Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB/A

The accompanying notes are an integral part of these consolidated statements. The 2003 and 2002 financial information is unaudited.

FOOTNOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The accompanying statements, which should be read in conjunction with the Consolidated Financial Statements included in the November 30, 2002 fiscal year end Annual Report filed on Form 10-KSB, are unaudited but have been prepared in the ordinary course of business for the purpose of providing information with respect to the interim periods, and are subject to audit at the close of the year. However, it is the opinion of the management of the Company that all adjustments (none of which were other than normal recurring accruals) necessary for a fair presentation of such periods have been included.

The Consolidated Financial Statements prepared for fiscal years 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993, 1992 and 1991 were unaudited because the Company elected to not incur the expense of an audit and to conserve its cash for other corporate requirements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

First quarter ended February 28, 2003 compared to the first quarter ended February 28, 2002

For the first quarter ended February 28, 2003, the Registrant had revenues of \$774,724, which resulted in a net loss of \$96,031 or \$0.03 per share. For the first quarter ended February 28, 2002, the Registrant had revenues of \$463,467, which resulted in a net loss of \$419,338 or \$0.15 per share.

The revenues in the first quarter of 2003 increased from 2002 as a result of an increase in sales from \$410,919 to \$703,207, an increase in royalty income of \$19,583. The sales at the Registrant's silica sand operation increased as a result an increase in demand for the Registrant's low iron glass sand and bunker sand. The increased demand will continue into part of the second quarter, but then is expected to return to prior levels for the remainder of the year.

The costs and expenses were \$870,755 and \$882,805 in the first quarter of 2003 and 2002, respectively. The cost of sales increased by \$209,335 from 2002 to 2003 due primarily to the increased demand for glass sand and increased mining and tailing costs. The G&A decreased slightly from 2002 to 2003. Some of the expenses contained in the general and administrative costs pertaining to salaries of the officers and deferred compensation have been accrued but not paid, as the Company is conserving its cash. The Registrant's loss on investment from its affiliated venture Rossborough-Remacor LLC (R-R) decreased by \$223,201 as the losses exceeded the Registrant's investment and obligations. R-R has remained in a loss position, as sales were slow during the first quarter. R-R is continuing its program of trying to reduce costs and improve both sales and product margins. The operations of R-R will require continued cooperation from its suppliers, and R-R is negotiating with them to reduce past due unsecured debt. R-R is continuing to evaluate all its options including bankruptcy.

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB/A

Liquidity and Capital Resources

Period from December 1, 2001 to February 28, 2002

The Company's net cash provided (used) by operating activities was \$58,827 and \$(15,404) for the first quarter ended February 28, 2003 and 2002, respectively. The net cash used by investing activities was \$19,633 and \$0 for the same three months in 2003 and 2002, respectively. For 2003, the capital expenditures were for capital improvements to the sand project. The Company decreased its long-term debt by \$47,624 and \$121 for the three months ended February 28, 2003 and 2002, respectively. The Company's cash and cash equivalents decreased by \$8,430 and \$15,525 for the three months ended February 28, 2003 and 2002, respectively.

The Company had working capital deficits of approximately \$6.64 million and \$6.13 million for the three months ended February 28, 2003 and the year ended November 30, 2002, respectively. The working capital deficit increased as a result of the operating losses. As part of the Company's program to conserve cash in order to operate the company, part of the salaries due to the officers of the Company, all of the deferred compensation due to the deceased chairman's spouse, and part of the interest due on certain loans were accrued but not paid for the three months ended February 28, 2003. As of February 28, 2003, these accruals (salaries, deferred compensation and deferred interest) exceeded \$5.8 million. For the current year, the Company plans to continue to accrue part of the obligations described in the preceding paragraph and expects to continue to generate sufficient cash flow to operate.

Forward-Looking Statements. The Company may from time to time make written or oral "forward-looking statements", within the meaning of the Private Securities Litigation Reform Act of 1995, including statements contained in this Form 10QSB and in other documents filed by the Company with the Securities and Exchange Commission and in its reports to stockholders, as well as elsewhere. "Forward-looking statements" are statements such as those contained in projections, plans, objectives, estimates, statements of future economic performance, and assumptions related to any of the foregoing, and may be identified by the use of forward-looking terminology, such as "may", "expect", "anticipate", "estimate", "goal", "continued", or other comparable terminology. By their very nature, forward-looking statements are subject to known and unknown risks and uncertainties relating to the Company's future performance that may cause the actual results, performance or achievements of the Company, or industry results, to differ materially from those expressed or implied in such "forward-looking statements". Any such statement is qualified by reference to the following cautionary statements.

The Company's business operates in highly competitive markets and is subject to changes in general economic conditions, competition, customer and market preferences, government regulation, the impact of tax regulation, foreign exchange rate fluctuations, the degree of market acceptance of the products, the uncertainties of potential litigation, as well as other risks and uncertainties detailed elsewhere herein and from time to time in the Company's Securities and Exchange Commission filings. This Form 10QSB contains forward looking statements, particularly in the section: Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Part II Item 5, Other information, and in some of the footnotes to the financial statements. Actual results could differ materially from those projected in the forward looking statements

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB/A

as a result of known and unknown risks, uncertainties, and other factors, including but not limited market acceptance of the Company's products and services, changes in expected research and development requirements, and the effects of changing economic conditions and business conditions generally. The Company does not undertake and assumes no obligation to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Registrant's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures within 90 days of this report. Based on that evaluation, the Registrant's management, including the CEO and CFO, concluded that the Registrant's disclosure controls and procedures were effective as of August 31, 2002.

Changes in Internal Controls

There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation.
