 percent lower U.S. dollar selling prices.

Net income, including one-time items, was \$469 million, compared to \$142 million in the third quarter of 2001, resulting in earnings per share of \$.47 compared to \$.13 last year. Year-to-date 2002 reported earnings before the cumulative effect of a change in accounting principle (SFAS 142 - Goodwill and Other Intangible Assets) were \$1.49 per share versus comparable earnings of \$.39 per share last year. After reflecting a noncash cumulative effect charge of \$2.95 per share for impairment to goodwill related to acquisitions in previous years, year-to-date 2002 results were a loss of \$1.46 per share compared to earnings of \$.40 per share for the nine months of 2001.

For the quarter, net income before one-time items was \$401 million versus \$128 million in 2001, or \$.40 per share and \$.12 per share, respectively. The increase in underlying earnings per share reflects improved segment ATOI, principally in the Performance Materials, Coatings & Color Technologies and

Textiles & Interiors segments, and significantly lower net interest expense. In addition to higher volumes and lower costs, improved results reflect a lower effective tax rate due to benefit from geographic mix of earnings and other tax planning initiatives.

One-time items are described in the notes to the accompanying financial statements and are summarized in the table below:

ONE-TIME ITEMS						
	\$MM Pretax		\$MM After-Tax		(\$ Per Share)

\* In accordance with SFAS No. 142 - "Goodwill and Other Intangible Assets," 1Q2002 includes a \$2.94 per share noncash charge for the cumulative effect of change in accounting principle for impairment of goodwill.

#### Segment Sales

Regional segment sales and related variances for the third quarter 2002 compared with the third quarter 2001 are summarized below:

	Segment Sales		% Change Due To			
	3Q'02 \$B	% Change vs. 3Q'01	Local Price	Currency Effect	Volume	Portfolio Changes*

\* Includes impacts from the sale of Pharmaceuticals, discontinuance of Benlate® and ammonia, and acquisition of Liqui-Box.

4

- Sales increased 4 percent on a comparable business basis as volume grew 6 percent worldwide and improved in all geographic regions. Higher volumes versus last year reflect growth in most businesses.
- The impact of 4 percent lower local selling prices was partly offset by a 2 percent benefit to sales from the currency effect of a weaker dollar. Pricing remains particularly difficult in the Textiles & Interiors and Electronic & Communication Technologies segments.

#### Business Segment Performance

Summarized below are comments on individual segment sales and ATOI excluding one-time items for the third quarter 2002 compared to third quarter 2001. Additional segment information is available to investors and the public via the Earnings Data section of the DuPont Investor Web site.

#### • **Agriculture & Nutrition**

- Sales increased 12 percent reflecting higher sales of crop production and food ingredient products as well as the acquisition of Liqui-Box. Seasonal losses were lower than those of last year, improving ATOI by \$28 million versus last year principally reflecting higher sales and lower fixed costs, the latter largely from the required adoption of

SFAS 142 that eliminated the amortization of goodwill and indefinite-lived intangibles.

- **Coatings & Color Technologies**

- Sales increased 6 percent reflecting higher volumes in the motor vehicle-related businesses and benefit from the weaker dollar. Prices for titanium dioxide products, although improving, remain below last year's levels. ATOI was up \$56 million or 50 percent, reflecting higher volumes, improved pretax margins, and a lower effective tax rate.

- **Electronic & Communication Technologies -**

Sales grew 5 percent from a very weak third quarter last year. Volumes were up 9 percent partly offset by 4 percent lower prices. ATOI increased 29 percent reflecting gradual improvement in selected markets with particular strength in Asia and a lower effective tax rate.

- **Performance Materials -**

Sales increased 8 percent with 10 percent higher volume driven by continued strength in the automotive and packaging markets, partly offset by 2 percent lower selling prices. ATOI increased \$69 million or 119 percent reflecting higher volumes, lower raw material costs and a lower effective tax rate.

- **Pharmaceuticals -**

ATOI was \$72 million, reflecting the DuPont share of earnings from Cozaar® / Hyzaar® .. Last year's third quarter earnings of \$84 million reflected results from the final quarter of DuPont Pharmaceuticals operation before its divestiture on October 1, 2001.

- **Safety & Protection -** Sales decreased 1 percent. Sales volumes of nonwoven products continue to be strong but were essentially offset by sales declines in aramid products and last year's chemical product rationalization. ATOI improved 12 percent due to strength in nonwovens and a lower effective tax rate.

- **Textiles & Interiors -**

Sales increased 2 percent as 7 percent volume growth was largely offset by lower selling prices. The volume increase was led by improvements in residential flooring, nylon textile, spandex and polyester filament products. ATOI increased to \$60 million from \$10 million last year when market conditions were at unprecedented lows. ATOI benefited from reduced fixed cost spending, lower raw material costs, and a lower effective tax rate.

Outlook

DuPont expects economic growth to continue in the fourth quarter, but at a pace moderately below third quarter growth rates. The company expects U.S. automotive and housing markets to remain strong and consumer spending to hold up reasonably well. On the negative side, energy-related raw material costs are trending up at a time when selling price increases remain difficult to achieve.

Taking all these factors into account, including the revised full-year income tax rate estimate, the company's earlier fourth quarter earnings outlook remains unchanged. That is, the company expects underlying fourth quarter earnings per share to be about triple those of the prior year, which would result in full-year underlying earnings of approximately \$2.00 per share. It should be noted, however, that continued volatility in the equities markets, slower pace of economic growth, and the potential for political conflict add risk to achieving this outlook.

"While we cannot control the economy, we can control how we execute our business plans in the face of economic challenges and uncertainty," said Holliday. "As we look ahead, we are focused and committed to superior execution, maintaining our competitiveness and continuously adding value for our shareholders."

Forward-Looking Statements:

This news release contains forward-looking statements based on management's current expectations, estimates and projections. All statements that address expectations or projections about the future, including statements about the company's strategy for growth, product development, market position, expected expenditures and financial results are forward-looking statements. Some of the forward-looking statements may be identified by words like "expects," "anticipates," "plans," "intends," "projects," "indicates," and similar expressions. These statements are not guarantees of future performance and involve a number of risks, uncertainties and assumptions. Many factors, including those discussed more fully elsewhere in this release and in documents filed with the Securities and Exchange Commission by DuPont, particularly its latest annual report on Form 10-K and quarterly report on Form 10-Q, as well as others, could cause results to differ

materially from those stated. These factors include, but are not limited to changes in the laws, regulations, policies and economic conditions, including inflation, interest and foreign currency exchange rates, of countries in which the company does business; competitive pressures; successful integration of structural changes, including restructuring plans, acquisitions, divestitures and alliances; cost of raw materials, research and development of new products, including regulatory approval and market acceptance; and seasonality of sales of agricultural products.

FOOTNOTES TO CONSOLIDATED INCOME STATEMENT

- (a) Third quarter 2002 includes a gain of \$84 resulting from the sale of the Company's Clysar® shrink film business. Year-to-date 2002 also includes an exchange loss of \$63 resulting from the mandatory conversion of the Company's U.S. dollar-denominated trade receivables to Argentine pesos and moving from a preferential to a free-market exchange rate.

Year-to-date 2001 includes a gain of \$52 resulting from the Company's sale of stock that reduced its ownership interest in DuPont Photomasks.

herbicide products and \$50 to establish a litigation reserve related to previously divested business. Year-to-date 2001 includes charges of \$56 to establish the litigation reserve described above and \$133 resulting from the sale of acquired Pioneer inventories, which, in accordance with purchase accounting rules, were recorded at estimated fair market value on October 1, 1999.

- (c) On January 1, 2002, the Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets," which requires that goodwill and indefinite-lived intangible assets no longer be amortized; amortization expense for such assets of \$47 and \$139 was recorded in three month and nine month periods ended September 30, 2001, respectively.
- (d) Year-to-date 2002 includes a charge of \$21 for the early extinguishment of \$242 of outstanding debentures; this charge principally represents premiums paid to investors.

Year-to-date 2002 includes charges of \$209 associated with separation costs for approximately 2,000 employees and the shutdown and dismantlement of several facilities, \$39 to withdraw from a joint venture in China and \$37 associated with an expected loss on the pending sale of a European manufacturing facility. These charges were partly offset by the \$23 change in estimates described above and a gain of \$30 resulting principally from a favorable litigation settlement associated with exiting a joint venture in China.

Year-to-date 2001 charges of \$1,046 include \$441 associated with separation costs for approximately 5,500 employees, \$303 for asset impairments (principally the write-down of polyester assets to be sold), and \$302 related to the shutdown and dismantlement of several facilities.

Third quarter and year-to-date 2001 includes a one-time deferred tax benefit of \$49 to recognize differences between the book basis and tax basis of the Company's investment in DuPont Pharmaceuticals as a result of the pending fourth quarter 2001 sale of DuPont Pharmaceuticals.

FOOTNOTES TO CONSOLIDATED INCOME STATEMENT - (CONT'D)

- (h) On January 1, 2002, the Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets." During the second quarter, the Company completed its review of goodwill and recorded a cumulative effect adjustment to income of \$2,944 effective January 1, 2002. There is no tax benefit associated with this charge. This charge is attributable to goodwill impairments of \$2,866 in the Agriculture & Nutrition segment and \$78 in the Textiles & Interiors segment related to previous acquisitions.

The Company's adoption of SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended, on January 1, 2001 resulted in a cumulative-effective-type adjustment to income of \$11.
