This current report includes forward-looking statements. Edison International based these forward-looking statements on its current expectations and projections about future events in light of its knowledge of facts as of the date of this current report and its assumptions about future circumstances. These forward-looking statements are subject to various risks and uncertainties that may be outside the control of Edison International. Edison International has no obligation to publicly update or revise any forward-looking statements, whether due to new information, future events, or otherwise. This current report should be read with Edison International's Annual Report on Form 10-K for the year ended December 31, 2009 and subsequent Quarterly Reports.

Item 8.01 Other Events

On November 8, 2010, Southern California Edison Company ("SCE"), Edison International's subsidiary, entered into an agreement to sell its ownership interest in Units 4 and 5 of the Four Corners coal-fired electric generating facility located in Farmington, New Mexico to the operator of the facility, Arizona Public Service Company. The sale price is \$294 million, subject to certain adjustments, and the associated after-tax gain will be for the benefit of SCE's ratepayers and, therefore, will not affect SCE's earnings. In addition, completion of the sale will not have a material impact on SCE's rate base. The closing of the sale is contingent upon the receipt of regulatory approvals, execution of amendments extending the existing facility lease, execution of a new coal supply contract, and other specified closing conditions and is currently estimated to occur in the second half of 2012.
