PART I—FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The following balance sheet as of December 31, 2015, which has been derived from audited financial statements, and unaudited interim financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles (GAAP) have been omitted pursuant to those rules and regulations, although Federal Realty Investment Trust (the "Trust") believes that the disclosures made are adequate to make the information not misleading. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Trust's latest Annual Report on Form 10-K. In the opinion of management, all adjustments (consisting of normal, recurring adjustments) necessary for a fair presentation for the periods presented have been included. The results of operations for the three and nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the full year.

Federal Realty Investment Trust
Notes to Consolidated Financial Statements
September 30, 2016
(Unaudited)

NOTE 1—BUSINESS AND ORGANIZATION

Federal Realty Investment Trust (the “Trust”) is an equity real estate investment trust (“REIT”) specializing in the ownership, management, and redevelopment of retail and mixed-use properties. Our properties are located primarily in densely populated and affluent communities in strategically selected metropolitan markets in the Mid-Atlantic and Northeast regions of the United States, California, and South Florida. As of September 30, 2016, we owned or had a majority interest in community and neighborhood shopping centers and mixed-use properties which are operated as 96 predominantly retail real estate projects.

We operate in a manner intended to enable us to qualify as a REIT for federal income tax purposes. A REIT that distributes at least 90% of its taxable income to its shareholders each year and meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. Therefore, federal income taxes on our taxable income have been and are generally expected to be immaterial. We are obligated to pay state taxes, generally consisting of franchise or gross receipts taxes in certain states. Such state taxes also have not been material.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

Our consolidated financial statements include the accounts of the Trust, its corporate subsidiaries, and all entities in which the Trust has a controlling interest or has been determined to be the primary beneficiary of a variable interest entity (“VIE”). The equity interests of other investors are reflected as noncontrolling interests or redeemable noncontrolling interests. All significant intercompany transactions and balances are eliminated in consolidation. We account for our interests in joint ventures, which we do not control, using the equity method of accounting. Certain 2015 amounts have been reclassified to conform to current period presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, referred to as “GAAP,” requires management to make estimates and assumptions that in certain circumstances affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and revenues and expenses. These estimates are prepared using management’s best judgment, after considering past, current and expected events and economic conditions. Actual results could differ from these estimates.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, “Leases.” ASU 2016-02 significantly changes the accounting for leases by requiring lessees to recognize assets and liabilities for leases greater than 12 months on their balance sheet. The lessor model stays substantially the same; however, there were modifications to conform lessor accounting with the lessee model, eliminate real estate specific guidance, further define certain lease and non-lease components, and change the definition of initial direct costs of leases requiring significantly more leasing related costs to be expensed upfront. ASU 2016-02 is effective for us in the first quarter of 2019, and we are currently assessing the impact of this standard to our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08 as an amendment to ASU 2014-09, “Revenue from Contracts with Customers.” The amendment clarifies how to identify the unit of accounting for the principal versus agent evaluation, how to apply the control principle to certain types of arrangements, such as service transactions, and reframed the indicators in the guidance to focus on evidence that an entity is acting as a principal rather than as an agent. We are currently assessing the impact of this standard to our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, “Compensation - Stock Compensation.” ASU 2016-09 simplifies the accounting for share-based payment transactions, including a policy election option with respect to accounting for forfeitures either as they occur or estimating forfeitures (as is currently required), as well as increasing the amount an employer can withhold to cover income taxes on equity awards. ASU 2016-09 is effective for us in the first quarter of

2017, and we are currently assessing the impact of this standard to our consolidated financial statements. In April 2016 and May 2016, the FASB issued ASU 2016-10 and ASU 2016-12, respectively, "Revenue from Contracts with Customers." ASU 2016-10 clarifies the existing guidance on identifying performance obligations and licensing implementation. ASU 2016-12 adds practical expedients related to the transition for contract modifications and further defines a completed

8

Table of Contents

contract, clarifies the objective of the collectability assessment and how revenue is recognized if collectability is not probable, and when non-cash considerations should be measured. We are currently assessing the impact of these standards to our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses." ASU 2016-13 changes the impairment model for most financial assets and certain other instruments, requiring the use of an "expected credit loss" model and adding more disclosure requirements. ASU 2016-13 is effective for us in the first quarter of 2020, and we are currently assessing the impact of this standard to our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, "Classification of Certain Cash Receipts and Cash Payments." ASU 2016-15 provides classification guidance for eight specific topics including debt extinguishment costs, contingent consideration payments made after a business combination, and distributions received from equity method investees. ASU 2016-15 is effective for us in the first quarter of 2018, and we are currently assessing the impact of this standard to our consolidated financial statements.

Recently Adopted Accounting Pronouncements

In February 2015, the FASB issued ASU 2015-02, "Amendments to the Consolidation Analysis." ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are variable or voting interest entities, eliminates the presumption that the general partner should consolidate a limited partnership, modifies the consolidation analysis for reporting entities that are involved in variable interest entities, particularly those that have fee arrangements and related party relationships, and provides a scope exception from consolidation guidance for reporting entities with interests in legal entities that operate as registered money market funds. We adopted the standard effective January 1, 2016, and as a result, partnerships controlling ten properties (previously consolidated as voting interest entities) are now considered to be variable interest entities. As we have the obligation to absorb losses and the right to receive benefits and control the activities that most significantly impact the economic performance of these entities, we are the primary beneficiary and we will continue to consolidate each of these entities. Net real estate assets of \$566.1 million and mortgage payables of \$194.9 million are included in our consolidated balance sheet at January 1, 2016 for these newly classified variable interest entities. In addition, our equity method investment in the Pike & Rose hotel joint venture is now considered a variable interest in a variable interest entity. As we do not control the activities that most significantly impact the economic performance of the joint venture, we are not the primary beneficiary and do not consolidate. Our investment in the joint venture was \$6.6 million at January 1, 2016, and our maximum exposure to loss, which includes contributions to date and our remaining required contribution to complete construction of the hotel is approximately \$13.5 million.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs." ASU 2015-03 requires debt issuance costs related to a debt liability be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability, rather than classified as an asset. Recognition and measurement of debt issuance costs are not affected. Subsequently, in August 2015, the FASB issued ASU 2015-15, "Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements," which allows an entity to present the costs related to securing a line-of credit arrangement as an asset, regardless of whether there are any outstanding borrowings. We adopted the standards effective January 1, 2016 and have adjusted our balance sheet presentation in both periods to reflect the net debt issuance costs as a reduction of the respective liability. The adoption resulted in a \$15.2 million decrease to total assets and liabilities at December 31, 2015, for this reclassification. Debt issuance costs related to our revolving credit facility continue to be classified as an asset and are included in "prepaids and other assets" in our consolidated balance sheet.

Table of Contents

Consolidated Statements of Cash Flows—Supplemental Disclosures

The following table provides supplemental disclosures related to the Consolidated Statements of Cash Flows:

	Nine Months Ended September 30, 2016 2015 (In thousands)	
SUPPLEMENTAL DISCLOSURES:		
Total interest costs incurred	\$83,803	\$83,485
Interest capitalized	(12,660)	(14,139)
Interest expense	\$71,143	\$69,346
Cash paid for interest, net of amounts capitalized (1)	\$66,921	\$91,319
Cash paid for income taxes	\$300	\$274
NON-CASH INVESTING AND FINANCING TRANSACTIONS:		
Mortgage loans assumed with acquisition	\$34,385	\$18,666
DownREIT operating partnership units redeemed for common shares	\$18,679	\$—
DownREIT operating partnership units issued with acquisition	\$—	\$7,742
Shares issued under dividend reinvestment plan	\$1,523	\$1,468

(1) 2015 includes \$19.2 million related to early extinguishment of debt.

NOTE 3—REAL ESTATE

As of December 31, 2015, we had a joint venture arrangement (the "Partnership") with affiliates of a discretionary fund created and advised by Clarion Partners ("Clarion"). We owned 30% of the equity in the Partnership and Clarion owned 70%. The Partnership owned six retail real estate properties and we accounted for our interest in the Partnership using the equity method. On January 13, 2016, we acquired Clarion's 70% interest in the Partnership for \$153.7 million, which included the payment of \$130 million of cash and the assumption of mortgage loans totaling \$34.4 million. As a result of the transaction, we gained control of the six underlying properties and, effective January 13, 2016, have consolidated the properties. We also recognized a gain on acquisition of the controlling interest of \$25.7 million related to the difference between the carrying value and fair value of the previously held equity interest.

Approximately \$7.3 million and \$4.9 million of net assets acquired were allocated to other assets for "above market leases," and other liabilities for "below market leases," respectively. We incurred \$0.2 million of acquisition costs, of which \$0.1 million were incurred in 2016 and included in "general and administrative expenses" on the consolidated statement of comprehensive income for the nine months ended September 30, 2016.

On May 12, 2016, an unconsolidated joint venture that we hold an interest in sold a building in Coconut Grove, Florida. Our share of the gain, net of noncontrolling interests, was \$0.5 million.

On July 26, 2016, we acquired an additional building in the Coconut Grove neighborhood of Miami, Florida for \$5.9 million through our CocoWalk LLC entity. In total, we incurred \$0.2 million in acquisition costs which are included in "general and administrative expenses" on the consolidated statements of comprehensive income for the three and nine months ended September 30, 2016.

NOTE 4—DEBT

On January 13, 2016, in connection with the acquisition of our partner's 70% interest in our unconsolidated real estate partnership, we assumed interest only mortgage loans with a face amount of \$34.4 million and a fair value of \$34.7 million. These mortgage loans had a weighted average interest rate of 5.95% and were repaid at par on April 1, 2016. On April 20, 2016, we upsized our \$600.0 million revolving credit facility to \$800.0 million and extended the maturity date to April 20, 2020, subject to two six-month extensions at our option. Under the amended credit facility, the spread over LIBOR is 82.5 basis points based on our current credit rating. In addition, we have an option (subject

to bank approval) to increase the credit facility through an accordion feature to \$1.5 billion.

On July 12, 2016, we issued \$250.0 million of fixed rate senior unsecured notes that mature on August 1, 2046 and bear interest at 3.625%. The notes were offered at 97.756% of the principal amount with a yield to maturity of 3.75%. The net proceeds from this note offering after issuance discounts, underwriting fees, and other costs were \$241.8 million.

Table of Contents

During the three and nine months ended September 30, 2016, the maximum amount of borrowings outstanding under our revolving credit facility was \$95.0 million and \$251.5 million, respectively, and the weighted average interest rate, before amortization of debt fees, was 1.3% for both periods. During the three and nine months ended September 30, 2016, the weighted average borrowings outstanding were \$10.2 million and \$103.3 million, respectively. At September 30, 2016, there was no outstanding balance. Our revolving credit facility, term loan and certain notes require us to comply with various financial covenants, including the maintenance of minimum shareholders' equity and debt coverage ratios and a maximum ratio of debt to net worth. As of September 30, 2016, we were in compliance with all debt covenants.

NOTE 5—FAIR VALUE OF FINANCIAL INSTRUMENTS

Except as disclosed below, the carrying amount of our financial instruments approximates their fair value. The fair value of our mortgages payable, notes payable and senior notes and debentures is sensitive to fluctuations in interest rates. Quoted market prices (Level 1) were used to estimate the fair value of our marketable senior notes and debentures and discounted cash flow analysis (Level 2) is generally used to estimate the fair value of our mortgages and notes payable. Considerable judgment is necessary to estimate the fair value of financial instruments. The estimates of fair value presented herein are not necessarily indicative of the amounts that could be realized upon disposition of the financial instruments. A summary of the carrying amount and fair value of our mortgages payable, notes payable and senior notes and debentures is as follows:

	September 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(In thousands)			
Mortgages and notes payable	\$761,979	\$779,867	\$823,045	\$833,931
Senior notes and debentures	\$1,975,988	\$2,153,692	\$1,732,551	\$1,786,758

As of September 30, 2016, we have two interest rate swap agreements with a notional amount of \$275.0 million that are measured at fair value on a recurring basis. The interest rate swap agreements fix the variable portion of our \$275.0 million term loan at 1.72% through November 1, 2018. We assess effectiveness of our cash flow hedges both at inception and on an ongoing basis. The effective portion of changes in fair value of the interest rate swaps associated with our cash flow hedges is recorded in accumulated other comprehensive loss and is subsequently reclassified into interest expense as interest is incurred on the related variable rate debt. Within the next 12 months, we expect to reclassify an estimated \$2.9 million as an increase to interest expense. Our cash flow hedges become ineffective if critical terms of the hedging instrument and the debt instrument do not perfectly match such as notional amounts, settlement dates, reset dates, calculation period and LIBOR rate. In addition, we evaluate the default risk of the counterparty by monitoring the credit-worthiness of the counterparty. When ineffectiveness exists, the ineffective portion of changes in fair value of the interest rate swaps associated with our cash flow hedges is recognized in earnings in the period affected. Hedge ineffectiveness has not impacted earnings as of September 30, 2016, and we do not anticipate it will have a significant effect in the future.

The fair values of the interest rate swap agreements are based on the estimated amounts we would receive or pay to terminate the contracts at the reporting date and are determined using interest rate pricing models and interest rate related observable inputs. The fair value of our swaps at September 30, 2016 was a liability of \$5.4 million and is included in "accounts payable and accrued expenses" on our consolidated balance sheet. For the three and nine months ended September 30, 2016, the change in valuation on our interest rate swaps resulted in a \$1.9 million decrease and a \$1.3 million increase in our derivative liability, respectively, (including \$0.8 million and \$2.6 million, respectively, reclassified from other comprehensive loss to interest expense). The change in valuation on our interest rate swaps is included in "accumulated other comprehensive loss."

A summary of our financial liabilities that are measured at fair value on a recurring basis, by level within the fair value hierarchy is as follows:

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

	September 30, 2016			December 31, 2015

Table of Contents**NOTE 6—COMMITMENTS AND CONTINGENCIES**

We are sometimes involved in lawsuits, warranty claims, and environmental matters arising in the ordinary course of business. Management makes assumptions and estimates concerning the likelihood and amount of any potential loss relating to these matters.

We are currently a party to various legal proceedings. We accrue a liability for litigation if an unfavorable outcome is probable and the amount of loss can be reasonably estimated. If an unfavorable outcome is probable and a reasonable estimate of the loss is a range, we accrue the best estimate within the range; however, if no amount within the range is a better estimate than any other amount, the minimum within the range is accrued. Legal fees related to litigation are expensed as incurred. We do not believe that the ultimate outcome of these matters, either individually or in the aggregate, could have a material adverse effect on our financial position or overall trends in results of operations; however, litigation is subject to inherent uncertainties. Also under our leases, tenants are typically obligated to indemnify us from and against all liabilities, costs and expenses imposed upon or asserted against us (1) as owner of the properties due to certain matters relating to the operation of the properties by the tenant, and (2) where appropriate, due to certain matters relating to the ownership of the properties prior to their acquisition by us.

Under the terms of certain partnership agreements, the partners have the right to exchange their operating partnership units for cash or the same number of our common shares, at our option. A total of 763,797 downREIT operating partnership units are outstanding which have a total fair value of \$117.6 million, based on our closing stock price on September 30, 2016.

On February 12, 2016, we acquired the 10% noncontrolling interest of a partnership which owns a project in southern California for \$13.0 million, bringing our ownership interest to 100%.

During the quarter ended September 30, 2016, the legal liability period relating to our latent defect warranty on condominiums sold at Santana Row expired. Upon expiration, we released the remaining \$4.9 million warranty reserve which is included in "gain on sale of real estate and change in control of interests" in the consolidated statements of comprehensive income for the three and nine months ended September 30, 2016.

NOTE 7—SHAREHOLDERS' EQUITY

The following table provides a summary of dividends declared and paid per share:

	Nine Months Ended September 30,			
	2016		2015	
	Declared	Paid	Declared	Paid
Common shares	\$2.860	\$2.820	\$2.680	\$2.610
5.417% Series 1 Cumulative Convertible Preferred shares	\$1.016	\$1.016	\$1.016	\$1.016

We have an at the market ("ATM") equity program in which we may from time to time offer and sell common shares having an aggregate offering price of up to \$300.0 million. We intend to use the net proceeds to fund potential acquisition opportunities fund our development and redevelopment pipeline, repay amounts outstanding under our revolving credit facility and/or for general corporate purposes. For the three months ended September 30, 2016, we issued 346,555 common shares at a weighted average price per share of \$159.38 for net cash proceeds of \$54.6 million and paid \$0.6 million in commissions and less than \$0.1 million in additional offering expenses related to the sales of these common shares. For the nine months ended September 30, 2016, we issued 950,171 common shares at a weighted average price per share of \$155.48 for net cash proceeds of \$146.1 million and paid \$1.5 million in commissions and \$0.1 million in additional offering expenses related to the sales of these common shares. As of September 30, 2016, we had the capacity to issue up to \$42.4 million in common shares under our ATM equity program.

On March 7, 2016, we issued 1.0 million common shares at \$149.43 per share, in an underwritten public offering, for cash proceeds of \$149.3 million, net of expenses.

NOTE 8—COMPONENTS OF RENTAL INCOME

The principal components of rental income are as follows:

	Three Months Ended September 30, 2016 2016		Nine Months Ended September 30, 2016 2015	
	2015	2016	2015	2016
	(In thousands)		(In thousands)	
Minimum rents				
Retail and commercial	\$ 137,009	\$ 127,564	\$ 409,027	\$ 377,565
Residential	12,886	10,752	36,476	31,693
Cost reimbursement	40,565	36,272	119,004	110,694
Percentage rent	2,315	3,374	7,866	8,641
Other	4,694	3,600	13,339	10,019
Total rental income	\$ 197,469	\$ 181,562	\$ 585,712	\$ 538,612

Minimum rents include the following:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2016	
	2015	2016	2015	2016
	(In millions)		(In millions)	
Straight-line rents	\$ 1.5	\$ 1.9	\$ 6.2	\$ 5.0
Amortization of above market leases	\$(1.7)	\$(1.4)	\$(5.3)	\$(3.3)
Amortization of below market leases	\$ 2.2	\$ 2.0	\$ 6.5	\$ 5.2

NOTE 9—SHARE-BASED COMPENSATION PLANS

A summary of share-based compensation expense included in net income is as follows:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2015	2016	2015	2016
	(In thousands)			
Grants of shares and options	\$ 2,766	\$ 2,870	\$ 8,818	\$ 9,451
Capitalized share-based compensation	(375)	(212)	(1,002)	(660)
Share-based compensation expense	\$ 2,391	\$ 2,658	\$ 7,816	\$ 8,791

NOTE 10—EARNINGS PER SHARE

We have calculated earnings per share (“EPS”) under the two-class method. The two-class method is an earnings allocation methodology whereby EPS for each class of common stock and participating securities is calculated according to dividends declared and participation rights in undistributed earnings. For the three months ended September 30, 2016 and 2015, we had 0.2 million weighted average unvested shares outstanding, which are considered participating securities. For the nine months ended September 30, 2016 and 2015, we had 0.2 million and 0.3 million weighted average unvested shares outstanding, respectively, which are considered participating securities. Therefore, we have allocated our earnings for basic and diluted EPS between common shares and unvested shares; the portion of earnings allocated to the unvested shares is reflected as “earnings allocated to unvested shares” in the reconciliation below.

In the dilutive EPS calculation, dilutive stock options were calculated using the treasury stock method consistent with prior periods. There were no anti-dilutive stock options for the three and nine months ended September 30, 2016 and 2015. The conversions of downREIT operating partnership units and 5.417% Series 1 Cumulative Convertible Preferred Shares are anti-dilutive for all periods presented and accordingly, have been excluded from the weighted average common shares used to compute diluted EPS.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

The following discussion should be read in conjunction with the consolidated interim financial statements and notes thereto appearing in Item 1 of this report and the more detailed information contained in our Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission (the "SEC") on February 9, 2016.

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. When we refer to forward-looking statements or information, sometimes we use words such as "may," "will," "could," "should," "plans," "intends," "expects," "believes," "estimates," "anticipates" and "continues." Forward-looking statements are not historical facts or guarantees of future performance and involve certain known and unknown risks, uncertainties, and other factors, many of which are outside our control, that could cause actual results to differ materially from those we describe.

Given these uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements that we make, including those in this Quarterly Report on Form 10-Q. Except as may be required by law, we make no promise to update any of the forward-looking statements as a result of new information, future events or otherwise. You should carefully review the risks and the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2015 and under Part II, Item 1A in this Quarterly Report on Form 10-Q, before making any investments in us.

Overview

We are an equity real estate investment trust ("REIT") specializing in the ownership, management, and redevelopment of high quality retail and mixed-use properties located primarily in densely populated and affluent communities in strategically selected metropolitan markets in the Northeast and Mid-Atlantic regions of the United States, California, and South Florida. As of September 30, 2016, we owned or had a majority interest in community and neighborhood shopping centers and mixed-use properties which are operated as 96 predominantly retail real estate projects comprising approximately 22.4 million square feet. In total, the real estate projects were 94.3% leased and 93.1% occupied at September 30, 2016.

2016 Significant Property Acquisitions and Disposition

On January 13, 2016, we acquired our partner's 70% interest in our joint venture arrangement (the "Partnership") with affiliates of a discretionary fund created and advised by Clarion Partners ("Clarion") for \$153.7 million, which included the payment of \$130 million of cash and the assumption of mortgage loans totaling \$34.4 million. As a result of the transaction, we gained control of the six underlying properties, and effective January 13, 2016, have consolidated the properties. We also recognized a gain on acquisition of the controlling interest of \$25.7 million related to the difference between the carrying value and fair value of the previously held equity interest.

Approximately \$7.3 million and \$4.9 million of net assets acquired were allocated to other assets for "above market leases," and other liabilities for "below market leases," respectively. We incurred \$0.2 million of acquisition costs, of which \$0.1 million were incurred in 2016 and included in "general and administrative expenses" on the consolidated statement of comprehensive income for the nine months ended September 30, 2016.

On May 12, 2016, an unconsolidated joint venture that we hold an interest in sold a building in Coconut Grove, Florida. Our share of the gain, net of noncontrolling interests, was \$0.5 million.

On July 26, 2016, we acquired an additional building in the Coconut Grove neighborhood of Miami, Florida for \$5.9 million through our CocoWalk LLC entity. In total, we incurred \$0.2 million in acquisition costs which are included in "general and administrative expenses" on the consolidated statements of comprehensive income for the three and nine months ended September 30, 2016.

2016 Significant Debt and Equity Transactions

On January 13, 2016, in connection with the acquisition of our partner's 70% interest in our unconsolidated real estate partnership, we assumed interest only mortgage loans with a face amount of \$34.4 million and a fair value of \$34.7 million. These mortgage loans have a weighted average interest rate of 5.95% and were repaid at par on April 1, 2016.

On April 20, 2016, we upsized our \$600.0 million revolving credit facility to \$800.0 million and extended the maturity date to April 20, 2020, subject to two six-month extensions at our option. Under the amended credit facility, the spread over LIBOR is 82.5 basis points based on our current credit rating. In addition, we have an option (subject to bank approval) to increase the credit facility through an accordion feature to \$1.5 billion.

Table of Contents

On July 12, 2016, we issued \$250.0 million of fixed rate senior notes that mature on August 1, 2046 and bear interest at 3.625%. The notes were offered at 97.756% of the principal amount with a yield to maturity of 3.75%. The net proceeds from this note offering after issuance discounts, underwriting fees, and other costs were \$241.8 million.

On October 1, 2016 we repaid the \$9.4 million Escondido municipal bonds at par.

We have an at the market (“ATM”) equity program in which we may from time to time offer and sell common shares having an aggregate offering price of up to \$300.0 million. We intend to use the net proceeds to fund potential acquisition opportunities, fund our development and redevelopment pipeline, repay amounts outstanding under our revolving credit facility and/or for general corporate purposes. For the three months ended September 30, 2016, we issued 346,555 common shares at a weighted average price per share of \$159.38 for net cash proceeds of \$54.6 million and paid \$0.6 million in commissions and less than \$0.1 million in additional offering expenses related to the sales of these common shares. For the nine months ended September 30, 2016, we issued 950,171 common shares at a weighted average price per share of \$155.48 for net cash proceeds of \$146.1 million and paid \$1.5 million in commissions and \$0.1 million in additional offering expenses related to the sales of these common shares. As of September 30, 2016, we had the capacity to issue up to \$42.4 million in common shares under our ATM equity program.

On March 7, 2016, we issued 1.0 million common shares at \$149.43 per share, in an underwritten public offering, for cash proceeds of \$149.3 million, net of expenses.

Capitalized Costs

Certain external and internal costs directly related to the development, redevelopment and leasing of real estate, including pre-construction costs, real estate taxes, insurance, construction costs and salaries and related costs of personnel directly involved, are capitalized. We capitalized certain external and internal costs related to both development and redevelopment activities of \$289 million and \$7 million, respectively, for the nine months ended September 30, 2016, and \$174 million and \$5 million, respectively, for the nine months ended September 30, 2015. We capitalized external and internal costs related to other property improvements of \$39 million and \$2 million, respectively, for the nine months ended September 30, 2016, and \$25 million and \$1 million for the nine months ended September 30, 2015. We capitalized external and internal costs related to leasing activities of \$7 million and \$4 million, respectively, for the nine months ended September 30, 2016, and \$11 million and \$4 million, respectively, for the nine months ended September 30, 2015. The amount of capitalized internal costs for salaries and related benefits for development and redevelopment activities, other property improvements, and leasing activities were \$6 million, \$2 million, and \$4 million, respectively, for the nine months ended September 30, 2016, and \$5 million, \$1 million, and \$4 million, respectively, for the nine months ended September 30, 2015. Total capitalized costs were \$348 million and \$221 million for the nine months ended September 30, 2016 and 2015, respectively.

Recently Issued and Recently Adopted Accounting Pronouncements

See Note 2 to the consolidated financial statements.

Outlook

We seek growth in earnings, funds from operations, and cash flows primarily through a combination of the following:

- growth in our same-center portfolio,
- growth in our portfolio from property development and redevelopments, and
- expansion of our portfolio through property acquisitions.

Our same-center growth is primarily driven by increases in rental rates on new leases and lease renewals and changes in portfolio occupancy. Over the long-term, the infill nature and strong demographics of our properties provide a strategic advantage allowing us to maintain relatively high occupancy and increase rental rates. We continue to see strong levels of interest from prospective tenants for our retail spaces; however, the time it takes to complete new lease deals is longer, as tenants have become more selective and more deliberate in their decision-making process. We have also experienced extended periods of time for some government agencies to process permits and inspections further delaying rent commencement on newly leased spaces. Additionally, we have seen an overall decrease in the number of tenants available to fill anchor spaces. We believe the locations of our centers and diverse tenant base partially mitigates any potential negative changes in the economic environment. However, any significant reduction in our tenants' abilities to pay base rent, percentage rent or other charges will adversely affect our financial condition and

results of operations. We seek to maintain a mix of strong national, regional, and local retailers. At September 30, 2016, no single tenant accounted for more than 3.1% of annualized base rent.

Our properties are located primarily in densely populated and/or affluent areas with high barriers to entry which allow us to take advantage of redevelopment opportunities that enhance our operating performance through renovation, expansion,

Table of Contents

reconfiguration, and/or retenanting. We evaluate our properties on an ongoing basis to identify these types of opportunities. We currently have redevelopment projects underway with a projected cost of approximately \$203 million that we expect to stabilize between 2016 and 2018.

We continue our ongoing redevelopment efforts at Santana Row, which currently includes a six story 234,500 square foot office building with 670 parking spaces that is pre-leased to Splunk Inc. The building is expected to cost between \$110 and \$115 million and stabilize in the fourth quarter of 2016. We are also proceeding with an eight story 284,000 square foot office building which will include 29,000 square feet of retail space and 1,300 parking spaces. The building is expected to cost between \$205 and \$215 million and to deliver in 2019. After current phases, we have approximately 4 acres remaining for further redevelopment and entitlements in place for an additional 395 residential units and 321,000 square feet of commercial space. Additionally, we control 12 acres of land adjacent to Santana Row.

We continue to invest in the development at Assembly Row which is a long-term multi-phased mixed-use development project we expect to be involved in over the coming years. The carrying value of this project at September 30, 2016 is approximately \$501 million. The project currently has zoning entitlements to build 3.4 million square feet of commercial-use buildings, 1,843 residential units, and a 170 room hotel. The first phase consists of approximately 331,000 square feet of retail space and 98,000 square feet of office space (both owned by the Trust) and 445 residential units owned by AvalonBay Communities. The Massachusetts Bay Transit Authority (MBTA) constructed the new orange line T-Stop at the property, which opened in September 2014. The retail and office space in Phase I are fully delivered and are 100% leased. Total costs for Phase I of Assembly Row are \$196 million.

We are also proceeding with development of Phase II of Assembly Row which will include 161,000 square feet of retail space, a 159 room boutique hotel and 447 residential units. The hotel will be owned and operated by a joint venture in which we are a partner. Total expected costs range from \$270 million to \$285 million and delivery is expected in late 2017/2018. Phase II is also expected to include 122 for-sale condominium units with an expected total cost of \$70 million to \$75 million. Additionally, as part of the second phase, we entered into a ground lease agreement with Partners HealthCare to bring 741,500 square feet of office space to Assembly Row. The ground lease agreement includes a purchase option, which was exercised and is expected to close in 2017. Partners HealthCare commenced construction on this new building in September 2014 and during the second quarter of 2016, started relocating its employees to Assembly Row.

Including costs incurred in the first nine months of 2016, we expect to invest between \$130 million and \$150 million in Assembly Row in 2016.

Our Pike & Rose project in North Bethesda, MD, a long-term multi-phased mixed-use development project, currently has zoning entitlements to build 1.6 million square feet of commercial-use buildings and 1,605 residential units. Phase I of Pike & Rose includes 493 residential units, 159,000 square feet of retail space and 80,000 square feet of office space. In late June 2014, our 174 unit residential building opened and achieved stabilized occupancy in the 1st quarter 2015. As of September 30, 2016, the retail space, office space, and the units in the second residential building in Phase I have been delivered. We expect Phase I to reach stabilized occupancy in the fourth quarter of 2016. Total expected costs for Phase I of Pike & Rose range from \$265 million to \$270 million of which \$264 million has been incurred to date.

Additionally, we are proceeding with development of Phase II of Pike & Rose, for which building construction has commenced. Phase II will include approximately 216,000 square feet of retail space, a 177 room select-service hotel and 272 residential units. Total expected costs range from \$200 million to \$207 million and delivery is expected in 2017/2018. The hotel will be owned and operated by a joint venture in which we are a partner. Phase II is also expected to include 99 for-sale condominium units with an expected cost of \$53 million to \$58 million.

Including costs incurred in the first nine months of 2016, we expect to invest between \$100 million and \$115 million in Pike & Rose in 2016.

The development of future phases of Assembly Row, Pike & Rose and Santana Row will be pursued opportunistically based on, among other things, market conditions, tenant demand, and our evaluation of whether those phases will generate an appropriate financial return.

We continue to review acquisition opportunities in our primary markets that complement our portfolio and provide long-term growth opportunities. Initially, some of our acquisitions do not contribute significantly to earnings growth; however, we believe they provide long-term re-leasing growth, redevelopment opportunities, and other strategic opportunities. Any growth from acquisitions is contingent on our ability to find properties that meet our qualitative standards at prices that meet our financial hurdles. Changes in interest rates may affect our success in achieving earnings growth through acquisitions by affecting both the price that must be paid to acquire a property, as well as our ability to economically finance the property acquisition. Generally, our acquisitions are initially financed by available cash and/or borrowings under our revolving credit facility which

Table of Contents

may be repaid later with funds raised through the issuance of new equity or new long-term debt. We may also finance our acquisitions through the issuance of common shares, preferred shares, or downREIT units as well as through new or assumed mortgages.

At September 30, 2016, the leasable square feet in our properties was 93.1% occupied and 94.3% leased. The leased rate is higher than the occupied rate due to leased spaces that are being redeveloped or improved or that are awaiting permits and, therefore, are not yet ready to be occupied. Our occupancy and leased rates are subject to variability over time due to factors including acquisitions, the timing of the start and stabilization of our redevelopment projects, lease expirations and tenant bankruptcies.

Lease Rollovers

For the third quarter of 2016, we signed leases for a total of 453,000 square feet of retail space including 427,000 square feet of comparable space leases (leases for which there was a prior tenant) at an average rental increase of 14% on a cash basis and 27% on a straight-line basis. New leases for comparable spaces were signed for 168,000 square feet at an average rental increase of 21% on a cash basis and 35% on a straight-line basis. Renewals for comparable spaces were signed for 259,000 square feet at an average rental increase of 9% on a cash basis and 21% on a straight-line basis. Tenant improvements and incentives for comparable spaces were \$63.57 per square foot for new leases and \$17.75 per square foot for renewals for the three months ended September 30, 2016.

For the nine months ended September 30, 2016, we signed leases for a total of 1,340,000 square feet of retail space including 1,199,000 square feet of comparable space leases (leases for which there was a prior tenant) at an average rental increase of 13% on a cash basis and 25% on a straight-line basis. New leases for comparable spaces were signed for 428,000 square feet at an average rental increase of 22% on a cash basis and 36% on a straight-line basis.

Renewals for comparable spaces were signed for 771,000 square feet at an average rental increase of 8% on a cash basis and 19% on a straight-line basis. Tenant improvements and incentives for comparable spaces were \$62.01 per square foot for new leases and \$12.03 per square foot for renewals for the nine months ended September 30, 2016. The rental increases associated with comparable spaces generally include all leases signed in arms-length transactions reflecting market leverage between landlords and tenants during the period. The comparison between average rent for expiring leases and new leases is determined by including minimum rent and percentage rent paid on the expiring lease and minimum rent and in some instances, projections of first lease year percentage rent, to be paid on the new lease. In atypical circumstances, management may exercise judgment as to how to most effectively reflect the comparability of spaces reported in this calculation. The change in rental income on comparable space leases is impacted by numerous factors including current market rates, location, individual tenant creditworthiness, use of space, market conditions when the expiring lease was signed, capital investment made in the space and the specific lease structure. Tenant improvements and incentives include the total dollars committed for the improvement (fit out) of a space as it relates to a specific lease and, except for redevelopments, may also include base building costs (i.e. expansion, escalators or new entrances) which are required to make the space leasable. Incentives include amounts paid to tenants as inducement to sign a lease that do not represent building improvements.

The leases signed in 2016 generally become effective over the following two years though some may not become effective until 2019 and beyond. Further, there is risk that some new tenants will not ultimately take possession of their space and that tenants for both new and renewal leases may not pay all of their contractual rent due to operating, financing or other matters. However, these increases do provide information about the tenant/landlord relationship and the potential increase we may achieve in rental income over time.

Historically, we have executed comparable space leases for 1.2 to 1.5 million square feet of retail space each year, and expect that volume for 2016 will be in line with our historical averages with overall positive increases in rental income. However, changes in rental income associated with individual signed leases on comparable spaces may be positive or negative, and we can provide no assurance that the rents on new leases will continue to increase at the above disclosed levels, if at all.

Same-Center

Throughout this section, we have provided certain information on a “same-center” basis. Information provided on a same-center basis includes the results of properties that we owned and operated for the entirety of both periods being compared except for properties for which significant redevelopment or expansion occurred during either of the periods

being compared and properties classified as discontinued operations. For the three and nine months ended September 30, 2016, all or a portion of 77 and 76 properties, respectively, were considered same-center and sixteen were considered redevelopment or expansion. For the nine months ended September 30, 2016, one property was moved from same-center to redevelopment, compared to the designations as of December 31, 2015. For the three months ended September 30, 2016, one property was moved from redevelopment to same-center and one property was moved from acquisitions to redevelopment. While there is judgment

18

Table of Contents

surrounding changes in designations, we typically move redevelopment properties to same-center once they have stabilized, which is typically considered 95% occupancy or when the growth expected from the redevelopment has been included in the comparable periods. We typically remove properties from same center when the redevelopment has or is expected to have a significant impact to property operating income within the calendar year. Acquisitions are moved to same-center once we have owned the property for the entirety of comparable periods and the property is not under significant redevelopment or expansion.

Property Revenues

Total property revenue increased \$15.9 million, or 8.6%, to \$201.2 million in the three months ended September 30, 2016 compared to \$185.3 million in the three months ended September 30, 2015. The percentage occupied at our shopping centers decreased to 93.1% at September 30, 2016 compared to 95.1% at September 30, 2015. Changes in the components of property revenue are discussed below.

Rental Income

Rental income consists primarily of minimum rent, cost reimbursements from tenants and percentage rent. Rental income increased \$15.9 million, or 8.8%, to \$197.5 million in the three months ended September 30, 2016 compared to \$181.6 million in the three months ended September 30, 2015 due primarily to the following:

- an increase of \$4.6 million attributable to properties acquired in 2015 and 2016,
- an increase of \$3.8 million from the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016,
- an increase of \$3.3 million from Assembly Row and Pike & Rose as portions of both projects opened throughout 2015 and early 2016,
- an increase of \$2.6 million at redevelopment properties due primarily to the lease-up of The Point at Plaza El Segundo, as well as four of our other retail redevelopments, partially offset by lower occupancy as we start redeveloping centers, and
- an increase of \$2.5 million at same-center properties due primarily to higher rental rates of approximately \$3.3 million and \$1.6 million of higher recoveries due primarily to higher real estate taxes, partially offset by lower occupancy impacts of \$1.3 million and lower percentage rent of \$1.0 million, partially offset by
- a decrease of \$0.9 million due to the sale of our Courtyard Shops property in November 2015.

Table of Contents

Property Expenses

Total property expenses increased \$7.3 million, or 13.0%, to \$63.6 million in the three months ended September 30, 2016 compared to \$56.2 million in the three months ended September 30, 2015. Changes in the components of property expenses are discussed below.

Rental Expenses

Rental expenses increased \$4.1 million, or 12.0%, to \$38.6 million in the three months ended September 30, 2016 compared to \$34.4 million in the three months ended September 30, 2015. This increase is primarily due to the following:

- an increase of \$1.6 million attributable to properties acquired in 2015 and 2016,
 - an increase of \$1.1 million at same-center and redevelopment properties primarily due to repairs and maintenance and other operating costs,
- an increase of \$0.7 million in bad debt expense due to the 2015 reversal of the valuation allowance remaining on a mortgage note receivable which was repaid in full in August 2015,
- an increase of \$0.6 million from the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016, and
- an increase of \$0.4 million from Pike & Rose, primarily related to the new 319 unit residential building.

As a result of the changes in rental income and rental expenses as discussed above, rental expenses as a percentage of rental income plus other property income increased to 19.3% in the three months ended September 30, 2016 from 18.7% in the three months ended September 30, 2015.

Real Estate Taxes

Real estate tax expense increased \$3.2 million, or 14.5%, to \$25.0 million in the three months ended September 30, 2016 compared to \$21.8 million in the three months ended September 30, 2015 due primarily to:

- an increase of \$1.8 million due primarily to higher assessments at same-center properties,
- an increase of \$0.5 million due to the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016,
- an increase of \$0.4 million from the acquisition of the Shops at Sunset Place in October 2015,
- an increase of \$0.3 million from Assembly Row and Pike & Rose, and
- an increase of \$0.3 million from redevelopment properties.

Property Operating Income

Property operating income increased \$8.6 million, or 6.7%, to \$137.6 million in the three months ended September 30, 2016 compared to \$129.0 million in the three months ended September 30, 2015. This increase is primarily due to the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016, Assembly Row and Pike & Rose, the acquisition of the Shops at Sunset Place property in October 2015, and growth in earnings at same-center and redevelopment properties, partially offset by the sale of our Courtyard Shops property in November 2015.

Other

Income From Real Estate Partnerships

The decrease in income from real estate partnerships is the result of our obtaining control of the six Clarion joint venture properties on January 13, 2016 (see discussion in Note 3 to the consolidated financial statements). Prior to this transaction, the properties were accounted for under the equity method of accounting.

Interest Expense

Interest expense increased \$2.6 million, or 11.9%, to \$24.3 million in the three months ended September 30, 2016 compared to \$21.7 million in the three months ended September 30, 2015. This increase is due primarily to the following:

- an increase of \$2.5 million due to higher borrowings primarily attributable to the 3.625% senior notes issued in July 2016, and
- an increase of \$0.2 million due to a higher overall weighted average borrowing rate, partially offset by
- an increase of \$0.1 million in capitalized interest.

Table of Contents

Gross interest costs were \$29.0 million and \$26.3 million in the three months ended September 30, 2016 and 2015, respectively. Capitalized interest was \$4.7 million and \$4.6 million in the three months ended September 30, 2016 and 2015, respectively.

General and Administrative

General and administrative expense decreased \$1.1 million, or 12.2%, to \$8.2 million in the three months ended September 30, 2016 from \$9.4 million in the three months ended September 30, 2015. The decrease is primarily due to lower transaction and incentive compensation costs.

Depreciation and Amortization

Depreciation and amortization expense increased \$5.2 million, or 11.9%, to \$48.9 million in the three months ended September 30, 2016 from \$43.7 million in the three months ended September 30, 2015. This increase is due primarily to the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016, redevelopment properties, Assembly Row and Pike & Rose, and the acquisition of the Shops at Sunset Place property in October 2015.

Gain on Sale of Real Estate

The \$4.9 million gain on sale of real estate for the three months ended September 30, 2016 is due to the reversal of the unused portion of the warranty reserve for condominium units at Santana Row, as the statutorily mandated latent construction defect period ended in third quarter 2016 and no further claims have been filed.

Property Revenues

Total property revenue increased \$46.0 million, or 8.3%, to \$597.5 million in the nine months ended September 30, 2016 compared to \$551.5 million in the nine months ended September 30, 2015. The percentage occupied at our shopping centers decreased to 93.1% at September 30, 2016 compared to 95.1% at September 30, 2015. Changes in the components of property revenue are discussed below.

Rental Income

Rental income consists primarily of minimum rent, cost reimbursements from tenants and percentage rent. Rental income increased \$47.1 million, or 8.7%, to \$585.7 million in the nine months ended September 30, 2016 compared to \$538.6 million in the nine months ended September 30, 2015 due primarily to the following:

- an increase of \$16.6 million attributable to properties acquired in 2015 and 2016,
 - an increase of \$11.1 million from the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016,
 - an increase of \$9.6 million from Assembly Row and Pike & Rose as portions of both projects opened throughout 2015 and early 2016,
 - an increase of \$7.7 million at redevelopment properties due primarily to the lease-up of The Point at Plaza El Segundo, as well as four of our other retail redevelopments, partially offset by lower occupancy as we start redeveloping centers, and
 - an increase of \$6.7 million at same-center properties due primarily to higher rental rates of approximately \$10.8 million, higher recoveries of \$1.2 million primarily the net result of higher real estate tax expense and lower snow removal expense, partially offset by lower occupancy of approximately \$3.3 million, and lower percentage rent of \$1.3 million.
- partially offset by

Table of Contents

a decrease of \$4.3 million due to the sale of our Houston Street and Courtyard Shops properties in April 2015 and November 2015, respectively.

Other Property Income

Other property income decreased \$0.8 million, or 8.6%, to \$8.6 million in the nine months ended September 30, 2016 compared to \$9.4 million in the nine months ended September 30, 2015. The decrease is primarily due to a decrease in management fee income as we no longer earn fees on the former Clarion joint venture properties.

Property Expenses

Total property expenses increased \$18.2 million, or 10.6%, to \$189.5 million in the nine months ended September 30, 2016 compared to \$171.4 million in the nine months ended September 30, 2015. Changes in the components of property expenses are discussed below.

Rental Expenses

Rental expenses increased \$9.9 million, or 9.1%, to \$118.4 million in the nine months ended September 30, 2016 compared to \$108.5 million in the nine months ended September 30, 2015. This increase is primarily due to the following:

- an increase of \$5.4 million attributable to properties acquired in 2015 and 2016,
- an increase of \$2.4 million from the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016,
 - an increase of \$2.2 million from Assembly Row and Pike & Rose as portions of both projects opened throughout 2015 and early 2016,
- an increase of \$1.8 million at redevelopment properties due primarily to the lease-up of several of our retail redevelopments, and
- an increase of \$1.0 million in bad debt expense due to the 2015 reversal of the valuation allowance remaining on a mortgage note receivable which was repaid in full in August 2015, partially offset by
 - a decrease of \$1.8 million at same-center properties primarily attributable to lower snow removal costs, and
 - a decrease of \$1.0 million due to the sale of our Houston Street and Courtyard Shops properties in April 2015 and November 2015, respectively.

As a result of the changes in rental income and rental expenses as discussed above, rental expenses as a percentage of rental income plus other property income decreased to 19.9% in the nine months ended September 30, 2016 from 19.8% in the nine months ended September 30, 2015.

Real Estate Taxes

Real estate tax expense increased \$8.3 million, or 13.2%, to \$71.2 million in the nine months ended September 30, 2016 compared to \$62.9 million in the nine months ended September 30, 2015 due primarily to the following:

- an increase of \$3.1 million due to higher assessments at same-center properties,
- an increase of \$2.2 million from properties acquired in 2015 and 2016,
- an increase of \$1.4 million due to the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016,
- an increase of \$1.3 million related to Assembly Row and Pike & Rose, and
- an increase of \$0.9 million from redevelopment properties, partially offset by
 - a decrease of \$0.7 million due to the sale of our Houston Street and Courtyard Shops properties in April 2015 and November 2015, respectively.

Property Operating Income

Property operating income increased \$27.8 million, or 7.3%, to \$407.9 million in the nine months ended September 30, 2016 compared to \$380.1 million in the nine months ended September 30, 2015. This increase is primarily due to growth in earnings at same-center and redevelopment properties, properties acquired in 2015, the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016, and portions of Assembly Row and Pike & Rose opening through 2015 and

Table of Contents

early 2016, partially offset by the sale of our Houston Street and Courtyard Shops properties in April 2015 and November 2015, respectively.

Other

Income From Real Estate Partnerships

The decrease in income from real estate partnerships is the result of our obtaining control of the six Clarion joint venture properties on January 13, 2016 (see discussion in Note 3 to the consolidated financial statements). Prior to this transaction, the properties were accounted for under the equity method of accounting.

Interest Expense

Interest expense increased \$1.8 million, or 2.6%, to \$71.1 million in the nine months ended September 30, 2016 compared to \$69.3 million in the nine months ended September 30, 2015. This increase is due primarily to the following:

• an increase of \$7.3 million due to higher borrowings, and

• a decrease of \$1.5 million in capitalized interest due primarily to the opening of Phase I of Assembly Row and Pike & Rose, partially offset by capitalized interest on current redevelopment projects, partially offset by

• a decrease of \$6.9 million due to a lower overall weighted average borrowing rate,

Gross interest costs were \$83.8 million and \$83.5 million in the nine months ended September 30, 2016 and 2015, respectively. Capitalized interest was \$12.7 million and \$14.1 million in the nine months ended September 30, 2016 and 2015, respectively.

Early Extinguishment of Debt

The \$19.1 million of early extinguishment of debt in the nine months ended September 30, 2015 relates to the make-whole premium paid as part of the early redemption of our 6.20% senior notes in the second quarter of 2015, partially offset by the related write-off of unamortized premium and debt fees.

General and Administrative Expense

General and administrative expenses decreased \$2.2 million, or 8.2%, to \$25.3 million for the nine months ended September 30, 2016, compared to \$27.5 million in the nine months ended September 30, 2015. The decrease is primarily due to lower transaction and incentive compensation costs.

Depreciation and Amortization

Depreciation and amortization expense increased \$16.8 million, or 13.1%, to \$145.1 million in the nine months ended September 30, 2016 from \$128.4 million in the nine months ended September 30, 2015. This increase is due primarily the acquisition of the six previously unconsolidated Clarion joint venture properties in January 2016, Assembly Row and Pike & Rose, properties acquired in 2015, and redevelopment properties.

Gain on Sale of Real Estate and Change in Control of Interests

The \$32.5 million gain on sale of real estate and change in control of interests is primarily the result of our obtaining control of six properties when we acquired Clarion's 70% interest in the partnership that owned those properties (see discussion in Note 3 to the consolidated financial statements). The properties were previously accounted for under the equity method of accounting. We consolidated these assets effective January 13, 2016, and consequently recognized a gain of \$25.7 million upon obtaining the controlling interest. The nine months ended September 30, 2016 also included a \$1.8 million gain related to the May 2016 sale of a building in Coconut Grove, Florida by an unconsolidated joint venture (our share of the gain, net of noncontrolling interests, was \$0.5 million) and a \$4.9 million gain due to the reversal of the warranty reserve for condominium units at Santana Row, as the statutorily mandated latent construction defect period ended in third quarter 2016 and no further claims have been filed.

The \$11.5 million gain on sale of real estate for the nine months ended September 30, 2015 is due to the sale of our Houston Street property in April 2015.

Liquidity and Capital Resources

Due to the nature of our business and strategy, we typically generate significant amounts of cash from operations. The cash generated from operations is primarily paid to our common and preferred shareholders in the form of dividends. As a REIT, we must generally make annual distributions to shareholders of at least 90% of our taxable income.

Table of Contents

Our short-term liquidity requirements consist primarily of normal recurring operating expenses, obligations under our capital and operating leases, regular debt service requirements (including debt service relating to additional or replacement debt, as well as scheduled debt maturities), recurring expenditures, non-recurring expenditures (such as tenant improvements and redevelopments) and dividends to common and preferred shareholders. Our long-term capital requirements consist primarily of maturities under our long-term debt agreements, development and redevelopment costs and potential acquisitions.

We intend to operate with and maintain a conservative capital structure that will allow us to maintain strong debt service coverage and fixed-charge coverage ratios as part of our commitment to investment-grade debt ratings. In the short and long term, we may seek to obtain funds through the issuance of additional equity, unsecured and/or secured debt financings, joint venture relationships relating to existing properties or new acquisitions, and property dispositions that are consistent with this conservative structure.

At September 30, 2016, we had cash and cash equivalents of \$101.3 million and no outstanding balance on our unsecured revolving credit facility. On April 20, 2016, we upsized our \$600.0 million revolving credit facility to \$800.0 million and extended the maturity date to April 20, 2020, subject to two six-month extensions at our option. In addition, we have an option (subject to bank approval) to increase the credit facility through an accordion feature to \$1.5 billion. Our \$275.0 million unsecured term loan, which matures on November 21, 2018, subject to a one-year extension at our option, also has an option (subject to bank approval) to increase the term loan through an accordion feature to \$350.0 million. As of September 30, 2016, we had the capacity to issue up to \$42.4 million in common shares under our ATM equity program.

For the nine months ended September 30, 2016, the maximum amount of borrowings outstanding under our revolving credit facility was \$251.5 million, the weighted average amount of borrowings outstanding was \$103.3 million and the weighted average interest rate, before amortization of debt fees, was 1.3%. On March 7, 2016, we issued 1.0 million common shares at \$149.43 per share, for net cash proceeds of \$149.3 million. On July 12, 2016, we issued \$250.0 million of fixed rate senior unsecured notes that mature on August 1, 2046 and bear interest at 3.625% for net proceeds after issuance discounts, underwriting fees, and other costs of \$241.8 million. We also repaid the \$9.4 million unsecured Escondido municipal bonds on October 1, 2016. For the remainder of 2016, we have no further debt maturing. We currently believe that cash flows from operations, cash on hand, our ATM program, our revolving credit facility and our general ability to access the capital markets will be sufficient to finance our operations and fund our debt service requirements (including maturities) and capital expenditures.

Our overall capital requirements for the remainder of 2016 will depend upon acquisition opportunities, the level of improvements and redevelopments on existing properties and the timing and cost of development of Assembly Row, Pike & Rose and future phases of Santana Row. While the amount of future expenditures will depend on numerous factors, we expect to continue to see higher levels of capital investments in our properties under development and redevelopment which is the result of construction on Phase II at both Assembly Row and Pike & Rose and construction of the 234,500 square foot office building at Santana Row. With respect to other capital investments related to our existing properties, we expect to incur levels consistent with prior years. Our capital investments will be funded on a short-term basis with cash flow from operations, cash on hand and/or our revolving credit facility, and on a long-term basis, with long-term debt or equity including shares issued under our ATM equity program. If necessary, we may access the debt or equity capital markets to finance significant acquisitions. Given our past ability to access the capital markets, we expect debt or equity to be available to us. Although there is no intent at this time, if market conditions deteriorate, we may also delay the timing of certain development and redevelopment projects as well as limit future acquisitions, reduce our operating expenditures, or re-evaluate our dividend policy.

In addition to conditions in the capital markets which could affect our ability to access those markets, the following factors could affect our ability to meet our liquidity requirements:

- restrictions in our debt instruments or preferred shares may limit us from incurring debt or issuing equity at all, or on acceptable terms under then-prevailing market conditions; and
- we may be unable to service additional or replacement debt due to increases in interest rates or a decline in our operating performance.

Table of Contents

Summary of Cash Flows

	Nine Months Ended	
	September 30,	
	2016	2015
	(In thousands)	
Cash provided by operating activities	\$288,972	\$261,150
Cash used in investing activities	(438,417)	(286,479)
Cash provided by (used in) financing activities	229,680	(9,758)
Increase (decrease) in cash and cash equivalents	80,235	(35,087)
Cash and cash equivalents, beginning of year	21,046	47,951
Cash and cash equivalents, end of period	\$101,281	\$12,864

Net cash provided by operating activities increased \$27.8 million to \$289.0 million during the nine months ended September 30, 2016 from \$261.2 million during the nine months ended September 30, 2015. The increase was primarily attributable to higher net income before certain non-cash items, timing of interest payments, and timing of payments from tenants, partially offset by higher escrow account balances.

Net cash used in investing activities increased \$151.9 million to \$438.4 million during the nine months ended September 30, 2016 from \$286.5 million during the nine months ended September 30, 2015. The increase was primarily attributable to:

- a \$95.1 million increase in capital investments and leasing costs as we continue to invest in Pike & Rose, Assembly Row, Santana Row, and other current redevelopments,
- \$45.8 million in proceeds from the sale of our Houston Street property in April 2015, and
- a \$14.0 million increase in acquisitions of real estate primarily due to the January 2016 acquisition of Clarion's 70% interest in our unconsolidated real estate partnership, partially offset by the 2015 acquisitions of San Antonio Center and CocoWalk.

Net cash provided by financing activities increased \$239.4 million to \$229.7 million during the nine months ended September 30, 2016 from \$9.8 million used during the nine months ended September 30, 2015. The increase was primarily attributable to:

- the April 2015 redemption of \$200 million of senior notes with a make-whole premium of \$19.2 million in April 2015,
- a \$198.9 million increase in net proceeds from the issuance of common shares as we issued 1.0 million common shares at \$149.43 per share in an underwritten public offering on March 7, 2016, and we sold 1.0 million common shares under our ATM equity program at a weighted average price of \$155.48 during the nine months ended September 30, 2016, compared to 0.8 million shares at a weighted average price of \$134.21 in the nine months ended September 30, 2015, and
- a \$123.1 million decrease in repayment of mortgages, capital leases, and notes payable due to the payoff of \$34.4 million of mortgage loans on April 1, 2016, compared to the payoff of six mortgages totaling \$147.0 million in August 2015,

partially offset by

- \$241.8 million in net proceeds from the issuance of 3.625% senior notes in July 2016, compared to \$456.2 million in net proceeds from the re-opening of the 4.5% senior notes in March 2015 and the issuance of 2.55% senior notes in September 2015,
- a \$53.5 million increase in net repayments in 2016 on our revolving credit facility,
- a \$19.3 million increase in dividends paid to shareholders due to an increase in the dividend rate and increased number of shares outstanding, and
- \$13.0 million acquisition of the 10% noncontrolling interest of a partnership which owns a project in Southern California.

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

Total senior notes and debentures	1,975,988		
Capital lease obligations			
Various	71,597	Various	Various through 2106
Total debt and capital lease obligations	\$2,809,564		

1) We entered into two interest rate swap agreements that fix the LIBOR portion of the interest rate on the term loan at 1.72%. The spread on the term loan is 90 basis points resulting in a fixed rate of 2.62%.

2) The maximum amount drawn under our revolving credit facility during the nine months ended September 30, 2016 was \$251.5 million, and the weighted average interest rate on borrowings under our revolving credit facility, before amortization of debt fees, was 1.3%.

Our revolving credit facility, term loan and other debt agreements include financial and other covenants that may limit our operating activities in the future. As of September 30, 2016, we were in compliance with all of the financial and other covenants. If we were to breach any of our debt covenants and did not cure the breach within an applicable cure period, our

Table of Contents

lenders could require us to repay the debt immediately and, if the debt is secured, could immediately begin proceedings to take possession of the property securing the loan. Many of our debt arrangements, including our public notes, term loan and our revolving credit facility, are cross-defaulted, which means that the lenders under those debt arrangements can put us in default and require immediate repayment of their debt if we breach and fail to cure a default under certain of our other debt obligations. As a result, any default under our debt covenants could have an adverse effect on our financial condition, our results of operations, our ability to meet our obligations and the market value of our shares. Our organizational documents do not limit the level or amount of debt that we may incur. The following is a summary of our scheduled principal repayments as of September 30, 2016:

	Unsecured	Secured	Capital Lease	Total
	(In thousands)			
2016	\$9,432	\$1,267	\$ 11	\$10,710
2017	457	222,469	34	222,960
2018	275,507	15,477	37	\$291,021
2019	561	25,006	42	25,609
2020	150,623	(1)\$64,687	46	\$215,356
Thereafter	1,847,340	138,690	71,427	2,057,457
	\$2,283,920	\$467,596	\$ 71,597	\$2,823,113(2)

1) As of September 30, 2016, there was no outstanding balance under our \$800.0 million revolving credit facility.

2) The total debt maturities differs from the total reported on the consolidated balance sheet due to the unamortized net premium and debt issuance costs on mortgage loans, notes payable, and senior notes as of September 30, 2016.

Interest Rate Hedging

We may use derivative instruments to manage exposure to variable interest rate risk. We generally enter into interest rate swaps to manage our exposure to variable interest rate risk and treasury locks to manage the risk of interest rates rising prior to the issuance of debt. We enter into derivative instruments that qualify as cash flow hedges and do not enter into derivative instruments for speculative purposes.

The interest rate swaps associated with our cash flow hedges are recorded at fair value on a recurring basis. We assess effectiveness of our cash flow hedges both at inception and on an ongoing basis. The effective portion of changes in fair value of the interest rate swaps associated with our cash flow hedges is recorded in other comprehensive income/loss which is included in accumulated other comprehensive loss on our consolidated balance sheet and our consolidated statement of shareholders' equity. Our cash flow hedges become ineffective if critical terms of the hedging instrument and the debt instrument do not perfectly match such as notional amounts, settlement dates, reset dates, calculation period and LIBOR rate. In addition, we evaluate the default risk of the counterparty by monitoring the credit-worthiness of the counterparty which includes reviewing debt ratings and financial performance. However, management does not anticipate non-performance by the counterparty. If a cash flow hedge is deemed ineffective, the ineffective portion of changes in fair value of the interest rate swaps associated with our cash flow hedges is recognized in earnings in the period affected.

As of September 30, 2016, we are party to two interest rate swap agreements that effectively fixed the rate on the term loan at 2.62%. Both swaps were designated and qualified as cash flow hedges and were recorded at fair value. Hedge ineffectiveness has not impacted earnings as of September 30, 2016, and we do not anticipate it will have a significant effect in the future.

REIT Qualification

We intend to maintain our qualification as a REIT under Section 856(c) of the Code. As a REIT, we generally will not be subject to corporate federal income taxes on income we distribute to our shareholders as long as we satisfy certain technical requirements of the Code, including the requirement to distribute at least 90% of our taxable income to our shareholders.

Table of Contents

Funds From Operations

Funds from operations (“FFO”) is a supplemental non-GAAP financial measure of real estate companies’ operating performance. The National Association of Real Estate Investment Trusts (“NAREIT”) defines FFO as follows: net income, computed in accordance with U.S. GAAP, plus real estate related depreciation and amortization and excluding extraordinary items, gains and losses on the sale of real estate, and impairment write-downs of depreciable real estate. We compute FFO in accordance with the NAREIT definition, and we have historically reported our FFO available for common shareholders in addition to our net income and net cash provided by operating activities. It should be noted that FFO:

- does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income);
- should not be considered an alternative to net income as an indication of our performance; and
- is not necessarily indicative of cash flow as a measure of liquidity or ability to fund cash needs, including the payment of dividends.

We consider FFO available for common shareholders a meaningful, additional measure of operating performance primarily because it excludes the assumption that the value of the real estate assets diminishes predictably over time, as implied by the historical cost convention of GAAP and the recording of depreciation. We use FFO primarily as one of several means of assessing our operating performance in comparison with other REITs. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

An increase or decrease in FFO available for common shareholders does not necessarily result in an increase or decrease in aggregate distributions because our Board of Trustees is not required to increase distributions on a quarterly basis unless necessary for us to maintain REIT status. However, we must distribute at least 90% of our taxable income to remain qualified as a REIT. Therefore, a significant increase in FFO will generally require an increase in distributions to shareholders although not necessarily on a proportionate basis.

Table of Contents

The reconciliation of net income to FFO available for common shareholders is as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
	(In thousands, except per share data)			
Net income	\$61,198	\$54,550	\$199,159	\$148,426
Net income attributable to noncontrolling interests	(2,221)	(2,103)	(7,286)	(6,161)
Gain on sale of real estate and change in control of interests, net	(4,706)	—	(31,133)	(11,509)
Depreciation and amortization of real estate assets	42,779	38,603	126,806	113,613
Amortization of initial direct costs of leases	4,260	3,689	12,729	10,805
Funds from operations	101,310	94,739	300,275	255,174
Dividends on preferred shares	(136)	(136)	(406)	(406)
Income attributable to operating partnership units	750	879	2,397	2,520
Income attributable to unvested shares	(263)	(325)	(826)	(899)
Funds from operations available for common shareholders (1)	\$101,661	\$95,157	\$301,440	256,389
Weighted average number of common shares, diluted (2)	72,254	70,115	71,642	69,761
Funds from operations available for common shareholders, per diluted share (1)	\$1.41	\$1.36	\$4.21	\$3.68

If the \$19.1 million early extinguishment of debt charge incurred in the second quarter of 2015 was excluded, our (1) FFO available for common shareholders for the nine months ended September 30, 2015 would have been \$275.4 million and FFO available for common shareholders, per diluted share would have been \$3.95.

The weighted average common shares used to compute FFO per diluted common share includes operating (2) partnership units that were excluded from the computation of diluted EPS. Conversion of these operating partnership units is dilutive in the computation of FFO per diluted common share but is anti-dilutive for the computation of diluted EPS for the periods presented.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our use of financial instruments, such as debt instruments, subjects us to market risk which may affect our future earnings and cash flows, as well as the fair value of our assets. Market risk generally refers to the risk of loss from changes in interest rates and market prices. We manage our market risk by attempting to match anticipated inflow of cash from our operating, investing and financing activities with anticipated outflow of cash to fund debt payments, dividends to common and preferred shareholders, investments, capital expenditures and other cash requirements. We may enter into certain types of derivative financial instruments to further reduce interest rate risk. We use interest rate protection and swap agreements, for example, to convert some of our variable rate debt to a fixed-rate basis or to hedge anticipated financing transactions. We use derivatives for hedging purposes rather than speculation and do not enter into financial instruments for trading purposes. As of September 30, 2016, we were party to two interest rate swap agreements that effectively fixed the rate on the term loan at 2.62%.

Interest Rate Risk

The following discusses the effect of hypothetical changes in market rates of interest on interest expense for our variable rate debt and on the fair value of our total outstanding debt, including our fixed-rate debt. Interest rate risk amounts were determined by considering the impact of hypothetical interest rates on our debt. Quoted market prices were used to estimate the fair value of our marketable senior notes and debentures and discounted cash flow analysis is generally used to estimate the fair value of our mortgages and notes payable. Considerable judgment is necessary to estimate the fair value of financial instruments. This analysis does not purport to take into account all of the factors that may affect our debt, such as the effect that a changing interest rate environment could have on the overall level of

economic activity or the action that our management might take to reduce our exposure to the change. This analysis assumes no change in our financial structure.

Table of Contents

Fixed Interest Rate Debt

The majority of our outstanding debt obligations (maturing at various times through 2046 or, with respect to capital lease obligations, through 2106) have fixed interest rates which limit the risk of fluctuating interest rates. However, interest rate fluctuations may affect the fair value of our fixed rate debt instruments. At September 30, 2016, we had \$2.7 billion of fixed-rate debt outstanding, including our \$275.0 million term loan as the rate is effectively fixed by two interest rate swap agreements; we also had \$71.6 million of capital lease obligations. If market interest rates used to calculate the fair value on our fixed-rate debt instruments at September 30, 2016 had been 1.0% higher, the fair value of those debt instruments on that date would have decreased by approximately \$200.5 million. If market interest rates used to calculate the fair value on our fixed-rate debt instruments at September 30, 2016 had been 1.0% lower, the fair value of those debt instruments on that date would have increased by approximately \$235.2 million.

Variable Interest Rate Debt

Generally, we believe that our primary interest rate risk is due to fluctuations in interest rates on our outstanding variable rate debt. At September 30, 2016, we had \$9.4 million of variable rate debt outstanding which was repaid at par on October 1, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Periodic Evaluation and Conclusion of Disclosure Controls and Procedures

An evaluation has been performed, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2016. Based on this evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of September 30, 2016 to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting during quarterly period covered by this report that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in our Annual Report for the year ended December 31, 2015 filed with the SEC on February 9, 2016. These factors include, but are not limited to, the following:

- risks that our tenants will not pay rent, may vacate early or may file for bankruptcy or that we may be unable to renew leases or re-let space at favorable rents as leases expire;
- risks that we may not be able to proceed with or obtain necessary approvals for any redevelopment or renovation project, and that completion of anticipated or ongoing property redevelopment or renovation projects that we do pursue may cost more, take more time to complete or fail to perform as expected;
- risk that we are investing a significant amount in ground-up development projects that may be dependent on third parties to deliver critical aspects of certain projects, requires spending a substantial amount upfront in infrastructure, and assumes receipt of public funding which has been committed but not entirely funded;
- risks normally associated with the real estate industry, including risks that:
 - occupancy levels at our properties and the amount of rent that we receive from our properties may be lower than expected,

Table of Contents

new acquisitions may fail to perform as expected,
competition for acquisitions could result in increased prices for acquisitions,
that costs associated with the periodic maintenance and repair or renovation of space, insurance and other operations may increase,
environmental issues may develop at our properties and result in unanticipated costs, and
because real estate is illiquid, we may not be able to sell properties when appropriate;
risks that our growth will be limited if we cannot obtain additional capital;
risks associated with general economic conditions, including local economic conditions in our geographic markets;
risks of financing, such as our ability to consummate additional financings or obtain replacement financing on terms which are acceptable to us, our ability to meet existing financial covenants and the limitations imposed on our operations by those covenants, and the possibility of increases in interest rates that would result in increased interest expense; and
risks related to our status as a real estate investment trust, commonly referred to as a REIT, for federal income tax purposes, such as the existence of complex tax regulations relating to our status as a REIT, the effect of future changes in REIT requirements as a result of new legislation, and the adverse consequences of the failure to qualify as a REIT.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Under the terms of various partnership agreements of certain of our affiliated limited partnerships, the interest of limited partners in those limited partnerships may be redeemed, subject to certain conditions, for cash or an equivalent number of common shares, at our option. During the three months ended September 30, 2016, we redeemed 4,968 downREIT operating partnership units for common shares.

From time to time, we could be deemed to have repurchased shares as a result of shares withheld for tax purposes upon a stock compensation related vesting event.
