VF CORPORATION
Notes to Consolidated Financial Statements
(Unaudited)

Note A Basis of Presentation

VF Corporation (and its subsidiaries collectively known as VF) operate and report using a 52/53 week fiscal year ending on the Saturday closest to December 31 of each year. Similarly, the fiscal third quarter ends on the Saturday closest to September 30. For presentation purposes herein, all references to periods ended September 2008, December 2007 and September 2007 relate to the fiscal periods ended on September 27, 2008, December 29, 2007 and September 29, 2007, respectively.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. Similarly, the December 2007 consolidated balance sheet was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, the accompanying unaudited consolidated financial statements contain all normal and recurring adjustments necessary to make a fair statement of the consolidated financial position, results of operations and cash flows of VF for the interim periods presented. Operating results for the three months and nine months ended September 2008 are not necessarily indicative of results that may be expected for any other interim period or for the year ending January 3, 2009. For further information, refer to the consolidated financial statements and notes included in VF s Annual Report on Form 10-K for the year ended December 2007 (2007 Form 10-K).

In April 2007, VF sold its intimate apparel business consisting of its domestic and international women s intimate apparel business units. Accordingly, the Consolidated Statements of Income and Consolidated Statements of Cash Flows present the intimate apparel businesses as discontinued operations for all periods. Similarly, the assets and liabilities of the discontinued operations have been separately presented in the Consolidated Balance Sheets. Amounts presented herein, unless otherwise stated, relate to continuing operations. See Note D.

Certain prior year amounts, none of which are material, have been reclassified to conform with the 2008 presentation.

Note B Changes in Accounting Policies

During the first quarter of 2008, VF adopted Financial Accounting Standards Board (FASB) Statement No. 157, *Fair Value Measurements* (Statement 157), which clarified the definition of fair value, established a framework and a hierarchy based on the level of observability and judgment associated with inputs used in measuring fair value, and expanded disclosures about fair value measurements. Statement 157 applies whenever other accounting pronouncements require or permit assets or liabilities to be measured at fair value but does not require any new fair value measurements. As permitted by FASB Staff Position No. 157-2, *Effective Date of FASB Statement No. 157*, the disclosure provisions of Statement 157 relating to nonrecurring measurements of nonfinancial assets and nonfinancial liabilities are deferred until VF s 2009 fiscal year. This deferral of disclosures applies primarily to nonfinancial assets and nonfinancial liabilities initially measured at fair value in a business combination or measured at fair value for an impairment assessment.

Fair value is defined in Statement 157 as the price that would be received from the sale of an asset or paid to transfer a liability (i.e., an exit price) in the principal or most advantageous market in an orderly transaction between market participants. In determining fair value, Statement 157 establishes a three-level hierarchy that distinguishes between (i) market data obtained or developed from independent sources (i.e., observable data inputs) and (ii) a reporting entity s own data and assumptions that market participants would use in pricing an asset or liability (i.e., unobservable data inputs). Financial assets and financial liabilities measured and reported at fair value are classified in one of the following categories, in order of priority of observability and objectivity of pricing inputs:

Level 1 Fair value based on quoted prices in active markets for identical assets or liabilities.

Level 2 Fair value based on significant directly observable data (other than Level 1 quoted prices) or significant indirectly observable data through corroboration with observable market data. Inputs would normally be (i) quoted prices in active markets for similar assets or liabilities, (ii) quoted prices in inactive markets for identical or similar assets or liabilities or (iii) information derived from or corroborated by observable market data.

Level 3 Fair value based on prices or valuation techniques that require significant unobservable data inputs. Inputs would normally be a reporting entity s own data and judgments about assumptions that market participants would use in pricing the asset or liability.

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis at September 2008:

		Fair Value Measurement Using:		
In thousands	Total Fair Value	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Financial assets:				
Cash equivalents	$ 84,050	$ 84,050		
Investment securities	197,071	151,265	$ 45,806	
Derivative instruments	4,965		4,965	
Financials liabilities:				
Derivative instruments	3,689		3,689	
Deferred compensation	226,472		226,472	

Cash equivalents represent funds held in institutional money market funds. Investment securities, consisting primarily of mutual funds (classified as Level 1) and a separately managed fixed income fund (classified as Level 2), are purchased to offset a substantial portion of participant-directed investment selections representing underlying liabilities to participants in VF s deferred compensation plans. Liabilities under deferred compensation plans are recorded at amounts payable to participants, based on the fair value of participant-directed investment selections. Derivative instruments represent net unrealized gains or losses on foreign currency forward exchange contracts, which is the net difference between (i) the U.S. dollars to be received or paid at the contracts settlement date and (ii) the U.S. dollar value of the foreign currency to be sold or purchased at the current forward exchange rate.

VF also adopted FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (Statement 159) in the first quarter of 2008. Statement 159 permits companies to measure at fair value eligible financial assets and financial liabilities that were not otherwise required to be recorded at

fair value, with changes in fair value recognized in net income as they occur. Since VF has not elected to apply fair value accounting to any additional items, the adoption of Statement 159 had no impact.

In addition, as required beginning in the first quarter of 2008, VF adopted Emerging Issues Task Force (EITF) 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards,* which requires that the tax benefit related to dividend equivalents declared on restricted stock units that are expected to vest be recorded as an increase in additional paid-in capital. The impact of adopting EITF 06-11 was not significant.

Note C Acquisitions

The final valuation of intangible assets for Seven For All Mankind, the largest acquisition in 2007, was completed in 2008, resulting in reductions in the amount assigned to indefinite-lived trademark intangible assets from $340.0 million to $313.7 million and the amount assigned to amortizable intangible assets (primarily customer relationships) from $185.0 million to $182.8 million, with offsetting increases in goodwill.

In June 2008, VF acquired one-third of the outstanding equity of Mo Industries Holdings, Inc. (Mo Industries), a Los Angeles-based company that owns the *Splendid*Ò and *Ella Moss*Ò brands of premium sportswear marketed to upscale department and specialty stores. VF also acquired an option to purchase the remaining shares of Mo Industries, and granted the other stockholders of Mo Industries an option to require VF to purchase all of their stock, during the first half of 2009 at a price based on its 2008 earnings. The cost of the investment, including the related put/call rights, was $77.0 million, with this investment being accounted for using the equity method of accounting. From the date of acquisition, the equity in net income of Mo Industries is reported as part of the Contemporary Brands Coalition. If VF were to acquire the remaining shares in 2009, the purchase price of those shares, plus any net debt assumed, is limited to a maximum amount of $225 million.

In July 2008, VF acquired 100% ownership of its former 50%-owned joint venture that markets *Lee*Ò branded products in Spain and Portugal. The cost of the additional investment was $25.5 million, consisting of $14.9 million in cash and transfer of certain nonmonetary assets held by the former joint venture. Management has allocated the purchase price to acquired tangible and intangible assets, and assumed liabilities, based on their respective fair values. Of the total consideration, $13.5 million was preliminarily assigned to indefinite-lived and amortizable intangible assets and $11.9 million was assigned to goodwill, subject to possible refinement during the fourth quarter. Goodwill arising from the acquisition related to synergies and economies of scale from combining this business with VF s existing European jeanswear business. The joint venture was accounted for using the equity method of accounting through July 2008, while the entity is consolidated for periods since the acquisition of the remaining 50% ownership. Operating results for all periods are reported as part of the Jeanswear Coalition. Pro forma operating results for this acquisition are not provided because this acquisition is not material to VF s operating results.

Note D Sale of Intimate Apparel Business

In December 2006, management and the Board of Directors decided to exit VF s domestic and international women s intimate apparel business (formerly referred to as the Intimate Apparel Coalition, a reportable business segment). On April 1, 2007, VF sold the net assets of this business (except for an investment in marketable securities of an intimate apparel supplier) for $348.7 million, plus $28.8 million related to the business unit s Cash and Equivalents. The results of operations and cash flows of the intimate apparel business are separately presented as discontinued operations for all periods in accordance with FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. Similarly, the assets and liabilities of this business have been reported as held for sale.

Summarized operating results for the discontinued intimate apparel business was as follows:

In thousands	Three Months Ended September 2007	Nine Months Ended September 2007
Total revenues	$	$ 196,167
Income (loss) from discontinued operations, net of income taxes of $1,669 and $4,859	$ (1,870)	$ 2,567
Loss on disposal, without income tax benefit	(240)	(24,554)
Loss from discontinued operations	$ (2,110)	$ (21,987)
Earnings per common share basic		
Income (loss) from operations	$ (0.02)	$ 0.02
Loss on disposal		(0.22)
Discontinued operations	(0.02)	(0.20)
Earnings per common share diluted		
Income (loss) from operations	$ (0.02)	$ 0.02
Loss on disposal		(0.22)
Discontinued operations	(0.02)	(0.20)

Summarized assets and liabilities of discontinued operations presented in the Consolidated Balance Sheets were as follows:

In thousands	September 2008	December 2007	September 2007
Investments in marketable securities	$	$	$ 14,861
Current assets of discontinued operations	$	$	$ 14,861
Accrued liabilities	$ 69	$ 1,071	$ 267
Current liabilities of discontinued operations	$ 69	$ 1,071	$ 267

Note E Intangible Assets

			September 2008		December 2007
	Weighted Average Life	Gross Carrying	Accumulated	Net Carrying	Net Carrying
Dollars in thousands	*	Amount	Amortization	Amount	Amount
Amortizable intangible assets:					
License agreements	22 years	$ 198,208	$ 48,654	$ 149,554	$ 158,566
Customer relationships	20 years	333,879	47,913	285,966	301,057
Trademarks and other	7 years	12,425	6,387	6,038	5,917
Amortizable intangible assets, net				441,558	465,540
Indefinite-lived intangible assets:					
Trademarks and tradenames				948,844	969,729
Intangible assets, net				$ 1,390,402	$ 1,435,269

* Amortization of license agreements accelerated and straight-line methods; customer relationships accelerated methods; trademarks and other accelerated and straight-line methods.

Amortization expense of intangible assets for the third quarter and nine months of 2008 was $9.8 million and $29.8 million, respectively. Estimated amortization expense for the remainder of 2008 is $8.3 million and for the years 2009 through 2012 is $31.9 million, $29.9 million, $28.4 million and $26.8 million, respectively.

Note F Goodwill

In thousands	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	Total
Balance, December 2007	$ 232,068	$ 564,867	$ 56,246	$ 215,767	$ 209,215	$ 1,278,163

2008 acquisition	11,875					11,875
Adjustments to purchase price allocation		(94)			37,465	37,371
Currency translation	(6,195)	(1,026)			3,620	(3,601)
Balance, September 2008	$ 237,748	$ 563,747	$ 56,246	$ 215,767	$ 250,300	$ 1,323,808

Note G Pension Plans

VF s net periodic pension cost contained the following components:

In thousands	Three Months Ended September 2008	Three Months Ended September 2007	Nine Months Ended September 2008	Nine Months Ended September 2007
Service cost benefits earned during the year	$ 4,162	$ 5,022	$ 12,486	$ 16,642
Interest cost on projected benefit obligations	17,276	16,914	51,828	50,742
Expected return on plan assets	(20,840)	(20,652)	(62,520)	(61,956)
Settlement loss	3,242		3,242	
Amortization of:				
Prior service cost	673	672	2,019	2,016
Actuarial loss	254	1,323	1,180	3,969
Net periodic pension cost	4,767	3,279	8,235	11,413
Amount allocable to discontinued operations				(1,612)
Net periodic pension cost continuing operations	$ 4,767	$ 3,279	$ 8,235	$ 9,801

The settlement loss in the third quarter of 2008 related to recognition of deferred actuarial losses upon payment of a portion of the retirement benefits accrued under VF s Supplemental Executive Retirement Plan (SERP). During the first nine months of 2008, VF made contributions totaling $10.3 million to fund benefit payments for the SERP. VF currently anticipates making an additional $0.9 million of contributions to fund benefit payments for the SERP during the remainder of 2008. Due to the overfunded status of the qualified pension plan at the end of 2007, the latest valuation date, VF is not required under applicable regulations, and does not currently intend, to make a contribution to the plan during 2008.

Note H Business Segment Information

For internal management and reporting purposes, VF s businesses are grouped principally by product categories, and by brands within those product categories. These groupings of businesses are referred to as coalitions. These coalitions represent VF s reportable segments. Financial information for VF s reportable segments is as follows:

In thousands	Three Months Ended September 2008	Three Months Ended September 2007	Nine Months Ended September 2008	Nine Months Ended September 2007
Coalition revenues:				
Jeanswear	$ 743,180	$ 758,485	$ 2,101,635	$ 2,174,691
Outdoor	906,608	806,113	2,066,351	1,791,611

Note I Capital and Comprehensive Income (Loss)

Common stock outstanding is net of shares held in treasury, and in substance retired. There were 12,198,054 treasury shares at September 2008 and 10,042,686 at December 2007 and September 2007. The excess of the cost of treasury shares acquired over the $1 per share stated value of Common Stock is deducted from Retained Earnings. In addition, 242,964 shares of VF Common Stock at September 2008, 284,103 shares at December 2007, and 279,198 shares at September 2007 were held in trust for deferred compensation plans. These shares held for deferred compensation plans are treated for financial reporting purposes as treasury shares at a cost of $9.6 million, $11.8 million and $11.5 million at each of the respective dates.

There are 25,000,000 authorized shares of Preferred Stock, $1 par value, of which none are outstanding.

Activity for 2008 in the Common Stock, Additional Paid-in Capital and Retained Earnings accounts is summarized as follows:

In thousands	Common Stock	Additional Paid-in Capital	Retained Earnings
Balance, December 2007	$ 109,798	$ 1,619,320	$ 1,786,216
Net income			486,885
Cash dividends on Common Stock			(190,347)
Purchase of treasury stock	(2,000)		(147,729)
Stock compensation plans, net	2,029	128,455	(9,893)
Balance, September 2008	$ 109,827	$ 1,747,775	$ 1,925,132

Other comprehensive income consists of changes in assets and liabilities that are not included in Net Income under generally accepted accounting principles but are instead reported within a separate component of Common Stockholders Equity. VF s comprehensive income was as follows:

	Three Months Ended September		Nine Months Ended September	
In thousands	2008	2007	2008	2007
Net income	$ 233,875	$ 207,207	$ 486,885	$ 427,213
Other comprehensive income (loss):				
Foreign currency translation				
Amount arising during the period	(99,412)	50,862	(4,923)	61,098
Reclassification to net income during the period (2007 - Note D)		(5,622)	(1,522)	44,569

13

Accumulated Other Comprehensive Income (Loss) for 2008 is summarized as follows:

In thousands	Foreign Currency Translation	Defined Benefit Pension Plans	Derivative Financial Instruments	Marketable Securities	Total
Balance, December 2007	$ 126,171	$ (63,975)	$ (8,419)	$ 7,718	$ 61,495
Other comprehensive income (loss)	(7,867)	19,973	11,540	(6,873)	16,773
Balance, September 2008	$ 118,304	$ (44,002)	$ 3,121	$ 845	$ 78,268

Note J Stock-based Compensation

During the nine months of 2008, VF granted options for 1,395,214 shares of Common Stock at a weighted average exercise price of $79.41, equal to the fair market value of VF Common Stock on the date of grant. The options vest in equal annual installments over a three year period. The fair value of these options was estimated using a lattice valuation model for employee groups having similar exercise behaviors, with the following assumptions: expected volatility ranging from 23% to 36%, with a weighted average of 27%; expected term of 4.8 to 7.3 years; expected dividend yield of 2.8%; and risk-free interest rate ranging from 2.1% at six months to 3.6% at 10 years. The resulting weighted average fair value of these options at the date of grant was $18.58 per option.

Also during the nine months of 2008, VF granted 293,735 performance-based restricted stock units. Participants are eligible to receive shares of VF Common Stock at the end of a three year performance period. The actual number of shares that will be earned, if any, will be based on VF s performance over that period. The weighted average grant date fair value of the restricted stock units was $78.02 per unit.

In addition, VF granted 31,000 shares of restricted VF Common Stock during the nine months of 2008 at a weighted average fair value of $72.38 per share. The shares will vest at various dates through 2014.

Note K Income Taxes

The effective income tax rate was 28.3% for the third quarter and 30.0% for the first nine months of 2008, compared with 33.7% and 33.9% in the comparable periods of 2007. The lower rate in 2008 was due to reductions of previously accrued amounts that will not be paid due to resolution of the underlying uncertain income tax positions, as covered below. In addition, results in 2008 included a higher percentage of income in lower tax jurisdictions outside the United States. The effective tax rate for the full year 2007 was 32.3%, which included the favorable impact from expiration of statutes of limitations and tax audit settlements.

VF files a consolidated U.S. federal income tax return, as well as separate and combined income tax returns in numerous state and foreign jurisdictions. In the United States, Internal Revenue Service (IRS) examinations for tax years 2002 and 2003 were settled. In 2008, the IRS commenced an examination of tax years 2004, 2005 and 2006. In the United Kingdom, Inland Revenue examinations for certain subsidiaries for tax years 2001 to 2006 were settled. Tax years 1998 to 2002 are under examination by the State of North Carolina, and tax years 2003 to 2005 are under examination by the State of Alabama. VF is also currently subject to examination by various other taxing authorities. Management believes that some of these audits and negotiations will conclude during the next 12 months.

The amount of unrecognized tax benefits decreased by $15.0 million during the third quarter and by $18.2 million during the first nine months of 2008, primarily due to favorable settlements of audit exposures and updated assessments of previously accrued amounts. During the next 12 months, management believes that it is reasonably possible that the amount of unrecognized tax benefits may decrease by approximately $9 million due to settlement of audit exposures and expiration of statutes of limitations, which includes $7 million that would reduce income tax expense.

VF had been granted a lower income tax rate in a foreign subsidiary based on meeting certain increased investment and employment level requirements. The tax status providing this benefit expires at the end of 2009. During the second quarter of 2008, VF entered into a new agreement with the tax authorities of that country, which will result in a slightly higher effective income tax rate on taxable income in that subsidiary for 2010 through 2014.

Note L Earnings Per Share

Earnings per share from continuing operations were computed as follows:

	Three Months Ended September		Nine Months Ended September	
In thousands, except per share amounts	2008	2007	2008	2007
Basic earnings per share:				
Income from continuing operations	$ 233,875	$ 209,317	$ 486,885	$ 449,200
Weighted average Common Stock outstanding	109,106	109,671	109,062	110,689
Basic earnings per share from continuing operations	$ 2.14	$ 1.91	$ 4.46	$ 4.06
Diluted earnings per share:				
Income from continuing operations	$ 233,875	$ 209,317	$ 486,885	$ 449,200
Weighted average Common Stock outstanding	109,106	109,671	109,062	110,689
Effect of dilutive securities:				
Stock options and other	2,152	2,753	2,317	2,879
Weighted average Common Stock and dilutive securities outstanding	111,258	112,424	111,379	113,568
Diluted earnings per share from continuing operations	$ 2.10	$ 1.86	$ 4.37	$ 3.96

Outstanding options to purchase 1.4 million shares of Common Stock were excluded from the computation of diluted earnings per share for the three and nine months ended September 2008 because the effect of their inclusion would have been antidilutive. Earnings per share for Discontinued Operations and Net Income in 2007 were computed using the same weighted average shares described above.

Note M Recently Issued Accounting Standards

In December 2007, the FASB issued FASB Statement No. 141(Revised), *Business Combinations* (Statement 141(R)), which revises how business combinations are accounted for, both at the acquisition date and in subsequent periods. Statement 141(R) requires the acquiring entity in a business combination to (i) measure all assets acquired and liabilities assumed at their fair value at the acquisition date, (ii) recognize the full fair value of assets acquired and liabilities assumed in either a full or a partial acquisition, (iii) expense transaction and restructuring costs and (iv) provide additional disclosures not required under prior rules. Statement 141(R) is effective for transactions in which VF obtains control of a business beginning in VF s 2009 fiscal year. The impact on VF of adopting Statement 141(R) will depend on the nature, terms and size of business combinations completed after the effective date.

In December 2007, the FASB issued FASB Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (Statement 160). Statement 160 requires a company to classify noncontrolling (minority) interests in consolidated subsidiaries as equity instead of a liability and provides guidance on the accounting for transactions between an entity and noncontrolling interests. Statement 160, effective for VF s 2009 fiscal year, requires retroactive adoption of the presentation and disclosure requirements, with all other requirements to be applied prospectively. Since VF does not have significant noncontrolling interests in subsidiaries, Statement 160 is not expected to have a significant impact on the consolidated financial statements.

In March 2008, the FASB issued FASB Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* (Statement 161). Statement 161 requires expanded disclosures related to (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations and (iii) how derivative instruments and related hedged items affect an entity s financial position, operating results and cash flows. This Statement is effective for financial statements issued for VF s 2009 fiscal year. VF is currently evaluating the impact of adopting Statement 161.

In April 2008, the FASB issued FASB Staff Position No. FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors to be considered in developing renewal or extension assumptions used to determine the useful life of an identified intangible asset under FASB Statement No. 142, *Goodwill and Other Intangible Assets,* and requires expanded disclosure related to the determination of intangible asset useful lives. FSP 142-3 provides guidance for determining the useful life of recognized intangible assets acquired beginning in VF s 2009 fiscal year, and the expanded disclosures are effective for all recognized intangible assets in VF s 2009 consolidated financial statements. VF is currently evaluating the impact of adopting FSP 142-3.

Note N Subsequent Events

VF s Board of Directors declared a quarterly cash dividend of $0.59 per share, an increase of $0.01, payable on December 19, 2008 to shareholders of record on December 9, 2008.

Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations

Overview

Highlights of the third quarter of 2008 included:

Revenues and earnings per share for the third quarter were each at record levels.

Revenues increased 6% over the prior year quarter to $2,206.6 million, with the increase coming from organic growth in our Outdoor businesses and from acquisitions in the prior year.

Our direct-to-consumer and international businesses continue to be key drivers of growth, with these revenues in the quarter rising 12% and 22%, respectively. International revenues represented 34% of total revenues.

Gross margin as a percent of revenues rose to 44.4% from 43.9% in the prior year quarter.

VF acquired 100% ownership of its former 50%-owned joint venture that marketed *Lee*® branded products in Spain and Portugal (Lee Spain). The cost of the additional investment was $25.5 million, consisting of $14.9 million in cash and transfer of certain assets held by the former joint venture. The joint venture had revenues of $35 million in its latest fiscal year.

Discontinued Operations

In December 2006, management and the Board of Directors decided to exit the women s intimate apparel business. The sale, which closed on April 1, 2007, was consistent with VF s stated objective of focusing on lifestyle businesses having higher growth and profit potential. The results of operations and cash flows of the intimate apparel business are separately presented as discontinued operations for all periods. Similarly, the assets and liabilities of this business have been reclassified and reported as held for sale for all periods presented. See Note D to the Consolidated Financial Statements. Unless otherwise stated, the remaining sections of this discussion and analysis of financial condition and results of operations relate only to continuing operations.

Analysis of Results of Operations

Consolidated Statements of Income

The following table presents a summary of the changes in our Total Revenues from 2007:

(In millions)	Third Quarter 2008 Compared with 2007	Nine Months 2008 Compared with 2007
Total revenues - 2007	$ 2,073	$ 5,264
Organic growth	66	167
Acquisitions in prior year (to anniversary date)	60	291
Acquisition in current year	8	8
Total revenues - 2008	$ 2,207	$ 5,730

The increases in Total Revenues were due to strong organic revenue growth within the Outdoor Coalition, plus inclusion for the full quarter and nine months of the Seven For All Mankind and lucy businesses (together, the Contemporary Brands Acquisitions) acquired in the third quarter of 2007.

Additional details on revenues are provided in the section titled Information by Business Segment.
During the third quarter and first nine months of 2008, approximately 34% and 33%, respectively, of Total Revenues were in international markets. In translating foreign currencies into the U.S. dollar, a weaker U.S. dollar in relation to the functional currencies where VF conducts the majority of its international business (primarily the European euro countries) benefited revenue comparisons by $50 million in the third quarter of 2008 and $148 million in the first nine months of 2008, compared with the 2007 periods. The weighted average translation rate for the euro was $1.51 per euro for the first nine months of 2008, compared with $1.36 during the first nine months of 2007. The U.S. dollar has strengthened in recent months, resulting in a translation rate of $1.47 per euro at the end of September 2008. With the strengthening of the U.S. dollar, it is likely that reported revenues for the fourth quarter will be negatively impacted compared with 2007.
The following table presents the percentage relationship to Total Revenues for components of our Consolidated Statements of Income:

	Three Months Ended September		Nine Months Ended September	
	2008	2007	2008	2007
Gross margin (total revenues less cost of goods sold)	44.4%	43.9%	44.4%	43.5%
Marketing, administrative and general expenses	28.5	27.9	31.2	29.9
Operating income	15.9%	16.0%	13.2%	13.6%

Gross margin as a percentage of Total Revenues increased 0.5% in the third quarter of 2008 and 0.9% in the first nine months of 2008 over the prior year periods. This improvement was driven by growth in our higher margin lifestyle businesses, with our retail revenue growth being a primary contributor.
Marketing, Administrative and General Expenses as a percentage of Total Revenues increased 0.6% in the third quarter of 2008. The third quarter of 2008 included charges for cost reduction actions and an unremitted value-added tax and duty issue related to a 2007 acquisition, together representing 0.5% of revenues. In the first nine months of 2008, Marketing, Administrative and General Expenses as a percentage of Total Revenues increased 1.3% compared with the prior year period. Approximately 0.3% of the change was attributed to charges for cost reduction actions and the value-added tax and duty issue in the first nine months of 2008. In addition, approximately 0.4% of the increase was driven by the change in mix of our businesses toward retail operations, which have higher expense percentages. The remainder of the increase resulted primarily from lower revenues in our jeanswear and sportswear businesses without comparable expense reduction.
Interest expense increased $5.0 million in the quarter and $23.1 million in the first nine months of 2008, reflecting higher borrowings. Average interest-bearing debt outstanding totaled $1,450 million for the first nine months of 2008 and $922 million for the comparable period of 2007, with the increase driven by the issuance of $600.0 million of senior long-term notes in October 2007. The weighted average interest rate on total outstanding debt decreased to 6.2% for the first nine months of 2008 from 6.4% for the comparable period of 2007. This decrease was driven by the mix of our outstanding debt, including the impact of the $600.0 million of senior notes, and lower short-term rates.
The effective income tax rate was 28.3% in the third quarter and 30.0% for the first nine months of 2008,

compared with 33.9% for the first nine months of 2007. The lower rate in the 2008 periods was due primarily to net favorable income tax adjustments in the third quarter of 2008 and a higher percentage of income in lower tax jurisdictions outside of the United States. The effective income tax rate for the third quarter and first nine months of 2008 was based on the expected annual rate, adjusted for discrete events arising during the respective periods.

Income from Continuing Operations in the quarter increased 12% to $233.9 million, compared with $209.3 million in the third quarter of 2007. Earnings per share from continuing operations increased 13% to $2.10 per share from $1.86 per share in the prior year quarter. (All per share amounts are presented on a diluted basis.) The third quarter of 2008 included a net benefit of $0.07 per share in unusual items, comprised of $0.14 per share in net favorable income tax adjustments offset by $0.07 per share from cost reduction actions and for costs related to an unremitted value-added tax and duty issue. The third quarter also benefited from a $0.06 per share positive impact from translating foreign currencies into the U.S. dollar. The remaining improvement in the quarter was driven primarily by profitability in our Outdoor businesses.

Income from Continuing Operations increased 8% to $486.9 million in the first nine months of 2008, compared with $449.2 million in 2007. Earnings per share from continuing operations increased 10% to $4.37 per share from $3.96 per share in the first nine months of 2007. Earnings per share in the first nine months of 2007 included a benefit of $0.04 per share from the sale of *H.I.S*â trademarks and intellectual property. Earnings per share in the first nine months of 2008 included a net benefit of $0.09 per share in unusual items, comprised of $0.20 per share in net favorable income tax adjustments and favorable tax audit settlements offset by $0.11 per share from cost reduction actions and for costs related to an unremitted value-added tax and duty issue. In addition, the 2008 period included a $0.16 per share positive impact from translating foreign currencies into the U.S. dollar.

Information by Business Segment

VF s businesses are grouped into five product categories, and by brands within those product categories, for management and internal financial reporting purposes. These groupings of businesses within VF are referred to as coalitions. These coalitions represent VF s reportable business segments.

See Note H to the Consolidated Financial Statements for a summary of our results of operations by coalition, along with a reconciliation of Coalition Profit to Income from Continuing Operations Before Income Taxes.

The following table presents a summary of the changes in our Total Revenues by coalition for the third quarter and first nine months of 2008:

	Third Quarter					
(In millions)	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	Other
Revenues - 2007	$ 758	$ 806	$ 267	$ 173	$ 33	$ 36
Organic growth	(23)	101	(7)	(9)	7	(3)
Acquisition in prior year (to anniversary date)					60	
Acquisition in current year	8					
Revenues - 2008	$ 743	$ 907	$ 260	$ 164	$ 100	$ 33

	Nine Months					
(In millions)	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	Other
Revenues - 2007	$ 2,175	$ 1,792	$ 711	$ 475	$ 33	$ 78
Organic growth	(81)	260	4	(31)	7	8
Acquisition in prior year (to anniversary date)		14	33		244	
Acquisition in current year	8					
Revenues - 2008	$ 2,102	$ 2,066	$ 748	$ 444	$ 284	$ 86

Jeanswear:

Jeanswear Coalition revenues declined 2% in the third quarter of 2008. Domestic jeanswear revenues declined 3% in the quarter, with the mass market business remaining essentially flat and the Lee and western specialty businesses declining due to a very challenging retail environment, retailers lowering their inventory levels and consumers moving to lower price points, including private label products. International jeans revenues were flat in the quarter, which included a $20 million benefit from foreign currency translation and double-digit revenue increases on a constant-currency basis in Asia and Latin America. For the nine month period ended September 2008, Jeanswear Coalition revenues decreased 3%, with domestic revenues declining 8% due to the retail environment and other factors discussed above. International jeanswear revenues increased 6% in the 2008 nine month period, reflecting the benefit of foreign currency translation. The Lee Spain acquisition, completed in July 2008, also added $8 million in revenue to both the third quarter and first nine months of 2008.

Jeanswear Coalition Profit decreased 9% in the third quarter of 2008, with operating margins declining from 17.9% in the third quarter of 2007 to 16.5% in the current quarter. The third quarter of 2008 was negatively impacted by increased promotional activity and a higher proportion of sales of lower margin new fashion products. In addition, approximately 0.3% of the total 1.4% margin decline was attributed to actions taken in the third quarter of 2008 to improve our cost structure. Operating margins for the nine month period also declined from 16.9% in 2007 to 15.4% in 2008. The nine month period ending September 2007 included a gain on sale of *H.I.S*â trademarks and intellectual property items that positively impacted operating margins by 0.4%. The remainder of the declines in both the quarter and nine month period were driven primarily by decreases in revenues without comparable expense reduction.

Outdoor:

Revenues in our Outdoor businesses increased 12% in the third quarter of 2008 and 15% in the nine month period, compared with prior year periods. These increases were led by strong global unit volume gains of *The North Face*â, *Vans*â, *Kipling*â, *Napapijri*â and *Eastpak*â brands. Also, the 2007 acquisitions of Eagle Creek and specific brand-related assets of a former licensee of *The North Face*â brand in China and Nepal added $14 million to revenues in the first nine months of 2008 (prior to the anniversary dates of the respective acquisitions). Foreign currency translation positively impacted 2008 Outdoor Coalition revenues by $27 million, or 3%, in the quarter and $80 million, or 4%, in the first nine months.

Operating margins increased in the quarter to 20.8% from 20.0% in the prior year quarter and also increased in the nine months ended September 2008 to 17.1% from 16.6% in the prior year period. Operating margins were higher in both 2008 periods due to a higher percentage of products sold in international markets, where higher gross margins are realized. Revenue growth and the resulting benefit of improved leverage of certain operating expenses were offset by increased retail investments.

Imagewear:

Coalition Revenues declined 3% in the third quarter of 2008, with similar decreases in both our occupational apparel and activewear divisions. Coalition Revenues increased 5% for the nine month period of 2008 over the prior year period. The *Majestic*â brand, acquired on February 28, 2007, accounted for substantially all of the increase in the nine month period (prior to the anniversary date of its acquisition).

Operating margins increased to 15.7% from 15.5% in the prior year quarter and also increased in the nine months ended September 2008 to 14.0% from 13.8% due to lower distribution and selling costs.

Sportswear:

Coalition Revenues declined 5% in the 2008 quarter and 6% in the nine month period of 2008 compared with the prior year. Revenues in our core *Nautica*â brand sportswear business declined 10% in the third quarter of 2008 and 11% in the nine month period, driven by the exit of our women s wholesale sportswear business and challenging overall conditions in the department store channel. These declines were partially offset by significant revenue growth in our *Kipling*â and *John Varvatos*â businesses in both 2008 periods, including over 18% growth in each in the third quarter and over 20% growth in each in the nine month period.

Operating margins improved to 10.1% from 9.9% in the prior year quarter, with third quarter 2008 operating margins negatively impacted by 0.9% from cost reduction actions. The improved operating performance resulted from the exit of the women s wholesale sportswear business and benefits of recent cost reduction initiatives. Operating margins declined to 7.1% from 9.7% for the nine month period due to lower *Nautica*â brand revenues without comparable expense reduction, plus a charge in the first quarter of 2008 to discontinue our *Nautica*â women s wholesale sportswear business.

Contemporary Brands:

The Contemporary Brands Coalition was formed in August 2007 with two newly acquired businesses - Seven For All Mankind and lucy activewear. This coalition in 2008 also includes the earnings from our one-third equity investment in Mo Industries Holdings, Inc. (Mo Industries), the owner and marketer of the *Splendid*â and *Ella Moss*â brands.

The Contemporary Brands Coalition operating margins of 11.6% in the third quarter and 14.3% for the first nine months of 2008 were driven by the high operating margins of Seven For All Mankind and our portion of the earnings of the *Splendid*â and *Ella Moss*â brands. Operating margins were negatively impacted by 6.2% in the third quarter of 2008 and 2.2% in the nine month period for a $6.2 million charge related to an unremitted value-added tax and duty matter at Seven For All Mankind. Operating margins were 14.9%

during the period of our ownership in the third quarter of 2007. While not currently profitable, we expect results of our lucy activewear business to improve as we increase our operating efficiencies.

Other:

The Other business segment includes the VF Outlet business unit of company-operated retail outlet stores in the United States that sell a broad selection of excess quantities of first quality VF products and other branded products. Revenues and profits of VF products are reported as part of the operating results of the applicable coalitions, while revenues and profits of non-VF products are reported in this business segment. The increase in revenues in the first nine months of 2008 was due to VF Outlet s sale of women s intimate apparel products obtained from independent suppliers following VF s sale of its intimate apparel business in April 2007 (whereas such revenues prior to April 2007 were reported as part of discontinued operations).

Reconciliation of Coalition Profit to Income from Continuing Operations before Income Taxes:

There are two types of costs necessary to reconcile total Coalition Profit, as discussed in the preceding paragraphs, to consolidated Income from Continuing Operations Before Income Taxes. These costs are (i) Corporate and Other Expenses, discussed below, and (ii) Interest, Net, which was discussed in the previous Consolidated Statements of Income section.

Corporate and Other Expenses consist of corporate headquarters expenses that are not allocated to the coalitions and certain other expenses related to but not allocated to the coalitions for internal management reporting, including development costs for management information systems, certain costs of maintaining and enforcing VF s trademarks and miscellaneous consolidating adjustments. The reduction in Corporate and Other Expenses in the nine month period ended September 2008 over the prior year period resulted primarily from lower stock-based and other incentive compensation.

Analysis of Financial Condition

Balance Sheets

Accounts Receivable at September 2008 increased 4% over the September 2007 balance, reflecting higher revenues in the third quarter of 2008. This increase was partially offset by an improvement in days sales outstanding. Accounts Receivable are higher at September 2008 than at the end of 2007 due to seasonal sales patterns.

Inventories at September 2008 increased 4% over September 2007, which is in line with the forecasted revenue growth in the fourth quarter of 2008 over the prior year quarter. Inventory levels at September 2008 increased over December 2007 due to higher seasonal requirements of our businesses.

Property, Plant and Equipment increased at September 2008 over December 2007 and September 2007 because capital spending, including investments in retail stores, exceeded depreciation expense.

Total Intangible Assets and Goodwill at September 2008 increased over September 2007 as a result of the Lee Spain acquisition and foreign currency translation, offset in part by amortization. See Notes C, E and F to the Consolidated Financial Statements.

Other Assets increased at September 2008 over December 2007 and September 2007 due to a $77.0 million investment in shares of the owner of the *Splendid*â and *Ella Moss*â brands in the second quarter. In addition, the September 2008 and December 2007 balances included the recognition of the overfunded status of our qualified defined benefit pension plan (based at both dates on our December 2007 plan valuation), whereas the plan was underfunded at September 2007 (based on our December 2006 valuation). These increases

were offset in part by lower values of investment securities held for deferred compensation plans at September 2008.
Short-term Borrowings at September 2008 consisted of $362.5 million of domestic commercial paper borrowings and $51.0 million of international borrowings. Overall, the extent of short-term borrowings varies throughout the year in relation to working capital requirements and other investing and financing activities. See the Liquidity and Cash Flows section below for a discussion of these items. Due to seasonal working capital flows and financing requirements, there is typically more need for external borrowings at the end of the third quarter than at our fiscal year-end.

Accounts Payable at September 2008 increased slightly over September 2007 due primarily to increased inventory levels discussed above. The Accounts Payable balance at December 2007 was higher than normal due to the timing of inventory purchases and payments to vendors at the end of 2007.

Accrued Liabilities increased at September 2008 from December 2007 due to (i) an increase in accrued income taxes resulting from higher profitability and timing of tax payments, (ii) seasonal increases and growth-related factors in our businesses and (iii) the Lee Spain acquisition in the third quarter of 2008. The September 2008 balance declined from September 2007 due to changes in accrued income tax balances, driven by higher estimated income tax payments, partially offset by the Lee Spain acquisition.

Total Long-term Debt, including the current portion, decreased at September 2008 and December 2007 from the level at September 2007 resulting from repayment of $49.3 million of short-term international borrowings that had been classified as long-term at September 2007 because of our intent and ability to retain that amount as outstanding for the following twelve months. These short-term international borrowings were repaid due to higher cash generation than expected.

Other Liabilities were lower at September 2008 than both December 2007 and September 2007 due to lower deferred compensation liabilities. Also, Other Liabilities were lower at September 2008 and December 2007 than September 2007 due to the improved funded status of our defined benefit pension plans, offset by higher deferred income tax liabilities.

Liquidity and Cash Flows

The financial condition of VF is reflected in the following:

(Dollars in millions)	September 2008	December 2007	September 2007
Working capital	$ 1,691.1	$ 1,510.7	$ 1,431.7
Current ratio	2.2 to 1	2.3 to 1	1.9 to 1
Debt to total capital ratio	28.8%	26.4%	33.7%

For the ratio of debt to total capital, debt is defined as short-term and long-term borrowings, and total capital is defined as debt plus common stockholders equity. Our ratio of net debt to total capital, with net debt defined as debt less cash and equivalents, was 25.7% at September 2008.

On an annual basis, VF s primary source of liquidity is its strong cash flow provided by operating activities. Cash provided by operating activities is primarily dependent on the level of net income and changes in investments in inventories and other working capital components. Our cash flow from operations is typically

low in the first half of the year as we build working capital to service our operations in the second half of the year. Cash provided by operating activities is substantially higher in the fourth quarter of the year as we collect accounts receivable arising from our higher seasonal wholesale sales in the third quarter. In addition, cash flows from our direct-to-consumer businesses are significantly higher in the fourth quarter of the year.

For the nine months through September 2008, cash provided by operating activities was $59.8 million, compared with cash provided by operating activities of $165.8 million in the comparable 2007 period. The decrease in cash provided by operating activities was driven by the net change in operating asset and liability components, which was a usage of funds of $582.9 million for the nine months ended September 2008, compared with a usage of funds of $452.3 million for the comparable period ended September 2007. This additional usage of funds in the first nine months of 2008 was primarily due to an increase in payments to vendors as a result of a higher than normal accounts payable balance at the end of 2007. See the discussion of accounts payable in the Balance Sheets section above.

To finance our ongoing operations and unusual circumstances that may arise, we rely on our continued strong cash flow from operations. In addition, VF has liquidity from its available cash balances and debt capacity, supported by its strong credit rating. At the end of September 2008, $625.9 million was available for borrowing under VF s $1.0 billion senior unsecured committed domestic revolving bank credit facility. There was $362.5 million of commercial paper outstanding and $11.6 million of standby letters of credit issued under this agreement. We have not drawn down any funds on this facility. Also at the end of September 2008, 250.0 million (U.S. dollar equivalent of $366.4 million) was available for borrowing under VF s senior unsecured committed international revolving bank credit facility.

The investing activities in the first nine months of 2008 included the $14.9 million cash component of the Lee Spain acquisition and $77.0 million purchase of one-third of the shares of Mo Industries, owner of the *Splendid*Ò and *Ella Moss*Ò brands. We have an option to purchase the remaining shares of Mo Industries and have granted the other stockholders of Mo Industries an option to require us to purchase all of their stock in 2009, with the purchase price based on their 2008 earnings. If we were to acquire the remaining shares, the purchase price of those shares, plus any net debt assumed, would be subject to a maximum amount of $225 million. The other significant investing activity in the first nine months of 2008 was capital spending, primarily related to retail initiatives. We expect that capital spending could reach $120 million for the full year of 2008, which will be funded by operating cash flows.

In October 2007, Standard & Poor s Ratings Services affirmed its A minus corporate credit rating, A-2 commercial paper rating and stable outlook for VF. Standard & Poor s also assigned its A minus senior unsecured debt rating to VF s $600.0 million unsecured senior notes issued in October 2007. In August 2007, Moody s Investors Service affirmed VF s long-term debt rating of A3 , commercial paper rating of Prime-2 and stable outlook. Existing long-term debt agreements do not contain acceleration of maturity clauses based solely on changes in credit ratings. However, for the $600.0 million of senior notes issued in 2007, if there were a change in control of VF and, as a result of the change in control, the notes were rated below investment grade by recognized rating agencies, then VF would be obligated to repurchase the notes at 101% of the aggregate principal amount of notes repurchased, plus any accrued and unpaid interest.

During the first nine months of 2008, VF purchased 2.0 million shares of its Common Stock in open market transactions at a cost of $149.7 million (average price of $74.86 per share) and in the first nine months of 2007 purchased 4.1 million shares at a cost of $350.0 million (average price of $85.03 per share). Share repurchase activity during the first nine months of 2008 reduced the total remaining authorization approved by the Board of Directors to 3.2 million shares as of the end of September 2008. The primary objective of our share repurchase program is to offset, on a long-term basis, dilution caused by awards under equity compensation plans. We will continue to evaluate future share repurchases by comparing to the benefits of business acquisitions.

Management s Discussion and Analysis in our 2007 Form 10-K provided a table summarizing VF s contractual obligations and commercial commitments at the end of 2007 that would require the use of funds. Since the filing of our 2007 Form 10-K, there have been no material changes, except as noted below, relating to VF s contractual obligations and commercial commitments that will require the use of funds:

Inventory purchase obligations represent binding commitments to purchase finished goods, raw materials and sewing labor in the ordinary course of business. These commitments increased by approximately $20 million at the end of September 2008 to support the growth of our businesses.

Operating leases represent required minimum lease payments. These commitments increased by approximately $85 million at the end of September 2008, driven by leases for additional retail stores.

Minimum royalty and other commitments decreased by approximately $70 million at the end of September 2008 due to payments made under the agreements.

During the first nine months and extending into the fourth quarter of 2008, the fair value of investments in our qualified defined benefit pension plan declined due to disruption in the global capital and credit markets. Management is continually evaluating current credit market conditions and, along with its independent actuary, is evaluating the impact of those conditions on our pension plan s assets and liabilities. If our plan s investment portfolio does not recover its losses before our next plan measurement date at the end of 2008 and if the extent of the effects of any decline in asset values are not offset by the effects of a possible increase in the discount rate used to value the plan s obligations to participants, it is likely that (i) the reduction in the plans funded status will result in charges to Other Comprehensive Income at December 2008, (ii) our pension expense in 2009 will increase, and (iii) VF will be required to make funding contributions to the plan in 2009.

Management believes that VF s cash balances and funds provided by operating activities, as well as unused committed bank credit lines, additional borrowing capacity and access to equity markets, taken as a whole, provide (i) adequate liquidity to meet all of its current and long-term obligations when due, (ii) adequate liquidity to fund capital expenditures and to maintain our dividend payout policy and (iii) flexibility, depending on capital market conditions, to meet investment opportunities that may arise.

VF does not participate in transactions with unconsolidated entities or financial partnerships established to facilitate off-balance sheet arrangements or other limited purposes.

Critical Accounting Policies and Estimates

We have chosen accounting policies that we believe are appropriate to accurately and fairly report VF s operating results and financial position in conformity with accounting principles generally accepted in the United States. We apply these accounting policies in a consistent manner. Our significant accounting policies are summarized in Note A to the Consolidated Financial Statements included in our 2007 Form 10-K.

The application of these accounting policies requires that we make estimates and assumptions about future events and apply judgments that affect the reported amounts of assets, liabilities, revenues, expenses, contingent assets and liabilities, and related disclosures. These estimates, assumptions and judgments are based on historical experience, current trends and other factors believed to be reasonable under the circumstances. We evaluate these estimates and assumptions and may retain outside consultants to assist in our evaluation. If actual results ultimately differ from previous estimates, the revisions are included in results of operations in the period in which the actual amounts become known.

The accounting policies that involve the most significant estimates, assumptions and management judgments used in preparation of our consolidated financial statements, or are the most sensitive to change from outside

factors, are discussed in Management s Discussion in our 2007 Form 10-K. There have been no material changes in these policies, except for those mentioned in Note B to the Consolidated Financial Statements.

Cautionary Statement on Forward-Looking Statements

From time to time, we may make oral or written statements, including statements in this Quarterly Report that constitute forward-looking statements within the meaning of the federal securities laws. These include statements concerning plans, objectives, projections and expectations relating to VF s operations or economic performance, and assumptions related thereto. Forward-looking statements are made based on our expectations and beliefs concerning future events impacting VF and therefore involve a number of risks and uncertainties. We caution that forward-looking statements are not guarantees and actual results could differ materially from those expressed or implied in the forward-looking statements.

Potential risks and uncertainties that could cause the actual results of operations or financial condition of VF to differ materially from those expressed or implied by forward-looking statements in this Quarterly Report on Form 10-Q include VF s reliance on a small number of large customers; the financial strength of VF s customers; changing fashion trends and consumer demand; increasing pressure on margins; VF s ability to implement its growth strategy; VF s ability to grow its international and direct-to-consumer businesses; VF s ability to successfully integrate and grow acquisitions; VF s ability to maintain the strength and security of its information technology systems; stability of VF s manufacturing facilities and foreign suppliers; continued use by VF s suppliers of ethical business practices; VF s ability to accurately forecast demand for products; continuity of members of VF s management; VF s ability to protect trademarks and other intellectual property rights; maintenance by VF s licensees and distributors of the value of VF s brands; the overall level of consumer spending; disruption and volatility in the global capital and credit markets; general economic conditions and other factors affecting consumer confidence; fluctuations in the price, availability and quality of raw materials and contracted products; foreign currency fluctuations; and legal, regulatory, political and economic risks in international markets. More information on potential factors that could affect VF s financial results is included from time to time in VF s public reports filed with the Securities and Exchange Commission, including VF s Annual Report on Form 10-K.

Item 3 Quantitative and Qualitative Disclosures about Market Risk

There have been no significant changes in VF s market risk exposures from what was disclosed in Item 7A in our 2007 Form 10-K.

Item 4 Controls and Procedures

Disclosure controls and procedures:

Under the supervision of our Chief Executive Officer and Chief Financial Officer, a Disclosure Committee comprising various members of management has evaluated the effectiveness of the disclosure controls and procedures at VF and its subsidiaries as of the end of the period covered by this Quarterly Report (the Evaluation Date). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded as of the Evaluation Date that such controls and procedures were effective.

Changes in internal control over financial reporting:

There have been no changes during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, VF s internal control over financial reporting.

Part II Other Information

Item 1A **Risk Factors**

Except for the item below, there have been no material changes to our risk factors from those disclosed in our 2007 Form 10-K.

Global capital and credit markets conditions, and resulting declines in consumer confidence and spending, could have an adverse effect on VF s operating results. Further, the conditions in the global capital and credit markets could have an adverse effect on VF s ability to access those markets.

Volatility and disruption in the global capital and credit markets reached unprecedented levels during the third quarter of 2008 and extending into the fourth quarter. This market turmoil has led to failures of major financial institutions, government intervention in the capital markets, a tightening of business credit and liquidity, a contraction of consumer credit, higher unemployment and declines in consumer confidence and spending. The economic downturn in the United States and in many international markets could have an adverse effect on demand for our products and on the financial condition of some of our wholesale customers. Global economic conditions could continue to deteriorate and remain weak for an extended period of time, which could have a material adverse effect on VF s financial condition, results of operations and ability to access the capital and credit markets.

Item 2 **Unregistered Sales of Equity Securities and Use of Proceeds**

(c) Issuer purchases of equity securities:

Fiscal Period	Total Number of Shares Purchased	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
June 29 - July 26, 2008		$		3,204,000
July 27 - August 23, 2008				3,204,000
August 24 - September 27, 2008				3,204,000
Total				

(1) Under the Mid-Term Incentive Plan implemented under VF s 1996 Stock Compensation Plan, VF must withhold from the shares of Common Stock issuable in settlement of a participant s performance-based

restricted stock units the number of shares having an aggregate fair market value equal to any minimum statutory federal, state and local withholding or other tax that VF is required to withhold, unless the participant has made other arrangements to pay such amounts. There were no shares withheld under the Mid-Term Incentive Plan during the third quarter of 2008.

Item 6 Exhibits

10.1 VF 2004 Mid-Term Incentive Plan, as amended July 14, 2008

10.2 The Form of Indemnification Agreement with each of VF s non-employee Directors

10.3 Executive Deferred Savings Plan II, as amended and restated to be effective January 1, 2009

31.1 Certification of the principal executive officer, Eric C. Wiseman, pursuant to 15 U.S.C. Section 10A, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

31.2 Certification of the principal financial officer, Robert K. Shearer, pursuant to 15 U.S.C. Section 10A, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

32.1 Certification of the principal executive officer, Eric C. Wiseman, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

32.2 Certification of the principal financial officer, Robert K. Shearer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
