**MEDICAL DISCOVERIES, INC. AND SUBSIDIARIES
(A Development Stage Company)
NOTES TO UNAUDITED FINANCIAL STATEMENTS
March 31, 2003**

Note 1. Basis of Presentation.

Unaudited Interim Financial Statements

The accompanying unaudited financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments and disclosures necessary to a fair presentation of these financial statements have been included. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's 2002 Annual Report on Form 10-KSB for the year ended December 31, 2002, as filed with the Securities and Exchange Commission. Certain reclassifications and other corrections for rounding have been made in prior period financial statements to conform to the current period presentation. The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company transactions and balances have been eliminated in consolidation.

Stock Options

The Company has two incentive stock option plans wherein 6,000,000 shares of the Company's common stock can be issued. The Company did not issue any stock options during the quarter ended March 31, 2003. As of March 31, 2003, 1,417,000 shares of stock were available for future option grants. The Company accounts for its stock options under Accounting Principles Board (APB) Opinion No. 25 using the intrinsic value method. In accordance with Financial Accounting Standards (SFAS) No. 148, *Accounting for Stock-Based Compensation - Transition and Disclosure*, footnote disclosures of the pro forma effects if the fair value method had been adopted are required to be presented on a quarterly basis. During 2003 and 2002, there were no employee stock options granted and all previously granted employee stock options were fully vested. Therefore there were no differences in net income between the fair value and intrinsic value methods of accounting for stock options.

Note 2. Going Concern Considerations.

The Company's recurring losses from the Company's development-stage activities in current and prior years raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible effects on the recoverability and classification of assets or amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern. The Company is attempting to raise additional capital to sustain operations. However, there can be no assurance that these plans will be successful.

Note 3. Commitment Regarding Peregrine Stock.

Peregrine Properties, LLC, a Utah limited liability company (Peregrine), has entered into an agreement to provide \$500,000 to the Company to fund testing and research steps necessary to continue development of MDI-P. The studies are funded through an escrow agent. As of December 31, 2000, the Company had deposited in escrow a single certificate for 5.5 million shares of common stock for these purposes. Through March 31, 2003, Peregrine had funded \$275,800 to the escrow, of which \$272,700 had been disbursed and recorded as research and development expense on the financial statements of the Company. The remaining \$227,300 to be expended under the agreement has been recorded on the balance sheet in equity under the caption escrow receivable. As expenditures are made from the escrow for research and development, the expenses are recorded on the books of the Company with a corresponding reduction in the escrow receivable. Under the original agreement, upon completion of the studies, the escrow agent was to disburse the 5.5 million shares to Peregrine and to disburse the research results to the Company. On March 22, 2002, the parties entered into an agreement the result of which was to partially close the escrow agreement to the extent of Peregrine's funding to date. On that date, 3,143,800 shares

Table of Contents

were distributed to Peregrine and all research conducted to date was disbursed to the Company. Communications with Peregrine regarding the remaining funding commitment and related research are ongoing.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The purpose of this section is to discuss and analyze our consolidated financial condition, liquidity and capital resources, and results of operations. This analysis should be read in conjunction with the financial statements and notes thereto at pages 2 through 7 and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-KSB for the year ended December 31, 2002 (the "2002 10-KSB").

This section contains certain forward-looking statements that involve risks and uncertainties, including statements regarding our plans, objectives, goals, strategies and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of factors set forth under "Cautionary Statement for Forward-Looking Information and Factors Affecting Future Results" below and elsewhere in this report.

Overview

We are a development-stage bio-pharmaceutical research company engaged in the research, development and validation of a novel class of drugs, based upon our patented and proprietary electrolysis technologies. We seek to develop active anti-viral, anti-bacterial and anti-fungal agents for a variety of applications, including treatment of HIV/AIDS.

We have developed a product, (hereafter MDI-P), which appears to have the ability to destroy certain viruses and bacteria, including the HIV virus. MDI-P may also have the ability to kill other infectious agents, possibly including pathogenic fungi and parasites. MDI-P may possibly be used in non-pharmaceutical applications such as a sterilizing agent for medical and dental instruments. MDI-P may also potentially be used to remove or inactivate infectious agents in human and animal blood-derived products such as plasma and gamma globulin. We are committed to the pursuit of establishing MDI-P as an effective anti-bacterial, anti-viral and anti-fungal pharmaceutical for in-vitro and in-vivo applications and to developing MDI-P as an effective liquid chemical sterilant for a variety of applications.

Our highest priority is to develop and commercialize MDI-P as a pharmaceutical for the treatment of HIV/AIDS. Subject to additional funding, we are in the process of completing preparatory testing and steps necessary to seek approval of the Food and Drug Administration (FDA) for MDI-P as an HIV/AIDS treatment. We have completed in-vitro efficacy testing and toxicity testing on animals. We next seek to test MDI-P in a controlled, independent off-shore clinical trial of human AIDS patients. If that clinical testing is successful, we intend to submit an Investigatory New Drug (IND) application with the FDA, the approval of which would allow us to begin human clinical testing of MDI-P in the United States. Our ultimate objective for MDI-P's pharmaceutical applications is to co-develop MDI-P with or out-license or sell the technology to a member of the global pharmaceutical industry at some point following the approval of our IND application.

To date, we have not generated significant revenues from operations or realized a profit. Through March 31, 2003, we had incurred a cumulative net loss since inception of \$13,394,954. We are currently attempting to secure capital commitments to finance our pre-IND testing of MDI-P as an HIV/AIDS pharmaceutical and to otherwise continue research and testing of our technologies in order to secure required approvals to bring products to market. In that we are a development stage company, we will increasingly require additional funding to continue the development of our technology and to finance submittal of our testing and trials to the appropriate regulatory agencies in order to secure approvals for product development and sales.

Recent Events

Engagement of Intellectual Property Counsel. We have engaged the law firm of Mayer, Brown, Rowe & Maw to strengthen and expand our intellectual property and provide worldwide strategic partnering and regulatory

Table of Contents

compliance advice. Mayer, Brown, Rowe & Maw replaces our prior intellectual property counsel, Thorpe, North & Western.

Issuance of Mexican Patent. We received, from Mexico's Patent and Trademark Office, notice of entry into National Phase of our International PCT Application No. PCT/US95/10777, Patent Application No. 971408, entitled System For Electrolyzing Fluids For In Vivo Administration For Humans And Other Warm Blooded Mammals.

Results of Operations

Revenues and Gross Profit. We did not book any revenue for the quarters ended March 31, 2003 or March 31, 2002. We do not anticipate booking significant revenues in the near future as we continue to focus on getting products to market.

Operating Expenses and Operating Loss. We did not spend any funds on research and development for the quarter ended March 31, 2003, nor were any such funds expended during the same quarter of 2002. Our general and administrative expenses were \$147,201 during the first quarter of 2003, as compared to \$294,362 during the quarter ended March 31, 2002. As a result of the foregoing, we sustained an operating loss of \$147,201 for the quarter ended March 31, 2003, as compared with an operating loss of \$294,362 for the same period of 2002.

Other Income/Expense and Net Loss. We booked no other income and incurred interest expenses of \$58,033 for the quarter ended March 31, 2003, as compared with no other income and \$22,105 in interest expenses for the same period of 2002. In sum, our net loss for the first quarter of 2003 was \$205,234 or a loss of less than \$0.01 per fully diluted share. For the quarter ended March 31, 2003, we incurred a net loss of \$316,467, a loss of \$0.01 per fully diluted share.

Future Expectations. We expect to operate at a loss for several more years while we continue to study, gain regulatory approval of and commercialize our technologies. If we are successful in raising additional capital, we will likely spend more during the remainder of 2003 in research and development and general and administrative expenses, and thereby sustain greater resulting losses, than we have in recent years.

Liquidity and Capital Resources

As of March 31, 2003, we had only \$101,668 in cash and had a working capital deficit of \$3,812,702. Since our inception, we have financed our operations primarily through private sales of equity and the issuance of convertible and non-convertible notes. We will require significant additional funding to continue to develop, research and seek regulatory approval of our technologies. In addition, we cannot survive, even in the near term, without immediate additional funding for operations. We do not currently generate any cash from operations and have no credit facilities in place or available. Currently, we are funding operations through short-term loans from shareholders and others.

We are seeking to raise substantial additional funds in private stock offerings in order to meet our near-term and mid-term funding requirements. While we are optimistic that we can raise such funds, we have not always been successful in doing so in recent years. Given that we are still in an early development stage and do not have revenues from operations, raising equity financing is difficult. In addition, any additional equity financing will have a substantial dilutive effect to our current shareholders.

Pursuant to our commercialization strategy, we estimate we will need to expend \$805,000 in research and development to file an IND application with the FDA for MDI-P as an HIV/AIDS therapy. (See Description of Business - Commercialization Strategy in the 2002 10-KSB.) In addition, we estimate we will need to expend an additional \$900,000 to \$1,100,000 in debt service and general and administrative costs between now and when we hope to file the IND in June 2004. Therefore, we have a need for between \$1.7 and \$1.9 million to advance our highest priority target, HIV/AIDS, to the next development milestone.

Once our IND application is submitted, and assuming it is approved, we will need additional capital to initiate Phase I clinical trials and progress through FDA clinical testing toward the end of a drug that is approved for marketing and sales. We estimate the cost to complete Phase I and Phase II clinical trials to be several million dollars and the cost to complete Phase III testing and obtain approval of an NDA to be in the tens of millions of dollars.

Table of Contents

While our ability to obtain financing may improve in the event our IND application is approved, we cannot give assurances that we will have the access to the significant capital required to take a drug through regulatory approvals and to market. We think it is more likely that at some point following approval of an IND application we will seek a partner in the global pharmaceutical industry to help us co-develop, license, or even purchase some or all of our technologies.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements as defined in Item 303(c) of Regulation S-B.

Cautionary Statement for Forward Looking Information

Certain information set forth in this report contains forward-looking statements within the meaning of federal securities laws. Forward looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, and financing needs and other information that is not historical information. When used in this report, the words estimates, expects, anticipates, forecasts, plans, intends, believes and variations of such words or similar expressions are intended to identify forward-looking statements. Additional forward-looking statements may be made by us from time to time. All such subsequent forward-looking statements, whether written or oral and whether made by us or on our behalf, are also expressly qualified by these cautionary statements.

Our forward-looking statements are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith and are believed by us to have a reasonable basis, including without limitation, our examination of historical operating trends, data contained in our records and other data available from third parties, but there can be no assurance that our expectations, beliefs and projections will result or be achieved or accomplished. Our forward-looking statements apply only as of the date made. We undertake no obligation to publicly update or revise forward-looking statements which may be made to reflect events or circumstances after the date made or to reflect the occurrence of unanticipated events.

There are a number of risks and uncertainties that could cause actual results to differ materially from those set forth in, contemplated by or underlying the forward-looking statements contained in this report. Those risks and uncertainties include, but are not limited to, our lack of significant operating revenues and lack of profit to date, our need for substantial and immediate additional capital, the fact that we may dilute existing shareholders through additional stock issuances, the extensive governmental regulation to which we are subject, the fact that our technologies remain unproven, the intense competition we face from other companies and other products, and our reliance upon potentially inadequate intellectual property. Those risks and certain other uncertainties are discussed in more detail in the 2002 10-KSB. There may also be other factors, including those discussed elsewhere in this report, that may cause our actual results to differ from the forward-looking statements. Any forward-looking statements made by us or on our behalf should be considered in light of these factors.

ITEM 3. CONTROLS AND PROCEDURES

(a) Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-14(c) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act), within 90 days of the filing date of this report. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in alerting them on a timely basis to material information relating to our Company (including its consolidated subsidiaries) required to be included in our reports filed or submitted under the Exchange Act.

(b) There have been no significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation referenced in paragraph (a) above.

Table of Contents

**PART II
OTHER INFORMATION**

ITEM 2. CHANGES IN SECURITIES

(c) We sold the following unregistered securities during the period covered by this report. None of the sales involved an underwriter. We believe these sales were exempt from registration pursuant to Section 4(2) of the Securities Act of 1933 because the sales did not involve a public offering.

\$195,000 secured promissory note dated February 20, 2003, bearing interest at the rate of 12.3%, together with 500,000 bonus shares for an additional \$5,000 cash consideration.

\$25,000 secured promissory note dated January 6, 2003, bearing interest at the rate of 15%, 12% of which is payable in cash and 3% of which is payable in common stock at a rate equal to the 15-day average market price determined at the date of maturity.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits.

The following documents are furnished as exhibits to this Form 10-KSB. Exhibits marked with an asterisk are filed herewith. The remainder of the exhibits previously have been filed with the Commission and are incorporated herein by reference.

NUMBER	EXHIBIT
3.1	Amended and Restated Articles of Incorporation of the Company (filed as Exhibit 3.1 to the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 1994, and incorporated herein by reference).
3.2	Amended Bylaws of the Company (filed as Exhibit 3.2 to the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 1994, and incorporated herein by reference).
10.1	Mutual Release and Settlement Agreement dated as of November 29, 2001, among Medical Discoveries, Inc., Harvest Group, L.L.C. and Hydromedics, Inc. (f/k/a Advanced Sales Company, Inc.) (filed as Exhibit 10 to the Company's Current Report on Form 8-K on December 15, 2000, and incorporated herein by reference).
10.2	Advisory Agreement dated as of March 26, 2002, between Medical Discoveries, Inc. and Euronet International, Inc. (filed as Exhibit 10.3 to the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2001, and incorporated herein by reference).
10.3	Employment Agreement dated as of May 15, 2002 between Medical Discoveries, Inc. and Judy M. Robinett (filed as Exhibit 10.4 to the Company's Quarterly Report on Form 10-QSB for the quarter ended June 30, 2002, and incorporated herein by reference).
10.4	2002 Stock Incentive Plan adopted by the Board of Directors as of July 11, 2002 (filed as Exhibit 10.5 to the Company's Quarterly Report on Form 10-QSB for the quarter ended June 30, 2002, and incorporated herein by reference).
99	Certification pursuant to 18 U.S. C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.*

(b) Reports on Form 8-K.

The Company filed a Current Report on Form 8-K on April 9, 2003.

Table of Contents

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

MEDICAL DISCOVERIES, INC.

/S/ JUDY M. ROBINETT

Judy M. Robinett
President and Chief Executive Officer

Date: May 14, 2003

CERTIFICATION

I, Judy M. Robinett, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Medical Discoveries, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and I have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date); and
 - c) presented in this quarterly report my conclusions about the effectiveness of the disclosure controls and procedures based on my evaluation as of the Evaluation Date;
5. I have disclosed, based on my most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to

Edgar Filing: MEDICAL DISCOVERIES INC - Form 10QSB

significant deficiencies and material weaknesses.

Date: May 14, 2003

/S/ JUDY M. ROBINETT

Judy M. Robinett
President, Chief Executive Officer and principal financial officer
