SAPIENS ANNOUNCES Q2 2007 RESULTS

Company Reports Third Consecutive Quarter of Operational Profit

Cary, N.C. August 23, 2007 - Sapiens International Corporation N.V. (NASDAQ and TASE: SPNS), a member of the Emblaze/Formula Group (LSE:BLZ.L) (NASDAQ: FORTY and TASE: FORT), announces today its results of operations for the second quarter of 2007.

Financial Highlights

•

Third consecutive quarter of Operational Profit

•

Completion of \$20 million private placement from institutional investors, at a 12% premium to market; significantly improves Company's equity

•

Q2 2007 Gross Margin increased 5.1% from Q2 2006 Gross Margin

•

Q2 2007 Operational Profit increased to \$162,000, up from Q2 2006 Operational Profit of \$23,000

•

Repayment of debt to institutional investors of approximately \$3.5 million

Operational Highlights

•

Win of new customer a leading South African insurance carrier

•

Released Version 3.0 of Sapiens INSIGHT™ for Policy; Version includes multi-lingual support, data warehouse extraction and other major enhancements

•

Appointment of new Chief Financial Officer and VP R&D to management team.

Roni Al-Dor, President and CEO, commented "We proudly report our third consecutive quarter of operational profit. We have raised \$20 million and are on stable financial ground. We have repaid a portion of our debt to institutional investors who purchased our convertible debentures. We have hired new talented individuals to lead our Finance and R&D operations, to take us to the next level. I am confident that with our stronger financial position, Management team, terrific Sapiens INSIGHT™ solutions and Sapiens eMerge™ technology, we are uniquely positioned to become a market leader and capture new customers in the multi-billion dollar insurance markets."

EXHIBIT B

Sapiens Releases Version 3.0 of Sapiens INSIGHT™ for Policy

Version includes multi-lingual support, data warehouse extraction and other major enhancements

Cary, N.C. – July 25, 2007 - Sapiens International Corporation N.V. (NASDAQ and

TASE: SPNS) a member of the Emblaze/Formula Group (LSE:BLZ.L) (NASDAQ:FORTY and TASE: FORT), today announced the release of Sapiens INSIGHT™ for Policy version 3.0.

This latest release includes multi-lingual support with a dynamic User Interface displaying screens in the end-user's preferred language; a data warehouse extract module allowing easy access to the INSIGHT data; major enhancements to Sapiens INSIGHT's Product Configurator and Rating Engine for ease of use and increased functionality; an authorization module that automates the underwriting and authorization process to provide straight through processing; and automatic integration with active directory for user security.

We are constantly striving to improve our product's look and feel and functionality to better serve our customers' needs. This new version continues to make the Policy module more interactive and easy to use. The added functionality will extend security capabilities and will allow users to easily consolidate and load raw data into a central structure for advanced analytics and reporting, said Martin Greenberg, Vice President and Product Manager at Sapiens.

A recent 2007 report from Celent states that Sapiens is one of a relatively small number of systems available to those carriers looking for a browser-based solution for both personal and commercial lines. Its platform and database flexibility and use of tools and rules should help the system to land on a fair number of short lists for these types of engagements. The attractive front end will also win over some business users.

We are continuing to invest in our products to ensure that we are providing a product that leads the market and offers significant advantages to the users said Roni Al-Dor, President & CEO at Sapiens.

Sapiens INSIGHT™ for Policy is a fully web-enabled policy administration solution designed to help companies adapt to agility with changing economic and industry market conditions. It handles multi-company, multi-state,

multi-currency and all policy life-cycle transactions, including automated out-of-sequence processing. Using powerful business rules technology, Sapiens INSIGHT™ for Policy gives insurers a competitive edge and the tools they need to respond quickly to business challenges including speed to market, increasing customer demands, globalization and regulatory change. Sapiens INSIGHT™ for Policy is a module of the Sapiens INSIGHT™ for Policy & Casualty Insurance administration suite which also contains Billing, Claims and Reinsurance modules.
