

## Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form 8-K

This information is being provided under Item 12 of Form 8-K.

The Company today issued the following press release:

-----  
First National Lincoln Corporation Assets Top \$500 Million,  
Reports Record First Quarter Earnings, Up 13.3%

DAMARISCOTTA, ME., April 15 -- First National Lincoln Corporation (Nasdaq NM: FNLC), today announced earnings per share of \$0.68 on a fully diluted basis for the three months and quarter ended March 31, 2003, an increase of \$0.08 or 13.3% over the \$0.60 reported for the same periods in 2002. Net income for both the quarter and year to date was \$1,679,000, an increase of \$206,000 or 14.0% over the \$1,473,000 posted in 2002. Both earnings per share and net income reported by the Company for 2003 set new first-quarter records.

Year-to-date change on the balance sheet showed total assets at \$504.1 million on March 31, 2003 -- an increase of 2.0% over December 31, 2002. Loans totaled \$346.1 million, up 4.2% over December 31, 2002, while investments increased by 5.4% to \$128.7 million. Deposits of \$340.4 million were up 1.8% over year end. As of March 31, 2003, First National Lincoln Corporation had total equity of \$44.0 million, an increase of 2.9% or \$1.3 million over December 31, 2002.

"We have begun 2003 with another strong quarter," commented the Company's President and Chief Executive Officer, Daniel R. Daigneault. "While net income is just slightly lower than the single-quarter record set in the fourth quarter of 2002, this was the highest net income we have posted in the first quarter, and the 13.3% increase in diluted earnings per share demonstrates the continued excellent results which the Company has produced for many years.

"During the first quarter, we also surpassed a major milestone in the Company's history with total assets exceeding \$500 million," President Daigneault noted. This is a direct result of the cumulative asset growth we have generated during the past ten years -- with total assets increasing 178.4% or \$323.0 million from \$181.1 million at the end of 1993 to \$504.1 million on March 31, 2003. Our strategy has been to focus on 'organic growth,' and the results achieved in our three Knox County offices, which have been open five years or less, have been a major contributor to this growth. More importantly, I feel that First National Lincoln Corporation is well positioned to continue its growth in earning assets as a result of the Company's customer-centric culture, which focuses on exceeding expectations with exceptional service.

"Loan growth in the first quarter was very good," President Daigneault continued. "Not only did we increase our loan portfolio by \$14.0 million over December 31, 2002's totals, we also increased the volume of residential mortgages sold to the secondary market by \$7.3 million. This resulted in combined loan growth -- both on-balance-sheet and off-balance-sheet -- of \$21.3 million for the quarter. At the same time, our asset quality remains excellent, with past-due loans at the lowest levels we have seen in many years and the percentage of non-performing assets to total assets down slightly from year end."

"The price of First National Lincoln Corporation shares increased during the first quarter of 2003," noted F. Stephen Ward, the Company's Treasurer and Chief Financial Officer. "We closed the quarter at \$33.95 per share, up \$2.47 or 7.8% over December 31, 2002, which compares very favorably to the overall equity market, with the S&P 500 down 3.6% during the same period. Our stock reached a new high of \$37.50 per share during the quarter, and while the March 31, 2003 close was below this level, we believe the performance of our stock reflects the excellent financial results the Company continues to produce.

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form 8-K

"We also increased our dividend again in the first quarter of 2003," Mr. Ward concluded. "Following the pattern established for more than seven years, our cash dividend increased again by another \$0.01 to \$0.27 per share per quarter. This results in an annual dividend of \$1.08 per share, which in turn produces an annual dividend yield of 3.30% based on the March 31 closing price -- excellent in this continued low interest rate environment. In our opinion, the combination of all the factors presented here -- strong earnings, asset growth, excellent credit quality, as well as our stock price and dividend yield -- reinforce the attractiveness of FNLC as an investment."

First National Lincoln Corporation, headquartered in Damariscotta, Maine, is the holding company for The First National Bank of Damariscotta and Pemaquid Advisors. The First is an independent community bank serving Mid-Coast Maine with seven offices in Lincoln and Knox Counties that provide consumer and commercial banking products and services. Pemaquid Advisors provides investment advisory, private banking and trust services from offices in Damariscotta, Boothbay Harbor, and Portland, Maine.
