SECTION 7. REGULATION FD.

Item 7.01 Regulation FD Disclosure.

On September 22, 2004, Harold M. Korell, President and Chief Executive Officer for Southwestern Energy Company, made a presentation to investors in Greenwich, Connecticut. The presentation noted the recent changes to the company's production guidance, updated financial guidance with respect to different NYMEX price scenarios and their corresponding estimated impact on the company's results, increase in capital expenditures for 2004 and resulting impact on investments by operating area, and provided a recent operational update to its Fayetteville Shale play in Arkansas. The investor presentation materials are attached as Exhibit 99.1 hereto.

As discussed on page 2 of Exhibit 99.1, the investor presentation contains forward-looking statements within the meaning of federal securities laws. These statements are present expectations and are subject to the limitations listed in the presentation and in the company's other reports filed with the Securities Exchange Commission (the "SEC"). Unless otherwise required by applicable securities laws, the company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Edgar Filing: SOUTHWESTERN ENERGY CO - Form 8-K

The investor presentation includes historical revenues for 2000 which excludes unusual and extraordinary items. As a result of this exclusion, this presentation is a non-GAAP financial measure as defined under applicable rules and regulations of the SEC. The company provided this financial measure because the removal of unusual, extraordinary and non-recurring items provides a more consistent basis for comparing subsequent years. A reconciliation of this non-GAAP measure is set forth below:

Exhibit 99.1 page 34 year 2000 presentation reconciled to GAAP standards		
Net Income as reported	\$	(46.7)
Add back:		
Unusual Items		68.2
Gain on Sale of Utility Assets		(1.9)
Loss on Retirement of Debt		.9
Exhibit 99.1 page 34 year 2000 Net Income	\$	20.5

The investor presentation also includes information regarding net cash provided by operating activities before changes in operating assets and liabilities and net income plus interest, income tax expense, depreciation, depletion and amortization (also referred to as EBITDA) which are non-GAAP financial measures as defined under applicable rules and regulations of the SEC. The investor presentation includes an explanation as to why the company believes the presentation of these non-GAAP financial measures are useful to investors and provides a reconciliation of the non-GAAP financial measures to the closest financial measures under generally accepted accounting principles.
