* Ratings shown are per Standard & Poor's Rating Group, Moody's Investor Services, Inc. or Fitch Ratings. Securities classified as NR are not rated. (For securities not rated by Standard & Poor's Rating Group, the rating by Moody's Investor Services, Inc. is provided. Likewise, for securities not rated by Standard & Poor's Rating Group and Moody's Investor Services, Inc., the rating by Fitch Ratings is provided.) All ratings are unaudited. The ratings apply to the credit worthiness of the issuers of the underlying securities and not to the Fund or its shares.

** Date and price of the earliest optional call provision. There may be other call provisions at varying prices at later dates. All optional call provisions are unaudited.

*** Less than 0.1%

All percentages shown in the Portfolio of Investments are based on Net Assets, unless otherwise noted.

~ The principal amount is denominated in U.S. Dollars, unless otherwise noted.

(a) All or a portion of these securities have been physically segregated in connection with borrowings and reverse repurchase agreements. As of January 31, 2014, the total amount segregated was \$283,140,879.

(b) Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At January 31, 2014 these securities amounted to \$101,826,802, which represents 37.8% of net assets.

(c) Security is a "step-coupon" bond where the coupon increases or decreases at a predetermined date. The rate shown reflects the rate in effect at the end of the reporting period.

(d) Non-income producing as security is in default.

(e) Security is valued in accordance with Fair Valuation procedures established in good faith by management and approved by the Board of Trustees. The total market value of such securities is \$41,180 which represents 0.02% of net assets.

(f) Illiquid security.

(g) Zero coupon bond.

(h) Security becomes an accreting bond after December 15, 2016 with a 2.00% principal accretion rate.

(i) The issuer of this security may elect on May 1 or November 1 of each year to pay the 11.000% coupon entirely in cash, or accrue interest at a rate of 13.000% per annum and make interest payments as follows: (1) 7.5% in cash and (2) 5.5% payment-in-kind shares issued out of the restructuring. During the quarter, the issuer has elected to pay the 11.000% coupon entirely in cash.

(j) Term loans held by the Fund have a variable interest rate feature which is periodically adjusted based on an underlying interest rate benchmark. The rate presented is as of period end. In addition, term loans may include mandatory and/or optional prepayment terms. As a result, the actual maturity dates of the loan may be different than the amounts disclosed in the portfolios of investments. Term loans may be considered restricted in that the Fund may be contractually obligated to secure approval from the Agent Bank and/or

Borrower prior to the sale or disposition of loan.

- (k) Non-income producing security.
 - (l) Security is perpetual and, thus does not have a predetermined maturity date. The coupon rate shown is in effect as of January 31, 2014.
 - (m) All or a portion of this security is segregated as collateral (or potential collateral for future transactions) for written options.
 - (n) All or a portion of these securities have been physically set aside as collateral for forward exchange currency contracts. As of January 31, 2014, the total amount segregated was \$38,049,429.

Total unrealized appreciation for forward exchange currency contracts						\$ 524,971	

Edgar Filing: Advent Claymore Convertible Securities & Income Fund II - Form N-Q

At January 31, 2014, the cost and related gross unrealized appreciation and depreciation on investments for tax purposes, excluding written options, forward exchange currency contracts and foreign currency translations are as follows:

Cost of Investments for Tax Purposes	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Net Tax Unrealized Appreciation on Investments	Net Tax Unrealized Appreciation on Derivatives and Foreign Currency
\$436,984,639	\$ 28,734,564	\$(13,085,247)	\$ 15,649,317	\$ 608,682

Equity securities listed on an exchange are valued at the last reported sale price on the primary exchange on which they are traded. Equity securities traded on an exchange for which there are no transactions on a given day are valued at the mean of the closing bid and ask prices. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Equity securities not listed on a securities exchange or NASDAQ are valued at the mean of the closing bid and ask prices. Debt securities are valued by independent pricing services or dealers using the mean of the closing bid and ask prices for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality and type. If sufficient market activity is limited or does not exist, the pricing providers or broker-dealers may utilize proprietary valuation models which consider market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, or other unique security features in order to estimate relevant cash flows, which are then discounted to calculate a security's fair value. Exchange-traded funds are valued at the last sale price or official closing price on the exchange where the security is principally traded. Swaps are valued daily by independent pricing services or dealers using the mid price. Forward exchange currency contracts are valued daily at current exchange rates. Futures contracts are valued using the settlement price established each day on the exchange on which they are traded. Exchange-traded options are valued at the closing price, if traded that day. If not traded, they are valued at the mean of the bid and ask prices on the primary exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value. The Fund values money market funds at net asset value.

For those securities where quotations or prices are not available, the valuations are determined in accordance with procedures established in good faith by management and approved by the Board of Trustees ("Trustees"). A valuation committee consisting of representatives from investment management, fund administration, legal and compliance is responsible for the oversight of the valuation process of the Fund and convenes monthly, or more frequently as needed. The valuation committee reviews monthly Level 3 fair valued securities methodology, price overrides, broker quoted securities, price source changes, illiquid securities, unchanged priced securities, halted securities, price challenges, fair valued securities sold and back testing trade prices in relation to prior day closing prices. On a quarterly basis, the valuations and methodologies of all Level 3 fair valued securities are presented to the Fund's Board of Trustees.

Valuations in accordance with these procedures are intended to reflect each security's (or asset's) fair value. Such fair value is the amount that the Fund might reasonably expect to receive for the security (or asset) upon its current sale. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one security to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security's disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock

Edgar Filing: Advent Claymore Convertible Securities & Income Fund II - Form N-Q

exchange (for exchange traded securities), (vii) an analysis of the company's financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

GAAP requires disclosure of fair valuation measurements as of each measurement date. In compliance with GAAP, the Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and summarized in the following fair value hierarchy:

Level 1 - quoted prices in active markets for identical securities.

Level 2 - quoted prices in inactive markets or other significant observable inputs (e.g. quoted prices for similar securities; interest rates; prepayment speed; credit risk; yield curves)

Level 3 - significant unobservable inputs (e.g. discounted cash flow analysis; non-market based methods used to determine fair value)

Observable inputs are those based upon market data obtained from independent sources, and unobservable inputs reflect the Fund's own assumptions based on the best information available. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following are certain inputs and techniques that are generally utilized to evaluate how to classify each major type of investment in accordance with GAAP.

Equity Securities (Common and Preferred Stock) – Equity securities traded in active markets where market quotations are readily available are categorized as Level 1. Equity securities traded in inactive markets and certain foreign equities are valued using inputs which include broker quotes, prices of securities closely related where the security held is not trading but the related security is trading, and evaluated price quotes received from independent pricing providers. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Convertible Bonds & Notes – Convertible bonds and notes are valued by independent pricing providers who employ matrix pricing models utilizing various inputs such as market prices, broker quotes, prices of securities with comparable maturities and qualities, and closing prices of corresponding underlying securities. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Corporate Bonds & Notes – Corporate bonds and notes are valued by independent pricing providers who employ matrix pricing models utilizing various inputs such as market prices, broker quotes, prices of securities with comparable maturities and qualities and closing prices of corresponding underlying securities. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Transfers between levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

Edgar Filing: Advent Claymore Convertible Securities & Income Fund II - Form N-Q

The following table represents the Fund's investments carried on the Statement of Assets and Liabilities by caption and by level within the fair value hierarchy as of January 31, 2014:

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
(value in \$000s)				
Assets:				
Convertible Bonds	\$-	\$275,253	\$41	\$275,294
Corporate Bonds	-	99,473	-	99,473
Term Loans	-	1,881	-	1,881
Convertible Preferred Stocks	14,265	-	-	14,265
Common Stocks	22,564	-	-	22,564
Warrants	-	466	-	466
Call Options Purchased	10	-	-	10
Put Options Purchased	631	-	-	631
Money Market Fund	38,049	-	-	38,049
Forward Exchange Currency Contracts	-	659	-	659
Total	\$75,519	\$377,732	\$41	\$453,292
Liabilities:				
Call Options Written	\$63	\$-	\$-	\$63
Forward Exchange Currency Contracts	-	134	-	134
Total	\$63	\$134	\$-	\$197

If not referenced in the table, please refer to the Portfolio of Investments for a breakdown of investment type by industry category.

There were no transfers between levels during the three months ended January 31, 2014.

The following table presents the activity of the Fund's investment measured at fair value using significant unobservable inputs (Level 3 valuation) for the three months ended January 31, 2014.

Level 3 Holdings (value in \$000s)	Corporate Bonds
Beginning Balance at 10/31/13	\$ 41
Net Realized Gain/Loss	-
Change in Unrealized Gain/Loss	- *
Purchases	-
Sales	-
Transfers In	-
Transfers Out	-
Ending Balanced at 1/31/14	\$ 41

* Amount represents the change in unrealized gain (loss) for ShengdaTech, Inc. as of January 31, 2014.

The following table summarizes valuation techniques and inputs used in determining the fair value of holdings categorized as Level 3 at January 31, 2014:

Investments, at Value		Value as of January 31, 2014	Valuation Technique	Unobservable Inputs
Convertible Bond	\$	41,180	Last Available Transaction	Discount on Last Transaction Price

A significant change in unobservable inputs would have the following impact to Level 3 valuations:

	Impact to Value if Input Increases	Impact to Value if Input Decreases
Unobservable Input Discount on Last Transaction Price	Increases	Decreases

Item 2. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) as of a date within 90 days of the filing date of this report and have concluded, based on such evaluation, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant on this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected or is reasonably likely to materially affect the registrant's internal control over financial reporting.

Item 3. Exhibits.

A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2(a)), is attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
