Proxy Statement

November 26, 2001

GENERAL

The board of directors of j2 Global Communications, Inc. is soliciting proxies to be voted at a special meeting of our stockholders to be held at 10:00 a.m., Pacific Time, on December 20, 2001 at the Hollywood Roosevelt Hotel, 7000 Hollywood Boulevard, Los Angeles, California 90028, and at any adjournment of that meeting. This proxy statement contains information that may help you decide whether to return the enclosed proxy and how to vote.

Please read this proxy statement carefully. You can obtain more information about j2 Global from the annual and quarterly reports and other public documents we file with the SEC.

Quorum, Voting, and Proxy Procedures

At the close of business on November 19, 2001 (the record date for the meeting), 11,103,379 shares of our common stock (our only outstanding class of voting stock) were outstanding. Only holders of record of common stock at the close of business on the record date will be entitled to vote, with each outstanding share of common stock entitled to one vote. To have a quorum, holders of a majority of our common stock outstanding on the record date must

Edgar Filing: J2 GLOBAL COMMUNICATIONS INC - Form DEFS14A

be present at the meeting--either in person or by proxy.

The proposal to adopt the amendment of our certificate of incorporation requires the affirmative vote of holders of a majority of all shares of common stock outstanding on the record date for the meeting. If you choose to "abstain" on the proposal or otherwise do not vote on the proposal, in effect you will be voting against the proposal.

The proposal to approve the amendment of our stock option plan requires the affirmative vote of holders of a majority of the shares of common stock present or represented and entitled to vote at the meeting. For purposes of this proposal, if you are present or represented at the meeting but formally abstain from voting on the proposal, this will have the same effect as voting against the proposal. However, otherwise not voting (including by broker non-vote) will have no effect on the outcome of the vote on the proposal.

If you complete, sign, and date the enclosed proxy and return it before the meeting, the persons named will vote your shares as you specify in the proxy. If you sign, date, and return your proxy but do not indicate how you wish your shares voted, they will be voted FOR both of the proposals. If you do not return a signed proxy, then unless you attend the meeting and vote in person, your shares will not be voted. You may revoke a proxy any time before the voting begins in any of the following ways:

- . Giving written notice to j2 Global's corporate secretary;
- . Signing a later dated proxy; or
- . Appearing in person and voting at the meeting.

Cost of Solicitation

We are paying the expenses of this solicitation. We also will reimburse brokerage houses and other custodians, nominees, and fiduciaries for their reasonable expenses in sending proxy material to principals and seeking their instructions. Our directors, officers, and employees may solicit proxies in person or by telephone, fax, e-mail, or similar means, in addition to soliciting by mail.

PROPOSAL TO ADOPT AMENDMENT OF CERTIFICATE OF INCORPORATION THAT WOULD REDUCE
TOTAL SHARES OF AUTHORIZED COMMON STOCK FROM 200 MILLION TO 50 MILLION

Currently, j2 Global's certificate of incorporation authorizes us to issue up to 201 million shares of capital stock—200 million shares as common stock

Edgar Filing: J2 GLOBAL COMMUNICATIONS INC - Form DEFS14A

and one million as preferred stock. At the record date for the meeting, shares of the authorized common stock were issued and outstanding, shares of common stock were issued and held in our treasury, and 2,405,171 shares of common stock were reserved for future issuance, either from the authorized but unissued shares or from the treasury, pursuant to the exercise of warrants or stock options or pursuant to share purchases under the 2001 j2 Global Communications Employee Stock Purchase Plan. No shares of preferred stock are outstanding, held in our treasury, or reserved for future issuance for any purpose.

Because we are incorporated in Delaware, we must pay that state an annual franchise tax. The amount of that tax partly depends on the value of our assets and the number of shares of authorized stock we have issued, but it also depends on the total number of shares of capital stock we are authorized to issue. In general, the higher the total number of shares of our authorized capital stock, the higher the tax will be.

The four-to-one reverse split of our common stock that became effective last February reduced the number of issued shares of our common stock, as well as the number of shares reserved for future issuance, but it did not reduce the total number of shares of our authorized common stock. After considering effects of the reverse stock split and the potential tax savings that would be realized by reducing the amount of our authorized common stock, our board of directors has determined that reducing the authorized common stock on a four-for-one basis also would be appropriate and in the best interests of our stockholders. We expect that by reducing our authorized shares of common stock from 200 million to 50 million will reduce our Delaware franchise taxes by approximately \$100,000 per year beginning calendar year 2002. However, because the amount of franchise tax payable for any given year also depends on asset value and on the number of shares issued, both of which likely will change over time, we cannot estimate the extent to which the amendment would reduce franchise taxes for any other year. However, the amendment would not increase franchise taxes otherwise payable for any year, and we expect it will result in annual savings for the foreseeable future.

Reducing our authorized common stock requires an amendment to Article FOURTH of j2 Global's certificate of incorporation, which must be approved by the board of directors and adopted by the stockholders. Accordingly, the board has unanimously approved an amendment to Article FOURTH and recommends it to the stockholders for adoption at the meeting. The proposed amendment would change the first sentence of Article FOURTH to read, in its entirety, as follows:

"The total number of shares of all classes of stock which the Corporation shall have the authority to issue is 51,000,000, of which 50,000,000 shares of the par value of \$0.01 shall be designated as Common Stock and 1,000,000 shares of the par value of \$0.01 shall be designated as Preferred Stock."

Amending Article FOURTH as proposed would have no effect on our authorized preferred stock and would not affect any already-issued shares of common stock, any shares of common stock reserved for future issuance, or any shares of common stock that could become reserved for future issuance if the other proposal on the agenda for the meeting also is approved. If the stockholders adopt the proposed amendment, it will become effective as soon as we file a certificate of amendment embodying it with the appropriate Delaware authorities, which we plan to do as soon as practicable after the meeting.

The Board of Directors recommends a vote "FOR" adoption of the proposed amendment to Article Fourth of our certificate of incorporation.

Edgar Filing: J2 GLOBAL COMMUNICATIONS INC - Form DEFS14A

PROPOSAL TO APPROVE AMENDMENT OF SECOND AMENDED AND RESTATED 1997 STOCK OPTION PLAN INCREASING TOTAL SHARES OF COMMON STOCK PERMITTED FOR PLAN USES FROM 2 MILLION TO 2.5 MILLION

As it currently is in effect, j2 Global's 1997 stock option plan gives the Compensation Committee of our board of directors discretionary authority from time to time to grant employees of j2 Global or a subsidiary selected by the committee "incentive stock options" on our common stock (options entitled to special tax treatment under Section 422 of the Internal Revenue Code) and to grant "nonstatutory stock options" on our common stock (options that are not incentive stock options) to consultants to j2 Global or a subsidiary and members of our board of our directors selected by the committee, as well as to selected employees. Since the most recent amendment of the plan, which occurred last May, the plan also gives the committee discretionary authority to make grants of "restricted shares" (shares of common stock subject to transfer restrictions and risk of forfeiture for specified time periods) to the same kinds of persons that may be granted nonstatutory stock options under the plan. In addition, the plan permits grants of options under it in substitution for options held by employees of other companies who become eligible to receive options under the plan as a result of a merger, consolidation, reorganization or similar event. The terms and conditions of those sorts of plan options may vary from the terms and conditions otherwise contemplated by the plan, to the extent deemed appropriate by the committee in order to conform the terms and conditions of the new options with those of the options they replace.

Subject to adjustment for recapitalization events, Section 3.2 of the plan currently sets the maximum number of shares of common stock that may be used for purposes of the plan at two million. (The former maximum of eight million shares was adjusted downward after the four-to-one reverse stock split, as contemplated by the adjustment provisions of the plan.) Available shares can be used for any of the purposes authorized by the plan.

In connection with our recently completed exchange offer for employee and director stock options, we expect to grant replacement options under the plan covering 257,128 shares of our common stock and have reserved that number of shares for future issuance under the plan. Currently, in addition to those reserved shares, 408,165 other shares of common stock are reserved for future issuance in settlement of other outstanding options granted under the plan and (after giving effect to the reverse stock split), 54,868 shares have been issued in settlement of already exercised plan options. This leaves 710,425 shares currently available for future option or restricted share grants under the plan.

The plan provides that any shares subject to plan options that expire or are cancelled unexercised, and any restricted shares that are forfeited on which no dividends have been paid (or on which dividends have been paid if the dividends also are forfeited) again would become available for plan purposes, but we cannot predict in advance how many additional shares may become available due to expirations, cancellations, or forfeitures. Also, in the event j2 Global were to engage in an acquisition, the maximum number of shares currently specified in our plan may prove insufficient to enable us to use the plan for replacing outstanding options held by employees of an acquired company.

With these matters in mind, our board of directors has determined that it is in the best interests of j2 Global and its stockholders to extend continued availability of the plan by further amending it to increase the number of shares available for plan use by 500,000. Generally, the board may amend the plan without stockholder approval, but the plan provides that an amendment shall be subject to stockholder approval if required by applicable laws, regulations, or rules. In this case, the board has been advised that stockholder approval is required by federal tax provisions relating to

Edgar Filing: J2 GLOBAL COMMUNICATIONS INC - Form DEFS14A

incentive stock options and by NASD rules that apply to j2 Global.

5

Accordingly, subject to stockholder approval at the meeting, the board of directors has amended the first sentence of Section 3.2 of the plan to read, in its entirety, as follows:

"The aggregate number of shares of Common Stock which may be issued upon the exercise of Options granted under the Plan and which may be issued in the form of Restricted Stock shall not exceed 2,500,000 million of the authorized shares of Common stock, all or any part of which may be issued pursuant to Incentive Stock Options, Nonstatutory Stock Options, Restricted Stock grants, or any combination thereof."

This amendment makes no other change in the existing plan, and the only change in the sentence above from the same sentence in the existing plan is to increase the aggregate number of shares permitted for plan use from 2 million to 2.5 million.

Although our board adopted the amendment primarily for the reasons discussed above, you should keep in mind that any or all of the additional half million shares that the amendment would authorize also could be used for grants to any of our current executive officers, other officers, or directors, as well as to other employees or consultants. Due to the discretionary nature of the plan, we cannot predict the extent of additional benefits that any individual or category of eligible individual ultimately will receive under it, whether or not the amendment is approved, but, if it is approved, it may be that some or all of them may receive some additional benefits.

If the amendment is not approved by the stockholders at the meeting, it will not become effective, and the maximum shares available for plan use will remain at two million.

The board of directors recommends a vote "For" approval of the amendment of the 1997 stock option plan described above.

6

OTHER MATTERS

We do not intend to bring any matters before the meeting other than the two matters discussed above, and we know of no other matters to be brought before the meeting by others. If any other matters properly come before the meeting, the persons named in the accompanying proxy will have authority to vote on them in their discretion.
