Soliciting Material Pursuant to Rule 14a-12

The following information with respect to the proposed merger of Diacrin, Inc. (the "Company") with and into Genvec, Inc. was filed as part of the Company's Quarterly Report on Form 10-Q for the period ended March 31, 2003 which was filed with the Securities and Exchange Commission on May 7, 2003.

Note 4 of the notes to the Company's unaudited financial statements for the period ended March 31, 2003 and the overview section of Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained the following paragraph:

"On April 14, 2003, we entered into an Agreement and Plan of Reorganization and related Agreement and Plan Merger with GenVec, Inc., a publicly-traded company, providing for us to merge into GenVec. Upon completion of the merger, each outstanding share of our common stock would be exchanged for 1.5292 shares of GenVec common stock. The merger is expected to close in the third quarter of 2003, subject to the satisfaction of closing conditions, including receipt of Diacrin and GenVec stockholder approval."

In addition, the section of Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" entitled "Certain Factors That May Affect Future Results" contained the following language:

"Failure to complete the merger with GenVec could negatively impact the market price of our common stock and our future business and operations.

If the merger with GenVec is not completed for any reason, we will be subject to a number of material risks, including:

- under the circumstances described in the merger agreement, we could be required to pay GenVec a termination fee in the amount of up to \$1.2 million;
- the market price of our common stock may decline to the extent that the current market price of such shares reflects a market assumption that the merger will be completed;
- the costs related to the merger, such as legal and accounting fees and a portion of the investment banking

fees, must be paid even if the merger is not completed; and

- the benefits that we expect to realize from the merger would not be realized.

During the pendency of the merger agreement, we may not be able to enter into a merger or business combination with another party at a favorable price because of restrictions in the merger agreement. Covenants in the merger agreement with GenVec also impede our ability to make acquisitions or complete other transactions that are not in the ordinary course of business but that could be favorable to us and our stockholders pending completion of the merger. As a result, if the merger is not consummated, we may be at a disadvantage to our competitors."
