AMERICAN PHYSICIANS SERVICE GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2007
(Unaudited)

1. GENERAL

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements as of and for the three month period ended March 31, 2007 and 2006 reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. Such adjustments consist of only items of a normal recurring nature. These

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

consolidated financial statements have not been audited by our independent registered public accounting firm. The operating results for the interim periods are not necessarily indicative of results for the full fiscal year.

The notes to consolidated financial statements appearing in our Annual Report on Form 10-K for the year ended December 31, 2006 filed with the Securities Exchange Commission should be read in conjunction with this Quarterly Report on Form 10-Q. There have been no significant changes in the information reported in those notes other than from normal business activities.

2. MANAGEMENT'S ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. CONTINGENCIES

We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

- 10 -

4. GAIN ON INVESTMENTS

The gain in 2007 represents the receipt of cash in payment for a note that had been written off as uncollectible in 2005 together with a gain of approximately \$9,000 on the sale of an available-for-sale equity security. The gain in 2006 represents a small gain on the sale of an available-for-sale fixed income security.

5. LOSS ON IMPAIRMENT OF INVESTMENT

The loss recorded in the first quarter of 2007 represents a write-down of our investment in Financial Industries ("FIC") common stock, having previously resolved that declines in FIC's stock price will be considered to be "other than temporary" as defined in Statements of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities, as amended. Our policy in regards to our investment in FIC is that we will record pretax charges to earnings should the common stock price on the last day of each interim or annual period fall below the adjusted cost basis of our investment in FIC. In the first three months of 2007, that charge totaled \$423,000, calculated by multiplying the total number of FIC shares we own (385,000) by the change in our adjusted basis in FIC common stock at December 31, 2006 (\$7.60 per share) and its fair market value at March 31, 2007 (\$6.50 per share). While we continue to have the ability and the intent to hold the

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

stock indefinitely, we concluded that the additional uncertainty created by FIC's late SEC filings, together with the lack of its current financial information, dictated that the current quarter decline should be viewed as other than temporary. We will continue to monitor and evaluate the situation at FIC.

6. CASH - RESTRICTED

Restricted cash represents cash deposits advanced from customers for trade claim transactions that do not close by the end of the period. It occurs when a customer remits payment for a transaction by check instead of via wire transfer. As checks of this size normally take several business days to clear, we ask our customers to pay in advance for transactions expected to close in the near future. At the time of receipt, Cash - Restricted and Accounts Payable are increased for an equal amount as no part of this cash is ours until the transaction closes.

7. RESTRICTED AVAILABLE-FOR-SALE FIXED INCOME SECURITIES

As a result of the merger between us and American Physicians Insurance Exchange ("APIE"), the Texas Department of Insurance required that funds be set aside in an escrow account with a bank to remain until the aggregate remaining redemption obligation of our Series A redeemable preferred stock is less than the amount of the escrow balance, with no withdrawals to be made from this escrow account without prior approval from the Texas Department of Insurance. Accordingly, in March 2007 we set up an escrow account funded by the purchase of a fixed income security in the amount of \$2,498,000 paying 5% interest and maturing in March 2008.

- 11 -

8. INVESTMENT IN AVAILABLE-FOR-SALE EQUITY SECURITIES

A portion of this balance sheet account is comprised of our investment in FIC common stock. As mentioned in Note 5 above, during the three months ended March 31, 2007, we recognized "other than temporary" impairment losses and, accordingly, our cost basis in the 385,000 shares of FIC common stock we own has been reduced from \$7.60 per share at December 31, 2006 to \$6.50 per share at March 31, 2007. The effect of any "other than temporary" impairment loss is to reclassify from accumulated other comprehensive income (loss) the unrealized loss to realized loss in the statement of operations. We classify all of these shares as securities available-for-sale and record temporary unrealized changes in their value, net of tax, in our balance sheet as part of Accumulated Other Comprehensive Income (Loss) in Stockholders' Equity. Changes in their fair market value deemed to be "other than temporary" are charged to earnings in the period that the determination was made. No impairment charges were necessary for the three month period ended March 31, 2006.

9. INVESTMENT IN AVAILABLE-FOR-SALE FIXED INCOME SECURITIES

We have invested primarily in U.S. government-backed securities with maturities varying from one to two years, as well as three corporate bonds with Standard and Poor's ratings of no lower than B (investment grade).

10. OTHER LONG TERM ASSETS

In April 2007 we completed a strategic merger with our medical

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

malpractice partner, APIE. The merger took effect on April 1, 2007. Until then, we accounted for this transaction consistent with Statement of Financial Standards No. 141, Business Combinations, whereby direct costs of the business combination are capitalized and become part of the total purchase price. As of March 31, 2007, we had capitalized a total of \$931,000, comprised primarily of legal, accounting, auditing and tax consulting fees incurred by us related to this transaction.

11. ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consists of the following:

	March 31, 2007	December 31, 2006
	-----	-----
Commissions payable	\$ 1,624,000	\$ 1,239,000
Taxes payable	154,000	161,000
Vacation	170,000	170,000
401(k) plan matching	79,000	213,000
Other accrued liabilities	50,000	137,000
	-----	-----
	\$ 2,077,000	\$ 1,920,000
	=====	=====

- 12 -

12. NET INCOME (LOSS) PER SHARE

Basic income (loss) per share is based on the weighted average shares outstanding without any dilutive effects considered. Diluted income (loss) per share reflects dilution from all contingently issuable shares, such as options and convertible debt. A reconciliation of income and weighted average shares outstanding used in the calculation of basic and diluted income (loss) per share from operations follows:

	For the Three Months Ended March 31, 2007		
	Income	Shares	Per Share
	(Numerator)	(Denominator)	Amount

	=====	=====

- 14 -

14. STOCK-BASED COMPENSATION

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123 (R)). The standard amends SFAS 123, Accounting for Stock-Based Compensation, and concludes that services received from employees in exchange for stock-based compensation results in a cost to the employer that must be recognized in the financial statements. The cost of such awards should be measured at fair value at grant date.

On January 1, 2006 we adopted SFAS No. 123R. We use the Black-Scholes-Merton option-pricing model to determine the fair value of stock-based awards, consistent with that used for pro forma disclosures under SFAS No. 123, Accounting for Stock-Based Compensation. We have elected the modified prospective transition method as permitted by SFAS No. 123R and accordingly prior periods have not been restated to reflect the impact of SFAS No. 123R. SFAS No. 123R requires that stock-based compensation be recorded for all new and unvested stock options expected to vest as the requisite service is rendered beginning January 1, 2006, the first day of our 2006 fiscal year. Stock-based compensation expense for awards granted on or before December 31, 2005, but unvested as of that date, is based on the grant date fair value as determined under the pro forma provisions of SFAS No. 123. For the three months ended March 31, 2007 we recorded compensation cost related to stock options of \$915,000 and a related reduction in income taxes of \$311,000. The compensation cost is the total fair value, at date of grant, of shares that vested during the three month period. No compensation costs were capitalized in the three month period ended March 31, 2007.

During the three month period ended March 31, 2007, 17,000 options were exercised with an intrinsic value of \$209,000. We received proceeds of \$80,000 from the exercise of these options during the three month period ended March 31, 2007. Based on unvested options outstanding at March 31, 2007 compensation costs to be recorded in future periods are expected to be recognized as follows: 2007, \$299,000; 2008, \$399,000; 2009, \$170,000 and 2010, \$14,000.

We have adopted, with shareholder approval, the "2005 Incentive and Non-Qualified Stock Option Plan" ("Incentive Plan"). The Incentive Plan provides for the issuance of up to 650,000 shares of common stock to our directors and key employees. A total of 498,000 of these options have been granted as of March 31, 2007 and 152,000 are available for grants. Of those granted, 6,000 shares have been exercised, 285,000 options are exercisable and 207,000 are not yet exercisable. The previous plan, the "1995 Incentive and Non-Qualified Stock

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Option Plan", provided for the issuance of 1,600,000 shares of common stock to our directors and key employees. All of the approved options have been granted as of March 31, 2007, 1,173,000 shares have been exercised, 268,000 shares are exercisable and 159,000 options have been cancelled. Upon the exercise of an option we issue the shares from our authorized, but un-issued shares.

The exercise price for each non-qualified option share is determined by the Compensation Committee of the Board of Directors ("the Committee"). The exercise price of a qualified incentive stock option has to be at least 100% of the fair market value of such shares on the date of grant of the option. We made an exception to this pricing policy on the recent grants to our new advisory board members, as the price had been contractually agreed upon before the grant date. Under the Plans, option grants are limited to a maximum of ten-year terms; however, the Committee has issued all

- 15 -

currently outstanding grants with five-year terms. The Committee also determines vesting for each option grant, traditionally vested over two years beginning one year from the date of grant for directors and vested over three years beginning one year from the date of grant for non-director employees.

Presented below is a summary of the stock options held by our employees and our directors and the related transactions for the three months ended March 31, 2007.

	Three Months Ended March 31,	
	----- 2007 -----	
	Shares	Weighted Average Exercise Price
	-----	-----
Balance at Beg.of Period	467,000	\$9.96
Options granted	310,000	15.73
Options exercised	(17,000)	4.86
Options forfeited/expired	--	--

Balance at end of period	760,000	\$12.42
	=====	
Options exercisable	553,000	\$10.74
	=====	

The weighted average grant date fair value of Company stock options granted is \$5.23 per option for the three months ended March 31, 2007. The fair value of the options was calculated using the Black-Scholes-Merton option pricing model with the following assumptions:

Three months
ended
March 31, 2007

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Expected option term	3.7 years
Expected volatility	31.9%
Expected dividend yield	1.73%
Risk-free rate of return	4.42%

The expected volatility assumptions we used are based on the historical volatility of our common stock over the most recent period commensurate with the estimated expected life of our stock options, such estimated life being based on the historical experience of our stock option exercises. The following table summarizes the Company's options outstanding and exercisable options at March 31, 2007:

- 16 -

Stock Options Outstanding				Stock Options	
Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value (1)	Average Remaining Contractual Life	Shares	Weighted Average Exercise Price
760,000	\$12.42	\$3,964,000	3.6 yrs.	553,000	\$10.74

(1) Based on the \$17.64 closing price of our stock at March 31, 2007.

15. SUBSEQUENT EVENTS

ACQUISITION OF APIE

On April 1, 2007, we acquired all of the issued and outstanding stock of American Physicians Insurance Company ("API"), the stock company formed as a result of the demutualization of APIE, in a business combination which will be accounted for using the purchase method of accounting. The acquisition was done for the purpose of increasing shareholder value through greater financial strength and increased growth potential. Combining the revenues, assets and equity of the two entities should make us more visible in the public markets, increase our borrowing, buying, marketing and recruitment power, and enhance our ability to compete in a consolidating industry. Results of operations of API will be included with those of the Company commencing as of the acquisition date. The total purchase price was \$45,140,000 and consisted of consideration of \$35,000 in cash and 1,982,499 shares of the Company's common stock, valued at a per share price of \$17.64, or \$34,961,000 in aggregate, 10,197.95 shares of preferred stock valued at \$9,179,000, plus costs to complete the acquisition of \$965,000.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

The foregoing purchase price allocation is of a preliminary nature and will be finalized upon the analysis of all relevant information related to the net assets acquired.

During the first quarter of 2007, we earned fees totaling \$3,718,000 from APIE.

- 17 -

The purchase price will be allocated to the balance sheet of API as follows:

(In thousands)

ASSETS	3-31-07

Investments:	
Fixed maturities available for sale, at fair value	\$145,354
Equities securities, at fair value	6,851
Short-term investments	177

STOCK DIVIDENDS/REDEMPTIONS

COMMON: On May 8, 2007, our board of directors declared a cash dividend on our common stock of \$0.30 to holders of record as of May 18, 2007. In 2006, 2005 and 2004, we declared cash dividends on our common stock of \$0.30, \$0.25 and \$0.20, respectively, per share of common stock resulting in total dividend payments of approximately \$838,000, \$671,000 and \$518,000, respectively. Prior to 2004, we had never declared or paid any cash dividends on our common stock. Our policy has been to retain our earnings to finance growth and development. The declaration and payment of any future dividends on our common stock is at the sole discretion of our board of directors, subject to our financial condition, capital requirements, future prospects and other factors deemed relevant.

PREFERRED: On May 8, 2007, our board declared its intention to make a payment to redeem, ratably, \$1 million of our Series A redeemable preferred stock, together with the required cash dividend equal to 3% per annum of the outstanding redemption value of the Series A redeemable preferred stock, to holders of record as of May 18, 2007.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Forward-Looking Statements

Our statements contained in this report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, hopes, intentions or strategies regarding the future. You should not place undue reliance on forward-looking statements. All forward-looking statements included in this report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could differ materially from those in the forward-looking statements. In addition to any risks and uncertainties specifically identified in the text surrounding the forward-looking statements, you should consult our reports on Forms 10-K and our other filings under the Securities Act of 1933 and the Securities Exchange Act of 1934, for factors that could cause our actual results to differ materially from those presented.

The forward-looking statements included herein are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors and legislative, judicial and other governmental authorities and officials. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Any of these assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate.

- 19 -

GENERAL. We provide (1) insurance services, including management and agency services to APIE, and (2) financial services, including brokerage and investment services to individuals and institutions.

INSURANCE SERVICES. Through Insurance Services we provide management and agency services to APIE through a wholly owned subsidiary:

APS Facilities Management, Inc., dba APMC Insurance Services, Inc., or FMI. FMI provides management and administrative services to APIE, a regional insurance exchange that sells medical professional liability insurance only to its physician subscribers, who pay annual insurance premiums and maintenance fees to APIE. APIE is governed by a physician board of directors. Pursuant to a management agreement and the direction of this board, FMI manages and operates APIE, including performing policy issuance, claims investigation and settlement, and all other management and operational functions. As a management fee, FMI receives a percentage of APIE's earned premiums and a portion of APIE's profit, subject to a cap based on premium levels. We recognize revenues for the management fee portion based on a percentage of earned premium on a monthly basis, and we recognize revenues on profit sharing in the fourth quarter, when it is certain the managed company will have an annual profit. FMI's assets are not subject to APIE policyholder claims. Effective with the acquisition of APIE on April 1, 2007 as discussed below, management fees will no longer be collected.

FINANCIAL SERVICES. We provide investment and investment advisory services to institutions and individuals throughout the United States through the following subsidiaries:

- o APS FINANCIAL. APS Financial is a fully licensed broker/dealer that provides brokerage and investment services primarily to institutional and high net worth individual clients. APS Financial also provides portfolio accounting, analysis, and other services to insurance companies, banks and public funds. We recognize commissions revenue, and the related compensation expense, on a trade date basis.
- o APS CAPITAL. APS Capital is dedicated to the clearing and settlement of trades involving syndicated bank loans, trade claims and distressed private loan portfolios. We seek to develop business with clients who trade in the high-yield bond market. We recognize commissions revenue, and the related compensation expense, when the transaction is complete and fully funded.
- o ASSET MANAGEMENT. Asset Management, a registered investment adviser under the Investment Advisers Act of 1940, manages fixed income and equity assets for institutional and individual clients on a fee basis. We recognize fee revenues monthly based on the amount of funds under management.

OTHER. As of March 31, 2007, we owned 385,000 shares of FIC, representing approximately 4% of its outstanding common stock. FIC is also considered a related party as a result of our Chairman/CEO also being a member of the Board

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

of Directors of FIC. We account for this investment as an available-for-sale security, which means it is reflected on our consolidated balance sheets at fair value, and fluctuations in fair value are recognized as unrealized gains or losses excluded from earnings and reported as a separate component of stockholders' equity, net of income taxes. An exception to this accounting policy would be if an available-for-sale security incurs a loss that is deemed to be other-than-temporary as described in Note 8 to this Form 10-Q.

- 20 -

ACQUISITION. On April 1, 2007, we acquired all of the issued and outstanding stock of American Physicians Insurance Company, the stock company formed as a result of the demutualization of APIE, in a business combination which will be accounted for using the purchase method of accounting. The acquisition was done for the purpose of increasing shareholder value through greater financial strength and increased growth potential. The total purchase price was \$ 44,439,000 and consisted of consideration of \$ 35,000 in cash and 1,982,499 shares of the Company's common stock, valued at a per share price of \$ 17.28, or \$ 34,260,000 in aggregate, 10,197.95 shares of preferred stock valued at \$9,179,000, plus costs to complete the acquisition of \$ 965,000. Though we cannot comment on the merger's impact upon future earnings, historical proforma financial statements of the consolidated entities show this transaction to be accretive to earnings with more than \$80 million in annual revenues, total assets of over \$200 million and equity in excess of \$50 million.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates, including those related to: impairment of assets; bad debts; income taxes; and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies and estimates affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. We periodically review the carrying value of our assets to determine if events and circumstances exist indicating that assets might be impaired. If facts and circumstances support this possibility of impairment, our management will prepare undiscounted and discounted cash flow projections, which require judgments that are both subjective and complex. Management may also obtain independent valuations.

Our financial services revenues are composed primarily of commissions on securities trades and clearing of trade claims and asset management fees. Revenues related to securities transactions are recognized on a trade date basis. Revenues from the clearing and settlement of trades involving syndicated bank loans, trade claims and distressed private loan portfolios are recognized when the transaction is complete and fully funded. Asset management fees are recognized as a percentage of assets under management during the period based upon the terms of agreements with the applicable customers.

Our insurance service revenues related to management fees are recognized monthly at 13.5% of the earned premiums of the managed company. We also share equally any profits of the managed company, to a maximum of 3% of the earned insurance premiums. Any past losses of the managed company are carried

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

forward and applied against earnings before any profits are shared. The profit sharing component has historically been recorded in the fourth quarter based on the audited financial results of the managed company. Since, the management contract ended March 31, 2007, we recognized the quarter's profit sharing in March, based on our ability to fully determine the profit sharing base.

- 21 -

STOCK-BASED COMPENSATION

In December 2004, the FASB issued a revision ("SFAS No. 123(R)") to SFAS No. 123, Accounting for Stock-Based Compensation ("SFAS No. 123"), and we were required to adopt SFAS No. 123(R) in the first quarter of 2006. SFAS No. 123(R) supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), and related Interpretations, and requires that all stock-based compensation, including options, be expensed at fair value, as of the grant date, over the vesting period. Companies are required to use an option pricing model (e.g.: Black-Scholes or Binomial) to determine compensation expense, consistent with the model previously used in the already required disclosures of SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure.

At March 31, 2007, we have several stock-based compensation plans, which are described more fully in Notes 12 and 13 to the audited consolidated financial statements contained in our most recently filed Annual Report on Form 10-K. Prior to January 1, 2006, the Company accounted for these plans under the recognition and measurement principles of APB No. 25, under which stock-based employee compensation cost was not reflected in net income, as all options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. In accordance with SFAS No. 123, as amended by SFAS No. 148, the Company provided footnote disclosure of the pro forma stock-based compensation cost, net loss and net loss per share as if the fair-value based method of expense recognition and measurement prescribed by SFAS No. 123 had been applied to all employee options.

- 22 -

RESULTS OF OPERATIONS

REVENUES

Revenues from operations increased \$1,640,000 (23%) to \$8,873,000 from \$7,233,000 in the three months ended March 31, 2007 compared to the same period in 2006. Our operating income decreased \$835,000 (124%) to a loss of \$159,000 from a profit of 676,000 in the current year three months compared to the same period in 2006. Our net income decreased \$657,000 (117%) to a loss of \$95,000 from a profit of \$562,000 in the current year three months, compared to the same period in 2006. Lastly, our diluted net income per share decreased \$0.22 to a loss of \$0.03 per share from a profit of \$0.19 per share in the current year

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

three months compared to the same period in 2006. The reasons for these changes are described below.

INSURANCE SERVICES. Total revenues from our insurance services segment were virtually unchanged in the three month period ended March 31, 2007 compared to the same period in 2006, increasing approximately \$2,000 to \$3,657,000 from \$3,655,000. The individual components of total revenues did, however, vary significantly. As a result of the merger between APIE and us, effective April 1, 2007, we earned and recorded contingent management fees through March 31, 2007. Prior to the merger, we historically recognized a full year's contingent management fee in the fourth quarter of each year for this profit sharing component of management fees. With the merger, we recorded approximately \$496,000 for the three months ended March 31, 2007 compared to zero during the same period in 2006. Since the management contract ended March 31, 2007, we recognized the quarter's profit sharing in March, based on our ability to fully determine the profit sharing base. Basic management fees were down \$138,000 (6%) to \$2,233,000 from 2,371,000 in the three months ended March 31, 2007 compared to the same period in 2006 as a result of \$1.2 million lower earned premiums for APIE over this same period. Earned premiums were \$17.5 million for the three months ended March 31, 2007 compared to \$16.3 million for the same period in 2006. The decrease in earned premiums for APIE was the result of lower written premiums of \$4.0 million (23%) to \$13.5 million from \$17.5 million for the three months ended March 31, 2007 as compared to the same period in 2006. This decrease in written premiums was primarily due to increased competition and premium rate decreases. Of the \$4.0 million in lower written premiums for the current quarter as compared to the same period in 2006, new business written premiums for APIE decreased \$3.7 million (91%) and renewal premiums decreased \$405,000 (3%), respectively. The decline in renewal premiums was primarily the result of continued rate pressure created by increased competition, which caused renewal rates to decline an average of 18% for the quarter ending March 31, 2007 as compared to the same period in 2006. While rate decreases and increased competition continue to create downward pressure on written and earned premiums for APIE, the exchange increased overall policyholder headcount by 1.5% to 4,775 from 4,712 for the current quarter, driven predominately by headcount retention on renewal business which was in excess of 90% and the addition of new business in the current quarter. Pass through commission income was down \$287,000 (23%) to \$989,000 from \$1,277,000 in the current quarter compared to the same period in 2006 as a result of the above discussed decrease in premiums written for APIE. As noted in the following paragraph, commissions paid to third party independent agents decreased by an equivalent amount, resulting in no impact on net income.

- 23 -

Insurance services expenses increased \$1,069,000 (39%) to \$3,823,000 from \$2,754,000 in the three months ended March 31, 2007 compared to the same period in 2006. The current quarter increase was primarily due to an expense recognized for the fully-vested stock options awarded to the former board members of APIE pursuant to the terms of the merger agreement between APIE and us. The cost recognized during the current quarter for these stock options amounted to approximately \$891,000. In addition, deferred compensation awards totaling approximately \$260,000 were granted during the current quarter to certain individuals as additional incentive for their individual efforts in effectuating the merger. In addition, payroll and professional fees were higher in the first quarter of 2007 compared to the same period in 2006. Payroll increased \$89,000 (11%) to \$925,000 from \$836,000 due to regular annual employee

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

merit raises as well as the hiring of additional personnel. Professional fees were \$65,000 (107%) higher in 2007 to \$126,000 from \$61,000 due primarily to consulting fees related to the selection of new policy and claims software for our newly acquired subsidiary. Partially offsetting these increases is the previously discussed decrease in commissions paid to third party independent agents. These pass through commission expenses declined \$287,000 (23%) to \$989,000 from \$1,277,000 during the first quarter of 2007 compared to the same period in 2006.

FINANCIAL SERVICES. Our financial services revenue increased \$1,638,000 (46%) to \$5,216,000 from \$3,578,000 in the first three months of 2007 compared to the same period in 2006. APS Financial, our broker/dealer subsidiary, derives most of its revenue from transactions in the fixed income market, in both investment and non-investment grade securities. Commission revenue at APS Financial was up by \$2,013,100 (78%) to \$4,595,000 from \$2,582,000 reflecting an increase in the general trading activity of debt securities as well as some specific trading that resulted from customer profit taking of prior positions. These broker/dealer commission revenues were up despite the closure of our Houston office which had accounted for \$470,000 in commissions in the first quarter of 2006. This revenue gain was partially offset by an aggregate \$375,000 (38%) decrease in revenues, to \$621,000 from \$996,000, from other operations, including investment banking and bank debt / trade claim transactions, which was largely the result from timing of the closing of various investment banking placements. The environment for trading in both investment grade and non-investment grade securities remains difficult due to various factors including low level of interest rates combined with low volatility, a flat treasury curve, low corporate default rates and price transparency.

Our financial services expenses increased \$1,152,000 (35%) to \$4,437,000 from \$3,285,000 in the three months ended March 31, 2007 compared to the same period in 2006. The primary reason for the current year increase is a \$1,002,000 (51%) increase to \$2,985,000 from \$1,983,000 in commission expense in the current year three month period compared to the same period in 2006 resulting from commissions paid on increased commission revenues earned. In addition, incentive compensation expense increased \$171,000 (346%) to \$221,000 from \$50,000 in the current quarter as a result of an \$840,000 (257%) increase to \$1,166,000 from \$326,000 in pre-tax earnings net of incentive compensation expense. Finally, stock option expense in the current three months totaled \$46,000 in 2007 compared to zero in the same three months in 2006. Partially offsetting these increases in expenses are decreases in payroll, benefits and rent. Payroll was down \$55,000 (10%) to \$483,000 from \$537,000, employee benefits was down \$38,000 (13%) to \$256,000 from \$295,000 and rent was down \$22,000 (40%) to \$33,000 from \$56,000 in the three months ended March 31, 2007 compared to the same period in 2006 as a result of the decision made in the third quarter of 2006 to close the Houston office and consolidate trading into our Austin, Texas office.

- 24 -

GENERAL AND ADMINISTRATIVE EXPENSES. General and administrative expenses increased \$259,000 (50%) to \$777,000 from \$518,000 in the three month period ended March 31, 2007 compared to the same period in 2006. The increase is due in part to deferred compensation awards resulting primarily from the recruitment and hiring during the quarter of our new company president and chief operating officer, Tim LaFrey. The cost associated with these deferred shares in the current quarter totaled \$162,000. In addition, board fees increased \$28,000 (69%) to \$70,000 from \$42,000 in the current quarter as a result of additional board meetings held in 2007 to primarily discuss and prepare for the merger. Lastly, professional fees increased \$19,000 (172%) to \$30,000 from \$11,000 in

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

the current quarter as a result of accruals for the independent audit of our internal controls to comply with the Sarbanes-Oxley Act of 2002.

GAIN ON INVESTMENTS. The gain in 2007 primarily represents the receipt of cash in payment for a note that had been written off as uncollectible in 2005. In addition, a gain of approximately \$9,000 was recorded resulting from the sale of shares of available-for-sale equity securities. The gain in 2006 represents a small gain on the sale of an available-for-sale fixed income security.

LOSS ON IMPAIRMENT OF INVESTMENT. The loss recorded in the first quarter of 2007 represents a write-down of our investment in Financial Industries Corporation, or FIC, common stock, having previously resolved that declines in FIC's stock price will be considered to be "other than temporary". Our policy in regards to our investment in FIC is that we will record pretax charges to earnings should the common stock price on the last day of each interim or annual period fall below the adjusted cost basis of our investment in FIC. In the first three months of 2007, that charge totaled approximately \$423,000, calculated by multiplying the total number of FIC shares we own (385,000) by the change in our adjusted basis in FIC common stock at December 31, 2006 (\$7.60 per share) and its fair market value at March 31, 2007 (\$6.50 per share). FIC is also considered a related party as a result of our Chairman/CEO also being a member of the Board of Directors of FIC. We will continue to monitor and evaluate the situation at Financial Industries.

INTEREST INCOME. Our interest income increased \$137,000 (70%) to \$334,000 from 197,000 in the three month period ended March 31, 2007 compared to the same period in 2006. The current year three month increase was primarily due to higher rates as well as a much higher balance of interest-bearing fixed income securities. At March 31, 2007 there was a balance in investment securities held of \$17.6 million compared to a balance of \$14.5 million held at March 31, 2006. In addition, in the current quarter we received interest on a loan that had been defaulted upon during 2006 totaling \$23,900.

OTHER INCOME. Our other income increased \$13,000 (217%) to \$19,000 from \$6,000 for the three month period ended March 31, 2007 compared to the same period in 2006. The increase in the current year three month period is due in part to small inventory gains on securities held at APS Financial in 2007 compared to small inventory losses in 2006.

MINORITY INTEREST. For the three months ended March 31, 2007 and 2006, minority interest represents a 3% interest in Asset Management, a subsidiary within our financial services segment, owned by key individuals within Asset Management.

- 25 -

CASH FLOWS. Our total cash and cash equivalents balance at March 31, 2007 increased \$585,000 (14%) to \$4,827,000 from \$4,242,000 in the current year as cash provided by operating and financing activities more than offset by net cash used in investing activities. Our cash flows provided from operating activities totaled \$1,595,000 for the current quarter due in part to cash received from APIE for 2006 profit sharing (\$2.0 million) that was recorded in 2006. Partially offsetting this was cash paid in the current quarter for incentive compensation earned and accrued in 2006 (\$2.2 million). Our cash flows used in investing activities totaled \$1,124,000 in the first three months of 2007 primarily as a result of purchases of available-for-sale fixed income securities in excess of proceeds from their sale. Our cash provided by financing activities totaled

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

\$114,000 in the first quarter of 2007 primarily as a result of cash received from the exercise of stock options. For details of the amounts described above, refer to the Condensed Consolidated Statements of Cash Flows on page 7 of this Form 10-Q.

LIQUIDITY AND CAPITAL RESOURCES

WORKING CAPITAL. Our net working capital was \$18,616,000 and \$19,247,000 at March 31, 2007 and December 31, 2006, respectively. The decrease in the current year was due primarily to the purchase of a restricted available for sale fixed income security that will be held in escrow as part of the terms of the merger required by the Texas Department of Insurance. These funds are to remain in escrow until the aggregate remaining redemption obligation of our Series A redeemable preferred stock is less than the amount of the escrow balance. As this is not likely to occur within the next twelve months, the \$2.5 million security is classified as long-term, thus reducing working capital.

Historically, we have maintained a strong working capital position and, as a result, we have been able to satisfy our operational and capital expenditure requirements with cash generated from our operating and investing activities. These same sources of funds have also allowed us to pursue investment and expansion opportunities consistent with our growth plans. Although there can be no assurance our operating activities will provide positive cash flow in 2007, we are optimistic that our working capital requirements will be met for the foreseeable future for the following reasons: (1) our current cash position is very strong, with a balance of approximately \$4.8 million comprising 12 percent of our total assets; (2) our investments in available-for-sale equity and fixed income securities could provide an additional \$18.9 million should the need arise; and (3) we renewed a line of credit effective April 2007 that is described below.

LINE OF CREDIT. We renewed a \$3 million line of credit that was originally established in November 2003 with PlainsCapital Bank. The loan calls for interest payments only to be made on any amount drawn until April 15, 2008, when the entire amount of the note, principal and interest then remaining unpaid, became due and payable. At March 31, 2007, there have never been any draws taken against this line of credit. We are in compliance with the covenants of the loan agreement, including requirements for a minimum of \$5 million of unencumbered liquidity and a minimum 2 to 1 net worth ratio.

CAPITAL EXPENDITURES. Our capital expenditures for equipment were \$44,000 in the three months of 2007. The majority of these expenditures were primarily hardware and software upgrades to our computer network. We expect capital expenditures in 2007 to be approximately \$1,600,000, the majority of which will be spent in the latter half of 2007 for the installation of new policy and claims administration hardware and software. All capital expenditures are expected to be funded through cash on hand.

- 26 -

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

In February, 2006 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 155, Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133 and 140. SFAS 155 becomes effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133;

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement No. 109 (FIN 48), which we adopted on January 1, 2007. FIN 48 clarifies the accounting for income tax uncertainties. The company has developed and implemented a process based on the guidelines of FIN 48 to ensure that uncertain tax positions are identified, analyzed and properly reported in the company's financial statements in accordance with SFAS 109. Based on all known facts and circumstances and current tax law, the company believes that the total amount of unrecognized tax benefits as of January 1, and April 1, 2007, is not material to its results of operations, financial condition or cash flows. The company also believes that the total amount of unrecognized tax benefits as of January 1, and March 31, 2007, if recognized, would not have a material effect on its effective tax rate. The company further believes that there are no tax positions for which it is reasonably possible that the unrecognized tax benefits will significantly increase or decrease over the next 12 months producing, individually or in the aggregate, a material effect on the company's results of operations, financial condition or cash flows.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 157, "Accounting for Fair Value Measurements", effective for fiscal years beginning after November 15, 2007. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP) and expands disclosures about fair value measurements. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In February, 2007 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 159, "Accounting for The Fair Value Option for Financial Assets and Financial Liabilities" an amendment of FASB Statement No. 115. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have exposure to changes in interest rates and the market values of our investments but have no material exposure to fluctuations in foreign currency.

INTEREST RATE RISK. Our exposure to market risk for changes in interest

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

rates relates to both our investment portfolio and our revenues generated through commissions at our financial services segment. A one percent change in interest rates on our current cash and fixed income securities balance of approximately \$22.4 million would result in a change of approximately \$224,000 annually in interest income. All of our marketable fixed income securities are designated as available-for-sale and, accordingly, are presented at fair value on our balance sheets. Fixed rate securities may have their fair market value adversely affected due to a rise in interest rates, and we may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates.

Changes in interest rates could have an impact at our broker/dealer subsidiary, APS Financial. The general level of interest rates may trend higher or lower in 2007, and this move may impact our level of business in different fixed-income sectors. If a generally improving economy is the impetus behind higher rates, then while our investment grade business may drop off, our high yield business might improve with improving credit conditions. A volatile interest rate environment in 2007 could also impact our business as this type of market condition can lead to investor uncertainty and their corresponding willingness to commit funds.

As we currently have no debt and do not anticipate the need to take on any debt in 2007, interest rate changes will have no impact on our financial position as it pertains to interest expense.

INVESTMENT RISK. As of March 31, 2007, our recorded basis in debt and equity securities was approximately \$21.4 million. We regularly review the carrying value of our investments and identify and record losses when events and circumstances indicate that such declines in the fair value of such assets below our accounting basis are other-than-temporary.

Item 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As of the end of the period covered by this report, and under the supervision and with the participation of our management, including our Chief Executive Officer and Chief

- 28 -

Financial Officer, we evaluated the effectiveness of the design and operation of these disclosure procedures. Based on this evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in reaching a reasonable level of assurance of achieving management's desired controls and procedures objectives.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

There have been no changes in internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

As part of a continuing effort to improve our business processes we are evaluating our internal controls and may update certain controls to accommodate any modifications to our business processes or accounting procedures.

PART II OTHER INFORMATION

- 30 -

Item 1. LEGAL PROCEEDINGS

We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Items 2(a) through(d) are inapplicable.

(e) Stock Repurchases

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Period -----	(a) Total Number of shares Purchased -----	(b) Average Price Paid Per Share -----	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs -----
Jan 1, 2007 - Jan 31, 2007	2,301	\$15.99	2,301
Feb 1, 2007 - Feb 28, 2007	- 0 -	\$ - 0 -	- 0 -
Mar 1, 2007 - Mar 31, 2007	- 0 -	\$ - 0 -	- 0 -

- (1) Of the total shares purchased 2,301 were purchased in open market transactions and none were purchased in private transactions. Our original share repurchase program was announced August 17, 2004 and was increased in \$2,000,000 increments on December 12, 2005 and on June 30, 2006.

Item 3. DEFAULTS UPON SENIOR SECURITIES

Not Applicable

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On March 22, 2007 a Special Meeting of Shareholders was held at the Company's home office in Austin, Texas. At the meeting, the shareholders were asked to approved the following three items:

- 31 -

- To consider and vote upon a proposal for the Company's shareholders to approve the issuance of the Company's common stock to the persons entitled to receive stock, as a result of the conversion of American Physicians Insurance Exchange, or APIE, into a Texas stock insurance company called American Physicians Insurance Company, or APIC, immediately followed by the merger of a wholly owned subsidiary of the Company with and into APIC, with APIC becoming a wholly owned subsidiary of the Company as a result of the transactions contemplated by the Merger Agreement and Plan of Merger, dated June 1, 2006, as amended.

The votes for, against and abstained are as follows:

For ---	Against -----	Abstain -----
------------	------------------	------------------

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

2,294,258

8,520

404

The merger passed and the acquisition will close effective April 1, 2007.

2. To consider and vote upon a proposed amendment to our 2005 Incentive and Non-Qualified Stock Option Plan to increase the number of shares of common stock that may be granted under the plan from 350,000 to 650,000.

The votes for, against and abstained are as follows:

For	Against	Abstain
---	-----	-----
2,008,189	173,484	121,509

The measure passed.

3. To consider and vote upon a proposed amendment to our 2005 Incentive and Non-Qualified Stock Option Plan to eliminate the exchange provision allowing us to exchange or buy out any previously granted stock option at any time.

The votes for, against and abstained are as follows:

For	Against	Abstain
---	-----	-----
2,142,358	158,815	2,009

The measure passed
