NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share amounts)

(Unaudited)

1. Interim reporting

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with instructions to Form 10-Q and do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with the consolidated financial statements and notes thereto, and the Company's description of critical accounting policies, included in the Company's 2012 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission.

2. Acquisitions

Marazzi Acquisition

On December 20, 2012, the Company entered into a share purchase agreement (the "Share Purchase Agreement") with LuxELIT S.á r.l., a Luxembourg limited liability company, and Finceramica S.p.A., an Italian corporation (collectively, "Sellers"), to acquire the shares of Fintiles S.p.A., an Italian corporation ("Marazzi"). On April 3, 2013, pursuant to the terms of the Share Purchase Agreement, the Company completed the acquisition of Marazzi for a purchase price of \$1,522,731, including assumed indebtedness. The Marazzi results are reflected in the Ceramic segment.

The equity value of Marazzi was paid to the Sellers in cash and in the Company's common stock (the "Shares"). The number of Shares transferred as part of the consideration was calculated using the average closing price for the Company's common stock over a 30-day trading period ending March 19, 2013.

Pursuant to the Share Purchase Agreement, the Company (i) acquired the entire issued share capital of Marazzi and (ii) assumed \$901,773 of indebtedness of Marazzi, in exchange for the following consideration:

• A cash payment of \$307,052; and

• 2,874 newly issued Shares for a value of \$313,906.

The Company funded the cash portion of the Marazzi acquisition through a combination of proceeds from the 3.85% Senior Notes (as discussed in Note 16), cash on hand and borrowings under the 2011 Senior Credit Facility. The Company incurred \$14,214 of direct transaction costs, which are recorded in selling, general and administrative expenses for the nine months ended September 28, 2013.

The Marazzi acquisition makes the Company a global leader in ceramic tile. The addition of Marazzi will allow the Company to expand its U.S. distribution, source ceramic tile from a worldwide base, and provide industry leading innovation and design to all of its global ceramic customers. The acquisition will provide opportunities to improve performance by leveraging best practices, operational expertise, product innovation and manufacturing assets across the enterprise.

Table of Contents

The Company is continuing to obtain information to complete its valuation of intangible assets, as well as to determine the value of the acquired assets and liabilities including tax assets, liabilities and other attributes. In connection with the acquisition of Marazzi, the Company became a party to an off-balance sheet accounts receivable securitization facility ("Marazzi Securitization Facility") pursuant to which the Company services receivables sold to a third party. As of September 28, 2013, the amount utilized under the Marazzi Securitization Facility was €51,814. The Company is in the process of terminating this facility.

Other Acquisitions

On January 10, 2013, the Company completed its purchase of Pergo, a leading manufacturer of laminate flooring in the U.S. and the Nordic countries. The total value of the acquisition was approximately \$150,000. The factors contributing to the recognition of the amount of goodwill include the opportunity to optimize the assets of Pergo with the Company's existing Laminate and Wood assets while strengthening the design and product performance of the Pergo and Unilin brands. The Pergo results are reflected in the Laminate and Wood segment. On May 3, 2013, the Company completed the acquisition of Spano, a Belgian panel board manufacturer. Sales attributable to discontinued operations for the three and nine months ended September 28, 2013 were immaterial. The net assets held for sale related to the discontinued operations as of September 28, 2013 are reported in cash, receivables, inventories, deferred income taxes, other current assets, accounts payable and other accrued expenses and other long-term liabilities on the consolidated balance sheet as of September 28, 2013, as they are immaterial for separate balance sheet presentation.

Codification topic (“ASC”) 718-10. Compensation expense is recognized on a straight-line basis over the options’ or other awards’ estimated lives for fixed awards with ratable vesting provisions.

Under the Company’s 2012 Incentive Plan (“2012 Plan”), the Company's principal stock compensation plan as of May 9, 2012, the Company reserved up to a maximum of 3,200 shares of common stock for issuance upon the grant or exercise of stock options, restricted stock, restricted stock units (“RSUs”) and other types of awards, to directors and key employees through 2022. Option awards are granted with an exercise price equal to the market price of the Company’s common stock on the date of the grant and generally vest between three and five years with a 10-year contractual term. Restricted stock and RSUs are granted with a price equal to the market price of the Company’s common stock on the date of the grant and generally vest between three and five years.

14. Segment reporting

In connection with the Marazzi acquisition, the Company revised the names of its segments and, beginning in the second quarter of 2013, now refers to the Mohawk segment as the Carpet segment, the Dal-Tile segment as the Ceramic segment and the Unilin segment as the Laminate and Wood segment. Only the names of the segments are affected by the change and therefore no prior period financial information changed.

The Company has three reporting segments: the Carpet segment, the Ceramic segment and the Laminate and Wood segment. The Carpet segment designs, manufactures, sources, distributes and markets its floor covering product lines, which principally include carpets, modular carpet tiles, rugs, mats and carpet pads, primarily in North America through its network of regional distribution centers and satellite warehouses using Company-operated trucks, common carriers or rail transportation. This segment's product lines are sold through various selling channels, which include independent floor covering retailers, home centers, mass merchandisers, department stores, commercial dealers and commercial end users. The Ceramic segment designs, manufactures, sources, distributes and markets a broad line of ceramic tile, porcelain tile, natural stone and other products, primarily in North America, Europe and Russia. This segment's product lines are sold to various selling channels including independent distributors, home center retailers, tile and flooring retailers and contractors. The Laminate and Wood segment designs, manufactures, sources, licenses, distributes and markets laminate and hardwood flooring, roofing systems, insulation panels and other wood products, primarily in Europe and North America. This segment's product lines are sold through various selling channels including retailers, independent distributors and home centers.

The accounting policies for each operating segment are consistent with the Company's policies for the consolidated financial statements. Amounts disclosed for each segment are prior to any elimination or consolidation entries.

Corporate general and administrative expenses attributable to each segment are estimated and allocated accordingly. Segment performance is evaluated based on operating income.

15. Commitments, contingencies and other

The Company is involved in litigation from time to time in the regular course of its business. Except as noted below, there are no material legal proceedings pending or known by the Company to be contemplated to which the Company is a party or to which any of its property is subject.

Beginning in August 2010, a series of civil lawsuits were initiated in several U.S. federal courts alleging that certain manufacturers of polyurethane foam products and competitors of the Company's carpet underlay division had engaged in price fixing in violation of U.S. antitrust laws. The Company has been named as a defendant in a number of the individual cases (the first filed on August 26, 2010), as well as in two consolidated amended class action complaints, the first filed on February 28, 2011, on behalf of a class of all direct purchasers of polyurethane foam products, and the second filed on March 21, 2011, on behalf of a class of indirect purchasers. All pending cases in which the Company has been named as a defendant have been filed in or transferred to the U.S. District Court for the Northern District of Ohio for consolidated pre-trial proceedings under the name In re: Polyurethane Foam Antitrust Litigation, Case No. 1:10-MDL-02196.

In these actions, the plaintiffs, on behalf of themselves and/or a class of purchasers, seek three times the amount of unspecified damages allegedly suffered as a result of alleged overcharges in the price of polyurethane foam products from at least 1999 to the present. Each plaintiff also seeks attorney fees, pre-judgment and post-judgment interest, court costs, and injunctive relief against future violations. In April 2011, the Company filed a motion to dismiss the class action claims brought by the direct purchasers, and in May 2011, the Company moved to dismiss the claims brought by the indirect purchasers. On July 19, 2011, the Court issued a written opinion denying all defendants'

motions to dismiss. In December 2011, the Company was named as a defendant in a Canadian Class action, Hi ! Neighbor Floor Covering Co. Limited v. Hickory Springs Manufacturing Company, et al., filed in the Superior Court of Justice of Ontario, Canada and Options Consommateurs v. Vitafoam, Inc. et.al., filed in the Superior Court of Justice of Quebec, Montreal, Canada, both of which allege similar claims against the Company as raised in the U.S. actions and seek unspecified damages and punitive damages. The Company denies all of the allegations in these actions and will vigorously defend itself.

The Company believes that adequate provisions for resolution of all contingencies, claims and pending litigation have been made for probable losses that are reasonably estimable. These contingencies are subject to significant uncertainties and

we are unable to estimate the amount or range of loss, if any, in excess of amounts accrued. The Company does not believe that the ultimate outcome of these actions will have a material adverse effect on its financial condition but could have a material adverse effect on its results of operations, cash flows or liquidity in a given quarter or year. In January 2012, the Company received a €23,789 assessment from the Belgian tax authority related to its year ended December 31, 2008, asserting that the Company had understated its Belgian taxable income for that year. The Company filed a formal protest in the first quarter of 2012 refuting the Belgian tax authority's position and in order to eliminate the accrual of additional interest on the assessed amount, the Company remitted payment of the tax assessment, plus applicable interest of €2,912 (collectively, the "Deposit"). In July 2012, the Company received notification of the Belgian tax authority's intention to extend the statute of limitations back to and including the tax year 2005. On September 10, 2012, the Company received notice from the Belgian tax authority setting aside the 2008 assessment and refunding the Deposit to the Company. On October 23, 2012, the Company received notification from the Belgian tax authority of its intent to increase the Company's tax base for the 2008 tax year under a revised theory. On December 28, 2012, the Company received the refund of the Deposit of €23,789. On January 30, 2013, the Company received a refund of the interest Deposit of €2,912 and interest income of €1,583 earned on the Deposit.

On December 28, 2012, the Belgian taxing authority issued assessments under a revised theory related to the years ended December 31, 2005 and December 31, 2009, in the amounts of €46,135 and €35,567, respectively, excluding potential interest and penalties. The Company timely filed formal protests in the first quarter of 2013 for the years assessed. In July 2013, the Company received notifications from the Belgian taxing authority of its intent to increase the Company's tax base in connection with the Company's 2006, 2007 and 2010 tax years. The adjustments proposed relate to the same income items assessed with regard to the 2005 and 2009 tax years. The Company disagrees with the view of the Belgian taxing authority, is reviewing the notifications and intends to continue to vigorously defend itself and contest the proposed changes. Although there can be no assurances, the Company believes the ultimate outcome of these actions will not have a material adverse effect on its financial condition but could have a material adverse effect on its results of operations, liquidity or cash flows in a given quarter or year.

Senior Credit Facilities

On July 8, 2011, the Company entered into a \$900,000, 5-year, senior, secured revolving credit facility (the "2011 Senior Credit Facility"). On January 20, 2012, the Company entered into an amendment to the 2011 Senior Credit Facility that provided for an incremental term loan facility in the aggregate principal amount of \$150,000. On September 25, 2013, the Company entered into a \$1,000,000, 5-year, senior revolving credit facility (the "2013 Senior Credit Facility") and terminated the 2011 Senior Credit Facility, including the term loan, which was originally set to mature on July 8, 2016. No early termination penalties were incurred as a result of the termination.

The 2011 Senior Credit Facility provided for a maximum of \$900,000 of revolving credit, including limited amounts of credit in the form of letters of credit and swingline loans. The Company paid financing costs of \$8,285 in connection with its 2011 Senior Credit Facility. These costs were deferred and, along with unamortized costs of \$12,277 related to the Company's prior senior, secured revolving credit facility, were being amortized over the term of the 2011 Senior Credit Facility.

On January 20, 2012, the Company entered into an amendment to the 2011 Senior Credit Facility that provided for an incremental term loan facility in the aggregate principal amount of \$150,000. The Company paid financing costs of \$1,018 in connection with the amendment to its 2011 Senior Credit Facility. These costs were deferred and were being amortized over the remaining term of the 2011 Senior Credit Facility. The incremental term loan facility provided for eight scheduled quarterly principal payments of \$1,875, with the first such payment due on June 30, 2012, followed

by four scheduled quarterly principal payments of \$3,750, with remaining quarterly principal payments of \$5,625 prior to maturity.

At the Company's election, revolving loans under the 2011 Senior Credit Facility bore interest at annual rates equal to either (a) LIBOR for 1-, 2-, 3- or 6- month periods, as selected by the Company, plus an applicable margin ranging between 1.25% and 2.0%, or (b) the higher of the Bank of America, N.A. prime rate, the Federal Funds rate plus 0.5%, and a monthly LIBOR rate plus 1.0%, plus an applicable margin ranging between 0.25% and 1.0%. The Company also paid a commitment fee to the lenders under the 2011 Senior Credit Facility on the average amount by which the aggregate commitments of the lenders exceeded utilization of the 2011 Senior Credit Facility ranging from 0.25% to 0.4% per annum. The applicable margin and the commitment fee were determined based on the Company's Consolidated Net Leverage Ratio (with applicable margins and the commitment fee increasing as the ratio increased).

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

All obligations of the Company and the other borrowers under the 2011 Senior Credit Facility were required to be guaranteed by all of the Company's material domestic subsidiaries, and all obligations of borrowers that were foreign subsidiaries were guaranteed by those foreign subsidiaries of the Company which the Company designated as guarantors.

The 2011 Senior Credit Facility included certain affirmative and negative covenants that imposed restrictions on the Company's financial and business operations, including limitations on liens, indebtedness, investments, fundamental changes, asset dispositions, dividends and other similar restricted payments, transactions with affiliates, payments and modifications of certain existing debt, future negative pledges, and changes in the nature of the Company's business. Many of these limitations were subject to numerous exceptions. The Company was also required to maintain a Consolidated Interest Coverage Ratio of at least 3.0 to 1.0 and a Consolidated Net Leverage Ratio of no more than 3.75 to 1.0, each as of the last day of any fiscal quarter, as defined in the 2011 Senior Credit Facility. The 2011 Senior Credit Facility also contained customary representations and warranties and events of default, subject to customary grace periods.

The 2013 Senior Credit Facility provides for a maximum of \$1,000,000 of revolving credit, including limited amounts of credit in the form of letters of credit and swingline loans. The Company paid financing costs of \$1,836 in connection with its 2013 Senior Credit Facility. These costs were deferred and, along with unamortized costs of \$11,440 related to the Company's 2011 Credit Facility, are being amortized over the term of the 2013 Senior Credit Facility.

At the Company's election, revolving loans under the 2013 Senior Credit Facility bear interest at annual rates equal to either (a) LIBOR for 1, 2, 3 or 6 month periods, as selected by the Company, plus an applicable margin ranging between 1.00% and 1.75%, or (b) the higher of the Wells Fargo Bank, National Association prime rate, the Federal Funds rate plus 0.5%, and a monthly LIBOR rate plus 1.0%, plus an applicable margin ranging between 0.00% and 0.75%. The Company also pays a commitment fee to the Lenders under the 2013 Senior Credit Facility on the average amount by which the aggregate commitments of the Lenders' exceed utilization of the 2013 Senior Credit Facility ranging from 0.125% to 0.25% per annum. The applicable margins and the commitment fee are determined based on whichever of the Company's Consolidated Net Leverage Ratio or its senior unsecured debt rating (or if not available, corporate family rating) results in the lower applicable margins and commitment fee (with applicable margins and the commitment fee increasing as that ratio increases or those ratings decline, as applicable).

The obligations of the Company and its subsidiaries in respect of the 2013 Senior Credit Facility are unsecured. All obligations of the Company and the other Borrowers under the 2013 Senior Credit Facility are required to be guaranteed by all of the Company's material domestic subsidiaries and all obligations of Borrowers that are foreign subsidiaries are guaranteed by those foreign subsidiaries of the Company which the Company designates as guarantors.

Senior Notes

On January 31, 2013, the Company issued \$600,000 aggregate principal amount of 3.85% Senior Notes due February 1, 2023. The Company paid financing costs of \$6,000 in connection with the 3.85% Senior Notes. These costs were deferred and are being amortized over the term of the 3.85% Senior Notes.

On January 17, 2006, the Company issued \$900,000 aggregate principal amount of 6.125% notes due January 15, 2016. Interest payable on these notes is subject to adjustment if either Moody's or S&P, or both, upgrades or downgrades the rating assigned to the notes. Each rating agency downgrade results in a 0.25% increase in the interest rate, subject to a maximum increase of 1% per rating agency. If later the rating of these notes improves, then the interest rates would be reduced accordingly. Each 0.25% increase in the interest rate of these notes would increase the Company's interest expense by approximately \$63 per quarter per \$100,000 of outstanding notes. In 2009, interest rates increased by an aggregate amount of 75 basis points as a result of downgrades by Moody's and S&P. In the first quarter of 2012, interest rates decreased by 50 basis points as a result of the upgrades from S&P and Moody's. Accordingly, the current rate in effect is 6.375%. Any future downgrades in the Company's credit ratings could increase the cost of its existing credit and adversely affect the cost of and ability to obtain additional credit in the future.

In 2002, the Company issued \$400,000 aggregate principal amount of its senior 7.20% notes due April 15, 2012. During 2011, the Company repurchased \$63,730 of its senior 7.20% notes, at an average price equal to 102.72% of the principal amount. On April 16, 2012, the Company repaid the remaining \$336,270 principal amount of outstanding senior 7.20% notes, together with accrued interest of \$12,106, at maturity using available borrowings under its 2011 Senior Credit Facility.

Borrowings under the Securitization Facility bear interest at commercial paper interest rates, in the case of lenders that are commercial paper conduits, or LIBOR, in the case of lenders that are not commercial paper conduits, in each case, plus an applicable margin of 0.75% per annum. The Company also pays a commitment fee at a per annum rate of 0.30% on the unused amount of each lender's commitment. At September 28, 2013, the amount utilized under the Securitization Facility was \$300,000.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company is the world's largest flooring manufacturer. The Company is the largest manufacturer of ceramic tile and the second largest carpet and rug manufacturer, as well as a leading producer of laminate flooring in Europe and the U.S. The Company continues to expand its international presence in Australia, Brazil, China, France, India, Malaysia, Mexico and Russia through acquisitions and internal expansion. The Company had annual net sales in 2012 of \$5.8 billion.

In connection with the Marazzi acquisition, the Company revised the names of its segments and, beginning in the second quarter of 2013, now refers to the Mohawk segment as the Carpet segment, the Dal-Tile segment as the Ceramic segment and the Unilin segment as the Laminate and Wood segment. Only the names of the segments are affected by the change and therefore no prior period financial information changed.

The Company has three reporting segments: the Carpet segment, the Ceramic segment and the Laminate and Wood segment. The Carpet segment designs, manufactures, sources, distributes and markets its floor covering product lines, which principally include carpets, modular carpet tiles, rugs, mats and carpet pads, primarily in North America through its network of regional distribution centers and satellite warehouses using Company-operated trucks, common carriers or rail transportation. This segment's product lines are sold through various selling channels, which include independent floor covering retailers, home centers, mass merchandisers, department stores, commercial dealers and commercial end users. The Ceramic segment designs, manufactures, sources, distributes and markets a broad line of ceramic tile, porcelain tile, natural stone and other products, primarily in North America, Europe, and Russia. This segment's product lines are sold to various selling channels including independent distributors, home center retailers, tile and flooring retailers and contractors. The Laminate and Wood segment designs, manufactures, sources, licenses, distributes and markets laminate and hardwood flooring, roofing systems, insulation panels and other wood products, primarily in Europe and North America. This segment's product lines are sold through various selling channels including retailers, independent distributors and home centers.

In 2012, the primary categories of the U.S. floor covering industry, based on sales dollars, were carpet and rug (52%), resilient and rubber (14%), ceramic tile (13%), hardwood (10%), stone (6%) and laminate (5%). Each of these categories is influenced by the average selling price per square foot, the residential builder and homeowner remodeling markets, housing starts and housing resales, average house size and home ownership. In addition, the level of sales in the floor covering industry, both in the U.S. and Europe, is influenced by consumer confidence, spending for durable goods, interest rates and availability of credit, turnover in housing, the condition of the residential and commercial construction industries and the overall strength of the economy.

For the three months ended September 28, 2013, net earnings attributable to the Company were \$119.1 million, or diluted earnings per share ("EPS") of \$1.63, compared to the net earnings attributable to the Company of \$70.3 million, or diluted EPS of \$1.01, for the three months ended September 29, 2012. For the nine months ended September 28, 2013, net earnings attributable to the Company were \$254.1 million, or diluted EPS of \$3.53, compared to the net earnings attributable to the Company of \$183.9 million, or diluted EPS of \$2.66, for the nine months ended September 29, 2012. The increase in diluted EPS for the three and nine months ended September 28, 2013 was primarily attributable to the Marazzi, Pergo and Spano acquisitions, increased operations productivity, higher legacy sales volume, the favorable net impact of price and product mix and lower amortization expense, partially offset by higher restructuring, acquisition and integration-related costs, inventory step-up related to the Marazzi acquisition, higher input costs and higher interest expense.

Recent Acquisitions

On January 10, 2013, the Company completed its purchase of Pergo, a leading manufacturer of laminate flooring in the U.S. and the Nordic countries. On July 8, 2011, the Company entered into a \$900.0 million, 5-year, senior, secured revolving credit facility (the "2011 Senior Credit Facility"). On January 20, 2012, the Company entered into an amendment to the 2011 Senior Credit Facility that provided for an incremental term loan facility in the aggregate principal amount of \$150.0 million. On September 25, 2013, the Company entered into a \$1,000.0 million, 5-year, senior revolving credit facility (the "2013 Senior Credit Facility") and terminated the 2011 Senior Credit Facility, including the term loan, which was originally set to mature on July 8, 2016. No early termination penalties were incurred as a result of the termination.

The 2011 Senior Credit Facility provided for a maximum of \$900.0 million of revolving credit, including limited amounts of credit in the form of letters of credit and swingline loans. The Company paid financing costs of \$8.3 million in connection with its 2011 Senior Credit Facility. These costs were deferred and, along with unamortized costs of \$12.3 million related to the Company's prior senior, secured revolving credit facility, were being amortized over the term of the 2011 Senior Credit Facility.

On January 20, 2012, the Company entered into an amendment to the 2011 Senior Credit Facility that provided for an incremental term loan facility in the aggregate principal amount of \$150.0 million. The Company paid financing costs of \$1.0 million in connection with the amendment to its 2011 Senior Credit Facility. These costs were deferred and were being amortized over the remaining term of the 2011 Senior Credit Facility. The incremental term loan facility provided for eight scheduled quarterly principal payments of \$1.9 million, with the first such payment due on June 30, 2012, followed by four scheduled quarterly principal payments of \$3.8 million, with remaining quarterly principal payments of \$5.6 million prior to maturity.

At the Company's election, revolving loans under the 2011 Senior Credit Facility bore interest at annual rates equal to either (a) LIBOR for 1-, 2-, 3- or 6- month periods, as selected by the Company, plus an applicable margin ranging between 1.25% and 2.0%, or (b) the higher of the Bank of America, N.A. prime rate, the Federal Funds rate plus 0.5%, and a monthly LIBOR rate plus 1.0%, plus an applicable margin ranging between 0.25% and 1.0%. The Company also paid a commitment fee to the lenders under the 2011 Senior Credit Facility on the average amount by which the aggregate commitments of the lenders exceeded utilization of the 2011 Senior Credit Facility ranging from 0.25% to 0.4% per annum. The applicable margin and the commitment fee were determined based on the Company's Consolidated Net Leverage Ratio (with applicable margins and the commitment fee increasing as the ratio increased).

All obligations of the Company and the other borrowers under the 2011 Senior Credit Facility were required to be guaranteed by all of the Company's material domestic subsidiaries, and all obligations of borrowers that were foreign subsidiaries were guaranteed by those foreign subsidiaries of the Company which the Company designated as guarantors.

The 2011 Senior Credit Facility included certain affirmative and negative covenants that imposed restrictions on the Company's financial and business operations, including limitations on liens, indebtedness, investments, fundamental changes, asset dispositions, dividends and other similar restricted payments, transactions with affiliates, payments and modifications of certain existing debt, future negative pledges, and changes in the nature of the Company's business. Many of these limitations were subject to numerous exceptions. The Company was also required to maintain a Consolidated Interest Coverage Ratio of at least 3.0 to 1.0 and a Consolidated Net Leverage Ratio of no more than 3.75 to 1.0, each as of the last day of any fiscal quarter, as defined in the 2011 Senior Credit Facility. The 2011 Senior Credit Facility also contained customary representations and warranties and events of default, subject to customary grace periods.

The 2013 Senior Credit Facility provides for a maximum of \$1,000.0 million of revolving credit, including limited amounts of credit in the form of letters of credit and swingline loans. The Company paid financing costs of \$1.8 million in

connection with its 2013 Senior Credit Facility. These costs were deferred and, along with unamortized costs of \$11.4 million related to the Company's 2011 Credit Facility, are being amortized over the term of the 2013 Senior Credit Facility.

At the Company's election, revolving loans under the 2013 Senior Credit Facility bear interest at annual rates equal to either (a) LIBOR for 1, 2, 3 or 6 month periods, as selected by the Company, plus an applicable margin ranging between 1.00% and 1.75%, or (b) the higher of the Wells Fargo Bank, National Association prime rate, the Federal Funds rate plus 0.5%, and a monthly LIBOR rate plus 1.0%, plus an applicable margin ranging between 0.00% and 0.75%. The Company also pays a commitment fee to the Lenders under the 2013 Senior Credit Facility on the average amount by which the aggregate commitments of the Lenders' exceed utilization of the 2013 Senior Credit Facility ranging from 0.125% to 0.25% per annum. The applicable margins and the commitment fee are determined based on whichever of the Company's Consolidated Net Leverage Ratio or its senior unsecured debt rating (or if not available, corporate family rating) results in the lower applicable margins and commitment fee (with applicable margins and the commitment fee increasing as that ratio increases or those ratings decline, as applicable).

The obligations of the Company and its subsidiaries in respect of the 2013 Senior Credit Facility are unsecured. All obligations of the Company and the other Borrowers under the 2013 Senior Credit Facility are required to be guaranteed by all of the Company's material domestic subsidiaries and all obligations of Borrowers that are foreign subsidiaries are guaranteed by those foreign subsidiaries of the Company which the Company designates as guarantors.

If at any time (a) either (i) the Company's corporate family rating or senior unsecured rating, whichever is in effect from Moody's Investors Service, Inc. (the "Moody's Rating") is Baa3 or better (with a stable outlook or better) and the Company's corporate rating from Standard & Poor's Financial Services LLC (the "S&P Rating") is BB+ or better (with a stable outlook or better) or (ii) the Moody's Rating is Ba1 or better (with a stable outlook or better) and the S&P Rating is BBB- or better (with a stable outlook or better) and (b) no default or event of default shall have occurred and be continuing, then upon the Company's request, the foregoing guarantees will be automatically released. The Company is required to reinstate such guarantees after having been released if: (a) both (i) the Moody's Rating is Ba2 and (ii) the S&P Rating is BB, (b) (i) the Moody's Rating is Ba3 or lower and (ii) the S&P Rating is below BBB- (with a stable outlook or better) or (c) (i) the Moody's Rating is below Baa3 (with a stable outlook or better) and (ii) the S&P Rating is BB- or lower.

The 2013 Senior Credit Facility includes certain affirmative and negative covenants that impose restrictions on the Company's financial and business operations, including limitations on liens, indebtedness, investments, fundamental changes, asset dispositions, dividends and other similar restricted payments, transactions with affiliates, payments and modifications of certain existing debt, future negative pledges, and changes in the nature of the Company's business. Many of these limitations are subject to numerous exceptions. The Company is also required to maintain a Consolidated Interest Coverage Ratio of at least 3.0 to 1.0 and a Consolidated Net Leverage Ratio of no more than 3.75 to 1.0, each as of the last day of any fiscal quarter.

The 2013 Senior Credit Facility also contains customary representations and warranties and events of default, subject to customary grace periods.

As of September 28, 2013, the amount utilized under the 2013 Senior Credit Facility was \$543.9 million resulting in a total of \$456.1 million available under the 2013 Senior Credit Facility. The amount utilized included \$449.3 million of borrowings, \$46.8 million of standby letters of credit guaranteeing the Company's industrial revenue bonds and \$47.8 million of standby letters of credit related to various insurance contracts and foreign vendor commitments.

On December 19, 2012, the Company entered into a three-year on-balance sheet trade accounts receivable securitization agreement (the "Securitization Facility"). The Securitization Facility allows the Company to borrow up to \$300.0 million based on available accounts receivable and is secured by the Company's U.S. trade accounts

receivable. Borrowings under the Securitization Facility bear interest at commercial paper interest rates, in the case of lenders that are commercial paper conduits, or LIBOR, in the case of lenders that are not commercial paper conduits, in each case, plus an applicable margin of 0.75% per annum. The Company also pays a commitment fee at a per annum rate of 0.30% on the unused amount of each lender's commitment. At September 28, 2013, the amount utilized under the Securitization Facility was \$300.0 million.

In connection with the acquisition of Marazzi, the Company became a party to an off-balance sheet accounts receivable securitization facility ("Marazzi Securitization Facility") pursuant to which the Company services receivables sold to a third party. As of September 28, 2013, the amounts utilized under the Marazzi Securitization Facility was €51.8 million. The Company is in the process of terminating this facility.

On January 31, 2013, the Company issued \$600.0 million aggregate principal amount of 3.85% Senior Notes due February 1, 2023. The Company paid financing costs of \$6.0 million in connection with the 3.85% Senior Notes. These costs were deferred and are being amortized over the term of the 3.85% Senior Notes.

On January 17, 2006, the Company issued \$900.0 million aggregate principal amount of 6.125% notes due January 15, 2016. Interest payable on these notes is subject to adjustment if either Moody's or S&P, or both, upgrades or downgrades the rating assigned to the notes. Each rating agency downgrade results in a 0.25% increase in the interest rate, subject to a maximum increase of 1% per rating agency. If later the rating of these notes improves, then the interest rates would be reduced accordingly. Each 0.25% increase in the interest rate of these notes would increase the Company's interest expense by approximately \$0.1 million per quarter per \$100.0 million of outstanding notes. In 2009, interest rates increased by an aggregate amount of 75 basis points as a result of downgrades by Moody's and S&P. In the first quarter of 2012, interest rates decreased by 50 basis points as a result of the upgrades from S&P and Moody's. Accordingly, the current rate in effect is 6.375%. Any future downgrades in the Company's credit ratings could increase the cost of its existing credit and adversely affect the cost of and ability to obtain additional credit in the future.

In 2002, the Company issued \$400.0 million aggregate principal amount of its senior 7.20% notes due April 15, 2012. During 2011, the Company repurchased \$63.7 million of its senior 7.20% notes, at an average price equal to 102.72% of the principal amount. On April 16, 2012, the Company repaid the remaining \$336.3 million principal amount of outstanding senior 7.20% notes, together with accrued interest of \$12.1 million, at maturity using available borrowings under its 2011 Senior Credit Facility.

The Company may continue, from time to time, to retire its outstanding debt through cash purchases in the open market, privately negotiated transactions or otherwise. Such repurchases, if any, will depend on prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors. The amount involved may be material.

As of September 28, 2013, the Company had cash of \$63.6 million, of which \$15.3 million was held outside the United States. While the Company's plans are to permanently reinvest the cash held outside the United States, the estimated cost of repatriation for the cash as of September 28, 2013 was approximately \$5.3 million. The Company believes that its cash and cash equivalents on hand, cash generated from operations and availability under its Senior Credit Facility will be sufficient to meet its capital expenditure, working capital and debt servicing requirements over the next twelve months.

Contractual Obligations

There have been no significant changes to the Company's contractual obligations as disclosed in the Company's 2012 Annual Report filed on Form 10-K.

Critical Accounting Policies and Estimates

There have been no significant changes to the Company's critical accounting policies and estimates during the period. The Company's critical accounting policies and estimates are described in its 2012 Annual Report filed on Form 10-K.

Impact of Inflation

Inflation affects the Company's manufacturing costs, distribution costs and operating expenses. The Company expects raw material prices, many of which are petroleum based, to fluctuate based upon worldwide supply and demand of commodities utilized in the Company's production processes. Although the Company attempts to pass on increases in

raw material, energy and fuel-related costs to its customers, the Company's ability to do so is dependent upon the rate and magnitude of any increase, competitive pressures and market conditions for the Company's products. There have been in the past, and may be in the future, periods of time during which increases in these costs cannot be fully recovered. In the past, the Company has often been able to enhance productivity and develop new product innovations to help offset increases in costs resulting from inflation in its operations.

Seasonality

The Company is a calendar year-end company. With respect to its Carpet and Ceramic segments, its results of operations for the first quarter tend to be the weakest followed by the fourth quarter. The second and third quarters typically produce higher net sales and operating income in these segments. These results are primarily due to consumer residential spending patterns which have historically decreased during the holiday season and the first two months following. The Laminate and Wood segment's second and fourth quarters typically produce higher net sales and earnings followed by a moderate first quarter and a weaker third quarter. The third quarter is traditionally the weakest due to the European holiday in late summer.

Forward-Looking Information

Certain of the statements in this Form 10-Q, particularly those anticipating future performance, business prospects, growth and operating strategies, and similar matters, and those that include the words "could," "should," "believes," "anticipates," "expects" and "estimates" or similar expressions constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. For those statements, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. There can be no assurance that the forward-looking statements will be accurate because they are based on many assumptions, which involve risks and uncertainties. The following important factors could cause future results to differ: changes in economic or industry conditions; competition; inflation in raw material prices and other input costs; energy costs and supply; timing and level of capital expenditures; timing and implementation of price increases for the Company's products; impairment charges; integration of acquisitions; international operations; introduction of new products; rationalization of operations; tax, product and other claims; litigation; and other risks identified in the Company's SEC reports and public announcements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 28, 2013, approximately 64% of the Company's debt portfolio was comprised of fixed-rate debt and 36% was floating-rate debt. A 1.0 percentage point change in the interest rate of the floating-rate debt would not have a material impact on the Company's results of operations. There have been no other significant changes to the Company's exposure to market risk as disclosed in the Company's 2012 Annual Report filed on Form 10-K.

Item 4. Controls and Procedures

Based on an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended), which have been designed to provide reasonable assurance that such controls and procedures will meet their objectives, as of the end of the period covered by this report, the Company's Chief Executive Officer and Chief Financial Officer have concluded that such controls and procedures were effective at a reasonable assurance level for the period covered by this report.

There were no changes in the Company's internal control over financial reporting that occurred during the period covered by this report that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting other than the integration of the Marazzi acquisition. The Company completed the Marazzi acquisition on April 3, 2013. As a result of this transaction, the Company's internal control over financial reporting now includes controls, procedures and supporting systems with respect to transactions and account balances of the Marazzi business, which are reflected in the Company's consolidated financial statements.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in litigation from time to time in the regular course of its business. Except as noted below, there are no material legal proceedings pending or known by the Company to be contemplated to which the Company is a party or to which any of its property is subject.

Beginning in August 2010, a series of civil lawsuits were initiated in several U.S. federal courts alleging that certain manufacturers of polyurethane foam products and competitors of the Company's carpet underlay division had engaged in price fixing in violation of U.S. antitrust laws. The Company has been named as a defendant in a number of the individual cases (the first filed on August 26, 2010), as well as in two consolidated amended class action complaints, the first filed on February 28, 2011, on behalf of a class of all direct purchasers of polyurethane foam products, and the second filed on March 21, 2011, on behalf of a class of indirect purchasers. All pending cases in which the Company has been named as a defendant have been filed in or transferred to the U.S. District Court for the Northern District of Ohio for consolidated pre-trial proceedings under the name In re: Polyurethane Foam Antitrust Litigation, Case No. 1:10-MDL-02196.

In these actions, the plaintiffs, on behalf of themselves and/or a class of purchasers, seek three times the amount of unspecified damages allegedly suffered as a result of alleged overcharges in the price of polyurethane foam products from at least 1999 to the present. Each plaintiff also seeks attorney fees, pre-judgment and post-judgment interest, court costs, and injunctive relief against future violations. In December 2011, the Company was named as a defendant in a Canadian Class action, Hi ! Neighbor Floor Covering Co. Limited v. Hickory Springs Manufacturing Company, et.al., filed in the Superior Court of Justice of Ontario, Canada and Options Consommateures v. Vitafoam, Inc. et.al., filed in the Superior Court of Justice of Quebec, Montreal, Canada, both of which allege similar claims against the Company as raised in the U.S. actions and seek unspecified damages and punitive damages. The Company denies all of the allegations in these actions and will vigorously defend itself.

The Company believes that adequate provisions for resolution of all contingencies, claims and pending litigation have been made for probable losses that are reasonably estimable. These contingencies are subject to significant uncertainties and we are unable to estimate the amount or range of loss, if any, in excess of amounts accrued. The Company does not believe that the ultimate outcome of these actions will have a material adverse effect on its financial condition but could have a material adverse effect on its results of operations, cash flows or liquidity in a given quarter or year.

Item 1A. Risk Factors

There have been no material changes in the Company's risk factors from those disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the year ended December 31, 2012. The risk factors disclosed in our Annual Report on Form 10-K, in addition to the other information set forth in this report, could materially affect our business, financial condition or results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company issued 2,874,332 shares of common stock as a portion of the consideration for the Marazzi acquisition pursuant to the exemption of Section 4(2) of the Securities Act of 1933, as amended.
