Plan Committee
Westcorp Employee Stock Ownership and Salary Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Westcorp Employee Stock Ownership and Salary Savings Plan as of December 31, 2002 and 2001, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2002 and 2001, and the changes in its net assets available for benefits for the year ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2002, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Westcorp
Employee Stock Ownership and Salary Savings Plan

Notes to Financial Statements

December 31, 2002

1. Description of the Plan

The following description of the Westcorp Employee Stock Ownership and Salary Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated, is a defined contribution profit sharing plan that covers substantially all employees and provides for retirement benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Within the Plan, there are two parts, the Employee Stock Ownership Plan (ESOP) and the Salary Savings Plan (SSP). The Company and its subsidiaries make contributions to these parts as determined by the Plan document, the Company's Board of Directors, and within the guidelines of ERISA and the regulations of the Internal Revenue Service.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. The participants vest as follows:

Years of Service	Vested Interest	
	ESOP	SSP
Less than 1	0%	0%
1	20%	30%
2	40%	60%
3	60%	100%
4	80%	
5 or more	100%

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Vesting (continued)

A participant is 100% vested after five years of service for the ESOP and three years of service for the SSP, or upon attainment of age 65 or in the event of a participant's death or total disability while still an employee of the Company. Forfeitures are used to reduce the Company's contributions.

It is the intent of the Company to continue the Plan; however, the Plan may be terminated by the Company at any time. In the event the Plan terminates, the net assets of the Plan will be fully allocated. All participants will vest 100% immediately and will receive their credited balance as of the date of liquidation.

Employee Contributions

Employees may contribute up to 14% of annual earnings, subject to the 2002 limit of \$11,000 per the Internal Revenue Code Section 401(g), to the Plan through regular payroll deductions under the 401(k) provisions of the Plan.

Employer Contributions

Employer contributions under the ESOP are at the discretion of the Company's Board of Directors. Employer contributions for the SSP are matched 100% of the first \$500 contributed by the participant to the Plan, and then 50% of participant contributions, not to exceed 6% of participant annual compensation.

Loans to Participants

The Plan allows employees to borrow from their Plan accounts, excluding the ESOP portion. A minimum loan amount of \$500 can be borrowed once a year. The maximum loan amount is 50% of the employee's vested Plan account balance not to exceed \$50,000. Loans are required to be repaid within five years; however, if the purpose of the loan is to purchase a primary residence, the term may be up to 30 years. The loans bear interest at one percent plus the prime rate for the month previous to the loan date. Each loan is secured by the participant's vested interest remaining in the Plan.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Loans to Participants (continued)

Repayments of loan amounts are used to reduce the outstanding principal balance of the loan. Such principal reductions are then allocated among the 11 investment options in the same proportion in which the individual employee's elective contributions are allocated at the time of loan repayment.

2. Significant Accounting Policies

Basis of Presentation: The Plan is for the benefit of all eligible employees of Westcorp (the Company), its wholly owned subsidiaries, Westran Services Corp., and Western Financial Bank (the Bank), and the Bank's subsidiaries.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions and Deductions: Contributions by Plan participants are recognized as additions to net assets when the deduction is made from the participants' wages at the end of each payroll period. In 2001, the Company restated the Plan to incorporate all prior amendments. In 2002, the Company amended the Plan setting limits on annual participant contributions and limiting annual participant compensation used for Plan allocation purposes. Company contributions for the ESOP portion of the Plan are discretionary. Company contributions are accrued in the year in which they become obligations of the Company by authorization of its Board of Directors.

Benefits due to terminated participants and participant withdrawals are recorded on the date distributions are made.

Investment Valuation and Income Recognition: The Plan's cash and investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices which represent the net asset values of shares held by the Plan at year-end. The common stock shares of Westcorp are valued at their closing price on the New York Stock Exchange as of December 31, 2002 and 2001, respectively. Loans to participants are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

3. Benefits Payable

At December 31, 2002 and 2001, there were no vested benefits payable to participants. Vested benefits payable are not reflected as a deduction from net assets available for benefits in the Plan's financial statements and there is no reconciling difference from the Plan's Form 5500, Annual Return/Report of Employee Benefit Plan.

4. Investments

The following investments represented five percent or more of the Plan's net assets:

	December 31,	
	2002	2001
John Hancock Large Cap Value Fund	\$ 3,370,733	\$ 5,071,112
Janus Advisor Large Cap Growth Fund	*	4,453,191
Westcorp common stock	39,502,557	38,167,168
John Hancock Stable Value Trust Fund	3,754,703	4,489,867
American Funds AMCAP Fund	3,878,227	*

* Investment balance is less than 5% of the Plan's net assets.

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value during 2002 as follows:

Investments at fair value as determined by quoted market prices:	
Westcorp common stock	\$ 5,718,067
Mutual funds	(5,278,230)
	<hr/>
Net appreciation in fair value of investments	\$ 439,837
	<hr/>

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 1, 2002, stating that the Plan is qualified, in form, under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

6. Administrative Costs

The Company agreed to voluntarily pay the Plan's administrative expenses of approximately \$58,232 and \$180,789 in 2002 and 2001, respectively, and effectively reduced the expenses through timely remittance of periodic reports to the record keeper. The agreement to pay the administrative costs may be canceled at any time.

7. Employer Contributions

In 2002, the Company's Board of Directors elected to provide a contribution to the ESOP and SSP of \$2,247,643 and \$2,290,180, respectively. The SSP contribution was partially offset by forfeitures of \$1,966,850. In 2002, total SSP contributions include unallocated forfeitures totaling \$28,969 which remain in the Plan and are available to the Company for future use.

8. ESOP Participant Allocation

The Plan allocates contributions, investment changes and forfeitures to participants' ESOP accounts as follows:

Contributions: Each participant is credited with one unit for each \$100 of eligible compensation plus an additional unit for each full year of service. These units are summarized and form the basis for the participant's pro-rata contribution. All ESOP employer contributions credited to employees are invested in the Company's common stock.

Investment Changes: Each participant account is allocated the amount of investment changes on a daily basis in the same proportion that the cash or shares of each participant's account bears to the total accounts of all participants in the same investment option at the time of the valuation.

Forfeitures: Forfeitures are held within the Plan and can be used to offset employer match to the SSP and employer contributions to the ESOP.

11. Risks and Uncertainties

The Plan provides for various investments in mutual funds, collective trust funds, Westcorp common stock, and other investments. Investments in general are subject to various risks, such as interest rates, credit and overall market volatility risks.

Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
