THE COMPANY

OVERVIEW

Private Media Group, Inc., a US incorporated company, and its subsidiaries (together referred to hereinafter as "Private Media Group", "we" or "us") is a leading international provider of high quality adult media content for a wide range of media platforms.

Private Media Group, Inc. is incorporated in the State of Nevada. In accordance with Nevada law we maintain a registered office at 3230 Flamingo Road, Suite 156, Las Vegas, Nevada.

Our European headquarters are located at the offices of one of our principal

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

operating subsidiaries, Milcap Media Group, S.L. ,whose addresss is Carretera de Rubi 22-26, 08190 Sant Cugat del Valles, Barcelona, Spain, telephone + 34-93-590-7070.

Any references in this report to Milcap Media Group refers to Milcap Media Group S.L. (Spain), and Milcap Media Limited refers to Milcap Media Limited (Cyprus).

We acquire worldwide rights to still photography and motion pictures tailored to our specifications from independent directors and process these images into products suitable for popular media formats such as print publications, videotapes , DVDs and electronic media content for Internet distribution. We distribute our adult media content directly, and through a network of local affiliates and independent distributors, through multiple channels, including (1) newsstands, video rental stores, travel retail and adult bookstores, (2) mail order catalogues, (3) cable, satellite and hotel television programming, (4) over the Internet via proprietary websites and broadband delivery services and (5) wireless telephony. In addition to media content, we also market and distribute branded leisure and novelty products oriented to the

- 2 -

adult entertainment lifestyle and generate additional sales through the licensing of our Private trademark to third parties. In the fiscal year ended December 31, 2002, we had net sales of Euro 39.4 million and net income of Euro 0.3 million.

Our business was founded in 1965 and achieved initial success through our flagship publication, Private, the first full color, hard-core sex publication in the world. Today, we produce four X-rated periodical magazines: Private, Pirate, Triple X and Private Sex, as well as several special feature publications each year. As of December 31, 2002, we had compiled a digital archive of more than two million photographs and all of our 367 print publications. We expect to add two additional issues and hundreds of photographs each month to this archive. Approximately 300,000 copies of our print publications are distributed each month at an average retail price of approximately Euro 11.50. We distribute our publications through a network of approximately 250,000 points of sale in more than 35 countries, with strong market positions in Europe, Latin America, Australia and Canada. We believe that our distribution network has the potential to reach nearly 500,000 points of sale in our existing markets.

Since 1992, we have also acquired, processed and distributed adult motion picture entertainment. We acquire worldwide rights to motion pictures that meet our exacting standards for entertainment content and production value from independent directors, either under exclusive contracts or on a freelance basis. We then edit and process these motion pictures to ensure consistent image quality and prepare and customize them for distribution in several formats, including DVDs, videocassettes, broadcasting, which includes cable, satellite and hotel television programming, and the Internet. Our proprietary motion pictures and those produced by joint ventures in which we participate have received 107 industry awards since 1994, evidencing our success in setting high quality standards for our industry. As of December 31, 2002, our movie library contained 597 titles. We expect to add approximately 131 additional titles in 2003.

We launched our first Internet website, www.private.com, in 1997. We now own a number of sites directed at specific customer bases, including www.private.com/shop. We also generate incremental sales by licensing our trademarks and proprietary adult media content for use on the websites of other

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

companies.

Since 1997, we have expanded our presence in emerging electronic markets for adult media content, such as the Internet, broadcasting and are currently in the process of launching products developed for use on hand-held devices including both mobile phones and Personal Digital Assistants. We believe that these technologies represent a substantial growth opportunity for us in the future.

We license our content to cable and satellite television operators as well as to hotels. We have also launched three television channels, Private Gold, Private Blue and Private Girls, that broadcast our content. Consumers pay for these products either on a pay-per-view basis or by subscription.

We operate in a highly regulated industry. This requires us to be socially aware and sensitive to government strictures, including laws and regulations designed to protect minors and to prohibit the distribution of obscene material. We take great care to comply with all applicable governmental laws and regulations in each jurisdiction where we conduct business. Moreover, we do not knowingly engage the services of any business or individual that does not adhere to the same standards. Since 1965, we have never been held to have violated any laws or regulations regarding obscenity or the protection of minors.

Private, Private Media, our Private logo, Pirate, Triple-X, Triple-X Files, Private Black Label, Private XXX, Gaia, Private Sex, Private Life, Private Style, www.privatespeed.com, Private Gold, Private Blue, www.private.com, www.prvt.com, www.privatelive.com, www.privatechannels.com, www.sex.se, www.privatepda.com, www.privatenightclub.com, www.privateathome.com, www.privatestars.com, www.private.com/shop, and www.privategold.com are some of our trademarks and trade names. Other marks used in this Report are the property of their owners, which includes us in some instances. Information on these websites is not a part of this Report.

MARKET OPPORTUNITY

Demand for adult entertainment products has grown substantially in recent years. We believe that the total worldwide adult entertainment market exceeds \$56 billion annually. Of this market, we believe that our target market, including print publications, videocassettes, DVDs, broadcasting and the Internet, comprises more than \$40 billion. We believe that two principal factors are driving growth in our industry: the relaxation of social and legal restrictions on

- 3 -

distribution of adult entertainment products and new technologies that facilitate the distribution of high quality adult media content to consumers in the privacy of their own homes. As a result of liberalized regulation of adult entertainment products, we now distribute our products in physical form in more than 35 countries worldwide with an aggregate current population of 1.1 billion, as compared to six European countries with a population of 144 million when the current management took over in 1991. We expect this liberalizing trend to continue, which should expand our potential markets further in the future.

The proliferation of easy to use electronic equipment, such as VCRs and DVD players, which allow consumers to view high quality video products in the privacy of their home, has boosted demand for adult media content compatible with these formats. For example, the installed base of DVD players in Western Europe and the United States doubled in 2001 and is expected to reach 48 million

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

households by the end of 2003 in the US alone. Also, the evolution of the Internet as a channel of commerce and content distribution has stimulated additional demand for adult media content. In addition, advances in cable, satellite and hotel communications systems furnish another relatively new channel for the delivery of media content, including adult entertainment, into private homes, hotels and businesses.

More recently, the telecommunications industry has shown considerable interest in the use of adult content on hand-held devices such as mobile telephones, PDAs and other wireless activated devices. This provides an additional and exciting new source of potential revenues for us as one of the principal providers of adult content.

We expect these regulatory and technological developments to fuel increasing demand worldwide for adult media content, including demand for our products. In addition, we believe that market demand for content to fill new media outlets will lead mainstream media content providers to seek still more adult media content in the future. We expect that the high quality standards of the mainstream media, technological demands of multiple delivery formats and global marketing and distribution costs will increase capital requirements for providers of adult media content. While the adult entertainment industry is currently characterized by a large number of relatively small producers and distributors, we believe that the factors discussed above will cause smaller, thinly capitalized producers to seek partners or exit the adult entertainment business, leading to a consolidation of the adult entertainment industry.

OUR COMPETITIVE STRENGTHS

We believe the following strengths, among others, will enable us to exploit the growing global market for adult entertainment:

Extensive library of high quality adult media content

We have an extensive library of high quality adult media content. As of December 31, 2002, our library included still photographs developed for more than 350 back-issues of magazines and more than 580 motion pictures. We hold exclusive worldwide rights to this entire content archive. This has enabled us to enter into global distribution arrangements with a wide range of media content providers, including leading international companies. To facilitate electronic distribution of our products, we have converted our entire archive of print images into a digital format. We are currently digitizing our motion picture archive as well, and have now stored most of our existing motion pictures in digital form. We believe that this electronic archive constitutes one of the largest libraries of high quality adult media content in the world.

Recognized brand name

We believe that our target customers associate the Private brand name with high quality adult entertainment products and services. This name recognition attracts leading producers of adult media content, as well as distributors and prospective joint venture partners interested in working with Private Media Group. We believe that the strength of our brand name leads to more favorable economic terms than we could otherwise obtain in our processing and distribution contracts, and enables us to negotiate favorable revenue sharing arrangements and joint ventures from which we derive significant licensing fees and royalty income. We have entered into joint venture and co-branding agreements with leading participants in our industry and other related industries, including Playboy and Penthouse. We seek to strengthen awareness of our brand name by consistently featuring the Private label prominently in our product packaging, cross-promoting our own products, selectively sponsoring athletes and distributing under the Private label complementary or ancillary non-media products that are consistent with an adult

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

entertainment lifestyle. We believe that these activities

- 4 -

engender a loyal customer base which, in turn, enables us to grow even with relatively modest external advertising and marketing expenditures.

Established market position and distribution network

We have a well-established worldwide distribution network which has been built up over the past 35 years, including some 250,000 points of sale in over 35 countries as of December 31, 2002. In many markets, we believe that our established presence hinders our competitors' ability to break into the market. In some cases, exclusive distribution agreements improve our market position further. This broad distribution network provides an effective channel to introduce new products and services and new formats for existing products and services. For example, we were able to utilize our existing video distribution channels to reach customers with our DVD-based products. In electronic media categories, we have entered into strategic alliances with a number of leading international service providers. In addition, we have assembled an internal team of Internet specialists to maintain and improve our Internet infrastructure and electronic products and services. We believe that our broad, multi-format distribution network affords our customers convenient access to high quality adult media content in the format of their choice.

Flexible operating structure and access to substantial capital

We acquire adult media content from third-party directors on a project basis. This approach gives us substantial flexibility in terms of production volume and delivery time, significantly reduces our fixed production overhead and largely eliminates the risk to us of cost overruns in production. Because of our multiple product and service formats and broad distribution network, we can afford to hire top directors in the industry, which we believe results in a higher quality product for our customers. Similarly, we reduce our fixed processing costs by outsourcing editing and duplication functions for most of our products, although we retain oversight of the overall production process for cost and quality control purposes. As a public company with access to the capital markets we believe that we will have sufficient financial resources to increase our production and grow through acquisitions without sacrificing our high quality standards.

Experienced professional management

Our management team has extensive experience in the production and distribution of adult media content and in general business administration. Berth H. Milton, our Chairman of the Board, has extensive knowledge of our industry and has successfully founded and developed other profitable businesses. Charles Prast, our President and Chief Executive Officer, has extensive experience in investment banking and the development of interactive entertainment companies. Other members of our management team have broad expertise in content production, sales and marketing, technology and finance, and have contributed to our record of growth in our core business and in acquiring and integrating companies in related businesses.

OUR STRATEGY

Our vision is to be the world's preferred content provider of adult entertainment to consumers anywhere, at any time and across all distribution platforms and devices. We have developed the strategies described below to increase sales and operating margins while maintaining the quality of our

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

products and services and the integrity of our brand name.

Develop strategic alliances and joint ventures with businesses outside of the adult entertainment industry to broaden our distribution channels. We are entering into strategic alliances and joint ventures with leading media companies outside of the adult entertainment industry to distribute our adult media content for use on popular and newly developing media formats, including revenue sharing relationships with cable and satellite television operators and Internet service providers with significant market positions. We expect these initiatives to widen the scope of our distribution network, enabling us to reach new customers while supplying our partners and licensees with content.

To be at the forefront of the adult entertainment industry in adapting new technology and distribution channels such as broadband distribution of our motion pictures. By actively seeking out and utilizing advanced technologies to distribute our content such as, broadband, Internet ,cable and satellite television and wireless devices we expect to increase revenues with minimal incremental cost.

- 5 -

Increase market share through strategic acquisitions. The adult entertainment industry is currently fragmented and consolidating. We expect this trend to continue as small, privately owned companies seek to exit from the business. We plan to expand our market presence and increase our market share by acquiring local distributors in the markets in which we compete. In addition, we may seek to acquire existing business enterprises in other related businesses opportunistically. To finance future acquisitions, we expect to use a combination of debt and equity. As one of the few companies in our industry with publicly listed common stock, we believe that we will have a significant advantage over most of our competitors in financing such consolidating acquisitions.

To complete the digitalization of our entire movie and photograph library in order to prepare our library for distribution in new electronic media. We have developed an extensive library of motion pictures and other pictorial content. Until recently, this library was archived on a master print, which would allow duplication in traditional media. New forms of electronic distribution provide us with an opportunity to use this content by distributing it through new forms of media, such as, Internet ,broadband and wireless devices. To facilitate electronic distribution of our products, we have converted our entire archive of print images into a digital format. We are currently digitizing our motion picture archive as well, and have now stored most of our existing motion pictures in digital form.

Continue to increase and strengthen brand awareness. We have developed strong brand awareness within each of our magazines and videos' targeted markets. We own the worldwide rights to all of our content. We seek to strengthen awareness of our brand name by consistently featuring the Private label prominently in our product packaging, cross-promoting our own products, selectively sponsoring sports and distributing under the Private label complementary or ancillary non-media products that are consistent with an adult entertainment lifestyle.

OUR PRINCIPAL PRODUCTS AND MARKETS

Magazine Publications

We are the publisher of Private, an international X-rated magazine. Private was founded in 1965, and was the first full color, hardcore sex

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

publication in the world. Today, we produce four X-rated magazines which are released bi-monthly: Private, Pirate, Triple X and Private Sex. In addition, special editions are released monthly and a book, The Best of Private, is released annually. We distribute these magazines through newsstands and other retail outlets.

Movie Productions

Since 1992, we have acquired and distributed adult motion picture entertainment. These productions generally feature men and women in a variety of erotic and sexual situations, generally in both hardcore and softcore versions. We distribute these movies primarily on videocassettes, DVDs, through cable, satellite and hotel television programming and over the Internet. We maintain the ownership and copyrights of every movie we finance and produce.

We expect to produce approximately 95X-rated and 36 R-rated movies in 2003, with distribution through a worldwide network that covers approximately 60,000 points of sale, including primarily video shops and adult book stores. We believe we have the potential to reach more than 155,000 points of sale. We have also worked together on creating labels with other recognized brands, including, in 2000 the introduction of a the Private Penthouse Video label in conjunction with Penthouse.

As of December 31, 2002, our movie library contained 597 movie titles. By the end of 2003 we expect the total to increase to approximately 700 titles. Nearly all titles are available on videocassette and DVD. These products are sold by distributors, primarily to retail stores and wholesalers worldwide. Many of our original motion picture programs have also been re-edited and licensed to cable, satellite and hotel television operators.

Internet

Our Internet team has combined the quality of our extensive media library with the newest technology to create what we believe to be one of the best adult websites, www.private.com. We believe that the rapid growth of the e-commerce market and increased access to the Internet by consumers has created an excellent opportunity for us to utilize our proprietary assets through marketing and distribution on the Internet. During 2002 Private.com created over 60,000

- 6 -

memberships and gave 150,000 dialler customers access to high quality adult content, including a full library of magazine pictures, photosets, stories, an interactive search categories gallery and access to over 500 video clips from Private Media Group movies. Private.com members also get access to live, webcam, and contact/personals content. In 2002 we completely revamped the site making use of cutting edge technology to provide our customers with improved video streaming and a wider selection of movie content. Our new Live sex webcam solution has become very popular and is generating increased revenue since partnering with Interclimax, one of the most professional live sex providers offering international solutions with verification processes in line with our professional standards. Private.com acquires customers primarily through advertising in DVDs, videos, magazines and broadcast programming with minimal incremental cost. It also acquires new customers by establishing partnerships with leading international portals.

Due to Private.com's recognized brand name among adult site purveyors, we have many customers who have the confidence to make credit card payments to us. Current subscriptions prices are \$29.95 for a month's subscription and

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

\$149.95 for an annual subscription. Consumers wishing to avoid credit card payments or not having a credit card can access Private.com content through so-called dialler access by dialing into a premium rate number and paying a per minute fee that varies depending on the country. Revenues generated from dialler have increased significantly over the past year, from nearly 50,000 calls in 2001 to 150,000 calls in 2002. In the US consumers can also pay using our on-line check facility. The Private.com website is currently generating traffic of approximately 1.5 million visits per month and more than 25 million pages are viewed per month.

Private Media Group recently launched its totally re-designed online Private Shop. The shop offers a complete catalog of Private products - including all of Private's DVD and video titles, magazines, and adult toys. New features include an all-new technical platform and back end, real-time processing, and a customizable user experience that allows Private to develop a more personal relationship with customers through the use of wish lists, shop alert mailings, product reviews, and advanced account management features. Customers can search the entire shop catalog using a new content categorization feature. In addition, the new Private Shop will be easily customized for partnerships and co-branding. It allows participants to easily feature the Shop on their own sites and resell Private's products and in return earn referral fees on the sales they generate.

In addition, we are licensing the right to use our trademarks and media library on the Internet to third parties with independent websites. This licensing activity generates significant royalty income. We also market our products on the Internet through distributor sites and shopping sites.

We currently maintain a staff of 30 full-time Internet employees.

OTHER MARKETS

In April 1996, we launched our Private Collection International, Inc. line of adult pleasure products. We also license the Private name in connection with various lines of clothes, nutritional supplements, and energy soft drinks. HISTORY

The parent company, Private Media Group, Inc., was originally incorporated in 1980 as a Utah corporation under the name Glacier Investment Company, Inc. for the purpose of acquiring or merging with an established company. In 1991, we changed our domicile to the State of Nevada. The parent company had no material business activity prior to its acquisition of Milcap Media Limited and Cine Craft Limited in June 1998.

On December 19, 1997 Private Media Group, Inc. entered into acquisition agreements with Milcap Media Limited and Cine Craft Limited to acquire all of their outstanding capital stock in exchange for 22,500,000 shares of Common Stock, 7,000,000 shares of the \$4.00 Series A Preferred Stock, and 2,625,000 common stock purchase warrants. Private Media Group, Inc. completed these acquisitions on June 12, 1998. In connection with these acquisitions, in December 1997 the parent company changed its corporate name to Private Media Group, Inc. and declared a one for five reverse split of its Common Stock.

On January 28, 2000, we acquired all of the outstanding shares of Extasy Video B.V. for total consideration of Euro 3.2 million. The consideration consisted of 208,464 shares of common stock and warrants to purchase 208,464

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

shares of common stock. The warrants are exercisable during the period January 28, 2001 to January 28, 2004 at an exercise price of \$9.63.

In May 2000, we authorized a three-for-one stock dividend on our common stock, which was distributed to holders of record of common stock on May 30, 2000.

As of January 1, 2001, we acquired Coldfair Holdings Ltd., a company incorporated and organized under the laws of the Republic of Cyprus, for a total consideration of Euro 1.5 million payable in 248,889 shares of common stock. Coldfair Holdings is a company engaged in the marketing and sale of adult entertainment products and services.

Effective April 1, 2001, we acquired the inventory and certain contracts of our U.S. distributor, Private USA, in exchange for Euro 1.0 million and the assumption of Private USA's obligations under some contracts.

On April 8, 2001, Peach Entertainment Distribution AB (Sweden), a subsidiary of Private Media Group, Inc., sold its interest in Private Circle, Inc., a company engaged in the design, production and marketing of trendy casual apparel, for an adjusted consideration of Euro 2.9 million as of May 2001.

On December 31, 2002, we acquired all of the outstanding shares of Barbuda B.V., a company owning a building where we plan to move our European headquarters to for total consideration of Euro 10.0 million. The consideration consisted of cash and a note payable in the amount of Euro 6.6 million.

INDUSTRY OVERVIEW

The adult entertainment industry has evolved rapidly in recent years. In spite of often intense political campaigning, there has been a general trend towards wider acceptance of adult entertainment content among the general public and mainstream media channels. New technologies have lowered costs and changed the way in which adult content is produced, distributed and viewed. Lower costs, in particular, have lowered barriers to entry and increased competition in the adult entertainment industry. The trend toward wider acceptance of sexually-explicit material and ongoing technological developments has created a large and growing global market for adult content.

Historically, the adult entertainment industry has attracted a considerable level of government and regulatory attention primarily due to obscenity, which has led to limitations on either the explicitness of content or the availability. Traditionally, to view adult material, consumers were required to purchase movies in a public environment or to go to an adult movie theatre or peepshow.

Through a process of evolution rather than revolution the adult entertainment industry has become more acceptable over time, with a relaxation of the regulations and guidelines governing the industry. For example, in the United Kingdom, one of Europe's more restrictive countries with respect to adult entertainment, there has been a gradual relaxation of what is suitable for public viewing. The British Board of Film Classification, BBFC, has introduced the 'R18'

- 8 -

category, allowing distribution of hardcore adult videos through licensed sex shops for the first time. The approval from the BBFC, and subsequent theatrical release of movies such as The Idiots and Intimacy have also broadened what is regarded as acceptable adult content.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

New technologies have helped to legitimize the industry and increase the size of the market. During the 1980s, the introduction of adult movies on videocassette and through broadcasting on cable and satellite television increased acceptance of adult media content by confining it to the privacy of the consumer's home. More recently, the Internet has become a primary distribution platform for both suppliers and consumers of adult media content providing low-cost delivery and increased privacy. Although currently under-exploited, third generation mobile and handheld devices are likely to increase the market even further in the future, making adult media content viewing mobile.

The production and distribution of adult media content is very competitive. Hundreds of companies are now producing and distributing movies to wholesalers and retailers, as well as directly to consumers. The low cost of high quality video cameras and equipment has significantly lowered the barrier to entry for production of adult media content. According to Adult Video News, approximately 10,000 new adult video titles were released in the United States in 1999, up from 8,950 in 1998 and 1,275 in 1990. The bulk of this production is represented by low quality, amateur productions, made for only a few thousand dollars, as opposed to the larger, professionally produced movies with high production values. Around 20 major producers, such as Private Media Group, Vivid, Video Company of America and Metro, release most high budget adult videos and DVDs. See "Business-Competition." In addition, because it costs as little as \$ 5,000 to establish an Internet presence, there is significant competition among distributors of adult media content over the Internet. The proliferation of websites distributing adult media content has itself fueled a greater and ongoing demand for the creation and licensing of new adult media content.

We believe that the global adult entertainment market exceeds \$ 56 billion annually. This covers memberships and subscriptions, escort services, magazines, sex clubs, telephone sex lines, cable and satellite pay-per-view programming, adult videos and toys and other related products and services. In 1998, Forrester Research estimated the U.S. adult entertainment market at \$ 10 billion annually. This compares to total U.S. cinema domestic box office receipts for mainstream motion pictures of over \$ 8 billion in 2002, indicating the size and importance of the adult market within the entertainment industry.

VIDEO AND DVD SALES & RENTAL

Bringing adult movies into the privacy of the home through the introduction of videocassettes along with cable and satellite services all but eliminated the adult theatre business. The introduction of the DVD and its rapid acceptance by the public is gradually shifting the balance of home viewing from videos to DVDs. DVDs offer better picture and sound quality than videos, worldwide compatibility and other add-ons. The DVD format also benefits suppliers and retailers. Several languages can be combined onto one DVD, so only the DVD cover needs to be changed for different territories. Also, back catalogue sales should initially increase as consumers look to replace their videocassette library with the new format.

Although DVDs will not replace videocassettes completely in the near term because of the ability of users to record on videocassettes as well as their current high level of market penetration, currently comprising approximately 93 million households in the United States, rentals and sales of DVDs have increased significantly over the past two years as more DVD players are sold.

In the U.S. market, total rental and retail spending on video and DVD titles in 2000 was over \$ 19 billion, a 10% increase over 1999, according to the Video Software Dealers Association. In 2000, total sales and rentals of adult videos in the United States were approximately \$ 4.0 billion according to Adult

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

Video News estimates, including sales through general interest retailers and dedicated adult stores. In 2001, PR Week reported that the Free Speech Coalition estimated that 20% of all U.S. households with either cable or satellite television or a VCR watch adult movies.

The provision of in-room entertainment services by major hotel chains throughout the world also serves as a distribution channel for adult media content. In addition to a selection of mainstream movies, hotel guests often will have a choice of softcore, and frequently hardcore, adult videos available on a pay-per-view basis. In the United States, these services are provided by companies such as On Command and Lodgenet, which supply approximately 750,000 and 810,000 hotel rooms, respectively. Estimates by analysts cited to by the Los Angeles Times in 2001 suggest that adult

- 9 -

movies generate approximately half of total hotel pay-per-view revenue in the United States, approximately \$ 250 million annually. Outside of the United States, excluding more restrictive countries such as the United Kingdom, hotel guests also have access to hardcore material on a pay-per-view basis.

BROADCASTING

Cable and satellite television have also brought adult media content into the privacy of the home. Technological developments, in particular the evolution of digital broadcasting, should not only increase the number of channels that can be delivered directly to the home, but should also lead to video on demand. The development of these services should benefit the adult entertainment industry by providing a greater number of special interest channels providing pay-per-view services. This should also increase the need for new adult media content.

In the United States, in addition to softcore channels such as Playboy TV, AdultTVision, Spice Channel and The Adam & Eve Channel, there are several hardcore video channels available, including Eurotica, Exotica, Exxtasy, True Blue, X!, Xxcite and XXXplore, that offer uncensored hardcore material. In 2001, the Asian Wall Street Journal stated that, according to Kagan World Media, of a total pay-per-view revenue for satellite and cable television operators in the United States of \$ 1.73 billion, around 27%, or \$ 465.0 million, can be attributed to adult movies.

In 1999, Playboy and Spice Entertainment Companies, Inc. entered into an agreement resulting in the combination of the two companies. Playboy also acquired three television networks - the Hot Network, the Hot Zone and Vivid TV - in July 2001 which has altered Playboy's focus from softcore to hardcore programming.

At the end of 2000, according to Screen Digest, there were over 64 million subscribers to cable and satellite television in Western Europe. According to Forrester Research, in the United States there were approximately 83 million subscribers to satellite and cable television services at the end of 2000. The number of cable and satellite television subscribers is expected to continue to increase, as well as gradually shift from analog to digital services.

INTERNET

The adult entertainment industry was among the first to commercially exploit the Internet as a distribution channel, and among the few industries believed to generate a profit on the Internet. The Internet offers relative

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

privacy for users, a seemingly endless selection of adult media content and can provide immediate delivery. Datamonitor research estimated that adult content accounted for 69% of paid content on the Internet in 1998.

Pay sites contain most of the adult media content on the Internet, but free sites are also common and are primarily supported by advertising from pay sites. Free sites get a few cents for each viewer who clicks on an advertising banner. The banner then transports these viewers to a site that tries to entice the user into paying for content using their credit cards. In 1999, Datamonitor estimated that there were well over 100,000 sexually-oriented sites, of which only about 14,000 generate revenues. Of the revenue-generating sites, only a handful of these account for the majority of overall revenues on the Internet for adult media content.

According to searchterms.com, 'sex' is the third largest category searched for on the Internet after 'autos' and 'travel', but above 'shopping', 'games' and 'MP3'. Of the 1.6 billion web pages indicated as available by the Google search engine, searching for 'sex' results in 15.9 million pages and 'porn' results in 3.3 million. In June 2001, Internet monitoring company NetValue estimated the following numbers of Internet users were visiting adult sites at least once per month: 5.3 million in Germany; 3.8 million in the United Kingdom; 2.7 million in France; 2.4 million in Italy and 1.5 million in Spain. In the United States, PR Week reported that Nielsen/Net and Media Metrix estimated that approximately 21 million Americans visit an adult content site at least once per month.

A number of well-established Internet businesses have recognized the revenue potential of adult media content and now provide those services. Freenet.com, Germany's second largest internet service provider has launched Fundorado.de offering hardcore movies, photographs and sex chat groups on a monthly subscription basis. In the United Kingdom, online retailer Lastminute.com has recently introduced a range of adult games and toys to its site. However, this development has also been subject to criticism, leading to withdrawals such as Yahoo!'s reversal of its decision to sell adult videos on its sites after receiving numerous complaints from consumers.

- 10 -

The use of the Internet for viewing adult media content is expected to increase significantly as home Internet access increases and broadband services become more widely available. IDC estimates that in 2005 the number of home Internet users will reach 194.1 million in the United States as compared to 100.8 million in 2000 and 196.4 million in Western Europe as compared to 80.3 million in 2000. Forrester Research estimates broadband services will reach 46.7 million households in the United States by 2005 as compared to 5.0 million in 2000 and 28.7 million in Western Europe as compared to 400,000 in 2000.

The increased availability of adult media content on the Internet has attracted considerable attention. Concerns have arisen with respect to child protection and the distribution of illegal material. In response to the issue of child protection, a number of software packages have become available that control the content that can be accessed from a personal computer. Products such as Surfcontrol, NetNanny, Websense and others can be employed to filter sites for inappropriate material, blocking access for unauthorized users.

MAGAZINE PUBLICATIONS

Our publishing operations include the publication of the adult magazines identified in the table below, special editions consisting of previously published material and occasional newsstand specials, calendars and

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

paperback books. All of these magazines, together with local editions, are printed under various trade names and are distributed in over 35 countries. We publish several customized editions of our four principal magazines. Each edition contains the same editorial material but provides locally targeted content reflecting local governmental regulation regarding explicit adult publications. Most of our magazines feature pictures of men and women engaged in erotic and sexually explicit situations. We distribute approximately 300,000 copies of our print publications per month at an average retail price of approximately (Euro) 11.50. In 2002 we introduced a new magazine, directed at the gay market, Private Man. Our most popular publications are Private, Pirate, Private Sex and Triple X.

Our publications offer a variety of features and have gained a loyal customer base. We believe we have earned a reputation for excellence by providing a high standard of quality to the adult entertainment industry, while we maintain

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

circulation leadership as the leading hardcore magazine publisher. All of our publications have long been known for their graphic excellence and features, and publish the work of top artists and photographers in the field. They are also renowned for their pictorials of beautiful people. Our magazines command some of the highest prices in the industry.

All of our publications are printed by independent third parties. We have a longstanding relationship with several printers in Spain. We believe that generally there is an adequate supply of printing services available to us at competitive prices, should the need for an alternative printer arise. All of our production and printing activities are coordinated through our operating facility maintained by our wholly owned subsidiary, Milcap Media Group.

CIRCULATION

Our magazines have historically generated most of their revenues from firm sales distribution. However, now distributors with rights to return represent approximately 50% of our production. Single copy retail sales normally occur in adult book stores and similar establishments. Newsstand retail sales are permitted in most European countries, including France, Italy, Spain, Germany, Denmark, Sweden, Finland the Benelux countries and Portugal.

Our magazines are distributed to newsstands and other public retail outlets through a network of national distributors, who maintain a local network of several wholesale distributors and licensors. We have entered into national distribution agreements covering over 35 countries and generally deal with a magazine distributor for local distribution of our publications. We ship copies of each issue in bulk to our wholesalers, who distribute on to local retailers.

Independent distributors who distribute our magazines do so under individual distribution agreements. These agreements are normally subject to automatic yearly extensions unless either party terminates the arrangement.

For the past few years, we have sought to expand the use of our magazines' content and other assets across different media formats. Our primary focus in recent years has been the re-editing and digitizing of every Private magazine for use on our websites. This content was initially available on our websites in May 1998, and we completed the digitization of our still photo archive in 2000.

PRODUCTION, DISTRIBUTION AND FULFILLMENT

Four independent printers in Spain currently print most of our magazines, books, brochures and video and DVD covers. Printing costs vary based upon the price of component raw materials. The principal raw materials necessary for publication of our magazines are coated and uncoated paper. Paper prices are affected by a variety of factors, including demand, capacity, pulp supply and by general economic conditions. Our printers have a number of paper supply arrangements and we believe that those arrangements provide an adequate supply of paper for our needs. In any event, we believe that alternative sources are available at competitive prices. With respect to color separation, pre-press and related services, we currently use our own scanning facilities and have the support of two independent suppliers for color separations. We are also using the latest technologies in this field, such as digital imposition and computer-to-plate process technology, or CTP. CTP eliminates the need for the production of film/color separations during the pre-printing process, saving time and money while improving quality. In simple terms, CTP allows printers to receive computer disks containing electronic files (both text and graphics) and output those files directly to a plate. The result is a top quality image which

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

takes minutes instead of hours to produce.

We print and ship all of our proprietary magazines from Barcelona, Spain. We determine the amount of printed publications bi-monthly with input from each of our national distributors.

Most of our products are packaged and delivered directly by the printer or supplier, while Milcap Media Group provides warehousing, customer service and payment processing. Milcap Media Group employs a staff of 20 professionals to manage the production and to oversee the printing and distribution of our magazines.

MOVIE PRODUCTIONS

In 1992, we began releasing movies under the Private label.

- 12 -

Our adult movies are in genres similar to our magazines and books under the titles listed in the table below. Normally, we spend on average between \$ 50,000 and \$ 125,000 per movie. This amount excludes the computation of the post-production, master production, duplication and distribution costs. Generally, Milcap Media Group creates and designs all artwork for promotional items and packaging and contracts for printing services. Since 1997, independent laboratories have duplicated all of our videocassettes for us. Similarly, since 1999 all DVDs have been duplicated by independent laboratories as well. A number of our titles, including Private Film, Private Video Magazine, Triple X, Private Stories, Private Gold and The Matador Series are released on a monthly basis while others are released on a bimonthly or less frequent basis. As of December 31, 2002, our movie library contained 597 movie titles. By the end of 2003, we expect the total to increase to approximately 728 titles. Almost all titles are available on both videocassette and DVD. We sell approximately 75,000 videos and 175,000 DVDs per month. We continue to expand our video operations in international markets and presently market our video products in over 35 countries.

We finance all of our adult movies, and we contract with video and movie producers on a flat fee basis. All producers generally assume production costs and obligations, including among other things, the delivery of rights and model releases.

We have licensed many of our original programs to cable television networks and adult pay-per-view television channels. These licenses generally grant the television channel owner a specific right of transmission and we retain the intellectual property rights of every production. We edit many of our new feature video and movie releases into several versions depending on the media through which they are to be distributed. In general, versions edited for cable, satellite and hotel television programming are less sexually explicit than the versions edited for home video distribution.

DISTRIBUTION

We distribute our productions worldwide via masters, videocassettes and DVD's that are sold or rented in video stores, sex shops, newsstands and other retail outlets, and where permitted, through direct mail. Our website has contributed to increasing video and DVD sales, and we expect this new medium to become a significant distribution channel in the future.

We have entered into distribution agreements in over 35 countries. Under these distribution agreements, and according to the territory, one of our subsidiaries, Peach Entertainment Distribution or Milcap Media Group, agrees to

provide a specific minimum number of new titles each month during the term of the agreement, and a licensee normally serves as the exclusive distributor throughout its own country or language territory. Under the various distribution agreements, licensees are normally required to purchase a minimum number of units for each monthly period during the term of the agreement.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

In countries such as Germany, we have expanded our relationships with our national distributor by entering into exclusive multi-year, multi-product output agreements. In countries such as the United States, the Benelux countries, France and Spain, we have established local subsidiaries for the purpose of owning or controlling local distribution. In general, however, we believe that national distribution agreements enable us to have an ongoing branded presence in international markets and to generate higher and more consistent revenues, than we could achieve selling directly to retailers.

In October 2001 we entered into an agreement with Quadriga Worldwide, a leading European hotel entertainment and service provider, to make a wide selection of our movies available to guests in hotels serviced by Quadriga. Quadriga presently provides 6,350 hotels in 30 countries with interactive entertainment and information services, covering 321,000 hotel rooms worldwide, with an estimated potential annual audience of 100 million hotel guests. Key customers of Quadriga include leading hotel chains such as Best Western International, Scandic Hotels, Choice Hotels, Starwood Hotels and Resorts, Six Continents Hotels, Accor Hotels, Carlson Hospitality Worldwide, Marriott Hotels, Thistle Hotels and Societe du Louvre.

VIDEO DUPLICATION/PRODUCTION TECHNIQUES

Masters are customized and duplicated by our subsidiary Peach Entertainment Distribution and from there they are sent to different distributors and VHS duplication centers. Some distributors receive a master directly and do their own duplication.

All artwork to print the video covers is created at Milcap Media Group. Most countries receive their own pre-printed covers from Spain and some countries print their own covers from CD-Roms when delivered.

THE DVD MARKET

Distribution of DVDs represents one of our fastest growing markets. We believe we set a high standard for DVDs in the adult entertainment industry, with each DVD released by us possessing five language options as well as four other subtitled languages. We believe that our multi-language DVD format provides a significant competitive advantage for us because it attracts consumers worldwide and expands our international marketing and sales potential. This global format allows us to reduce our overall unit production costs and increase profit margins. Currently, the majority of DVDs released by our competitors in the United States and worldwide are produced in only one language. As a result, they have to either license titles country-by-country or manufacture each title in separate languages, thus losing out on economies of scale. As the manufacture of each DVD master disc, prior to duplication, costs approximately \$ 10,000, this further drives down our competitors' profit margins.

Currently, mainstream movie titles are released on DVD in six Regional Codes or Zones. This is required primarily because producers often do not control the worldwide rights to their titles. Our DVDs are playable in any region, in every country in the world, because we own and control the global rights to everything we have produced.

Our DVDs are also "Internet Activated," which means that when a consumer plays the DVD in a personal computer, that person also gets a direct link to our websites, where they can view our content by purchasing a subscription or visit our extensive on-line shopping area. We also sometimes add 'extras' to our DVDs, including alternative endings to movies, interviews with the stars, biographical data on the actors, their roles in other in-house productions and publications, and multiple-angle views.

BROADCASTING

In 2000, we signed an exclusive joint venture agreement with International Film Productions and Distributions, Ltd., IFPD, to create two new adult television channels to be broadcast worldwide. IFPD is a European-based television

- 15 -

broadcasting company associated with major content providers that specializes in the distribution of cable and satellite television channels.

Under the terms of our joint venture agreement, IFPD has agreed to ensure the promotion and broadcasting of our new adult channels, Private Gold and Private Blue, to a worldwide audience and we have agreed to provide all adult media content and trademarks. The Private Gold channel will present hardcore material, while the Private Blue channel will broadcast softcore material. Under this agreement, we will receive 65% of the gross profits generated from the broadcast of, and advertising on, these channels. We also have an option to acquire up to 65% of the equity in IFPD at face value. In 2000, we also started broadcasting our Private Blue channel in the United Kingdom under an exclusive joint venture agreement with Zone Vision Enterprises, a UK-based television company, and IFPD. These channels operate on digital and analog platforms throughout continental Europe. We receive 35% of the net profit generated from those broadcasting and advertising revenues. Private Blue is available through the analog and digital satellite platforms of BSkyB and the Telewest cable network in the United Kingdom. In November 2001 we entered into a distribution agreement with NTL Network to make Private Blue available to over one million NTL digital cable subscribers in the United Kingdom on a pay-per-night basis. We also launched in Turkey on the DigiTurk platform, and in Hungary and Slovakia on the UPC networks, and in the Netherlands with MediaKabel. Currently available to over 6.6 million addressable subscribers in the UK alone, Private Blue has also secured an international satellite feed on the SIRIUS 2 satellite. This means that our Private Blue signal is available for further expansion to subscribers in all territories of Europe from 23.00 to 05.00 Central European time every day of the year.

Our Private Gold television channel, broadcasting under Dutch license, successfully launched in Hungary on the HCA Cable Association platform and in Hungary, Slovakia and the Czech Republic on cable systems and the UPC Direct satellite network in 2000. Private Gold also secured an international satellite feed on the AMOS 1 satellite. This will allow us to expand to subscribers in all territories in Europe from 24.00 to 04.00 Central European time, every day of the year. A second satellite feed, on the ASTRA satellite with Cryptoworks encryption, also became available in 2000. ASTRA is one of the leading satellite systems for direct-to-home transmission of television, radio and multimedia services in Europe. ASTRA currently has a fleet of nine satellites and transmits to 22 European countries.

In 2001, we entered into an agreement with Canal Digital AS which provides for the distribution of the Private Gold television channel through Canal Digital in Sweden, Denmark and Finland as part of an exclusive joint venture agreement with IFPD. Canal Digital is jointly owned by the French company Canal+ and the Norwegian company Telenor. Canal Digital operates in the Nordic countries and is one of the leading suppliers of digital programs and services in the Nordic region. Canal Digital has more than 1.1 million card customers and over 700,000 subscribers to its services in the Nordic region.

In 2001, the Private Gold and Private Blue television channels were

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

contracted for distribution throughout Latin America by Pramer S.C.A. Pramer is the largest company in Latin America dedicated to producing, distributing and commercializing content for cable and satellite television. Pramer will be responsible for the satellite distribution, advertising and commercialization of the Private Blue and Private Gold channels throughout Latin America. Both channel signals are transmitted on the NSS 806 satellite that covers the entire South American continent making the channels available to all of Latin America's 15 million satellite and cable subscribers.

In June 2001, we signed an agreement with Wizja TV to broadcast Private Gold in Poland. Wizja TV is one of the largest Direct to Home platforms in Poland with approximately 400,000 subscribers.

We believe that currently our Private Gold and Private Blue channels are available to approximately 22 million potential viewers worldwide.

INTERNET SERVICES

Our Internet team has combined our extensive media library with the newest technology to create what we believe to be one of the best adult websites, www.private.com. We believe that the rapid growth of the e-commerce market and increased access to the Internet by consumers has created an opportunity for us to use our proprietary content assets through distribution over the Internet. During 2002 Private.com created over 60,000 memberships and gave 150,000 dialler customers access to high quality adult content, including a full library of magazine pictures, photosets, stories, an

- 16 -

interactive search categories gallery and access to over 500 video clips from Private Media Group movies. Private.com members also get access to live, webcam, and contact/personals content. In 2002 we completely revamped the site making use of cutting edge technology to provide our customers with improved video streaming and a wider selection of movie content. Our new Live sex webcam solution has become very popular and is generating increased revenue since partnering with Interclimax, one of the most professional live sex providers offering international solutions with verification processes in line with our professional standards. Private.com acquires customers primarily through advertising in DVDs, videos, magazines and broadcast programming with minimal incremental cost. It also acquires new customers by establishing partnerships with leading international portals.

Due to Private.com's recognized brand name among adult site purveyors, it has many customers who have the confidence to make credit card payments. We utilize a secure Web Pay application developed by Verisign which allows secure on-line processing of credit card payment transactions. Current subscriptions prices are \$29.95 for a month's subscription and \$149.95 for an annual subscription. Consumers wishing to avoid credit card payments or not having a credit card can access Private.com content through so-called dialler access by dialing into a premium rate number and paying a per minute fee that varies depending on the country. Revenues generated from dialler have increased significantly over the past year, from nearly 50,000 calls in 2001 to 150,000 calls in 2002. In the US consumers can also pay using our on-line check facility. The Private.com website is currently generating traffic of approximately 1.5 million visits per month and more than 25 million pages are viewed per month.

We currently maintain a staff of 30 full-time Internet employees of whom 8 focus on technology and the remainder concentrate on website production, sales and marketing and customer support.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

Through our separate but linked site, privatespeed.com, we offer our customers high speed broadband access to Private Media Group's complete collection of movies and video content through video-on-demand. Privatespeed has a two pronged strategy for acquiring customers for its prepaid service: by partnering with broadband Internet Service Providers, (ISPs) who host our content and distribute products to their installed customer bases and by targeting broadband customers directly, who view the content over the Internet. With privatespeed.com we are well positioned among adult entertainment companies to take advantage of the growing transition to broadband content distribution.

Private Media Group recently launched its totally re-designed online Private Shop. The shop offers a complete catalog of Private products - including all of Private's DVD and video titles, magazines, and adult toys. New features include an all-new technical platform and back end, real-time processing, and a customizable user experience that allows Private to develop a more personal relationship with customers through the use of wish lists, shop alert mailings, product reviews, and advanced account management features. Customers can search the entire shop catalog using a new content categorization feature. In addition, the new Private Shop will be easily customized for partnerships and co-branding. It allows participants to easily feature the Shop on their own sites and resell Private's products and in return earn referral fees on the sales they generate.

In 2002 we established our own monthly newsletter, The Private Insider, which is now distributed via email free to over 140,000 subscribers. The newsletter is a key tool for maintaining communication channels with members of the private.com site. It offers free content to arouse member's interest in the Private brand. The Insider promotes a mix of new and old products and a number of Private's key models. New services are also promoted in the newsletter, such as Private's on-line DVD rental service privateathome.com. We also have direct links from our DVDs to our Internet sites.

LICENSEES

We license the right to use our trademarks and our library of photographs and movies to third parties.

During 2002 we reviewed our existing licence arrangements and took the decision to terminate our agreement with Cyber Entertainment Network, replacing it with an agreement with Internet Cyber Entertainment (ICE). Under this agreement, we granted ICE use of the website www.privategold.com a site with which we provide adult content in exchange for a royalty payment based on gross revenues.

Our reseller program implemented through www.privatecash.com provides other websites with promotional material designed to sell our products. The reseller program aims to attract adult industry and non-adult industry website

- 17 -

owners and potential website owners to sell our products by means of a substantial commission program. We then fulfill orders through our network of distributors.

TRADEMARK LICENSING

THE PRIVATE COLLECTION

Together with several licensees, we have developed a program to market and distribute high quality branded merchandise over our websites and the

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

websites of those licensees. Our licensed product lines include clothing, novelties, accessories, fragrances, leather goods, eyewear, nutritional supplements, aphrodisiacs and condoms. These products have been marketed principally through mail-order and retail outlets, including department and specialty stores.

On November 30, 1995, Milcap Media Limited entered into a license agreement with Private Collection and granted Private Collection worldwide rights to own, operate, distribute, subcontract, market, advertise and promote merchandise including, rubber goods, vibrating products, pumps, electric items, lotions, lubricants, potions, aphrodisiacs, realistic rubber and latex products, condoms, dolls, jelly products, massagers, playing cards and other items that fall into these product groups, except the rights to greeting and trading cards, leather and other apparels and lingerie which were licensed on a non-exclusive basis.

In 1999, the ownership of Private Collection was transferred to Doc Johnson Enterprises, a worldwide leader in the adult manufacturing and distribution business with more than 20 years of experience and a reputation for creative, innovative novelty products, and we renegotiated our 1995 agreement. Under the new five-year agreement, Doc Johnson Enterprises has the exclusive worldwide right to manufacture, distribute, sub-contract, market, advertise and promote a range of adult novelty products under the brand name The Private Collection. We, in turn, are entitled to receive royalty income on a quarterly basis, with a guaranteed minimum payment. We also have a right to purchase at a special rate an unlimited amount of products manufactured under the agreement for our own distribution through the Internet, television home shopping and other similar media.

Under the terms of the agreement, Doc Johnson Enterprises has agreed to maintain Private's high standards, to market The Private Collection with a pricing policy similar to that of comparable merchandise under the Doc Johnson brand name and to market the Private Collection in a manner similar to that used by Doc Johnson for its own brands. We have agreed to promote The Private Collection through our own products and services.

PRIVATE ENERGY

In 2001 we signed a five-year worldwide distribution agreement with Travel Retail Sales Limited to sell an energy drink called Private Energy. Under this agreement the licensee is responsible for all production, marketing, sales and distribution of the product and guarantees incremental minimum sales each year on which royalties are payable to us.

PROPRIETARY RIGHTS

GENERAL

We believe that our branded magazine titles and logos are valuable assets and are vital to the success and future growth of our businesses. We have filed trademark registration applications with respect to most of our trade names and logos. We believe that the name recognition and image that we have developed in each of our markets significantly enhance customer response to our sales promotions. We intend to aggressively defend our trademarks throughout the world, and we constantly monitor the marketplace for counterfeit products. We initiate legal proceedings from time to time to prevent unauthorized use of our trademarks.

PIRACY PROBLEMS

According to figures from the Motion Picture Association of America, annual losses from video piracy are an estimated \$ 250 million a year in the

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

United States alone, and close to \$ 3.0 billion a year worldwide. Adult Video News estimated that approximately 20% of the U.S. video market (both rental and sales in 2000) was attributable to adult videos.

- 18 -

Piracy involving adult entertainment products and services is most prevalent in markets where pornography is illegal and in developing countries, including Eastern European countries, such as Russia, Poland and Romania. We believe that piracy is so prevalent in many of these countries that we cannot distribute our products there, as piracy undercuts our price structure and eliminates profit margins. It is very difficult to enforce our proprietary rights in these markets.

Another piracy problem concerns the Internet. We are currently unable to confirm that all mail order sites selling Private products actually sell our original products and not pirated copies. The problem stems from distribution procedures, which in the case of Internet, is straight from the Internet provider's order page to the consumer. Also, video streaming over the Internet renders it difficult for us to control the origin of what is shown.

Our legal counsel handles most piracy problems and attempts to resolve these matters or litigate them on a case-by-case basis.

COMPETITION

GENERAL CONSIDERATIONS

Our products compete with other products and services that utilize leisure time or disposable income of adult consumers. The businesses in which we compete are highly competitive and service-oriented. We have few long-term or exclusive service agreements with our customers. Business generation is based primarily on customer satisfaction with key factors in a purchase decision, including reliability, timeliness, quality and price. We believe that our extensive and longstanding international operations, our brand name, image and reputation, as well as the quality of our content and our distributors, provide a significant competitive advantage over many of our competitors.

Although we believe our magazines and videos are well-established in the adult entertainment industry, we compete with entities selling adult oriented products in retail stores, as well as through direct marketing. Many of these products are similar to ours.

Over the past few years, the adult entertainment industry has undergone significant change. Traditional producers of softcore content as well as mainstream providers of media content have shifted to producing hardcore content. As a result, we face greater competition to distribute hardcore content. This shift has also led to industry consolidation, creating fewer, more financially formidable competitors.

MAGAZINES

We meet with minimal direct competition from other publishers of hardcore adult magazines and paperback books. We believe that our print publications are dissimilar to other adult publications in style and format. The only similar business of which we are aware was represented by Rodox N.V., a Dutch/ Danish corporation, which has discontinued its publishing operation. We do not believe there is presently any significant competition in this segment of our business. Magazines such as Playboy and Penthouse and similar print publications do not compete directly with our publications, since we consider

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

them to be softcore publications. There are several hardcore publications in each country where our magazines are sold. In general, these are printed in limited editions and are of lower quality than our publications.

VIDEO AND DVD

The distribution of adult entertainment videocassettes and DVDs is a highly competitive business. Each format competes with the other as well as with other forms of entertainment. Revenue generation for motion picture entertainment products depends, in part, upon general economic conditions, but the competitive position of a producer or distributor is still greatly affected by the quality of, and public response to, the entertainment product it makes available to the marketplace. Competition arises from established adult video producers and from independent companies distributing low-quality material.

Our primary competitors in the movie industry are adult motion picture studios, with in-house production and

- 19 -

post-production capabilities. These include U.S. producers such as Video Company of America and Vivid Film, owned by Playboy, as well as Wicked Pictures, Evil Angel Productions and Metro Global Media Inc. Other competitors are smaller, but locally or regionally they are capable of quickly identifying niche markets that could compete for our customers. In addition, we also compete with other forms of media, including broadcast, cable and satellite television, direct marketing, electronic media and adult entertainment websites.

BROADCASTING

The distribution of adult movies on cable and satellite television systems and hotel pay-per-view systems is highly competitive. Competition in this area is increasing in line with increasing consumer demand for hardcore adult entertainment generally. Our strongest geographical market position for cable and television and distribution is in Europe, with our adult channels, Private Gold and Private Blue, and licensing arrangements with established European television networks, such as Canal+.

The strength of consumer demand for adult oriented cable programming is evidenced by the acquisition by Playboy of two hardcore U.S. cable channels from Vivid Film in July 2001. Until recently, Playboy's business has been largely confined to softcore adult entertainment and it has resisted entry into hardcore markets. Competition in this market has also been impacted by an increase in the number and availability of satellite direct-to-home transmission channels. Our cable and satellite television activities in the United States to date have been limited to licensing our content to channel operators, such as Playboy.

In licensing, we experience competition from our video and DVD competitors. Our position in U.S. markets is not well established, and competition in this market is strong.

We have only recently entered the hotel pay-per-view market, which is an extremely competitive market. This is due primarily to our unwillingness to enter into a typical hotel pay-per-view agreement, which requires a licensor such as Private Media Group to license the movies to a hotel provider on a fixed fee basis for each movie or video. We have recently entered into license agreements with a major hotel chain which provides for license fees based upon the number of rooms they service, and we are now intensifying our efforts to penetrate this segment of the market.

INTERNET

The Internet market for adult oriented content is expanding quickly. There are numerous adult media content websites competing with ours, operated by companies that possess global distribution, broadcasting and branding.

EMPLOYEES

As of December 31, 2000, 2001 and 2002 we employed 118, 142 and 177 people, respectively, on a full-time basis.

Our full-time editorial and post-production staff consists of an editor-in-chief, six executive editors and approximately seven editors, associate editors and assistant editors who oversee the quality and consistency of the artwork and editorial copy and manage the production schedule of each issue. The production of each issue requires the editors to coordinate the activities of a writer, a pencil artist, an inker, a colorist and a printer over a two-month period. The majority of this work is performed on our premises in Barcelona, Spain.

The photographers and directors consist of freelancers who generally receive a flat fee. We have entered into agreements with some photographers, movie directors and writers under which such people have agreed to provide their services to us on an exclusive basis, generally for a period of one to three years.

We believe that we have a good relationship with our employees. Currently, none of our employees is represented by a labor union.

GOVERNMENT REGULATION

We operate in a highly regulated industry. This requires us to be socially aware and sensitive to government strictures, including laws and regulations designed to protect minors or which prohibit the distribution of obscene material. We take great care to comply with all applicable governmental laws and regulations in each jurisdiction where we conduct business. Moreover, we do not knowingly engage the services of any business or individual that does not adhere to the same standards. Since 1965, we have never been held to have violated any laws or regulations regarding obscenity or the protection of minors.

REGULATION OF THE ADULT ENTERTAINMENT INDUSTRY IN THE U.S.

The following is a description of some of the laws and regulations in the United States which impact the adult entertainment industry. It is not an exhaustive description of all such laws. Moreover, we conduct business in over 35 countries around the world, each of which has its own regulatory framework. This regulatory environment is constantly changing in the geographical areas in which we conduct business, and in some instances laws which are enacted are subsequently determined by the courts to be unconstitutional.

The Classification and Rating Administration of the Motion Picture Association of America, MPAA, a motion picture industry trade association, assigns ratings for age group suitability for theatrical and home video distribution of motion pictures. Submission of a motion picture to the MPAA for rating is voluntary, and we do not submit our motion pictures to the MPAA for review. However, with the exception of several titles which have been re-edited

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

for cable television, most of the movies distributed by us, if so rated, would most likely fall into the NC-17 - No Children Under 17 Admitted rating category because of their depiction of nudity and sexually explicit content.

The right to distribute adult videocassettes, magazines and DVD products in the United States is protected by the First and Fourteenth Amendments to the United States Constitution, which prohibits Congress or the several States from passing any law abridging the freedom of speech.

The First and Fourteenth Amendments, however, do not protect the dissemination of obscene material, and several states and communities in which our products are distributed have enacted laws regulating the distribution of obscene material, with some offenses designated as misdemeanors and others as felonies, depending on numerous factors. The consequences for violating these state statutes are as varied as the number of states enacting them. Similarly, specific U.S. federal regulations prohibit the dissemination of obscene material. The potential penalties for individuals (including directors, officers and employees) violating the Federal obscenity laws include fines, community service, probation, forfeiture of assets and incarceration. The range of possible sentences requires calculations under the Federal Sentencing Guidelines, and the amount of the fine and the length of the period of the incarceration under those guidelines are

- 21 -

calculated based upon the retail value of the unprotected materials. Also taken into account in determining the amount of the fine, length of incarceration or other possible penalty are whether the person accepts responsibility for his or her actions, whether the person was a minimal or minor participant in the criminal activity, whether the person was an organizer, leader, manager or supervisor, whether multiple counts were involved, whether the person provided substantial assistance to the government, and whether the person has a prior criminal history. In addition Federal law provides for the forfeiture of: (1) any obscene material produced, transported, mailed, shipped or received in violation of the obscenity laws; (2) any property, real or personal, constituting or traceable to gross profits or other proceeds obtained from such offense; and (3) any property, real or personal, used or intended to be used to commit or to promote the commission of such offense, if the court in its discretion so determines, taking into consideration the nature, scope and proportionality of the use of the property in the offense.

With respect to the realm of potential penalties facing an organization such as ours, the forfeiture provisions detailed above apply to corporate assets falling under the statute. In addition, a fine may be imposed, the amount of which is tied to the pecuniary gain to the organization from the offense or determined by a fine table tied to the severity of the offense. Also factored into determining the amount of the fine are the number of individuals in the organization and whether an individual with substantial authority participated in, condoned, or was willfully ignorant of the offense; whether the organization had an effective program to prevent and detect violations of the law; and whether the organization cooperated in the investigation and accepted responsibility for its criminal conduct. In addition, the organization may be subject to a term of probation of up to five years.

Federal and state obscenity laws define the legality or illegality of materials by reference to the U.S. Supreme Court's three-prong test set forth in *Miller v. California*, 413 U.S. 1593 (1973). This test is used to evaluate whether materials are obscene and therefore subject to regulation. *Miller* provides that the following must be considered: (a) whether the average person, applying contemporary community standards would find that the work, taken as a

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

whole, appeals to the prurient interest; (b) whether the work depicts or describes, in a patently offensive way, sexual conduct specifically defined by the applicable state law; and (c) whether the work, taken as a whole, lacks serious literary, artistic, political or scientific value. The Supreme Court has clarified the Miller test in recent years, advising that the prurient interest prong and patent offensiveness prong must be measured against the standards of an average person, applying contemporary community standards, while the value prong of the test is to be judged according to a reasonable person standard.

We are engaged in the wholesale distribution of our products to U.S. wholesalers and/or retailers. We have taken steps to ensure compliance with all Federal, State and local regulations regulating the content of motion pictures and print products, by staying abreast of all legal developments in the areas in which motion pictures and print products are distributed and by specifically avoiding distribution of motion pictures and print products in areas where the local standards clearly or potentially prohibit these products. In light of our efforts to review, regulate and restrict the distribution of our materials, we believe that the distribution of our products does not violate any statutes or regulations.

Many of the communities in the areas in which we offer or intend to offer products or franchises, have enacted zoning ordinances restricting the retail sale of adult entertainment products. We supply products only in locations where the retail sale of adult entertainment products is permitted.

In February 1996, the U.S. Congress passed the Telecommunications Act. Some provisions of the Telecommunications Act are directed exclusively at cable programming in general and adult cable programming in particular. In some cable systems, audio or momentary bits of video of premium or pay-per-view channels may accidentally become available to non-subscribing cable customers. This is called bleeding. The practical effect of Section 505 of the Telecommunications Act is to require many existing cable systems to employ additional blocking technology in every household in every cable system that offers adult programming, whether or not customers request it or need it, to prevent any possibility of bleeding, or to restrict the period during which the programming is transmitted from 10:00 p.m. to 6:00 a.m. Penalties for violation of the Telecommunications Act are significant and include fines and imprisonment. Surveying of cable operators and initial results indicate that most will choose to comply with Section 505 by restricting the hours of transmission. We believe that our revenues will be marginally adversely affected as a result of enforcement of Section 505. However, as digital technology (which is unaffected by Section 505) becomes more available, we believe that ultimately the impact will be insignificant.

- 22 -

As discussed above, federal and state government officials have targeted sin industries, such as tobacco, alcohol, and adult entertainment for special tax treatment and legislation. In 1996, U.S. Congress passed the Communications Decency Act of 1996, or the CDA. Recently, the U.S. Supreme Court, in *ACLU v. Reno*, held certain substantive provisions of the CDA unconstitutional. Businesses in the adult entertainment and programming industries expended millions of dollars in legal and other fees in overturning the CDA. Investors should understand that the adult entertainment industry may continue to be a target for legislation. In the event we must defend ourselves and/or join with other companies in the adult programming business to protect our rights, we may incur significant expenses that could have a material adverse effect on our business and operating results.

Child Pornography and Non-Mainstream Content

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

We believe that roughly 90% of the adult material produced and distributed over the past 15 years contains mainstream sexual acts between consenting adults. The rest could be classified as specialty material which does not contain explicit sex, but which still involves consenting adults (i.e. fetish, bondage, etc.). Mainstream sex acts means intercourse, oral sex, anal sex, group sex, etc. Our adult movies do not contain any depictions, let alone actual performances of rape, sex with coercion, animals, urination, defecation, violence, incest or child pornography.

Since 1990, the Free Speech Coalition has worked with the U.S. government to create a workable regulatory system designated to prevent minors from working in the adult industry. Child Protection Restoration and Penalties Enhancement Act of 1990 (18 U.S.C. section 2257) requires, in essence, that no one can work without having copies of their passport or driver's license, and a declaration under perjury of their age and true name, on file with a designated Custodian of Records, and available for inspection by law enforcement.

As indicated above, all of our products are all in compliance with 18 U.S.C. Section 2257 and all models performing in our productions are 18 years of age or older.

INTERNET REGULATION

Government regulation of the Internet is a rapidly developing area and, therefore, adds additional uncertainty to our business. New laws or regulations relating to the Internet, or more aggressive application of existing laws, could decrease the growth of our websites, prevent us from making our content available in various jurisdictions or otherwise have a material adverse effect on our business, financial condition and operating results. These new laws or regulations could relate to liability for information retrieved from or transmitted over the Internet, taxation, user privacy and other matters relating to our products and services. For example, the U.S. government has recently enacted laws regarding website privacy, copyrights and taxation. Moreover, the application to the Internet of other existing laws governing issues such as intellectual property ownership and infringement, pornography, obscenity, libel, employment and personal privacy is uncertain and developing.

REGULATION OF THE INTERNET OUTSIDE THE UNITED STATES

We may also be subject to claims based upon the content that is available on our websites through links to other sites and in jurisdictions that we have not previously distributed content in. For example, a recent French ruling banning the sale of Nazi memorabilia in France suggests that website operators may be forced to undertake expensive security measures to block certain users or face significant fines. Implementing such security measures to reduce our exposure to this liability may require us to take steps that would substantially limit the attractiveness of our websites and/or their availability in various geographic areas, which could negatively impact their ability to generate revenue.

SEASONALITY

Our businesses are generally not seasonal in nature. However, June, July and August are typically impacted by smaller orders from some European and U.S. distributors, due to the holiday season, while November and December sales are generally higher due to the printing of special issues such as The Best of Private.

ITEM 2. DESCRIPTION OF PROPERTIES

PROPERTIES

In 1997, we relocated our principal administrative and operating offices in Europe from Stockholm to Barcelona. The Barcelona facility houses our administrative, editorial and operational offices, the data center, customer service, and some of the warehouse and fulfillment facilities. With the acquisition of our French distributor at the end of 1997, we also inherited some office space in Paris, France. Currently, we lease office space in Barcelona, Spain, Knegsel, the Netherlands, and Paris, France.

In January 2002 Milcap Media Group renewed for a further term of five years a lease for the building it currently occupies, located at Carretera de Rubi 22-26, 08190 Sant Cugat del Valles, Barcelona, Spain. Average monthly base rental expense is approximately \$ 19,400. We recognize the rent expense on a straight-line basis over the extended term of the lease. Additionally, the lease requires us to pay our proportionate share of the building's real estate taxes and operating expenses. The building is currently used by all of our operating groups, primarily for marketing, administration and post production. In addition, the building serves as the European headquarters of Private Media Group, Inc.

Effective December 31, 2002, Fraserside Holdings Limited ("Purchaser") a wholly-owned subsidiary of Private Media Group, Inc. completed the purchase of all of the outstanding stock of Barbuda B.V., from Luthares Investments N.V. and Stichting de Oude Waag, companies indirectly beneficially owned by the Company's principal shareholder. The principal asset of Barbuda B.V. is an approximately 9,700 square meter office facility, including parking, located in Barcelona, Spain, currently under construction. Construction is expected to be completed in June 2004. The purpose of this transaction was to acquire this property. The Company intends to occupy this property as its European headquarters upon completion of construction and general adaptation of the property to its requirements

The consideration paid by Purchaser to the seller for the stock was EUR 9,956,950. The consideration consisted of EUR 3,387,581 cash paid in December 2002 and a note payable in the amount of EUR 6,569,369. The note bears interest at a rate of EURIBOR+1% payable annually and is due and payable on December 31, 2004. The fair market value of the principal asset, the real estate, is based upon independent appraisals.

Private Benelux is the lessee under a lease which terminates on July 31, 2006 and July 31, 2008 located in Knegsel. Average monthly base rental expense is approximately \$ 2,716. We recognize the rent expense on a straight-line basis over the extended term of the lease. Additionally, the lease requires us to pay our proportionate share of the building's real estate taxes and operating expenses. We use the majority of this space for operating our distribution in the Benelux countries.

Private France is the lessee under an expired term lease, which is now currently month-to-month, for approximately 50 square meters of corporate headquarters space located at 17, rue Charles de Gaulle -78680 Epone, France. Subsequent to the term of the lease, the average monthly base rental expense is approximately \$ 1,001. The rent expense is being charged to operations, on a monthly basis.

Private North America is the lessee under a lease effective April 1, 2001, with a term of five years, for a 21,500 square foot office and warehouse facility located in Sun Valley, California. Average monthly base rental expense is \$ 11,200, which amount increases by \$ 400 on an annual basis. The rent

expense is being charged to operations on a monthly basis. Additionally, the lease requires us to pay our proportionate share of the building's real estate taxes and operating expenses.

Private Media Group maintains an office in the United States at 3230 Flamingo Road, Suite 156, Las Vegas, Nevada 89121.

ITEM 3. LEGAL PROCEEDINGS

In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 (approx. EUR 4.5 million) plus fines amounting to SEK 16,800,000 (approx. EUR 1.8 million) plus interest. The Swedish Tax Authority has taken the position that the subsidiary carried on business in Sweden from a permanent establishment during the period in question and should therefore be taxed on the income attributable to the permanent establishment. The case is under litigation and the Company believes the circumstances supporting the Tax Authority's claim are without merit. However, the County Court has decided that a permanent establishment is at hand. The Court has only made a principle statement and the question how to calculate any eventual profit that can be allocated to the permanent establishment is not decided by the Court at this stage. The Company has appealed against the decision. The final outcome of this litigation will not be known for several years. Due to the early stages of this matter and the uncertainty regarding the ultimate decision, no amounts have been provided in the Company's financial statements for this dispute.

We are from time to time a defendant in suits for defamation and violation of rights of privacy, many of which allege substantial or unspecified damages, which we vigorously defend.

We are presently engaged in litigation, most of which is generally incidental to the normal conduct of our business and is immaterial in amount. We believe that our reserves are adequate and that no such action will have a material adverse impact on our financial condition. However, there can be no assurance that our ultimate liability will not exceed our reserves.

Except as disclosed above, neither Private Media Group, Inc. nor its subsidiaries is or has been, during the last two fiscal years, involved in any other litigation or arbitration proceedings which have had or might have a material influence on our financial condition or results of operations, nor are we aware of any such proceedings pending or being threatened.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read this section together with the consolidated financial statements and the notes and the other financial data in this Report. The matters that we discuss in this section, with the exception of historical information, are forward-looking statements within the meaning of the Private Securities Reform Act of 1995. Such forward-looking statements are subject to risks, uncertainties and other factors which could cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Potential risks and uncertainties relate to factors such as: (1) the

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

timing of the introduction of new products and services and the extent of their acceptance in the market; (2) our expectations of growth in demand for our products and services; (3) our ability to successfully implement expansion and acquisition plans; (4) the impact of expansion on our revenue, cost basis and margins; (5) our ability to respond to changing technology and market conditions; (6) the effects of regulatory developments and legal proceedings with respect to our business; (7) the impact of exchange rate fluctuations; and (8) our ability to obtain additional financing.

OVERVIEW

We are an international provider of adult media content. We acquire still photography and motion pictures from independent directors and process these images into products suitable for popular media formats such as print publications, DVDs, video cassettes and digital media content for Broadcasting, Broadband and Internet distribution. In addition to media content, we also market and distribute branded leisure and novelty products oriented to the adult entertainment lifestyle and generate additional sales through the licensing of our Private trademark to third parties.

In June 1998, we acquired Milcap Media Limited, its subsidiaries and Cine Craft. Prior to these acquisitions, we were a holding company. Milcap Media Limited, its subsidiaries and Cine Craft were the acquirees, but for accounting purposes they were deemed to be the acquirors. We became a U.S. reporting company following the 1998 acquisitions.

We operate in a highly competitive, service-oriented market and are subject to changes in business, economic and competitive conditions. Nearly all of our products compete with other products and services that utilize adult leisure time and disposable income.

Due to the highly fragmented structure of the adult entertainment industry, we expect increasing consolidation. We believe that, as a public company with sufficient working capital and future financing capabilities, we are in a position to acquire several privately-held competitors.

We generate revenues primarily through:

- . sales of movies on DVD and videocassette formats;
- . sales of adult feature magazines;
- . Internet subscriptions and licensing;
- . broadcasting movies through cable, satellite and hotel television programming; and
- . brand name and trademark licensing.

/(1)/ Includes primarily net sales of CD-ROMs and licensing fees.

- 31 -

Over time, we expect net sales from magazines and videocassettes to continue to decline as a percentage of net sales in relation to total net sales from DVDs, the Internet and broadcasting.

We recognize net sales on delivery (for further information, see Critical Accounting Estimates).

Even though we recognize net sales upon delivery, we generally provide extended payment terms to our distributors of between 90 and 180 days. Although our extended payment terms increase our exposure to accounts receivable write-offs, we believe our risk is minimized by our generally long-term relationships with our distributors. In addition, we view our extended payment terms as an investment in our distribution channels which are important to the growth of our business.

Our primary expenses include:

- . acquisition of content for our library of photographs and videos;
- . printing, processing and duplication costs; and
- . selling, general and administrative expenses.

Our magazines and DVD and videocassette covers are printed by independent third-party printers in Spain. We introduced DVDs as a motion picture medium in 1999. The production of each DVD master disc, prior to duplication, costs approximately \$10,000. DVDs have a relatively low cost of duplication, inclusive of box and packaging, of approximately \$2.00 per unit. We released 120 titles on DVD during 2002, 119 titles during 2001 and 83 titles during 2000, including both new and archival material. We plan to introduce approximately 120 titles on DVDs in 2003.

Over the years, our cost of sales has decreased relative to net sales due to our use of new mediums for our products, such as the Internet, DVD and broadcasting. These new media provide us with additional sales of our existing content. However, our selling, general and administrative expenses have increased in relation to these media due to, among other things, our Internet development costs and ongoing administrative costs. We maintain a staff of 30 full-time Internet employees and invest extensively in advanced computer and communications infrastructure.

In addition, our selling, general and administrative costs have increased due to the expansion of our European administrative headquarters in Barcelona.

We also incur significant intangible expenses in connection with the amortization of our library of photographs and movies and capitalized development costs, which include the Internet and broadcasting. We amortize these tangible and intangible assets on a straight-line basis for periods of between three and ten years. In the future, we expect fewer capitalized

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

development costs in relation to the Internet and cable, satellite and hotel television programming. We will increasingly expense future investments in these media as incurred.

CRITICAL ACCOUNTING ESTIMATES

GENERAL

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities revenues and expenses. On an ongoing basis, we evaluate our estimates, including those related to impairment of the library of photographs and videos and other long lived assets, allowances for bad debt, income taxes and contingencies and litigation. Accounts receivable and sales related to certain products are, in accordance with industry practice, subject to distributors right of return to unsold items. We base our estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Management periodically reviews such estimates. Actual results may differ from these estimates.

We believe the following critical accounting policies are significantly affected by judgments and estimates used in

- 32 -

the preparation of our consolidated financial statements.

Recognition of Revenue

Revenues from the sale of magazines, videocassettes, DVD's and other related products where distributors are not granted rights-of-return are recognized upon transfer of title, which generally occurs upon delivery. Revenues from the sale of magazines under agreements that grant distributors rights-of-return are recognized upon transfer of title, which generally occurs on delivery, net of an allowance for returned magazines. Revenues from the sale of videocassette and DVD products under consignment agreements with distributors are recognized based upon reported sales by the Company's distributors. Revenues from the sale of subscriptions to the Company's internet website are deferred and recognized ratably over the subscription period. Revenues from licensing of broadcasting rights to the Company's video and film library are recognized upon delivery when the following conditions have been met (i) license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale (ii) the arrangement fee is fixed or determinable and (iii) collection of the arrangement fee is reasonably assured.

Accounts receivable

We are required to estimate the collectibility of our trade receivables and notes receivable. A considerable amount of judgment is required in assessing the ultimate realization of these receivables including the current credit-worthiness of each customer. Significant changes in required reserves have been recorded in the past and may occur in the future due to the current market environment.

Goodwill and Other Intangible Assets

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

On January 1, 2002 the Company adopted Financial Accounting Standards Board Statement (SFAS) No. 142, "Goodwill and Other Intangible Assets". Under SFAS 142, goodwill and indefinite lived intangible assets will no longer be amortized but will be reviewed annually for impairment (or more frequently if indicators of impairment arise).

During 2002, the Company performed the required initial impairment test of goodwill and indefinite lived intangible assets as of January 1, 2002. There was no effect of on the earnings and financial position of the Company as a result of the impairment testing.

Other Intangible Assets represents the value attributable to the customer base which was acquired from one of the Company's distributors in the U.S. in 2001 (see Note 3 and 9). Amortization expense is calculated on a straight-line basis over 10 years.

Impairment of Long-Lived Assets

The Company periodically evaluates the carrying value of long-lived assets including its library of photographs and videos for potential impairment. Upon indication of impairment, the company will record a loss on its long-lived assets if the undiscounted cash flows that are estimated to be generated by those assets are less than the related carrying value of the assets. An impairment loss is then measured as the amount by which the carrying value of the asset exceeds the estimated discounted future cash flows. Management's estimated future revenues are based upon assumptions about future demand and market conditions and additional write downs may be required if actual conditions are less favorable than those assumed.

Inventories

Inventories are valued at the lower of cost or market, with cost principally determined on an average basis. Inventories principally consist of DVD's, videocassettes and magazines held for sale or resale. The inventory is written down to the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional write-downs may be required.

RESULTS OF OPERATIONS

2002 compared to 2001

Net sales. Our net sales in 2002 were EUR 39.4 million compared to EUR 39.0 million in 2001, an increase of EUR 0.4 million, or 1%. We attribute the change in sales to increases in DVD and Broadcasting sales offset by a decrease in Video and Magazine sales, and Internet sales compared to 2001. Video and Magazine sales decreased 15% compared to 2001 to EUR 13.8 million as a result of lower sales of back-issues of our magazines and reduced price levels in the market for videocassettes. Internet sales decreased 22% compared to 2001 to EUR 6.1 million as a result of reduced Internet license sales and a non-recurring drop in Internet subscription sales related to technical problems, which have now been resolved. DVD sales increased 30% to EUR 15.5 million and Broadcasting sales increased 45% to EUR 4.1 million.

We attribute the growth in sales of DVDs to the increasing number of DVD players being sold in all of our markets. We believe that the growth in DVD and Broadcasting sales will continue through the remainder of 2003.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

Net sales in general were affected by unfavorable changes in exchange rates. During the period the dollar weakened against the euro and since our sales in the United States are translated into euro this had a negative effect. Fluctuations in exchange rates between the euro and the dollar can affect the comparability of our results from year to year. We translate our consolidated subsidiaries whose functional currency is not the euro into the euro for reporting purposes. Income statement amounts are translated into euros using the average exchange rate for the fiscal year. The balance sheet is translated at the year-end exchange rate. Due to the significance of the results reported in dollars the impact of the euro/dollar exchange rate on our major categories of revenue and expense can be material.

Cost of Sales. Our cost of sales was EUR 17.0 million for 2002 compared to EUR 13.8 million for 2001, an increase of EUR 3.2 million, or 23%. The increase was the result of a combination of an increase in sales volume and unfavorable exchange rate changes. Cost of sales as a percentage of sales was 43% for 2002, an increase of 8% compared to 2001. The increase was primarily the result of unfavorable exchange rate changes.

Gross Profit. Our gross profit for 2002 was EUR 22.4 million, or 57% of net sales, compared to EUR 25.2 million, or 65% of net sales for 2001. This represented a decrease of EUR 2.8 million, or 11%, compared to 2001. Gross profit as a percentage of sales was down 8% for 2002 compared to 2001. The decrease was primarily the result of unfavorable exchange rate changes.

Selling, general and administrative expenses. Our selling, general and administrative expenses were EUR 20.6 million for 2002 compared to EUR 16.8 million for 2001, an increase of EUR 3.8 million, or 23%. We attribute this increase to a re-organization of the legal structure of the group, our expansion in the United States through our new subsidiary Private North America which was fully operational during the second half of last year, increased marketing efforts, an overall expansion of operations and our management team and our continued investment in new technologies and broadcasting related activities. We expect our investment in new technologies and broadcasting related activities to continue in 2003.

Offering expense. We reported offering expenses of EUR 1.6 million for 2002 for the activities related to the listing and secondary offering on the Frankfurt Stock Exchange, Neuer Markt in Germany. The offering was postponed in January, 2002 due to poor market conditions. Including offering expenses in 2001, the total cost for offering expenses was EUR 2.4 million.

Operating profit. We reported an operating profit of EUR 0.2 million for 2002 compared to EUR 7.6 million for 2001, a decrease of EUR 7.4 million, or 97%. We attribute this change primarily to reduced gross profit as a result of unfavorable exchange rate changes, increased selling, general and administrative expenses and offering expense.

Sale of controlled entity. We reported a net gain of EUR 1.9 million for 2001 for the sale of our subsidiary, Private Circle, Inc.

Interest expense. Our interest expense was EUR 0.4 million for 2002, compared to EUR 0.2 million for 2001.

- 34 -

Income tax expense/benefit. Our income tax benefit was EUR 0.1 million for 2002, compared to a tax expense of 1.4 million for 2001. We attribute this change to decreased operating profit and in particular to a tax credit related

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

to our offering expense.

Net income. Our net income was EUR 0.3 million for 2002, compared to EUR 8.0 million for 2001. We attribute this change in net income in 2002 of EUR 7.7 million, or 96%, to decreased operating profit, including offering expenses of EUR 1.6 million, and the absence of a non-recurring gain of EUR 1.9 thousand from the sale of subsidiary in 2001.

2001 compared to 2000

Net sales. Our net sales in 2001 were EUR 39.0 million compared to EUR 30.6 million in 2000, an increase of EUR 8.4 million, or 28%. We attribute this change mainly to an increase in DVD, Internet (subscriptions and licensing) and broadcasting (cable, satellite and hotel-television programming) sales. Sales from broadcasting increased 38% to EUR 2.8 million compared to 2000. DVD sales increased 100% to EUR 5.9 million compared to 2000. Internet sales increased 29% to 7.7 million.

In 2001, our total DVD, Internet and broadcasting sales increased EUR 8.4 million, or 60%, to EUR 22.4 million, compared to 2000. We attribute the growth in sales of DVDs to the increasing number of DVD players being sold in all of our markets. We attribute the growth in broadcasting sales to the growing digital satellite and cable television market. We attribute the growth in Internet sales to the increasing number of people who are able to connect to the Internet. Sales from broadcasting, DVD and Internet provided additional net sales from content previously sold on videocassette. We believe that the growth in broadcasting, DVD and Internet sales will continue in 2002.

Net sales of videos and magazines increased slightly during 2001 compared to the 2000 fiscal year.

In May, 2001 we sold our interest in our subsidiary, Private Circle, which engaged in the design, production and marketing of trendy apparel. Accordingly, revenues and expenses associated with Private Circle did not have a significant impact in the last three quarters of 2001. Also, during the second quarter of 2001 we acquired the assets of Private USA, our North American distributor. As a result of the change in ownership, revenues associated with Private USA during this quarter declined and operations were briefly suspended, causing a temporary decline in revenues from North American distribution activities. Our distribution activities in North America are now operating normally.

Cost of Sales. Our cost of sales was EUR 13.8 million for 2001 compared to EUR 11.7 million for 2000, an increase of EUR 2.1 million, or 18%. The increase was primarily the result of an increase in sales volume. Cost of sales as a percentage of sales was 35.5% for 2001, a reduction of 2.8% compared to 2000. This improvement was the direct result of lower costs associated with DVD, Internet and broadcasting sales.

Gross Profit. Our gross profit for 2001 was EUR 25.2 million, or 64.5% of net sales, compared to EUR 18.9 million, or 61.7% of net sales for 2000. This represented an increase of 46.1%, or 2.8% in gross profit in relation to net sales. We attribute this increase to increased sales in DVD, Internet and broadcasting which are areas with higher margins. These products generally have higher profit margins.

Selling, general and administrative expenses. Our selling, general and administrative expenses were EUR 16.8 million for 2001 compared to EUR 11.5 million for 2000, an increase of EUR 5.3 million, or 46%. We attribute this increase to increased marketing efforts, the setting up and consolidation of our North American subsidiary, an overall expansion of operations and our management team and our continued investment in Internet, DVD and broadcasting related

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

activities. We expect our investment in Internet, DVD and broadcasting related activities to continue in 2002.

Offering expense. We reported offering expenses of EUR 0.8 million for 2001 for the activities related to the listing and secondary offering on the Frankfurt Stock Exchange, Neuer Markt in Germany. The offering was postponed in January, 2002 due to poor market conditions.

- 35 -

Operating profit. We reported an operating profit of EUR 7.6 million for 2001 compared to EUR 7.4 million for 2000, an increase of EUR 0.2 million, or 2%. We attribute this increase primarily to increased sales and higher margins offset by offering expense.

Sale of controlled entity. We reported a net gain of EUR 1.9 million for 2001 for the sale of our subsidiary, Private Circle, Inc.

Interest expense. Our interest expense was EUR 0.2 million for 2001, compared to EUR 0.2 million for 2000.

Income taxes. Our income tax expense was EUR 1.4 million for 2001, compared to 1.3 million for 2000. We attribute this increase of 0.1 million to increased DVD, Internet and broadcasting sales, higher margins and a one-time tax provision of EUR 0.3 million relating to the sale of certain land and building offset by a decrease in tax as a result of lesser profits being recorded in jurisdictions with higher corporate tax rates.

Net income. Our net income was EUR 8.0 million for 2001, compared to EUR 6.3 million for 2000. We attribute this increase in net income of 1.7 million, or 28%, primarily to increased DVD, Internet and broadcasting sales, higher margins from these sales and the net gain on the sale of our subsidiary Private Circle offset by offering expense.

LIQUIDITY AND CAPITAL RESOURCES

We generate cash from our operating activities, borrowings from third parties, the exercise of warrants and private sales of our equity securities. Our principal uses of cash typically include acquisitions and joint ventures, building our library of photographs and movies and Internet infrastructure development.

We reported a working capital surplus of EUR 15.3 million at December 31, 2002, a decrease of EUR 7.1 million compared to the year ended December 31, 2001. The decrease is principally attributable to decreased accounts receivable related to better collection performance, a decrease in cash and cash equivalents and increases in short-term borrowings.

We reported a working capital surplus of EUR 22.4 million at December 31, 2001, an increase of EUR 6.5 million compared to the year ended December 31, 2000. The increase is principally attributable to increased accounts receivable related to increased sales and increases in short-term investments, related party receivable and inventories.

OPERATING ACTIVITIES

Net cash provided by our operating activities was EUR 4.3 million for 2002 compared to EUR 7.5 million for 2001, and was primarily the result of net income and adjustments to reconcile net income to net cash flows from operating activities. We adjusted our net income of EUR 0.3 million to reconcile it to net

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

cash flows from operating activities. Adjustments included (1) depreciation of EUR 1.0 million and (2) amortization of photographs and videos of EUR 5.8 million offset by (3) deferred income taxes of EUR 0.2 million, providing a total of EUR 6.9 million. We reduced the total of EUR 6.9 million by the increases in related party receivable, inventories, prepaid expenses and other current assets and income taxes payable totaling EUR 6.7 million, and we offset this reduction with EUR 4.2 million from trade accounts receivable accounts payable trade and accrued other liabilities.

Net cash provided by our operating activities was EUR 7.5 million for 2001 compared to EUR 8.6 million for 2000, and was primarily the result of net income and adjustments to reconcile net income to net cash flows from operating activities. We adjusted our net income of EUR 8.0 million to reconcile it to net cash flows from operating activities. Adjustments included (1) depreciation of EUR 0.6 million, (2) bad debt provision of EUR 0.5 million (3) tax provision on asset held for sale of EUR 0.3 million, (4) amortization of goodwill of EUR 0.3 million, and (5) amortization of photographs and videos of EUR 4.5 million offset by (6) deferred taxes of EUR 0.2 million, (7) gain on sale of asset held for sale of EUR 0.2 million and (8) gain on sale of controlled entity of EUR 1.9 million, providing a total of EUR 12.1 million. We reduced the total of EUR 12.1 million by the increases in trade accounts receivable, related party receivable, inventories, income taxes payable and accrued other liabilities totaling EUR 7.3 million, and we offset this reduction with EUR 2.8 million from prepaid expenses and other current assets, and accounts payable trade.

Net cash provided by our operating activities was EUR 8.6 million for 2000 compared to EUR 2.8 million for

- 36 -

1999, and primarily resulted from net income and adjustments to reconcile net income to net cash flows from operating activities. We adjusted our net income of EUR 6.3 million to reconcile it to net cash flows from operating activities. Adjustments included (1) amortization of goodwill of EUR 0.2 million, (2) amortization of our library of photographs and movies of EUR 3.7 million, and (3) depreciation of EUR 0.9 million and were offset by deferred taxes of EUR 0.1 million, providing for a total of EUR 11.1 million. We reduced the total of EUR 11.1 million by the increases in trade accounts receivable, inventories and prepaid expenses and other current assets totalling EUR 7.5 million, and we offset this reduction by EUR 5.1 million from related party receivable, accounts payable trade, income taxes payable and accrued other liabilities.

INVESTING ACTIVITIES

Net cash used in investing activities for the fiscal year ended December 31, 2002 was EUR 21.6 million. The investing activities were investment in library of photographs and videos of EUR 8.5 million, which were carried out in order to maintain the 2002 and 2003 release schedules for magazines, videos, DVDs and broadband. In addition to investment in library of photographs and videos, EUR 13.1 million was invested in capital expenditures. The increase over the comparable twelve-month 2001 period is principally due to investments in a building included in capital expenditures primarily financed by related party note payable.

Net cash used in investing activities for the fiscal year ended December 31, 2001 was EUR 5.5 million. The investing activities were principally investment in library of photographs and videos of EUR 7.0 million, which were carried out in order to maintain the 2001 and 2002 release schedules for magazines, videos, DVDs and broadband. In addition to investment in library of photographs and videos, EUR 2.8 million was invested in short-term investments,

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

EUR 0.7 million in capital expenditures, EUR 0.6 million in investment in subsidiary offset by EUR 2.9 million from cash from sale of controlled entity, EUR 2.6 million from cash from sale of asset held for sale and EUR 0.2 million from sale of other assets. The decrease over the comparable twelve-month 2000 period is principally due to cash from sale of controlled entity, cash from sale of asset held for sale and sale of other assets offset by capital expenditures, investments in controlled entity, short-term investments and investments in library of photographs and videos in order to maintain inventory levels and expand DVD activities.

Net cash used in our investing activities for 2000 was EUR 7.8 million compared to EUR 4.5 million in 1999. The investing activities were primarily investments in our library of photographs and videos of EUR 5.7 million, which were carried out in order to start up DVD sales, increase content quality and maintain the 2000-2001 release schedule. In addition to investing in our library of photographs and movies, we invested EUR 1.4 million in capital expenditures and EUR 0.6 million in other assets. The increase over the comparable twelve-month 1999 period was due principally to increased investments in our library of photographs and movies, capital expenditures and investments in other assets.

FINANCING ACTIVITIES

Net cash provided by our financing activities for the fiscal year ended December 31, 2002 was EUR 12.0 million, represented primarily by related party note payable, short-term borrowings and conversion of warrants during the year offset by repayments of long-term borrowings. We attribute the increase over the comparable twelve-month 2001 period to related party note payable and short-term borrowings which result from loans provided by Beate Uhse in November and December 2002.

Net cash provided by our financing activities for the fiscal year ended December 31, 2001 was EUR 4.8 million, represented primarily by short-term borrowings and conversion of warrants during the year offset by repayments of long-term borrowings. We attribute the increase over the comparable twelve-month 2000 period to short-term borrowings which result from a loan provided by Commerzbank AG in December 2001.

In December 2001 we borrowed \$ 4.0 million from Commerzbank AG pursuant to a Note originally due on December 20, 2002. The Note bears interest at an annual rate of 7%, payable quarterly, with the entire principal amount and accrued interest originally due on December 20, 2002. In December 2002 Commerzbank AG agreed to extend the maturity date of the Note from December 20, 2002 to March 20, 2003.

We are in discussion with an independent third party to replace the Note and other short term borrowings with

- 37 -

appropriate long-term financing. We expect that this arrangement will be in place by mid-April.

Net cash provided by our financing activities for 2000 was EUR 10.5 million compared to EUR 18.9 million for 1999, attributable to EUR 11.7 million from conversion of warrants and an increase in short-term borrowings of EUR 0.2 million on our line of credit, offset by our repayments on long-term borrowings of EUR 1.4 million. We attribute the decrease over the comparable 1999 period primarily to fewer conversions of warrants.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

OUTLOOK

We expect continued growth in 2003, particularly in the DVD and broadcasting segments. We also plan to introduce video content accessible by mobile devices in 2003. During 2003, we expect to continue to release movie productions at the same rate as in 2002.

We expect that our available cash resources and cash generated from operations will be sufficient to meet our presently anticipated working capital and capital expenditure requirements for at least the next 12 months. However, we may need to raise additional funds to support more rapid expansion or respond to unanticipated requirements. In addition, we will be required to refinance the Note to Commerzbank AG. We are in discussion with an independent third party to replace the Note and other short term borrowings with appropriate long-term financing. We expect that this arrangement will be in place by mid-April.

If additional funds are raised through the issuance of equity securities, our shareholders' percentage ownership will be reduced, they may experience additional dilution, or these newly issued equity securities may have rights, preferences, or privileges senior to those of our current shareholders. Additional financing may not be available when needed on terms favorable to us, or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures or unanticipated requirements, which could harm our business.

- 38 -

EURO CONVERSION

Historically, a significant portion of our revenues and operating expenditures have been in Swedish Kronor. Over time, due to internal growth, new business developments and acquisitions, our business activities are being increasingly conducted in countries of the European Union who have adopted the euro as their currency. As a result, for all fiscal periods beginning after December 31, 2001, we are submitting our accounting reports using the euro as our primary reporting currency. The transitional period for the introduction of the euro ended on January 1, 2002 when the euro replaced all local currencies in eleven of the member states. Although the euro conversion may affect cross-competition by creating cross-border price transparency, we believe that this development is unlikely to affect our business due to the low per item cost of our magazines, movies and other products.

NEW ACCOUNTING STANDARDS

In October 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 supercedes Statement of Financial Accounting Standard No. 121, "Accounting for the Impairment of Long-Lived Assets to be Disposed Of ("SFAS 121)" and those sections of Accounting Principle Board Standard No. 30 "Reporting the Results of Operations" ("APB 30"), related to discontinued operations. The scope of SFAS 144 includes long-lived assets, or groups of assets, to be held and used as well as those which are to be disposed of by sale or by other method, but excludes a number of long-lived assets such as goodwill and intangible assets not being amortized under the application of SFAS 142. Under SFAS 144 the impairment test methodologies of SFAS 121 are essentially unchanged as the standard requires testing for impairment when indicators of impairment are in evidence, and that impairment losses are recognized only if the assets carrying value is not recoverable (based on undiscounted cash flows) and the carrying value of the

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

long lived asset (group) is higher than the fair value.

SFAS 144 was effective January 1, 2002, for the Company. The adoption of SFAS 144 did not have a material impact on the of the Company's results of operations or financial position.

In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities (SFAS 146), which addresses financial accounting and reporting for costs associated with exit or disposal activities, and nullifies EITF Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)" which previously governed the accounting treatment for restructuring charges. SFAS 146 applies to costs associated with an exit activity that does not involve an entity newly acquired in a business combination or with a disposal covered by SFAS 144. SFAS 146 will be applied prospectively and is effective for exit or disposal activities initiated after December 31, 2002. The Company does not expect the adoption of SFAS 146 to materially impact its financial position, results of operation, or cash flows.

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others" ("Interpretation"). This Interpretation elaborates on the existing disclosure requirements for most guarantees, including loan guarantees such as standby letters of credit. It also clarifies that at the time a company issues a guarantee, the company must recognize an initial liability for the fair market value of the obligations it assumes under that guarantee and must disclose that information in its interim and annual financial statements. The initial recognition and measurement provisions of the Interpretation apply on a prospective basis to guarantees issued or modified after December 31, 2002.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not use derivative financial instruments for trading purposes and were never a party to any derivative, swap or option contracts. We do not hedge our interest rate or foreign currency exchange rate exposures.

As our cash and cash equivalent and short-term investments consist principally of money market securities and investments in short-term debt or equity securities and our borrowings are primarily at fixed rates of interest our market risk related to fluctuations in interest rates is limited. Accordingly, a one percentage change in market interest rates would not have a material impact on our results of operations.

- 39 -

We transact our business in various currencies, principally the Euro and the U.S dollar and certain other European Union currencies. We generally attempt to limit exposure to currency rate fluctuations by matching transaction currencies (revenues/expenses) to the functional currency of its operating subsidiaries. Our exposure to market risk for fluctuations in foreign currency exchange rates relates primarily to fluctuations in the Euro versus the U.S dollar. We translate our consolidated subsidiaries whose functional currency is not the euro into the euro for reporting purposes. Income statement amounts are translated into euros using the average exchange rate for the fiscal year. The balance sheet is translated at the year-end exchange rate. Due to the significance of the results reported in dollars the impact of the euro/dollar exchange rate on our major categories of revenue and expense can be material.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our audited consolidated financial statements and related notes appear at the end of this Report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

CHANGE IN INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

On September 12, 2002, the Company dismissed Ernst & Young AB as the principal auditor of the Company, effective as of such date. On September 12, 2002 the Company appointed BDO Audiberia as the principal auditor of the Company for the fiscal year ended December 31, 2002. The dismissal of Ernst & Young AB and the appointment of BDO Audiberia was approved by the Company's Audit Committee.

The Company has retained Ernst & Young AB to render certain other audit and non-audit services to the Company in designated matters, including acting as the Company's statutory auditors in Cyprus, France and Sweden, and providing certain tax-related services.

The reports of Ernst & Young AB on the Company's financial statements for the past two fiscal years did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles.

Except for the matter discussed in the following paragraph, there were no disagreements with Ernst & Young AB for the past two fiscal years and the subsequent interim periods through the date of dismissal, on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedures which if not resolved to the satisfaction of Ernst & Young AB, would have caused Ernst & Young AB to make reference to the matter in their report.

In connection with the audit of the Company's financial statements for the year ended December 31, 2001 there was a difference of opinion between the Company and Ernst & Young AB related to the appropriateness of accounting principles applied related to the recognition of revenues on a transaction with a related party. Such difference of opinion was discussed by Ernst & Young AB with the Audit Committee of the Board of the Company. This difference of opinion was ultimately resolved to the satisfaction of Ernst & Young AB.

Other than the difference of opinion discussed above there were no other differences of opinion with Ernst & Young AB for the past two fiscal years and the subsequent interim periods through the date of dismissal, on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedures which, if not resolved to the satisfaction of Ernst & Young AB would have caused Ernst & Young AB to make reference to the matter in their report.

EMPLOYMENT CONTRACTS

Effective May 2002 we entered into an employment agreement with Charles Prast providing for Mr. Prast to serve as our President and Chief Executive Officer. The employment agreement has an initial term of five years, subject to earlier termination or renewal under certain circumstances, and provides for a base salary of \$120,000 per year. In addition, the employment agreement provides for the Company to grant 1,500,000 options to Mr. Prast at an exercise price of \$6.00, with vesting over a period of seven years, which vesting is subject to acceleration in the event of a change in control of the Company.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Our Compensation Committee is currently comprised of Messrs. Prast and Sanchez, who are our Chief Executive Officer and Chief Operating Officer, respectively, and served in these capacities during the 2002 fiscal year. During the last fiscal year, none of our executive officers served on our Board of Directors or Compensation Committee of any other entity whose officers served either on our Board of Directors or Compensation Committee.

EMPLOYEE STOCK OPTION PLAN

The 1999 Employee Stock Option Plan was adopted by the Board of Directors and shareholders of Private Media Group, Inc. in 1999 and was amended effective December 31, 2002. The Plan allows us to grant options to purchase

common stock to designated employees, executive officers, directors, consultants, advisors and other corporate and divisional officers of Private Media Group.

The Plan authorizes us to grant stock options exercisable for up to an aggregate of 7,200,000 shares of common stock. No stock options may be granted under the Plan, after the Plan expires, on March 1, 2009. If a stock option expires, terminates or is cancelled for any reason without having been exercised in full, the shares of common stock not purchased under the Plan are available for future grants.

The purchase price (exercise price) of option shares must be at least equal to the fair market value of such shares on the date the stock option is granted or such later date we may specify. The stock option is exercisable for a period of ten years from the date of grant or such shorter period as is determined by us. Each stock option may provide that it is exercisable in full or in cumulative or non-cumulative installments, and each stock option is exercisable from the date of grant or any later date specified in the option. The Board of Directors has the authority under the Plan to take certain actions, including the authority to accelerate vesting schedules and to otherwise waive or adjust restrictions applicable to the exercise of stock options.

Unless otherwise provided by us, an optionee may not exercise a stock option unless from the date of grant to the date of exercise the optionee remains continuously in our employ. If the employment of the optionee terminates for any reason other than death, disability or retirement at or after the age of 65, (1) the stock options then currently exercisable will remain exercisable for a period of 90 days after that termination of employment (except that the 90 day period is extended to 12 months if the optionee dies during such 90 day period), unless those stock options expire prior to the expiration of 90 days, and (2) the stock options then not exercisable will terminate as of the date of termination of employment.

The Board of Directors may at any time suspend, amend or terminate the Plan. Shareholder approval is required, however, to (1) materially increase the benefits accruing to optionees, (2) materially increase the number of securities which may be issued (except for adjustments under anti-dilution clauses), or (3) materially modify the requirements as to eligibility for participation. The Plan authorizes us to include in stock options provisions which permit the acceleration of vesting in the event of a change in control of Private Media Group, Inc. as defined under the Plan.

As of December 31, 2002, 3,671,395 options were outstanding under the Plan with an average exercise price of 5.73. Options for 3,242,819 shares of common stock remained available for grant as of such date. Future grants under the Plan will be made at our discretion.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

CERTAIN RELATIONSHIPS

No Director or executive officer of Private Media Group is related to any other Director or executive officer. None of our officers or Directors hold any directorships in any other public entity. There are currently three outside directors on our Board of Directors.

RELATED TRANSACTIONS

We have short-term loans to an entity controlled by Mr. Milton in the amount of EUR 1.6 million and 4.2 million at December 31, 2001 and 2002, respectively. The loans bear interest at the rate of EURIBOR+1% per annum and have no maturity date. During 2002 the highest amount outstanding was EUR 5.7 million. Advances and repayments since June 30, 2002 are related to the property that we have acquired from an entity controlled by Mr. Milton, which transaction is discussed below. As of March 28, 2003, EUR 4.3 million remained outstanding on these loans including interest.

In December 2001 we borrowed \$4.0 million from Commerzbank AG pursuant to a Note originally due December 20, 2002 in order to expand our product portfolio. Subsequently the maturity of the Note was extended to March 2003. The Note bears interest at an annual rate of 7%, payable quarterly, with the entire principal amount and accrued interest due on maturity. The Note is prepayable in full upon the sale of equity by us. Upon the Note becoming prepayable, we are required to repay the entire principal amount of the Note together with the greater of (1) accrued interest payable on the Note or (2) a prepayment premium equal to \$200,000. The Note is secured by a guaranty from Slingsby Enterprises and a pledge by Slingsby Enterprises of 5,600,000 shares of our Series A Preferred Stock. The lender and Slingsby Enterprises have also agreed that if

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

the Note remains unpaid at maturity, Commerzbank may elect to exchange the Note for Series A Preferred Stock or common stock owned by Slingsby Enterprises to the value of \$5.0 million. The Company is in discussion with an independent third party to replace the Note with appropriate long-term financing. The Company expects that this arrangement will be in place by mid-April. Slingsby Enterprises is beneficially owned by Berth H. Milton, Chairman of the Board of Directors.

Effective December 31, 2002, we completed the purchase of all of the outstanding stock of Barbuda B.V., from companies indirectly beneficially owned by Berth Milton. The principal asset of Barbuda B.V. is an approximately 9,700 square meter office facility, including parking, located in Barcelona, Spain, currently under construction. Construction is expected to be completed in June 2004. The purpose of this transaction was to acquire this property. We intend to occupy this property as our European headquarters upon completion of construction.

The consideration paid by our subsidiary to the seller for the stock was EUR 9,956,950. The consideration consisted of EUR 3,387,581 cash paid in December 2002 and a note payable in the amount of EUR 6,569,369. The note bears interest at a rate of EURIBOR+1% payable annually and is due and payable on December 31, 2004. The fair market value of the principal asset, the real estate, is based upon independent appraisals.

The foregoing transactions were approved by a majority of our disinterested directors and are believed to be on terms no less favorable to us than could be obtained from unaffiliated third parties on an arms-length basis.

ITEM 14. CONTROLS AND PROCEDURES

PRIVATE MEDIA GROUP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. THE COMPANY AND BASIS OF PRESENTATION

Private Media Group, Inc. ("the Company") was originally incorporated on September 23, 1980 as Glacier Investment Company, Inc. under the laws of the State of Utah and, effective November 24, 1997, after a series of interim name changes, changed its name to Private Media Group Inc. Effective June 12, 1998 the Company acquired Cine Craft Limited ("Cine Craft"), a Gibraltar corporation and Milcap Media Limited ("Milcap"), a Republic of Cyprus corporation. Prior to the acquisitions the Company was a holding company with no operations. Milcap and its subsidiaries and Cine Craft operate under common control and are engaged in the acquisition, refinement and distribution of video and photo rights for adult feature magazines and movies (videocassettes and DVD's) through distributors and via the Internet. The acquisition was accounted for as a reverse acquisition whereby the Company was considered to be the acquiree even though legally it is the acquiror. Accordingly, the accompanying financial statements present the historical combined financial statements of Cine Craft and Milcap from January 1, 1998 through the acquisition date of June 12, 1998 and the consolidated financial statements of the Company, Cine Craft and Milcap since that date. Since the fair value of the net assets of the Company were equal to their net book values on June 12, 1998, the assets and liabilities of the Company remained at their historical cost following the acquisition. During the year ended December 31, 2000, the Company established two new wholly owned subsidiaries, one in Sweden (Peach Entertainment Distribution AB, "Peach") and one in the Republic of Cyprus (Fraserside Holdings Ltd., "Fraserside"). These subsidiaries were formed to carry on the business of Milcap Publishing Group AB (Sweden) and Milcap (Cyprus), respectively.

Effective January 1, 2002, the Company changed its reporting currency from the Swedish Krona (SEK) to the euro ("EUR"). On that date, the euro became the principal currency in which Private Media Group generates its cash flows. The assets and operations of the Company's US based operations are currently not significant. The accompanying financial statements have been recast for all periods presented using methodology consistent with Statement of Financial Accounting Standards No. 52, Foreign Currency Translation (SFAS 52).

Solely for the convenience of the reader, the accompanying consolidated financial statements as of December 31, 2002 and for the twelve months then ended have been translated into United States dollars ("USD") at the rate of EUR 0.96 per USD 1.00 the Exchange Rate of the European Central Bank on December 31, 2002. The translations should not be construed as a representation that the amounts shown could have been, or could be, converted into US dollars at that or any other rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

The consolidated financial statements include the accounts of the Company and all wholly owned subsidiaries and of companies which the Company is deemed to control. All significant intercompany transactions and balances have been eliminated in consolidation.

Foreign Currency

The financial statements of the Company's operations based outside of the euro area have been translated into euro in accordance with SFAS 52. Management has determined that the functional currency for each of the Company's foreign operations is its applicable local currency. When translating functional currency financial statements into euro, year-end exchange rates are applied to the balance sheet accounts, while average annual rates are applied to income statement accounts. Translation gains and losses are recorded in other comprehensive

F-6

PRIVATE MEDIA GROUP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

income as a component of shareholders' equity.

Transactions involving foreign currencies are translated into euro or functional currencies using exchange rates in effect at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at period end exchange rates and the resulting gain or loss is charged to income in the period.

The aggregate exchange gain/(loss) included in determining net income amounted to EUR 620 thousand, EUR 1,203 thousand and EUR (1,297) thousand for the years ended December 31, 2000, 2001 and 2002, respectively

Recognition of Revenue

The Company's revenue recognition policies are in accordance with Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition in Financial Statements." Revenues from the sale of magazines, videocassettes, DVD's and other related products where distributors are not granted rights-of-return are recognized upon transfer of title, which generally occurs upon delivery. Revenues from the sale of magazines under agreements that grant distributors rights-of-return are recognized upon transfer of title, which generally occurs on delivery, net of an allowance for returned magazines. Revenues from the sale of videocassette and DVD products under consignment agreements with distributors are recognized based upon reported sales by the Company's distributors. Revenues from the sale of subscriptions to the Company's internet website are deferred and recognized ratably over the subscription period. Revenues from licensing of broadcasting rights to the Company's video and film library are recognized upon delivery when the following conditions have been met (i) license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale (ii) the arrangement fee is fixed or determinable and (iii) collection of the arrangement fee is reasonably assured.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

expenses during the reporting period. Actual results could differ from those estimates.

Inventories

Inventories are valued at the lower of cost or market, with cost principally determined on an average basis. Inventories principally consist of DVD's, videocassettes and magazines held for sale or resale.

Library of Photographs & Videos

The library of photographs and videos, including rights for photographs and videos as well as translation and dubbing of video material, is reflected at the lower of amortized cost or net realizable value. The cost is amortized on a straight-line basis over 3-5 years representing the estimated useful life of the asset, except for photos which are amortized on a sliding-scale basis over three years. Estimated future revenues are periodically reviewed and, revisions may be made to amortization rates or write-downs made to the asset's net realizable value as a result of significant changes in future revenue estimates. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs to complete and exploit in a manner consistent with realization of that income.

F-7

PRIVATE MEDIA GROUP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Property, Plant and Equipment

Property, plant and equipment are carried at cost and are generally depreciated using the straight-line method over the estimated useful lives of the assets. The useful lives range from 3-5 years.

In March 2000 the Emerging Issues Task Force (EITF) of the Financial Accounting Standards Board reached a consensus on Issue 00-2, "Accounting for Web Site Development Costs" ("EITF 00-2"). In accordance with the transition provisions of EITF 00-2, the Company has elected to apply this standard to website development costs incurred from January 1, 2000 forward. Capitalized website development costs including graphics and related software are being amortized on a straight-line basis over 5 years and are included in property, plant and equipment in the accompanying balance sheet (see Note 8).

Goodwill and Other Intangible Assets

Goodwill represents the excess of the purchase price paid over the fair value of the net assets of the businesses acquired (see Note 3 and 9).

In July 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 was required to be adopted by the company as of January 1, 2002. Under SFAS 142, goodwill and indefinite lived intangible assets are no longer amortized but are reviewed annually for impairment (or more frequently if indicators of impairment arise). Further separable intangible assets that are not deemed to have an indefinite life will continue to amortized over their expected useful lives with no maximum life specified; whereas under prior rules a maximum life of 40 years was required.

During 2002, the Company performed the required initial impairment test of goodwill and indefinite lived intangible assets as of January 1, 2002. There

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

was no effect of on the earnings and financial position of the Company as a result of the impairment testing.

Other Intangible Assets represents the value attributable to the customer base which was acquired from one of the Company's distributors in the U.S. in 2001 (see Note 3 and 9). Amortization expense is calculated on a straight-line basis over 10 years.

Impairment of Long-Lived Assets

The Company evaluates the carrying value of its long-lived assets when events or circumstances indicate the carrying value may not be recoverable through the estimated undiscounted cash flows from the use of the asset. An impairment loss is then measured as the amount by which the carrying value of the asset exceeds its estimated fair value.

Advertising Costs

Advertising costs are charged to income as incurred. The total advertising costs were EUR 481 thousand, EUR 1,299 thousand and EUR 2,609 thousand for the years ended December 31, 2000, 2001 and 2002, respectively.

Shipping and Handling Costs

Shipping and handling costs related to the Company's products are recognized in cost of sales.

F-8

PRIVATE MEDIA GROUP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Income Taxes

The Company accounts for certain income and expense items differently for financial reporting purposes than for tax purposes. Provision for deferred taxes are made in recognition of such temporary differences, following the requirements of Financial Accounting Standards Board Statement No. 109 "Accounting for Income Taxes."

Cash Equivalents

All highly liquid investments purchased with an original maturity of three months or less at the time of acquisition are considered to be cash equivalents.

Short-Term Investments

Short-term investments are classified by the Company as available-for-sale securities are stated at fair value, with the unrealized gains and losses, net of tax, reported in other comprehensive income. Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. The Company does not require collateral on these financial instruments.

Cash and cash equivalents are maintained principally with major financial institutions in Spain and Sweden that have high credit standings and the Company's policy is to limit exposure to any one institution. Under SFAS 133 all derivative financial instruments, such as interest rate swap contracts and foreign exchange contracts, are required to be recognized in the consolidated financial statements at fair value regardless of the purpose or intent for holding the instrument.

The Company does not use derivative financial instruments for purposes of hedging foreign currency exposures, net investments in foreign subsidiaries or any other purposes and accordingly the adoption of this standard had no effect on the Company's financial position or results of operations.

Fair Value of Financial Instruments.

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments. The estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

Cash and cash equivalents: The carrying amount reported in the balance sheet for cash and cash equivalents approximates its fair value.

Short-term investments: The fair values for available-for-sale debt and equity securities are based on quoted market prices.

Accounts receivable and accounts payable: The carrying amounts reported in the balance sheet for accounts receivable and accounts payable approximate their fair values.

Long-and short-term debt: The carrying amounts of the Company's borrowings under its short-term credit arrangements approximate their fair value. The fair value of the Company's long-term debt and leasing contracts are estimated to be equivalent to their carrying values as the rates of interest in these contract represents rates available to the Company for similar types of arrangements.

Under APB 25, generally no compensation expense is recognized because the exercise price of the options equals the fair value of the stock at the vesting date.

Had compensation cost for the Company's stock based compensation issued to employees been determined based upon the fair value at the grant date consistent with the methodology prescribed under SFAS 123, the Company's pro forma net income (loss) for 2000, 2001 and 2002 would have been as per the following table:

reached a consensus on Issue 00-2, "Accounting for Web Site Development Costs" ("EITF 00-2"). EITF 00-2 requires that all costs incurred in the website planning stage should be expensed as incurred.

The EITF also concluded that costs incurred in the website application and infrastructure development stage (including the initial graphics) and costs relating to software used to operate a website are to be accounted for in accordance with Statement of Position No. 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use" ("SOP 98-1") unless a plan exists or is being developed to market the website software externally.

The EITF further concluded that costs incurred to operate an existing website including training, administration, maintenance, and other costs should be expensed as incurred. However, costs incurred in the operation stage that involve providing additional functions or features to the website should be accounted for as, in effect, new software and the costs of upgrades and enhancements that add functionality being expensed or capitalized based on the guidance in SOP 98-1.

In accordance with the transition provisions of EITF 00-2, the Company has elected to apply this standard to website development costs incurred from January 1, 2000 forward and accordingly in the years ended December 31, 2001 and 2002 the Company has capitalized EUR 171 thousand and EUR 194 thousand respectively of costs related to the development of its website including graphics and related software.

In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 (approx. EUR 4.5 million) plus fines amounting to SEK 16,800,000 (approx. EUR 1.8 million) plus interest. The Swedish Tax Authority has taken the position that the subsidiary carried on business in Sweden from a permanent establishment during the period in question and should therefore be taxed on the income attributable to the permanent establishment. The case is under litigation and the Company believes the circumstances supporting the Tax Authority's claim are without merit. However, the County Court has decided that a permanent establishment is at hand. The Court has only made a principle statement and the question how to calculate any eventual profit that can be allocated to the permanent establishment is not decided by the Court at this stage. The Company has appealed against the decision. The final outcome of this litigation will not be known for several years. Due to the early stages of this matter and the uncertainty regarding the ultimate decision, no amounts have been provided in the Company's financial statements for this dispute.

20. RECENT ACCOUNTING PRONOUNCEMENTS

In October 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 supercedes Statement of Financial Accounting Standard No. 121, "Accounting for the Impairment of Long-Lived Assets to be Disposed Of ("SFAS 121)" and those sections of Accounting Principle Board Standard No. 30 "Reporting the Results of Operations" ("APB 30"), related to discontinued operations. The scope of SFAS 144 includes long-lived assets, or groups of assets, to be held and used as well

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

as those which are to be disposed of by sale or by other method, but excludes a number of long-lived assets such as goodwill and intangible assets not being amortized under the application of SFAS 142. Under SFAS 144 the impairment test methodologies of SFAS 121 are essentially unchanged as the standard requires testing for impairment when indicators of impairment are in evidence, and that impairment losses are recognized only if the assets carrying value is not recoverable (based on undiscounted cash flows) and the carrying value of the long lived asset (group) is higher than the fair value.

SFAS 144 was effective January 1, 2002, for the Company.. The adoption of SFAS 144 did not have a material impact on the of the Company's results of operations or financial position.

In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities (SFAS 146), which addresses financial accounting and reporting for costs associated with exit or disposal activities, and nullifies EITF Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)" which previously governed the accounting treatment for restructuring charges. SFAS 146 applies to costs associated with an exit activity that does not involve an entity newly acquired in a business combination or with a disposal covered by SFAS 144. SFAS 146 will be applied prospectively and is effective for exit or disposal activities initiated after December 31, 2002. The Company does not expect the adoption of SFAS 146 to materially impact its financial position, results of operation, or cash flows.

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others" ("Interpretation"). This Interpretation elaborates on the existing disclosure requirements for most guarantees, including loan guarantees such as standby letters of credit. It also clarifies that at the time a company issues a guarantee, the company must recognize an initial liability for the fair market value of the obligations it assumes under that guarantee and must disclose that information in its interim and annual financial statements. The initial recognition and measurement provisions of the Interpretation apply on a prospective basis to guarantees issued or modified after December 31, 2002.
