PART I.

Item 1. Business

GENERAL

Insignia Systems, Inc., (the "Company") markets in-store promotional products, programs and services to retailers and consumer packaged goods manufacturers. Since 1998, the Company has been focusing all of its efforts on providing promotional services through the Insignia Point-Of-Purchase Services (POPS) division of the Company. The Insignia POPS(R) division provides the Insignia POPSign(TM) and VALUSTix(R) programs.

Insignia's POPSign is a national, account-specific in-store promotion program. Funded by consumer packaged goods manufacturers, the program combines vital product selling information from manufacturers with each retailer's store-specific prices and is displayed on the retailer's unique sign format that includes the retailer's logo, headline and store colors. The combining of manufacturer and retailer information produces a complete "call to action" that gets consumers the information they want and need to make purchasing decisions, while building store and brand equity.

For retailers, Insignia's POPSign program is a source of incremental revenue and is the first in-store promotion signing program that delivers a complete "call to action" on a product- and store-specific basis, with all participating retail stores updated weekly. For consumer goods manufacturers, Insignia POPSign program provides access to the optimum retail promotion site for their products - the retail shelf-edge. In addition, manufacturers benefit from short lead times, micro-marketing capabilities, such as store-specific and multiple language options, and a wide variety of program features and enhancements that provide unique promotion advantages.

The Company acquired the VALUSTix program through an acquisition in December 2002, which gave the Company the opportunity to expand the offerings in its POPS division. The VALUSTix program is a proprietary system that allows retailers and manufacturers to attach coupons and other promotional materials to products that are sold in grocery stores and other retail locations. The VALUSTix program can deliver immediately actionable offers and information to shoppers at the point-of-purchase. The Company believes the VALUSTix program will complement the POPSign program and expects there will be definite synergies to our existing business.

The Company's Internet address is www.insigniasystems.com. The Company intends to make available on its Web site, beginning in April 2003, all of the reports it files with the SEC. Until then, copies can be obtained free of charge by requesting them from Insignia Systems, Inc., 6470 Sycamore Court North, Maple Grove, Minnesota 55359-6032; Attention: CFO; telephone 763-392-6200.

INDUSTRY AND MARKET BACKGROUND

According to Point-Of-Purchase Advertising International (POPAI), an industry non-profit trade association, more than 70% of brand purchase decisions are being made in-store. As a result, product manufacturers are constantly seeking in-store vehicles to motivate consumers to buy their branded products. Industry studies estimate that manufacturers spend approximately \$850 million annually on in-store promotion efforts. The Company's market studies indicate that the shelf-edge sign represents the final and best opportunity for manufacturers to convince the consumer to buy. In fact, a 1996 industry study

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

concluded the shelf is second only to end-aisle displays for in-store effectiveness.

Page 1

Many consumers seek product information beyond price in order to make educated buying decisions. The Company's marketing studies indicate the most effective sign contains information supplied by the product manufacturer in combination with the retailer's price and design look.

COMPANY PRODUCTS

INSIGNIA POPSIGN PROGRAM

Insignia's POPSign program is an in-store, shelf-edge point-of-purchase promotional signing program that enables manufacturers to deliver product-specific messages quickly and accurately - in designs and formats that have been pre-approved and supported by participating retailers. Insignia POPSign program delivers vital product selling information from manufacturers, such as product uses and features, nutritional information, advertising tag lines and product images. The brand information is combined with the retailer's store-specific prices and is displayed on the retailer's unique sign format that includes their logo, headline and store colors. Each sign is displayed directly in front of the manufacturer's product in the participating retailer's stores. Insignia's POPSign program offers special features and enhancements, such as Advantage and Custom Advantage flags that allow manufacturers to add visibility and highlight any message at-shelf. Insignia Color POPSign(TM) is a customizable, full-color version of POPSign that delivers image-building full-color graphics. In 2002, the Company introduced Insignia UltraColor(TM), which offers 75 percent more area for the full-color creative than Color POPSigns.

Utilizing proprietary technology, the Company collects and organizes the data from both manufacturers and retailers, then formats, prints and delivers the signs to retailers for distribution and display. Store personnel place the signs at the shelf for two-week or four-week display cycles. The Company charges manufacturers for the signs placed, per cycle, and generally per store. Retailers are paid a flat fee per sign, per display cycle, by the Company based upon compliance and retailer-supplied product movement data provided to Insignia.

VALUSTIX PROGRAM

The VALUSTix program is a proprietary system that allows retailers and manufacturers to attach coupons and other promotional materials to products that are sold in grocery stores and other retail locations. Coupons and promotional materials are applied to any product at the point-of-production in pressure sensitive booklets via customized equipment. The booklets can be adhered to all categories of products, including frozen foods, refrigerated foods, dairy products and packaged produce.

THE SIGNRIGHT SIGN SYSTEM

Prior to 1996, the Company's primary product offering was the Impulse Retail System, a system developed by an independent product design and development firm (the "Developer"). In 1996, the Company replaced the Impulse Retail System with the SIGNright Sign System. In 1998, the Company ceased the active domestic sales of the SIGNright Sign System.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Cardstock for the two systems are sold by the Company in a variety of sizes and color that can be customized to include pre-printed custom artwork, such as a retailer's logo. Approximately 9% of 2002 revenues came from the sale of cardstock. The Company expects this percentage to be lower in the future as Insignia POPS revenue increases.

STYLUS SOFTWARE

In late 1993, the Company introduced Stylus, a PC-based software application used by retailers to produce signs, labels, and posters. The Stylus software allows retailers to create signs, labels and posters by manually entering the information or by importing information from a database. Approximately 2% of 2002

Page 2

revenues came from the sale of Stylus products and maintenance. The Company expects this percentage to be lower in the future as POPS revenue increases.

MARKETING AND SALES

The Company directly markets the Insignia POPSign program to food and drug manufacturers and retailers. By utilizing the Insignia POPSign program, these manufacturers and retailers can easily accomplish what had previously been either impossible or extremely difficult: tailoring national promotional programs to regional and local needs with minimal effort. In addition to the benefits provided to manufacturers and retailers, Insignia POPSign program provides consumers more information and clearer messages to aid in purchasing decisions. The Company believes its Insignia's POPSign program is the most complete in-store sign promotion program available, benefiting consumer, retailer, and manufacturer.

Through April 1998, the Company marketed the SIGNright Sign System through telemarketing by in-house sales personnel and independent sales representatives. In May 1998, the Company discontinued the active sale of the SIGNright Sign System to U.S. customers, but continues to market it through the Company's international distributors covering 20 countries.

The Company markets its Stylus software in the United States and internationally primarily through resellers that integrate Stylus as an Open Database Connectivity design and publishing component into their retail data and information management software applications.

During 2002, 2001 and 2000, foreign sales accounted for approximately 2%, 4% and 8% of total net sales. The Company expects sales to foreign distributors will be less than 2% of total net sales in 2003.

COMPETITION

INSIGNIA POPSIGN PROGRAM

Our Insignia POPSign program is competing for the marketing expenditures of branded product manufacturers for at-shelf advertising or promotion-related signage. The Insignia POPSign program has two major competitors in its market: News America Marketing In-Store(R), Inc. (News America) and FLOORgraphics(R), Inc. (FLOORgraphics).

News America offers a network for in-store advertising, promotion and sales

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

merchandising services. News America has branded their in-store shelf signage products as SmartSource Shelftalk(TM), SmartSource Shelfvision(TM) and SmartSource Price Pop(TM).

FLOORgraphics offers a network for in-store advertising and promotion programs. FLOORgraphics has branded their advertising shelf signage product SHELFplus!(R).

The main strengths of the Insignia POPSign program in relation to its competitors are:

- the linking of manufacturers to retailers at a central coordination point
- providing a complete "call to action"
- supplying product-specific and store-specific messages at the retail shelf
- short lead times

Page 3

PATENTS AND TRADEMARKS

The Company has developed and is using a number of trademarks, service marks, slogans, logos and other commercial symbols to advertise and sell its products. The Company owns U.S. registered trademarks for Insignia POPS(R), VALUStix(R), Stylus(R) and Insignia Systems, Inc. (R) (and Design).

The Company is in the process of obtaining trademark registration in the United States for the trademarks "Insignia Color POPS," "POPS Select," "POPSign," "UltraColor," Insignia E-POPS," and "POPSRx."

The barcode which the Company uses on the sign cards for the Impulse and SIGNright Sign Systems was also developed by the Developer, which has granted the Company an exclusive worldwide license of its rights to the barcode. The license requires the Company to pay a royalty of 1% of the net sales price received by the Company on each cardstock or other supply item that bears the barcode used by the Impulse Sign Systems. Although a patent has been issued to the Developer, which covers the use of the barcode, there is no assurance that the Company will be able to prevent other suppliers of cardstock from copying the barcode used by the Company. However, the Company believes that the number, relatively small size and geographic dispersal of Impulse and SIGNright users, their relationship with the Company and the Company's retention of its customer list as a trade secret will discourage other sign card suppliers from offering bar-coded sign cards for use on the Impulse and SIGNright machines.

Key employees are required to enter into nondisclosure and invention assignment agreements, and customers, vendors and other third parties also must agree to nondisclosure restrictions prior to disclosure of our trade secrets or other confidential or proprietary information.

PRODUCT DEVELOPMENT

Product development for Insignia's POPSign program has been conducted internally and includes the proprietary data management and operations system, as well as the current offering of point-of-purchase and other promotion products. Ongoing internal systems enhancements, as well as the development of point-of-purchase and other promotional products, will be conducted utilizing both internal and external resources as appropriate.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Product development on the SIGNright Sign System was primarily conducted by the Developer on a contract basis. The Company continues to introduce complementary products such as new cardstock formats, styles and colors.

The Company plans no further development to the Stylus software product.

CUSTOMERS

Kellogg Company and General Mills Company accounted for 13% and 12% of the Company's total net sales for the year ended December 31, 2002. Pillsbury Company accounted for 14% of the Company's total net sales for the year ended December 31, 2001. No customers accounted for greater than 10% of the Company's total net sales for the year ended December 31, 2000.

BACKLOG

Sales backlog at February 28, 2003 was approximately \$15 million, all of which is for delivery during 2003. The orders are believed to be firm but there is no assurance that all of the backlog will actually result in sales.

Page 4

SEASONALITY

Our results of operations have fluctuated from quarter to quarter due to variations in net sales and operating expenses. We generate a significant portion of our operating income in the fourth quarter of the fiscal year because of seasonal events that affect when our customers purchase Insignia POPSign programs. Any factor that negatively affects our net sales or increases our operating expenses could negatively affect our annual results of operations, and in particular, our annual results. As a result of the seasonality of our business, we may incur losses in a given quarter. In certain quarters we may realize strong sales but due to increased promotional activities and investments in growing the business, experience reduced operating income. Our results of operations fluctuate from quarter to quarter as a result of the following:

- o The timing of seasonal events for our customers;
- o The timing of new retail stores being added;
- o Costs associated with various promotional activities; and
- o Expenses incurred to support expansion strategies.

SUPPLIERS

The thermal paper used by the Company in its SIGNright and Impulse thermal sign cards is purchased exclusively from one supplier. While the Company believes that an alternative supplier would be available if necessary, any disruption in the relationship with or deliveries by the current supplier could have an adverse effect on the Company.

The Company subcontracts with one vendor for the printing and application of the VALUSTix program coupons. Although there are a limited number of printers capable of providing this service, management believes that other printers could provide the coupons on comparable terms. The time required to locate and qualify other printers, however, could cause a delay that may be financially disruptive to the Company.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

WORKING CAPITAL PRACTICES

No special or unusual practices affect the Company's working capital. The Company generally requires payment from its customers within 30 days and pays its vendors within 45-60 days. Given the nature of the Company's business, there are no significant investments in inventory required.

EMPLOYEES

As of February 28, 2003, the Company had 140 employees, including all full-time and part-time employees.

Item 2. Properties

The Company is located in approximately 47,000 square feet of office and warehouse space in suburban Minneapolis, Minnesota, which has been leased until January 2010. The Company believes that this facility is meeting the Company's current and foreseeable needs.

Item 3. Legal Proceedings

In August 2000, News America Marketing In-Store, Inc., (News America) brought suit against the Company in U.S. District Court in New York, New York. The complaint alleged that News America had exclusive promotional agreements

Page 5

with certain grocery store retailers and that the promotional agreements prevented those retailers from contracting for the Company's POPSign program. The complaint also accused the Company of unfair competition, false advertising and interfering with business relationships. The Company denied any wrongful or improper action and brought a counterclaim against News America. This counterclaim alleged that News America had engaged in anti-competitive practices and was attempting to use its dominant position in the market to stifle competition and that News America's use of exclusive dealing clauses and other anti-competitive behavior violate the anti-trust laws and are unenforceable. The case and counterclaim were settled in November 2002. The terms of the settlement agreement are confidential. The settlement did not impact the Company's current operating results, nor is it expected to affect future operating results.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of fiscal 2002.

Item 4A. Executive Officers of the Registrant

The names, ages and positions of the Company's executive officers are as follows:

Name	Age	Position
------	-----	----------

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Scott F. Drill	50	President and Chief Executive Officer
Gary L. Vars	62	Chairman of the Board of Directors and President, POPS Division
Denni J. Lester	44	Vice President of Finance, Chief Financial Officer and Treasurer
John R. Whisnant	57	Vice President of Administration and Secretary

Scott F. Drill has been President and Chief Executive Officer of the Company since February 24, 1998. From 1998 to December 2002, he was also a partner in Minnesota Management Partners (MMP), a venture capital firm located in Minneapolis, Minnesota. Mr. Drill co-founded Varitronic Systems, Inc. in 1983, and was its President and CEO until it was sold in 1996. Prior to starting Varitronics, Mr. Drill held senior management positions in sales and marketing at Conklin Company and Kroy, Inc.

Gary L. Vars has been Chairman of the Board of Directors since March 2001, and President of the POPS Division since December 2002. From September 1998 to December 2002, he held the position of Executive Vice President and General Manager of the POPS Division. Prior to joining the Company in 1998, Mr. Vars spent 22 years as a marketing and business development consultant to Fortune 500 companies. From 1966 to 1976 Mr. Vars held various management positions at the Pillsbury Co., including Director of Marketing and New Product Development, Grocery Products Division.

Denni J. Lester has been Vice President of Finance, Chief Financial Officer and Treasurer since December 2002. Prior to joining the Company, Ms. Lester spent 22 years at Grant Thornton LLP, a national public accounting firm, including the most recent nine years as a partner. Ms. Lester is a Certified Public Accountant.

John R. Whisnant has been Vice President of Administration and Secretary since December 2002. He was Vice President of Finance and Chief Financial Officer of the Company from October 1995 to December 2002. From June 1994 to September 1995 he was self-employed as a franchise consultant. From June 1992 to June 1994 he served as President of AmericInn, Inc. a motel franchising company. From 1987 to 1992 he served as President of International Market Square, a design center and furniture mart. Mr. Whisnant is a Certified Public Accountant and a licensed attorney in the State of Minnesota.

Page 6

PART II.

Item 5. Market for the Registrant's Common Equity and Related Stockholder Matters

MARKET INFORMATION

The Company's common stock trades on the Nasdaq National Market System under the symbol ISIG. The following table sets forth the range of high and low bid prices reported on the Nasdaq System. These quotations represent prices between dealers and do not reflect retail market-ups, markdowns or commission.

2002	High	Low
-----	-----	-----
First Quarter	\$ 9.200	\$ 6.700

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Second Quarter	10.150	6.950
Third Quarter	9.210	6.980
Fourth Quarter	11.480	8.100
2001	High	Low

First Quarter	\$ 9.625	\$ 4.875
Second Quarter	9.750	6.480
Third Quarter	8.840	5.150
Fourth Quarter	8.500	5.400

SALES OF UNREGISTERED SECURITIES

On December 18, 2002, the Company completed a private placement of stock and warrants to a small group of accredited investors. The details of the transaction are described in Note 6 to the Company's Audited Financial Statements, included in this report. The transaction was exempt from registration under Rule 506 of Regulation D, and a notice of the sale was filed with the SEC on Form D.

APPROXIMATE NUMBER OF HOLDERS OF COMMON STOCK

As of February 28, 2003, the Company had one class of Common Stock beneficially held by approximately 2,840 owners.

DIVIDENDS

The Company has never paid cash dividends on its common stock. The Board of Directors presently intends to retain all earnings for use in the Company's business and does not anticipate paying cash dividends in the foreseeable future.

Total shareholders' equity	11,258	3,239	2,612	2,01

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain items in the Company's Statements of Operations as a percentage of total net sales.

Year ended December 31	2002	2001	2000
Net sales	100.0%	100.0%	100.0%
Cost of sales	49.1	53.3	54.9
Gross profit	50.9	46.7	45.1
Operating expenses:			
Selling	29.6	29.2	31.9
Marketing	7.8	5.4	5.9
General and administrative	11.9	11.5	13.6
Total operating expenses	49.3	46.1	51.4
Operating income (loss)	1.6	0.6	(6.3)
Other income (expense)	(0.3)	--	(0.1)
Net income (loss)	1.3%	0.6%	(6.4)%

The Company's critical accounting policies, including the assumptions and judgments underlying them, are disclosed in Note 1 to the Financial Statements. These policies have been consistently applied in all material respects and address such matters as revenue recognition, depreciation methods, asset impairment recognition and deferred tax asset valuation allowances. While the estimates and judgments associated with the application of these policies may be affected by different assumptions or conditions, the Company believes the estimates and judgments associated with the reported amounts are appropriate in the circumstances.

RECENT ACQUISITION

On December 23, 2002, we acquired the VALUSTix business from an unrelated party for \$3,000,000 in cash, plus a five-year royalty based on annual net sales over a threshold amount. This acquisition gave us the opportunity to expand our product offerings to our POPSign customers.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

The VALUSTix business includes a proprietary system that allows retailers and manufacturers to attach coupons and other promotional materials to products that are sold in grocery stores and other retail locations. The VALUSTix program can deliver immediately actionable offers and information to shoppers at the point-of-purchase.

The purchase price was based upon arms length negotiations with the seller and an assessment by management of the time and expense required to develop a comparable product. The Company believes the VALUSTix program will complement the POPSign program and expects there will be definite synergies to our existing business.

The assets acquired consisted primarily of a turnkey operation related to the VALUSTix business and thus most of the purchase price has been allocated to goodwill.

Page 9

FISCAL 2002 COMPARED TO FISCAL 2001

NET SALES. Net sales for the year ended December 31, 2002 increased 24.5% to \$24,821,361 compared to \$19,933,166 for the year ended December 31, 2001.

Service revenues from our POPSign programs for the year ended December 31, 2002 increased 39.1% to \$20,114,132 compared to \$14,455,158 for the year ended December 31, 2001. The increase was primarily due to a significant increase in the number of POPSign programs sold to manufacturers and partially due to a higher average selling price due to color enhancements to our POPSign program. We expect our POPSign revenues to continue to increase, both in dollar amount and as a percentage of our total net sales. We expect to generate revenues related to our recent VALUSTix acquisition, primarily during the second half of the fiscal year.

Product sales for the year ended December 31, 2002 decreased 14.1% to \$4,707,229 compared to \$5,478,008 for the year ended December 31, 2001. The decrease was primarily due to decreasing sales of our other product categories based on decreased demand for those products from our customers. We expect our sales of our other product categories to continue to decline, both in dollar amount and as a percentage of our total net sales.

GROSS PROFIT. Gross profit for the year ended December 31, 2002 increased 35.6% to \$12,634,871 compared to \$9,316,268 for the year ended December 31, 2001. Gross profit as a percentage of total net sales increased to 50.9% for 2002 compared to 46.7% for 2001.

Gross profit from our POPSign program revenues for the year ended December 31, 2002 increased 52.6% to \$10,090,502 compared to \$6,611,436 for the year ended December 31, 2001. The increase was primarily due to a significant increase in volume. Gross profit as a percentage of POPSign program revenues increased to 50.2% for 2002 compared to 45.7% for 2001, primarily due to a higher average selling price due to color enhancements to our POPSign programs. We expect our gross profit from our POPSign revenues to increase in dollar amount due to an expected increase in our POPSign revenues and to decrease somewhat as a percentage

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

of POPS revenue due to additional production equipment obtained during the fourth quarter of 2002 and the increased cost of facilities due to our corporate move in December 2002.

Gross profit from our product sales for the year ended December 31, 2002 decreased 5.9% to \$2,544,369 compared to \$2,704,832 for the year ended December 31, 2001. The decrease was primarily due to decreased sales from our other product categories based on decreased demand for those products from our customers. Gross profit as a percentage of other sales increased to 54.1% for 2002 compared to 49.4% for 2001, primarily due to the write-off of inventory in 2001. We expect the gross profit from the sales of our other product categories to continue to decline in dollar amount and as a percentage of our total gross profit.

OPERATING EXPENSES

SELLING. Selling expenses for the year ended December 31, 2002 increased 26.5% to \$7,354,296 compared to \$5,815,454 for the year ended December 31, 2001, primarily due to an increase in the number of sales related employees due to the significant increase in the volume of POPSign program revenues and the related increased commissions expense. Selling expenses as a percentage of total net sales increased to 29.6% in 2002 compared to 29.2% in 2001, primarily due to increase described, net of the effect of increased total net sales. We expect selling expenses to continue to increase in dollar amount due to an expected increase in POPS revenues and the addition of employees due to the VALUSTix acquisition and to decline somewhat as a percentage of net sales due to the expected increase in total net sales.

MARKETING. Marketing expenses for the year ended December 31, 2002 increased 78.0% to \$1,921,838 compared to \$1,079,684 for the year ended December 31, 2001, primarily due to increased promotion

Page 10

expenses for the POPSign programs, including those related to expanding our program to the retail drug industry. Marketing expenses as a percentage of total net sales increased to 7.8% in 2002 compared to 5.4% in 2001, primarily due to the increased promotion expenses, partially offset by the effect of higher net sales during the year. We expect marketing expenses to continue to increase in dollar amount due to expected continued investments in our POPS programs, including those related to the VALUSTix program, and to decline somewhat as a percentage of net sales due to an expected increase in total net sales.

GENERAL AND ADMINISTRATIVE. General and administrative expenses for the year ended December 31, 2002 increased 28.1% to \$2,948,219 compared to \$2,302,361 for the year ended December 31, 2001, primarily due to increased legal fees related to the News America litigation that was settled during the fourth quarter of 2002 and expenses related to our corporate move during December 2002. General and administrative expenses as a percentage of total net sales increased to 11.9% in 2002 compared to 11.5% in 2001, primarily due to moving expenses of \$200,000 and higher legal fees, offset by a reduction to the allowance for doubtful accounts that resulted in a bad debt recovery of \$52,878 for the year compared to bad debt expense of \$71,790 in 2001 due to the changing nature of the Company's customer base as POPSign revenues represent a more significant portion of total revenues. We expect general and administrative expenses to be similar in dollar amount primarily due to additions to our management team, the VALUSTix acquisition and the increased cost of our new facilities, offset by

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

lower legal fees and no moving expenses, and to decline somewhat as a percentage of net sales due to an expected increase in total net sales.

OTHER INCOME (EXPENSE). Other expenses of \$77,820 for the year ended December 31, 2002 were primarily due to a one-time fee to move to the NASDAQ National Market.

NET INCOME. Our net income for the year ended December 31, 2002 was \$332,698 compared to \$120,830 for the year ended December 31, 2001.

FISCAL 2001 COMPARED TO FISCAL 2000

NET SALES. Net sales for the year ended December 31, 2001 increased 55.4% to \$19,933,166 compared to \$12,830,172 for the year ended December 31, 2000.

Service revenues from our POPSign programs for the year ended December 31, 2001 increased 123% to \$14,455,158 compared to \$6,481,341 for the year ended December 31, 2000. The increase was primarily due to a significant increase in the number of POPSign programs sold to manufacturers.

Product sales for the year ended December 31, 2000 decreased 13.7% to \$5,478,008 compared to \$6,348,831 for the year ended December 31, 2000. The decrease was primarily due to decreasing sales of our other product categories based on decreased demand for those products from our customers.

GROSS PROFIT. Gross profit for the year ended December 31, 2001 increased 60.8% to \$9,316,268 compared to \$5,792,546 for the year ended December 31, 2000. Gross profit as a percentage of total net sales increased to 46.7% for 2001 compared to 45.1% for 2000.

Gross profit from our POPSign program revenues for the year ended December 31, 2001 increased 191.4% to \$6,611,436 compared to \$2,268,688 for the year ended December 31, 2000. The increase was primarily due to a significant increase in volume. Gross profit as a percentage of POPSign revenues increased to 45.7% for 2001 compared to 35.0% for 2000, primarily due to the significant increase in volume.

Gross profit from our product sales for the year ended December 31, 2001 decreased 23.2% to \$2,704,832 compared to \$3,523,858 for the year ended December 31, 2000. The decrease was primarily due to decreased sales from our other product categories based on decreased demand for those products from our customers. Gross profit as a percentage of other sales decreased to 49.4% for 2001 compared to 55.5% for 2000, primarily due to the write-off of inventory in 2001 and the effect of lower sales.

Page 11

OPERATING EXPENSES.

SELLING. Selling expenses for the year ended December 31, 2001 increased 42.1% to \$5,815,454 compared to \$4,092,805 for the year ended December 31, 2000, primarily due to increased commissions expense due to the significant increase in total net sales. Selling expenses as a percentage of total net sales decreased to 29.2% in 2001 compared to 31.9% in 2000, primarily due to the increased expenses being more than fully offset by the effect of increased total net sales.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

MARKETING. Marketing expenses for the year ended December 31, 2001 increased 42.5% to \$1,079,684 compared to \$757,698 for the year ended December 31, 2000, primarily due to increased promotion expenses for the POPS programs. Marketing expenses as a percentage of total net sales decreased to 5.4% in 2001 compared to 5.9% in 2000, primarily due to the effect of higher total net sales during the year, somewhat offset by the increased expenses.

GENERAL AND ADMINISTRATIVE. General and administrative expenses for the year ended December 31, 2001 increased 31.5% to \$2,302,361 compared to \$1,751,019 for the year ended December 31, 2000, primarily due to legal fees and facility rent. General and administrative expenses as a percentage of total net sales decreased to 11.5% in 2001 compared to 13.6% in 2000, primarily due to the effect of higher total net sales during the year, somewhat offset by the increased expenses.

OTHER INCOME (EXPENSE). Other income was \$2,061 for the year ended December 31, 2001 compared to other expense of \$14,593 for the year ended December 31, 2000, primarily due lower interest expense.

NET INCOME. Our net income for the year ended December 31, 2001 was \$120,830 compared to a net loss of \$823,569 for the year ended December 31, 2000.

LIQUIDITY AND CAPITAL RESOURCES

The Company has financed its operations with proceeds from public and private equity placements. At December 31, 2002, working capital was \$7,324,154 compared to \$2,883,375 at December 31, 2001. During the same period total cash and cash equivalents increased \$4,262,133.

Net cash provided by operating activities during 2002 was \$898,330, primarily due to the net income and the increase in operating liabilities in excess of operating assets. Accounts receivable increased \$2,215,296 in 2002 due to increased POPS revenues. Accounts payable increased \$1,326,360 as a result of increased payments due to participating retailers, resulting from increased POPS revenue. Deferred revenue increased \$925,788 due to the timing of the POPS program cycles at year-end. The Company expects accounts receivable to increase during 2003 as POPS revenue continues to grow. The Company expects inventory levels to remain flat during 2003.

Net cash of \$3,811,826 was used in investing activities in 2002, primarily due to the \$3,056,186 acquisition of the VALUSTix business and the purchase of property and equipment of \$835,640.

Net cash of \$7,175,629 was provided by financing activities including \$7,687,248 from the issuance of common stock, offset by payments on the line of credit of \$511,619. The issuance of common stock included \$7,041,340, net of expenses, related to a private placement of 816,100 shares to a small group of accredited investors during December 2002. The remaining amount related to the exercise of stock options and warrants and the issuance of shares related to the employee stock purchase plan.

The Company anticipates that its working capital needs will remain consistent with prior years. The Company's \$2 million line of credit with a finance institution was paid in full during 2002 and the related

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

sufficient cash resources to fund its current business operations and anticipated growth for the foreseeable future.

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING INFORMATION

Statements made in this annual report on Form 10-K/A, in the Company's other SEC filings, in press releases and in oral statements to shareholders and securities analysts, which are not statements of historical or current facts are "forward looking statements." Such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results or performance of the Company to be materially different from the results or performance expressed or implied by such forward looking statements. The words "believes," "expects," "anticipates," "seeks" and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward looking statements, which speak only as of the date the statement was made. These statements are subject to the risks and uncertainties that could cause actual results to differ materially and adversely from the forward looking statements. These risks and uncertainties include, but are not limited to: we historically have not achieved significant earnings; our results of operations may be subject to significant fluctuations; we face significant competition from other providers of at-shelf advertising or promotion signage; reductions in advertising and promotional expenditures by branded product manufacturers due to changes in economic conditions would adversely affect us; we are dependent on the number of retailer partners; we are dependent on the success of the Insignia POPS program and expansion of the program to the retail drug industry; we may not be able to manage growth effectively; we are dependent on manufacturer partners achieving sales lift; we recently made our first business acquisition and may acquire other businesses; we are dependent on members of management team; we have a significant amount of options and warrants outstanding that could affect market price of our common stock; and the market price of our common stock has been volatile.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders
Insignia Systems, Inc.

We have audited the balance sheets of Insignia Systems, Inc. as of December 31, 2002 and 2001, and the related statements of operations, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2002. Our audits also include the financial statement schedule listed in the Index at Item 15. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Insignia Systems, Inc. at December 31, 2002 and 2001, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Also in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth herein.

INSIGNIA SYSTEMS, INC.
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES.

DESCRIPTION OF BUSINESS. Insignia Systems, Inc. (the "Company") markets in-store promotional products, programs and services to retailers and consumer packaged goods manufacturers. The Company's products include the Insignia Point-of-Purchase Services (POPS) in-store promotion program, which includes both Insignia POPSign and VALUSTix programs, thermal sign card supplies for the Company's SIGNright and Impulse systems, Stylus software and laser printable cardstock and label supplies.

BASIS OF PRESENTATION. The Company has included in its financial statements the assets and liabilities recorded in connection with the acquisition of the assets comprising the VALUSTix business. The results of operations related to VALUSTix since December 23, 2002, the effective date, have been included in the Company's statement of operations.

CASH EQUIVALENTS. The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents are stated at cost, which approximates fair value. At December 31, 2002, \$5,567,693 was invested in an overnight repurchase account and \$817,861 was invested in a short-term money market account.

MARKETABLE SECURITIES. Marketable securities are composed of debt securities and are classified as available-for-sale. Available-for-sale securities are carried at fair value, with any unrealized gains and losses, net of tax, reported as a separate component of shareholders' equity. Realized gains and losses and declines in value judged to be other than temporary on available-for-sale securities are included in other income.

ACCOUNTS RECEIVABLE. The Company grants credit to customers in the normal course of business, but generally does not require collateral or any other security to support amounts due. Management performs ongoing credit evaluations of customers and maintains allowances for potential credit losses which, when realized, have generally been within management expectations.

INVENTORIES. Inventories are primarily comprised of Impulse machines, SIGNright machines, sign cards, and accessories. Inventory is valued at the lower of cost or market using the first-in, first-out (FIFO) method and consist of the following:

	December 31,	
	2002	2001
	-----	-----
Raw materials	\$ 328,713	\$ 250,788
Finished goods	647,163	593,177
	-----	-----
	\$ 975,876	\$ 843,965
	=====	=====

PROPERTY AND EQUIPMENT. Property and equipment is recorded at cost. Depreciation is provided using the straight-line method over the estimated

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

useful lives of the assets as follows:

Machinery and equipment	5 years
Office furniture and fixtures	3 years
Computer equipment	3 years

Leasehold improvements are amortized over the shorter of the term of the lease or life of the asset.

PRODUCTION TOOLING COSTS. Expenditures relating to the purchase and installation of production tooling are capitalized and amortized over the anticipated useful life of the product.

Page 20

GOODWILL. Goodwill represents the excess of the purchase price over the fair value of the assets acquired. The Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141 "BUSINESS COMBINATIONS," which was effective for all business combinations initiated after June 30, 2001. The statement requires that all business combinations be accounted for under the purchase method and certain intangible assets acquired in business combinations be recorded separately from goodwill if certain requirements are met. The FASB also issued SFAS 142 "GOODWILL AND OTHER INTANGIBLE ASSETS," which was effective January 1, 2002. SFAS 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets and requires that assets with an indefinite life, such as goodwill, no longer be amortized to earnings, but instead be reviewed for impairment, at least annually or whenever an impairment indicator arises. Management expects to perform a goodwill impairment test annually.

IMPAIRMENT OF LONG-LIVED ASSETS. The FASB issued SFAS 144 "ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS," which was effective January 1, 2002. SFAS 144 supercedes SFAS 121 and further clarifies the accounting for disposals of long-lived assets. The Company will record impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount.

INCOME TAXES. Income taxes are accounted for under the liability method. Deferred income taxes are provided for temporary differences between the financial reporting and tax basis of assets and liabilities. All of the goodwill is deductible for tax purposes.

STOCK-BASED COMPENSATION. As described in Note 6, the Company has elected to follow the accounting provisions of Accounting Principles Board Opinion No. 25 (APB 25), ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES, and related interpretations in accounting for stock-based compensation and to furnish the pro forma disclosure required under SFAS No. 148, ACCOUNTING FOR STOCK-BASED COMPENSATION - TRANSITION AND Disclosure. Under APB 25, when the exercise price of employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

REVENUE RECOGNITION. The Company recognizes revenue associated with equipment, software and sign card sales at the time the products are shipped to customers. Revenue associated with maintenance agreements is

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

recognized ratably over the life of the contract. Revenue associated with Insignia POPS is recognized over the period of service.

ADVERTISING COSTS. Advertising costs are charged to operations as incurred. Advertising expenses were approximately \$385,000, \$336,000 and \$221,000 during the years ended December 31, 2002, 2001 and 2000.

NET INCOME (LOSS) PER SHARE. Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average shares outstanding and excludes any dilutive effects of options, warrants and convertible securities. Diluted net income per share gives effect to all diluted potential common shares outstanding during the year. Options and warrants to purchase approximately 599,000 and 455,000 shares of common stock with weighted average exercise prices of \$11.04 and \$7.76 were outstanding at December 31, 2002 and 2001 and were not included in the computation of common stock equivalents because their exercise prices were higher than the average fair market value of the common shares during the reporting period. For the year ended December 31, 2000, the effect of options and warrants was anti-dilutive due to the net loss incurred during the period.

USE OF ESTIMATES. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

RECLASSIFICATIONS. Certain 2001 and 2000 amounts have been reclassified to conform to the presentation in the 2002 financial statements.

2. ACQUISITION. On December 23, 2002, the Company acquired all of the assets comprising the VALUSTix business from Paul A. Richards, Inc., a New York company ("PAR"), for \$3,000,000 in cash, plus a five-year royalty based on annual net sales over a threshold amount, pursuant to an Asset Purchase Agreement dated December 23, 2002 between the Company and PAR. PAR is not related to the Company in any manner.

The price was determined based on the value of the assets acquired and expectations concerning future sales of the product line. The assets acquired consisted primarily of a turnkey operation related to the VALUSTix

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

business and thus most of the purchase price has been allocated to goodwill.

In connection with the transaction, the Company also entered into an Employment Agreement with Paul A. Richards that is effective for five years, provides for an annual salary of \$150,000 and can be terminated under certain terms and conditions, as defined in the Employment Agreement.

Additionally, the Company entered into a Royalty Agreement with PAR that is effective for five years and provides for royalties to be paid to PAR for net sales of VALUSTix products, based upon certain annual thresholds and varying rates of royalties, as defined in the Royalty Agreement.

The Company funded the cash payment for the acquisition using a portion of the funds received from a private placement of the Company's common stock (see note 6).

The acquisition was accounted for as a purchase, and accordingly, results of operations relating to the purchased assets have been included in the statement of operations from the date of acquisition. The purchase price was allocated as follows:

Goodwill	\$3,041,186
Property and equipment	15,000

Contingent royalties will also be recorded as part of the purchase price at the time they are actually incurred.

Page 22

Unaudited pro forma results of operations as if the acquisition had occurred as of January 1, 2001 are as follows:

	Year ended December 31,	
	2002	2001
	-----	-----
Net sales	\$ 24,918,112	\$ 20,046,787
Net loss	(428,042)	(848,536)
Net loss per share	(.04)	(.08)

3. MARKETABLE SECURITIES. Marketable securities consisted of a certificate of deposit, which was pledged as collateral for the building lease agreement. Investments are classified as available-for-sale and are stated at amortized cost, which approximates fair value. As a result no unrealized gains or losses were recognized at December 31, 2001.

4. LINE OF CREDIT. The Company had a \$2 million line of credit agreement with a finance institution that expired on December 31, 2002. The amount outstanding under the credit agreement was paid in full during December 2002. The credit agreement required minimum monthly interest amounts and accrued interest at a rate of 2.5% over the bank's reference rate (the reference rate was 5.5% at December 31, 2001) per annum. The Company had pledged as security all inventory, accounts receivable, equipment and general intangibles.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

5. COMMITMENTS AND CONTINGENCIES.

OPERATING LEASES. The Company conducts its operations in leased facilities and moved to a new location in December 2002. The Company incurred approximately \$200,000 of expenses during the year ended December 31, 2002 as a result of its relocation. The new operating lease is effective until January 2010. The Company also leases equipment under operating lease agreements effective through September 2005. Rent expense under all of these leases was approximately \$563,000, \$399,000 and \$309,000 for the years ended December 13, 2002, 2001 and 2000.

Minimum future lease obligations under these leases, excluding operating costs, are approximately as follows for the years ending December 31:

2003	\$ 1,125,000
2004	1,154,000
2005	1,014,000
2006	597,000
2007	597,000
Thereafter	1,194,000

LEGAL. In August 2000, News America Marketing In-Store, Inc., (News America) brought suit against the Company in U.S. District Court in New York, New York. The complaint alleged that News America had exclusive promotional agreements with certain grocery store retailers and that the promotional agreements prevented those retailers from contracting for the Company's POPSign program. The complaint also accused the Company of unfair competition, false advertising and interfering with business relationships. The Company denied any wrongful or improper action and brought a counterclaim against News America. This counterclaim alleged that News America had engaged in anti-competitive practices and was attempting to use its dominant position in the market to stifle competition and that News America's use of exclusive dealing clauses and other anti-competitive behavior violate the anti-trust laws and are unenforceable. The case and counterclaim were settled in November 2002. The terms of the settlement agreement are confidential.

Page 23

The Company is subject to various legal proceedings in the normal course of business. Management believes the outcome of these proceedings will not have a material adverse effect on the Company's financial position or results of operations. The settlement did not impact the Company's current operating results, nor is it expected to affect future operating results.

RETAILER AGREEMENTS. The Company has contracts in the normal course of business with various retailers, some of which provide for minimum annual program levels. If those minimum levels are not met, the Company is obligated to pay the contractual difference to the retailers. During the years ended December 31, 2002, 2001 and 2000 the Company incurred approximately \$112,000, \$330,000 and \$103,000 of costs related to these minimums. The amounts were recorded in Cost of Services in the Statements of Operations.

Aggregate minimum commitment amounts under these agreements with retailers are approximately as follows for the years ending December 31:

2003	\$ 5,500,000
2004	6,400,000

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

2005	4,600,000
2006	700,000

6. SHAREHOLDERS' EQUITY.

PRIVATE PLACEMENT. On December 18, 2002, the Company closed a private placement of \$7,500,000 of common stock to a small group of accredited investors at a price of \$9.19 per share, pursuant to a Securities Purchase Agreement. The price represented a 15% discount from the average closing bid price of the Company's common stock over the five days prior to the closing.

In connection with this transaction, the Company entered into a Registration Rights Agreement that requires the Company to register the newly issued shares within a prescribed timeframe.

The Company also issued warrants to the investors entitling them to purchase an additional 244,827 shares of the Company's common stock at an exercise price of \$12.44 per share for a five-year period. The warrants are callable by the Company after one year if, among other conditions, the Company's common stock has traded at 175% of the exercise price for 30 consecutive trading days. Additionally, a warrant to purchase 40,805 shares with the same terms was issued to the Placement Agent. The warrants are all exercisable at December 31, 2002.

WARRANTS. In May 1999, the Company issued warrants to non-employee Board members to purchase a total of 150,000 shares of common stock in recognition for services performed as Board members of the Company. The warrants are exercisable at \$2.00 per share and expire on September 28, 2004.

During 1994, the Company issued five-year warrants to a consultant to purchase a total of 15,000 shares of common stock exercisable at a price of \$1.50 per share. During 1999, these warrants were extended to November 22, 2004.

In 1998, the Company issued three-year warrants to outside consultants to purchase 70,000 shares of common stock at \$1.625 per share. The Company valued these warrants at \$58,100 and recognized consulting expense associated with these warrants over the vesting period including \$9,588 and \$19,176 during the years ended December 31, 2001 and 2000. During 2001, 57,219 of these warrants were exercised and 12,781 of these warrants were cancelled.

Page 24

During 2002, various warrant holders exercised 185,000 warrants at prices ranging from \$1.625 to \$2.31 to purchase 156,460 net shares of the Company's common stock. The Company received proceeds of \$57,788 as a result of these warrant exercises.

During 2001, various warrant holders executed a cashless exercise of 76,000 warrants at \$1.625 to purchase 62,123 net shares of the Company's common stock.

During 2000, various warrant holders exercised 767,888 warrants to purchase shares of the Company's common stock at prices ranging from \$1.25 to \$2.125. The Company received proceeds of \$1,076,575 as a result of these warrant exercises.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

At December 31, 2002, an aggregate of 450,632 warrants are outstanding and exercisable.

STOCK OPTIONS. The Company has elected to follow APB No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES, and related interpretations in accounting for its stock-based compensation. In addition, the Company provides pro forma disclosure of stock-based compensation, as measured under the fair value requirements of SFAS No. 123, ACCOUNTING FOR STOCK-BASED COMPENSATION. These pro forma disclosures are provided as required under SFAS No. 148, ACCOUNTING FOR STOCK-BASED COMPENSATION - TRANSITION AND DISCLOSURE.

APB No. 25 requires no recognition of compensation expense for most of the stock-based compensation arrangements provided by the Company, namely, broad-based employee stock purchase plans and option grants where the exercise price is equal to the market value at the date of grant. However, APB No. 25 requires recognition of compensation expense for variable award plans over the vesting periods of such plans, based upon the then-current market values of the underlying stock. In contrast, SFAS No. 123 requires recognition of compensation expense for grants of stock, stock options, and other equity instruments over the vesting periods of such grants, based on the estimated grant-date fair values of those grants.

The Company has a Stock Option Plan (the "Option Plan") for its employees and directors. Under the terms of the Option Plan, the Company grants incentive stock options to employees at an exercise price at or above 100% of fair market value on the date of grant. The Option Plan also allows the Company to grant non-qualified options at an exercise price of less than 100% of fair market value at the date of grant. The stock options expire five or ten years after the date of grant and typically vest in one-third increments on the first, second and third anniversaries of the grant date.

Page 25

The following tables summarizes activity under the Option Plan:

	Plan Shares Available for Grant	Plan Options Outstanding	Weighted Average Exercise Price Per Share

Balance at December 31, 1999	12,443	1,284,000	\$ 1.38
Reserved	200,000	--	--
Granted	(261,600)	261,600	4.84
Exercised	--	(135,000)	1.44
Cancelled	54,350	(54,350)	1.50

Balance at December 31, 2000	5,193	1,356,250	2.04
Reserved	500,000	--	--
Granted	(582,600)	582,600	7.52
Exercised	--	(212,869)	1.56
Cancelled	129,165	(129,165)	6.58

Balance at December 31, 2001	51,758	1,596,816	3.74
Reserved	250,000	--	--
Granted	(400,800)	400,800	9.36

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Exercised	--	(136,944)	2.86
Cancelled	114,665	(114,665)	7.08

Balance at December 31, 2002	15,623	1,746,007	\$ 4.88

The number of options exercisable under the Option Plan were:

December 31, 2000	849,994
December 31, 2001	911,294
December 31, 2002	1,102,758

The following table summarizes information about the stock options outstanding at December 31, 2002:

Ranges of Exercise Prices	Options Outstanding			Options Number Exercisable at December 31, 2002
	Number Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price Per Share	
\$0.75 - \$1.06	461,333	0.3 years	\$1.05	461,333
1.25 - 2.38	331,416	1.6 years	1.62	313,916
4.00 - 6.12	190,259	4.5 years	4.65	135,393
6.35 - 8.97	455,199	8.8 years	7.92	172,049
9.30 - 11.36	307,600	9.8 years	9.77	20,067

\$0.75 - \$11.36	1,746,007	5.0 years	\$4.88	1,102,758

Options outstanding under the Option Plan expire at various dates during the period January 2003 through December 2012.

In electing to continue to follow APB No. 25 for expense recognition purposes, the Company is obliged to provide the expanded disclosures required under SFAS No. 148 for stock-based compensation granted, including, if materially different from reported results, disclosure of pro forma net income (loss) and net income (loss) per share had compensation expense relating to grants been measured under the fair value recognition provisions of SFAS No. 123.

Page 26

The weighted average fair values of options granted during the years ended December 31, 2002, 2001 and 2000 were \$4.98, \$4.63 and \$2.58 and were estimated at the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions for grants during the years ended December 31, 2002, 2001 and 2000: risk-free interest rate of 4.09%, 5.12% and 6.0%; dividend yield of 0%; volatility factor of the expected market price of the Company's common stock of .784, .898 and .766 and a weighted average expected life of the option of three years.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense on a straight-line basis over the options' vesting period. The Company's pro forma information is as follows:

	2002	2001	2000
Net income (loss) as reported	\$ 332,698	\$ 120,830	\$ 823,
Pro forma effect of stock-based compensation	(1,113,786)	(661,264)	(499,
Pro forma net (loss)	\$ (781,088)	\$ (540,434)	\$ (1,323,
Pro forma net (loss) per share	\$ (.07)	\$ (.05)	\$ (

These effects may not be representative of the future effects of applying the fair value method.

EMPLOYEE STOCK PURCHASE PLAN. The Company has an Employee Stock Purchase Plan (the "Plan") that enables employees to contribute up to 10% of their compensation toward the purchase of the Company's common stock at 85% of market value. During the years ended December 31, 2002, 2001 and 2000, employees purchased 43,653, 51,735 and 56,537 shares under the Plan. At December 31, 2002, 178,986 shares are reserved for future employee purchases of common stock under the Plan.

7. INCOME TAXES. At December 31, 2002, the Company had net operating loss carryforwards of approximately \$15,000,000, which are available to offset future taxable income. These carryforwards are subject to the limitations of Internal Revenue Code Section 382. This section provides limitations on the availability of net operating losses to offset current taxable income if an ownership change has occurred as defined by Internal Revenue Code Section 382. These carryforwards will begin expiring in 2005.

The Company has established a valuation allowance due to uncertainties regarding the realization of deferred tax assets based on the Company's lack of historical earnings.

The Company will continue to assess the valuation allowance and to the extent it is determined that said allowance is no longer required, the tax benefit of the remaining deferred tax assets will be recognized in the future. Included as part of the Company's net operating loss carryforwards are approximately \$1,300,000 in tax deductions that resulted from the exercise of stock options. When these loss carryforwards are realized the corresponding changes in the valuation allowance will be recorded as additional paid-in capital.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Significant components of the deferred taxes are as follows:

As of December 31	2002	2001

DEFERRED TAX ASSETS:		
Net operating loss carryforwards	\$ 5,805,000	\$ 5,588,300
Depreciation	--	49,400
Accounts receivable allowance	49,000	64,500
Inventory reserve	34,000	64,300
Other	21,000	20,500

Deferred tax assets	5,909,000	5,787,000
Less valuation allowance	(5,909,000)	(5,787,000)

Net deferred taxes	\$ --	\$ --
=====		

8. EMPLOYEE BENEFIT PLANS. The Company has a Retirement Profit Sharing and Savings Plan under Section 401(k) of the Internal Revenue Code. The plan allows employees to defer up to 15% of their income on a pre-tax basis through contributions to the plan. The Company may make matching contributions with respect to salary deferral at a percentage to be determined by the Company each year. During the years ended December 31, 2002, 2001 and 2000, the Company made no matching contributions.

9. CONCENTRATIONS.
 MAJOR CUSTOMERS. During the year ended December 31, 2002 two customers accounted for 13% and 12% of the Company's total net sales. At December 31, 2002 these two customers represented 7% and 20% of the Company's total accounts receivable. During the year ended December 31, 2001 another customer accounted for 14% of the Company's total net sales.

Although there are a number of customers that the Company sells to, the loss of a major customer could cause a delay in and possible loss of sales, which would adversely affect operating results.

EXPORT SALES. Export sales accounted for 2%, 4% and 8% of total net sales during the years ended December 31, 2002, 2001 and 2000.

SUPPLIERS. The Company currently buys the components of its products from sole suppliers. Although there are a limited number of manufacturers capable of manufacturing these components, management believes that other manufacturers could adapt to provide the components on comparable terms. The time required to locate and qualify other manufacturers, however, could cause a delay in manufacturing that may be financially disruptive to the Company.

The Company subcontracts with one vendor for the printing and application of the VALUSTIX coupons. Although there are a limited number of printers capable of providing this service, management believes that other printers could provide the coupons on comparable terms. The time required to locate and qualify other printers, however, could cause a delay that may be financially disruptive to the Company.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

10. QUARTERLY FINANCIAL DATA. (Unaudited)

Quarterly data for the years ended December 31, 2002 and 2001 was as follows:

YEAR ENDED DECEMBER 31, 2002	1ST QUARTER	2ND QUARTER	3RD QUARTER	4TH QUARTER
Net sales	\$ 6,015,117	\$ 5,822,882	\$ 5,075,908	\$ 5,075,908
Gross profit	2,940,944	3,032,294	2,239,125	2,239,125
Net income (loss)	319,905	201,713	(499,216)	(499,216)
Net income (loss) per share:				
Basic	\$.03	\$.02	\$ (.05)	\$ (.05)
Diluted	\$.03	\$.02	\$ (.05)	\$ (.05)

YEAR ENDED DECEMBER 31, 2001	1ST QUARTER	2ND QUARTER	3RD QUARTER	4TH QUARTER
Net sales	\$ 5,147,500	\$ 4,625,223	\$ 3,997,460	\$ 3,997,460
Gross profit	2,445,568	2,046,731	1,700,027	1,700,027
Net income (loss)	301,127	(99,173)	(492,523)	(492,523)
Net income (loss) per share:				
Basic	\$.03	\$ (.01)	\$ (.05)	\$ (.05)
Diluted	\$.03	\$ (.01)	\$ (.05)	\$ (.05)

Reclassifications of certain selling and marketing expenses to cost of sales have been made for all periods presented to be consistent with the annual presentation of the Statements of Operations.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures

None.

PART III.

Item 10. Directors and Executive Officers of the Registrant

Information concerning Executive Officers of the Company is included in this Annual Report in Item 4A under the caption "Executive Officers of the Registrant." The information required by Item 10 concerning the directors of the Company is incorporated herein by reference to the Company's proxy statement for its 2003 Annual Meeting of Shareholders which will be filed with the Securities and Exchange Commission pursuant to Regulation 14A within 120 days after the close of the fiscal year for which this report is filed.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Item 11. Executive Compensation

The information required by Item 11 is incorporated herein by reference to the Company's proxy statement for its 2003 Annual Meeting of Shareholders which will be filed with the Securities and Exchange Commission pursuant to Regulation 14A within 120 days after the close of the fiscal year for which this report is filed.

Item 12. Security Ownership of Certain Beneficial Owners and Management.

The information required by Item 12 is incorporated by reference to the Company's proxy statement for its 2003 Annual Meeting of Shareholders which will be filed with the Securities and Exchange Commission pursuant to Regulation 14A within 120 days after the close of the fiscal year for which this report is filed.

Item 13. Certain Relationships and Related Transactions

The information required by Item 13 is incorporated by reference to the Company's proxy statement for its 2003 Annual Meeting of Shareholders which will be filed with the Securities and Exchange Commission pursuant to Regulation 14A within 120 days after the close of the fiscal year for which this report is filed.

Item 14. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

The Company's Chief Executive Officer, Scott F. Drill, and Chief Financial Officer, Denni J. Lester, have reviewed the Company's disclosure controls and procedures within 90 days prior to the filing of this report. Based upon this review, these officers believe that the Company's disclosure controls and procedures are effective in ensuring that material information related to the Company is made known to them by others within the Company.

(b) Changes in Internal Controls.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls during the year covered by this report or from the end of the reporting period to the date of this Form 10-K/A.

Page 30

Item 15. Exhibits, Financial Statement Schedules, and Reports on Form 8-K

The following financial statements of Insignia Systems, Inc. are included in Item 8:

Report of Independent Auditors
Balance Sheets as of December 31, 2002 and 2001
Statements of Operations for the years ended December 31, 2002, 2001

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

and 2000 Statements of Shareholders' Equity for the years ended
December 31, 2002, 2001 and 2000 Statements of Cash Flows for the years
ended December 31, 2002, 2001 and 2000 Notes to Financial Statements

The following schedule of Insignia Systems, Inc. is included in Item 15:

Schedule II. Valuation and Qualifying Accounts

CERTIFICATIONS

I, Scott F. Drill, certify that:

1. I have reviewed this annual report on Form 10-K/A of Insignia Systems, Inc.;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this annual report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant is made known to us by others within the Company, particularly during the period in which this annual report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this annual report (the "Evaluation Date"); and
 - c) presented in this annual report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-K/A

Evaluation Date;

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this annual report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
