Maine Public Service Company

Item 5. Other Events.

On October 4, 2002, the Company's Board of Directors authorized the Company to reorganize the Company into a holding company structure. The intended result would be that the Company itself would become a wholly owned subsidiary of a new holding company, which would also be the parent company of the two entities that are now subsidiaries of the Company -- Energy Atlantic, LLC and Maine and New Brunswick Electrical Power Company, Ltd.. To achieve this corporate structure, stock in the Company will be exchanged for stock in the new holding company, either through a "reverse triangular merger" or a simple share exchange. The reorganization will not go forward without an opinion of counsel that the transaction does not cause federal income tax liability to Company shareholders whose stock is exchanged in the reorganization. The Company will be undertaking the reorganization in order to maintain its focus on its core regulated business while at the same time positioning the Company for more diversified growth into unregulated business markets.

The reorganization will require the approval of the Maine Public Utilities Commission (the "MPUC"), the U.S. Securities and Exchange Commission under the Public Utilities Holding Company Act, and from the Federal Energy Regulatory Commission under the Federal Power Act. Among the first steps authorized by the Board were the filing of a petition for MPUC approval and the preparation and filing of documents necessary for other state and federal regulatory approvals. Certain other regulatory and non-regulatory consents must also be obtained, and will be sought, in connection with the Company's outstanding indebtedness.

Item 7. Financial Statements and Exhibits.

(c) Exhibits - None.
