Item 8.01. Other Events.

On September 28, 2009, Unisys Corporation was informed that it was not selected by the U.S. Transportation Security Administration to continue as the prime contractor on the TSA's Information Technology Infrastructure Program contract after the current contract expires in February 2010. Unisys plans to review its options.

Unisys began working for TSA shortly after the agency was established and was instrumental in creating and managing the IT infrastructure that enabled the TSA to meet its November 2002 deadline to become mission-ready. Since then, Unisys has supported TSA in its efforts to improve the protection of passengers, cargo, people and physical assets at U.S. airports.
