**Item 2.02. Results of Operations and Financial Condition.**

On September 21, 2004, Biomet, Inc. issued a press release announcing its corrected earnings for the first quarter ended August 31, 2004. The Company is reporting these corrected first quarter results to eliminate the tax effect on the purchased in-process research and development in relation to its Interpore International, Inc. acquisition. In the previous press release dated August 17, 2004, the Company tax effected the write off of in-process research and development. According to EITF 96-7, in-process research and development is written off prior to the measurement of deferred taxes in a purchase business combination. The effect of this change is to increase book tax expense for the quarter, which reduces net income by \$9,055,000 and reduces goodwill recorded in connection with this transaction for the same amount. The "As Adjusted" quarterly results disclosed in the previous press release have not changed.

A copy of the press release is being furnished as Exhibit 99.1 to this report and is incorporated herein by reference.

The information, including Exhibit 99.1, in this Form 8-K is being furnished and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that Section. The information in this Form 8-K shall not be incorporated by reference into any filing under the Securities Act of 1933, except as shall otherwise be expressly set forth by specific reference in such filing.

**Item 9.01. Financial Statement and Exhibits.**
