ITEM 9. REGULATION FD DISCLOSURE

In accordance with General Instruction B.2. of Form 8-K, the following information shall not be deemed "filed" for purposes of Section 18 of the Securities Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such a filing.

FORWARD-LOOKING STATEMENTS AND ASSOCIATED RISKS

All statements, other than statements of historical fact, included in this report are forward-looking statements, including, but not limited to, statements identified by the words "anticipate," "believe," "estimate," "expect,"

Edgar Filing: PLAINS RESOURCES INC - Form 8-K

"plan," "intend" and "forecast" and similar expressions and statements regarding our business strategy, plans and objectives of our management for future operations. These statements reflect our current views with respect to future events, based on what we believe are reasonable assumptions. These statements, however, are subject to certain risks, uncertainties and assumptions, including, but not limited to:

- . uncertainties inherent in the exploration for and development and production of oil and gas and in estimating reserves;
- . unexpected future capital expenditures (including the amount and nature thereof);
- . impact of crude oil price fluctuations;
- . the effects of competition;
- . the success of our risk management activities;
- . the availability (or lack thereof) of acquisition or combination opportunities;
- . the impact of current and future laws and governmental regulations;
- . environmental liabilities that are not covered by an indemnity or insurance, and
- . general economic, market or business conditions.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those in the forward-looking statements. Except as required by applicable securities laws, we do not intend to update these forward-looking statements and information.

DISCLOSURE OF YEAR 2001 ESTIMATES

The following table reflects the Company's current estimates of certain results for the third quarter of 2001, the fourth quarter of 2001 and the year ending December 31, 2001. These estimates are based on assumptions and estimates that management believes are reasonable based on currently available information; however, management's assumptions and the Company's future performance are both subject to a wide range of business risks and uncertainties and there is no assurance that these goals and estimates can or will be met. Any number of factors could cause actual results to differ materially from those in the following table. The estimates set forth below are given as of the date hereof only based on information available as of the date hereof. The Company undertakes no obligation to publicly update or revise any forward-looking statements. Further information on risks and uncertainties is available in the Company's filings with the Securities and Exchange Commission ("SEC"), which are incorporated by reference herein.

NOTES:

1. Estimated Sales Volumes. Production estimates are based on historical operating performance and trends and the Company's 2001 capital budget and assume that market demand and prices for oil and gas will continue at levels that allow for profitable production of these products. Certain of the Company's operations in California that have interruptible electrical contracts have been adversely impacted by electrical service interruptions. The Company estimates that its oil and gas production for the first six months of 2001 was adversely affected by approximately 60,000 BOE, as a result of such interruptions. Although under recent regulatory rulings the Company believes that its operations will only be affected if rolling blackouts occur and the Company has made operational changes to mitigate the effects of electrical interruptions, there can be no assurance that operations will not be adversely impacted in the future by the California power market.

Edgar Filing: PLAINS RESOURCES INC - Form 8-K

SEC Staff Accounting Bulletin 101 ("SAB 101") requires that revenue from crude oil production be recognized as the volumes are sold versus when produced. Due to the location of the Company's Florida properties and the transportation issues involved, reported sales volumes are impacted by the timing of the barges that transport the crude oil. The Florida crude is typically sold in shipments that range from 130,000 to 180,000 barrels.

2. **Estimated Oil Price Differentials.** The Company's realized wellhead crude oil price is lower than the NYMEX index level as a result of area and quality differentials. The Company has locked in a fixed price differential to NYMEX on approximately 65% of its estimated 2001 production volumes. Third and fourth quarter estimated differentials by area are: Onshore California - \$4.50 per barrel, Offshore California - \$6.85 per barrel, Florida - \$14.00 per barrel, and Illinois - \$.80 per barrel and are based on current market conditions. The estimated hedging gain(loss) is calculated based on the NYMEX prices presented and the Company's current crude oil hedge positions.
3. **Operating Costs per BOE.** Production expenses (including production and ad valorem taxes) averaged \$7.01 per BOE in 2000. The Company estimates that production expenses will average \$8.00-\$8.25 per BOE during the third quarter of 2001, \$7.75 - \$8.00 per BOE during the fourth quarter of 2001, and \$7.60 - \$7.80 per BOE for the full year primarily due to increased electricity and fuel related expenses. Unit G&A costs exclude nonrecurring costs related to the strategic restructuring that we completed in June 2001. DD&A per BOE is based on our year-end 2000 proved reserve volumes.
4. **Other Income (expense).** Equity in earnings of Plains All American Pipeline, L.P. (NYSE: PAA) is based on guidance provided by PAA in its August 7, 2001 earnings release conference call and an aggregate ownership interest of approximately 33%, consisting of (i) a 44% ownership stake in the general partner interest and incentive distribution rights, (ii) 48%, or approximately 4.5 million, of the subordinated units and (iii) 28%, or approximately 7.9 million of the common units. The Company currently owns 46% of the general partner interest. For purposes of the estimate provided, it is assumed that PAA management exercises its option to acquire an incremental 2% ownership in the general partner of PAA.

Estimated interest expense consists of interest expense on the \$275 million of subordinated notes, net of capitalized interest of approximately \$.9 million per quarter and assumes no outstanding amounts on the Company's revolving credit facility. The Company incurs a non-use fee of 3/8ths of 1% per annum on its \$225 million revolving credit facility.

5. **Book Tax Rate.** The Company's book tax rate is based on an adjusted Federal rate of 33% and an estimated combined foreign and state rate of 7%. The foreign tax is attributable to the Canadian operations of PAA. The Company's deferred and current tax rates are based on current estimates of taxable income and utilization of net operating loss carryforwards.

4

6. **Equivalent shares outstanding.** Estimated basic shares outstanding are based on shares outstanding on June 30, 2001, net of treasury shares. Estimated diluted shares are based on basic shares outstanding,

Edgar Filing: PLAINS RESOURCES INC - Form 8-K

plus shares issuable upon conversion of preferred stock and outstanding options and warrants utilizing the treasury stock method for the options and warrants.

7. Distributions from Plains All American Pipeline, L.P. The third and fourth quarter cash distributions are based on PAA's recently declared \$.50 per unit distribution. The third and fourth quarter estimates are based on a 46% and 44% general partner interest, respectively. The full year estimate reflects the actual distributions received in the first and second quarter plus the third and fourth quarter estimates. The amounts presented reflect estimated cash payments to be received from PAA and have not been adjusted for cash taxes attributable to the Company's equity in earnings of PAA.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

PLAINS RESOURCES INC.
