CENTRAL SECURITIES CORPORATION
NOTES TO STATEMENT OF INVESTMENTS

1. Security Valuation - Securities are valued at the last sale price or, if unavailable, at the closing bid price. Corporate discount notes are valued at amortized cost, which approximates value. Securities for which no ready market exists are valued at estimated fair value by the Board of Directors.

As of March 31, 2009, the tax cost of investments was \$305,108,862. Net unrealized appreciation was \$54,282,771 consisting of gross unrealized appreciation and gross unrealized depreciation of \$170,830,466 and \$116,547,695, respectively.

2. Fair Value Measurements - Pursuant to FAS 157, the Corporation prioritizes and ranks the level of market price observability used in determining the fair value of investments as follows:

- o Level 1 - Fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments. The Corporation's Level 1 investments consist of equity securities listed on a national securities exchange or NASDAQ National Market.

Edgar Filing: CENTRAL SECURITIES CORP - Form N-Q

- o Level 2 - Fair value is determined using other significant observable assumptions obtained from independent sources; for example, quoted prices for similar investments or the use of models or other valuation methodologies. The Corporation's Level 2 instruments consist of short-term investments, carried at amortized cost.
- o Level 3 - Fair value is determined using significant unobservable inputs including the Corporation's own assumptions based upon the best information available. Investments categorized as Level 3 include situations in which there is little, if any, market activity. The Corporation's Level 3 investments consist of The Plymouth Rock Company, Inc. and Aerogroup International, Inc.

In certain cases, the inputs used to determine fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the hierarchy is based on the least observable input that is significant to fair value. The inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Corporation's investments as of March 31, 2009 are classified as follows:

Valuation Inputs	Investments in Securities
Level 1	\$203,375,452
Level 2	43,629,328
Level 3	112,385,838
	\$359,390,618
	=====

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Balance at December 31, 2008	\$126,385,838
Change in unrealized appreciation of investments	(14,000,000)
	\$112,385,838
	=====

No Level 3 investments were purchased, sold or transferred to Level 1 or Level 2 during the three months ended March 31, 2009.

3. Restricted Securities - The Corporation has from time to time invested in securities the resale of which is restricted. On March 31, 2009, such investments had an aggregate value of \$112,385,838, which was equal to 31.4% of the Corporation's net assets. Investments in restricted securities at March 31, 2009 were:

Company	Shares	Security	Date Purchased	Cos
Aerogroup International, Inc.	28,751	Common Stock	6/14/05	\$17,
The Plymouth Rock Company, Inc.	60,000	Class A Common Stock	12/15/82	1,500,
The Plymouth Rock Company, Inc.	10,000	Class A Common Stock	6/9/84	699,

The Corporation does not have the right to demand registration of the restricted securities.
