Item 2.02. Results of Operations and Financial Condition

On February 13, 2013, ION Geophysical Corporation (the "Company") issued a press release containing information regarding the Company's results of operations for the quarter and year ended December 31, 2012. A copy of the press release is furnished as Exhibit 99.1 hereto.

Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On February 11, 2013, the Compensation Committee of the Board of Directors of the Company approved the 2013 Incentive Compensation Plan (the "Plan"). The Plan was established to motivate all participating employees to achieve their highest level of individual and team performance and to align the employees to accomplish and share in the achievement of established financial goals of the Company and its subsidiaries. Performance under the Plan is measured on a fiscal (calendar) year, and payments under the Plan are made annually. Awards under the Plan would expect to be made in February 2014. All full-time employees (including the Named Executive Officers under the Company's proxy statement) who begin employment prior to October 1, 2013 are eligible to participate in the Plan. Temporary or part-time employees, contractors, consultants and interns are not eligible to participate in the Plan. Employees who participate in any other cash bonus incentive plan of the Company are not eligible to participate in the Plan. Employees who begin employment after January 1, 2013 but before October 1, 2013 will be eligible to participate in the Plan and will receive a prorated bonus award based upon the actual date of hire. Awards will be calculated after the close of the Plan year. The computation of awards generated under the Plan must be approved by the Compensation Committee.

The Plan is designed to equate the size of the payout to the performance of the individual participant. Every participating employee has the opportunity to earn a percentage of their base salary based on their individual and team performance, and achievement of the Company's and the applicable business unit's performance against planned objectives. Significant over-achievement against plan will result in an increase in the bonus pool size, and the potential for participants to earn a higher percentage of their base salaries. Target business performance will be measured with respect to the Company's operating income and such other factors as may be determined by the Compensation Committee.

If, during the Plan year, a significant beneficial or adverse change occurs resulting in a substantial positive or negative effect on the performance of the Company as a whole, the Compensation Committee may modify or revise the performance objectives for the Plan year in such manner as it may deem appropriate in its sole judgment. By way of illustration, and not limitation, such significant changes might result from sales of assets, or mergers, acquisitions, divestitures, or spin-offs. Such changes can also include, but are not limited to, other matters not anticipated by the Company when it approved Plan operating income criteria for the Plan year, such as economic conditions, indicators of growth or recession in the Company's business segments, nature of the operations of the Company, or changes in or effect of applicable laws, regulations, or accounting practices.

Item 7.01. Regulation FD Disclosure

In conjunction with the above press release, the Company has scheduled a conference call, which will be broadcast live over the Internet, for Thursday, February 14 at 10:00 a.m. Eastern Time (9:00 a.m. Central). The information for accessing the conference call is included in the press release.
