**TASEKO ANNOUNCES BOUGHT-DEAL PUBLIC OFFERING & PRIVATE PLACEMENT
FINANCING TO RAISE UP TO \$45 MILLION**

October 9, 2007 - Taseko Mines Limited ("Taseko" or the "Company") (TSX:TKO; AMEX:TGB) has today entered into an agreement with a syndicate of underwriters under which the underwriters have agreed to buy approximately 7.1 million common shares ("Shares") from Taseko at a price of \$5.20 per Share, representing an aggregate bought-deal offering of \$37 million (the "Offering").

The Underwriters will have an over-allotment option, exercisable at any time prior to 30 days after the closing date, to acquire up to an additional number of Shares equal to 15% of the number of Shares sold pursuant to the Offering, exercisable at the issue price. A commission of 6% of the gross proceeds of the Offering, payable at closing, and 6% of the gross proceeds of the over-allotment option, is payable upon closing of the over-allotment option.

The Company has agreed to file a short form prospectus with Canadian securities regulatory authorities to qualify the offered Shares for distribution in Canada.

The securities offered have not been and will not be registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale or offer of these securities in any jurisdiction unless such offer, solicitation or sale is permitted by applicable law.

The Company also intends to issue, via a non-brokered private placement (the "Non-brokered Offering"),

approximately 1.5 million common shares at a price of \$5.20 each for gross proceeds of approximately \$8 million to a number of accredited investors. Finder's fees may be payable on the Non-brokered Offering. The two financings are not interdependent and may not complete concurrently. The common shares issues under the Non-brokered Offering will be subject to a four month hold period under Canadian securities legislation.

The proceeds will be used for funding growth opportunities, working capital and general corporate purposes. Closing of the Offering and Non-brokered Offering is expected on or about October 30, 2007.

The completion of each of the Offering and the Non-brokered Offering is subject to stock exchange approval.

Taseko is a development and production company listed on the Toronto and American Stock Exchanges. Its Gibraltar copper-molybdenum mine is currently undergoing a two phase expansion, designed to increase copper production capacity to 115 million pounds per year by the end of 2008. The Company also recently announced the results of a feasibility study on its Prosperity gold-copper project. Both Gibraltar and Prosperity are located in south-central British Columbia, Canada.
