**PS Business Parks, Inc. Reports Results for the Fourth Quarter Ended December 31, 2005**

**Glendale, California** PS Business Parks, Inc. (AMEX:PSB) reported operating results for the fourth quarter ended December 31, 2005.

Net income allocable to common shareholders for the three months ended December 31, 2005 was \$4.9 million or \$0.22 per diluted share on revenues of \$55.9 million compared to \$16.9 million or \$0.77 per diluted share on revenues of \$54.6 million for the same period in 2004. Net income allocable to common shareholders for the year ended December 31, 2005 was \$32.3 million or \$1.47 per diluted share on revenues of \$220.2 million compared to \$29.1 million or \$1.33 per diluted share on revenues of \$211.6 million for the year ended December 31, 2004.

## Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K/A

Revenues increased \$1.3 million for the three months ended December 31, 2005 over the same period in 2004 as a result of improved occupancy within the Company's portfolio. Net income allocable to common shareholders for the three months ended December 31, 2005 decreased over the same period of 2004 by \$12.0 million or \$0.55 per diluted share resulting from a decrease in the gain on disposition of real estate.

Revenues increased \$8.6 million for the year ended December 31, 2005 over the prior year also as a result of improved occupancy within the Company's portfolio. Net income allocable to common shareholders for the year ended December 31, 2005 increased over the year ended December 31, 2004 by \$3.2 million or \$0.14 per diluted share primarily resulting from the increase in income from continuing operations before minority interests of \$4.6 million and an increase in gain on disposition of real estate of \$2.6 million partially offset by reduced income from discontinued assets resulting from asset sales.

### Supplemental Measures

Funds from operations ( FFO ) allocable to common shareholders and unit holders for three months ended December 31, 2005 and 2004 were \$25.1 million, or \$0.86 per diluted share, and \$26.0 million, or \$0.89 per diluted share, respectively. FFO allocable to common shareholders and unit holders for the years ended December 31, 2005 and 2004 were \$102.5 million, or \$3.49 per diluted share, and \$97.2 million, or \$3.32 per diluted share, respectively.

In July of 2005, the Company redeemed at par value its 8.875% Series Y Cumulative Preferred Operating Partnership Units for \$12.0 million. In accordance with the Securities and Exchange Commission's interpretation of Emerging Issues Task Force ( EITF ) Topic D-42, "The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock," the redemption of the Series Y preferred units resulted in an additional allocation of net income to preferred unit holders for the year ended December 31, 2005 and a corresponding reduction of net income allocable to common shareholders of \$301,000. The redemption of preferred equity during the year ended December 31, 2004 resulted in a combined allocation of net income to preferred unit holders and shareholders and a corresponding reduction of net income allocable to common shareholders of \$5.0 million.

The following table summarizes the impact of the implementation of the SEC's clarification of EITF Topic D-42 on the Company's FFO per common shareholders and unit holders for the three months and years ended December 31, 2005 and 2004:

### Property Operations

In order to evaluate the performance of the Company's overall portfolio over two comparable periods, management analyzes the operating performance of a consistent group of properties owned and operated throughout both periods (herein referred to as "Same Park"). Operating properties that the Company acquired subsequent to January 1, 2004 are referred to as "Other Facilities." For the three months and years ended December 31, 2005 and 2004, the Same Park portfolio constitutes 17.1 million net rentable square feet, which includes all assets included in continuing operations the Company owned and operated from January 1, 2004 through December 31, 2005, and represents approximately 99% of the weighted average square footage of the Company's portfolio for 2005.

The Company's property operations account for substantially all of the net operating income earned by the Company. The following tables present the operating results of the Company's properties for the three months and years ended December 31, 2005 and 2004 in addition to other income and expense items affecting income from continuing operations (unaudited, in thousands, except per square foot amounts):

- (1) Funds From Operations ("FFO") is computed in accordance with the White Paper on FFO approved by the Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). The WFFO as net income, computed in accordance with GAAP, before depreciation, amortization, miscellaneous income, gains or losses on asset dispositions and extraordinary items. FFO should be viewed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance or liquidity as it does not reflect depreciation and amortization, the level of capital expenditure and leasing costs necessary to maintain the operating properties of the Company's properties, which are significant economic costs and could materially impact the results of operations. Other REITs may use different methods for calculating FFO and, accordingly, FFO may not be comparable to other real estate companies.
- (2) Funds available for distribution ("FAD") is computed by deducting from consolidated FFO the following expenditures, which the Company defines as those costs incurred to maintain the asset base: maintenance capital expenditures, tenant improvements, capitalized leasing commissions and straight-line rent from FFO and a compensation expense, amortization of lease incentives, in-place rents adjustment and the impact of Topic D-42. Like FFO, the Company considers FAD to be a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD does not represent net income or cash flow from operations as defined by GAAP.
