REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator of and Participants in
Lowe's 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of Lowe's 401(k) Plan (the "Plan") as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules listed in the Table of Contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2012 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

Lowe's 401(k) Plan
Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Lowe's 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and summary plan description for more complete descriptions of the Plan's provisions.

General - The Plan, adopted effective February 1, 1984, is a defined contribution plan covering substantially all employees of Lowe's Companies, Inc. and subsidiaries (the Plan Sponsor or the Company). An employee of the Plan Sponsor is eligible to participate in the Plan six months after the employee's original hire date. The Administrative Committee of Lowe's Companies, Inc. (the Administrative Committee), as appointed by the Board of Directors, controls the management and administration of the Plan. The Plan's trustee and recordkeeper is Wells Fargo Bank, N.A (Wells Fargo). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is a safe harbor-designed plan.

On June 30, 2012, the Board of Directors of Allied Trade Group, Inc. (ATG), a subsidiary of the Company, approved the resolution to merge the ATG 401(k) plan into the Plan. Effective July 2, 2012, all assets of the ATG 401(k) plan, totaling \$636,663, were transferred to the Plan. Participants in the former ATG 401(k) plan were fully vested on the merger date.

Contributions - Each year, participants may contribute from 1% to 50% of their pre-tax annual compensation, as defined by the Plan, subject to the Internal Revenue Code limitations. Eligible employees hired or rehired prior to November 1, 2012, were automatically enrolled as participants at a contribution rate of 1% of their pre-tax annual compensation unless they elected otherwise. Eligible employees hired or rehired November 1, 2012, or later must make an active election to participate in the Plan. Participants age 50 and older, or who reach age 50 during the Plan year, are eligible to contribute an additional pre-tax dollar amount per year in addition to the deferral contribution. For 2012, the maximum annual amount of catch up that could be contributed was \$5,500. The Company makes contributions to the Plan each payroll period, based upon a matching formula applied to employee deferrals (the Company Match). The Company Match formula is as follows: the first 3% of contributions are matched by the Plan Sponsor at the rate of 100%; the next 2% of contributions are matched at the rate of 50%; and the next 1% of contributions are matched at the rate of 25%. Participants are eligible to receive the Company Match pursuant to the terms of the Plan. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company Match, and an allocation of Plan earnings and charged with benefit payments and an allocation of Plan losses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account balance.

Vesting - All participants are 100% vested in the Plan at all times.

Investments - As of December 31, 2012, the 22 investment options to which participants could direct their contributions included Lowe's Companies, Inc. common stock, one stable value fund, 11 target retirement date funds (collective trusts), seven mutual funds consisting of two small-cap funds, one mid-cap fund, two large-cap funds, one intermediate-term bond fund, and one international fund, and two separate accounts which are privately managed investment accounts designed to mirror the performance of specific mutual funds. Excess cash is held in a

non-interest bearing cash account.

The plan's collective trust investments are designed to offer a diversified portfolio within a single fund that adjusts its underlying asset mix over time, decreasing exposure to equities and increasing exposure to bonds as each fund's target retirement date approaches. There are currently no redemption restrictions on these investments.

Payment of Benefits - Subsequent to termination of service, a participant with a vested account value of \$1,000 or less will receive a lump-sum distribution equal to the participant's vested account balance. If the vested account value is greater than \$1,000, a participant may elect to receive a lump-sum distribution equal to the participant's vested account balance. If the participant does not make such an election and the vested account value is \$5,000 or less, the Plan

performs a direct rollover to an individual retirement account designated by the participant or, if the participant has not designated an individual retirement account, to an individual retirement account designated by the Administrative Committee. If the vested account value is greater than \$5,000, the participant's vested account balance remains in the Plan and is not distributed without the participant's consent until the participant reaches age 62. The Plan allows for in-service withdrawals to participants under age 59½ only in cases of financial hardship. Such withdrawals must total at least \$1,000 and be approved by the Plan's recordkeeper or the Administrative Committee. Participants who have attained age 59½ are entitled to a one-time in-service withdrawal of their accumulated balances.

The Plan allows for a one-time in-service withdrawal to participants in the former Lowe's Companies Employee Stock Ownership Plan (the ESOP) who have attained 20 or more years of service with the Plan Sponsor. The ESOP was merged into the Plan effective September 13, 2002. Eligible participants may withdraw up to 50% of their former ESOP account balance by requesting a distribution through the Retirement Service Center. The distribution may be transferred to either an IRA or paid directly to the participant.

Plan Year - The Plan year is January 1 to December 31.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein. Actual results may differ from these estimates.

Risks and Uncertainties - The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Refer to Note 3 for additional details regarding the Plan's valuation methods.

The fully benefit-responsive stable value fund held at December 31, 2012, and the investment contract held at December 31, 2011, are stated at fair value and then adjusted to be presented on a contract value basis in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on an accrual basis. Dividends are accrued based on the ex-dividend date. Interest earned on the stable value fund held at December 31, 2012, and the investment contract held at December 31, 2011, is reinvested on a daily basis.

Investment management expenses charged to the Plan for investments in the mutual funds, separate accounts and collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment management expenses are reflected as a reduction of investment return for such investments.

Payments of Benefits - Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, were \$131,579 and \$974,667 at December 31, 2012, and 2011, respectively.

Administrative Expenses - As provided by the Plan document, administrative expenses (excluding certain investment management expenses) of the Plan are paid by the Plan Sponsor.

Excess Contributions Payable - The Plan is required to return contributions received during the Plan year in excess of the IRC limits. There were no excess contributions as of December 31, 2012, and December 31, 2011.

Note 3 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance for fair value measurements establishes a three-level hierarchy which encourages an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of the hierarchy are defined as follows:

- Level 1 – inputs to the valuation techniques that are quoted prices in active markets for identical assets or liabilities
- Level 2 – inputs to the valuation techniques that are other than quoted prices but are observable for the assets or liabilities, either directly or indirectly
- Level 3 – inputs to the valuation techniques that are unobservable for the assets or liabilities

The following tables present the Plan's participant-directed investments measured at fair value on a recurring basis as of December 31, 2012, and 2011, respectively:

	Fair Value Measurements at Reporting Date			
	December 31, 2012	Level 1	Level 2	Level 3

Total participant-directed investments at fair value	\$ 2,890,561,205	\$ 2,196,614,711	\$ 693,946,494	\$ -

(1) The balances included here represent the fair values of the underlying securities of the American Century Value Account and the T. Rowe Price Mid-Cap Value Account.

When available, quoted prices in active markets are used to determine fair value. When quoted prices in active markets are available, investments are classified within Level 1 of the fair value hierarchy. When quoted prices are not available, fair values are determined using pricing models, and the inputs to those pricing models are based on observable market inputs.

The Plan's investments in common stock are valued based upon the closing price reported on the recognized securities exchange on which the individual security is traded. The Plan's investments in mutual funds are valued at the quoted market prices, which represent the net asset values of shares held by the Plan. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission and are deemed to be actively traded. The Plan's investments in separate accounts are valued based on the fair value of the underlying investments. The underlying investments consist of marketable securities and were valued based upon the closing price reported on the recognized securities exchange on which the individual security is traded. The Plan's investments in the target retirement date funds were valued at the net asset value of units of a bank collective trust. Unit values are determined by the organization sponsoring such collective trusts by dividing the collective trusts' net assets at fair value by its units outstanding at each valuation date. These funds were valued using the quoted prices of the underlying securities, which represent the net asset value of shares held by the Plan. The stable value fund held at December 31, 2012, was valued at the net asset value of units of the collective trust. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. The fair value of the benefit-responsive investment contract held at December 31, 2011, was determined based on the Plan's ownership percentage applied to the value of the investment contract. The value of the contract was determined based on the fair value of the underlying assets owned under the investment contract, consisting primarily of fixed income securities. The fair values of the underlying securities were measured using closing sales prices reported on recognized securities exchanges, when such information was available. When quoted prices in active markets were not available, the fair values of the underlying securities were determined using pricing models and the inputs to those pricing models were based on observable market inputs such as interest rates and credit standing of the issuer or counter-party.

Edgar Filing: LOWES COMPANIES INC - Form 11-K

For the years ended December 31, 2012 and December 31, 2011, there were no significant transfers between Levels 1, 2 or 3.

Note 4 - Investments

The following table presents the fair value of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012, and 2011:

	December 31, 2012	December 31, 2011
Lowe's Companies, Inc. common stock (1)	\$ 1,851,440,502	\$ 1,511,480,089
Galliard Stable Value Fund	\$ 273,020,370	\$ -
Investment Contract - Metropolitan Life Insurance Company, #25066 (2)	\$ -	\$ 250,299,905
Mutual fund - T. Rowe Price Mid-Cap Growth Fund (2)	\$ -	\$ 150,369,540

(1) Represents a party-in-interest to the Plan. The Plan held 52,123,888 shares and 59,553,983 shares at December 31, 2012, and 2011, respectively.

(2) The Plan did not hold this investment at December 31, 2012. Balance presented for comparative purposes only.

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$731,639,280 as follows:

	December 31, 2012
Common stock	\$ 558,476,673
Mutual funds:	
Large-cap	24,312,463
Mid-cap	23,650,343
Small-cap	11,399,803
Intermediate bond	1,733,999
International	15,459,058
Separate accounts	31,721,715
Collective trusts:	
Target retirement date	64,885,226
Net appreciation in fair value of investments	\$ 731,639,280

Note 5 - Fully Benefit-Responsive Investments

Effective January 2012, the Plan terminated its investment contract with Metropolitan Life Insurance Company (MetLife) and transferred the existing balances to the Galliard Stable Value Fund (the Fund).

The Fund is a separate account sponsored by Galliard Capital Management Inc. (Galliard). The beneficial interest of each participant is represented by units, with each unit representing an equal undivided interest in the underlying assets. Unit values are calculated daily and reflect the investment experience of the assets on that day. All contributions, interest, dividend or other income is reinvested in the Fund on a daily basis. Participants ordinarily may direct either the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses.

The Fund is an investment option that seeks to provide safety of principal and a stable credited rate of interest, while generating competitive returns over time compared to other comparable investments. The Fund invests in assets which include investment grade fixed income securities or bond funds, and enters into wrap contracts issued by third parties. As of December 31, 2012 the Fund held five separate wrap contracts with insurance companies. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant net asset value and protect a portfolio in extreme circumstances.

The wrap contracts contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events which include: a substantive modification of the Fund or its administration; the complete or partial termination of the Plan or its merger with another plan; the transfer of assets from the Fund directly into a competing investment option; the redemption of all or a portion of the interest in the Fund due to the removal of a specifically identifiable group of employees from coverage under the participating plan, the closing or sale of a subsidiary, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

In the event the wrap contracts fail to perform as intended, the Fund's net asset value may decline if the market value of its assets declines. The Fund's ability to receive amounts due pursuant to these wrap contracts is dependent on the third-party issuer's ability to meet their financial obligations, which may be affected by future economic and regulatory

developments. The Fund is unlikely to maintain a stable net asset value if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets.

The wrap contracts are contractually obligated to pay the principal and a guaranteed interest rate for a specified period. Such interest rates are reviewed on a quarterly basis for resetting. The crediting interest rate is based on a formula agreed upon with the wrap contract providers, but may not be less than 0%. The crediting rate of the contract will track current market yields on a trailing basis. The average yield earned by the Fund at December 31, 2012 representing the annualized earnings of all

investments in the Fund divided by the period end fair value was 0.93%. The average yield earned by the Fund at December 31, 2012 representing the annualized earnings credited to participants in the Fund (the crediting rate), divided by the period end fair value of all investments in the Fund was 3.27%.

Both the Plan and the wrap providers have the right to cancel the wrap contracts under certain circumstances. The wrap contracts contain termination provisions, allowing the Fund or the wrap providers to terminate with notice, at any time at fair value, and provide for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The wrap providers are obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero. In addition, if the Fund defaults on its obligations under these wrap agreements, and such default is not corrected within the time permitted by these contracts, then the contracts may be terminated by the wrap provider and the Fund will receive the fair value as of the date of termination.

Prior to February 2012 and during the 2011 Plan year, the Plan held an investment contract with Metropolitan Life Insurance Company (MetLife). MetLife maintained contributions in a general account, which was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. The contract was considered fully benefit-responsive and is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by MetLife. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

MetLife was contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The interest rate credited to participants (Participant Rate) was adjusted annually on January 1 by MetLife after considering the current market value of the underlying funds, the anticipated market rates of the funds' investments, expected payments into and out of the funds, the amortization of any differences between market value and guaranteed value, and the anticipated expenses. The Participant Rate tracked current market rates (Market Rate) on a trailing basis, but could be no less than 0%. The average yield earned by the Fund at 2011 representing the annualized earnings of all investments in the Fund divided by the period end fair value was 5.95%. The average yield earned by the Fund at 2011 representing the annualized earnings credited to participants in the Fund (the crediting rate), divided by the period end fair value of all investments in the Fund was 3.22%.

Note 6 - Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 7 - Exempt Party-in-Interest Transactions

Certain investments of the Plan include shares of common stock of Lowe's Companies, Inc., the Plan Sponsor, shares of common stock of Wells Fargo, the Plan's trustee and recordkeeper, and funds managed by Wells Fargo. Transactions in these investments qualify as exempt party-in-interest transactions. Fees paid for investment management services were included as a reduction of the return earned on each investment.

At December 31, 2012, and 2011, the Plan held 52,123,888 shares and 59,553,983 shares, respectively, of common stock of Lowe's Companies, Inc., with a cost basis of \$866,824,894 and \$900,775,644, respectively. For the year ended December 31, 2012, the Plan recorded dividend income of \$33,889,045 from these shares.

Note 8 - Tax Status

On April 21, 2010, a favorable determination letter response was received from the Internal Revenue Service (IRS) indicating that the Plan and related trust were designed in accordance with applicable regulations of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. On January 31, 2013 the Plan Sponsor filed a Determination Letter Application with the IRS for the Plan document in effect prior to January 1, 2013, as amended as well as the restatement of the Plan effective January 1, 2013. The Plan Sponsor, the Plan Sponsor's benefits counsel and the Plan's tax counsel continue to believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Under GAAP, Company Management is required to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS or Treasury. Company Management has analyzed the tax positions taken by the Plan, and has

concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Company Management believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the Investments per the financial statements to the Form 5500 as of December 31, 2012 and 2011:

	December 31, 2012	December 31, 2011
Net assets available for benefits:		
Participant-directed investments at fair value	\$ 3,533,690,090	\$ 2,890,561,205
Adjustment from fair value to contract value for fully benefit-responsive stable value fund (Notes 2 and 5)	(14,274,056)	-
Adjustment from fair value to contract value for fully benefit-responsive investment contract (Notes 2 and 5)	-	(15,514,051)
Total Investments (Current Value column) per Form 5500 Schedule of Assets	\$ 3,519,416,034	\$ 2,875,047,154

Note 10: Delinquent Participant Contributions:

During the 2011 Plan year, salary deferral contributions in the amount of \$1,721 for 66 participants were not deposited into the Plan within the time frame prescribed by DOL. The failure to timely deposit these salary deferral contributions into the Plan is prohibited according to ERISA. In 2012, the Company reimbursed the Plan for the delayed deferral contributions in the amount of \$1,721 plus lost interest related to the usage of funds. There were no delinquent participant contributions during the 2012 Plan year.
