## Item 8.01

### Other Events

The Company has been advised by Gregory J. Lampert, Executive Vice President and Group President, North American Electrical and Communications Infrastructure, that Mr. Lampert intends to adopt and implement a Rule 10b5-1 Trading Plan ( Trading Plan ) authorized by the rules of the Securities and Exchange Commission ( SEC ). Rule 10b5-1 enables corporate officers and directors to adopt predetermined trading plans for selling specified amounts of stock. The plans may be entered into only when the officers and directors are not in possession of material and non-public information. The rule allows individuals adopting the plans to sell shares over a specified time period at specific prices in the future, even if material, non-public information subsequently becomes available to them. Mr. Lampert's Trading Plan, which becomes effective on or about April 4, 2008, has been established to allow him to diversify his investment portfolio by the sale of shares held by him. The shares to be sold under the Trading Plan amount to between 10% and 15% of his current holdings of General Cable common stock, including shares obtainable through exercise of stock options. Any transactions carried out under the Trading Plan will be reported through Form 4 filings under the rules of the SEC. If all of the shares of common stock in the Trading Plan are sold in the one-year plan period, Mr. Lampert will continue to hold shares of General Cable common stock substantially above the Company's published stock ownership guidelines applicable to him.

Mr. Lampert may enter into a similar Trading Plan in future years. Company policy permits other members of General Cable management to enter into such plans in the future at their discretion, subject to the Company's insider trading policy.
