Chairman's
LETTER TO SHAREHOLDERS

I am very pleased to report that for the year ended December 31, 2005, your Fund continued to provide you with attractive monthly income from a diversified portfolio of quality preferred securities, convertible securities and high yield debt. For more information on your Fund's performance, please read the Portfolio Managers' Comments, the Distribution and Share Price Information, and the Performance Overview sections of this report.

Portfolio diversification is a recognized way to try to reduce some of the risk that comes with investing. Since one part of your portfolio may be going up when another is going down, portfolio diversification may help smooth your investment returns over time. In addition to providing regular monthly income, an investment like your Fund that combines several asset classes may help you achieve and benefit from greater portfolio diversification. Your financial advisor can explain these potential advantages in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

"IN ADDITION TO PROVIDING REGULAR MONTHLY INCOME, AN INVESTMENT LIKE YOUR FUND THAT COMBINES SEVERAL ASSET CLASSES MAY HELP YOU ACHIEVE AND BENEFIT FROM GREATER PORTFOLIO DIVERSIFICATION."

As you look through this report, be sure to review the inside front cover. This contains information on how you can receive future Fund reports and other Fund information faster by using e-mails and the Internet. Sign up is quick and easy - just follow the step-by-step instructions.

As we noted in our last shareholder report, The St. Paul Travelers Companies, Inc., which had owned 79% of Nuveen Investments, Inc. (the parent of your Fund's investment adviser), had sold a substantial portion of its stake in Nuveen. Since then, St. Paul has sold the balance of its shares to Nuveen Investments or to others. Please be assured that these transactions only affected Nuveen's corporate structure, and they do not have any impact on the investment objectives or management of your Fund.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead. Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen Preferred and Convertible Income Funds (JPC, JQC)

Portfolio Managers'
COMMENTS

These Funds are subadvised by a team of specialists from Spectrum Asset Management, Inc., Frolely, Revy Investment Co., Inc., and Symphony Asset Management LLC, an affiliate of Nuveen Investments.

Spectrum, an affiliate of Principal CapitalSM, manages the preferred securities portion of each Fund's portfolio. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team.

Frolely, Revy, one of the oldest firms specializing in convertible securities, manages that portion of each Fund's portfolio. Their investment team is led by Andrea Revy O'Connell and Michael Revy, who each have more than 10 years experience in convertible securities investing.

The Symphony team managing the high yield securities and other debt instruments in both Funds is led by Gunther Stein and Lenny Mason. Gunther and Lenny have more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield debt.

Here representatives from Spectrum, Frolely, Revy and Symphony talk about their management strategies and the performance of both Funds for the 12-month period ended December 31, 2005.

WHAT WERE THE GENERAL ECONOMIC CONDITIONS AND MARKET TRENDS OVER THE COURSE OF 2005?

The U.S. economy posted another year of growth in 2005. The Gross Domestic Product grew 3.5% during the year, in line with the rise of the Consumer Price Index. The U.S. equity market, as measured by the Standard & Poor's 500 Index, produced a return of 4.91%. The Federal Reserve continued to be on guard against an increase in the rate of inflation, raising the closely-watched short-term fed funds rate to 4.25% by year end. (On January 31, 2006, after the close of this reporting period, the Fed raised the fed funds rate to 4.50%.)

As with most fixed income investors, participants in the preferred market spent much of the year concerned with rising Fed funds rates, potential inflation, rising energy prices, and the economic impact of natural disasters. Credit spreads began 2005 at historically narrow levels relative to U.S. Treasury and corporate bonds, and individual investors began to shy away from \$25 par preferreds early in the year fearing poor performance as the Fed continued to raise the fed funds rate. The \$25 par market also suffered from what was at times more new issue supply than could readily be absorbed by the market. Consequently, the Merrill Lynch Preferred Stock Hybrid Index returned only 0.46% in 2005, which was the worst annual performance for this index since 1999. The year also saw significant new issuance of DRD (dividends received deduction) preferred securities. This new DRD supply caused some price weakness during the summer, but DRDs rallied during the fourth quarter and outperformed other

preferreds as well as the general bond market.

4

The \$1000 par Capital Security sector, targeted to institutional investors, also experienced healthy new issuance. Fortunately, institutional investors were ravenous for the incremental yield afforded by this sector, and the strong demand prevented the dislocations we saw in the \$25 par preferred stock market. The Lehman Tier 1 Capital Securities Index rise of 3.68% for the year far outpaced returns in the \$25 par sector. Many of the new securities in the institutional sector utilized a new structure which provided more equity credit for the issuers and provided higher yields for investors. The advent of these new types of "enhanced equity" preferreds is expected to foster a broad expansion of the hybrid preferred securities market, which reached a size of about \$276 billion by year end following record new issuance of \$46 billion in 2005. (Hybrid preferred carry stated maturities and fixed coupons, but they can be treated by companies as equity for financial statement purposes.)

Convertible securities had a difficult year in 2005, in part because of rising short term rates. This caused a rocky start to the year for equity markets in the U.S. However, stocks generally moved higher in the latter half of the year due to overall good economic news coupled with little sign of inflation.

Convertibles, having features of both equities and bonds, struggled more than would have been expected due to massive selling by convertible arbitrage hedge funds, which created a supply/demand imbalance. This was mitigated to some extent by a slow new issue calendar and high redemptions by issuers, causing a reduction in supply that tended to support prices. However, values in the convertible market did cheapen significantly last year. (A convertible issue is considered cheap when the value of its bond component is added to the value of the equity option and the result is higher than where the actual security is trading.)

In the high yield debt market, 2005 was highlighted by record leveraged merger financing, near historic low default rates and relatively narrow credit spreads (the difference in yields between higher- and lower-rated securities). We were able to avoid companies with aggressive leverage, such as auto suppliers like Delphi. We also continued to avoid smaller high yield issues because we believed that market liquidity could be challenged if the credit experienced any negative events. The CSFB High Yield Index returned 2.26% for the year.

5

WHAT STRATEGIES AND TACTICS DID YOU USE TO MANAGE THE FUNDS' ASSETS?

In the preferred securities markets, we did some rebalancing between the \$25 par and \$1000 par Capital Security sectors because of relative value considerations. We sold \$1000 par Capital Securities, which had been aggressively bid up in price, and bought the relatively cheaper \$25 par securities. Many of the Capital Security sales were high coupon callable securities priced at levels that assumed they would be called at the first opportunity. Therefore, they had little or no upside price appreciation potential. As a result, we also were being proactive in managing upcoming call exposure within the Funds' portfolios.

The overall management strategy for the convertible sleeves of JPC and JQC

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

continued to focus on the "balanced" portion of the convertible universe, which includes securities that capture the features of both bonds and stocks by being priced much like bonds while maintaining the upside potential of equities. We found these balanced convertible securities generally had an attractive risk/reward trade off between equity sensitivity and downside risk. We maintained a minimum of 50% investment-grade securities, while the Merrill Lynch All Convertibles Index investment-grade weight has dropped to 40% due to redemptions by higher-quality issuers and more sub-investment grade issuance over the last year.

For the high yield debt portion of both Funds, we continued to employ a value-oriented strategy, focusing on relatively higher-quality credits with strong fundamental business models, diversified revenue streams, and relatively low earnings volatility. We maintained our investments across a variety of industry sectors and rating tiers. We continued to eliminate positions that we believed had escalating credit issues, limited upside potential or significant downside risk.

HOW DID THE FUNDS PERFORM OVER THIS PERIOD?

The performance of each Fund, as well as the performance of a comparative benchmark, is shown in the accompanying table.

TOTAL RETURN ON NET ASSET VALUE For the 12-month period ended December 31, 2005

JPC	1.32%

JQC	1.41%

Comparative benchmark1	1.73%

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares. For more information, please see the individual Performance Overview pages in this report.

- 1 Comparative benchmark performance is a blended return consisting of: 1) 33% of the Merrill Lynch Preferred Stock Hybrid Securities Index, an unmanaged index of investment-grade, exchange-traded preferred issues with outstanding market values of at least \$30 million and at least one year to maturity; 2) 27% of the Lehman Tier 1 Capital Securities Index, an unmanaged index that includes securities that can generally be viewed as hybrid fixed-income securities that either receive regulatory capital treatment or a degree of "equity credit" from a rating agency; 3) 30% of the Merrill Lynch All U.S. Convertibles Index, consisting of approximately 575 securities with par value greater than \$50 million that were issued by U.S. companies or non-U.S. based issuers that have a significant business presence in the U.S.; and 4) 10% of the CSFB High Yield Index, which includes approximately \$375 billion of \$US-denominated high yield debt with a minimum of \$75 million in par value and at least one rating below investment-grade. Index returns do not include the effects of any management fees or fund expenses. It is not possible to invest directly in an index.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Over the course of what turned out to be a difficult 12-month period, both Funds underperformed their comparative benchmark.

Taking advantage of the large amount of new issuance in the DRD sector and the attractiveness of their yields compared to other preferreds, we increased our concentration in these securities and reaped the benefits when credit spreads in that market tightened toward the end of the year.

In addition, in keeping with our strategy of selling Capital Securities and purchasing \$25 par securities due to their relative values, we sold some high coupon securities which become callable in late 2006 or early 2007. These securities were priced to their first call dates because the market fully expected them to get called. Selling these short duration securities, which had little to no price appreciation upside, throughout 2005 positioned the Funds ahead of the call cycle, especially as the short end of the yield curve sold off. We also bought several of the new "enhanced equity" issues which provided relatively higher income levels and attractive total return opportunities.

JPC and JQC began 2005 with a relatively light concentration in the automotive industry, when compared with the sector's standing in the preferred market. Nevertheless, in hindsight, the positions were not small enough. Many of these holdings were senior debt which we had bought when it looked cheap compared to their \$25 par preferred counterparts. We began selling Ford and General Motors in January 2005 (for a profit) and had been selling Delphi since 2004. We took some losses when we sold much of our position in Delphi early in the year while it was still making payments and thereby avoided the huge price declines that accompanied Delphi's subsequent bankruptcy filing. These three automotive names were the worst performers in 2005. As of year end, we had no automotive exposure to Delphi, Ford, and GM, but did have a relatively small position in Daimler Chrysler in JQC.

The best performing convertible securities sector for the year was energy. In particular, the price of a Chesapeake Energy holding rose more than 130% from the date of purchase in March 2004 through the date of the last sale of this position in October 2005. While we remained positive on the stock and the sector, the high equity sensitivity of this particular security made us look for an attractive exit point. Subsequently, the Funds have purchased new Chesapeake Energy securities. Other energy sector holdings Diamond Offshore, Kerr McGee (which was sold during the period) and Amerada Hess also were positive contributors during the year.

7

The financial sector represented on average just over 17% of the convertible universe in 2005. The sector return in convertibles was a positive 5.8%. Both Funds benefited from their financial sector holdings of Fortis Insurance, Genworth and MetLife.

Although the utilities sector represents less than 5% of the convertible universe, the Funds had a positive return from their positions in this area, in contrast to a decline in the sector as a whole. FPL Group was the most notable performer in JQC, while Calpine Corp. (currently in Chapter 11) was the most notable company we avoided in both Funds.

Offsetting these solid performers, the convertible securities consumer discretionary sector had a miserable year. We sold our positions in Ford and General Motors when their debt was downgraded to junk status. Similar to the auto industry, airlines also had a negative impact on the Transportation sector. At the beginning of the year, both Funds owned convertibles issued by Pinnacle

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Airlines, a partner with Northwest Airlines. We sold these positions well before both airlines declared bankruptcy, but not soon enough to avoid a loss. On the other hand, Continental Airlines (purchased in September) and JetBlue (bought in October) both performed well during the periods they were in the portfolios.

Convertibles issued by firms in the technology sector were down about 2.2% last year. A disappointing return from Digital River convertibles had a negative impact on performance of both Funds. However, we remained interested in the technology sector, and the Funds maintained much of their convertible exposure in this area at year end.

Overall, we were pleased with the performance of the high yield debt portions of both Funds' portfolios. In JPC, Allied Waste North America and Baytex Energy Ltd. performed well, while solid performers in JQC included Global Cash Access LLC and Quintiles Transnational Corporation.

Distribution and Share Price INFORMATION

Each Fund uses financial leverage in an effort to enhance its common share dividend-paying capabilities. While this strategy adds volatility to the Fund's common share net asset value and share price, it generally enhances the amount of income the Fund has to distribute to its common shareholders. The extent of this benefit is tied in part to the short-term rates the Funds pay their FundPreferred™ shareholders. As short-term rates rose through this reporting period, the Funds paid higher dividends to their FundPreferred shareholders. As a result, the leveraging strategy did not provide as much income enhancement to common shareholders as it did before short-term interest rates began to rise. Over this 12-month reporting period, both JPC and JQC announced three reductions in their monthly distribution to common shareholders.

Both Funds seek to pay stable common share distributions at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay distributions at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in distributions, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid distributions in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income in distributions to shareholders. As of December 31, 2005, both Funds had negative UNII balances for financial statement purposes and positive UNII balances for tax purposes.

In addition, due to normal portfolio management activity, common shareholders of the Funds received two capital gains distribution in 2005 as follows:

	JULY LONG-TERM CAPITAL GAINS (PER SHARE)	DECEMBER LONG-TERM CAPITAL GAINS (PER SHARE)
JPC	\$0.0176	\$0.1934
JQC	\$0.0430	\$0.0530

These distributions represented important parts of the Funds' total return for this period. Generally, these types of distributions were generated by bond

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

calls or by sales of appreciated securities that occurred in the course of normal portfolio management activities. On balance, this had a slight negative impact on the Funds' per share earning power and was a minor factor in the per share distribution reductions noted above.

As of December 31, 2005, the Funds' common shares were trading at discounts to their NAVs as shown in the accompanying chart:

	12/31/05 DISCOUNT	12-MONTH AVERAGE DISCOUNT
JPC	-15.59%	-10.25%
JQC	-14.72%	-11.06%

On February 3, 2006, the Funds' Board of Trustees approved an open market share repurchase program, as part of a broad, ongoing program of activity designed to support the market prices of the Funds' common shares.

THE BOARD OF TRUSTEES AND SHAREHOLDERS
NUVEEN PREFERRED AND CONVERTIBLE INCOME FUND
NUVEEN PREFERRED AND CONVERTIBLE INCOME FUND 2

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 as of December 31, 2005, and the related statements of operations for the year then ended, and the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 at December 31, 2005, and the results of their operations for the year then ended, and changes in their net assets and their financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Preferred and Convertible Income Fund (JPC) and Nuveen Preferred and Convertible Income Fund 2 (JQC). The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies.

Each Fund seeks to provide high current income by investing primarily in a portfolio of preferred securities, convertible securities and, to a lesser degree, high yield securities. Each Fund may also invest in other debt instruments and common stocks acquired upon conversion of a convertible security.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

The Board of Trustees of the Funds approved a change in the Funds' fiscal year end from July 31 to December 31 upon completion of the Funds' July 31, 2004 fiscal year.

Effective January 1, 2005, Nuveen Institutional Advisory Corp. ("NIAC") the Funds' previous adviser, and its affiliate, Nuveen Advisory Corp. ("NAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NIAC or NAC.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

Exchange-listed securities and instruments, other than futures, are generally valued at the last sales price on the exchange on which such securities or instruments are primarily traded. Securities or instruments traded on an exchange for which there are no transactions on a given day or securities or instruments not listed on an exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. Futures contracts are valued using the closing settlement price or, in the absence of such a price, at the mean of the bid and asked prices. Prices of other derivative instruments are provided by an independent pricing service approved by the Funds' Board of Trustees. The prices of fixed-income securities are generally also provided by an independent pricing service approved by the Funds' Board of Trustees and based on the mean between the bid and asked prices. When price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular security or instrument, the Board of Trustees of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of securities of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustee's designee. Short-term investments are valued at amortized cost, which approximates market value.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At December 31, 2005, there were no such outstanding purchase commitments in either fund.

Investment Income

Dividend income on securities purchased and dividend expense on securities sold short are recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Professional Fees

Professional fees presented in the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Distributions to Common shareholders are declared monthly. With respect to the Real Estate Investment Trust ("REIT") securities held in the Funds' Portfolio of Investments, distributions received by the Funds are generally comprised of ordinary income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period is not known until after the fiscal year-end. For the fiscal year ended December 31, 2005, the character of distributions to the Funds from the REITs was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)

Ordinary income	66.92%	71.62%
Long-term and short-term capital gains	33.08	28.38
Return of REIT capital	--	--
=====		

For the fiscal period ended December 31, 2004, the character of distributions to the Funds from the REITs was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)

Ordinary income	83.15%	83.29%
Long-term and short-term capital gains	14.69	15.13
Return of REIT capital	2.16	1.58
=====		

For the fiscal year ended July 31, 2004, the character of distributions to the Funds from the REITs was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Ordinary income	83.54%	81.49%
Long-term and short-term capital gains	16.33	18.44
Return of REIT capital	.13	.07

Notes to
FINANCIAL STATEMENTS (continued)

For the fiscal year ended December 31, 2005, and the fiscal period ended December 31, 2004, each Fund applied the actual character of distributions reported by the REITs in which the Fund invests to its receipts from the REITs. If a REIT held in the portfolio of investments did not report the actual character of its distributions during the period, the Fund treated the distributions as ordinary income.

For the fiscal year ended July 31, 2004, each Fund applied a percentage estimate for the breakdown of income type, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of ordinary income so calculated. Each Fund adjusted that estimated breakdown of income type (and consequently its net investment income) as necessary in the following calendar year when the REITs informed their shareholders of the actual breakdown of income type.

For the fiscal year ended December 31, 2005, and the fiscal period ended December 31, 2004, each Fund applied the actual character of distributions reported by the REITs in which the Fund invests to the distributions paid to each Fund's shareholders.

With respect to the portion of each Fund's monthly distribution to its shareholders derived from the Fund's investments in REIT securities for the fiscal year ended July 31, 2004, each Fund treated that portion of its distribution as being entirely from net investment income. The Funds recharacterized those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, in the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities were held in each Fund's portfolio. Consequently, the financial statements for the fiscal year ended July 31, 2004, reflected an over-distribution of net investment income that was at least partly attributable to the fact that, as of the date of the financial statements, some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Funds to shareholders from the portfolio REITs were treated as something other than ordinary income.

FundPreferred Shares

The Funds have issued and outstanding FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate paid by the Fund on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

The number of shares outstanding, by Series and in total, for each Fund is as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)

Number of shares:		
Series M	4,720	3,860
Series M2	--	3,860

=====		

Interest Rate Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on Fund Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Futures Contracts

Each Fund may use futures contracts to hedge against changes in the values of securities the Fund owns. Each Fund bears the market risk arising from changes in the value of these financial instruments. At the time a Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses on futures contracts. Risk may arise from the potential inability of the counterparty to meet the terms of the contract. When a contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed. At December 31, 2005, there were no open futures contracts in either Fund.

Notes to
FINANCIAL STATEMENTS (continued)

Short Sales

The Funds are authorized to make short sales of securities if the Funds own at least an equal amount of such securities or securities convertible into securities of the same issuer. To secure its obligation to deliver securities sold short, the Funds have instructed the custodian to segregate assets in an equivalent amount of the securities sold short or securities convertible into or exchangeable for such securities. The Fund is obligated to pay to the party to which the securities were sold short, dividends declared on the stock by the issuer and records such amounts as expense in the Statement of Operations. Short sales are valued daily and the corresponding unrealized gains or losses are included in "Change in net unrealized appreciation (depreciation) of investments." At December 31, 2005, there were no outstanding short sales in either Fund.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Funds' policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Offering Costs

Costs incurred by Preferred and Convertible Income 2 (JQC) in connection with its offering of FundPreferred shares (\$19,728,655) during the fiscal year ended July 31, 2004, were recorded as a reduction to paid-in surplus.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in the recognition of income and timing differences in recognizing certain gains and losses on investment transactions.

At December 31, 2005, the cost of investments was as follows:

PREFERRED AND	PREFERRED AND
------------------	------------------

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

	CONVERTIBLE INCOME (JPC)	CONVERTIBLE INCOME 2 (JQC)
Cost of investments	\$2,110,480,376	\$2,944,047,652

Gross unrealized appreciation and gross unrealized depreciation of investments at December 31, 2005, were as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)

Appreciation	\$ 70,993,985	\$
Depreciation	(75,977,769)	
Net unrealized appreciation (depreciation) of investments	\$ (4,983,784)	\$

The tax components of undistributed net ordinary income and net realized gains at December 31, 2005, were as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)
Undistributed net ordinary income*	\$247,471	\$1,795,011
Undistributed net long-term capital gains	--	--

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal periods ended December 31, 2005, December 31, 2004, and July 31, 2004, was designated for purposes of the dividends paid deduction as follows:

YEAR ENDED DECEMBER 31, 2005	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)
Distributions from ordinary income*	\$136,580,519	\$182,688,579

Distributions from net ordinary income*	\$134,895,598	\$162,336,998
Distributions from net long-term capital gains	--	22,781

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

** The Fund designated as a long-term capital gain dividend, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Fund related to net capital gain to zero for the tax period ended December 31, 2005.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily Managed Assets of each Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

Notes to
FINANCIAL STATEMENTS (continued)

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of December 31, 2005, the complex-level fee rate was .1895%.

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible for the overall strategy and asset allocation decisions. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), Frolely, Revy Investment Co., Inc. ("Frolely, Revy") and Symphony Asset Management, LLC ("Symphony"). Spectrum manages the portion of the Funds' investment portfolios allocated to preferred securities. Frolely, Revy manages the portion of the Funds' investment portfolios allocated to convertible securities. Symphony manages the portion of the Funds' investment portfolios allocated to debt securities. Spectrum, Frolely, Revy and Symphony are compensated for their services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. Transactions (C) and (D) above were settled in late July, which effectively reduced St. Paul Travelers' controlling stake in Nuveen and was deemed an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and the Adviser, which resulted in the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

automatic termination of each agreement under the 1940 Act. In anticipation of such deemed assignment, the Board of Trustees had approved new ongoing investment management agreements for each Fund and the submission of those agreements for approval by each respective Fund's shareholders, which shareholder approval was received prior to the settlement of transactions (C) and (D). The new ongoing management agreements took effect upon such settlement.

7. SUBSEQUENT EVENTS

Distributions to Common Shareholders

The Funds declared Common share distributions which were paid on February 1, 2006, to shareholders of record on January 15, 2006, as follows:

Announcement of Open-Market Share Repurchase Program

On February 3, 2006, the Funds' Board of Trustees approved an open market share repurchase program, as part of a broad, ongoing program of activity designed to support the market prices of the Funds' Common shares. At the Adviser's discretion, each Fund may repurchase up to 10% of its outstanding Common shares.

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Other Useful INFORMATION

In April, 2005, The St. Paul Travelers Companies, Inc. ('St. Paul Travelers ") sold the majority of its controlling equity interest in Nuveen Investments, Inc. ('Nuveen") to the general public. Nuveen is the parent of Nuveen Asset Management ("NAM"), which is each Fund's investment manager. This sale was deemed to be an 'assignment" of the investment management agreement between each Fund and NAM and, if applicable, of the sub-advisory agreement between NAM and the Fund's sub-adviser. As required by law, the shareholders of each Fund were asked to approve a new investment management agreement and, if applicable, a new subadvisory agreement that reflected this change in ownership. The shareholders of each Fund voted this approval at a Shareholders' Meeting on July 26, 2005. There were no changes to the investment objectives or management of any Fund as a result of these actions.

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

The Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent 12-month period ended June 30, 2005, and (iii) a description of the policies and procedures that the Fund used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com. You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at 1-202-942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public Reference Section at 450 Fifth Street NW, Washington, D.C. 20549.

CEO CERTIFICATION DISCLOSURE

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

INVESTMENTS IN SYNTHETIC CONVERTIBLE SECURITIES

Although the Funds' respective prospectuses indicated that they did not currently intend to invest in "synthetic convertible securities", the Funds have now determined to invest up to 10% of their respective Managed Assets in such securities. Synthetic convertibles possess the two principal characteristics of a true convertible security: a fixed-income component, and an equity component. Synthetic convertibles are usually created by third parties (such as investment banks) and typically involve the marrying of non-convertible fixed-income instruments such as bonds or preferred stocks with equity instruments such as warrants or options. Because synthetic convertible securities can sometimes be comprised of two separate and unrelated instruments from unrelated obligors, their performance may differ somewhat from true convertibles.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/etf. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Preferred and Convertible Income Fund 2

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

December 31, 2004 (1)	\$ 21,861		\$ 0
Percentage approved pursuant to pre-approval exception	0%		0%

The above "All Other Fees" are fees paid to audit firms to perform agreed upon procedures required by the rating agencies to rate fund preferred shares. The above "Tax Fees" were billed for professional services for tax advice, tax compliance, and tax planning.

- (1) This fund changed its fiscal year end from July 31 to December 31. For the stub period ending, 12/31/04 the fund incurred the following fees : Audit fees of \$21,861 ; Tax fees of \$894 ; and All Other fees of \$1,800.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

The above "Tax Fees" are primarily fees billed to the Adviser for Fund tax return preparation.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

stub period ending, 12/31/04 the fund incurred total Non-Audit fees of \$2,694.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans, William J. Schneider and Eugene S. Sunshine.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Spectrum Asset Management, Inc. ("Spectrum") for preferred securities, Frole, Revy Investment Company Inc. ("Frole, Revy") for convertible securities and Symphony Asset Management, LLC ("Symphony") for high yield fixed income securities, (Spectrum, Frole, Revy and Symphony are also collectively referred to as "Sub-Advisers") as Sub-Advisers to provide discretionary investment advisory services. As part of these services, the Adviser has also delegated to each Sub-Adviser the full responsibility for proxy voting and related duties in accordance with the Sub-Adviser's policy and procedures. The Adviser periodically will monitor each Sub-Adviser's voting to ensure that they are carrying out their duties. The Sub-Advisers' proxy voting policies and procedures are summarized as follows:

SYMPHONY

Symphony uses the proxy voting services of Institutional Shareholder Services ("ISS"). The ISS Proxy Voting Services provide Symphony and its clients with an independent source of proxy voting research and services. The use of ISS is designed to offer client-centered proxy voting which minimizes conflicts of interests between Symphony's interests and those of its clients.

In order to monitor how ISS votes client proxies, Symphony has established a Proxy Voting Review Committee (the "Committee"). The Committee is composed of Symphony's Chief Operating Officer and its Chief Investment Officer. Each year, the Committee reviews ISS proxy voting policies and practices to determine whether such policies and practices are consistent with Symphony's fiduciary duty to the clients for whom Symphony is responsible for voting proxies. During the year, the Committee review how ISS votes on specific issues. From time to time, the Committee discusses the proxy voting process with representatives of

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

ISS in order to ensure that Symphony's client interests are being protected. When Symphony disagrees with ISS' policies with respect to certain issues, Symphony will direct the voting of its clients' proxies according to what Symphony believes is the best interests of its clients.

Clients who have questions about how particular proxies are voted for their account may request such information from Symphony by calling (800) 847-6369.

FROLEY, REVY

Froley, Revy will vote proxies upon a client's request as set forth in the Investment Management contract. Proxies will be voted in the best interests of the account's participants and beneficiaries. Thus, the primary consideration in voting a proxy is the ultimate economic value of the stock based on Froley, Revy's independent analysis of the stock's investment potential. Froley, Revy utilizes a proxy committee. With respect to each proxy issue, the committee will analyze the economic impact on the company of voting in favor or against the proposal. The committee will vote based on the best ultimate long-term economic interest of the plan. Froley, Revy may determine not to vote proxies relating to certain securities if Froley, Revy determines it would be in its clients' overall best interest not to vote. If Froley, Revy manages the assets of a company or its pension plan and any of Froley, Revy's clients hold any securities of that company, to avoid conflicts of interest, the client will be asked to vote the proxy.

Clients that would like to obtain a copy of Froley, Revy's proxy policies and procedures and/or the voting history for their account may do so by writing to the offices of Froley, Revy Investment Co., Inc. at 10900 Wilshire Blvd. Suite 900, Los Angeles, CA 90024, Attn: Compliance Department.

SPECTRUM

Spectrum has adopted a Policy on Proxy Voting for Investment Advisory Clients (the "Voting Policy"), which provides that Spectrum aims to ensure that, when delegated proxy voting authority by a client, Spectrum acts (1) solely in the interest of the client in providing for ultimate long-term stockholder value, and (2) without undue influence from individuals or groups who may have an economic interest in the outcome of a proxy vote. Spectrum relies on the custodian bank to deliver proxies to Spectrum for voting.

Spectrum has selected Institutional Shareholder Services, Inc. ("ISS") to assist with Spectrum's proxy voting responsibilities. Spectrum generally follows ISS standard proxy voting guidelines which embody the positions and factors Spectrum considers important in casting proxy votes. In connection with each proxy vote, ISS prepares a written analysis and recommendation based on its guidelines. In order to avoid any conflict of interest for ISS, the CCO will require ISS to deliver additional information or certify that ISS has adopted policies and procedures to detect and mitigate such conflicts of interest in issuing voting recommendations. Spectrum also may obtain voting recommendations from two proxy voting services as an additional check on the independence of ISS' voting recommendations.

Spectrum may, on any particular proxy vote, diverge from ISS' guidelines or recommendations. In such a case, Spectrum's Voting Policy requires that: (i) the requesting party document the reason for the request; (ii) the approval of the Chief Investment Officer; (iii) notification to appropriate compliance personnel; (iv) a determination that the decision is not influenced by any conflict of interest; and (v) a written record of the process.

When Spectrum determines not to follow ISS' guidelines or recommendations, Spectrum classifies proxy voting issues into three broad categories: (1) Routine Administrative Items; (2) Special Interest Issues; and (3) Issues having the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Potential for Significant Economic Impact, and casts proxy votes in accordance with the philosophy and decision guidelines developed for that category in the Voting Policy.

- o Routine Administrative Items. Spectrum is willing to defer to management on matters of a routine administrative nature. Examples of issues on which Spectrum will normally defer to management's recommendation include selection of auditors, increasing the authorized number of common shares and the election of unopposed directors.

- o Special Interest Issues. In general, Spectrum will abstain from voting on shareholder social, political, environmental proposals because their long-term impact on share value cannot be calculated with any reasonable degree of confidence.

- o Issues Having the Potential for Significant Economic Impact. Spectrum is not willing to defer to management on proposals which have the potential for major economic impact on the corporation and value of its shares and believes such issues should be carefully analyzed and decided by shareholders. Examples of such issues are classification of board of directors' cumulative voting and supermajority provisions, defensive strategies (e.g., greenmail prevention), business combinations and restructurings and executive and director compensation.

Conflicts of Interest. There may be a material conflict of interest when Spectrum votes, on behalf of a client, a proxy that is solicited by an affiliated person of Spectrum or another Spectrum client. To avoid such conflicts, Spectrum has established procedures under its Voting Policy to seek to ensure that voting decisions are based on a client's best interests and are not the product of a material conflict. In addition to employee monitoring for potential conflicts, the CCO reviews Spectrum's and its affiliates' material business relationships and personal and financial relationships of senior personnel of Spectrum and its affiliates to monitor for conflicts of interest.

If a conflict of interest is identified, Spectrum considers both financial and non-financial materiality to determine if a conflict of interest is material. If a material conflict of interest is found to exist, the CCO discloses the conflict to affected clients and obtains consent from each client in the manner in which Spectrum proposed to vote.

Spectrum clients can obtain a copy of the Voting Policy or information on how Spectrum voted their proxies by calling Spectrum's Compliance Department at (203) 322-0189.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The portfolios of the Funds are managed by three different sub-advisers: Spectrum for preferred securities; Frolely Revy for convertible securities and Symphony for high yield fixed-income securities. Following is disclosure regarding the portfolio managers responsible for each asset class:

SPECTRUM ASSET MANAGEMENT - PREFERRED SECURITIES

A. PORTFOLIO MANAGER BIOGRAPHIES

BERNARD M. SUSSMAN is Chief Investment Officer and Chairman of Spectrum's Investment Committee. Prior to joining Spectrum in 1995, Mr. Sussman was with Goldman Sachs & Co. for nearly 18 years.

MARK A. LIEB is Chief Financial Officer and is responsible for business development. Prior to founding Spectrum in 1987, Mr. Lieb was a Founder, Director and Partner of DBL Preferred Management, Inc., a wholly owned corporate

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

cash management subsidiary of Drexel Burnham Lambert, Inc.

L. PHILLIP JACOBY, IV is a Senior Vice President and joined Spectrum in 1995. From 1989-1995, Mr. Jacoby was a Senior Investment Officer at USL Capital Corporation (a subsidiary of Ford Motor Corporation) and was co-portfolio manager of a \$600 million preferred stock portfolio.

C. POTENTIAL MATERIAL CONFLICTS OF INTEREST

As described above, the portfolio manager may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the sub-advisers may vary among these accounts and the portfolio managers may personally invest in some but not all of these accounts. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. A conflict may also exist if a portfolio manager identified a limited investment opportunity that may be appropriate for more than one account, but the Fund is not able to take full advantage of that opportunity due to the need to allocate that opportunity among multiple accounts. In addition, the portfolio manager may execute transactions for another account that may adversely impact the value of securities held by the Fund. However, the sub-advisers believe that these risks are mitigated by the fact that accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

and account sizes, and other factors. In addition, each sub-adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

D. FUND MANAGER COMPENSATION

All employees of Spectrum Asset Management are paid a base salary and discretionary bonus. The bonus is paid quarterly and may represent a significant proportion of an individual's total annual compensation. Discretionary bonuses are determined by management after consideration of several factors including but not necessarily limited to:

- o Changes in overall firm assets under management (employees have no direct incentive to increase assets)
- o Portfolio performance relative to benchmarks
- o Contribution to client servicing
- o Compliance with firm and/or regulatory policies and procedures
- o Work ethic
- o Seniority and length of service
- o Contribution to overall functioning of organization

C. POTENTIAL MATERIAL CONFLICTS OF INTEREST

As described above, the portfolio manager may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the sub-advisers may vary among these accounts and the portfolio managers may personally invest in some but not all of these accounts. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. In addition, each sub-adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

D. FUND MANAGER COMPENSATION

Froley, Revy's portfolio managers receive base compensation and benefits, which are competitive with the industry standards. Bonuses are a reflection of both the individual's contribution and firm wide profitability. Ms. O'Connell's compensation is not based on the performance of her portfolios and is not directly tied to the gathering of assets. Rather any increases in assets are reflected through overall firm profitability. Ms. O'Connell is a profit participant in the firm and her bonus is based on a percentage of net profitability (including all bonuses paid to employees).

Due to the complex and varying natures of the portfolios managed, there is no simple comparison to an index, nor is compensation tied to performance against an index in the short term. Over a longer cycle, however, actual over and under performance is evaluated.

SYMPHONY ASSET MANAGEMENT - HIGH YIELD SECURITIES

A. PORTFOLIO MANAGER BIOGRAPHIES

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR

Gunther Stein, Director of Fixed Income Strategies, Portfolio Manager

Gunther Stein is the lead portfolio manager for High Yield strategies at Symphony Asset Management and is the lead portfolio manager of Nuveen's senior loan asset management team. Prior to joining Symphony in 1999, Stein was a high yield portfolio manager at Wells Fargo Bank, where he was responsible for investing in public high yield bonds and bank loans and also managed a team of credit analysts. Stein joined Wells Fargo in 1993 as an Associate in its Loan Syndications/Leveraged Finance Group. Previously, Stein worked for four years as a euro-currency deposit trader with First Interstate Bank. He has also worked for Standard Chartered Bank, Mexico City and Citibank Investment Bank, London. He completed Wells Fargo's Credit Management Training program and holds an M.B.A. from the University of Texas, Austin. He graduated from the University of California at Berkeley with a B.A. in Economics.

Lenny Mason, Portfolio Manager

Lenny Mason is a High Yield portfolio manager for Symphony Asset Management and is also a portfolio manager on the Nuveen's senior loan asset management team. Prior to joining Symphony in 2001, Mason was a Managing Director in FleetBoston's Technology & Communications Group, where he headed its five member Structuring and Advisory Team. He joined FleetBoston in 1995 as an Assistant Vice President in its Media & Communications Group. Previously, Mason worked for Wells Fargo Bank's Corporate Banking Group dealing primarily with leveraged transactions and for Coopers & Lybrand as an auditor. He holds an M.B.A. in Finance from the University of Chicago, a B.S. in Accounting from Babson College and is also a C.P.A.

D. FUND MANAGER COMPENSATION

Symphony investment professionals receive competitive base salaries and participate in a bonus pool which is tied directly to the firm's operating income with a disproportionate amount paid to the managers responsible for generating the alpha. The bonus paid to investment personnel is based on acumen, overall contribution and strategy performance. However, there is no fixed formula which guides bonus allocations. Bonuses are paid on an annual basis. In addition, investment professionals may participate in an equity-based compensation pool.

270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/etf and there were no amendments during the period covered by this report. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then Code of Conduct.)

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
