R F INDUSTRIES LTD
Form 10QSB
March 13, 2003

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-QSB

Quarterly Report Under Section 13 or 15 (d) of
Securities Exchange Act of 1934

for Quarter ended January 31, 2003
Commission File Number 0-13301

RF INDUSTRIES, LTD.

(Exact name of registrant as specified in its charter)

Nevada 88-0168936

(State of Incorporation) (I.R.S. Employer Identification No.)

7610 Miramar Road., Bldg. 6000, San Diego, California 92126-4202

(Address of principal executive offices) (Zip Code)

(858) 549-6340 FAX (858) 549-6345

(Issuer's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act: None.

Check whether the issuer (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days

Yes No

State the number of shares outstanding of each of the issuer's classes of common stock at the latest practicable date.

As of January 31, 2003, the registrant had 3,400,254 shares of Common Stock, \$.01 par value, outstanding.

Transitional small business disclosure format

RF INDUSTRIES, LTD. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Unaudited interim financial statements:

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended January 31, 2003 are not necessarily indicative of the results that may be expected for the year ending October 31, 2003. The unaudited condensed consolidated financial statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended October 31, 2002.

Note 2 - Components of inventory

	=====	=====

Edgar Filing: R F INDUSTRIES LTD - Form 10QSB

Note 3 - Earnings per share:

As further explained in Note 1 of the notes to the audited financial statements of the Company, included in Form 10-KSB for the fiscal year ended October 31, 2002, basic earnings per share is computed by dividing net earnings by the weighted average number of common stock outstanding during the period. Diluted earnings per share is computed by dividing net earnings by the weighted average number of shares of common stock increased by the effects of assuming that other potentially dilutive securities (such as stock options) outstanding during the period had been exercised and the treasury stock method had been applied.

The following table summarizes the computation of basic and diluted weighted average shares:

	Three Months Ended January 31	
	2003	2002
	-----	-----
Weighted average shares outstanding for basic net earnings per share	3,400,254	3,409,354
Add effects of potentially dilutive securities- assumed exercised of stock options	250,317	434,412
	-----	-----
Weighted average shares for diluted net earnings per share	3,650,571	3,843,766
	=====	=====

Note 4 - Segment Information

The Company's segments are described in Note 6 of the notes to the audited financial statements of the Company included in Form 10-KSB for the fiscal year ended October 31, 2002.

Net sales and income (loss) before provision for income taxes for the three months ended January 31, 2003 and 2002 follows:

	Connector	Neulink	Bioconnect	Common/ Corporate	Inter Sa
	-----	-----	-----	-----	-----
2003					

Net sales	\$ 1,795,089	\$ 467,230	\$ 64,557		
Income (loss) before provision for income taxes	279,975	39,175	(106,851)	\$ 11,497

Item 2: Management's discussion and analysis of financial condition and results of operations

This report contains forward-looking statements. These statements relate to future events or the Company's future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "except," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially.

Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, the Company cannot guarantee future results, levels of activity, performance or achievements. Moreover, neither the Company, nor any other person, assumes responsibility for the accuracy and completeness of the forward-looking statements. The Company is under no obligation to update any of the forward-looking statements after the filing of this Quarterly Report on Form 10-QSB to conform such statements to actual results or to changes in its expectations.

The following discussion should be read in conjunction with the Company's financial statements and the related notes and other financial information appearing elsewhere in this Form 10-QSB. Readers are also urged to carefully review and consider the various disclosures made by the Company which attempt to advise interested parties of the factors which affect the Company's business, including without limitation the disclosures made under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations," under the caption "Risk Factors," and the audited financial statements and related notes included in the Company's Annual Report filed on Form 10-KSB for the year ended October 31, 2002 and other reports and filings made with the Securities and Exchange Commission.

Edgar Filing: R F INDUSTRIES LTD - Form 10QSB

CRITICAL ACCOUNTING POLICIES

The consolidated financial statements of RF Industries and Subsidiary are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of these financial statements requires our management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. The Company believes the following critical accounting policies affect its more significant judgments and estimates used in the preparation of financial statements.

REVENUE RECOGNITION

The Company recognizes revenue from the sale of products at the time of shipment of the product. In addition, the Company has a strategic alliance with a supplier where the Company recognizes commission income when payment is received.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Company maintains an allowance for doubtful accounts based on historical collections of accounts receivable. The Company monitors its accounts receivable balances on a continual basis. If the financial condition of customers deteriorates, additional allowances may be required.

INCOME TAXES

The Company accounts for income taxes pursuant to the asset and liability method which requires deferred income tax assets and liabilities to be computed for temporary differences between the financial statement and tax basis of assets and liabilities that will result in taxable, or deductible amounts in future periods based on enacted laws and rates applicable to the periods in which the temporary differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. The income tax provision is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

INVENTORY VALUATION

Inventories are valued at the weighted average cost value. Certain items in the inventory may be considered obsolete or excess, and as such, the Company may establish an allowance to reduce the carrying value of these items to their net realizable value. Based on estimates, assumptions and judgments made from the information available at the time, the Company determines the amounts of these allowances. If these estimates and related assumptions or the market change, we may be required to record additional reserves.

LIQUIDITY AND CAPITAL RESOURCES

Management believes that existing current assets and the amount of cash it anticipates it will generate from current operations will be sufficient to fund the anticipated liquidity and capital resource needs of the Company for at least twelve months. The Company does not, however, currently have any commercial banking arrangements providing for loans, credit facilities or similar matters should the Company need to obtain additional capital. Management believes that its existing assets and the cash expected to be generated from operations will be sufficient during the current fiscal year are based on the following:

- o As of January 31, 2003, the amount of cash and cash equivalents was equal

Edgar Filing: R F INDUSTRIES LTD - Form 10QSB

to \$ 4,272,835 in the aggregate.

- o As of January 31, 2003, the Company had \$ 9,797,489 in current assets, and only \$ 519,538 of current liabilities.
- o As of January 31, 2003, the Company had no outstanding indebtedness (other than accounts payable and accrued expenses).

The Company does not believe it will need material additional capital equipment in the next twelve months. In the past, the Company has financed some of its property and equipment requirements through capital leases. No additional capital equipment purchases have been currently identified that would require significant additional leasing or capital obligations during the next twelve months. Management also believes that based on the Company's financial condition at January 31, 2003, the absence of outstanding bank debt and recent operating results, the Company would be able to obtain bank loans to finance its expansion, if necessary, although there can be no assurance any bank loan would be obtainable, or if obtained, would be on favorable terms or conditions.

As of January 31, 2003, the Company had a total of \$ 4,272,835 of cash and cash equivalents compared to a total of \$ 3,939,299 of cash and cash equivalents on October 31, 2002. The increase in liquid assets is the result of (i) net income earned by the Company during the three-month period following October 31, 2002, (ii) a decrease in the amount of inventories held by the Company (the Company sold some of its excess inventory that it did not need to replenish) and (iii) additional collections of accounts receivable.

Net cash used in investing activities was \$ 5,934 for the first three months ended January 31, 2003, and was attributable to capital expenditures.

Net cash used in financing activities was \$ 68,746 for the three months ended January 31, 2003, which was primarily attributable to the payment on a loan incurred in connection with the purchase of Bioconnect of \$44,582 and the purchase of treasury stock in the amount of \$24,164.

As a result of the foregoing factors, the Company generated net cash of \$408,216 from its operations during the past fiscal quarter.

Three Months 2003 vs. Three Months 2002

Net sales increased 6.5%, or \$142,000, to \$2,327,000 from \$2,185,000 in the first fiscal quarter last year, due to increased sales in the Company's Connector and Neulink divisions.

Net sales at the RF Connector division increased 1.4%, to \$1,795,000 compared to \$1,771,000 for the same quarter last year, due to a general increase in the demand for connectors throughout the industry.

Net sales at the RF Neulink division increased by 34% to \$467,000 compared to \$349,000 in the first quarter last year. The increase in sales can be attributed primarily to an increase in the number of products offered to the Company's customers.

Net sales at the Bioconnect division decreased 62% to \$64,500 from \$170,400. The decrease in sales can be attributed primarily to the loss of a large contract the division was actively shipping in the first quarter of 2002.

Cost of sales increased 3.7% or \$42,500, to \$1,192,200 from \$1,149,700 in the same quarter last year. The increase is primarily due to the 6.5% increase in net sales. Overall gross margins, as a percentage of sales, increased 1.4% compared to the first quarter last year. Gross margins typically fluctuate due

Edgar Filing: R F INDUSTRIES LTD - Form 10QSB

to the mix of products sold by the Company.

Engineering expenses increased 21%, or \$34,500, to \$198,500 from \$164,000 in the first quarter last year. Engineering expenses increased primarily as a result of the additional expenses incurred to develop a new high-speed wireless radio modem, the Company intends to introduce to replace an existing product line.

Selling and general expenses decreased 6% or \$46,000, to \$724,000 from \$770,000 in the same quarter last year. Selling and general expenses were higher in the first quarter last year due primarily to \$37,500 in expenses associated with the development of a new catalog for the RF Connector division.

The Company anticipates that its selling and general expenses will remain the same or decrease in the near future due to the recent closing and relocation of the Bioconnect facilities. During the past few months, the Company has closed the separate facilities that Bioconnect had maintained in Lake Elsinore, California, and moved those facilities to the Company's principal offices in San Diego, California. In connection with the foregoing relocation and consolidation, the Company also permitted the employment agreements of two of Bioconnect's officers to expire and reduced the number of employees in the Bioconnect division. All of the foregoing actions are expected to reduce the Company's selling and general expenses in the future.

Net interest income decreased to \$11,500 from \$23,750 in the first quarter last year due to lower interest rates and reduced investments in mutual funds since July of 2002.

MATERIAL CHANGES IN FINANCIAL CONDITION:

Cash and cash equivalents increased by \$333,500 to \$4,272,800 at January 31, 2003 compared to \$3,939,300 at October 31, 2002. The increase is due primarily to lower inventory levels, net income of \$134,796 for the first quarter of 2003, and the collection of accounts receivable.

Trade accounts receivable decreased 3%, or \$35,400 to \$1,111,000 compared to the October 31, 2002 balance of \$1,146,400. The decrease is due primarily to timing of collections and the Company's increased efforts to reduce its outstanding accounts receivable.

Inventories decreased to \$177,500, to \$3,966,000 compared to \$4,143,500 on October 31, 2002. As part of its business strategy, and because of its off-shore manufacturing arrangements, the Company normally maintains a high level of inventory. For the past year, the Company has been steadily reducing its inventory levels, to a sufficient amount to meet customer demand. However, based on the recent increases in customer demand, the Company does not believe that it will further significantly reduce its inventory.

Other current assets, including prepaid expenses and deposits, increased \$104,000 to \$273,000, from \$169,000 on October 31, 2002. This increase is a seasonal factor associated with annual invoices for prepaid cargo insurance, prepaid property and liability insurance, audit fees, computer maintenance agreements and other miscellaneous expenses.

Item 3. Controls and Procedures.

Within 90 days prior to the date of this quarterly report on Form 10-QSB for the first quarter ended January 31, 2003, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and President, the principal executive officers and the Company's Chief Financial Officer, our principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-14 of the

Edgar Filing: R F INDUSTRIES LTD - Form 10QSB

Securities Exchange Act of 1934. Based upon that evaluation, these principal executive officers and principal financial officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company's periodic SEC filings. There were no significant changes in the Company's internal controls or in other factors that could significantly affect those controls subsequent to the date of our most recent evaluation.

PART II. OTHER INFORMATION

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits:

99.1 Certification of Chief Executive Officer Pursuant to 18 U.S.C. 1350, as Adopted Pursuant to Section 906 of the Sarbanes- Oxley Act of 2002.

99.1 Certification of Chief Financial Officer Pursuant to 18 U.S.C. 1350, as Adopted Pursuant to Section 906 of the Sarbanes- Oxley Act of 2002.

(b) Reports on Form 8-K

None.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function): a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Date: March 17, 2003
