FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. All statements other than those that are purely historical are forward-looking statements. Words such as “expect,” “anticipate,” “believe,” “estimate,” “intend,” “plan,” “project,” and similar expressions also identify forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the following:

- the impact of the adoption of new accounting standards;
- recognition of unrealized gains and losses from designated cash flow hedges into net income;
- the impact of the potential settlement of outstanding tax matters and the closing of audits;
- the impact of losses due to indemnification obligations;
- the outcome of proceedings, lawsuits, disputes, and claims;
- continuing investment in our mobile digital capabilities;
- further enhancing our shopping experience for our customers;
- total store closures in fiscal 2016, including winding down Old Navy operations in Japan and closure of select Banana Republic stores, primarily internationally;
- impact of store closures and streamlining measures, including annualized savings, lost sales, and restructuring costs;
 - the impact of foreign exchange rate fluctuations on our financial results;
- current cash balances and cash flows being sufficient to support our business operations, including growth initiatives and planned capital expenditures;
- ability to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility or other available market instruments;
- the impact of the seasonality of our operations;
- dividend payments in fiscal 2016; and
- the impact of changes in internal control over financial reporting.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, without limitation, the following:

- the risk that adoption of new accounting pronouncements will impact future results;
- the risk that we or our franchisees will be unsuccessful in gauging apparel trends and changing consumer preferences;
- the risk that changes in global economic conditions or consumer spending patterns could adversely impact our results of operations;
- the highly competitive nature of our business in the United States and internationally;
- the risk that if we are unable to manage our inventory effectively, our gross margins will be adversely affected;
- the risk that the failure to attract and retain key personnel, or effectively manage succession, could have an adverse impact on our results of operations;
- the risk that we are subject to data or other security breaches that may result in increased costs, violations of law, significant legal and financial exposure, and a loss of confidence in our security measures, which could have an adverse effect on our results of operations and our reputation;
- the risks to our efforts to expand internationally, including our ability to operate under a global brand structure and operating in regions where we have less experience;
 - the risk that foreign currency exchange rate fluctuations could adversely impact our financial results;
- the risks to our business, including our costs and supply chain, associated with global sourcing and manufacturing;
- the risks to our reputation or operations associated with importing merchandise from foreign countries, including failure of our vendors to adhere to our Code of Vendor Conduct;
- the risk that trade matters could increase the cost or reduce the supply of apparel available to us and adversely affect our business, financial condition, and results of operations;
-

the risk that our franchisees' operation of franchise stores is not directly within our control and could impair the value of our brands;

• the risk that we or our franchisees will be unsuccessful in identifying, negotiating, and securing new store locations and renewing, modifying, or terminating leases for existing store locations effectively;

• the risk that our investments in omni-channel shopping initiatives may not deliver the results we anticipate;

- the risk that comparable sales and margins will experience fluctuations;
 - the risk that changes in our credit profile or deterioration in market conditions may limit our access to the capital markets and adversely impact our financial results or our business initiatives;
 - the risk that updates or changes to our information technology (“IT”) systems may disrupt our operations;
 - the risk that failure to maintain, enhance, and protect our brand image could have an adverse effect on our results of operations;
 - the risk that natural disasters, public health crises, political crises, or other catastrophic events could adversely affect our operations and financial results, or those of our franchisees or vendors;
 - the risk that changes in the regulatory or administrative landscape could adversely affect our financial condition, strategies, and results of operations;
 - the risk that we do not repurchase some or all of the shares we anticipate purchasing pursuant to our repurchase program; and
 - the risk that we will not be successful in defending various proceedings, lawsuits, disputes, claims, and audits.
- Additional information regarding factors that could cause results to differ can be found in our Annual Report on Form 10-K for the fiscal year ended January 30, 2016 and our other filings with the U.S. Securities and Exchange Commission.
- Future economic and industry trends that could potentially impact net sales and profitability are difficult to predict. These forward-looking statements are based on information as of June 3, 2016, and we assume no obligation to publicly update or revise our forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.
- We suggest that this document be read in conjunction with Management’s Discussion and Analysis included in our Annual Report on Form 10-K for the fiscal year ended January 30, 2016.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The Condensed Consolidated Balance Sheets as of April 30, 2016 and May 2, 2015, the Condensed Consolidated Statements of Income, the Condensed Consolidated Statements of Comprehensive Income, and the Condensed Consolidated Statements of Cash Flows for the thirteen weeks ended April 30, 2016 and May 2, 2015 have been prepared by The Gap, Inc. (the “Company,” “we,” and “our”). In the opinion of management, such statements include all adjustments (which include normal recurring adjustments) considered necessary to present fairly our financial position, results of operations, and cash flows as of April 30, 2016 and May 2, 2015 and for all periods presented. The Condensed Consolidated Balance Sheet as of January 30, 2016 has been derived from our audited financial statements.

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and disclosures normally included in the notes to the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been omitted from these interim financial statements, although the Company believes that the disclosures made are adequate to make the information not misleading. We suggest that you read these Condensed Consolidated Financial Statements in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended January 30, 2016.

The results of operations for the thirteen weeks ended April 30, 2016 are not necessarily indicative of the operating results that may be expected for the 52-week period ending January 28, 2017.

Subsequent Event

On May 19, 2016, the Company announced measures to better align talent and financial resources against its most important priorities; these measures are (i) a focus on geographies with the greatest potential and (ii) a streamlining of the Company’s operating model. The measures will result in the closure of its fleet of 53 Old Navy stores in Japan, the closure of select Banana Republic stores, primarily internationally, and the creation of a more efficient global brand structure. Including the Old Navy closures in Japan, the Company expects to close about 75 stores in total related to these measures in fiscal 2016.

The Company expects to recognize pre-tax restructuring costs in fiscal 2016 of about \$300 million, about \$100 million of which is non-cash, from these measures. The Company expects that the charges will include long-term asset and lease-related costs, as well as employee-related costs and inventory impairment.

Note 2. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued an accounting standards update (“ASU”) No. 2014-09, Revenue from Contracts with Customers, to clarify the principles of recognizing revenue and create common revenue recognition guidance between U.S. GAAP and International Financial Reporting Standards. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers, Deferral of the Effective Date, which defers the effective date of the new revenue recognition standard by one year. As a result, the ASU No. 2014-09 is effective retrospectively for fiscal years and interim periods within those years beginning after December 15, 2017.

In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers: Principal versus Agent Considerations, which is intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing, which clarifies the identification of performance obligations and the licensing implementation guidance. In May 2016, the FASB issued ASU No. 2016-11, Revenue Recognition and Derivatives and Hedging: Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 Emerging Issues Task Force Meeting (“EITF”), which rescinds SEC paragraphs pursuant to SEC staff announcements. These rescissions include changes to

topics pertaining to accounting for shipping and handling fees and costs and accounting for consideration given by a vendor to a customer. In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers: Narrow-Scope Improvements and Practical Expedients, which provides clarifying guidance in certain narrow areas and add some practical expedients. The effective dates for these ASU's are the same as the effective date for ASU No. 2014-09. We are currently assessing the potential impact of these ASU's on our Condensed Consolidated Financial Statements.

In November 2015, the FASB issued ASU No. 2015-17, Income Taxes, which changes how deferred taxes are classified on the balance sheet. The ASU eliminates the requirement for organizations to present deferred tax liabilities and assets as current and noncurrent in a classified balance sheet. Instead, organizations will be required to classify all deferred tax assets and liabilities as noncurrent. The ASU is effective for fiscal years and interim periods within those years beginning after December 15, 2016. Early adoption is permitted under this ASU. We adopted ASU No. 2015-17 prospectively effective January 30, 2016, which resulted in a reclassification of our net current deferred tax assets to the net noncurrent deferred tax assets in our Consolidated Balance Sheet. No prior periods were retrospectively adjusted.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. The new guidance is intended to improve the recognition and measurement of financial instruments. The ASU is effective for fiscal years and interim periods within those years beginning after December 15, 2017. We are currently assessing the potential impact of this ASU on our Condensed Consolidated Financial Statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases. Under the new guidance, lessees will be required to recognize a lease liability and a right-of-use asset for all leases (with the exception of short-term leases) at the commencement date. The ASU is effective for fiscal years and interim periods within those years beginning after December 15, 2018. We are currently assessing the impact of this ASU on our Condensed Consolidated Financial Statements, but expect that it will result in a significant increase in our long-term assets and liabilities.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation: Improvements to Employee Share-Based Payment Accounting. The amendments are intended to improve the accounting for employee share-based payments and affect all organizations that issue share-based payment awards to their employees. The ASU is effective for fiscal years and interim periods within those years beginning after December 15, 2016. We are currently assessing the potential impact of this ASU on our Condensed Consolidated Financial Statements.

Note 3. Debt and Credit Facilities

Long-term debt consists of the following:

(\$ in millions)	April 30, 2016	January 30, 2016	May 2, 2015
Notes	\$ 1,248	\$ 1,248	\$ 1,247
Japan Term Loan	94	83	105
Total long-term debt	1,342	1,331	1,352
Less: Current portion	(24)	(21)	(21)
Total long-term debt, less current portion	\$ 1,318	\$ 1,310	\$ 1,331

As of April 30, 2016, January 30, 2016, and May 2, 2015, the estimated fair value of our \$1.25 billion aggregate principal amount of 5.95 percent notes (the "Notes") due April 2021 was \$1.33 billion, \$1.29 billion, and \$1.43 billion, respectively, and was based on the quoted market price of the Notes (level 1 inputs) as of the last business day of the respective fiscal quarter. The aggregate principal amount of the Notes is recorded in long-term debt in the Condensed Consolidated Balance Sheets, net of the unamortized discount.

As of April 30, 2016, January 30, 2016, and May 2, 2015, the carrying amount of our 15 billion Japanese yen, four-year, unsecured term loan ("Japan Term Loan") approximated its fair value, as the interest rate varies depending on quoted market rates (level 1 inputs). Repayments of 2.5 billion Japanese yen (\$24 million as of April 30, 2016) are payable on January 15 of each year, and commenced on January 15, 2015, with a final repayment of 7.5 billion Japanese yen (\$70 million as of April 30, 2016) due on January 15, 2018. Interest is payable at least quarterly based on an interest rate equal to the Tokyo Interbank Offered Rate plus a fixed margin.

In October 2015, we entered into a \$400 million unsecured term loan (the "Term Loan"). The Term Loan matures and is payable in full on October 15, 2016, but may be extended until October 15, 2017. As of April 30, 2016, the carrying amount of our \$400 million Term Loan approximated its fair value due to the short-term nature of the loan. Interest is payable at least quarterly based on an interest rate equal to the London Interbank Offered Rate plus a fixed margin. The Term Loan is included in current maturities of debt in the Condensed Consolidated Balance Sheet.

We have a \$500 million, five-year, unsecured revolving credit facility (the “Facility”), which is scheduled to expire in May 2020. There were no borrowings and no material outstanding standby letters of credit under the Facility as of April 30, 2016.

We maintain multiple agreements with third parties that make unsecured revolving credit facilities available for our operations in foreign locations (the “Foreign Facilities”). These Foreign Facilities are uncommitted and are generally available for borrowings, overdraft borrowings, and the issuance of bank guarantees. The total capacity of the Foreign Facilities was \$48 million as of April 30, 2016. As of April 30, 2016, there were no borrowings under the Foreign Facilities. There were \$13 million in bank guarantees issued and outstanding primarily related to store leases under the Foreign Facilities as of April 30, 2016.

We have bilateral unsecured standby letter of credit agreements that are uncommitted and do not have expiration dates. As of April 30, 2016, we had \$18 million in standby letters of credit issued under these agreements. We also have a \$50 million, two-year, unsecured committed letter of credit agreement, which expires in September 2016. We had no trade letters of credit issued under this letter of credit agreement as of April 30, 2016.

Note 4. Fair Value Measurements

There were no purchases, sales, issuances, or settlements related to recurring level 3 measurements during the thirteen weeks ended April 30, 2016 or May 2, 2015. There were no transfers of financial assets or liabilities into or out of level 1 and level 2 during the thirteen weeks ended April 30, 2016 or May 2, 2015.

We have highly liquid investments classified as cash equivalents, which are placed primarily in time deposits, money market funds, and commercial paper. These investments are classified as held-to-maturity based on our positive intent and ability to hold the securities to maturity. We value these investments at their original purchase prices plus interest that has accrued at the stated rate.

Derivative financial instruments primarily include foreign exchange forward contracts. The currencies hedged against changes in the U.S. dollar are Japanese yen, Canadian dollars, British pounds, Euro, Mexican pesos, Chinese yuan, and Taiwan dollars. The fair value of the Company's derivative financial instruments is determined using pricing models based on current market rates. Derivative financial instruments in an asset position are recorded in other current assets or other long-term assets in the Condensed Consolidated Balance Sheets. Derivative financial instruments in a liability position are recorded in accrued expenses and other current liabilities or lease incentives and other long-term liabilities in the Condensed Consolidated Balance Sheets.

We maintain the Gap Inc. Deferred Compensation Plan ("DCP"), which allows eligible employees and non-employee directors to defer compensation up to a maximum amount. Plan investments are recorded at market value and are designated for the DCP. The fair value of the Company's DCP assets is determined based on quoted market prices, and the assets are recorded in other long-term assets in the Condensed Consolidated Balance Sheets.

Nonfinancial Assets

We review the carrying amount of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We review the carrying amount of goodwill and other indefinite-lived intangible assets for impairment annually and whenever events or changes in circumstances indicate that it is more likely than not that the carrying amount may not be recoverable.

There were no material impairment charges recorded for goodwill, other indefinite-lived intangible assets, or other long-lived assets for the thirteen weeks ended April 30, 2016 or May 2, 2015.

Note 5. Derivative Financial Instruments

We operate in foreign countries, which exposes us to market risk associated with foreign currency exchange rate fluctuations. We use derivative financial instruments to manage our exposure to foreign currency exchange rate risk and do not enter into derivative financial contracts for trading purposes. Consistent with our risk management guidelines, we hedge a portion of our transactions related to merchandise purchases for foreign operations and certain intercompany transactions using foreign exchange forward contracts. These contracts are entered into with large, reputable financial institutions that are monitored for counterparty risk. The currencies hedged against changes in the U.S. dollar are Japanese yen, Canadian dollars, British pounds, Euro, Mexican pesos, Chinese yuan, and Taiwan dollars. Cash flows from derivative financial instruments are classified as cash flows from operating activities in the Condensed Consolidated Statements of Cash Flows.

Cash Flow Hedges

We designate the following foreign exchange forward contracts as cash flow hedges: (1) forward contracts used to hedge forecasted merchandise purchases and related costs denominated in U.S. dollars made by our international subsidiaries whose functional currencies are their local currencies; (2) forward contracts used to hedge forecasted intercompany royalty payments denominated in foreign currencies received by entities whose functional currencies are U.S. dollars; and (3) forward contracts used to hedge forecasted intercompany revenue transactions related to merchandise sold from our regional purchasing entities, whose functional currency is the U.S. dollar, to certain international subsidiaries in their local currencies. The foreign exchange forward contracts entered into to hedge forecasted merchandise purchases and related costs, intercompany royalty payments, and intercompany revenue transactions generally have terms of up to 24 months.

There were no material amounts recorded in the Condensed Consolidated Statements of Income for the thirteen weeks ended April 30, 2016 or May 2, 2015 as a result of our analysis of hedge ineffectiveness, hedge components excluded from the assessment of effectiveness, or the discontinuance of cash flow hedges because the forecasted transactions were no longer probable.

Net Investment Hedges

We also use foreign exchange forward contracts to hedge the net assets of international subsidiaries to offset the foreign currency translation and economic exposures related to our investment in the subsidiaries.

There were no material amounts recorded in the Condensed Consolidated Statements of Income for the thirteen weeks ended April 30, 2016 or May 2, 2015 as a result of our analysis of hedge ineffectiveness, hedge components excluded from the assessment of effectiveness, or the discontinuance of net investment hedges.

Other Derivatives Not Designated as Hedging Instruments

We enter into foreign exchange forward contracts to hedge our market risk exposure associated with foreign currency exchange rate fluctuations for certain intercompany balances denominated in currencies other than the functional currency of the entity with the intercompany balance. The gain or loss on the derivative financial instruments that represent economic hedges, as well as the remeasurement impact of the underlying intercompany balances, is recorded in operating expenses in the Condensed Consolidated Statements of Income in the same period and generally offset.

Outstanding Notional Amounts

We had foreign exchange forward contracts outstanding in the following notional amounts:

The majority of the unrealized gains and losses from designated cash flow hedges as of April 30, 2016 will be recognized in income within the next 12 months at the then-current values, which may differ from the fair values as of April 30, 2016 shown above.

Our foreign exchange forward contracts are subject to master netting arrangements with each of our counterparties and such arrangements are enforceable in the event of default or early termination of the contract. We do not elect to offset the fair values of our derivative financial instruments in the Condensed Consolidated Balance Sheets, and as such, the fair values shown above represent gross amounts. The amounts subject to enforceable master netting arrangements are \$9 million, \$2 million, and \$11 million as of April 30, 2016, January 30, 2016, and May 2, 2015, respectively. If we

did elect to offset, the net amounts of our derivative financial instruments in an asset position would be \$9 million, \$91 million, and \$107 million and the net amounts of the derivative financial instruments in a liability position would be \$76 million, \$1 million, and \$2 million as of April 30, 2016, January 30, 2016 and May 2, 2015, respectively.

See Note 4 of Notes to Condensed Consolidated Financial Statements for disclosures on the fair value measurements of our derivative financial instruments.

The effective portion of gains and losses on foreign exchange forward contracts in cash flow hedging and net investment hedging relationships recorded in other comprehensive income and the Condensed Consolidated Statements of Income, on a pre-tax basis, are as follows:

(\$ in millions)	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Derivatives in cash flow hedging relationships:

Loss recognized in operating expenses	\$(27)	\$ —

Note 6. Share Repurchases

Share repurchase activity is as follows:

(\$ and shares in millions except average per share cost)	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Number of shares repurchased	—	5.6
Total cost	\$—	\$230
Average per share cost including commissions	\$—	\$41.01

In October 2014, we announced that the Board of Directors approved a \$500 million share repurchase authorization, all of which was completed by the end of May 2015. In February 2015, we announced that the Board of Directors approved a \$1.0 billion share repurchase authorization (the "February 2015 repurchase program"). In February 2016, we announced that the Board of Directors approved a new \$1.0 billion share repurchase authorization (the "February 2016 repurchase program"). The February 2015 repurchase program, which had \$302 million remaining, was superseded and replaced by the February 2016 repurchase program. The February 2016 repurchase program still had \$1.0 billion remaining as of April 30, 2016, as there were no shares repurchased during the thirteen weeks ended April 30, 2016.

All except \$13 million of the total share repurchases were paid for as of May 2, 2015. All of the share repurchases were paid for as of January 30, 2016. All common stock repurchased is immediately retired.

Note 7. Share-Based Compensation

Share-based compensation expense recognized in the Condensed Consolidated Statements of Income, primarily in operating expenses, is as follows:

See Note 5 of Notes to Condensed Consolidated Financial Statements for additional disclosures about reclassifications out of accumulated other comprehensive income and their corresponding effects on the respective line items in the Condensed Consolidated Statements of Income.

Note 9. Income Taxes

The Company conducts business globally, and as a result, files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as the United States, Canada, France, the United Kingdom, China, Hong Kong, Japan, and India. We are no longer subject to U.S. federal income tax examinations for fiscal years before 2009, and with few exceptions, we are also no longer subject to U.S. state, local, or non-U.S. income tax examinations for fiscal years before 2008.

The Company engages in continual discussions with taxing authorities regarding tax matters in the various U.S. and foreign jurisdictions in the normal course of business. As of April 30, 2016, it is reasonably possible that we will recognize a decrease in gross unrecognized tax benefits within the next 12 months of up to \$3 million, primarily due

to the closing of audits. If we do recognize such a decrease, the net impact on the Condensed Consolidated Statement of Income would not be material.

Note 10. Earnings Per Share

Weighted-average number of shares used for earnings per share is as follows:

	13 Weeks
	Ended
(shares in millions)	April 30, 2016
	May 2, 2015
Weighted-average number of shares - basic	398 421
Common stock equivalents	1 3
Weighted-average number of shares - diluted	399 424

The above computations of weighted-average number of shares – diluted exclude 7 million and 2 million shares related to stock options and other stock awards for the thirteen weeks ended April 30, 2016 and May 2, 2015, respectively, as their inclusion would have an anti-dilutive effect on earnings per share.

Note 11. Commitments and Contingencies

We are a party to a variety of contractual agreements under which we may be obligated to indemnify the other party for certain matters. These contracts primarily relate to our commercial contracts, operating leases, trademarks, intellectual property, financial agreements, and various other agreements. Under these contracts, we may provide certain routine indemnifications relating to representations and warranties (e.g., ownership of assets, environmental or tax indemnifications) or personal injury matters. The terms of these indemnifications range in duration and may not be explicitly defined. Generally, the maximum obligation under such indemnifications is not explicitly stated, and as a result, the overall amount of these obligations cannot be reasonably estimated. Historically, we have not made significant payments for these indemnifications. We believe that if we were to incur a loss in any of these matters, the loss would not have a material effect on our Condensed Consolidated Financial Statements taken as a whole. As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims (“Actions”) arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. As of April 30, 2016, Actions filed against us included commercial, intellectual property, customer, employment, and data privacy claims, including class action lawsuits. The plaintiffs in some Actions seek unspecified damages or injunctive relief, or both. Actions are in various procedural stages and some are covered in part by insurance. As of April 30, 2016, January 30, 2016, and May 2, 2015, we recorded a liability for an estimated loss if the outcome of an Action is expected to result in a loss that is considered probable and reasonably estimable. The liability recorded as of April 30, 2016, January 30, 2016, and May 2, 2015 was not material for any individual Action or in total. Subsequent to April 30, 2016 and through the filing date of this Quarterly Report on Form 10-Q, no information has become available that indicates a change is required that would be material to our Condensed Consolidated Financial Statements taken as a whole.

We cannot predict with assurance the outcome of Actions brought against us. Accordingly, developments, settlements, or resolutions may occur and impact income in the quarter of such development, settlement, or resolution. However, we do not believe that the outcome of any current Action would have a material effect on our Condensed Consolidated Financial Statements taken as a whole.

Note 12. Segment Information

The Gap, Inc. is a global retailer that sells apparel, accessories, and personal care products under the Gap, Old Navy, Banana Republic, Athleta, and Intermix brands. We identify our operating segments according to how our business activities are managed and evaluated. As of April 30, 2016, our operating segments included Gap Global, Old Navy Global, Banana Republic Global, Athleta, and Intermix. The operating results for the thirteen weeks ended May 2, 2015 also include Piperlime, which was discontinued as of the first quarter of fiscal 2015. We have determined that each of our operating segments share similar economic and other qualitative characteristics, and therefore the results of our operating segments are aggregated into one reportable segment as of April 30, 2016.

Net sales by brand and region are as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

OUR BUSINESS

We are a global retailer offering apparel, accessories, and personal care products for men, women, and children under the Gap, Old Navy, Banana Republic, Athleta, and Intermix brands. We have Company-operated stores in the United States, Canada, the United Kingdom, France, Ireland, Japan, Italy, China, Hong Kong, Taiwan, and beginning in October 2015, Mexico. Our products are also available to customers online through Company-owned websites and through the use of third parties that provide logistics and fulfillment services. We have franchise agreements with unaffiliated franchisees to operate Gap, Banana Republic, and Old Navy stores throughout Asia, Australia, Europe, Latin America, the Middle East, and Africa. Under these agreements, third parties operate, or will operate, stores that sell apparel and related products under our brand names. In addition to operating in the specialty, outlet, online, and franchise channels, we also use our omni-channel capabilities to bridge the digital world and physical stores to further enhance our shopping experience for our customers. Our omni-channel services, including order-in-store, reserve-in-store, find-in-store, and ship-from-store, as well as enhanced mobile experiences, are tailored uniquely across our portfolio of brands. Most of the products sold under our brand names are designed by us and manufactured by independent sources. We also sell products that are designed and manufactured by branded third parties, primarily at our Intermix brand.

OVERVIEW

In fiscal 2016, our objective is to improve sales performance through a more consistent, on-trend product offering and a compelling customer experience in stores and online. To enable this, we have several product and supply chain initiatives underway. Further, we expect to continue our investment in our mobile digital capabilities to enhance our shopping experience for our customers.

Trends in the apparel retail environment have been challenging, and the change in our business trajectory is not happening at the desired pace. On May 19, 2016, we announced measures to better align talent and financial resources against our most important priorities to position the Company for improved business performance and long-term success.

Our aim is to recapture market share in North America, where we have our largest and home market structural advantages, and to focus on international regions with the greatest potential. As part of this effort, Old Navy will wind down its operations in Japan, resulting in the closure of its fleet of 53 stores. The brand's near-term growth ambitions will be anchored in North America, including its most recent debut of Company-operated stores in Mexico, as well as China and its global franchise operations. Japan remains an important market for the Company's portfolio, with a continued strong presence of more than 200 Gap and Banana Republic stores. Additionally, the Company expects to close select dilutive Banana Republic stores, primarily internationally. Including the Old Navy closures in Japan, the Company expects to close about 75 stores in total related to these measures in fiscal 2016.

We also intend to create a more efficient operating model, enabling us to more fully leverage our scale.

The Company estimates that the store closures and the changes to the operating model will result in annualized pre-tax savings of about \$275 million. The Company estimates an annualized sales loss of about \$250 million associated with the store closures and expects to recognize pre-tax restructuring costs in fiscal 2016 of about \$300 million, about \$100 million of which is non-cash, from the store closures and operating model changes. The Company expects that the charges will include long-term asset and lease-related costs, as well as employee-related costs and inventory impairment.

Financial results for the first quarter of fiscal 2016 are as follows:

Net sales for the first quarter of fiscal 2016 decreased 6 percent compared with the first quarter of fiscal 2015.

Comparable sales for the first quarter of fiscal 2016 decreased 5 percent compared with a 4 percent decrease for the first quarter of fiscal 2015.

- Operating margin for the first quarter of fiscal 2016 was 6.5 percent compared with 10.6 percent for the first quarter of fiscal 2015. Operating margin is defined as operating income as a percentage of net sales.

Net income for the first quarter of fiscal 2016 was \$127 million compared with \$239 million for the first quarter of fiscal 2015, and diluted earnings per share was \$0.32 for the first quarter of fiscal 2016 compared with \$0.56 for the

first quarter of fiscal 2015.

During the first quarter of fiscal 2016, we distributed \$91 million to shareholders through dividends.

We expect that foreign exchange rate fluctuations will continue to have a meaningful negative impact on our results in fiscal 2016, primarily in gross margin. Our merchandise purchases are primarily in U.S. dollars, which can have a negative impact on gross margins for our largest foreign subsidiaries.

Fiscal 2015 results were impacted by a series of strategic actions to position Gap brand for improved business performance in the future, including right-sizing the Gap brand store fleet primarily in North America, streamlining the brand's headquarter workforce, and developing a clear, on-brand product aesthetic framework to strengthen the Gap brand to compete more successfully on the global stage. During fiscal 2015, the Company completed the closure of about 150 Gap global specialty stores related to the strategic actions.

The Company also incurred certain charges during fiscal 2015, primarily in the second quarter, in connection with the strategic actions, primarily consisting of impairment of store assets, lease termination fees and lease losses, employee related expenses, and impairment of inventory that did not meet brand standards.

RESULTS OF OPERATIONS

Net Sales

See Note 12 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 in this Form 10-Q, for net sales by brand and region.

Comparable Sales

The percentage change in comparable ("Comp") sales by global brand and for total Company, as compared with the preceding year, is as follows:

	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Gap Global	(3)%	(10)%
Old Navy Global	(6)%	3 %
Banana Republic Global	(11)%	(8)%
The Gap, Inc.	(5)%	(4)%

Comp sales include the results of Company-operated stores and sales through online channels in those countries where we have existing Comp store sales. The calculation of total Company Comp sales includes the results of Athleta and Intermix but excludes the results of our franchise business.

A store is included in the Comp sales calculations when it has been open and operated by the Company for at least one year and the selling square footage has not changed by 15 percent or more within the past year. A store is included in the Comp sales calculations on the first day it has comparable prior year sales. Stores in which the selling square footage has changed by 15 percent or more as a result of a remodel, expansion, or reduction are excluded from the Comp sales calculations until the first day they have comparable prior year sales.

A store is considered non-comparable ("Non-comp") when it has been open and operated by the Company for less than one year or has changed its selling square footage by 15 percent or more within the past year.

A store is considered "Closed" if it is temporarily closed for three or more full consecutive days or it is permanently closed. When a temporarily closed store reopens, the store will be placed in the Comp/Non-comp status it was in prior to its closure. If a store was in Closed status for three or more days in the prior year, the store will be in Non-comp status for the same days the following year.

Current year foreign exchange rates are applied to both current year and prior year Comp sales to achieve a consistent basis for comparison.

Store Count and Square Footage Information

Net sales per average square foot is as follows:

Net Sales

Our net sales for the first quarter of fiscal 2016 decreased \$219 million, or 6 percent, compared with the first quarter of fiscal 2015 driven by a decrease in net sales at Gap, Old Navy, and Banana Republic, primarily in the United States, as well as an unfavorable impact of foreign exchange of \$21 million. The unfavorable impact of foreign exchange was primarily due to the weakening of the Canadian dollar and British pound against the U.S. dollar. The

foreign exchange impact is the translation impact if net sales for the first quarter of fiscal 2015 were translated at exchange rates applicable during the first quarter of fiscal 2016.

Cost of Goods Sold and Occupancy Expenses

(\$ in millions)	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Cost of goods sold and occupancy expenses	\$2,229	\$2,275
Gross profit	\$1,209	\$1,382
Cost of goods sold and occupancy expenses as a percentage of net sales	64.8 %	62.2 %
Gross margin	35.2 %	37.8 %

Cost of goods sold and occupancy expenses increased 2.6 percentage points in the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015.

Cost of goods sold increased 1.7 percent as a percentage of net sales in the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015 primarily driven by increased markdown activities at Old Navy and Banana Republic.

Occupancy expenses increased 0.9 percentage points in the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015, primarily driven by the decrease in net sales without a corresponding decrease in occupancy expenses.

Operating Expenses

(\$ in millions)	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Operating expenses	\$987	\$996
Operating expenses as a percentage of net sales	28.7 %	27.2 %
Operating margin	6.5 %	10.6 %

Operating expenses decreased \$9 million, but increased 1.5 percent as a percentage of net sales, in the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015. The decrease in operating expenses was primarily due to an increase in income related to our credit card program agreement.

Interest Expense

(\$ in millions)	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Interest expense	\$ 19	\$ 5

Interest expense for the first quarter of fiscal 2016 primarily consists of interest on overall borrowings and obligations mainly related to our \$1.25 billion 5.95 percent Notes.

Interest expense for the first quarter of fiscal 2015 includes \$19 million of interest on overall borrowings and other obligations mainly related to our \$1.25 billion 5.95 percent Notes, partially offset by a reversal of approximately \$14 million of tax-related interest expense primarily resulting from a favorable foreign tax ruling and actions of foreign tax authorities related to transfer pricing matters.

Income Taxes

(\$ in millions)	13 Weeks Ended	
	April 30, 2016	May 2, 2015
Income taxes	\$77	\$143
Effective tax rate	37.7%	37.4 %

The increase in the effective tax rate for the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015 was primarily due to changes in the mix of pre-tax income between our domestic and international operations.

LIQUIDITY AND CAPITAL RESOURCES

Our largest source of cash flows is cash collections from the sale of our merchandise. Our primary uses of cash include merchandise inventory purchases, occupancy costs, personnel-related expenses, purchases of property and equipment, payment of taxes, dividends, and share repurchases. As of April 30, 2016, cash and cash equivalents were \$1.3 billion. As of April 30, 2016, over half of our cash and cash equivalents were held in the United States and are generally accessible without any limitations.

17

We believe that current cash balances and cash flows from our operations will be sufficient to support our business operations, including growth initiatives and planned capital expenditures, for the next 12 months and beyond. We are also able to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility or other available market instruments.

Cash Flows from Operating Activities

Net cash provided by operating activities during the first quarter of fiscal 2016 decreased \$43 million compared with the first quarter of fiscal 2015, primarily due to the following:

- a decrease of \$112 million in net income; partially offset by

- an increase of \$64 million related to merchandise inventory, primarily due to the volume and timing of receipts.

We fund inventory expenditures during normal and peak periods through cash flows from operating activities and available cash. Our business follows a seasonal pattern, with sales peaking during the end-of-year holiday period. The seasonality of our operations may lead to significant fluctuations in certain asset and liability accounts between fiscal year-end and subsequent interim periods.

Cash Flows from Investing Activities

Net cash used for investing activities during the first quarter of fiscal 2016 decreased \$10 million compared with the first quarter of fiscal 2015, primarily due to \$11 million less property and equipment purchases.

Cash Flows from Financing Activities

Net cash used for financing activities during the first quarter of fiscal 2016 decreased \$246 million compared with the first quarter of fiscal 2015, primarily due to the following:

- No repurchases of common stock in the first quarter of fiscal 2016 compared with \$232 million cash outflows related to repurchases of common stock in the first quarter of fiscal 2015; and

- \$24 million less net cash outflows related to issuances under share-based compensation plans and withholding tax payments related to vesting of stock units.

Free Cash Flow

Free cash flow is a non-GAAP financial measure. We believe free cash flow is an important metric because it represents a measure of how much cash a company has available for discretionary and non-discretionary items after the deduction of capital expenditures, as we require regular capital expenditures to build and maintain stores and purchase new equipment to improve our business. We use this metric internally, as we believe our sustained ability to generate free cash flow is an important driver of value creation. However, this non-GAAP financial measure is not intended to supersede or replace our GAAP results.

The following table reconciles free cash flow, a non-GAAP financial measure, from a GAAP financial measure.

	13 Weeks Ended	
(\$ in millions)	April 30, 2016	May 2, 2015
Net cash provided by operating activities	\$ 168	\$ 211
Less: Purchases of property and equipment	(139)	(150)
Free cash flow	\$ 29	\$ 61

Debt and Credit Facilities

Certain financial information about the Company's debt and credit facilities is set forth under the heading "Debt and Credit Facilities" in Note 3 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Dividend Policy

In determining whether and at what level to declare a dividend, we consider a number of factors including sustainability, operating performance, liquidity, and market conditions.

We paid a dividend of \$0.23 per share during both the first quarters of fiscal 2016 and fiscal 2015. Including the dividend paid during the first quarter of fiscal 2016, we intend to pay an annual dividend of \$0.92 per share for fiscal 2016, consistent with the annual dividend for fiscal 2015.

Share Repurchases

Certain financial information about the Company's share repurchases is set forth under the heading "Share Repurchases" in Note 6 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Summary Disclosures about Contractual Cash Obligations and Commercial Commitments

There have been no material changes to our contractual obligations and commercial commitments as disclosed in our Annual Report on Form 10-K as of January 30, 2016, other than those which occur in the normal course of business. See Note 11 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q, for disclosures on commitments and contingencies.

Critical Accounting Policies and Estimates

There have been no significant changes to our critical accounting policies and estimates as discussed in our Annual Report on Form 10-K for the fiscal year ended January 30, 2016.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our market risk profile as of April 30, 2016 has not significantly changed since January 30, 2016. Our market risk profile as of January 30, 2016 is disclosed in our Annual Report on Form 10-K. See Notes 3, 4, and 5 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1, of this Form 10-Q, for disclosures on our debt, investments, and derivative financial instruments.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's first quarter of fiscal 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. Actions filed against us from time to time include commercial, intellectual property, customer, employment, and data privacy claims, including class action lawsuits. The plaintiffs in some Actions seek unspecified damages or injunctive relief, or both. Actions are in various procedural stages, and some are covered in part by insurance.

We cannot predict with assurance the outcome of Actions brought against us. Accordingly, developments, settlements, or resolutions may occur and impact income in the quarter of such development, settlement, or resolution. However, we do not believe that the outcome of any current Action would have a material effect on our financial results.

Item 1A. Risk Factors.

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended January 30, 2016 except as follows:

Changes in our credit profile or deterioration in market conditions may limit our access to the capital markets and adversely impact our financial results or our business initiatives.

In April 2011, we issued \$1.25 billion aggregate principal amount of 5.95 percent notes due April 2021. As a result, we have additional costs that include interest payable semiannually on the notes. In January 2014, we also entered into a 15 billion Japanese yen, four-year, unsecured term loan due January 2018. In October 2015, we entered into a \$400 million unsecured term loan due October 2016, but that may be extended until October 2017.

Our cash flows from operations are the primary source of funds for these debt service payments. In this regard, we have generated annual cash flow from operating activities in excess of \$1 billion per year for well over a decade and ended the first quarter of fiscal 2016 with \$1.3 billion of cash and cash equivalents on our balance sheet. We are also able to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility. We continue to target a cash balance between \$1.0 billion to \$1.2 billion, which provides not only for our working capital needs, but also a reserve for unexpected business downturns. However, if our cash flows from operating activities decline significantly, we may be required to reprioritize our business initiatives to ensure that we can continue to service or refinance our debt with favorable rates and terms.

On May 11, 2016, Fitch Ratings downgraded their credit rating of us from BBB- negative outlook to BB+ stable outlook. On May 19, 2016, Standard & Poor's Rating Services downgraded their credit rating of us from BBB- negative outlook to BB+ stable outlook. These downgrades, and any future reduction in our long-term senior unsecured credit ratings, could result in reduced access to the credit and capital markets, more restrictive financial covenants in future financing documents and higher interest costs, and potentially increased lease or hedging costs. For further information on our debt and credit facilities, see Part II, Item 8, Financial Statements and Supplementary Data, Notes 4 and 5 of Notes to Consolidated Financial Statements of our Form 10-K for the fiscal year ended January 30, 2016, and "Debt and Credit Facilities" in Note 3 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents information with respect to purchases of common stock of the Company made during the thirteen weeks ended April 30, 2016 by The Gap, Inc. or any affiliated purchaser, as defined in Exchange Act Rule 10b-18(a)(3). There were no shares repurchased during the period.
